The Norwich Art association opened the season's activities Monday evening by a departure from the customary form of meeting in Slater hall, it being nothing less than a reception given to the members by Mrs. Leonard C. Smith at her spacious home "Oldelms," on Washington street.

An unusually large number was present when the meeting was called to order by the president, Miss Hannah Crowell. Routine business occupied only a short time. The treasury showed a balance of over $500. The program committee, through its chairman, Miss Harriet R. Trumbull, announced plans for the presentation of living pictures at the meetings this year. The museum extension committee also had an interesting report.

The interest of the evening centered in the exhibition of sketches made by Miss Eloise Smith, who, after graduating from Wellesley college, took up art work in Miss Child's School of Arts and Crafts in Boston. During the summer Miss Smith went to Italy with a group of advanced students and the sketches shown were done in five weeks of intensive study at the summer session of the school in Florence. Her work included subjects chosen from scenes in and around Florence and details of famous pictures in the Uffizi and San Marco galleries and a watercolor portrait and small pencil sketches of architectural details. There is brilliant color shown in her work and noticeable variety in treatment, ranging from impressionistic through modern and expressionistic mode. The flat planes of the modern work and the more familiar treatment of the Italian primitives form a pleasing contract. A note of humor was added to the exhibit by the gay Russian designs for a dancing tableau.

Among the copies from early masters are seen a head from Botticelli, Annunciation from Fra Angelico, Resurrection from Francesca.

In her original sketches are noted a doorway in Frisole, a street scene in Arezzo, a tower of the palace of Sforza in Milan, the Ponti Vecchio, and French scenes in Normandy.

An unusual exhibit of Miss Smith's talent was shown in three character masks, molded by her from blotting paper and skillfully tinted, for use in dramatics and dancing.

It was a great privilege to see several leaves from ancient missals dating from the twelfth to the fifteenth centuries. These are really museum pieces and were brought into this country by Miss Smith by special vice of the consul. The leaves are of parchment, illuminated by hand in lapis lazuli and gold leaf the strange old notes of the music, like square blocks standing in seeming confusion among the lines of the staff.

After all had enjoyed a social hour, Henry LaFontaine rendered two vocal numbers in excellent voice. His selections were: Duando Cadran by Tosti and On the road to Mandelay by Speaks.

Mrs. Smith was assisted in receiving by her sisters, Miss Cecile and Miss Hannah Crowell, and her daughter, Miss Eloise Smith.

Refreshments were in charge of the hospitality committee, Mrs. Frederick Sayles chairman.

The officers for the current year are: President, Miss Hannah Crowell; vice president, Mrs. Albert Van Wagenen; treasurer, Mrs. Fred Sudlow; corresponding secretary, Miss Mabel Talcott; recording secretary, Miss Ina Ufford; councillor for three years Mrs. Oxias Dodge; program, Miss H. R. Trumbull; press, Mrs. E. T. Phillips; museum extension, Mrs. Philip Johnson; admission, Miss Amanda Fisher; hospitality, Mrs. F. T. Sayles; auditor, Frank Hempstead.

FINED FOR $5 THEFT AT GAME OF POKER

At the Monday morning session of the city court Stephen Shea, 21, was presented before Judge Arthur F. Libby on a charge of theft of $5 from Mabel Gurley Sunday night. He was fined $15. He was arrested late Saturday night in a raid of Mrs. Gurley's house at 9 1-2 Forest street, being charged as a frequenter of the alleged gambling place. He denied his guilt. Several witnesses told of how he grabbed $5 from a table at which a poker game was in progress.

Mrs. Gurley was fined $10 and costs for running a gambling place. Mrs. Gurley claimed that when Shea went to her house he asked her to get him a half pint of liquor. She informed him she wasn't going to get him any liquor and then Shea took the $5 off the table. A $5 bill was found tucked away in one of Shea's shoes.

George Adams and Eugene Robitaille, both of Fort Wright, who admitted they were engaged in playing poker when the police broke up the game were each fined $5 and costs.

The frequenting charges against Shea and two others, named Mitchell and Moriarty, were not pressed.

NORWICH BUSINESS MAN SUES WORCESTER ATTORNEY

(Special to The Bulletin)

WORCESTER, Mass., Oct. 10—Aaron Gordon of Norwich, Conn., understood to be a prominent Norwich business man, has filed a new suit for $5,000 in the Worcester county superior civil court in the real estate war in which Mr. Gordon is figuring. The latest suit is brought against Louis E. Feingold, widely known Worcester attorney, and charges misrepresentation regarding a mortgage which the lawyer was alleged to have negotiated.

A few weeks ago Mr. Gordon filed attachments for $125,000 against the property of Isadore Katz, Eli Leavitt and Attorney Feingold, together with the M. J. B. Realty Co. of Worcester, in connection with a bill in equity in which the Norwich man made sensational charges. Mr. Gordon charged in the equity suit that "sometime during the year 1925 or prior thereto, the respondents concocted and entered into a scheme for the purpose of defrauding him.

FRESHMEN AT STORRS GO THROUGH THE POND

(Special to The Bulletin)

STORRS, Oct. 10—Sophomores of Connecticut Agricultural college won the annual rope pull with the freshmen held here this afternoon, following which every male member of the entering class had to splash his way through the mud and slime of the duck pond as a penalty for losing.

The freshmen put up a plucky fight, giving the sophomores an even battle most of the time and for a few brief moments actually holding an advantage. Their inexperience, coupled with the fact that the entering class has to pull from a less favorable position, was enough to cause the frosh to go down to defeat, which in this particular contest means "through the pond."

A crowd of more than 600 watched the contest.

GETS $50 REMITTED ON HIS FINE OF $200

William Lappas, 35, South Manchester, was fined $200 and costs at the Monday morning session of the city court on a charge of driving while under the influence of liquor. He was arrested Saturday afternoon by the local police. $50 of the fine was remitted.

Albert DeRosier was fined $15 and costs for intoxication, breach of the peace and resisting an officer. When arrested by Officer Joseph Farrell, DeRosier tore the officer's coat and kicked him in the stomach, it is said. One man was sent to the state farm for six months, another paid $5 and costs for intoxication and a third paid $2.25 for violating the fish and game laws.

ORGANIZING 4 H CLUBS FOR SEASON'S WOKR

There are many 4 H clubs being organized at the present time so they will be ready to start a new year's work November 1st, says a statement issued Monday from the office of the New London county farm bureau in the Shannon building.

4 H clubs are rapidly coming to the front in New London county. Perhaps there are some who wonder what the 4 H mean; One is for head, one for heart, one for health and one for hands. Every 4 H club member pledges himself to clearer thinking, greater loyalty, better living and greater service to his club, his community and his country. The club motto is: To make the best better. The four leaf clover is the emblem of the 4 H club.

Four H clubs are organized in sewing, cooking, canning, poultry, sheep, dairy, swine, garden and health, besides other household and agricultural enterprises.

Any boy or girl over twelve years of age who is willing to carry on some one of the above enterprizes is elegible to enter provided he or she will do the work, keep a record, and live up to the simple requirements of a club member.

If there are a half dozen boys or girls in any town in the county who are really interested in club work and an older person who likes and understands children, to take charge of them, they should get in touch with the farm bureau director or the county club leader. The county club leader for this county is R. W. Whaples, Shannon building, this city.

WEDDINGS

Walker-Whitmore

Ensign Edward K. Walker, U. S. N., who is stationed at the submarine base at New London and Miss Miriam Whitmore of Newton Highlands, Mass., daughter of Mr. and Mrs. Howard Whitmore, were married Saturday evening in St. Paul's Episcopal church, Newton Highlands. Rev. Holmes Whitmore, an uncle of th bride and rector of St. Paul's church in Milwaukee, Wis., performed the ceremony, assisted by Rev. Charles O. Farrar, rector of the church.

Howard Whitmore, Jr., a brother of the bride, was the best man and Miss Helen G. Ball, of Newton Highlands, attended the bride as maid of honor. The bridesmaids were Miss Ruth Walker, a sister of the bridegroom, of Portland, Me., Miss Dorothy Browne and Miss Katharine Taylor, both of Newton Highlands, and Miss Barbara Kendall, of Newton Center.

Four ensigns and two civilians were the ushers, including Ensign James B. Harlow, Ensign P. G. Eggers, Ensign John Eller and Ensign W. C. Latrobe, all of New London, Conn.; Holmes H Whitmore, of Newton Highlands, a brother of the bride, and Henry Whitmore, Jr., of West Newton, a cousin of the bride. The naval officers were all in full Naval dress.

The bride's gown was white crepe satin and she wore her mother's wedding veil of tulle, with a crown of old lace. Her flowers were white roses and white sweet peas. The maid of honor was gowned in peach-colored chiffon and carried yellow chrysanthemums and blue larkspur. The bridesmaids' gowns were of peach and flame colored chiffon with flaring skirts. They wore brown velvet picture hats and carried bouquets of autumn leaves and chrysanthemums.

Ensign Walker and his bride will reside at New London.

Leary-Rubel

At 8 o'clock Monday morning Joseph Michael Leary, son of Mr. and Mrs. James Leary of No. 47 Thames street, and Miss Florence Rubel, the daughter of Mrs. Magdeline Wamsiski of No. 56 School street, were united in marriage at St. Patrick's church by Rt. Rev. Msgr. Michael H. May. Many relatives and friends were present at the wedding. Miss Isabelle Petrono had charge of the musical programme.

The bride was gowned in pink velvet. Her bridesmaid was Miss Mary Pechenet who was gowned in blue georgette and carried a bouquet of tea roses. The bride's bouquet was of white roses and lilies of the valley. Michael Rubel, a brother of the bride, was the best man.

Following the wedding ceremony there was a breakfast and reception at the home of the groom's parents and later in the day Mr. and Mrs. Leary left for a wedding trip to Maine and Canada, by automobile. On their return they will reside with Mr. Leary's parents, at No. 47 Thames street. The bride's traveling costume is a tan suit. The bride received numerous and beautiful wedding gifts. Mr. Leary is employed as a chauffeur.

Ames-Chappell

Roy Olin Ames, son of Mr. and Mrs. Fred B. Ames of Lyme and Miss Marguerite Chappell were united in marriage Saturday afternoon at 2 o'clock at the home of the bride's parents, Mr. and Mrs. George H. Chappell of Lakes Pond, Waterford. The ceremony was performed under an arch of gladiolus and autumn leaves. The bridal party entered the room as the bridal chorus from Lohengrin was played by Miss Cora Chappell, a cousin of the bride. Rev. George R. Atha of Groton was the officiating clergyman, the double ring ceremony being used.

The bride was charmingly gowned in white georgette, with veil caught by orange blosoms and carried a bouquet of bridal roses. She was attended by her sister, Gladys Chappell, who was attired in a gown of pink georgette crepe and carried a bouquet of pink roses. Emil Hugo of Hartford was best man.

After the wedding ceremony a collation was served to about 75 guests from Waterford, Lyme, New Rochelle, Hartford, Lebanon, Salem, South Manchester and Niantic.

The bride received many beautiful gifts of gold, silver, cut glass, linen and furniture.

The bride has been a teacher in Chapman Technical high school for the past three years and the bridegroom has been connected with his father and brother in the development of the Pythian farm in Lyme.

Mr. and Mrs. Ames left for an automobile trip to Niagara Falls and will take up their residence in Waterford on their return.

Byles-MacDougall

Robert H. Byles of 310 Thames street, Groton, and Mrs. Maude T. MacDougall of 124 McKinley avenue, were quietly married at the home of Rev. C. H. Ricketts Monday morning. The couple was unattended and left for a week's trip shortly after the ceremony. Mr. and Mrs. Byles will make their home in Groton.

Mr. Byles is a funeral director located in Masonic street, New London.

Auspicious Reception at Y. M. C. A.

One of its most successful fall receptions in many years was held at the Y. M. C. A. Monday evening when a large number of the senior members and friends were in attendance. Promptly at eight o'clock Swahn's orchestra opened the occasion with several spirited and well played selections; the members of the orchestra were as follows: John Swahn, cornetist; Fred C. Geer, pianist; John Dougherty, violinist and Adolph Heinrich clarinetist. The selections were heartily applauded. Judge Alyn L. Brown one of the vice presidents of the Y. M. C. A., in well chosen words cordially welcomed the audience and expressed the hope that they would visit the building. The entertainment of the evening consisted of an eight-reel feature moving picture which was greatly enjoyed, the orchestra music being most appropriate to the occasion and fitted the picture perfectly.

After the pictures had been shown, ice cream and cakes were served. The committee in charge of the reception was Harold Robbins, Arthur F. Wyman and E. Arnold Smith, the last named decorated the lobby for the occasion.

Barbecue at Pythian Farm Home

For the second time this season when a special event was planned to be held at the Pythian Farm Home in Lyme and East Haddam rain seriously interfered with the program, but about 500 were at the home Sunday in response to the invitations sent out by Superintendent Fred B. Ames for a free barbecue.

A large steer was roasted in a specially prepared pit and this with green corn and all the "fixin's" was served to the gathering. Speeches explaining the farm home project were made.

EIGHTY TOWNS IN LIST ELIBIBLE FOR NURSING HELP

Eighty towns in Connecticut are eligible for state aid for public nursing, according to a list submitted to the state department of health by the tax commissioner. A bill passed by th last general assembly appropriated $30,000 for this aid for a two-year period to go to towns having actual tax receipts of less than $50,000 last year and making proper application for such aid.

The state will pay various towns anywhere from $200 to $1,800 for this aid. It costs approximately $2,500 to maintain nursing administration (for one nurse) in a town a year. The town concerned will appropriate the balance of the sum needed for the service.

The towns will receive aid on a percentage of tax receipts basis, those having smaller receipts receiving larger amounts from the state. Only towns with less than $50,000 receipts are eligible. Among the towns on this list are Scotland, Colchester, Durham, Killingsworth, Chester, Ledyard, Rocky Hill, Harwinton, New Hartford, Haddam, Coventry, Ellington, Mansfield, Somers, Colebrook, Hartland, Barkhamsted, Granby, East Granby, Burlington, Avon, Chaplin, Hampton, Tolland, Andover, Marlborough, Bolton, Hebron and Columbia.

TESTIFIES WIFE LIKED GAY TIMES WITH OTHER MEN

Sensational testimony was introduced in the divorce action of William D. Clark of New London against Ruth Butterfield Clark, which was heard on Friday before Judge Newell Jennings in the superior court at Hartford.

Clark stated that his wife possessed a violent temper which once manifested itself when he objected to her going to New Haven. He testified that she would take his car and drive to New Haven where she would remain for the day with Yale men.

He said that while they lived in Cornwall, N. Y., she insisted on going to a questionable road house in Newburgh, with other friends and he tried to dissuade her. Finally, he said, he went and waited outside while she went in with her friends. After a half hour, he said, she returned showing the effects of drinking.

He said that when he started for home with her in the automobile, she threw a blanket out to make him stop, and when he did not do so she jammed on the emergency brake, almost pitching them through the windshield. He said that in Hartford she once bit him on the arm and cut his eye with an ash tray which she threw at him. He testified that on May 24, 1924, she left him and has never communicated with him or has been seen by him since. They were married Oct. 27, 1923. His witnesses were Thomas T. Wetmore, Jr., of New London and Mrs. Ivy Turner Rosells of West Hartford.

MOTT-TERWILLIGER NUPTIALS AT SOUTH KILLINGLY CHURCH

A pretty fall wedding took place on Saturday afternoon at two o'clock in the First Congregational church at South Killingly when Miss Alice R. Terwilliger, daughter of Mr. and Mrs. Bertrand E. Terwilliger, became the bride of Earl Harvey Mott of Wauregan, son of Mr. and Mrs. Arthur E. Mott, the ceremony being performed by Rev. Harding Gaylord, pastor of the church. The bride was given in marriage by her father and was attended by her sisters, Miss Margaret Terwilliger as maid of honor and Miss Louise Terwilliger as bridesmaid. Francis E. Terwilliger, brother of the bride, acted as best man. The ushers were Allen Oatley and Orville Terwilliger.

The bride was gowned in white satin and lace and wore a veil fashioned of tulle and held in place by a wreath of orange blossoms. She carried a shower bouquet of white roses and lilies of the valley. The maid of honor wore a dress of yellow georgette and black picture hat and carried an arm bouquet of pink carnations. The bridesmaid was in green georgette with black picture hat and carried an arm bouquet of pink carnations.

Miss Thelma Bruce presided at the organ and played as a processional the bridal chorus from Lohengrin. Mendelssohn's wedding march was played as a sarcee ssional. O Promise Me was played during the ceremony. The church was very prettily decorated with autumn leaves and hydrangers. The groo mis a graduate of Plainfield high school and is employed in the office of The ninebaug company, Danielson. Mr. and Mrs. Mott left by automobile for a trip which will take them through Connecticut into New York and Vermont.

HIGH SCHOOL FOOTBALL BOY DEAD OF PARALYSIS

EASTERN CONN. BOYS PROVE TO BE MAINSTAYS OF AGGIE ELEVEN

(Special to The Bulletin)

STORRS, Oct. 10—The husky Arthur V. "Pop" Williams of Danielson, the greatest backfield star to ever represent the Connecticut Aggies, furnished thrills aplenty here Saturday afternoon, when Maine defeated Connecticut Aggies 14-13 before a record breaking crowd.

The Eastern Connecticut boy was the individual star of the game, giving an exhibition of open field running that has never been surpassed in the history of Connecticut Aggie football and his work was a big factor in the scoring of two touchdowns by the Aggies.

Eastern Connecticut was represented well Saturday, not only by Williams, but also by Carl "Red" Geissler of Abington and Seraphino Tombari of Norwich. Geissler played center throughout the entire, hard fought game, and Tombari, a sophomore, played end most of the contest. Williams also played the entire game. As a matter of fact, the Aggies used only thirteen men despite the intensity of the encounter.

Saturday's Maine-Aggie game was easily the most exciting football contest seen here in years, one that saw each eleven playing great football all the way and giving everything to win. It was a thrilling contest between two powerful offensive teams, Maine with the more deceptive and better timed attack gaining more consistently, while the Aggies with the greatest individual star in Williams also gaining considerable ground. In the matter of first downs, Connecticut made 15 as compared with 14 made by the Pine Tree Staters.

Despite the fact that Connecticut's offense had earlier in the game threatened to score, the Aggies seemed hopelessly beaten as the end of the third quarter drew near with Maine in front by a 14-0 count. Williams received an apparently bad leg injury early in the quarter and it was fully five minutes before he was able to rise, before which the Aggie rooters thought their main scoring threat would have to be removed from the game. He was able to resume play, however, and to later lead the great rally that would bring the Connecticut eleven to within one point of tying the count.

After Maine had scored its second touchdown to bring the count to 14-0 in the third quarter, the Aggie attack with Williams featuring rolled on towards the Maine goal line and to make the first touchdown ever made by a Connecticut player against Maine. Ryan ran back the kickoff to the 32 yard stripe, and an offside penalty, a gain through center, and an eight yard slice through tackle by Williams carried the Aggies to mid-field for a first down. Knaut fooled Maine with a hidden ball play and streaked along the side lines for five yards, after which Williams tossed a pretty forward pass to Kennedy which placed the ball on Maine's 26 yard line. A 15 yard penalty for intentionally grounding a forward pass by Ryan set the Aggies back to the Maine 46 yard marker, a penalty which for the moment appeared to kill the Aggie's scoring threat.

Williams figured otherwise, however, for on the very next play he took the ball and on a beautiful end run stiff armed his way around Maine's right wing, slapped down a couple of Maine's secondary defense players with his ever powerful straight arm, twisting and fighting his way to the Maine 8 yard stripe before he was brought down under an avalanche of blue-jerseyed players. It was the prettiest run of the day, a 40 yard sprint that put the ball in scoring position for the Aggies. Two rushes into the line by Williams and Eddy carried the ball to the one foot line when the quarter ended. Eddy scored the Aggies' first touchdown on the first play of the last quarter, making the count 14-7, Maine leading.

Connecticut gained possession of the ball soon after Maine received the kickoff, and once more the husky Eastern Connecticut boy led the Aggie attack as it rolled towards the Maine goal line. Captain Eddy and Ryan carried the ball well in this march also, but it was the Danielson boy who stood head and shoulders above all others. The Aggies worked the ball down to Maine's 6 yard line from which position Williams stood in the end zone and caught a pass from Eddy for the Aggies' second touchdown. Right and Black of Maine blocked Eddy's try for the tying point, and neither team could score in the few minutes remaining to play.

Maine's one point margin of victory came as the result of a penalty, for the first attempt of Peakes for the extra point hit the cross bar and fell short. The point was allowed, however, because of offside in the Aggie line.

Although Williams was of course the outstanding player on the field yesterday, Geissler and Tombari also played good football. Geissler, who is probably one of the lightest centers in eastern college football, weighing only 155 pounds, fought courageously throughout the entire game. He gained for the Aggies a fortunate break in the first moments of the game, recovering the short on-side kick tried by Maine in an attempt to gain possession of the ball at midfield.

Tombari also looked good at right end, playing a strong defensive game and cleaning out well on the defense. He also took a couple of forward passes for good gains. It looks very much as though the former Norwich Free Academy athlete will be a fixture for the Aggies at end this year.

SATURDAY'S UPSETS MAKE PREDICTIONS IMPOSSIBLE

NEW YORK, Oct. 10—(AP)—The rising flood of early fall upsets, as leading elevens of the east train heavy guns for the mid-season classics without first adequately judging the sniping power of immediate foes, threatens to reach a new crest in football clashes of the coming week end.

The early season promise of another great Yale team, shattered by Georgia's bulldog defense in the final minutes of a 14-10 victory last Saturday, may dwindle further in the face of the Brown Bear, itself enraged and somewhat astounded because of the 15-6 slash Penn tore in the Bruin's hide. Brown's ironmen beat the Blue last year, 7-0.

The Purdue tornado that tore through the Harvard stadium and left in its wake a 19-0 wreck of October Crimson hopes also upset the standards of judgment that otherwise would have favored the Cambridge team over Holy Cross' fighting crew this Saturday.

The Worcester eleven downed Dayton 18-0 while the Harvard youngsters were chasing the western will o'the wisp, Ralph Welch, in vain.

Although Princeton tripped through to an impressive 42-0 victory over Lehigh, most anything may happen when the Generals of Washington and Lee visit for an afternoon with the Tiger in Palmer stadium in one of the leading intersectional battles of the day. Last year the southerners held a classy Princeton crew to a tight 7-7 tie.

They appear better equipped this year to battle the Tiger.

Most of the intersectional color of the day will focus on the Municipal stadium in Baltimore where the Navy, co-sharer with Army last season in the highest grid honors of the year, will entertain Knute Rockne's Horsemen of Notre Dame. The issue is in decided doubt, for while the middies point chiefly to the seasonal feature with Army, Notre Dame had some difficulty trimming Detroit last Saturday 20 to 0. Navy was scored on but displayed real power in defeating Drake 35-6.

West Point's cadets look for little more than a workout from Davis-Elkins. Cornell hopes to cuff Michigan State around again in a return game at East Lansing, Mich., while the powerful Pittsburgh eleven will be making life interesting for Drake at Des Moines, Pa. Ancient rivalries, fanned by years of competition, come to life again in the meeting of Pennsylvania and Penn State at Philadelphia; West Virginia and Lafayette's steam-roller at Morgantown, W. Va., Carnegie and Washington and Jefferson at Pittsburgh. Colgate, "softened up" after a strong start by Virginia Poly's 6-0 win last Saturday, tackles a strong Columbia eleven. The battle that gave Georgetown a 13-7 victory last season over the Orange seems destined to be repeated Saturday in a close game at Syracuse.

Little chance of upsets appears in the opposition dished up for Dartmouth and New York university, two of the east's strongest squads, for week end consumption. The big Green may find a tartar in Temple college of Philadelphia, but Chick Meehan's fast travelling N. Y. U., outfit is not likely to be much extended by Fordham.

SALARY RAISES IN ORDER IN YANKEE FOLD

NEW YORK, Oct. 10—(AP)—After refunding approximately $170,000 to world's series ticket purchasers anticipating more than four games, the next financial worry for the New York Yankees seems likely to be its 1928 payroll.

Contracts for next season will not be sent out for some months but there already is the prospect that as a result of the startling performances of most of its stars, the American league champions will be obliged to "raise the ante" for the coming campaign. The payroll of Colonel Jacob Ruppert's athletes already is the highest baseball, estimated to be anywhere from $250,000 to $300,000 for the past season.

The highest salaried individual, the well known Mr. Ruth, already is under contract for next season as well as 1929 at an annual figure of $70,000. In view of the Babe's record breaking home run streak during the regular season and his great work in the series, observers believe Colonel Ruppert made no mistake when he signed his ace to a three year contract agreement calling for $210,000.

Wilcy Moore, the Oklahoma farmer and master of the "sinker ball", already has had his salary doubled, it is said. Reports have it that Wilcy, who signed for only $2,500 this year, his first in the big leagues, later mentioned the subject of a $500 raise to Manager Miller Huggins. After the matter had been referred to Colonel Ruppert, Moore was advised he would get $5,000 for 1927. He now stands to get another boost for 1928.

Mark Koenig, Lou Gehrig, Tony Lazzeri and Earle Coombs, younger stars who all added lustre to their records this year, seem in line for salary increases, as well as George Pipgras, brilliant young right handed pitcher who rivalled the veteran Herb Pennock for series twirling honors.

FOUR KNOCKOUTS ON NEW HAVEN AMATEUR CARD

NEW HAVEN, Oct. 10—(AP)—Four knockouts featured the amateur boxing card here tonight. The results:

Johnnie Marquette, Derby, 105 pounds, defeated Kenneth Roberts, New Haven, four rounds.

Jack Sharkey, Waterbury, 112, defeated Tony Karman, Springfield, four rounds.

Johnnie Murphy, New Haven, 130, knocked out Abe Martin, first round.

Jean Barbeirre, Derby, 120, knock-first round.

Frank Bergin, Waterbury, 114, defeated Joe Pompa, Derby, four rounds.

Bobbie Pease, New Haven, 140, defeated Joe Davies, Waterbury, four rounds.

Jackie Rogers, Oakville, 112, knocked out Frank Bergin, Waterbury, second round.

Bill Leiberman, Springfield, 145, knocked out Steve Coskor, New Haven, first round.

DELANEY READY FOR BOUT WITH RENAULT

BRIDGEPORT, Oct. 10—(AP)—With three more days of training left, before he meets Jack Renault in New York, Friday night, Jack Delaney declared tonight that he would probably enter the ring weighing 177 pounds. Delaney seems to be in excellent condition in his workout this afternoon with Jack Urban and Johnny Fay, two Pittsburgh heavyweights. If Delaney who is the former light heavyweight champion, is successful in defeating Renault he will meet Jack Sharkey, in New York in November.

JONES STRENGTHENS LINE AFTER DEFEAT BY GEORGIA

NEW HAVEN, Oct. 10—(AP)—Head Coach Tad Jones of the Yale varsity today made his first move to strengthen the Yale team after its unexpected defeat from Georgia on Saturday, removing Barry Ryan from center, which proved to be the weakest point in the Yale forward wall, and giving the place to Dud Charlesworth, of the scrub squad. Charlesworth was on the varsity squad last fall but did not get a letter.

The only other change in the first team today was at quarterback, where Bob Hall, 139 pound sophomore signal caller, took the place of Johnny Hoben, who is out because of a bruised hip sustained in the game Saturday. Hoben is not expected to be back for the Brown game Saturday. The other nine positions were held today by the same men who started against Georgia. Scott and Fishwick were ends; Quarrier and Eddy, tackles; Greene and Webster, guards; Caldwell and Decker, halfbacks, and Cox, fullback.

Today's practice was light, consisting of signal drill, and a short dummy scrimmage supplemented by a 20 minute lecture by Coach Jones, who stressed the defects shown in Saturday's game and ways of remedying these faults. The first team will have scrimmages against the scrubs tomorrow and Wednesday afternoon, while two light practices will close the week on Thursday and Friday.

SARAZEN LEADS FIELD IN METRO PRO TOURNEY

GARDEN CITY, N. Y., Oct. 10—(AP)—Gene Sarazen led home a field of 76 in the first round of the Metropolitan Professional Golfers association championship today at the Salisbury Golf club with a score of 147 for 36 holes. The Fresh Meadow professional went through the first round one under par with a 71 but his afternoon round of 76 left him only one stroke ahead of Johnny Golden of North Jersey.

Joe Turnesa of Elmsford, the defending champion, finished the first round virtually out of the running. He took a 76 in the morning and his 84 in the afternoon was the highest score of the lot.

Willie Klein of Wheatley Hills was in third place with 148. MacDonald Smith of Lakeview tied with Leo Diegel of Fenimore for fourth place with 150.

Hied with 151 were Bobb Cruickshank of the Progress club and Charles Mac of Pomonok, while Jack Pirie of Woodmere, George Tompson of Scarsdale and Arthur Manero of Fairview were next with 152's.

The final 36 holes will be played tomorrow.

FAVORITE CAPTURES THE LYNBROOK HANDICAP

NEW YORK, Oct. 10—(AP)—Sport Hallahan, the favorite, captured the Lynbrook handicap, five furlong sprint in today's feature at Jamaica. Doc finished second and Parapraph third. The race was worth $3,800 and the time was 1:08 2-5. Eleven horses went to the post.

The Greentree stable's Tip Top, carrying 96 pounds, won the feature at Laurel, nosing out Prince of Wales in the six furlongs dash. What'll I Do was third. It was a two horse race all the way, with Prince of Wales loking like the winner until the last stride. The winner paid $13.90. The time was 1:12 4-5.

The Pageant purse for the two year olds at Thorncliffe went to Thymon, who stepped six furlongs in 1:14 4-5. Partake was second and Anushka third.

Hawthorne's fourth race was taken by Hot Time, whose time for six furlongs was 1:14 2-5. Sixty beat out Winifred for the place.

BOBBY MAYS GETS VERDICT OVER DAY

NEW HAVEN, Oct. 10—(AP)—Bobby Mays, of New London, tonight defeated Georgia Day, of this city in the feature bout of the Arena A. C. card here, the fight going the entire eight round route.

In the semi-final Alfred Siki of New York won the decision over Jimmy Rossi, of Westerly, R. I., in a six round go. The results of the bouts:

Pete Martin, Porto Rico, defeated Red Garren, Waterbury, in six rounds.

Sammy Cooper, New Haven, won by a technical knockout over Young Emmons of Waterbury in the third round. Both were scheduled for six rounds.

Spike Marino, of New Haven, defeated Frankie Neve, of New York and Joe Trisno, of New Haven won from Ivan Hawes, of New York, both being four round bouts.

Mays came onto the card when Billy Kennedy, of New Orleans, scheduled as Day's oponent, failed to make his appearance.

NEW RECORD MADE AT ROCKINGHAM TRACK

SALEM, N. H., Oct. 10—(AP)—A new world record was established on the Rockingham speedway here today by Frank Lockhart, who attained a speed of 144.2 miles an hour in qualifying for the Columbus day automobile race. His time for one lap of the mile and one quarter track was 31 1-1 seconds.

The previous record was 141.5 miles an hour set last July by Cliff Woodbury.

Mello Wins Again

NEW BEDFORD, Mass, Oct. 10—(AP)—Al Mello, Lowell welterweight, in his first bout since regaining the New England title, stopped Zack Blanchard of New Orleans, substituting for Bobby Podder of Belgium, in the third round of a scheduled ten round bout here tonight.

ACADEMY LEADS HIGH SCHOOLS IN EASTERN CONN. WITH TWO VICTORIES

With all teams having their season well underway and some nearing the halfway mark "crucial" games among Eastern Connecticut grid outfits are beginning to flare up. The "Big Six" of high schools of this section now gets down to brass tacks in the work of battling it out for their unofficial championship.

The Windham-Westerly game at Westerly last Friday was probably the most important tilt between the schools of this section but when these two strong rivals got through nothing definite was gained. It was a scoreless tie, the third Westerly had played.

Other games concerning teams in these parts last week found the Academy nosing out a 7-6 win over a much underrated Torrington club and Bulkeley of New London playing a scoreless tie with East Hartford. The Academy's ancient rival has yet to score this year, losing by one-sided scores on its first two trips out. One bright spot in Bulkeley's play, however, is that the size of the opponent's score diminishes sizeably with each game.

Westerly which comes here Friday for probably the most important game in this section to date, also has not put a point into its scoring column. The usual record of these scoreless ties in as many starts fall the way of the men of Coach Rogers. But, as with Bulkeley, they also seem to be showing improvement in each tilt. Rogers did a bit of scouting at the Academy-Torrington game here Saturday and no doubt plenty of valuable knowledge will be imparted his inexperienced but hard fighting eleven.

Stonington journeyed to Hartford last week and lost a hairline decision to Bulkeley. The score was 6 to 0 but from reports Coach O'Brien's huskies had a little the better of the play. Stonington is another one of the teams around this way that has failed to score. They lost 3 to 0 in their opener against the Alumni.

This is quite an unique situation, having three of the six teams in this corner of New England not having scored a point with over three weeks of the season gone. Chap Tech did not play last week.

Summary of the work of the unofficial "Big Six" to date:

	Won	Lost	Tied	Pct.	Op.	Pts.
N. F. A.	2	0	0	1000	25	6
Windham	1	0	1	1000	26	0
C. Tech	1	1	0	.500	13	13
Westerly	0	0	0	.000	0	0
Bulkeley	0	2	1	.000	0	42
Stonington	0	2	0	.000	0	9

Scholastic Notes

The Academy now has the lead here beyond doubt. They are the only one to win all starts.

Bulkeley dedicates its new athletic plant, Mercer field, Saturday.

The game with East Hartford Friday was played at Morgan park, their former stamping grounds.

The Academy and Plainfield plan to get together in a practice game Wednesday at the campus.

The smallest crowd that has seen an Academy athletic contest in some time saw the football game Saturday. Not much more than 300 were there, the attendance being dwarfed, no doubt, by the rain of the earlier part of the day and the world series.

A decided difference in the number is expected when the Academy and Westerly get together here Friday. These two are the strongest of rivals, each fights to the utmost against the other and to date neither has been beaten. It has been a long time since N. F. A. has been able to boast of a win on the gridiron over Westerly and whether this year's edition is capable of turning the trick the trick remains to be seen

"Red" Fidell, N. F. A. lineman in '25 and '26 is one of 150 out for the Brown fresh.

PETE LATZO KNOCKS OUT WARNER IN SECOND

PHILADELPHIA, Oct. 10—(AP)—Pete Latzo, of Scranton, former welterweight champion, scored a technical knockout over Wyoming Warner, of Laramie Wyo., in the second round of a scheduled 10 round fight tonight.

Latzo floored Warner four times with a savage attack to the jaw and body. The westerner jumped up quickly the first time, but took the count of nine the second and third knockdowns. The final punch was delivered as Warner wobbled about the ring, apparently out on his feet. At this point the referee stopped the bout.

Latzo weighed 167 1-2; Warner 170.

ALL TICKETS FOR ANNUAL YALE-ARMY GAME SOLD

NEW HAVEN, Oct. 10—(AP)—A complete sell-out of tickets for the Yale-Army game which will be played here October 22, was announced today by General Manager H. F. Woodcock. Holders of season books whose applications were received before the closing hour last Thursday will receive their tickets, Mr. Woodcock said. There will be no public sale.

Dartmouth game applications will close at 5 o'clock Wednesday afternoon, while applications for the Princeton game closes at the same hour on Thursday, October 20.

WINDHAM AND WESTERLY PLAY A SCORELESS TIE

Westerly high school football eleven Friday afternoon played its third scoreless tie game of the season on the Westerly athletic field. Their opponents were the Windham high football team of Willimantic. Before a large gallery W. H. S. blue and white players played an aggressive game, the best ever so far this season, both offensively and defensively. In the last quarter Westerly nearly scored a touch-down in having the ball on Willimantic's 6-yard line.

Finley Kayoes Cooney

HOLYOKE, Mass., Oct. 10—(AP)—Jimmy Finley, Louisville, Ky., welterweight scored a technical knockout over Danny Cooney of Philadelphia in the fourth round of the main 10 round bout here tonight. Coney was knocked down five times and was out on his feet when the bout was halted.

Finley weighed 147 1-2, Cooney 145 1-2.

Harry Scott 134 1-2 of Jersey City won on a foul in the fourth round of his 10 round bout with Arnold Ryan of Boston, 133 1-2. Frankie Curcio, 136 1-4, Boston, won an eight round decision over Baby Doll, Waterbury, 134 1-4.

Glick Beats Garcia

NEW YORK, Oct. 10—(AP)—Joe Glick of New York was awarded the decision over Bobby Garcia of Baltimore at the end of 10 rounds of furious fighting tonight. Glick weighed 133 and Garcia 132 1-2.

In the semi-final of six rounds Eddie Guida of New York won by a technical knockout over Reese Broks of Wales. They are lightweights.

Stubbs, Crimson Hockey Coach

CAMBRIDGE, Mass., Oct. 10—(AP)—Appointment of Joseph O. Stubbs, Harvard '21, as head coach of hockey at Harvard was announced today by William J. Bingham, director of athletics. He will succeed Edward L. Bigelow. Stubbs was a defense player on the hockey team while in college and for the last two years has been assistant coach.

OLD-FASHIONED BOOTS WON'T BE TRIFLED WITH

LONDON, Oct. 10—(AP)—London's fashionable women will spend four or five days this winter doing nothing but lacing up high boots. At least, this is the significance of the fact that the old-fashioned high-laced boots which will be the fashion this winter take six minutes and 30 seconds to lace.

The manager of a department store here held a stopwatch while a saleslgirl laced up a pair of the high boots. He found that it took her nearly six and a half minutes to perform this task. Adding together this daily figure he calculated that during the season four or five waking days would be consumed merely in the process of lacing high boots, not counting the time of unlacing them.

Russian boots will not be worn this winter in London, so the fashion authorities have decreed with the sentence that "Russian boots are as dead as Tutankamen." Women, they say want a boot which will shape to the ankle.

WOMAN PATENT LAWYER PRACTICES IN BERLIN

BERLIN, Oct. 10—(AP)—Berlin boasts of having the first woman patent attorney in Germany.

Fraeulein Frieda Herzfeld-Hoffmann, a physicist, decided there was more money in advising inventors how to protect the results of their investigations than there was in sitting behind Leyden jars and other physical laboratory paraphernalia. She therefore switched over from science to law, and recently qualified as the first woman patent attorney in Germany.

DREYFUSS DENIES PIRATES ARE SOLD

PITTSBURGH, Oct. 10—(AP)—Officials of the Pittsburgh National league baseball club tonight reiterated emphatically their denial of reports that the team had been sold.

Rumors that Barney Dreyfuss, Pirate owner, had disposed of the club, circulated in Pittsburgh last week These reports were revived today when the New York Evening World published a story reporting the sale of the club for $3,000,000, to Lew Wentz former Pittsburgher, and now an Oklahoma oil operator, and James Crawford, retired Western league magnate.

Dreyfuss was kept busy all day denying the reported sale. When he received a telegram from the Evening World, asking for the details of the sale, he replied that the club had not been sold and that no offer had been made for its purchase.

"There is absolutely no truth in the report, and there never was the slightest foundation for it," said Dreyfuss. "Mr. Wentz has made no offer for the club since the occasion several years ago when he expressed a desire to purchase control but his advances were declined. No offer for the club has been made by any other person or persons and there are no negotiations pending or in prospect with anyone."

Sam Dreyfuss, treasurer of the Pirates, seconded the denial but when asked if the club would be sold later he said "anyone would sell almost anything he owned if he were offered a large enough price for it."

Reports of the sale of the Pittsburgh team have been circulated in baseball circles for several years, and, in each instance, Lew Wentz' name has been linked with that of Fred Clark, former Pirate manager, as the purchaser. Dreyfuss denied the report in each instance, pointing that the club was making money, that he was thoroughly satisfied as its owners, and that since his chief interest in life was baseball, he did not intend to sell.

Clarke, assistant manager of the team in 1926, held a stock interest in the club at that time, when the movement was launched by certain players to remove him from the bench, resulting in the release of Babe Adams and Carson Bigbee, and the sale of Max Carey, Clarke likewise severed his connection, and the club purchased the stock he held.

Close friends of Dreyfuss say he will not sell out under any consideration. Some followers of the team, however, believe he would sell in order to get away from the constant strife which has marked the internal affairs of the team since the 1926 shakeup. They point out that even this year Dreyfuss had his troubles, many fans claiming he was behind the benching of Kiki Cuyler, star outfielder. The Cuyler case, they added, caused the owner no end of worry, and kept him busy denying he had anything to do with the incident.

POETRY

Bouncing Bet

A merry, gleeful maiden in a ruffled frock of pink,
She curtsies by the dusty road and by the river's brink;
A laugh and nod for every one, a careless waft of sweet,
And there is bonny Bouncing Bet, a hoyden most complete.

Who gave her this enchanting name to match her gypsy face
I do not know, but well it suits her lithe, unfettered grace;
A little plebeian is she, by cottage doors to grow,
And by the trodden highway side, her witchery we know.

The children like her sturdy bloom, her frank and fearless eye,
That never shrinks from sun or rain, that dares the darkest sky;
No dainty palace lady she, but damsel of the loom,
Who spends her summer spinning her fair rose-tinted bloom.

Oh, Bouncing Bet, be good to me; your happy secret spell,
How is it that your ruffled frock can always 'tit so well?
How is it that you never fade, but wear your blushing pink,
So freshly and with unconcern, where other flowers shrink?

A sweet Salvation Army lass, you stand and preach to me,
You bid me from the sordid fear, the anxious thought be free.
A little preacher in the lane, a teacher by the road,
You lead my thoughts to One who lifts the heft of every load.

—By Margaret E. Sangster.

Pageant's Climax

We welcomed spring, but did not cherish it,
Knowing the lavish summer lay ahead.
Now, with the floral pageant all but sped,
We gaze, insatiate, at every bit
Of transient splendor, lest our eyes omit
One detail from those last exhibits spread
On every side, the maples, burning red,
The woodbine and the sumac, autumn-lit;
The distant pastel landscape that appears
Veiled in the chiffon of September haze,
Or like a memory of other days
Viewed through the dreamy lavender of years.
The nightly stars, a lustrous company,
That point the finite to infinity.

—Alice Lawry Gould in The Christian Science Monitor.

Toothpicks may be social outlaws, but every year their production increases by millions, says a Chicago manufacturer of the wooden slivers. However, the wheels of the toothpick industry are not kept running to supply the use for which they were originally intended. It is such things as using them to teach the baby to count, sticking three decker sandwiches together and resorting to toothpicks when the poker chips run out that boosts production.

A little gray mother cat and her three kittens held up traffic on one of the busiest street intersections of Dallas, Tex. Appearing at the corner with three wabbly images of herself, the cat picked up one and started across the street. The two kittens on foot shakily followed. The mother took refuge under a street car and gathered her family there to await better conditions. A traffic policeman spied her, signaled the motorman to hold his car and all traffic remained at a standstill for several minutes until the cat and her young were placed on the opposite sidewalk.

PILOTS ASKED TO FLY HIGH ABOVE HOSPITALS

BERLIN, Oct. 10—(AP)—German hospitals and sanitariums have made a joint request to the German Air Pilots society that aviators should be asked to refrain from flying at low altitude over these institutions so that patients may not be alarmed or disturbed.

The Society has replied that they will be glad to instruct members to avoid hospitals if the buildings can be made recognizable from aloft by a Red Cross flag or other indication on the roof.

WILLIAM THOMAS DIES AT HIS HOME IN PAWCATUCK

(Special to The Bulletin)

WESTERLY, Oct. 10—William Thomas, 73, died at his home in Pawcatuck this afternoon following a long illness. He was born in England and coming to America later, made his home in Pawcatuck. Besides his wife he is survived by three daughters, Mrs. Henry A. Stahle, Mrs. Crist Ferraro and Mrs. Carlton Tucker, two sons, William of East Douglas, Mass., and Walter of Scranton, Pa. He was one of the oldest members of Pawcatuck lodge, No. 99, A. F. and A. M., of Pawcatuck.

CHAS. L. LEONARD DEAD WAS NORWICH WAR WORKER

(Special to The Bulletin)

WESTERLY, R. I., Oct. 10.—Ill since Friday, Charles Dudley Leonard, of Pawcatuck, died Sunday evening at 7:15 o'clock. He was born in Pawcatuck, Nov. 19, 1873, the son of George and Susan Leonard. For many years he was employed at the printing press plant of the C. B. Cottrell and Sons Co., where as a boy he learned his trade and at the time of his death was a night foreman. During the World war Mr. Leonard was employed at the Marlin-Rockwell plant in Norwich, making daily trips to his home in Westerly.

Mr. Leonard held membership in Pawcatuck lodge, No. 99, A. F. and A. M. of Pawcatuck and in Westerly Masonic club, No. 176.

He was united in marriage on Nov. 21, 1894, with Louisa F. Stillwell, by whom he is survived. He leaves also two sons, Earle Leonard of New York and Howard D. Leonard of Pawcatuck and a daughter, Miss Marion Leonard, of Pawcatuck.

ITALIAN RESIDENTS PLAN COLUMBUS DAY CELEBRATION

(Special to The Bulletin)

WESTERLY, Oct. 10.—Columbus day observance in Westerly this year will include besides a general display of American and Italian flags a short street parade at 1 p. m. with a concert by a Providence band in Wilcox Park followed by a meeting at 2 p. m. in the Westerly Town hall the use of which was granted by the town council. Among speakers announced are Attorney Benjamin Cianciarulo, a Providence representative in the Rhode Island general assembly and Prof. V. E. Cingregrana of Boston. Some of the addresses will be given in Italian and others in English.

At 6 p. m. the Colonial band will go to the Westerly Athletic Field off High street, where another concert of classical airs and patriotic selections will be rendered. This will be followed by a display of fireworks as in previous years, beginning just before 9 p. m.

New London, Mystic and Pawcatuck sportsmen are interested in the proposed meet of the Anguilla Gun club, when representative teams will compete in a shoot to be held on traps installed for the purpose. The meet will include a clambake to be held at Barnes Point, Brightman's Pond, Sunday next. William G. Hull from Portland, Me., will give a demonstration of different calibre rifles and gauge guns, using all sorts of targets. Women friends of the club members have been invited also.

Architect George Ernest Robinson, of Boston, whom the building committee of the Westerly Fire district has engaged to prepare plans and specifications for a new central fire station was a Westerly visitor the past week end. He met with some of the committee members for a short time in the evening and went over the proposed site. Blueprint plans, prepared by Engineer Louis J. Rossi, secretary of the First District committee, were available at the time, not only showing the size of the lands, recently added to by purchase and now the property of the district, but also the location and size of neighboring and adjoining buildings. The legend included grades on the district and adjoining properties and the grades of the present and proposed changes in the new layout of Union street. Architect Robinson, who has specialized in and makes a hobby of fire station designing and construction, declared that the prints and details supplied him with the best information he has had to work with in many parts of New England and New York state.

The following transfers have been recorded in the office of the Westerly town clerk:

Oct. 8. Michael Capalbo to Benedicette Cerza land on the west side of the Westerly-Bradford highway, adjoining lands formerly of Vincenzo Vitto.

John H. Austin to Lucia Finizio, land on the south side of the highway from Westerly to Ashaway, on the Norman Farm and on the south side of a proposed road leading to the Boy Scout camp.

Knight Finance corporation to Harry M. Dobson of Providence, lots Nos 14 and 16, White Rock.

Knight Finance corporation to John J. Burns, lot No. 11, White Rock.

Attached to the end of the westbound express, New Yorker, due at the Westerly station at 1.43 p. m. on Monday were two Pennsylvania R. R. sleepers occupied by home-bound American Legionnaires. They were passengers on the Cunard Line steamship, Carmania, which with newly-elected nalonal Legion commander Edward E. Spofford, sailed from Southampton and Queenstown and which docked at East Boston Monday morning.

Don't Ignore Acid Scalp!

We have all been too close to people whose hair had a noticeable odor. It is due to an acidity that soap and water are powerless to prevent. You may not have acid scalp. Or you may have it and not know it. But dandruff should make you suspicious, and hair that "strings" is a sure sign.

When hair has a dull, "dead" look after curling—and the wave is all out a few hours after use of the iron—it is time to use Danderine. Just a few drops of this highly scientific preparation will check acidity, and give your hair such lovely softness that dressing it will be a delight. It will arrange easily, and stay as you arrange it. Every particle of scale will be dissolved. It makes an amazing difference. And for only thirty-five cents, your druggist will give you a bottle of Danderine that will last for weeks!

STATE MOTOR VEHICLE INSPECTOR DENIES LICENSE TO NEW LONDON MAN

(Special to The Bulletin)

NEW LONDON, Oct. 10.—Peter Albano, 91 Truman street, was denied the return of his driver's license by Philip E. Devnow, state motor vehicle inspector, at a hearing this afternoon in the county court house here. Albano attempted criminal assault upon a young married woman in his automobile at Gallows Lane several months ago for which offense he was heavily fined in the superior court. In denying Albano the latter's license, Inspector Devnow told Attorney G. Curtis Morgan, counsel for Albano, that the inspector did not consider Albano entitled to a return of the license within the short time since the commission of the latter's crime and the request for the license. Inspector Devnow approved the return of the drivers' licenses of Clifford D. Faith, Lyme; John Fernandez, Newport, R. I., and Herbert R. Maynard, 22 Viets street, all of whom suffered the loss of licenses after they had been convicted of driving while under the influence of liquor. Edward Harper, Huntington place, Norwich, was returned his license upon the assurance of Harper that he would drive an automobile only for his employer. Harper was convicted of driving while under the influence of liquor, after his auto had been wrecked in Waterford several weeks ago. Inspector Devnow also returned the licenses of Robert B. Coleman, 38 Hill street, revoked for driving while under the influence and Dominick Lombardo, Westerly, who figured in a fatal accident. John F. McGourty, Mullin Hill road, Waterford, recited his version of being injured six months ago, when an auto driven by Philip Adel, of this city, struck McGourty. McGourty suffered a fractured leg and after being discharged at Lawrence-Memorial hospital, fell downstairs and sustained another fracture.

Maurice F. Rowe, Broad street, Groton, was charged with intoxication. Rowe went to police headquarters at 3 o'clock Sunday morning and declared that he had been held up on the Thames river highway bridge. He said that he had been seized and tied to a guard rail and that his money, consisting of $20 had been stolen. Rowe said that after he had been robbed the thief disappeared and went to Riverside park although the night was dark and the park is located a long distance from the location of the alleged robbery. Rowe did not explain how he liberated himself. A search was made for the alleged thief, but he was not found and afterwards Rowe was arrested, when he was found drunk.

Laura Fulford Floyd, colored, of 18 Stony Hill and Fred Brown, 8 Schoolhouse lane, were presented on charges of intoxication and breach of the peace. Mrs. Floyd was fined $5 and costs and Brown's case was continued to tomorrow morning, he furnishing a surety on his bond of $50 for appearance. Brown and the Floyd woman engaged in a row on Potter street Saturday night and just before Patrolman Lawrence Fardy appeared, Brown was hurling stones at police headquarters. Today when court adjourned and Patrolman Fardy and Officer Albert Iverson were standing on North Bank street, Mrs. Floyd's son, Henry Fulford, North Bank street barber, attacked Officer Fardy with a flow of abuse, for arresting his mother, suggesting that the officer pay more attention to the actions of sailors than to petty street rows. Fulford was so abusive that Fardy finally arrested Fulford and it was then that Fulford, who has a reputation, as a pugilist, attacked Fardy. Patrolman Albert Iverson was at hand and Fulford was lodged in a cell where he can think over his conduct before he is presented before Judge Victor Prince.

About fifteen drunks were included in the batch to be disciplined by the court.

Mrs. Josephine A. Hansen, 48, widow of Hans Hansen, died this morning at her residence, 15 Center street, after a lingering illness. Her husband died a year ago this month. Mrs. Hansen, who was born in Norway, had resided in New London many years. She is survived by four sons, Ralph Hansen, Michigan; Carl Hansen, Providence and Harry and James Hansen, of this city; and by two daughters, Misses Ethel and Florence Hansen of New London; four sisters, Mrs. A. Christophersen, this city and Mrs. James Morrissey, New Bedford, Mass., the other two residing in Norway. Two brothers, John and Carl Christophersen, also survive.

Charles W. Rice, 75, of Bridgeport, died Saturday at Odd Fellows' home, Groton, after a brief illness. Mr. Rice had been a resident at the home but a short time. He was born in Boston and for many years was employed as car inspector by the New York, New Haven & Hartford railroad.

Patrick J. Bransfield, 75, died Saturday night at his residence, 17 Harrison street. Mr. Bransfield had been in failing health for several years. He is survived by a daughter, Mrs. Gurdon Miller. Mr. Bransfield was for many years employed on steamboats and afterwards was employed by Starr Brothers as porter, later was ticket collector at the Lyceum and Crown theatres. His last employment was as night watchman at Palmer Brothers' mill.

Two patients at Norwich State hospital, escaped today and the police of this city have been requested to maintain a watch for the men. One is Frank Williams and the other is George Colton. Williams is described as being 29, about five feet four inches in height, weighs about 134 pounds and has dark hair. He wore a blue suit and cap and black shoes. Colton is 16, weighs 96 pounds and is about five feet one and one-half inches in height, and has brown hair. He wore light gray trousers, blue sweater and dark blue coat.

Laura J. Bottinelli, of this city, was fined $5 and costs, the latter amounting to $11.55 for violation of the state motor vehicle laws in failing to grant right of way. Miss Bottinelli pleaded guilty. The arrest of Miss Bottinelli resulted after the automobile she was driving crashed against an auto driven by M. Fred Harris on Thames street, Groton.

Commissioner of Motor Vehicles Robbins B. Stoeckel today ordered the return of the drivers' licenses of Pandilis Patterson, 284 Crystal avenue and Walter E. Minaski, United States submarine base, a member of the crew of the S-1. The licenses were suspended three weeks ago.

At the meeting of New London lodge of Elks to be held Thursday night, Past Exalted Ruler Malcolm M. Scott will make his report as a delegate to the grand lodge convention, following which he will be presented a life membership. Several candidates will be initiated and refreshments will be served. A vote will also be taken as to whether the grand exalted ruler shall have power to grant dispensations, to organize subordinate lodges, and to grant permits to subordinate lodges to institute organizations of young men under 21 in the manner prescribed by statute.

Mrs. Olive Calkins, 93, wife of Dr. Frederick W. Calkins, died yesterday afternoon at her residence, 260 Montauk avenue, after an illness of but two days. Friday Mrs. Calkins, who had been in excellent health until then, suffered a shock. Mrs. Calkins, besides her husband, is survived by a daughter, Mrs. Elmer C. Barker, of this city. Mrs. Calkins was a member of the Methodist Episcopal church.

BEACH AND BATH CLUB GIVEN MORE TIME BY CITY COUNCIL

(Special to The Bulletin)

NEW LONDON, Oct. 10 — A special meeting of the city council was held this evening to hear any proposal the Pequot Beach and Bath club should make as to an adjustment of a suit that is assigned for trial in the superior court tomorrow. Judge Waller appeared as counsel for the club and for Lucius E. Whiton, an interested party. He represented that the defendants had no proposal to make at this time, but said that in some three weeks or so they would be prepared to make a proposition looking to an adjustment of the case. He pointed out that the city, in the event that it won the suit, would have an expense to meet that would be some $800 or $1,000. Judge Waller, Judge Calkins and Attorney Frank L. McGuire are the lawyers interested for the defendants while Director of Law Thomas H. Troland represents the city. On motion, it was voted not to proceed in the matter in the superior court tomorrow, but to permit the defendants to present their position for an adjustment of the case. Attorney Troland intimated that he desired to go on with the case, but the council was disposed, on a vote of 4 to 3 to give the defendants more time in which to present a settlement proposal.

It is claimed that the Beach and Bath club has encroached on property of the city and a suit for ejectment is in the works.

JEALOUS WATERFORD YOUTH DAMAGED RIVAL'S AUTOMOBILE

(Special to The Bulletin)

NEW LONDON, Oct. 10—Austin C. Kellogg, 18, of Waterford, was in Groton town court today charged with tampering with a motor vehicle. He was fined $10 and costs, the latter amounting to $11.55. He also made a promise to pay for damages to the automobile of Fred Edgecomb, United States Coast Guard chief petty officer, stationed at the state pier. Kellogg went to Noank Saturday and endeavored to arrange an appointment with a young lady acquaintance. He was disappointed, for the young lady had previously agreed to be the company of Edgecomb. Kellogg became jealous and finding Edgecomb's auto parked in front of the house, slashed a tire and mutilated the ignition wires. When Edgecomb came out and found that his car had been tampered with he made complaint to the state police. Officer John Smith after he had investigated the circumstances arrested Kellogg. The latter finally broke down and admitted his guilt and his arrest followed.

BROWN STUDENT LOSES LEG WHEN CAR HITS MOTORCYCLE

(Special to The Bulletin)

NEW LONDON, Oct. 10.—Albert E. Goodrich, 20, 942 Lake Shore Drive, Chicago and John Stein, 20, 18 Fifth street, Pottstown, Pa., are in New London hospitals, Aldrich probably fatally injured as the result of the motorcycle on which the two young Brown university students were riding being in collision with an automobile driven by Wenceslav Calma, United States Coast Guard, local section base, 4, at Waterford Sunday night. Goodrich is a patient at Home Memorial hospital where his left leg was amputated above the knee a short time following the accident. His condition is reported as critical. Stein is a patient at Lawrence-Memorial hospital suffering from lacerations and abrasions, but his condition is said not to be serious.

Goodrich and Stein were on their way from New York to Providence. In passing through Waterford, the cyclists approached Station 6. As the cycle reached the cross-roads of Niantic road and New Haven turnpike at a point known as Mossbroker's corner the cycle attempted to pass the automobile, a Chrysler. In the guidance of the automobile and the motorcycle, a Henderson, the motorcycle was struck with great force and pushed against a telephone pole, attached to which was a rural metal mail box, Goodrich's leg came in contact with the mail box and was terribly lacerated, besides being crushed. He was taken to the hospital where the member was amputated. Goodrich rallied fairly well, but today he suffered greatly from the shock. Stein was taken to the hospital and he has responded satisfactorily and is expected to recover. Whether Goodrich will survive will not be determined for several days.

Albert Ryley, 55 Adelaide street, is a patient at Lawrence-Memorial hospital suffering from a fractured left leg, sustained Saturday night when the automobile he was driving collided in Waterford with an automobile driven by Mrs. W. F. Harrison, of Essex, in whose car was Mrs. Mary Clark, also of Essex. Mrs. Harrison sustained minor injuries, but Mrs. Clark has lacerations of the face and head and injuries to her legs. She also is a patient at the hospital. The automobile Ryley was driving was towing a disabled car with his brother George at the steering wheel. When the autos reached Station 19 and on a curve, the towing auto crashed against the auto driven by Mrs. Harrison. Ryley was thrown out and the windows of the Harrison auto were demolished.

Miss Agnes Roise, of 15 Maple avenue; Mrs. Cecil Turner and infant daughter, 34 Lee avenue; Miss Mary Dunning, Connecticut College for Women; Mrs. Anton Jensen, Jersey City; Alphonso Colecchia, Mystic; James F. Hardin, Groton; Robert Fraser, Blackhall; John Coritch, 57 Green street; George Stone, Hadlyme; Mrs. Irving Lipton, 283 Huntington street; Mrs. Harold Morrison, 25 Henry street, patients at Lawrence-Memorial hospital, were discharged Sunday and today.

Marie Angus, of 11 Fremont street; Mrs. Ethel Hoey, 17 Masonic street; Mrs. Ruth King, Mystic; Mrs. J. E. Angus, 11 Fremont street and Mrs. Ellsworth Grant and infant son, Quaker Hill, patients at Home Memorial hospital, were discharged Sunday and today.

NEW LONDON, Oct. 10—John Teevens, employed by the Maytag Washing Machine company, was in the police court today charged with driving an automobile while under the influence of liquor. He pleaded guilty and was fined $100 and costs, the latter amounting to $10.32. Teevens could not pay his fine and neither would his employer, so he went to jail. Teevens was supposed to be in Providence today as a witness in a court case, but his arrest and conviction here prevented his going to the Rhode Island city. Teevens was in a club room much of last night drinking. He had one of the company's automobiles parked near the club room and when he started to go to his home about 3 o'clock he was very much under the influence. His condition did not deter him from trying to drive the car, for he entered it and after starting the engine, the auto was driven through several streets. He was observed driving the machine irregularly on Washington and State streets by Patrolman John Clifford, who stopped the car and it was then ascertained that Teevens was drunk. He was taken to police headquarters and locked up.

John J. Leitkowsky, 22 Lincoln avenue, was charged with reckless driving, but the charge was nolled. Leitkowsky was arrested Saturday by Automobile Patrol Officer Clarence Martin upon complaint of Isadore Rogovin, 177 North Bank street.

Joseph Gronberg, a member of the Fort Wright band, was charged with intoxication and breach of the peace. He was fined $10 and costs. Gronberg was arrested Saturday night at the Capitol theatre. He was so drunk that Ticket Collector James Lyman refused Gronberg admission. Gronberg started to argue with Lyman and Patrolman William Manice, on duty at the theatre, arrested Gronberg.

The Coffee Tastes So Good Because The Flavor is Roasted In

GOOD coffee! The very thought of it, fragrant and tasteful, makes one long for a steaming cup. But there are so many coffee-making failures! How can a housewife be *sure* of good coffee every time—coffee which really brings to the table that ravishing aroma you smell round a roasting oven?

The Dwinell-Wright Company, producers and roasters of White House Coffee, have found the answer. As a result of 70 years of coffee-roasting experience, they have developed a coffee-roasting process that *roasts the flavor in.*

Special methods of control advance the roasting of White House Coffee without allowing the precious coffee oils to evaporate. These oils, developing in the "roast," produce the mellow fragrance and flavor that make good coffee so satisfying.

In the White House ovens, the natural coffee goodness is roasted to a definite "peak"—just enough to perfect the full coffee taste, but not enough to drive the *life* of the coffee out of the beans. Thus the flavor is roasted *into* White House Coffee and not out into the air.

If you want to serve coffee that tastes as good as fine coffee smells when it's roasting, order White House Coffee. The Flavor is Roasted In!

Mrs. Wilson, of New Haven, who bought the Edmund Bogue house on Ashbey street is having improvements and changes made, adding to the beauty of the place.

Mrs. L. D. Boynton is having a closed porch added to the rear of her house on Mystic road.

The local W. C. T. U. have been notified of the county meeting to be held in Norwich, Thursday.

FIRE DIST. VOTES TO PURCHASE SITE ON LIBERTY STREET

(Special to The Bulletin)

WESTERLY, Oct. 10—A largely attended meeting of the taxpayers of Pawcatuck Fire district was called to order tonight at 8 in the P. S. Barber Hose House by Moderator Albert G. Martin. Clerk Williams A. Hillard read the call for the meeting.

For the committee named June 6th, Francis J. McMahon, Joseph Furtill, James McKnight, Nola D. Morse, Pierce J. Morrison, Albert G. Martin, Henry A. Stahle and L. C. Putil, the secretary, Alberti R. Stillman made the report that present fire fighting conditions had caused a raise in insurance rates on the first of October. A survey made by a representative of the New England Fire Insurance exchange recommended a reorganization, to include two officers and eight men in one company and two engineers and 10 men in another. The remainder of the secretary's report was covered by a series of votes presented by Carl G. Stillman. It was voted that the district purchase land on Liberty street, on which it holds an option, known as lot 83, for $6,000. The lot contains 22,800 square feet and is located just south of the Liberty street lock-up. It has a frontage of about 300 feet and is 380 feet deep. It was also voted that the district build and furnish a two-story brick and granite building large enough to care for the neds of the district. The district voted to purchase a combination hose truck and pumper of 750-gallons capacity with all necessary equipment and accessories. A ladder truck was also voted to be purchased. At present the ladders of the fire department will only reach the second story, according to a report of Francis McMahon. When the new building is completed, it was voted, that the present fire alarm system be brought to the highest efficiency and installed in the new building. Another vote ordered repairs and changes to the present fire truck to put it in efficient condition to continue in the service. Also voted to appropriate $100,000 to cover the expenses of the new building and fire equipment.

It was voted to continue the present committee to carry out the vote of the district and that they be authorized to let contracts for the new work. Until such time as a special act can be procured from the Connecticut legislature authorizing the Pawcatuck fire district to issue bonds to care for its indebtedness, the treasurer was authorized to borrow money to finance the work.

A small carrot lodged in the throat of two year old Kenneth Olson, of Luverne, Minn., caused his death by strangulation.

MARKETS AT A GLANCE
New York

Stocks heavy, U. S. Steel declines 3 points.

Bonds quiet, Rock Island 4 1-2s and New Haven 4s at new highs.

Foreign exchanges firm, sterling at new peak; Swedish rates at new 1927 highs.

Cotton weak, southern selling.

Sugar easier, increased spot offerings.

Coffee higher, former Brazilian markets.

Chicago

Wheat barely steady, increased visible stocks.

Corn easy, good weather.

Cattle steady.

Hogs dull.

MARKET WAS HEAVY

NEW YORK, Oct. 10—(AP)—A sharp reaction in stock prices, followed by a partial recovery, a drop of about $4.50 a bale in cotton futures, and a further advance in sterling to a new high level since 1924, divided speculative interest in today's markets. Extreme declines in the activ stocks ran from 3 to 7 points, but many of these were cut in half in the late rally.

The disappointing character of fall business, which was emphasized by the drop of 47,924 tons in the September unfilled orders of the United States Steel corporation, was the principal reason given for the liquidation of stocks. Rumors of the formation of a huge "bear pool" were unconfirmed, although short selling undoubtedly played a big part in the day's proceedings.

U. S. Steel common, which established a record high of 160 1-2 for the present issue less than a month ago sold down nearly 23 points below Saturday's close to 143-1-4 and then snapped back to 143 3-4. General Motors sold down to 134 3-8, but recovered the day's loss on buying presumably influenced by reports that William C. Durant, who has been actively identified with the spectacular advance in that issue, was returning to this country in a few days from an extended trip abroad. Bethlehem Steel, which had sold as high as 66 1-2 this year on expectations of an early resumption of dividends, sold down to 54 in reflection of the fading hopes of speculators in that issue.

Copper shares failed to respond to reports of a firmer red metal market and a moderate advance in zinc prices. American Smelting fell from 170 to 166 and then rallied to 167 1-4, off 1 3-8 net. Net recessions of 3 points or more took place in such recent favorites as Abitibi Power, Abraham & Straus, Air Reduction, Case Threshing, Colorado Fuel and Pressed Steel Car.

On the other hand, Houston Oil soared 8 points to 175, and closed within a point of the top, and Freeport Texas and May Department Stores ran up several points to new high records.

Rails yielded with the industrials with some rather sharp recessions taking place in such issues as Delaware & Hudson, Louisville & Nashville, Gulf, Mobile & Northern, Pittsburgh & West Virginia and Nashville, Gulf, Mobile & Northern, Pittsburgh & West Virginia and Nashville, Chattanooga & St. Louis. Better rail earnings are looked for, however, in the closing months of the year, particularly by the northwestern carriers.

Call money held steady at 4 per cent all day and there was no change in time money and commercial paper rates.

The break in cotton was due to selling inspired by the weak Liverpool market, and reports of better domestic crop weather. Wheat prices were slightly firmer. Coffee prices also showed a moderate advance, but raw sugar futures were easier.

Sterling cables sold as high as $4.87 5-32, presumably in reflection of the transfer of American funds for short term investment to London, where higher interest rates are available. Other foreign exchange rates were pointed upward, Japanese yen jumping 8 points to 46.48 cents.

ANNOUNCEMENTS

Strand Theater

The influence of a woman on the life of the man she loves is the theme of Rose of the Tenements, special feature attraction now showing at the Strand theater with practically every available juvenile in Hollywood competing for the honor. Johnny Harron, brother of the late and beloved Bobby Harron won the role of Danny, the male lead in Rose of the Tenements. Shirley Mason is the star of the production and the picture was directed by Phil Rosen with a score of successes to his credit including Abraham Lincoln.

Bleed Theater

Few pictures have caused a greater sensation than Moon of Israel, which is now showing at the Bleed theater. This picture, released by FBO, deals with the Exodus of the Jews from Egypt, and at the same time with one of the mightiest love stories that has graced the screen.

The story is an adaptation of the novel by Sir H. Rider Haggard and is thrilling and intensely interesting. Screened among the ruins of the mighty towers of a buried Egyptian city it brings back the passionate days of 10,000 years ago. Days that held happenings that are impossible today, but which thrill and please as no others can.

The theme deals with the love of an Egyptian prince for an Israelite slave-maiden. A love that came to mean more to him than the throne to which he was heir. Maria Corda is wonderful as the slave-girl who is willing to sacrifice herself and her people to the man who has won her love.

Michael Curtiz directed the picture and produced a masterpiece that will always be remembered as one of the truly great films. The cast, which is generally excellent, includes Maria Corda, Arlette Marchal, Adolqui Millar, Henry Mar, and Ferdinand Onna. Ladislaus Vadja, the Hungarian novelist and playwright, adapted the novel for the screen.

Broadway Theatzer

"Chang" is in town. If you miss it you have only yourself to blame. This department recommends it with heavy pressure! "Chang" is the wildest of the wild and the mightiest of the mighty!

Paramount can well cut another notch in its belt. Producers Merian C. Cooper and Ernest B. Schoedsack win places in the film hall of fame. It is not very often that a picture of the magnitude, entertainment value or true epic bigness of "Chang" comes along. Because of this, it towers head and shoulders above practically everything which has come to local screens during the past year.

"Chang" tells no ordinary tale. There is nothing at all sterotyped about "Chang." It is just one thrill after another, a whole series of them; one gasp after another, a whole parade of them.

If you should ask that "Chang" be described in one short, terse phrase, we'd call it a mighty melodrama of the wild.

A leopard leaps over a high wall into the hero's home; a tiger hurls itself right into the eyes of the camera; 400 ponderous, stampeding elephants attack a native village, leaving nothing but desolation and death in their wake and—that only starts to tell what "Chang" holds in store for moviegoers. It holds one punch after another and your attention is never allowed to wander.

When "Chang" was given a preview in New York, critics acclaimed and called it a road show picture. "Chang" will be shown at the Broadway today and Wednesday at popular prices. Don't pass it by!

INTERIOR VIEW OF MAIN FLOOR OF SCHWARTZ BROS. STORE

SCHWARTZ BROS. READY FOR OPENING NEWLY ENLARGED, RENOVATED STORE

There are many citizens in Norwich who are glad to witness improvements in the mercantile establishments of the city. They are watching with satisfaction and pride the progressive merchants of Norwich who are making constant improvement to bring their mercantile establishments to a high plane of attractiveness. One of the most progressive firms of Norwich are Schwartz Brothers, Inc. Their aim and ambition since their establishment 21 years ago was for a better, bigger, and more attractive furniture establishment, such as would be a credit to the community. The enterprise

ABNER SCWARTZ,
President and General Manager

of Schwartz Brothers, Inc., was of a nature to give satisfaction to all, who take pride in the growth of the city. The progress and initiative of the firm will reach its highest goal by the public opening of their newly enlarged store at 76-82 Main street on Wednesday, October 12, 1927. The opening will be an event of tremendous magnitude. A cordial invitation has been extended through the medium of the local press to the firm's patrons and friends, and to the entire public of Norwich and vicinity, to attend the opening as guests of Schwartz Brothers, Inc. The day of Wednesday, October 12, 1927 was set aside by Schwartz Brothers, Inc., as a day of jubilation and appreciation of the new success of the firm.

The public reception will begin at 9 a. m. and will continue until 10 p. m. All visitors will be accorded a most cordial and friendly welcome and will be treated to an exhibition of beautiful furniture, household goods, and some decorating novelties never before displayed by any store in the city. Preparations of the most elaborate nature have been made for the entertainment of all visitors and souvenirs in

BENJAMIN LAHN,
Vice President

honor of the occasion will be given to all.

The history of the unprecedented success of the firm will interest the numerous friends which Schwartz Bros., have made in the 21 years of their business career in Norwich and vicinity. The following is a brief description of the various steps by which the concern has risen to the upper rung on the ladder of success.

Progressive Rise of Schwartz Bros. Inc.

The rise of Schwartz Bros. furniture company from a humble beginning 21 years ago to a leading position in the furniture establishments in the state of Connecticut is a very interesting history of labor, determination and skill to advance, of men imbued with the spirit of American industry and perseverance. It was due to honest cooperation of the men connected with the firm and owing to the intelligent use of the advantages and opportunities offered by the United States to men of a progressive and industrious trend that the rise of the firm was of such steady proportion. The members of Schwartz Bros. with an unflinching belief in the old adage—"opportunity knocks but once at a man's door and if she is not befriended may never return again"—have toiled with untiring zeal in serving the opportunity which Norwich afforded to diligent enterprise, with the inevitable result of the phenomenal growth of the proud institution of the present day Schwartz Bros.

Founding of Business

In the year of 1906, Abner Schwartz and his brother, Michael Schwartz, opened a small furniture store in this city, at Washington Square, in a place known as the Washington building. It was stocked with new and second hand furniture. Business at that time was not done in the manner as it is conducted today. It meant hard work, way late into the night, with the owners filling many places, such as purchasing old furniture, repairing it, and in many instances making personal delivery. But the young men's energy did not stop there. In addition to the above functions they managed to find time to cover the surrounding country in quest of patrons in need of some household effects, new or old, or who had some furniture to sell or exchange. This start was on the right track and all signs pointed to the road of success.

Purchase of Water Street Building

The first forward step came in April 11, 1908, when Schwartz Bros. purchased from the Norwich Belt Manufacturing company the building on Water street. To make this building adequate for their needs the firm spent $15,000 in alterations. It was a courageous move of the young concern, but they

JOSEPH M. LAHN,
Secretary and Treasurer

knew what they were doing. They had confidence in the future and especially in the many friends they had already acquired. Their most laborious effort was with the purpose that each individual patron must be so treated as to become a friend and a booster for the firm. The close adherence to this policy very quickly accomplished the aims for which Schwartz Bros. were striving.

Enlarging Water Street Store

It was soon found that the Water street building no longer was large enough to accommodate the business and $10,000 was spent to enlarge the plant. However, with the enlarged quarters the business again grew in large proportions. The following that came from New Lor... became so large that it could easily support a branch store, whereas the Norwich patronage taxed the ability of the firm in its Norwich establishment. To take care of this ever increasing business it was found that new strength was needed to meet all its demands.

Association of Lahn Brothers

In July, 1917, Schwartz Bros., added to the membership of the firm Joseph M. Lahn, and his brother Benjamin Lahn—two young boys willing to work hard to earn their way into a successful future. At once the business began showing the result of the new strength. More time was given to the ever growing New London business with the result that Schwartz Bros. opened a furniture store in New London and Michael Schwartz was established in New London in charge of the new branch. But the progress of the Norwich business began to outgrow the Water street building enlarged though it was. The business was all done in a quiet and unostentatious manner with strict attention to the principles to which the firm attributed its success, and the firm found necessary to cast about for a proper building to take care of the increasing patronage.

Purchase of Present Building

On December 10, 1919, Schwartz Bros. purchased from the late Willis Austin the building in Main street which they now occupy. The acquisition of the building naturally was contracted with the ten existing leases of

JOHN DONAHUE,
Credit Manager

some parts of it, but it was found that large as the building was, in time, it would not be large enough to accomodate the business coming the firms way, unless large and extensive alterations were made. A careful survey of the situation proved to the firm that the most important need was to provide an entrance to the building on Church street side so as to make possible the receiving of car loads of furniture and household goods which the firm contemplated handling in the new building. They also foresaw the need of ample shipping facilities from whence to make the numerous furniture and household goods deliveries which would come to the firm in the daily course of business. To provide this Church street entrance necessitated the erection of a three story building 50 feet deep by 100 feet wide with the top rear store above the Church street level extending to the street line. By this addition a large amount of needed floor space would also be provided. To carry out such a stupendous proposition required courage, determination, confidence in the future of Norwich and its capacity for supporting an establishment of the nature contemplated by the concern. It also required a responsibility of each member of the firm to successfully carry the load which the new enterprise would entail. It required an outlay of $75,000 for rebuilding and an additional $20,000 for blasting about 20,000 tons of solid rock ledge in the rear of the store which was a natural barrier that would have awed less enterprising people. There was another important factor which was sufficient to prove the mettle and stamina of Schwartz Bros., viz: The carrying out of the new project required a knowledge and belief that others outside of the firm had confidence in the character and integrity of Schwartz Bros. and their ability to successfully carry through their huge project.

Overcoming Stupendous Difficulties

With the problem of financing the alterations safely and satisfactorily solved, the removal of the solid rock barrier was yet to be reckoned with. The difficulty was of no trifling nature and was sufficient to cool the ardor of

RAYMOND GIRARD,
Manager Dining Room Furniture Dept.

people less trained not to permit obstacles standing in the way of progress. After consulting several authorities in the building line and learning that the difficulties to be met were of a stupendous nature, the members of the firm met in a conference to discuss the problem from all angles to ascertain the course to be pursued. The unanimous decision was an order to remove the rock impediment from the premises.

It was a long and laborious process. For ten full months hardy laborers and mechanics, aided by modern machinery and tools, battled with nature, slowly forcing the rock to give way. The ponderous mass consisted of over 20,000 tons of hard rock, but muscle and brawn combined with engineering and mechanical skill won out. The obstructing rock was removed and the building extended to the Church street line, thereby providing the desired Church street entrance. A suitable garage with upper stories providing spacious storage space and finishing room was added as an annex to the Church street entrance. When the alterations were finally and successfully completed the entire stock from the Water street building was moved into the new quarters and preparations began for a suitable public opening of the new building.

Opening a Momentous Event

The opening of Schwartz Bros' new store was an important epoch in the history of the steady rise of this enterprising Norwich institution, and also a memorable one in the business annals of Norwich. The opening date was set for September 22, 1923. It was carefully planned with a view of ex-

TOM MONAGHAN,
Bookkeeper and Office Manager

pressing the appreciation of Schwartz Bros. for the trust which the people of Norwich and vicinity have placed in the firm, making possible the successful completion of a proud venture which demonstrated the business acumen and ability of Norwich merchants.

To express this appreciation in a concrete and tangible manner, Schwartz Bros. offered 10 per cent of the net proceeds of the opening day to the then contemplated building as a home for the nurses at William W. Backus hospital. The opening was arranged on a scale never witnessed before in Norwich. Invitations were sent to the firm's numerous friends, patrons and customers residing in Norwich and in a large territory adjoining the city which included the prominent men and women in that large area; and the newspaper announcements of the great event reached even larger numbers of people. The response was most marvelous and astounding. Over 20,000 men, women, and children visited the store on the day of the opening. They consisted of friends, patrons, and admirers of the concern; also citizens of Norwich who were delighted to see marked signs of the growth of their city as evidenced by the possibility of its supporting a retail furniture establishment of such large nature. Many visitors were friends and patrons of the firm living in towns adjacent to Norwich.

A unique sight at the opening was an array of hospital nurses in full service uniform acting as hostesses for the occasion. They were the reserve staff and the nurses in training at the William W. Backus hospital. They came to help Schwartz Bros. in their hour of triumph in appreciation of the firms contribution which constituted the first

O. BISSONETTE,
Collector and Solicitor

nucleus of the nurses' home building fund. The originality of this reception committee added color and prestige to the occasion giving the visiting public a friendly welcome of a nature of hospitality never witnessed before in any business opening in the history of the city. The friendly spirit dominating the evening was that of a large family gathering, enhanced by the magnificent and artistic display of beautiful furniture and household goods with which the entire building was stocked for the occasion.

Opening Becomes Known to the Trade

The planned opening became known to many who were interested in the great achievements and growth of the furniture building industry in the United States. From many parts of the country furniture manufacturers and wholesale dealers in all kinds of household goods sent notice to Schwartz Bros. of their willingness to attend the opening, and even of participating in helping make it a notable event in the trade. Hence on the day of the opening the leaders in American furniture industry made Norwich their stopping place. Schwartz Bros. was the center of attraction and the visitors were amply rewarded for their trouble in traveling long distances to Norwich. The sight witnessed at the opening filled them with amazement and they expressed their unanimous praise of the richness of the event, stating that in their entire business experience they have not witnessed a public business opening on such grand style. They were especially astonished while listening to the sincere friendly felicitations and offerings of good will extended to the individual members of the firm by the thousands of friends who attended the opening. The manufacturers attested that these public expressions of good will and friendliness were a priceless asset, auguring a wonderful future for the success of the new establishment.

Enlargement of Store Necessary

The prognostications made by the acknowledged experts in the furniture trade very soon proved true. Since the opening of the new store the trade of the firm increased in large progressions. Patrons within a radius of 100 miles of Norwich come to Schwartz Bros. to fill their wants of furniture and household supplies. They were attracted by the tremendous stock carried by the firm, making it possible to satisfy every taste and requirement. They were also invited, by the courteous treatment, friendly and humane touch, a guarantee of full value for every dollar spent in the store and very prompt delivery. With this ever increasing following, Schwartz Bros. at the beginning of 1927, the 21st year of their establishment, found that the growth of their business had again surpassed all anticipations and that further increase of floor space became an imperative necessity. The Glenwood Range line, for which the firm became the Norwich sales representative one year ago, had grown to such large business proportions that an additional store was needed for the accomodation of this line. Besides, the firm decided to add various lines of home novelties such as are used for the embellishment of modern homes.

Decision for Larger Schwartz Bros.

To meet the above needs again the members of the firm gathered in conference with the resulting decision for a larger Schwartz Bros. The time for this increase was opportune as the lease on the adjoining store terminated. It was therefore found advantageous to incorporate this store into the main floor of the building. This addition would give to the store one of the largest ground floors in the state adding about 2,000 square feet of floor space to the establishment. It also would add one large display window and a new main entrance to the store.

Opening to Mark New Era

The new opening on Wednesday, Oct. 12, will mark a new era in the progressive expansion of Schwartz Bros. Several new lines of furniture and household goods, such as are carried only by the largest establishments in large cities will be on display at the opening. New modern household contrivances and inventions tending to ease the work of the housewife and adding much comfort to the entire family will be on exhibition. The lighting effects on the main floor are a marvel of electrical engineering and of tasteful arrangement.

A word about character of the mem-

bers of the firm is not out of place in relating the facts of the above marked achievements:

Abner Schwartz, president and general manager, is in charge of the finances of the business. He is also the main purchasing authority in the firm. Mr. Schwartz is known to the entire furniture market as one of the ablest and most competent buyers in the trade. This great asset is the result of 21 years of purchasing experience. Besides the amount of responsibility the business requires of him, Abner, as he is known to all his friends in Norwich, finds time to actively participate in every worthwhile, civic, and charitable activity in the city. His faculty for making friends is such that he was twice called upon to head the Norwich Retail Merchants association and the trust reposed in him by the merchants of Norwich was well earned.

Benjamin Lahn, vice president is a man of limitless energy very much devoted to the details of home decorating and of an inventive turn of mind in the line of new furniture designs and novel effects. His original ideas are often put into concrete facts in ordering furniture made expressly for Schwartz Bros. He is also responsible for the entire advertising policy and layout of the firm. In addition to these functions, the entire furniture display arrangements throughout the building are under his supervision.

Joseph M. Lahn, secretary and treasurer, is the leading mind in all the changes, alterations, and improvements to the building and in the store. He possesses the faculty of forming a true conception of how things ought to look after the changes are consummated. He also possesses the valuable ability of estimating cost with an accuracy which is amazing to building experts. It was due to this fact that all the alterations of Schwartz Bros. were brought within the estimated cost, making possible the successful financing of the various costly ventures without miscalculation. The entire system of merchandise receipts in all departments of the business is also

in his care, as is the supervision of the outgoing deliveries to the customers. His work is of a magnitude requiring constant careful attention and responsibility carrying with it the supervision of the entire large staff employed by the firm.

Employees of Schwartz Bros.

The men engaged in helping shape the destinies of Schwartz Bros., are as follows—Clarence Brown, receiving and outgoing stock manager; Raymond Girard, stock clerk and chief of the French Republic; Albert Altschel, window dresser and general utility man; Edmond Cote, collector and solicitor; O. Bissonette, collector and solicitor; Alfred Duhamel, salesman and manager of floor covering department; Moses Derocher, salesman and special representative; Tom Monaghan, bookkeeper and office manager; Catherine Sullivan, stenographer and assistant bookkeeper; John Donohue, credit manager; Louis Schachter, elevator and general utility man; Grace Phalen, assistant stenographer and bookkeeper; John Landergan, polister and finisher; Thomas Shea, shipping clerk; John McGarity, repair man; W. H. Enos, assistant finisher and polisher; Napoleon Thurotte, J. Marrell, A. Nadeau, Leon Ducharme, Dan Bolan, truck drivers and delivery men. Harry Schwartz, son of Abner Schwartz, Boston representative; A. H. Manes, auditor.

In their relation to the large staff of employees, Schwartz Bros., maintain the most close and friendly touch and each man's voice and suggestions are listened to with most careful and openminded attention, with a view to improve their service to the public. Several of the employees have been with the firm for a numbr of years and are thoroughly trained in following the policy of Schwartz Bros.

Solicitous for Employees' Wellfare

In appreciation of the service rendered by the employees, Schwartz Bros. returns the goodwill in kind. Each year a paid up life insurance policy is presented to each employee as a Christmas gift. This insures the dependants of the employees not to be left unprovided in case of incapacity, accident, or death by natural causes. In recent years two employees of the firm were called to their heavenly abode and each of their families received $1,000 from the insurance company. One of the employees, incapacitated through illness, also received $1,000 insurance money.

Schwartz Bros. also encourages their married employees to become home owners by offers of substantial assistance. All the married employees have availed themselves of this opportunity by accepting cash loans or mortgages at the least nominal interest charges. The clearing of these obligations are based upon small weekly payments.

To the employees who are in need of transportation in the course of their service, automobiles are provided at the firm's expense, and there are other ways in which appreciation of faithful service is manifested. Annual good will banquets given in honor of the employees has created a strong humane bond between Schwartz Bros. and the entire staff.

ANNOUNCEMENTS

Making Beautiful Vases at Home

Inexpensive jars, jugs and vases are being transformed into works of art by the new method of "pour finishing."

Duco, the new quick-drying finish made by the du Pont company, is used for this purpose. All that is necessary to apply the new "pour finish" is the article to be finished, several small cans of Duco in various colors and an old drip pan. Duco is poured over the article so that the streaks of color will run down the sides and drip off. While one color is still wet another color is poured on and successively other colors until the article is completely coated. In drying, the colors blend, producing wonderfully variegated patterns and many unusual color combinations.

Mr. Becker of the Robt. Goldstein company has been especially interested in this new type of finish and several attractive specimens of the art are on display this week in this store. Lovers of the unusual in home decoration and finishes will find it worth-while to look over this interesting exhibit.

Miss Mary Mahoney has returned to the Baltic academy after spending the week end at the home of her father, William Mahoney of Convent avenue.

Mr. and Mrs. Gladstone Shaw have returned to their home on Golden street after spending the week end at the home of Mrs. Shaw's parents Mr. and Mrs. Hoxie of Franklin. While there, Mr. Shaw went hunting and obtained three squirrels, two pheasants and a woodcock.

Relatives and family friends attended an anniversary mass of requiem for the late Dr. John F. Corcoran which was offered by Rev. William A. Keefe on Monday morning at 7.30.

In St. Mary's Memorial church Sunday evening at 7.30 o'clock the devotions to Mary, queen of the most holy rosary and benediction of the blessed sacrament were conducted by Rev. Frederick M. Coholan before a fair sized congregation.

Miss Frances C. Callahan of Boswell avenue motored to Springfield, Mass., Sunday, where she will be the guest of her aunt, Mrs. Henry J. Pratt, for the wedding of Henry J. Pratt, Jr., to Miss Anna Mae Shea, which takes place Tuesday morning at Mittineague, Mass.

Jeremiah Desmond is spending a few days in New York city.

The opening of the hunting season was neither so good nor so bad. Men who will brave a rainstorm when the hunting season opens were afield Saturday morning with dog and gun and before the sun was up many hours though its brilliancy was hidden by cloud banks. Some of the wild game birds that have thrived and developed in peace during the past ten or eleven months went the way that all living things eventually go.

Today pheasant, partridge, woodcock and squirrel were among the unaccustomed things on dinner menus in many homes.

Comparatively sparse reports indicate that a considerable number of game birds were taken during Saturday by those who were willing to brave the discomforts of the storm. Cock pheasants were numbered among the slain, some of these on runs where they had lived for months and where those who came in quest of them were practically certain to find them.

The two days of rain have helped out the cause of the hunters, leaves virtually by the ton have come down to clear the shooting grounds since Saturday morning. The edge will be with the hunters from now on and game birds that hope to survive the few weeks of the hunting season had better hide up and stay hidden.

William Quinley who was one of the many that went hunting Saturday, returned with four squirrels and a cock pheasant.

George Swanton has returned to Providence after spending a few days at the home of his parents on North Main street.

William A. Pitcher is spending a few days in New Hampshire, making the trip by auto.

John McKinnley has returned to Providence after spending the week end at his home on Prospect street.

John Hill of Prospect street is spending a few days in New Hampshire, making the trip by auto.

The boys in the village have started early this year to steal barrels for Thanksgiving. On several of the cross streets and especially on Prospect street the boys emptied the contents of the barrels on the sidewalks, giving the tenants extra work in cleaning up the refuse.

The Camp Fire Girls of Taftville met at the home of Miss Jenne Copeland, 15 Russell Road, with nine of its members being present. Mrs. Crowdis was guardian of the girls while Mrs. Volkman was assistant guardian. Regular business was transacted after which refreshments were served by Mrs. Charles Copeland.

TOWN MEETING VOTES APPROPRIATIONS

CALLING FOR TAX RATE OF 26 MILLS

An effort on the part of H. D. Larrabee to raise the salaries of the members of the board of assessors $600 each, making their yearly salary figure $2,400 each, went for naught Monday evening at the adjourned annual town meeting. The effort to raise the assessors' salaries was in the form of an amendment to the resolution fixing the salaries of the town officers, the amendment being introduced by Mr. Larrabee. Speaking against the amendment, which came as a surprise to the meeting, James P. Sheridan, said he couldn't see any great change in the assessors' office since their salaries were raised to $1,800 each a few years ago. "I can show you plenty of cases, on Franklin square, almost anywhere you want to mention," he said, "where the taxation is almost shameful." Following Mr. Sheridan's remarks, the meeting voted down the amendment and then passed the original resolution.

The town hall was well filled when the meeting was called to order at 8 o'clock by First Selectman William S. Murray. All of the estimated expenses of the town, as submitted by the board of assessors, and all of the so called "extras" with the exception of several appropriations for road improvements in Norwich Town were favorably acted upon. In all the meeting voted a total of $576,811.66, which will call for a tax rate of 26 mills.

Appropriations Voted

After the warning had been read by Town Clerk Charles S. Holbrook, the reports of the selectmen, town treasurer, sinking fund committee, town health officer, town school committee, and the trustees of the Otis library were accepted as printed. On motion of Shepard B. Palmer the meeting voted to act collectively on the estimated appropriations for the town as submitted by the board of selectmen, and the appropriations were approved as follows:

Almshouse	$ 10,000
Outside poor	7,000
Insane	12,000
Neglected and dependent children	5,000
Widows' pension	6,000
Highways (city of Norwich)	23,000
Highways (town of Norwich)	22,000
Macadam repairs	3,000
Oiling roads	4,500
Bridges	5,000
Contingent	15,000
Interest	13,500
National Guard	5,000
Election expenses	5,000
Registry of vital statistics	2,000
Town clerk's office	1,000
Town property tax	10,000
Sinking fund	15,000
Tuberculosis	2,000
Probate court	500
Street lighting	8,500
State tax	25,000
County tax	15,500
Assessors' office	7,800
Chelsea Parade	900
Town health office	1,200
Taftville Fire Engine Co.	800
Yantic Fire Engine Co.	700
Total	$236,900

Of the total amount approved, $187,248.74 is to be raised by tax. The total estimated expenses are about $10,000 less this year than last year. The estimated expenses of the town schools were approved as follows. $288,362.92 of the total to be raised by tax:

Salaries	$243,000.00
Repairs	12,000.00
Supplies, fuel, incidentals	27,000.00
Insurance	2,000.00
Interest	22,695.00
Evening schools	2,500.00
Total	$309,195.00

Salary Rates Voted

Town Counsel Henry H. Pettis presented a resolution fixing the salaries of the town officers as follows:

First selectman $3,000; second and third selectmen, $200 each; clerical assistance for selectmen's office, $1,200; town clerk, $200; town treasurer, $1,000; board of assessors, $1,800 each; clerical assistance for the assessors' office, $1,500; secretary of town school board, $400; collector of town taxes, three quarters of one per cent.

H. D. Larrabee offered an amendment to the resolution increasing the salaries of the board of assessors to $2,400 each. "It is quite a surprise to hear an amendment of that kind tonight," said James P. Sheridan who spoke in opposition to the movement to grant the assessors an increase. Mr. Sheridan stated that he would vote against the amendment. "We must stop," he said. "We raised the assessors' pay a few years ago. At that time they told us we were going to have a rejuvenation in the office of the assessors. I cannot see any great change in the assessors' office since we increased their salary to $1,800. I can show you plenty of cases, on Franklin square, almost anywhere you want to mention, where the taxation is almost shameful. We have plenty of property getting away with murder. That is the word to use—murder."

The amendment was put to vote after Mr. Sheridan's remarks, and was lost after which the original resolution was adopted. Mr. Larrabee was evidently alone in the effort to raise the salaries as he received no support whatever, when the amendment was put to vote.

By a resolution introduced by Town Counsel Pettis and adopted by the meeting, the selectmen were authorized to borrow a sum not to exceed $325,000 in anticipation of the town tax collections.

The next item on the list was an appropriation to assist in maintaining the Otis library. Rev. Alexander H. Abbott introduced a resolution setting the appropriation at $4,500, last year's figure. Rev. Mr. Abbott said that it has been customary for General William A. Aiken, president of the library's board of trustees, to present the resolution, but because of his advanced age he was unabe to present the resolution Monday night. Rev. Mr. Abbott said that although the resolution asked for $4,500 the board of trustees would rather see the figure at $6,500. The $4,500 appropriation does not maintain the library as the maintenance cost is $9,000 a year the speaker said. He called attention to the extensive alterations made at the library, not on the town's money, but on the proceeds of a certain legacy left the library. Rev. Mr. Abbott said the resolution asked for $4,500 in order not to jeopardize the usual appropriation. He said that if the library had $2,000 more a year it could give a much finer service. He expressed the hope that someone would offer an amendment making the figure $6,500.

Dr. Hugh B. Campbell moved the appropriation be increased to $6,500 and the increased appropriation was quickly voted, no one voicing opposition.

Other appropriations were voted as follows:

A sum not to exceed $76,000 to relieve parents of children who attend the Norwich Free Academy and who are residents of the town of Norwich of the customary term fees for the current school year of 1927-28. Resolution introduced by Guy B. Dolbeare.

A sum not to exceed $5,000 to pay the pro-rata share of the town for the construction or improvement of state aid roads, as provided by the statutes of the state. Resolution introduced by Town Counsel Pettis.

A sum not to exceed $1,500 to be used by the selectmen for the care and maintenance of the trees bordering upon the highways of the town. Resolution introduced by Town Counsel Pettis.

A sum not to exceed $1,000 to be used in maintaining a social hygenic clinic for the care and treatment of venereal disease.

A sum not to exceed $300 to reimburse parents who have children attending the state trade school at Putnam and who are residents of the town of Norwich for the amount paid for transportation to and from said school for the school year 1927-1928, said sum not to exceed $50 for any pupil so transported. Resolution introduced by Town Counsel Pettis.

A sum not to exceed $10,500 to provide medical inspection and health work among the school children of the town of Norwich. Resolution introduced by Henry A. Tirrell.

The meeting adopted a resolution introduced by Town Counsel Pettis to provide for four electric lights on the Harland road between the termination of the present lights and the Canterbury turnpike.

Another resolution adopted provides for the installation of a sufficient number of lights on the main highway in Occum from the property of A. J. Cote to the property of Louis J. Meditz and also upon the east side to the bridge over the Shetucket river leading to Versailles.

M. J. Curran presented a resolution calling for an appropriation of $400 to provide for the installation of a fire hydrant on Lafayette street between Washington and Oneco streets. The resolution was adopted.

The next appropriation, $17,500, for a macadam road starting from Peck's corner and running to the old town church and thence from Gulliver's corner, to said road, met opposition and went down to defeat. The resolution asking the appropriation was introduced by Walter G. Moran.

James P. Sheridan said that this was the one thing he went to the meeting to talk on. "I am here to oppose this," he said. Mr. Sheridan said he had gone over the road and had found nothing wrong with the present road. The road from Peck's corner to the Norwich Town clock is as good a road as you would care to ride over, he said. Mr. Sheridan stated he had no objection to improving the stretch around the Gulliver property or the south side of the green. He stated that the road could not be built for $17,500.

Selectman Murray called attention to the fact that the meeting had already voted $576,811.66 and had reached the 26 mill tax rate. The appropriation was lost.

Two other appropriations one of $4,000 for a macadam road on Elm avenue in Norwich Town and one for $6,000 for the improvement of Huntington lane were tabled.

Henry E. Tubbs presented a resolution asking the town to accept Everett street as a public highway. He stated that the residents there would like to see the street accepted. A motion to lay the resolution on the table was voted down after it developed that no appropriation was being asked for.

Dr. Hugh B. Campbell spoke briefly in favor of accepting the street.

After some discussion as to whether this was the proper way to accept a street, as to the width of the street, the number of houses there, and the number of people who use the street, the resolution was adopted.

The meeting adjourned at 9 o'clock until the first Monday in March at which time the town tax will be laid.

THREE WEDDING DATES WERE CELEBRATED TOGETHER

A party of friends were delightfully entertained on Saturday evening at the home of Mr. and Mrs. Byron Frink of East Great Plain, the occasion being the twentieth wedding anniversary of Mr. and Mrs. Frink and Mr. and Mrs. Henry Caron of Taftville, also the eleventh anniversary of Mr. and Mrs. Carl O. Johnson of 112 Lafayette street.

An appetizing roast duck dinner was served at 7 o'clock, after which games and music were enjoyed. On departing, best wishes were extended and appreciation expressed for the pleasant evening enjoyed.

DIVORCE IS GRANTED ON CRUELTY GROUNDS

Judge Allyn L. Brown who heard the divorce suit of Inez Clifford Robinson of Norwich against Percy W. Robinson of 251 West Thames street has granted divorce to her on the ground of intolerable cruelty and gives her the custody of two minor children. The marriage of the couple took place Feb. 6, 1923. Intolerable cruelty was alleged since that time.

SURPRISE PARTY FOR HIS TWELFTH BIRTHDAY

Master John A. Schwartau of Occum was pleasantly surprised Saturday evening about five o'clock when a number of his friends dropped in to celebrate his 12th birthday which occurred Oct. 5.

Mrs. Schwartau served a buffet lunch consisting of potato salad, sandwiches, cookies and grapejuice punch at 7 o'clock. Various games and radio entertainment were enjoyed by the children. Mr. and Mrs. Schwartau were greatly assisted by Scoutmaster Victor Davis of Taftville, who proved himself to be quite a story teller with the children.

Shortly before the children departed for their homes, they were served with ice cream and cake. Master Schwartau received a number of nice presents.

At about 10 o'clock the children were taken to their homes by Arthur Dessureault's and Mr. Schwartau's automobiles. Those present were Milton Davis of Taftville; Shadrick Davis of Taftville; Arthur Dessureault, Occum; Adelard Gadue, Edward Savageau, Adelard LePage, Melvin Robinson, Frederick Dessureault, Joseph Graveline, Frederick Ritchie, Gerard Dessureault, John Coffey, Samuel Chabotte, Wilfred Chabotte, Thomas Leonard, Rose Fontaine, Noella Leonard, Lucy Florence, all of Occum; Mabel Beausoleil, Taftville; Fannie Blanchard, Anna Leonard, Emma Chrzan, Adore Dessureault, Colomba Dessureault and Mr. and Mrs. Arthur Dessureault, all of Occum.

MONTVILLE PREPARING FOR ARMISTICE DAY CELEBRATION

At a Montville meeting last week to prepare for the celebration of Armistice day, it was voted to canvass the town to raise necessary funds for the celebration. The committee in charge reported that it expects to have 1,000 persons in a parade, in which various military organizations will participate. Fraternal organizations have also signified their intention of parading. The armistice monument has been placed and the bronze tablet will arrive this week.

It was voted to ask the town's manufacturers to close their factories on Nov. 11. The schools will also be asked to close. Contributions may be given to any member of the committee. Another meeting will be held on Oct. 20 and committee reports will be heard and final plans made.

The following solicitors were named:

Uncasville section, W. Bigman, Matthew Geary, Lathrop Miller, William Bolles; Pequot section, George Johnson and William Dridnon; Palmertown section, Frank Craig and C. A. Rosinlind; Oakdale section, Edward Autrin; Montville Center, Chester Comstock.

Night Schools Open

The night schools at Broadway and Greeneville school buildings have opened for their regular term of 75 nights. The early registration is between 45 and 50.

NORWICH TOWN

MISS ALICE W. COGSWELL ADDRESSES MISSIONARY SO.

The October meeting, the first for this season, of the Home Missionary society of the First Congregational church, Friday afternoon, at 3.30 o'clock, in the chapel, had an attendance of nineteen. Mrs. Herbert L. Yerrington, the president, offered prayer. The singing of hymns, Miss Louise Hyde accompanying at the organ and Scripture reading followed.

The meeting of the Woman's Congregational Home Missionary union of Connecticut, held last Tuesday at New London, was referred to with much enthusiasm by several who attended. Among those who spoke on this subject were: Mrs. Yerrington, Mrs. Charles E. Reeves and Miss Susan C. Hyde.

Mrs. Charles W. Chapin took up the summer collection from the Home Missionary bags, which netted $31.56. There are others to be heard from. In considering the subject of "World Friendship," the speaker was Miss Alice W. Cogswell, who held the close attention of those present in relating what Park Congregational church has done.

Miss Cogswell said: 1927 has been a year of experiment and adaptation to new ideas and new methods in missionary work, both home and foreign. Former methods have been given up; and new methods adopted. It is the conviction of the executive committees of boards that the missionary work of the Congregational church could be more efficiently and economically administered by merging the work of the different boards. The Woman's boards, three in number, have been merged with the American board. Calls for this have come from missionaries on the field, to whom the former methods often caused embarrassment and duplication of effort. So, the new plans have been carefully and prayerfully worked out by the different boards, with attention to the needs of each one. Of course it was a prime necessity that these changes should take place without loss of interest or contributions, and to increase both, if possible. Two ways were especially planned for these purposes, which were to be worked out by the local churches. First, a campaign of education for all ages, especially for the men; second, the project plan. This, reduced to its simplest terms, is to present the subject of missions, as Miss Seabury said, in terms of folks, not causes.

As for Park church methods, the home and foreign societies were merged in one, several years ago, as the Missions department of the Woman's Federation with a chairman who appointed her own committee. This meant one meeting a month instead of two, with programs presented at the discretion of the committee. The budget was adopted for the year and the funds proportioned for the parish house and missions department. There was one secretary and one treasurer for both and a finance committee.

Under the new plan a missionary committee has been appointed, representing all organizations in the church, men, women and children. The women are divided into groups, each group to raise $100 toward the budget. The chairman of the Missions department, Miss Bliss, and others conferred with Rev. J. Beveredge Lee and Rev. William S. Beard, concerning projects to be adopted by Park church. The plans were made and sanctioned at a missionary supper, when Rev. Mr. Beard was present, also Miss Sylvina Norton and others representing the state work.

The projects decided upon by Park church, included shares in these various objects: (State work), The Church at Storrs; (Home Missions), part of the salary of a missionary in Montana; (The A. M. A.), a contribution to Miss Ruth Beebe's work in the south; (foreign work), a gift toward Miss Gertrude Avery's work at Bombay.

A social hour followed, when tea, cakes and fancy wafers were served by the society under direction of Mrs. Frank E. Sterry, Mrs. Charles W. Chapin and Miss M. Jennie Case.

Infant Care

Mothers, you can't start too early to establish a child's serene and tranquil disposition. Even an infant can have a happy, fretless state of uninterrupted health. What will help do this? A simple, purely vegetable product as old as you are: plain Castoria.

A few drops of Castoria will settle all uneasiness in a jiffy. Will dispel colic or ward off constipation; and just as surely check diarrhea.

In real sickness, call a physician. But many physicians urge only Castoria for those little childish disorders that need nothing more. You need never be afraid to give pure Castoria. It is safe and perfectly harmless, for it contains no paregoric, no opiates, no dope of any kind. At least, this is true of the genuine Fletcher's Castoria—and that is the kind doctors tell you always to buy.

Fletcher's Castoria is fine for any child. All children love to take it. Delicious tasting, and as good as it tastes. Just look for the Fletcher signature on the package and you will know you have the genuine and pure Castoria.

*SPECIAL NOTE: With every bottle of genuine Fletcher's Castoria is wrapped a book on "Care and Feeding of Babies" worth its weight in gold to every mother or prospective mother.

PLANE AMERICAN GIRL ON NON-STOP FLIGHT TO PARIS

Ruth Elder and George Hadleman Took the Air at Roosevelt Field at 5.04 P. M. Yesterday—Start Was Made With Prospects of Unfavorable Weather in Mid-Ocean—Plane Carries About Nine Pounds of Food—Course is 1,244 Miles Due East—Has Fuel Supply Sufficient For 4,400 Miles—Radio Outfit is Capable of Flashing Messages About 75 Miles.

ROOSEVELT FIELD, N. Y., Oct. 11—(AP)—An American woman today placed her life in the balance in an attempt to be the first of her sex to cross the Atlantic ocean in an airplane.

Ruth Elder, 23 year old Lakeland, Fla., aviatrix, was the woman. Dressed as if for a game of golf, she hopped off today with her pilot and townsman, George Haldeman, in the Stinson-Detroiter, "American Girl." The hop off was made at 5.04 p. m., their destination is Le Bourget field, Paris, France, where Col. Charles A. Lindbergh concluded his famous trans-Atlantic flight.

The "American Girl" took the air gracefully after speeding down the runway for about 2,000 feet.

Miss Elder, also known as Mrs. Lyle Womac, waved good-bye to the few spectators from a cock pit window. She carried with her a tiny bible, given by her mother, a Chinese ring and a toy cat, all of which she considered of equal value in bringing good luck.

For rations on their 3,600 mile air journey, Miss Elder and Haldeman carried each three turkey and three swiss cheese sandwiches, a flask of bouillon and three flasks of coffee. caffein tablets were carried in case of drowsiness.

The plane carried 520 gallons of gasoline, 20 gallons of oil and a radio sending outfit capable of flashing messages about 75 miles.

Their course was to be 1,244 miles due east, thence in a northeasterly direction, following the ship lanes, to the English channel. The fuel supply was considered sufficient to carry them 4,400 miles. The radio call is WPAG. The plane is expected to do 100 miles an hour.

Ahead of the fliers was some unfavorable weather, while most of their journey, according to weather forecasters, will be good, there is a stretch of fog, an area of about 70 miles in mid-ocean. Some storm weather also was to be met, Haldeman said.

In case of a forced landing at sea, each was equipped with a rubber life suit, with gear for covering the head. A pocket in the front of each suit carried a breath condenser, to provide water to drink, and a sealed cannister of emergency rations. They had no rubber life raft, Miss Elder considering the rafts without value. Very lights, a Very pistol and navigation flares also were carried.

Part of the navigation equipment were three compasses, an earth inductor, a magnetic and an aperiodic. The usual charts were carried.

The markings on the plane were NX 1334 on each side of rudder, the same figures on the top of the right and the underwise of the left wing. "American Girl, Wheeling, U. S. A." on both sides of the fuselage and "Ruth Elder" under the widow of the right side of the cockpit, where Miss Elder sat.

Two of the backers of the flight, H. E. Cornell and I. H. McArdle, both Wheeling, W. Va., business men, saw the take-off.

As Miss Elder was saying good-bye to friends, Mrs. Haldeman, a native of Salisbury, N. C., sat in an automobile nearby. "I am thrilled to see George hop off," Mrs. Haldeman said. "It's a big chance for him."

Miss Elder was very nervous. "I'm very happy," she said, jumping up and down in her excitement.

Haldeman was a grim, determined man as he clambered into the cockpit. "I'll do it," he said, almost fiercely.

Miss Elder will alternate with Haldeman in piloting the plane. She is a licensed pilot, having passed her examinations recently.

MRS. GRAYSON READY FOR FLIGHT TO COPENHAGEN

OLD ORCHARD, Maine, Oct. 11—(AP)—Tested and re-tested, carrying every pound expected of her on the trans-Atlantic hop to Copenhagen, the Sikorsky plane, "The Dawn" stood tonight on Old Orchard beach ready and poised for its flight.

Despite the earnest plea of Mrs. Ralph O. Brewster, wife of the governor of Maine, in behalf of the women of her state, that the flight be postponed until another season, Mrs. Frances Wilson Grayson tonight said that she and her crew had thoroughly considered the hazards involved and were determined to go forward at the earliest possible opportunity.

Before its final full-load test, the amphibian plane had been christened by Mrs. Brewster in the presence of state officials with spring water bottled in this state from which the start is to be made.

CHARGED WITH MURDEROUS ASSAULT UPON HIS MOTHER

CARIBOU, Maine, Oct. 11—(AP)—What may prove to be one of the most baffling murder cases in the history of criminal jurisprudence in Maine was revealed today with the arrest of Ferdinand A. Weeks on his farm in Mapleton, charged with a murderous assault upon his mother, Mrs. Ida Munn, 76, on January 13, 1924, when she was said to have disappeared.

The only witness against him at the preliminary hearing late today at which probable cause was found for holding him for the grand jury, with bail fixed at $10,000 was Mrs. Perley Quimby, his divorced child-wife, now remarried, who for nearly four years, she informed Aroostook county officials, had kept silent.

The seemingly impossible task of finding Mrs. Munn's body in the woods on the farms of the mother and son, which adjoin and consist of a total of 230 acres, on the highway between Presque Isle and Ashland, was begun. As these have been burned over three times since the disappearance of the aged woman, who was alleged to have been clubbed to death on the woodlot in a dispute when she forbid him to cut the trees, the officials had little hope of uncovering it.

ALBERT B. FALL EN ROUTE TO WASHINGTON FOR TRIAL

CHICAGO, Oct. 11.—(AP)—Albert B. Fall, during whose tenure as secretary of the interior the Teapot Dome oil lease was made, was en route to Washington tonight to stand trial on criminal charges with Harry F. Sinclair, ready for trial and ready to assert his innocence.

"Once only have I faced charges in relation to the oil leases in question and then I was acquitted with Mr. Doheny by a jury," he said after he had boarded the train.

"I am not worried about the outcome of the coming trial. It has not occurred to me that I might be found guilty. A man doesn't think of that, you know, when he is absolutely sure of his own integrity."

He said he would be ready for trial next Monday.

Mr. Fall said he had been subpoenaed in the cast just reviewed by the supreme court, but that he had not been called.

THREW CHILD OUT WINDOW AND LEAPED AFTER HIM

NEW YORK, Oct. 11—(AP)—After throwing her only child, Leonard, aged 6, to his death from a window of her fourth floor apartment today Mrs. Minna Rosenbaum, 27, leaped after him. She was under arrest at the hospital where she was taken suffering from serious injuries received in her fall.

Mrs. Rosenbaum tried to hang herself yesterday, her husband said, as she was suffering from nervousness brought about by nursing a sick relative. She told police she had intended ending her own life and could not bear to leave her child behind.

SEVEN MOROS KILLED BY PHILIPPINE CONSTABULARY

MANILA, Oct. 11.—(AP)—The Philippine constabulary killed seven Moros today in a fight with fanatical Alangkat tribesmen. The encounter took place in the mountains of Lanao province, Mindanao Island, long the scene of Moro uprisings.

POLITICAL CONFERENCE OF FIVE U. S. SENATORS

WASHINGTON, Oct. 11—(AP)—While Senator Norris, of Nebraska is hesitant about entering the presidential preferential primaries in the western agricultural states, those participating in republican conferences here were unanimous today in a declaration that they would be glad to support him in any state in which he will consent to have his name used.

The declaration was contained in an authorized statement issued after a conference participated in by Senators Borah, of Idaho; Nye and Frazier, of North Dakota; Brookhart, of Iowa, and Norris. However, it was stated that no action had been taken and none would be taken "until a larger attendance is had, if at all, as to candidates for president."

It was stated emphatically that the conferences had nothing to do with a third party movement; that those participating were proceeding upon the theory that "the republican party is a national party and not an eastern party."

"We proceed upon the theory that if we make our wishes known in a proper way and with sufficient force," the announcement said, "we feel that a reasonable degree of solidarity with reference to our western interests and problems will help for a better understanding."

BOARD IS TO CONSIDER PAROLE OF EARL CARROLL

ATLANTA, Ga., Oct. 11—(AP)—A special meeting of the federal parole board has been called for Thursday in Atlanta to consider applications of prisoners at the penitentiary who became eligible for parole in October, among whom is Earl Carroll, New York theatrical producer, Warden John W. Snook announced tonight.

Carroll, who is serving a sentence of a year and a day for perjury in connection with his celebrated "bath tub" party, filed his formal application for parole today. He became eligible for clemency on Oct. 8, having entered the prison on June 8.

His petition probably will be considered by the board along with those of more than 125 other inmates who have become eligible since the board's last regular meeting in September, the warden said.

MADE LONGEST JUMP TOWARD BUENOS AIRES

ST. LOUIS, Senegal, Oct. 11.—(AP)—Happy over the ease and speed with which they made the first and longest of their jumps toward Buenos Aires, Dieudonne Costes and Lieut. Joseph Le Brix took a nap this morning and then returned to their plane to supervise its inspection. The inspection was made by mechanics of the Latecoere company.

The fliers are both in fine physical condition while their ship, having flown 25 1-2 hours, landed without a flaw to complain of except a slight mishap to the radio apparatus which interrupted their sending messages during the flight.

CHILDREN SUFFOCATED IN FIRE IN NEW YORK

New York, Oct. 11—(AP)—Three children died of suffocation tonight, police reported, when fire broke out in a four-story tenement house in East 109th street.

The children were: Carmelina and Charles Ortez, 4, and Rose Ortez, 6.

Crushing Defeat of Mex. Insurgents

Announced in Advices From Mexico City—Three Rebel Generals Killed in Action.

NOGELES, Ariz., Oct. 11.—(AP)—War department advices from Mexico City to the Nogales Herald today announced a crushing defeat of insurgent forces near Boquill, state of Michoacan, and the death in action of three rebel generals, Armando Garza, Donato Pedrajo and Luis Pedrajo. The battle occurred last night.

Advices also indicated hat the soldiers and firing squads of President Calles of Mexico have smashed the republic's latest revolution in virtually every state except Sinaloa, on the west coast.

Executions within eight days of upwards of a score of generals charged with mutinous tendencies, and of more than sixty civilian leaders accused of rebellion, are said to have left only six leaders of any consequence in the country who openly oppose the Calles regime and the program to again elect Alvaro Obregon, president of the republic. Obregon is Calles' choice for the post.

Reported by government announcements to have been decisively defeated his stronghold in Vera Crus state, General Arnulfo Gomez, sole remaining opponent of Obregon for the presidency, is said to be in flight. His two half brothers are declared prisoners in Sinaloa.

Long lists of minor accessories in the alleged plot to overthrow the Calles government by force of arms are in the hands of the attorney-general at Mexico City and it is declared numerous arrests and swift retribution will overtake these.

Orders have been issued from Mexico City strictly curtailing the sale and carrying of arms. All citizens connected with the administration of government will be disarmed, and the carrying of weapons outside the army ranks will be rigidly limited by licenses.

Meanwhile, the government has got a close watch at all points of exit from the republic, as the authorities believe numerous partisans of the broken Serrano-Gomez factions will seek to save their lives by flight.

Although no actual rebellion is reported from Nayarit, banditry is declared to be rampant there, and railroad trains are fired upon frequently. However, William P. Blocker, American consul at Mazatlan, reported today that there had been no delay in railroad schedules and that the federal troops were giving every possible protection to the movement of trains along the line of the Southern Pacific De Mexico.

OIL TANKER DAMAGED IN COLLISION WITH FREIGHTER

SAN PEDRO, Calif., Oct. 11—(AP)—Drifting dangerously near shore after a collision with a freighter off a fog-bound coast, the oil tanker Kekoskee late today was in tow for this port, its crushed side and flooded fire and engine rooms giving evidence of a near disaster.

Radio messages filtering into the Marine Exchange related meager details of the Kekoskee, with a crew of between 35 and 40 men, being struck amidship by the freighter Pomona off Point Arguillo, Calif., 145 miles north of here. The Pomona ploughed into the vessel in a blanket of fog and immediately stood by to give assistance.

The coast guard cutter Shawnee, operating southward from San Fvancisco, arrived on the scene to put a line aboard the Kekoskee. The Kekoskee's decks were mostly awash and her stern was down heavily as she drifted shoreward. Radio reports mentioned no casualty.

The Pomona was out of Baltimore for Everett, Wash., and carried a crew of between 40 and 45.

FAVORABLE IMPRESSION IN PARIS OF AMERICAN NOTE

PARIS, Oct. 11—(AP)—The latest American communication in the Franco-American exchange on French tariff rates, presented to the foreign office this noon, appeared to have produced a favorable impression here tonight.

Both parties in the discussion have agreed to keep the negotiations out of print at present, but there was unmistakable evidence of satisfaction around the foreign office after the note had been read.

It is assumed that another note from the French government may be necessary before the basis of future negotiations are finally fixed and that this will be forthcoming without delay.

MODIFICATION OF VOLSTEAD ACT FAVORED BY A. F. OF L.

LOS ANGELES, Calif., Oct. 11—(AP)—The American Federation of Labor convention went on record today as favoring modification of the Volstead act to permit the sale of wholesome beer. The action was taken in the adoption of a resolutions' committee report which favored concurrence in the executive council's recommendation for such liberalizing of the prohibition law.

A deafening roar of "ayes" was the response of the delegates to the call for a vote. This brought the comment from federal President William Green that he wished the labor men would vote "as loud and strong" on other resolutions. A burst of hearty applause was the rejoinder of the delegates.

Life Sentence For Killing Young Girl

John Billadella, 18, Pleaded Guilty to Second Degree Murder of Rose Bordino.

LITCHFIELD, Conn., Oct. 11—(AP)—John Billadella, 18, was sentenced to state's prison for the remainder of his natural life by Judge [illegible] Nickerson in the superior [illegible] here today after he had withdrawn his plea of not guilty of the second degree murder of Rose Bordino and entered a plea of guilty to an indictment charging second degree murder.

Billadella, a Winsted youth was charged by the state with having assaulted the Bordino girl in an abandoned factory and to have then wrapped her in burlap and left her in the coal bin of the factory, returning at periodic intervals to see if she lived and finally carrying her lifeless body to a swamp near Highland lake where it was later found. The girl disappeared on July 16 and her body was found on July 24.

The change of plea came after a conference between attorneys for the state and defense, the three superior court judges who were sitting in the case and Dr. Diefendorf, alienist of New Haven. Billadella's mother, Mrs. Maria Billadella De Lutre and his step-father Joseph De Lutre were called into a separate conference with the defense attorneys, the prisoner and Dr. Diefendorf.

JEALOUSY CAUSED WOMAN TO SLAY HER HUSBAND

FAIRBURY, Neb., Oct. 11—(AP)—Jealousy and a fear that "another woman would get him," were the motives that led Mrs. Alice Harvey, 46, to slay her husband, J. B. Harvey, while he lay asleep in bed, she said in a written confession today.

The confession came after an all day inquest and a sleepless night.

Immediately after the shooting last Wednesday, Mrs. Harvey told authorities her husband killed himself, and repeated her statement at the inquest yesterday.

In her confession she said that she got out of bed Wednesday after her husband had come in and retired. Then she went to the wardrobe, she said, took out a loaded gun and went to the side of the bed and shot him.

The revolver failed to discharge on the first attempt and Mrs. Harvey said she pulled the trigger a second time.

Mrs. Harvey testified at the inquest that she loved her husband, that they had never quarreled, and that he had never given her cause to suspect him of wrongdoing.

Testimony of other witnesses, however, was that she frequently complained of his relations with other women.

WOMAN MAKES RECORD SWIM OF ENGLISH CHANNEL

FOLKESTONE, Eng., Oct. 11—(AP)—The English channel swimming record for women, held by Gertrude Ederle at fourteen hours 31 minutes, today fell before Dorothy Cochrane Logan, London woman physician and "mystery" swimmer, who scrambled ashore here this morning 13 hours and 10 minutes after taking off from Cape Gris Nez.

The time of her takeoff from the coast of France was given as 7:40 o'clock yesterday afternoon while her arrival on the English shore was at 8:50 o'clock this morning. As she walked ashore at Folkestone this morning in the midst of a din of sirens and welcoming shouts, she collapsed and was taken to Hythe where she had been in training.

Dr. Logan, who swims under the name "Mona McLellan," made the swim on her fifth attempt, her takeoff at this late date of the channel season being inspired by word that Miss Mercedes Gleitz, London typist had conquered the channel a few days ago after six failures.

REMUS WORKING OVER PLANS FOR DEFENSE

CINCINNATI, Oct. 11—(AP)—While George Remus worked steadily over plans for his defense today, a coroner's verdict fixed responsibility upon him for the death of his wife, Mrs. Imogene Holmes Remus, and a grand jury moved toward an indictment.

At the request of Remus, a police order was issued banning visitors from his cell to enable him to proceed uninterruptedly over details of the defense he will make against the first degree murder charge.

The coroner's verdict read that "Mrs. Remus died from a bullet wound inflicted by George Remus."

The grand jury began its deliberations into the Remus case shortly after completing its organization today.

EMPLOYMENT CONDITIONS IMPROVE IN CONNECTICUT

HARTFORD, Oct. 11—(AP)—Employment was more readily secured in the state last month than during August, figures contained in the monthly report of the operations of the state's five free public employment bureaus indicate.

Of the 4858 applicants for employment, 3396 secured positions, or 69.9 per cent as compared with 63.7 per cent during August. The Hartford office found positions for 937 persons, of which 654 were male and 273 female. It had 1256 applications for employment and 960 requests for help.

$3,000,000 FIRE LOSS AT OCEAN CITY, N. J.

A SHIFT OF WIND STAYED THE FLAMES

OCEAN CITY, N. J., Oct. 11—(AP)—The heart of Ocean City, popular seashore resort of the southern New Jersey coast, was destroyed by fire tonight.

More than fifty buildings, including hotels, boarding houses, stores and theaters, were destroyed at an estimated loss of $3,000,000. The flames, which started at 7 p. m., at Ninth street and the boardwalk, swept through a dozen city blocks between Seventh and Tenth streets and the boardwalk and Central avenue.

Fanned by a brisk breeze from the ocean, the blaze spread quickly and the local fire department, realizing that it would be unable to cope with it, summoned aid from half a dozen nearby cities and towns.

Shortly before the flames were brought under control at 11 p. m., Mayor Joseph G. Champion stated that dynamite was the only hope of saving the city. A shift in th ewind at this time, however, turned the blaze back toward the ocean and over the section already destroyed and the use of dynamite was found unnecessary.

Two of the largest hotels in the city, the Normandie-by-the-Sea, and the Lincoln, were among the buildings destroyed. The Normandie contained 1,000 rooms and the Lincoln about 600. Scores of small shops and several moving picture houses along the boardwalk were burned.

BRIEF TELEGRAMS

The first set of triplets ever to enter the world in the New Hampshire state hospital have been born to Mrs. Nettie Sheligo, 28, of Hillsboro.

For having appeared on the stage of a Turkish theatre in Angora, Turkey, draped in a Turkish flag, Victoria Hatchikian, Armenian actress, is now in prison.

Monsignor P. J. McGivney, pastor of St. Charles' Roman Catholic church, Bridgeport, has been appointed supreme chaplain of the Knights of Columbus.

Leaving a penciled note saying "I know this is the best for you, ma," Robert P. Reiman, of Eatontown, N. J., leaped nineteen stories to his death.

Damages of $1,599.35 were awarded Henry A. Pallman of Milford against Attorney Arthur C. Graves, executive secretary for Mayor John B. Tower of New Haven.

INJUNCTION AGAINST THE UNITED MINE WORKERS

The Decree is One of the Most Sweeping Federal Court Injunctions in the History of Labor Disputes—Practically Every Activity of the Union Directed Against the Non-Union Pittsburgh Terminal Corporation Has Been Restrained—One Clause Forbids Union From Molesting or Interfering With Corporation Employes.

PITTSBURGH, Oct. 11—(AP)—One of the most sweeping federal court injunctions in the history of labor disputes was in effect here tonight against the United Mine Workers of America, its officials and its members. Practically every activity of the union, directed against the non-union Pittsburgh Terminal Coal corporation, was restrained by the preliminary order handed down by Judge F. P. Schoonmaker.

The court, in signing the far-reaching decree, upheld the contention of the corporation that the union, by its activities against the plaintiff, had hampered interstate shipment of coal in violation of the Sherman and Clayton acts. The chief point of the corporation in its suit—to regain possession of company owned houses occupied by striking miners—was decided in favor of the plaintiff, for the union and its members were restrained from in any way seeking to maintain union men in the dwellings against the wishes of the corporation.

Practically every point contained in the injunction decree drawn up by corporation counsel, was approved by the court. The union and its members were restrained from violence of any sort against company employes and prospective employes, and against company property. Union pickets were restrained from putting their foot on company property, but were allowed to establish a single picket post on each road leading to the mines. Such pickets were cautioned against using abusive language, but were permitted the use of peaceful persuasion.

One paragraph of the order covered a wide field, forbidding the union "from obstructing, impeding, hindering, preventing or interfering with the operation of any of the plaintiff's mines or from doing any action which result in interfering with such operation.

The court held the corporation was entitled to the preliminary injunction because "it clearly appears from the specific facts contained in the verified bill of complaint and by the evidence submitted, that immediate and irreparable damage and loss will result to plaintiff unless a preliminary injunction be granted and that for such damage and loss the plaintiff is without any adequate remedy at law."

One clause forbids union men from molesting or interfering with corporation employes or their families, or officers and agents of the company, or any one seeking to do business with the company. Shooting at or toward company property or exploding dynamite or powder on corporation land was forbidden, as was the throwing of rocks and other missiles at employes or automobiles engaged in the plaintiff's service.

The order made it plain that union men would not be restrained from holding ordinary meetings or social gatherings or meetings in union halls.

Its decision several weeks ago, the court said evition cases on appeal would not be affected by today's order, which forbids "hereafter" any attempt to retain company houses for strikers.

The corporation posted a bond of $50,000 to make the injunction effective at once.

Nothing was said in the preliminary decree concerning the prayer of the corporation for damages of $1,500,000.

The Terminal corporation was a union stronghold until April 1, when the company posted a wage scale lower than the union scale, and union miners suspended work. Since that time the corporation has sought to operate with non-union miners, joining the ranks of other open-shop operators.

A. F. OF L. PROTESTS THE POWER OF INJUNCTIONS

LOS ANGELES, Oct. 11.—(AP)—Leaders of America's working millions today spurned politics as a cure-all for labor's woes and moved with all their force to unseat the power of the equity court.

After the smouldering embers of union labor's resentment against the court injunction as used in labor disputes had been fanned to flame by the vigorous speeches of Representative Tradesmen, the convention of the American Federation of Labor adopted a committee report concurring in the stand of the executive council.

The action of the convention means that the federation purposes to use every power at its command to seek repeal or amendment of the Sherman and other anti-trust laws which were declared in the council's report to be directed in effect against labor rather than the products of labor.

DAIL EIREANN RE-ELECTS COSGRAVE PRESIDENT

DUBLIN, Irish Free State, Oct. 11.—(AP)—President William T. Cosgrave has been re-elected president of the Irish Free State executive council by the new dail eireann with a majority of six over his opponents and will now proceed to form his cabinet.

His nomination as president was opposed by members of the Fianna Fail (De Valera party) and laborites. No alternative nomination was made, however, and Cosgrave receiving the support of six farmers and 11 independents obtained an easy election.

Michael Hayes was re-elected speaker without opposition. Eamon De Valera, making his first speech in the new dail, in Irish, protested that the speaker's salary of £1,700 a year was too much and announced that he would later move its reduction to £1,000.

The first sitting was not sensational. Sean O'Kelly, De Valera's chief lieutenant, in opposing the re-election of Cosgrave, spoke in Irish roundly denouncing the whole Cosgrave administration. President Cosgrave sat opposite but as he is not an Irish scholar he could not understand what he was hearing. Finance Minister Blythe, however, translated O'Kelly's remarks and passed slips of paper on which he had written the translation to the president.

BELGIANS REJOICE AT BIRTH OF PRINCESS

BRUSSELS, Belgium, Oct. 11.—(AP)—The hearts of all good and loyal Belgians were gladened today when a little daughter was born to Crown Prince Leopold of Belgium and Princess Astrid, niece of the king of Sweden.

Everybody would have been happier if it had been a boy, for a male chile would have been a direct line to ascend the trone whereas the little princess can never rule this kingdom for the royal succession is restricted to the male line.

The first-born to the crown prince and his Swedish bride weighed seven pounds.

This afternoon she was christened Josephine Charlotte Ingeborg Margaret Astrid. Tonight all of Belgium is drinking her health and from all over the world messages are pouring in to Brussels from kings, presidents and many others of low as well as high estate. They bring congratulations to the parents and also to Kink Albert and Queen Mary who have now achieved the status of grandparents.

A bulletin signed by doctors Spiess and Le Bouef stated that both mother and child were doing well this evening.

BLOCK ORDERS FOR TICKETS FOR YALE-DARTMOUTH GAME

NEW HAVEN, Oct. 11—(AP)—Inquiries have been received by the Yale Athletic association concerning the acceptance of block orders from banks, industrial firms and other organizations for tickets for the Dartmouth game in the bowl on October 29. It is not anticipated that the bowl will be entirely sold out for this game and therefore the athletic association will entertain applications for block orders, which will be filled if tickets remain after the allotment to Yale men and season ticket holders is completed.

The closing time for applications for the Dartmouth game is tomorrow afternoon at 5 o'clock. In view of the fact that the announcement concerning block orders is just made, they may be sent in after that hour but should be sent as early as possible.

CHARGED WITH KIDNAPING AND FLOGGING HIS COUSIN

LUVERNE, Ala., Oct. 11.—(AP)—Cue Bozeman, a farmer, was arrested late today on a warrant charging him with kidnaping in connection with the flogging of Travis Bozeman, his cousin, in August, 1926.

Bozeman's arrest was the latest step relating to the special grand jury investigation of masked violence in Crenshaw county, which Attorney General Charles C. McCall, of Alabama says has affected 20 or more persons. Mr. McCall has indicated he has gathered sufficient evidence to indict 20 or more persons for complicity in masked whippings.

Names of four of the 20 persons who have been whipped were brought to light today. Besides Bozeman, Ada Lowe was whipped about three years ago, Reynolds Ellis last December and Miss Annie Clements last February.

Tomorrow, James Esdale, grand dragon of the Ku Klux Klan in Alabama and George H. Thigpen, state superintendent of insurance, are scheduled to face the grand jury.

COOLIDGE CONSERVATIVE ABOUT TAX REDUCTION

WASHINGTON, Oct. 11.—(AP)—President Coolidge expects tax reduction to be effected by the next congress but he believes the $400,000,000 cut suggested by the United States chamber of commerce to be incessive.

He was represented today as feeling that tax reduction should go hand in hand wih retirement of the public debt, and that the total should be as large as econonomical administration of the government's affairs would permit.

A sharp reminder came again from the white house that any tax reduction would depend on restriction of governmental expenditures, but even with a close curtail of appropriations, the president believes that any attempt to cut the government's income by $400,000,000 would result in a deficit.

NEW HAVEN DEMOCRATS NOMINATE PHILIP TROUP

NEW HAVEN, Oct. 11.—(AP)—Philip Troup, local attorney and editor of the New Haven Union until its recent absorption by the Times-Union, was tonight nominated by the democratic city convention as the candidate of the party for mayor. He accepted the nomination.

Attorney Troup recently issued a statement, after he had been visited by a committee of local democrats who were reported to have urged him to become a candidate for the mayoralty nomination, saying that private interests would prevent his acceptance. The agitation for his nomination was continued, however, with the result that he consented tonight to head the city ticket of the party.

The republican convention will be held later this month.

"RECORD" EGG MAILED TO PRESIDENT COOLIDGE

OMAHA, Neb., Oct. 11.—(AP)—A "record" egg, packed carefully in a jewel case, was sent by air mail to President Coolidge tonight.

A telegram, asking the president to have it served for his breakfast Thursday, preceded the egg, which was the one hundred sixty-sixth laid by Lady Norfolk, prize leghorn hen, in as in consecutive egg laying.

A total of 235 eggs have been laid by the hen since November 3, 1926, and since April 29, she has laid an egg a day.

JEWETT CITY

JOHN DAWIZOWICZ SUICIDES—USES SINGLE-BARREL SHOTGUN

(Special to The Bulletin)

JEWETT CITY, Oct. 11—About 4 o'clock this afternoon John Dawizowicz, 43, who with his wife has been living on the old John O'Neil place in Lisbon, blew his head nearly off with a charge from a single-barrel shot gun, which he evidently discharged with his toe. He was employed here in the Aspinook bleachery, where he was rated as good help. Sunday he had been drinking heavily and some time later he disappeared.

His wife had searched for him far and near through the woods and swamps, all around a large section in the vicinity of his home. This afternoon while at the home of a friend, Mrs. John Rachkofsky in Newent, they went a searching again. Following the sound of a distant shot, they soon came upon Dawizowicz lying under a tree grasping the gun, dead, his head partly blown away by the close discharge of the heavy shot. His wife said he had been severely hurt on the head some time ago by a truck, and had been acting strangely of late, and that she had noticed his peculiar actions.

The family once lived in Hopeville, three miles above the borough.

Dr. George Thompson, medical examiner, of Taftville, was called and gave permission to Hourigan Bros. to remove the body to their rooms here. A gunshot was given as the cause of his death.

Police Officer Henry Veglard and Deputy Sheriff John T. Dolan, responded to hurry calls and went to the location of the tragedy.

(Special to The Bulletin)

JEWETT CITY, Oct. 11—Judge John T. Barry, in the town court this morning, gave Joseph Kizyzamak, of New London a fine of $125 and costs, for driving while under the influence of liquor. The arrest was made by a state trooper from the Danielson barracks. The accused paid.

Whist tonight at S. K. of C. room. Cath. Woman's Council.—Adv.

First Selectman Daniel F. Finn, in consultation today with highway engineers, decided to eliminate the small bridge at Glasgo. This bridge is built over the tail-race from the flume of Glasgo finishing company, and when the mills are in operation allows the water from the wheels to cross the highway.

The new plan will be the installation of two six foot steel penstocks, laid in cement, then covered with gravel to the grade of the present highway, thus doing away with the present bridge.

Workmen began Tuesday repairs at the town hall on Soule street. The town clerk's office and several of the apartments in the building will be refitted.

A couple of dozen new hunters' licenses issued since the season opened, is evidence that there is still the call of the wild. A check-up Tuesday evening seemed to prove that no one had yet located the two big flocks of pheasants reported in local covers in September.

Mr. and Mrs. William Kallenberger were week end visitors with C. J. Bischoff, the party taking in the sights at Bear Mountain, Croton Lake, Kensico reservoir, Yorktown and Nyack, N. Y.

"I agree with George White that Luckies are the best"

Said Flo Brooks to Lou Holtz while waiting for their cue to appear in "Manhattan Mary."

George White,
Producer of George White's Scandals, writes:

"In the theatre world, Luckies have become almost universal. Stage folks are very critical—voices must be kept in condition, throat irritation is a handicap. In 'George White's Scandals,' most actors and actresses whose voices are important smoke Luckies both for voice protection and finer flavor. For these reasons I prefer them, too."

DANIELSON

MRS. SARAH GODMAN FOUND DEAD AT HOME IN BROOKLYN

(Special to The Bulletin)

DANIELSON, Oct. 11—This morning the body of Sarah E. Godman was found at the home where she had lived alone in the town of Brooklyn, near the fairgrounds. Neighbors who knew she was in poor health and had come to call were unable to gain entrance, so forced a window. Mrs. Godman evidently had started to dress and been overcome and had fallen back onto the bed as death overtook her. She was about 70 years of age.

Coroner Arthur G. Bill and Medical Examiner Dr. George H. Burroughs viewed the body. Death was due to natural causes. The body was taken in charge by Undertaker A. F. Wood.

Mrs. Godman's health had been so precarious of late that Mrs. S. W. Bard and Miss Mabel Dyer had arranged to take her to the hospital at Putnam this morning for a consultation with a physician. They found her home locked when they arrived at it, so summoned assistance to gain entrance and found the body.

Mrs. Godman had been a resident of Brooklyn for many years and had been employed as a domestic by various families there. She had been twice married, but has no known living relatives. Mrs. Godman lived alone in the home she owned.

(Special to The Bulletin)

DANIELSON, Oct. 11—Monster catches of fish are being taken from the Chase reservoir at East Killingly. Don't rush, fishermen; don't push! The fishing parties up there are being conducted by representatives of the state fish and game commission for the purposes of clearing this body of water, part of the supply for Danielson, from its finny inhabitants, and is a very exclusive affair.

Traps that were set in the reservoir a few days are now being hauled and are yielding so many fish that one wonders why they did not bite more up there when fishing was allowed on that body of water, which has not been for several years. Pickerel, bass, perch and eels and a plethora of mudpout have been taken out to date, and the work is just getting underway.

From the traps the fish are put into a boat nearly filled with water and eventually transferred to cans and then transported by motor truck for release in Alexander's lake and Old Killingly pond, two fine bodies of water within the limits of the town.

Up to this noon the Chase reservoir had yielded hundreds of fish, the weight of some of the pickerel being estimated at as high as four pounds. Included in one haul was a pair of eels, lated placed on exhibition here, one of them weighing seven pounds, the other about five pounds.

Following the trapping of fish in the Chase reservoir, the Hygeia reservoir, also near East Killingly, will receive attention.

The fish are being taken out by the state with the approval of the Crystal Water company, owners of the reservoirs. This is the first time that fish trapping on such a large scale has been done in this section of the state. Fishermen are inclined to believe that the Hygeia reservoir will yield some handsome trout, probably some of extra large size.

Keen judges of such matters were almost unanimous today in expression of all residential properties in the im- Burlingham property, so-called, from Judge Arthur A. Bill by the Brooklyn Savings bank for the erection of a new banking house has advanced the value the site of the property just purchased mediate vicinity in a very material way, probably as much as $1,000 in every instance and more in others.

The fact is that Danielson's business section has started growing northward. It will be recalled that the Francis corner property, across the street from the site of the property ust purchased by the bank, only recently was sold to the Blumenthal interests and is to be developed as a business block in the immediate future. This is taken as forecasting the development of other business properties in the area thereabouts, including that section of the southerly side of Academy street between Main and School. It is this possibility, for one thing, that has at once increased the value of these properties as well as the greatly improved appearance of the section through the construction of the new bank.

Something has just got to be done about these precocious youngsters. There's Joseph B. Stetson, of Brooklyn, who is to celebrate his 80th birthday Wednesday of this week. This sprightly young man has set a new fashion in fox hunting costumes and customs. In the very early hours of this morning he set out, clad only in his night short, with his gun and his shells to have a go with a fox. Mr. Stetson's quest was favored by a brilliant full moon, making the country-side nearly as light as day, but not so particularly favored by a temperature hovering around the freezing point and nipping at his bare feet.

It appears that the barking of a fox near Mr. Sheldon's poultry yard aroused a member of the household, who awakened Mr. Stetson, an old-time enemy of all the fox tribes. Stealing along behind a row of tall sunflowers Mr. Stetson finally got his shot at the fox, but not before another fox, likely the mate of the first one, came barking into the picture. The latter one still lives.

Mr. Stetson said this afternoon that he will celebrate his birthday tomorrow with 20 guests on hand to share a bountiful dinner and other features of the observance, and he laughingly pledged that no one of his visitors would be fed on fox meat. The fox Mr. Stetson killed was one of the gray species that have become so numerous in territory hereabouts in the past decade.

October—coincident to the fulling of the hunter's moon—made a rather vicious gesture as to fall during the early hours of this morning, when there came not only the first severe and killing frost of the season, but also sub-freezing temperature. At Woodward's the recording thermometer showed the mercury dropped to 28 degrees, four points below the freezing mark. Blooms in many a flower garden were blackened and blasted, and some corn fields where cutting has been delayed from day to day were looking not so good as during the balmy weather of the past week. The sudden drop in temperature, catching many unprepared to properly heat their homes, was the cause of very considerable discomfort. However, the wind swung around into the south again this morning and by afternoon the temperature, out in the sun, had run up close to 70 degrees.

This afternoon at the Baptist church here funeral services were conducted by the pastor, Rev. C. J. Armstrong, for Mrs. Bessie A. House, who died the past week end at her home in Wauregan. Relatives and friends from a number of surrounding communities attended the service. Included in the funeral congregation was a delegation from McGregor, Woman's Relief corps, and the ritualistic funeral service of the order was conducted by the corps members in the church chapel. Burial was in the South cemetery at Brooklyn. The bearers were three sons-in-law, Byron Carroll, F. A. Moore, and Arthur Richards, and three grandchildren, Harvey Pero, Gilbert Shippee and Daniel King. During the service Miss Eleatha I. Sheldon of East Killingly sang Beautiful Isle of Somewhere, and Nearer My God to Thee. Mrs. J. W. Gallup was organist. There were many beautiful floral pieces. A. F. Wood was in charge of the funeral arrangements.

Thursday evening of this week brings the monthly South Killingly Community night meeting at the Community house in that section of the town. These gatherings have been held for a number of months past, and have become an interesting feature of the community life of South Killingly. Thursday night the assembly is to be at 6:30, when a supper is to be served, followed by an entertainment by the Kitadini Camp Fire Girls. Members of the Westfield Congregational church, with which the church at South Killingly is very closely associated, are to attend this monthly gathering in numbers.

Extra! The first ice of the season formed in this territory this morning, as numbers attested during the day who have occasion to be up early and to observe what has happened during the night. Poultrymen tell of finding water containers left outdoors covered with a half-inch coating of ice. Michael Espinosa, who lives near the Pines in East Brooklyn, said that the temperature was only 20 degrees—12 degrees below freezing—at his place just before sunrise.

For sale, in the central section of Danielson, modern, nicely appointed 9-room house, with 5 garages, land; splendid location; good reason for selling. Write "Home" care The Bulletin, Danielson.—Adv.

Thursday afternoon members of the Roundabout club are to meet with Mrs. Orray E. Potter.

Alterations are underway on the interior of the Exchange block to allow of enlarging the quarters of the Grant store, which will have additional space at the rear of the building.

Night Officer and Mrs. Arthur DeForest were members of a party that made a week end motor trip over the Mohawk trail, finding that picturesque country particularly beautiful at this period of the year.

Hunters who have been out after game birds this week tell of starting a number of deer from cover, and assert that the pretty mammals are numerous hereabouts this fall.

Carpenters put in their first day's work on the new Dowe block this morning, putting the floor joists in place. The promise is that, with good weather, the tile work of this new block will be up to at least the first floor level by Saturday of this week.

James A. Fredmere of Worcester was a visitor with friends in Danielson today.

This afternoon members of the W. C. T. U. met with Miss Caroline Danielson of Hutchins street.

Pictures of a central section of Danielson as it was back before the Civil war, and on display in a window at the Danielson Trust company, have been attracting more than ordinary attention. These pictures make very clear the great changes that have come in the territory pictured in the passing years.

Some yarn produced in the new plant of the Connecticut Mills company at Albany-Decatur, Ala., has been sent here and put through advanced processes to make it ready for weaving into tire fabric.

Recently Charles W. Young, superintendent of the Goodyear Mills, has been at Akron, O., attending an interplant conference attended by officials of various Goodyear companies scattered throughout the country.

It was said today that there is a possibility of further improvement in the pavement of Main street by the state during the building season of 1928.

Young Peloquin, local boxer, has a match scheduled with John Villa of Worcester, at Putnam on Friday evening of this week.

There have been no special developments this week relative to the plans for a more adequate railway express service for Danielson, though the matter remains one of prime importance to many concerns here.

Miss Ruth Fiske of Danielson is an official of the Quinebaug Valley Winter institute that is to hold its first session here Friday evening of this week.

Prompt persons already have filed their lists of taxable property, as of October 1, with the assessors of the town of Killingly.

PUTNAM

VOTERS TURN DOWN EXTRA WATER TANK PROPOSITION

(Special to The Bulletin)

PUTNAM, Oct. 11.—At a special city meeting held today the voters of Putnam turned down the proposition to build two water reservoir tanks instead of only one as contracted for earlier in the year. The polls were open from 9 a. m. until 5 p. m. and the voting resulted in 294 votes being cast against the proposition to 192 in favor of it. As a result of the vote the city will only construct one water reservoir tank.

In direct contrast of the weather of a week ago, the thermometers this morning registered anywhere from 20 to 30 degrees above zero. There was a heavy coating of ice on still water and there was a hard frost which ended the summer vegetables not already harvested. Furnace fires were built yesterday and although there has been a slowly rising temperature today the furnace heat is not uncomfortable.

For several hours this morning the big army airplane which was brought here by Capt. Blake and Lieut. Davis on their visit to the parents of the latter was seen circling over the town. On Saturday afternoon Lieut. Davis was up in the air doing all kind of stunts much to the delight of the people of Putnam but this morning the plane was doing straight flying, as it needed some adjustment and the army officers were testing it. If everything is all right the two aviators expect to leave tomorrow for Langley Field, Va., where they are stationed.

The Putnam evening school opened a week ago with an unusually large enrollment and which has steadily increased at each session. Last night there were more than seventy-five pupils in attendance, fifty-five of them in the commercial department of the school. There has been between twenty and twenty-five students each night of the school in the Americanization department and which is under the direct supervision of Miss Ruth Elliott. The commercial work which includes bookkeeping, typewriting and stenography is in charge of Mrs. Minnie Macdonald and Mrs. Giselle Dupre. There are three sessions each week, Monday, Tuesday and Thursday evenings beginning at 7.45.

There is on file at the office of the town clerk, an agreement for the sale of the Central block property on Main street by the William Pearson estate to Charles Seder. The deal has not yet been consummated and Mr. Seder has not yet announced what his improvements are to be on the property. Within the past few years Mr. Sedar has built two fine blocks in the business section of the town. The one opposite the Second Congregational church is now owned by Smith and Aipert. His latest addition to the business section is the building replacing the Rich block which has been completed this summer.

Funeral services for Miss Marjorie Shippee, aged 19, were held yesterday at the Second Congregational church at 2.30, Rev. James F. English officiating. Miss Shippee was taken ill with tubercular trouble about a year ago while in her senior year at the Putnam High school but was awarded her diploma in absentia. She is survived by her grandparents, Mr. and Mrs. A. J. Shippee, with whom she made her home. Besides her grandparents, she is survived by her father who lives at Bridgeport and a brother, Richard Shippee, of Boston. Burial was in Grove street cemetery.

Alderman Charles A. Ryan, who has returned from the annual convention held in Paris, and who was the only man in this vicinity to attend, was given a banquet last night by his fellow members of the Anselym Mayotte Post of Putnam. It was attended by thirty members of the local post and among the guests were Lieut. Everett S. Davis and Captain Charles R. Blake of the United States Army Aviation Corps who are visiting the parents of the former, Mr. and Mrs. Everett Davis of Martup farm. Capt. Blake and Lieut. Davis made the trip in a big army airplane and expect to return to their posts at Langley Field, Va., in th same way.

Mr. Ryan was probably in as many engagements during the World War as any member of the post. He was wounded three times and nearly lost his eyesight as a result of being gassed a short time before the armistice was signed.

Commander Martin B. Robertson of the local post was toastmaster at the postprandial program which followed the serving of a very enjoyable dinner. There were short talks by members of the post and by Captain Blake and Lieutenant Davis.

Mr. Ryan in response expressed his appreciation of the honor that had been paid him and gave an interesting talk about his experience on his recent visit to France, which he said was very different from the time he spent there in 1917-18. He said that on the part of the French people he saw nothing but good will and friendship toward the American visitors and that he believed the holding of the convention in France had gone a long way toward cementing the friendly relations between the two countries.

Dr. and Mrs. H. B. Wright of Stafford Springs have been the guests of friends in the city. They were former residents of Putnam.

Roger Bayer, the 12 year old son of Mr. and Mrs. Emil Bayer is a patient at the Day Kimball hospital where he underwent an operation for appendicitis.

Mrs. Everett E. May is the guest of friends and relatives in Boston and Wollastob, Mass.

Mrs. Lottie May of Woodstock, who lived for a number of years in Putnam is the guest of friends in the city.

Miss Nellie Bloxham, matron of the Day Kimball hospital and her sister, Miss Mabel Bloxham of Jersey City, who has been her guests have gone to Canada to visit their brother.

David Lown who has been spending a number of weeks visiting his mother, Mrs. Effie Lown of Pleasant street, has returned to Miami, Florida for the winter.

Miss Sarah Averill of Worcester, Mass., has been the recent guest of her aunt, Mrs. Emma Groevenor at Abington.

ROCKVILLE

The quarterly rally of the Washington county central Christian Endeavor union was held in the Seventh Day Baptist church here Saturday evening. The address was given by Rev. S. Duane Ogden, of Waterford, Conn. The Rockville C. E. choir sang an anthem and the Hope Valley representatives followed with responsive reading. A solo was sung by Miss Helen Maxson, of Waterford with Miss Josephine Maxson accompanist

Mrs. Carlton Irish and daughter Miss Lucie Irish and Mrs. Albert S. Babcock were in Westerly during the week and saw "Ben Hur."

A detour has to be made now by people coming and going between this place and Hope Valley, the road being torn up to put in the new cement bridges, in preparation for the new road to be constructed next year.

Rev. S. Duane Ogden and Misses Josephine and Helen Maxson, of Waterford, Conn., were guests of Mr. and Mrs. Carlton Irish, Saturday night and Sunday.

Rev. Leroy C. Perry, of Providence is expected to preach in the Seventh Day Baptist church here next Saturday morning at 10:30.

Leslie B. Kenyon completed his work at Escoheag last Thursday.

Mrs. Byron L. Kenyon who has had a severe cold, is somewhat improved.

WILLIAMS OIL-O-MATIC HEATING
If You Would Have It For Cool Fall Days
Order It Now!

A Phone Call Now Will Bring You Full Particulars and Guarantee Installation Before the Cooler Fall Days Begin When Comfortable Warmth Is Necessary.

If you intend to have Oil-O-Matic heat this year we urge you not to delay placing your order for it if you want it when it will be needed when the real cool days and nights begin. Last year many had to wait beyond the time they needed heat because they did not place their orders in time. We do not want this to happen this year and to prevent it we must have orders sufficiently ahead to guarantee installation in time. This is the busiest season with our Oil-O-Matic installation crews and we must plan their work so there will be no delays or disappointments. We want to give you heat when you need it and you can have it when you need it by placing your order with us NOW!

Oil-O-Matic The Best Oil Burner Made

Enthusiastic Owners in Eastern Connecticut and the World Over Furnish Abundant and Convincing Proof of Its Superiority. No other Oil Burner Is As Strongly Endorsed as Oil-O-Matic.

Read What These Owners Say

Every Oil-O-Matic owner is enthusiastic about the efficiency and comfort of this unexcelled burner.

"When I compare Oil-O-Matic heating with coal I am very thankful that I made the change from coal to Oil-O-Matic heat in both my residence and apartments. I heartily recommend Oil-O-Matic."—J. B. CARON, 197 Broadway, Norwich.

"The Oil-O-Matic heating plant you installed in my house maintains a fixed and uniform temperature whatever the temperature outside. It has given entire satisfaction and has required no service."—W. S. ALLIS, Attorney at Law, 91 Main St., Norwich

"I congratulate you on having the sale of such a wonderful automatic heating mechanism as Oil-O-Matic and I can sincerely say it is the greatest comfort possible in the home."—C. D. WHITE, textile manufacturer, 248 Broadway, Norwich

"I am pleased to say that both Oil-O-Matic heaters installed by you in St. Mary's Church and Rectory have given perfect satisfaction during two winters. I want to thank you also for your perfect service system."—REV. W. A. KEEFE, St. Mary's R. C. Church, Norwich.

A Few of Its Many Advantages

Wider Range of Fuels
With Oil-O-Matic you can use any house heating oil that is cheapest at the moment. And no adjustment of the burner is necessary.

Leads World in Sales
With Oil-O-Matic you get all the advantages that have led more people to select it than any other oil burner.

Lower Operating Cost
Oil-O-Matic Heat costs less because of the use of Fuel Oil, lower in price and richer in heat units than the lighter oils to which most burners are restricted.

Expert Installations
You are assured of dependable uniform heat by having graduates of the Williams Institute of Heat Research study your particular heating problem.

THE UNITED WORKERS

At the present time the annual solicitation of funds for the United Workers is underway, and as on all previous occasions there are excellent reasons why there should be keen interest in it and liberal donations.

Through the foresight of earlier residents, who gave substantially, Norwich has long had the benefit of this great charitable and philanthropic organization. Their example has been an inspiration to others and happily the United Workers has good sized endowments for the conduct of its work in its various branches. Those endowments provide for much of the work, but not all, and it is at this season of the year that the people of Norwich are given an opportunity to express their recognition of the magnificent service and make its extension possible through their contributions.

Norwich owes much to the United Workers. Not many communities have benefited so extensively through provisions by other generations. The work that is being done deserves not only to be maintained but to be enlarged wherever the need is found for it, and it is to this that there is now a chance to contribute during the annual solicitation.

Through its Sheltering Arms, its Rock Nook home and its various committees, which are directing various activities for the public welfare, the United Workers is constantly at work filling the needs as they are encountered and facing increased demands as the city grows and the work is broadened. It is an institution of which Norwich has every reason to be proud, an institution upon which great dependence is placed and one which relieves many of the burdens which otherwise would fall upon the shoulders of the taxpayers. It affords an opportunity for those who are desirous of backing every good cause to display their interest in its work and to make contribution through large and small gifts to the maintenance and extension of a great public service in connection with the local worthy poor, the helpless and the unfortunate. There is no better evidence of appreciation than through support.

THE TEAPOT DOME DECISION

By a decision of the highest court in the land, the suit instituted by the government against Harry Sinclair, oil magnate, has been finished and the government is the victor. This was the famous Teapot Dome case and as in the similar case against E. L. Doheny regarding the Elk Hills reserve the decision means that the government regains possession of valuable oil lands which were leased under illegal methods to Sinclair and Doheny.

These cases have been in the courts for a long time, but they have resulted as the country believed they should. From the testimony that has been given it long since became apparent that through manipulations the government was being deprived of some of its treasured oil reserves. In the opinion of the supreme court these transactions were without the authority of the law. In the Teapot Dome case the court held a conspiracy existed and that throughout the transaction there existed "a trail of deceit, falsehood, subterfuge, bad faith and corruption, at times indistinct but nevertheless discernible."

This corresponded to the branding of the Doheny transaction as "tainted by fraud and corruption," so, that both cases are regarded in a similar light by the court of last resort.

It has taken some time for those cases to go through the courts. They were fought at every angle and in the Teapot Dome case important testimony was kept away from the trial, but the civil actions are now concluded and all that remains is the completion of the criminal cases. The action by the highest court, following its close scrutiny, clears up any doubt that may have existed concerning the transactions in which Doheny, Sinclair and Fall participated.

FEDERAL TAX CUTTING

There's much that can be said and much that will be said in behalf of tax reduction during the coming session of congress. The United States chamber of commerce believes that there should be a drop to the amount of $400,000,000 and in connection therewith it urges a cut in the corporation tax from 13 1-2 per cent to a flat 10 per cent.

It has long since been evident that the surplus at the end of the last fiscal year was going to stand out as a growing argument for tax reduction. It exceeded expectations by a large amount, but when we contemplate this more than $600,000,000 it is to be remembered, that there was a considerable part of it made up of non-recurring revenue. Sources which yielded large sums will not do so this year, so there can be no expectation of a similar surplus this year.

Cutting federal taxation must be considered from all angles. There is a powerful argument for cutting the corporation tax when it is realized that they pay two thirds as much in taxes as they do to their shareholders, and considering the great number who are affected by this corporation tax it is due for some consideration when tax reduction is undertaken. Whether it is time to make as deep a cut as the United States chamber of commerce urges should be governed by such other changes as are contemplated in connection with the whole plans for tax readjustments.

There are those income taxpayers who haven't as yet experienced much of a reduction in their schedules and there is of course always that opportunity of cutting the federal debt, for the benefit of all, by utilizing the surplus in that manner. On the other hand the large appropriations which are faced by this next session of congress must be considered. There can be no disposition to plunge into reckless tax reduction any more than there can be ot make all kinds of extravagant expenditures. Such tax cutting as is done must be undertaken on a scientific basis with a full understanding of where the limit must be and where reduction is most justified or needed.

LOAN REFUNDING WINS

Quite in keeping with expectations is the announcement made by the state department that it will give its approval to the refunding of the French bonds in this country. Except for the attitude taken by France concerning the payment of the war debt there might have been no thought of objection, barring the recent tariff discussions, but what France desires to get is not new money in this country but the issuance of new bonds calling for a lower rate of interest but for an amount similar to the existing bond issue.

It is within the right of France to call in its 8 per cent bonds. That was understood at the time they were issued. France then appreciated the fact that while it was necessary to pay that rate of interest at that time the day might come when money would be available at a lower rate. That day has come. France is able to get the benefit of a much better rate and would like to refund the loan in the United States.

The sanction of the department of state has been the point on which such action has hinged, and now that that has been granted it is to be expected that the old bond issue will be exchanged, for a new one and France will be able to pocket the difference in the annual interest account. This will mean no slight benefit to France. It shows that it is alert to its opportunities and it must realize that this government is not disposed to stand in the way of anything that would be of assistance to the French government.

What effect that will have upon the French attitude concerning several matters in which the United States is interested remains to be seen. The step has been taken which should aid in dissipating the feeling that there is an unfriendly attitude on this side of the Atlantic to France. We are not disposed to furnish all the money France might need, while it maintains its present position concerning the debt, but we do not propose to take an unreasonable stand just because acquiescence to France's desires means assistance to that country's finances.

FIRE PREVENTION

If there are those who do not quite understand the part they can play in connection with fire prevention, there is an excellent illustration furnished by the Revere beach fire.

There a loss of $300,000 was sustained this week because, as the authorities believe, a careless smoker discarded a cigarette in the woman's waiting room. It doesn't appear that there was any thought on the part of the person who may have done such a thing that it would cause such destruction in that amusement resort but that is right where there was a gross absence of fire prevention work.

Any one who is at all familiar with cigarettes knows that they are very apt to burn to the end when discarded. If they are put where there is inflammable material they serve as the necessary torch for a fire. If they are rubbed out they can do no damage, but there is a habit possessed by many of simply casting a cigarette to one side, no matter where it lands, and many fires are started in just such a thoughtless manner.

Fire prevention is possible in a great majority of cases. A little thought given to the consequences of common acts is all that is needed. If a burning match is put out it can do no harm. If it is dropped while ignited the chances for a fire are excellent provided it happens to fall in material which will kindle quickly. It is easy to recognize how many fires could have been prevented, but the real important thing is to anticipate the possibilities and see that they are not encouraged through carelessness. Prevent a fire rather than start one.

SOME POSTGRADUATE WORK

"Some women," began the restless lady just as the hostess brought in the fruit salad and coffee after the card game, "may go into politics, reform, charity or uplift after the children are through college and married off, but as for me I've decided on my work, and it is none of these things. I shall start a training school for husbands!"

"Whose husbands?" demanded a wary lady.

"As soon as the women realize the scope of my work," proceeded the restless lady, brushing aside the query, "I expect to have a long and perpetual waiting list. People have trained and reformed and developed everything on this green earth from apples to criminals and soprano voices, but somehow they have overlooked husbands. All this time the poor things have been struggling along weighted down by a job about which they were as ignorant as an Icelander of a chocolate fudge sundae.

"After a man is 21 something happens to his brain—it sort of jells—and it becomes a practical impossibility for him to comprehend an ordinary request to hang things up instead of dropping them on the floor. Somebody, some day, is going to raise a statue to any mother who begins when he is aged 3 to train little Johnny to hang up his nighty, his panties, and to put his butterfly necktie neatly in the bureau drawer.

"As things stand now it is going to require a phychologist, a strong-arm trainer, soothing music and bars on the windows to teach the average husband to change his ways and leave his bedroom and bath looking like a human habitation instead of a combination laundry-drug store-clothing shop.

"I am not yet sure, either, of the method of training them to avoid social cataclysms. But something must be done about it.

"You may take your husband aside when you are giving a dinner party and explain to him that you are putting that pretty Mrs. Osprey on his right—Mrs. Osprey, who is visiting the Giddings and who has just returned from her trip abroad, where she has secured her divorce—and fancy that he will proceed along the proper line all right. But just as the lull comes, after the soup course, you will overhear him remark to Mrs. Osprey that it is too bad Mr. Osprey did not come on to Chicago with her, because he should have so enjoyed meeting him, and that she must be certain to bring him next time!

"Or, if Mrs. Jones, who detests her son's new wife, appears, he tells her chattily that he ran into her very pretty daughter-in-law the other day and doesn't wonder that Harold grabbed her so suddenly. Can't afford to give other chaps a chance at a winner like that!' he booms heartily to Mrs. Jones, who is beginning to sizzle. 'You and Harold both are certainly fortunate,' he tosses in for full measure—and stares at you with annoyance when you burst in with some wild remark about a symphony concert or the starving peasants in Upsilooshia.

"Something must be done, too, about their propensity to splash into the middle of a situation. If your wealthy relative from Saskatchewan descends for a visit and the night he arrives you hastily dig out the atrocious cutglass lamp he sent you for a wedding present and place it with tears on the most prominent table to sparkle like one of the fixtures in a stage production of Ali Babi, what does husband do? 'Aha!' he says, walking around the lamp. 'Oho! Haven't seen this Christmas tree ornament since the first week we set up housekeeping! You were so funny then, darling! Don't you remember how you said that every time you looked at it you couldn't tell whether your agonies were incipient appendicitis or just outraged good taste? Whatja get it out for, anyway? Look at it, Uncle Jasper, ever see anything worse.'

"They need special training, too, about their daughters' young men. Not, they explain, that they object at all to young men—but, why, in the name of Job, did Mabelle have to pick out this special variety? There must be a few left in the world besides this lounge lizard, this dume-bell, this half wit! Why! The other night when he tried to explain the political situation to young Goofer the fellow yawned when he finished and said he supposed so—but c'mon, Mabelle, or they'll be delivering the morning milk before we arrive at the dance!

"I haven't got the course entirely mapped out as yet, but I claim I've a winner of an idea."

"H'm," said the wary lady. "It might work—if you kept it a long-distance correspondence course."—Chicago News.

NEW BOOKS

They Call It Love. By Louis J. Vance. Cloth, 316 pages. Published by the J. B. Lippincott company, Philadelphia. Price $2.

Fay Lascelles, fresh from the south and a stranger to life in New York, goes to her first "studio party." Her thrill changes to a chilling fear as she catches the sinister undertone of the mad whirl. Only when the young-man-with-a-gardenia comes to her rescue dressed in a chauffeur's uniform does the world under her feet seem to grow more steady. At the party she meets Lona and an intimacy springs up—an intimacy, to Fay, as blind as love. Lona loved her, Lona needed her—and she clung to Lona through thick and thin—even though it meant a break with Don. But such is friendship to girls like Lona—she tires of Fay and lets her know it only too plainly. But just at that moment, fortune, which seems to have deserted Fay, turns up and brings to her the one person for whom she has secretly longed. A quick tempo story of the modern girl's quest for romance in the big city—the story of a girl torn between a memory and life as it seems to be. It is one of Louis J. Vance's stories that will be eagerly sought.

Gritli's Children. By Johanna Spyri. Illustrated by Maria L. Kirk. Cloth, 265 pages. Published by J. P. Lippincott company, Philadelphia. Price $1.50.

Gritli's Children is probably, with the exception of Heidi, the most popular of the Spyri stories. It is a charming tale of boy and girl life, but unlike other Spyri books this has no single hero or heroine, but concerns itself with a whole group, lively group of Elsli and Fani and their young friends at Buchberg. Especially real is Fred, the embryo naturalist from whose pockets bugs and small animals continue to drop with disastrous results. Quite different from her sturdy playmates is Nora Stanhope, the frail child who is brought to the Swiss village in vain hope of cure in its vigorous mountain air. It is Nora's love for Elsli that causes Mrs. Stanhope to adopt the little girl in place of her own and to take Elsli and Fani back with her to Rosemount, her beautiful villa on the Rhine. The happiest scenes in the story are laid here and seldom have so many lovable children been crowded between the covers of a single volume. The book is alive with the change and movement and eager interests that young readers love.

In the Ranks of Old Hickory. By Edwin L. Sabin. Illustrated by Frank Eltonhead. Cloth, 352 pages. Published by the J. B. Lippincott company, Philadelphia. Price $1.75.

There is scarcely any historic figures more vivid and alive than Andrew Jackson—the red haired, wiry Irishman, "Old Hickory." He was a fighter—fighting for a clean victory or a clean defeat—and no general was ever so much loved by the rank and file, in fact by the whole country. And he was just the man needed in 1812, when the Creek Indian war began. The story opens with the assault of hapless Fort Mims by the Creeks. A young American, Andrew Jackson Craig, driving home the cows, stumbles on the gathering forces of the savages—their war paint gleaming—their tomahawks threatening. Hard as he can run he starts for the fort but it is too far and the redmen are too quick. They fall upon him and bear him away to the far Indian country. Escaping from his captors Andy makes his way to the Tennessee riflemen and casts his lot with Old Hickory's men in their hardships and struggles until the historic battle of New Orleans had put an end to the treachery and greed of foreign powers. Andy has many thrilling and hazardous adventures that make the modern boy's eyes grow wide. It is a frontier story of keen interest, pleasingly told.

Across the Seven Seas. By E. Keble Chatterton. Illustrated by D. Cammerota. Cloth, 252 pages. Published by J. B. Lippincott company, Philadelphia. Price $1.75.

What could be more thrilling to the heart of a boy than the tale of a race across the seven seas—told by one who has long held a pre-eminent place as a writer of the seas and ships?

From England speeds the yacht Sibyl, to wrest from the scoundrel Hjort and his cutter, Frisia, the $10,000 prize. All odds are against the Sibyl, but Marshton and his nephews, Paul and Rodney, are determined to win. They have an exciting voyage and run into every kind of danger. In West Indian waters the boys are marooned on an uninhabited island where they discover buried treasure. They are rescued from this by their uncle, only to fall into trouble after trouble as they pass through the Panama canal and on across the Pacific. And behind most of their difficulties can be seen the villainous hand of Hjort.

Mr. Chatterton knows the sea, and he knows how to make boys feel the lure and the magic of its tropic storms and its glassy calms. The same author has written Daring Deeds of Famous Pirates and Romance of the Ship.

IN THE PUBLIC EYE

J. Hampton Moore, who has agreed to stand as an independent candidate for the mayoralty of Philadelphia in an effort to break the grip of the so-called republican machine, is a former mayor of the Quaker City and has a national reputation in public affairs. Mr. Moore, who was born in Woodbury, N. J., in 1864, started life as a reporter on a Philadelphia paper at the age of 17 and had a successful career in newspaper work before he entered politics. His first public office was that of city treasurer of Philadelphia. In 1907 he was elected to congress and served eight years, retiring in 1915 to accept election to the mayoralty of his home city. In recent years Mr. Moore has devoted himself to the work of the Atlantic Deeper Waterways association, which aims at the completion of an inland waterway from Maine to Florida.

Stories That Recall Others

Just a Mistake

"Miss A. I'd like to have you meet my husband," said the chief stenographer in an office to a new stenographer in the same office.

And from the new stenographer, who had been there long enough to get about half acquainted with visitors to the office: "Oh, I thought that little newspaper reporter was your husband."

Didn't Lose His Religion

On the first day of school recently, Junior, age five, proudly started off to kindergarten. Junior is usually a rather talkative little chap and his proud mother was a little surprised that he had little to say when he returned on his first school day.

"Did everything go off all right, Junior?" she asked, hoping he would tell her of his experience.

"I got into just a little trouble," he answered. "I got into one of the grownups rooms by mistake. Some one asked me if I was a primary, but I told them no, I was a Methodist."

LETTERS TO THE EDITOR

The Sense of Responsibility

Mr. Editor: Ex-president Roosevelt was asked, "what important virtue did he thing the American people lacked." He replied after a few moment's consideration, "the sense of responsibility." More and more the truth of his answer is apparent. We see it in the deliberate violation of the Volstead act, from the college educated man down to the poor beggar at our gates. They want it and will have it regardless of consequences. The educated man knows that every time he violates the Volstead act, he sows the seed of lewdness and sets an ignominous example to the ignorant foreignor, who may perhaps be in his employ. We also see it daily in the selfish habit of smoking in our public places and now that women have joined the ranks, the problem becomes more complex. How is this "sense of personal responsibility" to be brought home to these selfish people who have become a law unto themselves? It has its reflex influence upon generations to come. Take the question of women smoking. Dr. Charles L. Barber of Lansing, Mich., told the annual convention of the American association for medico physical research that 60 per cent of all babies born of cigarette smoking mothers die before they reach the age of two, due primarily to nicotine poisoning. "A baby born of a cigarette smoking mother, is sick," he declared. "The post mortem shows degeneration of the liver, heart and other organs."

How many women will take this information seriously and have a sense of their responsibility?

Find The TWO Airplanes That Are Exactly Alike

No, they are not all alike! Two, and only two, of these speedy planes are identical and are the TWO AIRPLANES you are asked to find. Can you? To be sure the 18 airplanes all look alike; but look closer. How about their propellers? Some are black and some white. There are other differences, too. Only two airplanes are exact duplicates. Can you find them?

HELPFUL CLUES

At first glance all of the airplanes look alike. But upon examination you will see that almost every one differs in some way from all the others. In some the difference may be in the black stripes on tail of the planes, and others have black radiators, while some are white. Or, some have two black stars on the wings, and some white and black stars. Only two are exactly alike. No, it's not as easy as it looks. You must search carefully.

Just look closely—make sure that you have found the TWO airplanes that are exact duplicates. Send in your answer and get off for a flying start in this GREATEST OF ALL PUZZLE GAMES. Someone who finds the two airplanes is going to win a lot of money. Make that "someone" be YOU.

OBSERVED THEIR 50TH WEDDING ANNIVERSARY

Happy in the presence of all the members of their family and receiving the congratulations of many friends and neighbors, Mr. and Mrs. Charles Denison Noyes of 18 Lincoln avenue celebrated their golden wedding anniversary Tuesday, holding an informal reception at their home between the hours of 3 and 5 in the afternoon. During the reception hours a programme of choice music was rendered by an orchestra under the direction of Prof. Herbert Rich and dainty refreshments were served by the grandchildren, the Misses Elizabeth and Caroline Noyes, who were assisted by the Misses Katherine Adams, Agnes Greenman and Ruth Genter. The beautiful floral decorations in which golden chrysanthemums predominated, were arranged by Ernst.

Mr. and Mrs. Noyes were married at noon, October 11, 1877, in the old Central Baptist church on lower Broadway by the pastor, Rev. John Davies; the ushers at the wedding being John H. Powe son and the late George A. Davis. At the reception Tuesday friends in the church made an anniversary gift of $50 in gold, the presentation being made by the pastor, Rev. Dr. David A. Pitt, who spoke as follows:

Dear Mr. and Mrs. Noyes. I am the happy messenger of a group of your many friends in the church who have you in their hearts on this beautiful golden anniversary day. We rejoice with you in these 50 years of rare devotion to one another and marked fidelity to the marriage vows. We trust that your sunset years will be among your happiest and that you will tarry with us just as long as you can and that God will take you to be with Him only when life here tends to become burdensome and your going will mean release.

These friends in the church knew there was nothing material which they could send that would add much to your comfort. Still they remembered that this is a golden day, so they desired to give expression to their love by the presentation of a bit of gold. This they hope you will look upon as an extra, an over-and-above to use in some way that will bring enjoyment to you both. It is but a small token of a large wealth of appreciation, but the affection is as real as this gold is genuine.

Better than this gold coin we bring you a golden promise for the years that remain—Jer. 29:11-13 "For I know the thoughts that I think toward you, said Jehovah, thoughts of peace and not of evil, to give you hope in your latter end. And ye shall call upon me and ye shall go and pray unto me and I will hearken unto you. And ye shall seek me and find me when ye shall search for me with all your heart."

May goodness and mercy follow you all the days of your life. And then may you dwell in the house of the Lord forever.

The Woman's league and the City Bible class sent baskets of lovely flowers and Mr. and Mrs. Noyes were surprised by a number of valuable and appropriate gifts.

The family group present for the happy occasion were Mr. and Mrs. Charles F. Noyes, Mr. and Mrs. Frederick K. Noyes and Mr. and Mrs. Harrison C. Noyes, together with the grandchildren, Elizabeth Starr, Caroline Denison, and Harrison Crane, Jr. The reception was followed by a family dinner party in the evening, arrangements for the observance having been made by Mr. and Mrs. Harrison C. Noyes.

Mr. Noyes, who is president and treasurer of the Bulletin Co., publishers of the Norwich Bulletin, has long been one of the prominent business men of the city to which he came from Mystic in 1868 as a clerk in the book and stationery store of Morgan Safford. Seven years later, in partnership with the late George A. Davis, he established a business in the same line with which he continued his connection until retirement from the Noyes & Davis firm in 1902, four years after he had become associated with William H. Oat in the Bulletin company. He is prominent in banking affairs in the city, being second vice president of the Norwich Savings society of which he has been a director since 1913, and has been president of the board of managers of the Central Baptist church for a number of years. He was county commissioner for a period of twelve years from 1901 to 1913 and has served as chairman of the republican town committee.

BACKUS HOSPITAL AUXILIARY SHOWS YEAR OF WORK IN MANY LINES

Reports for the past year were made and officers for the ensuing year were elected at the annual meeting of the Woman's auxiliary of the W. W. Backus hospital, which was held at 3 o'clock Tuesday afternoon at the nurses' home at the hospital. Mrs. W. K. Tingley, president of the auxiliary, presided.

Following the presentation of reports, the following list of officers which was presented by the nominating committee, was elected:

President, Mrs. W. K. Tingley; vice presidents, Miss Hannah M. Crowell, Mrs. F. B. Ricketson, Mrs. J. N. Rosenberg; recording secretary, Mrs. Joseph P. Cummings; corresponding secretary, Mrs. Ray T. Judd; treasurer, Miss Isabel H. Mitchell; directors, Mrs. Walter F. Lester, 3 years, Mrs. Walter T. Camp, 2 years; Mrs. E. LaRue Bliven, 1 year.

Financial Side of Work

The financial side of the work of the year was presented in the reports of Miss Isabel H. Mitchell, treasurer, and Mrs. E. W. Perkins, chairman of the finance committee.

Miss Mitchell presented the treasurer's report as follows:

Receipts

Life membership fund, Norwich Savings Society $705.40; receipts, balance forwarded $35.68; life memberships $50.00; annual memberships $1,017.40; receipts from bazaar of nations $5,004.61; gifts to auxiliary, Park church $20.00; United church $5.00; O. L. Johnson $25.00; Mrs. Charles Stewart $2.50; Council of Connecticut Catholic Women $6.00; Taftville Ladies' Benevolent Society $10.00; Corporation of Sacred Heart of Jesus $63.50; Monday Sewing club $7.00; total $6,246.69.

Disbursements, Budget $895.31; gifts to hospital $4597.58; miscellaneous expenses $110.75; balance forward $643.-10; total $6,246.69.

Financial Committee Report

The following was the financial committee report by Mrs. Perkins, chairman.

The past year has been an unusually successful one for the financial committee. With great enthusiasm on the part of the entire community and outlying sections, the Bazaar of Nations, held in the armory last November, netted us the very gratifying sum of $5,004.61.

After careful consideration and interesting discussions with Miss Abbott, we decided to purchase the following equipment, which seemed most necessary to bring the hospital into Class A as required by the American College of Surgeons for hospital standardization.

1. A new, much improved, analytic centre light for maternity operating room.

2. One portable operating room light with battery attachment, for use in the event of the failure of the regular lighting power.

3. A very fine autoconclave for maternity. This is a complete sterilizing machine with the added advantage of providing distilled water for operating room use, and sterilized water piped to all floors. Had we not purchased this, all articles for sterilization used in the maternity department would have to be sent to the main building for this purpose, thus frustrating our efforts to keep maternity a separate department.

4. One complete set of surgical instruments for maternity.

5. Silver sets for the trays in maternity, consisting of sugar bowl, cream pitcher, tea pot, dessert compote, sugar shaker and cover for the plate.

6. Microscopes for the nurses' training school, which were in great demand for the ever increasing number of pupils.

7. An additional wheel chair for the ward.

8. A piano, not new, but a great improvement over the old one which had given valiant service ever since the hospital began.

After all these large expenditures, the finance committee found that there was still a considerable sum of money left to spend, so we decided to furnish one room in maternity and one in the main building, the upkeep of these rooms to be an annual obligation of the Woman's auxiliary. The special committee selected to take charge of furnishing these rooms worked long and painstakingly, to make them cheerful, attractive and practical. All who have seen the rooms will, I know, agree that the committee have accomplished all that they set their hearts and minds to do.

After providing all this, representing an expenditure of more than $3500, one might well pause and ask, "Is there any limit to hospital needs?" The answer is—not to the needs of an up-to-date, progressive hospital, and such we take great pride in knowing our hospital to be.

In the standardization movement of the American College of Surgeons, all accredited hospitals are required to employ a medical supervisor of the X-ray department. This greatly enlarges the scope of the work, and a much more adequate X-ray department is necessary. Another expenditure of approximately $4500 to meet this requirement, would be an added financial burden to the hospital board, having so recently completed the new maternity and modern isolation departments.

Here perhaps our most constructive work for the year begins. To help build the new X-ray department, the balance of the bazaar money, amounting to about $1500 was given. This amount is a mere nest egg for the X-ray department, which will adjoin the present operating room building utilizing two of the hospital walls as they stand, and requiring two new ones. Would we not be very proud to provide sufficient money to cover the total cost of this building in the near future and thus make those substantial brick walls, as they rise, the symbol of the grim determination of the Woman's auxiliary to rise and help meet every requirement to keep our hospital in Class A, a distinction which we have struggled so long to obtain.

We can make a fine beginning by each and every member of the auxiliary pledging her support to the membership campaign which opens today, paying our dues this afternoon and interesting as many others as possible to join our Woman's auxiliary.

May I take this opportunity to express my deep appreciation and thanks to all who helped make such a splendid and outstanding success of the Bazaar of Nations and by whose efforts the hospital has been benefited by an expenditure of $5,000.

Other Reports Presented

Other reports presented included those of the membership committee, Mrs. Allyn L. Brown, chairman, showing 1,017 annual members and two life members; suburban membership, Mrs. Mary C. Lester, chairman; recreation, Mrs. Sara Bowman Donohue, chairman; holiday, Miss Ruby E. Vaughn, chairman; donation (food), Hope W. Adams, chairman; donation (linen), Mrs. J. Edward Driscoll, chairman; production, Alice L. Sayles, chairman; literature, Miss Jane Bill, chairman; visitation, Louise L. Jones, chairman; religious services, Mrs. John F. Rogers, chairman.

Address by Miss Ansle

Miss Grace Ansle, directress of the nurses' training school, gave an interesting and instructive talk upon "The Nurse of 1927 and Her Equipment." In part she spoke as follows:

It may be well to tell you first just what the requirements are for a young woman to enter our school of nursing. The prospective student must be 18 years of age, good health is paramount and a strong desire to serve humanity. We also expect the prospective student to have certain personal traits such as honor, patience and truthfulness, and for educational qualification a high school education is given preference although our minimum requirement is two years of high school.

Our curriculum involves rather an extended study of organized knowledge and we demand from the student individual judgment and responsibility. We believe the high school education trains the mind, and lays a foundation for future and higher study. Today educational possibilities are so great that one may avail oneself of the four year course in high school with very little effort.

I would like to tell you a few of the courses required in our school. Anatomy and physiology, chemistry, bacteriology, principles and practice of nursing, home and personal hygiene, medicine and surgery in its particular relation to nursing, obstetrics, pediatrics, pathology, psychology and many more.

Positive Side of Health

We are a school of nursing and when a school demands certain qualifications of its students the students in return should expect adequate preparation for their chosen work from us.

All schools of nursing teach from the positive side of health and in order to know the human body from the standpoint of health one must know anatomy and physiology. As nurses we have the sick patient to nurse back to health if we are not familiar with the picture of the normal body it is not possible to care intelligently for the sick one. From chemistry and bacteriology we get a knowledge of bacteria and its relation to the causes of disease. With this knowledge we can teach others how to keep well and to prevent disease.

In the principles and practice of nursing the student receives that which is most important the foundation of the art of nursing. The student is taught to observe signs and symptoms of physical disease in medicine and surgery and to record most accurately on the chart for the physician, by the same methods under the study of psychology she becomes equally proficient in the detection of significant behavior disorders and thus becomes more valuable to the physician. And so I could go on right down through our curriculum.

Each supervisor has a certain amount of teaching to do in her own department, obstetrics, operating room and communicable diseases. A certain amount of teaching is also expected from each charge nurse. In such departments as obstetrics, operating room and communicable diseases, the supervisor personally instructs each individual nurse, when the student enters the department.

I said a few moments ago that one should select a school of nursing from an educational standpoint but that is not all that is necessary, there must be correlation between the students' theory and practice. We feel in our school that we are most fortunate in having such good opportunities for practice on practically every service, this is especially true of surgery, medicine and obstetrics.

It has always been difficult in most hospitals to furnish adequate experience in pediatrics to student nurses and what is true of most hospitals is true of the Wm. W. Backus. We found it impossible to give adequate experience in pediatrics to our nurses and so with the consent and hearty cooperation of the executive board and the School of Nursing committee, we have successfully effected an affiliation for our students with the Yale school of nursing.

This affiliation covers a period of four months in the theory and practice of pediatrics and one month practice work in orthopedic surgery, thus giving our students five months of valuable experience as affiliates in the Yale school of nursing.

Teacher of Public Health

Every nurse should be a teacher of public health and as we had no available means of teaching this most important subject to our students we have also obtained an affiliation for two months with the New Haven Visiting Nurse association. With these affiliations plus the work carried on in our own school we aim to have our graduates capable of meeting with the highest standards of our state and competing with the graduates of other schools.

Meeting the Cost

Such an educational program is costly and how do we meet it? In many hospitals the school of nursing is an integral part of the hospital system and is supported by the hospital, that is true of our school, we have received the hearty support and cooperation of the executive board.

You realize that not only does the executive board finance the school of nursing and may I go into detail at this point and tell you just what this means, salaries for directress and assistant instructors, supervisors, charge nurses and student nurses all receive an allowance while in the school, $10 a month the first year and $12 a month for the remainder of time in the school, but we must also have a class room fully equipped, charts, models, books, laboratory supplies and then we must also have a demonstration room which is practically equipped with everything that would or could be used on the ward. Another essential in every school is a reference library and each year more and more books must be added and old ones discarded. As I have just said most schools of nursing are supported from the hospital budget, however, there are other ways in which this expense may be met.

Florence Nightingale in 1860 started the endowment plan with an endowment fund to the Nightingale school at St. Thomas' hospital, London, England, which for many years was the only school thus endowed, but there are many such schools today. Some of our best schools of nursing today are requiring tuition from their students in a fair exchange for the education received.

In this country we are at last beginning to feel that the independent college has a real place in our civilization, if this be so, why not the independent school of nursing? I realize this may be a new thought to most of you, but many nursing educators of today believe this type of school is the real solution of the future school of nursing.

I have said much on schools of nursing, now if I may, I would like to speak to you of the equipment received through the kind efforts of this auxiliary. Probably one of the greatest helps to my students was your gift of four microscopes. No laboratory is complete without microscopes and we had none at the time of your gift.

The sterilizers in both isolation and maternity have given the opportunity to teach proper technique which is most valuable. In teaching health the nurses must practice health and your gift of the tennis court has helped to keep them physically fit. These gifts I have felt were particularly appreciated by me because they have meant so much to my school. The other gifts, such as the sciatic light in the operating room, portable light in maternity, instruments in maternity, silver for maternity, wheel chair and piano and the furnishing of two rooms, have meant much to the hospital and naturally indirectly to me.

In conclusion may I express my appreciation to each and every one for the many kindnesses you have extended to my students and I think it would be very remiss on my part if I did not mention how grateful we are to the production committee for their strenuous work of the past year.

My year at your school of nursing has been a most successful and happy one, due to your hearty cooperation.

MINISTERS OF TWO COUNTIES MET AT JEWETT CITY

The meeting of the New London County Association of Ministers was held at the Jewett City Congregational church on Tuesday, over sixty attending. It was an occasion of unusual fellowship in that the Windham County association ministers had been invited and also the wives of the ministers. Rev. C. H. Ricketts of Norwich presided. The clerk Rev. Allan B. Bush of Gales Ferry read the report of the last meeting. Rev. Henry Hulbert of Groton, Rev. S. W. Barnum of Groton, and Rev. H. L. Arnold of Franklin were nominated for membership. Rev. E. P. Ayer of Branford, Howard Bushnell pastor at Goshen, and Rev. Mr. Roberts of East Hartford and Rev. F. B. Harrison were named as corresponding members. The next meeting was announced to be held at the First Congregational church in New London on the first Tuesday in December. Dr. S. H. Howe of Norwich is to be the speaker. His subject to be The Truth That Jesus Conveyed on the Doctrine of Regeneration. The reason for no November meeting is on account of the State association meeting in Bridgeport. Rev. Mr. Hulbert spoke of the celebration of the 25th anniversary of Groton church building and 225th church anniversary to be held Nov. 6. Rev. Mr. Danforth of New London gave an invitation for Nov. 7-8-9-10 to attend meetings at the First church in New London which are to be in charge of Rev. Henry Howard of Fifth Ave. Presbyterian church, New York. It was voted that a message of greeting be sent to Dr. Howe, who was not present. Dr. J. Beveridge Lee of New London sent greetings and notice was given for him that representatives of the missionary organization would be available as speakers during the last month in October, in New London county. The New London county conference of churches is to be held Oct. 25 in New London. Rev. G. W. Clark gave notice of the Six church conference on Wednesday at Preston City. The paper of the morning was by Rev. James English of Putnam, upon "Reality in Preaching." Remarks were offered upon the excellency of the paper and opinions on the subject by Rev. William Prentiss of Plainfield, Rev. G. H. Rees, Central Village, Rev. Mr. Gallup, Rev. F. B. Harrison of East Bridgewater, Mass., Rev. E. P. Ayer, Rev. W. L. Muttart of Hampton, Rev. William Williams, Wauregan, Rev. George Clarke of Preston City, Rev. Henry Hulbert of Groton, Rev. Samuel Cathcart of Groton and Rev. G. F. Bailey of Norwich Town.

A chicken dinner was served in the church vestry under the direction of Mrs. J. T. Stewart, Mrs. H. E. Paul, Mrs. Walter Marshall and Mrs. W. E. Marshall, assisted by Mrs. L. G. Buckingham, Mrs F. E. Robinson, Mrs. E. H. Hiscox, Mrs. E. A. Faust, Mrs. C. D. Wolf and Miss M. A. Burdick. The tables were decorated with cosmos from Mrs. Walter Richardson's garden, a flower also being laid at each place. Grace was asked by Rev. W. J. Reynolds of Lisbon. After dinner thanks to the women who served the dinner were given by Rev. C. H. Ricketts, Rev. A. H. Abbott and Rev. W. L. Muttart.

At the opening of the afternoon session, a message of sympathy was voted sent to Mrs. Hawthorne Jones of Mansfield Center who has gone to a sanitarium for treatment and rest. Dr. Hulbert read a notice showing that a similar meeting as Tuesday's was held seven years ago in Taftville on April 13. He also gave notice of the opening of the new Storrs church on Nov. 20-21. The afternoon paper was read by Rev. J. Romeyn Danforth of New London, his subject being The Greek Testament. It was a beautifully worded paper, with uplifting thoughts which elicited responses from President Marshall of Connecticut College for Women, Prof. Gallup of New London and Stonington Point church, Dr. Abbott, M. H. Whitman of Pachaug, S. W. Barnum, Rev. Mr. Roberts, East Hartford, Rev. Frank Palmer, Norwich, W. S. Hawkes, Abington, Rev. G. F. Goodenough, Jewett City, Rev. Mr. Fuller of Putnam, Rev. Mr. Arnold, Howard Bushnell, Rev. Mr. Barker of Pomfret.

Other ministers present were Rev. Mr. Davies of Westminster and Rev. Hawthorne Jones, and Rev. E. E. Scates of Jewett City. By request Rev. Mr. Danforth repeated The Lord's Prayer in the Greek language. A vote of gratitude to both morning and afternoon speakers was given. Rev. Mr. Bailey offered prayer and benediction. The church was decorated with dahlias from the Pilgrim Gardens in Newent.

SURPRISE SHOWER GIVEN FOR MISS GLADYS D'ELIA

A delightful shower was given on Tuesday evening for Miss Gladys D'Ella in honor of her approaching marriage to Patrick Gerasole. Miss D'Ella was surprised at her home by 35 girls from the G. & W. Pants Co. Games were played and dancing and music were enjoyed during the evening. Refreshments were served at the close of the evening. Those present were:

Mrs. Matthew Mingo, Mrs. Paul Anthony, Mrs. Rose DelRe, Mrs. Frank D'Ella, Mrs. Progano, Mrs. Regoff and the Misses Gladys and Mary D'Ella, Delia and Mamie Vitagliano, Edith Dombroski, Mary DeNicolo, Rose DePinto, Rose Kaninski, Anna Bellone, Helen Caufield, Anna Galkowski, Mary Carparelli, Helen Nowosacki, Rose and Julia Perrone, Sarah and Mary Sohn, Theresa DelRe, Jennie Deminco, Frances Malerba, Amelia Mazarelli, Frances and Jennie Progano, Sadie and Anna Anthony, Mr. Weiseman, Mr. D'Ella and Patrick Gerasole were also present.

The bride to be received numerous gifts including silverware, gold pieces and linen. The wedding is to take place October 17th at St. Patrick's church and a reception will be held after the wedding at Roseland hall.

For Fire Prevention Week

Fire prevention week is being generally observed throughout Norwich this week, in common with cities throughout the country. The Norwich chamber of commerce and Chief Howard L. Stanton of the local fire department are co-operating in the fire prevention plans locally. Tuesday afternoon the Norwich chamber of commerce received a copy of President Calvin Coolidge's fire prevention proclamation.

WEDDING

Labrecque-Vogtman

Arthur Joseph Labrecque of Lisbon son of Mr. and Mrs. Moses Labrecque and Miss Flora Lena Vogtman, daughter of Mr. and Mrs. George Vogtman of Hunters avenue, Taftville were united in marriage Monday morning at 9 o'clock in Sacred Heart church, Taftville, by Rev. F. R. Dessureault. About 50 friends and relatives attended the ceremony.

The couple was attended by Emilienne Labrecque, a sister of the groom and William Vogtman, brother of the bride. The bride, who was charming in gowned in white satin, trimmed with Spanish lace, wore a tulle veil and carried a shower bouquet of white roses and lilies of the valley. Her bridesmaid wore pink georgette with a black satin picture hat and carried an arm bouquet of pink roses.

Following the ceremony a wedding breakfast and reception were held at the home of the bride's parents and later in the day Mr. and Mrs. Labrecque left on a wedding tour which will include visits to Vermont, New Hampshire, New York and New Jersey. The bride's going away dress was of cocoa colored satin.

Upon their return from their wedding trip in about two weeks, the couple will reside in a newly furnished apartment on Norwich avenue, Taftville.

The bride received a great number of beautiful and useful wedding gifts, including china, cut glass, silver, money and furniture. She presented the groom a diamond stick pin and to her bridesmaid an onyx ring. The groom's present to the bride was a cameo ring and to the best man a signet ring. The attendance at the wedding was made up of people from Providence, Bristol, Hartford, New Jersey, New York, Norwich, Lisbon and Taftville.

WILL HAVE SPEAKER FOR FIRE PREVENTION WEEK

"Fire Out Fire" is the subject of an address to be given before the chamber of commerce by Major James H. Howland of New York, on Friday evening at 6:15 in the Wauregan. This dinner has been arranged as a part of the fire prevention week observance in Norwich.

Of the many speakers who have addressed the chamber recently, Major Howland is perhaps the most vigorous and practical. He is a fire and water engineer and has won an enviable reputation with fire chiefs throughout the country, inasmuch as the officers of the chamber and the fire prevention committee were exceedingly fortunate in securing a man of Major Fowland's calibre during fire prevention week, when speakers on this subject are in unusual demand all over the country, it is assumed that many members and their wives will take advantage of this opportunity and attend the dinner.

Jolly Eight Club Met

The Jolly Eight club met Tuesday afternoon at the home of Mrs. Herbert Brown on Asylum street. Mrs. William Farrell won first prize in pinochle with a score of 8450; Mrs. Hamblen took the consolation prize with a score of 6240. The next meeting will be held with Mrs. Martin Cohen of Broadway.

GENE SARAZEN WINS METROPOLITAN PROFESSIONAL GOLFING TITLE

GARDEN CITY, Oct. 11—(AP)—Gene Sarazen won the Metropolitan Professional Golfers' association championship today with a total of 292 strokes for the 72 holes of play over the Salisbury Country club course.

The doughty little professional of the Fresh Meadow Country club, Flushing, N. Y., turned back the challenge of Bobby Cruickshank in the last 18 holes with a brilliant 71 after the Scot had drawn to even terms at the 54-hole mark with the aid of a 70, two under par. Cruickshank weakened under the strain of the long two days of play and took a 75 for the final round, finishing four strokes behind Sarazen in a tie with Willie Klein for third place.

Second honors went to Leo Diegel with a 295, three strokes behind the winner.

Fourth place was shared between MacDonald Smith, Lakewood veteran, and Charlie Mayo, both with 298. Finishing the first three rounds all even in 226, the two battled evenly through the final round in 72. Two day scores of the leaders:

Gene Sarazen, Fresh Meadow Country club, Flushing, N. Y., 71, 76, 74, 71—292.

Leo Diegel, Fenimore Country club, White Plains, N Y, 76, 74, 72, 73—295.

Bobby Cruickshank, Progress Country club, Purchase, N Y., 76, 75, 72, 73—296.

Willie Klein, Wheatley Hills Golf club, East Williston, N. Y., 77, 72, 73, 74—296.

MacDonald Smith, Lakeville Golf and Country club, Great Neck, N. Y., 77, 73, 76, 72—298.

Charlie Mayo, Pomonok Country club, Flushing, N. Y., 76, 75, 75, 72—298.

Joe Turnesa, defending champion, took a 311.

LUCKY TO WIN TITLE IS VERSION OF MISS PAYSON

PORTLAND, Maine, Oct. 11—(AP)—Luck gave Miss Helen T. Payson the women's golf championship of Canada Saturday, she said today upon her return to her home from Toronto.

"The same just broke right for me, both in Philadelphia and Toronto, for the other entrants were very much better players than I," she modestly stated explaining her success in bringing to Portland the coveted Duchess of Connaught gold cup. She gave all credit to the playing of her opponents, and said it just happened that even her mistakes were in her favor.

She began playing eight years ago, when she was 17, but played only for fun until three years ago, when she began to take it seriously.

"I found that I was very much overweight and wanted to reduce. The best way that I knew was to walk and walk and walk, so I did, and played golf at the same time." Before many months I had lost about 20 pounds.

M. FARMER TO HEAD CONN. GOLF ASSOCIATION

NEW HAVEN, Oct. 11—(AP)—M. Farmer, of the Shuttle Meadow Country club of New Britain, was tonight chosen to head the Connecticut Golf association for the coming year. Fifty-six delegates from all over the state attended the annual meeting, which was held at the Race Brook Country club in Orange.

The other officers elected were: S. N. Pierson, Woodway, of Stamford, first vice president; L. G. Sargent, New Haven, second vice president; R. D. Pryde, Race Brook, secretary-treasurer; F H. Gates, New Haven, assistant secretary-treasurer; W. P. Seeley, Brooklawn, of Bridgeport, state team captain.

E. B. Morris, Hartford, C. H. Zimmerman, New Haven, P. Rothwell, Wampanoag, of Hartford, J. P. Cheney, South Manchester, and G. W. Carroll, Jr., Shenecossett of Groton, were chosen on the executive committee.

Frank Ross, of Sequin and George Gamble, of Race Brook each received awards of special drivers for turning in the low gross scores in the afternoon tournament, each getting a 77. Low net of 69 won a driver for Rev. Dr. Kerridge, of Shenecossett.

HOLYOKE AMATEURS WIN BOUTS AT BRIDGEPORT

BRIDGEPORT, Oct. 11—(AP)—Holyoke amateur boxers won a majority of their bouts on the boxing card presented by the Knights of Columbus here tonight. Sylvester Freunier, of Holyoke, outpointed Mike Mudrie, of Derby, Buster Nado, of Holyoke won from Johnny Thomas, of New Haven and Les Strongford, of Holyoke scored a knockout over Wesley Rogers, of Bridgeport in the second round. Silvano Freunier, of Holyoke was knocked out by Johnny Meyers, of Bridgeport in the second round.

Other results were: George Lewis, New Haven, knocked out Alex Huster, Derby, second round; Frank Santella, New Haven, decision, Johnny Bard, Derby; Tim O'Connor, Fairfield, decision, Billy Franko, New Haven and Johnny Varrone, Fairfield, knocked out Lew Merritt, second round.

DONOHUE APPROVES TITLE 'TWEEN BRADLEY-SILVERBERG

BRIDGEPORT, Oct. 11—(AP)—A world's flyweight championship bout between Ruby (Dark Cloud) Bradley, of Holyoke, Mass., and Pinky Silverberg, of Ansonia, former amateur champion has been approved by Thomas E. Donohue, state boxing commissioner and head of the National Boxing association. Commissioner Donahue stated tonight that he plans to have the winner of the bout recognized as champion of the division by the 24 states under the jurisdiction of the association at the annual meeting next week.

The bout will be staged at the state armory here under the auspices of the 242nd Regiment, Coast Artillery corps on October 22.

MUCH INTEREST IN FOOTBALL AT PLAINFIELD HIGH SCHOOL

Interest in high school football at Plainfield has been growing to a great extent in the past few weeks. This is apparently due to a recent announcement by the high school authorities, that in the future, football games are to be played at the Community house field in Plainfield. This has become possible through the courtesy of the Community club officials.

The high school team has been greatly augmented by the return to the squad of two of last year's stars, "Teddy" Tetrault who has been one of the bright lights in the backfield and "Fat" Abood, considered by many as one of the best tackles in high school ranks in the state.

The coach has been working his men hard this week in preparation for Saturday's game with Putnam.

FRATERNAL LEAGUE OPENS SEASON AT AETNA ALLEYS

The Elks made a clean sweep of their opening night games in the Fraternal league bowling on Tuesday evening taking three straight from the Kacoys. The Grotto also got off to a good start by taking three games from the Knights of Pythias. Combles of the Elks had high score for the evening with 358, while Peckham of the Grotto was second with 338. The scores:

FOOTBALL TEAMS PREPARE FOR SATURDAY'S BATTLES

NEW YORK, Oct. 11—(AP)—With football armies of the east making ready for major battles Saturday, such promising teams as Navy and Penn in practice today were applying the last touches of mortar to the defensive stone wall while Yale, Harvard and others who have faltered on the offense labored away at the task of building a battering ram able to drive "that last ten yards."

Ell's varsity was stationed on the scrubs' ten yard line and told to "carry it over." Again and again the blue attack featured by Bruce Caldwell and his understudy, Johnny Garvey, rushed the ball over from that position. Against Brown this Saturday Yale will not muff scoring chances as it did against Georgia if Tad Jones can avoid it by hard drilling.

A new light appeared in the Harvard backfield to brighten fading Crimson hopes. Guy Holdbrook, of last year's freshman team, carried the ball most of the way on a 75 yard march against the first year team. Breaking through the line after steadily gaining, he raced 30 yards for a touchdown. If his work continues Holbrook probably will see action against Holy Cross Saturday.

Princeton's drill for the duel with Washington and Lee was marked by the kicking of Earl Baruch who scored seven field goals in seven tries. Columbia, drilling for Colgate, dealt in straight football varied only by a new play or two to be used against the Maroon.

Giving his fleet backs a rest to guard against injury, Coach Lou Young at Penn tinkered with his forward line as did "Navy Bill" Ingram at Annapolis. These two lines must be strong enough to halt the charges of Penn State and Notre Dame, the next opponents of Pennsylvania and the Navy respectively.

Also working on the defensive, Coach Lew Andrews at Syracuse brought out his anti-aircraft guns and had the varsity working all afternoon at the task of breaking up aerial attacks, the kind Georgetown is expected to rely upon largely. Jake Patterson, intercollegiate heavyweight wrestling champion, was tried at guard where weakness has been apparent in the early season games.

SUN FRIAR TAKES FAIRFAX HANDICAP AT LAUREL

NEW YORK, Oct. 11—(AP)—Sun Friar, W. S. Kilmer entry, romped home in front of a good field today at Laurel to win the Fairfax handicap, beating out E. B. McLean's Toro by a length and one-half. Solace, five lengths behind, took the place from Inquisitor by a nose. Sun Friar's time was 1.40 for the mile.

Down the back stretch Sunchen tried to catch the winner but faltered and the chase was taken up by Solace. Toro had a good chance until he swerved directly behind the winner about 20 yards from the finish. Sun Friar paid $19.20.

The Rancocas stable's Sweepster made a show of his field when he galloped home a winner of the Exile purse at Jamaica, run over a mile and 70 yards. The colt took the track at the start, held sway for the entire trip and won by a length and a half. Herodian took the place by a head from Juggler. The time was 1.44.

Miss Meise captured the mile and one-sixteenth fourth race at Hawthorne. Croatan was second and Jenny Dear third. The time was 1.48 3-5.

The Viaduct handicap for three year olds at Thorncliffe went to Periapides, who stepped the mile and one-sixteenth in 1.46 3-5. Beau of the West beat out Cloth Hall for the place. There were eight starters.

BABE RUTH HITS THREE HOMERS IN EXHIBITION

TRENTON, N. J., Oct. 11—(AP)—Babe Ruth's third home run of the afternoon broke up an exhibition game between a selected Trenton team and the Brooklyn Royal Giants.

The Babe and Lou Gehrig, of the world champion New York Americans, opened their exhibition barnstorming tour, playing with Trenton, before a crowd which packed the field here.

Twice before the eighth inning as Ruth lifted the ball over the right field wall hundreds of boys swarmed into the field to romp from third to home with the king of swat, each time holding up the game for 15 minutes before the field could be cleared. After his third homer in the eighth with two on base however, officials found it impossible to get the fans from the field and the game was called with the score 9 to 4 in Trenton's favor.

Lou did not fare as well as the Babe collecting a double and a single out of four times at bat.

WENTZ INDICATES HE HAS NOT BOUGHT PIRATES

PITTSBURGH, Pa., Oct. 11—(AP)—Arriving here today from New York, Lou Wentz, former Pittsburgher and now a wealthy Oklahoma oil operator, issued a statement tending to indicate he had not purchased the Pittsburgh Pirates and that there had been no recent negotiations between Wentz and Barney Dreyfuss, owner of the club, looking to sale of the National league champions.

"A long while ago," Wentz said, "I asked Mr. Dreyfuss for the right to negotiate should he consider sale of the Pirates. He was not inclined to make a sale and that ended it. I am mindful of the fact that the Pittsburgh club is an institution built by Mr. Dreyfuss and that it is his business and pleasure to operate it. Under the circumstances, I would be at a loss even to suggest one reason why he should sell."

The oil operator, made no secret of the fact that he was anxious to buy a major league franchise.

YALE GIVEN INTENSIVE DRILL ON SCORING PLAYS

NEW HAVEN, Oct. 11—(AP)—The Yale varsity eleven, which in its two early season games found difficulty in scoring after getting the ball to within ten or a dozen yards of the opposition goal line, was given an intensive drill today in working the ball over from this position.

Given the ball time after time on the 20 yard line, the varsity was sent against the second team to try for touchdowns. Caldwell and Johnny Garvey, who in the later practice took Caldwell's place at left half, both carried the pigskin over successfully, while Cox kicked one field goal from the 25 yard line, on a drop kick. There were no changes from yesterday's practice lineup.

DARTMOUTH POINTING TOWARD HARVARD GAME

HANOVER, N. H., Oct. 11—(AP)—Looking beyond the game with Temple, scheduled for Saturday of this week, Dartmouth football coaches began pointing for the Harvard game a week later. Head Coach Jesse Hawley, who watched the Purdue-Harvard game last week, said today that he was impressed with the power and poise of the Crimson despite its 19-0 defeat.

The big Green varsity failed to score against the second team in a few minutes they were on the offensive in today's scrimmage. Hamin, a sophomore, played fullback for Black, who is out for a week with a leg injury. Foster played center in place of Kilkelly, also out with a leg injury.

LOU GEHRIG VOTED MOST VALUABLE PLAYER IN AMERICAN LEAGUE

CHICAGO, Oct. 11—(AP)—"Larrupping Lou" Gehrig, first baseman with the world champion Yankees, tonight was proclaimed the most valuable player in the American league for the 1927 season.

Selection of Gehrig who gave "Babe" Ruth a sizzling battle for home run honors and finished with a total of 47, more than any other player in baseball history with the exception o the Bafmbino himself, was made by a committee of baseball writers comprising the cities of the league. All but one of the first choice votes were given to Gehrig who won the coveted honors with 56 points out of a possible 64.

Gehrig's nearest competitors for the honors were Harry Heilmann, Detroit outfielder and 1927 batting champion of the American league, and Ted Lyons, star pitcher with the Chicago White Sox. Heilmann had 35 points while 34 went to Lyons.

The only dissenting vote was cast for Tony Lazzeri, as the most valuable player to the Yankees, while all the others chose "Columbia Lou," not only as the most valuable player to Miller Huggins, manager of the Yankees, but the greatest in the league. Twenty-five players were named in this year's competition.

President Ban Johnson of the American league, in announcing results of the balloting, praised Gehrig as a great example for the youth of today. Gehrig causes umpires no trouble, President Johnson said, tends strictly to business and has always given his club his best efforts.

Gehrig finishing third in the batting list of leading American league hitters, closed the season with the honor of driving in more runs than any other player in the league.

In 154 games, Gehrig was at bat 584 times. He made 218 hits for a total of 427 bases. These include 52 doubles, 18 triples and his 47 homers. He drove in 175 runs, averaging better than a run a game. Gehrig is regarded as a natural ball player. He is a fine steady fielder, but his terrific hitting was the important thing in his favor in compiling the vote of the committee in his favor.

Gehrig, born in New York, June 19, 1903, began his baseball career with the Brooklyn high school. He joined the Yankees in 1923 and was later sent to Hartford. He returned to the New York club the following year in time to play in the last ten games of the 1924 season. When the veteran Wally Pipp retired, Gehrig, who had been Pipp's understudy became the guardian of first base.

Gehrig's name in the American league's hall of fame, adds to the list, which began with Ty Cobb in 1911. Ruth was the choice in 1923, Walter Johnson in 1924, Roger Peckinpaugh in 1925 and George Burns in 1926.

The result of the balloting for this season's award follows:

Henry Lou Gehrig, N. Y., outfield	56
Harry Heilmann, Detroit, outfield	35
Ted Lyons, Chi., pitcher,	34
Gordon Cochrane, Phil., catcher,	18
Al Simmons, Phil., outfield	18

AGGIES PREPARE FOR GAME WITH SPRINGFIELD

(Special to The Bulletin)

STORRS, Oct. 11—Several changes will probably be made in the Connecticut Aggie lineup before the team faces Springfield college on Pratt field at Springfield next Saturday afternoon. This was the announcement of Coach L. A. Alexander following practice this afternoon, the first workout given the squad since the game with Maine here last week.

Ken Wilson, a Springfield boy, and regarded last year as an outstanding tackle, is going to be shifted back from a guard to a tackle position. He has been tried at both center and guard this fall, where it was thought by the coaching staff that he would materially strengthen the center of the line. Wilson has not been showing at his best in either position, and both Coaches Alexander and Bitgood believe he can be of greatest value to the team in a tackle berth.

The shift of Wilson back into a tackle position means the Springfield boy will have to begin all over again to win his former berth, as Corwin Hawkins of Hartford has been playing the position regularly since the season started. One of these two men will start at tackle against Springfield, said Alexander, adding the one who made the best showing during this week's practice sessions would get the call.

Ed Colacurcio of Stratford is being moved over from right to left guard to occupy the berth formerly held down by Wilson. This shift leaves Martin Gilman of Norwich and Dick Ruffkess of Hartford fighting for the left guard berth. Gilman is a letterman, but light, weighing only 150 pounds. Despite this, opponents find he is one of the hardest men in the Aggie line to "ride out," and he will give the heavier Ruffkess a hard fight for the position.

It now appears that Henry Schildrgen of Naugatuck has won the right end berth from Seraphino Tombari of Norwich. Schildrgen is another letterman who found his chances of holding a regular position jeopardized by a sophomore, but who has come back strong to apparently win his old position. He played a fine game against Maine, and the same must also be said for Tombari.

In the backfield, Ray Ryan of New Haven has apparently replaced Rhoar Flydal of Hartford. Ryan, with Captain Eddy and Williams, performed brilliantly in advancing the ball for Connecticut, and his work stamped him as too valuable a man to keep long on the sidelines. He also handled punts well besides playing strong defensive game.

Alexander is not definitely settled on his quarterback choice for the Springfield game. His only comment on that position at the close of practice today was that Bill Knaut of New Haven and Gene Lamoreaux of Hartford are the leading contenders. Knaut is the more experienced man, but Alexander stated Lamoreaux has an equal chance of starting against Springfield.

Captain Eddy's hip injury not longer bothers the Aggie leader and he will be in the best of shape against the Physical Directors. "Pop" Williams, who received a bad gash in his leg in the Maine game, will do no scrimmaging this week and he will certainly be in shape also. Andy Sayers of Hartford, regular tackle, has been bothered somewhat by a shoulder injury received in the Maine game, and the same is true of Henry Schildgren. The injuries are not serious, however, and both men should be ready for the game Saturday.

Work today was light in that except for some live blocking and tackling, no other rough work was attempted. A long drill on forward pass plays, dummy scrimmage, and signal drill took up most of the afternoon's session.

HARVARD SHOWS LITTLE IMPROVEMENT IN DRILL

CAMBRIDGE, Mass., Oct. 11.—(AP)—A gruelling two hour scrimmage failed to raise Harvard hopes at the stadium here today when the Crimson varsity players found their hands full in scoring two touchdowns against the freshmen squad.

Guy Holbrook, a back on last year's freshman team, played regular back and carried the ball most of the way on a 75-yard march for one touchdown against the yearlings, breaking through the line on the first play for 30 yards to the goal line.

Team A and team B were in scrimmage for 20 minutes, and Howie Burns a diminutive varsity quarter, made team A's single score. Wallie Harper and Joe Crosby, backs, were the only othre men whose play stood out.

ADOLPHUS SPRINGS SURPRISE AT HAWTHORNE TRACK

CHICAGO, Oct. 11.—(AP)—Adolphus, full brother to the great Sarazen, furnished one of the many surprises at the Hawthorne track today, winning the third race by a nose in a day filled by long shot victories.

Adolphus has raced around here for two years, gaining a reputation as a quiter in the stretch, although he won two races in Canada just before returning to this section. His backers were rewarded wih $21.18 for a $2 straight ticket. After tomorrow's racing at Hawthorne, the thoroughbreds move to the new $2,000,000 Arlington Heights plant.

BROWN LINE IS SHOWING A WEAKNESS

PROVIDENCE, Oct. 11—(AP)—Brown university's varsity eleven today displayed a weak front line which the second team, in its first real workout of the season, pounded hard. Walter Trefethen, the husky junior, crashed through the sagging frontier of the regulars for long gains. The coaches gave the varsity linemen opportunity to run through their plays. During the scrimmaging Munson placed Cornsweet at guard. The balance of the week will be spent in preparing for the Yale game Saturday.

ONLY LIGHT WORK FOR HOLY CROSS TEAM

WORCESTER, Mass., Oct. 11.—(AP)—Scrimmage will be omitted from the Holy Cross practice program this week as the Crusaders conclude their preparations for their first big test against Harvard Saturday.

Aside from Mikelski and Cervini, regular guards who are nursing minor injuries, the team is in excellent physical shape. A three hour drill in which signals, kicking and a forward passing offensive were stressed constituted today's practice session.

Springfield Y to Play Harvard

SPRINGFIELD, Mass., Oct. 11—(AP)—The 1928 football schedule of the International Y. M. C. A. college, just announced, includes a game with Harvard at Cambridge October 8. This will be the first Harvard-Springfield game in years. The schedule never was announced so far in advance before.

Taylor and Bell Matched

CHICAGO, Oct. 11—(AP)—Promoter Jim Mullen tonight matched Bud Taylor, generally recognized as the world's bantamweight champion, and Archie Bell of New York for a ten round contest involving the title here Nov. 19.

Bell recently returned from a campaign in England. He is rated as one of the outstanding challengers for the 118-pound title.

Kaplan Beat Cello

NEW YORK Oct. 11—(AP)—Louis Kid Kaplan former featherweight champion, scored an easy 10-round victory over Tommy Cello, California lightweight here tonight.

Happy Atherton, defeated Routier Parra, Mexican flyweight, in 10 rounds.

Congress will be asked to appropriate more than $1,000,000 for the creation of two national memorials on the Saratoga battlefield.

TAFTVILLE-RIVERVIEW GAME SUNDAY

If the weather moderates and it is fair the fifth and final game of the Taftville-Riverview series will be played at the J. B. Martin diamond on Sunday afternoon. This game was postponed last Sunday because of the downpour. This will be the last attempt of the teams to complete the series and if cold weather or rain cause another postponement the series will be called off.

For Sunday Manager Troland will use the same team as he advertised last week, many of the ball players being in town at the present time. Chet Nichols, property of the New York Giants, will do the pitching, with Feltag, of the Baltimore Orioles, as his battery mate. Eddie Murphy will be on first. Mack Hillis and Carlie Krauss will team up around second base, Hillis guarding the right side and Krauss the left. Tommy Comiskey will be at the third sack while Bill Giey, Lloyd Jarvis and Harry Davis will be in the outfield.

Riverview will pitch Johnny Tillman again. Johnny held the Taftville team in check in two successive games and is expected to be able to turn them back for the third time. Manager Hamel announces that his lineup will be the same as in the other games but the majority of fans are rather skeptical about this. It is rumored that Riverview will throw a greatly strengthened team into the field on Sunday.

The game Sunday will start at 2 o'clock.

BOLTON

Fred D. Finley of Somers was in town recently calling on friends.

Miss Elizabeth Rose of Bolton and Mr. and Mrs. Roger Rose of Hartford and Mr. George O. Rose of Bolton spent Sunday in New York state.

The Ladies' Aid society is to meet Thursday at the hall. The hostesses are Mrs. ohn Toomey, Mrs. John H. Massey and Mrs. Oscar L. Andersoo.

WESTERLY

SEVERAL CONTESTS DEVELOP IN REPUBLICAN CAUCUS

(Special to The Bulletin)

WESTERLY, R. I., Oct. 11.—Over 500 republican electors were present at the town hall Tuesday evening, when Chairman Everett A. Kingsley called the republican caucus to order, at 7.30. Lewis Stanton was made chairman of the meeting and Mabel H. Saunders, clerk. The town caucus was later followed by caucuses of the first and second voting districts of the town, for the nomination of moderators and clerks.

For the town committee, Chairman Everett A. Kingsley presented the following nominees for two years and they were elected without opposition: Town moderator, Lewis Stanton; town clerk, Everett E. Whipple; treasurer, James M. Pendleton; collector of taxes, James M. Pendleton; director of public aid, Oliver P. Crandall.

For highway commissioner for six years, Charles F. Berry, was renamed by Mr. Kingsley, when M. Walter Flynn proposed that new blood be injected and stated that extravagance had been shown and men allowed to loaf by a road foreman and demanded that the town get a day's work for a day's pay. He named Angelo J. Capguoclo. Under Westerly caucus act Chairman Stanton ruled that the contested office should be passed until next Friday when balloting would be taken on his and other contested officers.

For school committee, Mr. Kingsley named without opposition: Mrs. Helen S Price and for tax assessor, George W. Woodward. Mr. Kingsley said that the first councilman named on the committee slate, James Jolly, had declined and in a meeting previously held by the committee, Horace E. Burdick of Avondale was named. Capt. Boumenot in the name of the Fair Play committee called the attention of the caucus to the fact that Mr. Burdick first appeared on their slate six months ago, and said that he was the treasurer of the Watch Hill fire district for 17 years and did not come from the vicinity of Dixon square. He was elected without opposition.

For second councilman Farquhar Smith was named and elected unopposed. A contest developed for third councilman, George E. Broughton, named by Mr. Kingsley, was opposed by Thomas Collings named by Joseph Stedman; passed to Friday's election. For fourth councilman, James Naccarato was elected unopposed. Fifth councilman, Isaac G. Smith, a present councilman, is opposed by James O. Lynch, who was named by Thomas Breen. For sixth councilman, Rogers E. Trainer is opposed by Frank H. Crandall, named by George A. Dolan. For seventh councilman, Joseph Frazier, is opposed by Edwin L. Sawyer, named by Maurice Flynn.

Mr. Killingly offered a written request for the Friday balloting on all contested candidates; also that the committee be empowered to fill all vacancies. The town caucus adjourned.

In the first voting district D. Harold Rogers was chairman, when Everett A. Kingsley, was nominated for moderator and John J. Dunn for clerk for two years.

In the second voting district caucus called by Committeeman Elisha C. Burdick, Dr. Edwin Whitford acted as chairman, when Medorator Lewis Stanton and Mabel A. Saunders were named for two years.

J. FRISBIE FARNSWORTH DIES TUESDAY AT HIS HOME

(Special to The Bulletin)

WESTERLY, R. I., Oct. 11.—J. Frisbie Farnsworth, 78, died at his home at 11 Newton avenue at 5.20 this afternoon, following an illness of several weeks. Mr. Farnsworth is survived by his wife, Orlena, and a daughter, Mrs. William Crandall, of Providence. For several years he conducted a grocery store and previous to that time was employed for many years at the printing press works of the C. B. Cottrell and Sons Co. He was a member of Pawcatuck Seventh Day Baptist church and took a great interest in affairs of the People's Missions in Pawcatuck, where he often conducted services.

It was reported Tuesday that the Standard Oil company had purchased the Smethurst property at 193 Mechanic street, adjoining their present plant where improvements and enlargements are being made to permit the receipt of oil in tank steamers up the Pawcatuck river.

After a year and a half as assistant pastor of St. Michael's church, Pawcatuck, Rev. Michael J. Keating on Monday was notified that he was to be transferred. He left yesterday afternoon for Hartford, Conn., to report to the bishop and learn where his next station will be. As yet, no one has been named to succeed him as assistant here.

Honoring the memory of Rowse Babcock, World war veteran, who died in the United States Veterans' hospital, No. 55 at Fort Bayard, New Mexico, Oct. 1st, a graduate of the Westerly high school, class of 1907, the flag was flown on the school at half staff Tuesday. The body arrived in Westerly Monday night having been accompanied by his brother, Horace H. Babcock and was met at the Westerly station by representatives of the American Legion, who accompanied the body to 8 Elm street. The funeral services were held at 2 o'clock this afternoon in Christ church. Rev. G. Edgar Tobin officiated, assisted by Mr. Babcock's cousins, Rev. Nathaniel B. Groton and Rev. John M. Groton. Burial was in the Babcock burial lot at River Bend cemetery. The bearers were D. Gerard Shea, John Smith and Walter Thorp of Merrill Post, No. 16, American Legion, and George W. Andrews, Michael J. McCarthy, Jr., and Elvin B. Byers of Harley P. Chase Post, No. 1265, Veterans of Foreign Wars. Mr. Babcock was the son of the late Horace Hobart and Abby Jane Cross Babcock of Westerly. He was born in New York, but lived in Westerly and attended the public schools here till he graduated from the high school. For many summers he was first purser and later pilot of the steamer Watch Hill, running between Watch Hill and Stonington. After several years in business he enlisted in June, 1918, and served in the U. S. army, the greater part of a year and a half at Camp Meade, Maryland.

Following his discharge from the army he re-entered business. Soon after, however, his health became impaired and the remaining years of his life were spent in government and private tubercular sanatoriums.

Capt. Raymond Blake, U. S. A., reserves, who has acted as instructor in aviation camps the past summer in Virginia and Texas, made a wide circle of his home town of Westerly late Tuesday afternoon as he departed for the dedication of the aviation station near Worcester.

Walter H. Snyder in company with Ralph Maxson of Bradford, leave Westerly this week end on an automobile trip for Detroit, which will take them over the Canadian border.

Today, Columbus day in Westerly will be observed as a legal holiday in that no sessions will be held in the public schools. Banks will be closed and the Westerly post office observing holiday hours, city and rural carriers will make but one morning delivery and all departments will close at noon. Incoming and outgoing mails will be cared for, the lobby closing at 10 p. m.

Preceding the annual circus and high jinks of the Westerly Cycle club in the state armory the last Saturday night of the month there will be held a street parade of antiques and horribles. The Cycle club is the oldest active social organization in Westerly. George E. Leonard of Pawcatuck being president. It had its inception in the old bicycle days, when members boasted "century runs."

Probate Judge Frank H. Hinckley of Mystic held a session of Stonington probate court for Pawcatuck Tuesday afternoon in the probate court rooms in the Walton block when much probate business was disposed. At the same time statements were filed by taxpayers with the assessors' board.

The following transfers have been recorded in the office of the Westerly town clerk: Oct. 10. Knight Finance corporation to Andrew Armour and wife, Nonie, of Brooklyn, N. Y., lot No. 36, White Rock, including the White Rock boarding house, so-called.

Knight Finance corporation to Alice M. Lawton, of Pawcatuck, R. I., lots Nos 24 and 40, White Rock.

Oct. 11. Knight Finance corporation to Thomas Mellow, lot No. 34, White Rock.

Superior court for Washington county, Judge Charles A. Walsh on the bench, at the county court house at West Kingston Monday heard the contested divorce case, Henry B. Morris vs. Carrie L. Morris of Bradford. This case was followed Tuesday by the trial of the contested divorce case of Orpha Wells Simpson Gardiner vs. Waldo Gardiner, of Exeter, R. I. Inasmuch as today (Wednesday) is Columbus day and a legal holiday in Rhode Island, no court session will be held. Thursday the hearing of more of the respondent's witnesses in the equity case, Caroline Gervasini as venerable of Loggia Cornelia Madre dei Gracchi, No. 831, Sons and Daughters of Italy in Rhode Island, vs. Concett aS. Grilis et al., will be continued. Oct. 17th Judge Walsh is due to open the October term of Providence county court in Woonsocket.

Rhode Island council, Junior Order of United American Mechanics, today (Wednesday) holds its 32nd annual convention in Mechanics hall, in the Welch block. Edwin H. Blackler of Hope council, No. 6, Westerly, head of the state council, will preside.

The convention will open at 10. At noon, the order's auxiliary, the Daughters of America, will serve dinner for the delegates and guests at Vets hall in the Walton block. Another business session will be held in the afternoon. In the evening, an entertainment for members and their families and friends will be held in Mechanics hall.

During the last two years seven new councils with a net gain in membership of 732 have become affiliated with the state council, bringing the total membership to 3469. Ashaway, Anthony, Hope Valley, Warwick, Meshanticut Park, East Greenwich and Wickford have each innished a new council.

E. A. Llewellyn of Cincinnati, national councilor, Thomas H. Walsh, of Philadelphia, junior past councilor and James L. Mimot of Virginia, national secretary, will be guests at the convention.

The replacing of worn-out striker weight cables on the re-conditioned Westerly town clock on the tower of the Manual Training school building on Union streets is all that now remains to have the clock return to duty after the fire of April 30th last.

STONINGTON

Frank Robinson has returned, after a vacation spent at Brockton, Mass.

Miss Emma Douglas returned to New York Monday, after visiting Miss Annie Northrup.

Capt. I. Frank Gavitt of the borough and Stephen Gavitt of Westerly have returned from a trip to Watertown, N. Y., and Canada.

POCKET AND $3 BURNED WHEN FRANK PRAY GETS AFIRE

Frank Pray was working near West Mystic with the section gang of the railroad when his pocket caught fire. He could not be seen for the smoke all about him. The quick work of Earl Bogue in dousing him with a pail of water soon put the fire out. His leg was burned but he mourned the loss of $3 which was in his pocket with the matches, also a pocket is ruined and part of his trousers. G. Smith said to him: "Are you going home in a barrel?" "Not as bad as that," he said with a smile. The West Mystic fire company was not needed this time.

It was named Cannery's Noisy Five. Practice will be held each week at the Golden Rod club room. The first time these music sheiks played together Leader Ellis said in a couple of weeks the Village will have just as good an orchestra as there is around these parts. The members are Ellis, cornet; Cannery at the banjo; Red DeBiasi, piano; Fatty Braclo violin and behind the drums will be Lindy Crowell.

Schooner Reliance came from George's Banks after 10 days of Cod fishing. On the way back to the sea port of Noank, the boat with Capt. Grove Eldridge and a crew of six sailors stopped at Fulton market to sell the catch of 19000 pounds of cod. It was late in the week and the market had plenty of cod fish, but Capt. Eldredge got rid of the 19000 pounds The last 1000 pounds was not bringing a good price, as the market was overloaded. They came to the village and the boat tied up at the tow dock with 1000 pounds to get rid of. When the news reached East Main street that a boat was in with fish, everybody went down to the dock to see how many they had. Soon every man, woman and child was going home carrying a cod fish for supper. It took only one hour to give away the thousand pounds of good old George banks cod.

BURGESS BEDTIME STORIES

A Bramble-Tangle Quarrel

A tongue fight does so little harm
It gives no cause for real alarm.
—Old Mother Nature.

Peter Rabbit was quite out of breath. He had had to run fast. Reddy Fox had been hard on his heels when Peter reached this old bramble-tangle in the Old Pasture. No sooner was he safely in it than Old Jed Thumper, the gray old Rabbit, who lived by himself in the Old Pasture, had ordered Peter out.

"Don't you see Reddy Fox out there?" protested Peter.

"I don't care who is out there!" declared Old Jed Thumper, who was in a very bad temper. "No one has any business here but me. What business have you up in the Old Pasture, anyway?"

"I've come up here to live," declared Peter.

"Is Fuzzy with you?" demanded Old Jed Thumper. He meant little Mrs. Peter, who used to be Miss Fuzzytail and who was his daughter.

"No," said Peter, "she wouldn't come. She is down in the dear Old Briar-patch."

"So you've left her, have you?" demanded Old Jed Thumper, looking very fierce. "Well, you can get out of here and get out of here right now!"

"Not while Reddy Fox is waiting for me," declared Peter, peeping out through the briars at Reddy's grinning face. "If you think you can put me out, just try it!" Peter was beginning to lose his temper.

Old Jed Thumper thumped the ground with his feet, as only an angry Rabbit can. Then he hopped toward Peter, and as he did so he tried to make himself look very fierce indeed.

Now the time was when Peter Rabbit had been afraid of Old Jed Thumper. But he was no longer afraid. You see, he was even bigger than Old Jed Thumper. Old Jed Thumper was showing his age, as they say. He was grayer than he used to be, much grayed. So he didn't look so fierce as he pretended to be.

Peter did some thumping on his own account. He could thump as loud and just as hard as could Old Jed Thumper. And Reddy Fox, peeping through the briars, chuckled as he watched those two angry Rabbits. It seemed funny to him. When Reddy fights he goes in with teeth and claws. Rabbits kick, and really they can kick very hard with those stout, long hindfeet of theirs.

"Come on, put me out!" said Peter. "Just try putting me out of this bramble-tangle! It may be yours, but if I want to take it it'll be mine. Just try putting me out and see what will happened."

Old Jed Thumper flew into a terrible rage. He thumped the ground and he made all sorts of dreadful threats. But he didn't go any nearer Peter. You see, he knew very well that Peter could do just what he said he would do. So he just blustered and bluffed and right down inside hoped that Peter wouldn't fight. He blustered and bluffed and thumped, but that is as far as he went. Perhaps he remembered that, after all, this was really Mrs. Peter's father. Perhaps he remembered that this bramble-tangle really did belong to Old Jed Thumper and that he really had no right there, save the right of might. Anyway, he stayed where he was and Old Jed Thumper stayed where he was, and they quarreled mightily, but they didn't fight.

There's More to This than Health!

Cleans So Thoroughly, Even Perspiration Can't Offend

All the trick laxatives in the world can't tempt people who understand the properties of **cascara.**

A hundred different drugs will purge the bowels, but a little natural cascara purifies the system clear through. Cleanses even the pores of your skin. Renders perspiration as inoffensive as so much dew!

Your grandparents took "salts," and slowly washed away the mucous membrane with the waste! Mineral oils are better, but they leave the coating that your blood must then carry off through the pores. But when you cascarize the system, you get rid of all the poisons **by normal muscular action of the bowels.**

Don't get in the habit of taking medicine for constipation—or even for autointoxication. If you have the habit, stop it. A candy cascaret is a delightful form in which to take cascara; children love them and the taste tempts most grown-ups to take "more." And what a comfort to know you are in that clean, wholesome condition that does away with any need of deodorants, even in warmest weather! Try a cascaret tonight! All druggists, 10c & 25c.

"EXCITEMENT used to cause such acidity in my system that everyone around me was conscious of it—even outdoors. It was a lucky day I found the sweetening effects of the candy laxative—

MARKET WAS IRREGULAR

NEW YORK, Oct. 11—(AP)—Frequent shifts of speculative sentiment imparted widespread irregularity to price movements in today's stock market. Major speculative operations appeared to be on the up-side, the gains ranging from 1 to nearly 8 points, but final quotations also disclosed a number of 1 to 5 point declines. Total sales fell below 2,000,000 shares for the first full session in nearly three weeks.

Outside the stock market, chief interest centered in the weakness of grain futurts on selling inspired by the publication of the government crop report. Corn, for which a substantially increased yield is indicated, was the hardest hit, dropping more than 2 cents a bushel. Wheat fell back more than a cent. Cotton was slightly firmer.

There was little in the day's business news to influence the price movement of stocks. Weekly steel trade reviews again called attention to the unsatisfactory character of the new buying, and indicated an easy price tendency for finished steel, which is now at the lowest level in five years. U. S. Steel common rallied from a low of 143 5-8 to 145 1-2 but was unable to maintain the gain, closing at 144 for a net loss of 3-8. Gulf States sank to a new low at 40, but the other independents showed little net change.

The return to this country of William C. Durant, who has been one of the big "bulls" on General Motors, was accompanied by another heavy turnover in that stock, although it closed only a half point net higher at 186 1-2. Hudson fell back 1 3-8, but the other motors held fairly steady.

Expanding department store sales undoubtedly accounted for the revival of interest in the mercantile issues, good gains being recorded by Abraham & Straus, Macy & Co., and a few others. May Department Stores touched a new high, but lost the gain on profit-taking. New strong spots cropped out among the public utilities, special buying taking place in Radio corporation, Western Union and Peoples Gas.

Erratic fluctuations took place in Houston Oil, which opened at 173, sold down to 168, recovered its loss and then reacted again to 169, off 4 points net. Freeport Texas ran into a lot of profit-taking after yesterday's spirited advance.

Rails were mixed, but some of the so-called "merger issues" sustained rather large losses, particularly Jersey Central and Delaware & Hudson.

Call money held steady all day at 4 per cent and there was no change in time money and commercial paper rates. Foreign exchange rates held fairly steady, although sterling yielded slightly in the afternoon dealings, cables on London being quoted around $4.87 1-8.

New England Industries

THE CORSET INDUSTRY

(Note: The information, on which this article, issued by the research department of the New England council, is based, was obtained by the domestic commerce division, United States department of commerce, through an industrial survey of New England conducted in co-operation with the New England council. The department of commerce is now preparing for publication a full report of this industry which will contain additional information of practical value to all New

Dame Fashion has played a part in the fortunes of the corset industry in New England, as the general downward trend of sales in the last six years has been generally attributed to change of fashion.

In 1923 New England produced 31 per cent of the country's value of product ($78,048,000) a decrease from 43 per cent in 1914. Massachusett's share was 6 per cent and Connecticut's 25 per cent. It is notable that only one of the companies reporting in a survey conducted by the United States department of commerce in cooperation with the New England council, has in recent years developed a new product sufficiently to offset this change in demand.

Sales of reporting companies in this industry (which dates from the Civil war and is confined to Massachusetts and Connecticut) dropped off 14 per cent in 1926 from the previous year, 6 per cent in 1923, 1 per cent in 1924 and 2 per cent in 1925. Only 17 per cent of total sales are made in New England and no increases are reported in New England sales. New York is the chief market, although sales are made all over the United States. Export business in 1925 was carried on by half of the companies, the proportion sent abroad ranging from 1 per cent to 30 per cent. A little more than half the total output reported bears a brand or trademark, and the chief channel of distribution is direct to the retailer.

The average age of plants is 33 years, and of present management, 20. One-fourth of the plants have changed their management, and these concerns all date from the Civil war period. Labor conditions and nearness to market have been the predominant reasons for locating in this section. The chief raw materials, which are cloth, steel, and elastic, are purchased almost entirely in New England. Seasonal variations in employment were slight in 1925, and no supplementary products have been developed to smooth out the seasonal curve.

Sixty-five per cent of the workers are paid on a piece work or other incentive wage basis, a ratio which is high as compared with that in many other New England industries. All but one company use such methods.

Improvements, in order of their importance, have been in the following fields: accident prevention, inspection, continuous maintenance, uniform cost accounting, relations with workers, production control, and balancing productive capacity and demenad. Sales and marketing are factors to be emphasized in the coming year in almost every one of these plants, but several will lay stress on management, labor conditions, and development of exports.

POETRY FOR THE WIDE AWAKES

A Winter Song

Crackle and blaze,
Crackle and blaze;
There's snow on the housetops, there's ice on the ways;
But the keeper the season
The stronger the season
Our ceiling should flicker and glow in thy blaze.
So fire, piled fire,
Leap, fire and shout;
Be is warmer within
As 'tis colder without.
And as curtains we draw and around the hearth close,
As we glad us with talk of great frosts and deep snows,
As redly they warmth on the shadowed wall plays,
We'll say Winter's evenings outmatch Summer's days.
And a song, jolly roars, we'll shout in thy praise;
So crackle and blaze,
Crackle and blaze,
While roaring the chorus goes round in thy praise.

Crackle and blaze,
Crackle and blaze;
There's ice on the ponds, there are leaves on the ways;
But the barer each tree
The more reason have we
To joy in the summer that roars in thy blaze
So fire, piled fire,
The lustier shout
The louder winds shriek
And roar by without;
And as, red through thy curtains, go out with thy light,
Pleasant thoughts of warm firesides across the dark night,

Passers by, hastening on, call be loud in thy praise,
And while spark with red spark in thy curling smoke plays,
Within, the loud song to thy honor we'll raise.
So crackle and blaze,
Crackle and blaze,
While roaring the chorus goes round in thy praise.

—William Cox Bennett.

UNCLE JED'S TALK TO THE WIDE AWAKES

The mockingbird is a well known and popular bird of the southern section of our country. It is a favorite bird of the people in that section.

The mockingbird is found in every southern state, but rarely north of Maryland and Kentucky. However, a few are found as far north as Massachusetts and Pensylvania, but they do not sing with that energy characterizing the mockingbird of the south.

The favorite haunts of the mockingbird are the most beautiful scenes of nature; the fields and forests filled with the odor of every hue, thick undergrowths of low shrubbery, the magnolia and orange trees of Florida and Louisiana, orchards and gardens where fruit abounds, and old-fashioned yards filled with thick foliage. When civilization penetrates a wilderness, the mockingbird leaves his home in the forests to find another in the gardens and orchards of man.

The home of this bird is found lodged in the forks of some low tree, but it is sometimes found in brush heaps, briars, the corners of rail fences, or even in stumps. The distance from the ground usually varies from three to 10 feet, but it may be 50 feet.

The mockingbird wants a home and a large lot. At the chosen site, the female builds a cozy nest. The framework consists of large twigs, bark, leaves, feathers, and straw. It resembles that of the catbird, but it is much larger. The nest of the oriole or even that of the thrasher is much neater, but the mockingbird thinks it the most wonderful nest in the world and proclaims his happiness in joyful songs.

The nest is completed in April or May, and there soon appear four greenish-blue eggs flecked with dark brown spots. Sometimes there are five, rarely six. On these beautiful eggs, the female sits for a fortnight. The male carries her choice insects and berries, but he spends most of his time perched on a nearby post or tree.

When the nest season is over and the first signs of winter are approaching, the mockingbird of the north makes his way to the south. Safe in the south, he joins his southern kindred and seeks a winter home near the abode of man. Unafraid, he sometimes perches on chimneys; and he may often be seen hopping on the ground, frequently opening and shutting his wings—his motions light and elegant.

LETTERS WRITTEN BY WIDE AWAKES

A New Member

Dear Uncle Jed: This is my first story to the Wide Awakes. I have read many of their interesting stories so I thought I would join the Wide Awake Circle. I am going to write a story about two dogs, Queenie and Bessie.

Queenie and Bessie are two lovely bird dogs. They are both black and white. Bessie is still quite young. She loves to play with the cats. Sometimes the cats might scratch her. Then she will run off crying very hard. Queenie is bigger and older then Bessie. Bessie and Queenie have many good times together. Queenie loves to ride in an automobile.

Over Labor Day

Dear Uncle Jed: Over Labor day, the Danielson troop of Boy Scouts went to Pleasant View. Our scoutmaster has a cottage there. We rode down in a large truck, putting our blankets in the bottom of it. We arrived at Pleasant View about 11 o'clock. We immediately set up five pup tents on the beach. When this was done we all went in swimming until dinner time. For dinner we had hot chocolate, hamburg sandwiches, and hot dogs. After dinner we went swimming again. For supper we had beans and hot dogs. After supper we went down the beach for about two miles. We got into bed about 11:30 o'clock. The night passed uneventful. After breakfast we went swimming again. In the afternoon we packed up and started for home. We arrived at about 7 o'clock. We had a nice time.

What I Want to Be

Dear Uncle Jed: This is the first letter I have sent to the Wide Awake Circle. I am going to write to you what I want to be and why.

When I grow up I think I shall be a teacher. Teachers represent my highest ideals of all that is good and noble. I want to lead a truly noble life. Is there anything more noble than training children to be good citizens and desirable members of society?

Another reason why I should like to be a teacher is that teaching would afford me an opportunity for study year after year. Again it would be a great pleasure for me to make a classroom a pleasant place for boys and girls during school hours.

A teacher's life is a very unselfish life because a real teacher gives all her time to her pupils and this is just what I want to do. There are several other reasons why I should like to be a teacher but if I should state them my letter would be too long.

SABINA JAKUBOWSKA, Age 11.
Norwich.

Wants to Be a Nurse

Dear Uncle Jed: This is the first time after vacation I have written to the Wide Awakes and I hope to win a prize.

One day my teacher asked up in class what we wish to be. I replied, "I have always felt that I should like to be a nurse. I believe that I could make a success of the work if given an opportunity. There is something very appealing to me about a nurse as she goes quietly about her work helping to make sick people comfortable and better able to endure pain and suffering. I should like especially to be a children's nurse as I have always liked children and they have always seemed to like me. I should love to help them.

A nurse is always needed and respected. The pay is good and there will always be sick people needing someone to take care of them. Then too a nurse makes a great many friends and meets many people. I feel that my life as a nurse would be useful, happy and successful.

Raking Hay

Dear Uncle Jed: I am going to tell you how we raked the hay and how we took it to the barn with a truck. One day my mother told my brother and me to go to the fields and rake hay. It was very hot that day. So we took some water and went. When we got to the fields we started to rake hay. When we raked a while we thought we would roast it was so hot. We had to rest every five minutes. When we raked about an hour my mother came to the fields with my little sister. My mother said that we didn't hike as much as we should have done. We told her that we were roasting. So she said that we don't have to rake any more till father came home from work. When we came home my father was just coming home from work. Then we went in the house and had our supper. When we finished our supper we went to the fields to finish rake the hay. While we were raking our neighbors came and helped us. When we finished raking hay my father went home to get the truck. Then we loaded the truck with hay, my brother said that he wants to go on the load. So my father put him on the load of hay. Then they started to go. When they got about half ways home half of the hay fell off and my brother too. My brother said it was a nice tumble. When we finished taking hay to the barn our neighbors stayed at our house a little while and went home. I think I will close now. I hope you will enjoy the story about the hay.

Safeguarding the Home Against Fire

Uncle Jed: When we come to the question of fire prevention, there are three main points to consider. The first is; a good citizen, will try in every way to avoid causing danger, through permitting any of the practices that he has been warned about. Second he will remove a dangerous condition in the community. Third, he also will educate others to this habit of carefulness.

This carefulness must begin before any danger is started. By dangerous conditions I mean unnecessary paper, matches and many other things in the homes. Put a tin metal underneath the stove, 12 inches around from the ash pit, so when hot ashes fall it will not start a fire.

Matches should be kept out of the reach of children and away from the stove.

There would be less lives lost and less work for the fire department.

The Arab and the Pearls

Dear Uncle Jed: I have often read stories so I am going to write one. Once an Arab lost his way in the desert, and was in danger of hunger and thirst. After straying about for a long time, he came to a fountain of water, where the travelers, in the desert were in the habit of stopping with horses and camels to drink.

He saw lying upon the bank a small leather bag. "God be praised," said he, as he took it up, "there may be dates or nuts inside and shall have something to eat as well as drink. In this hope he quickly opened the bag; but, as soo as he saw what was inside, he said, with a sad countenance, "Alas! they are only pearls!"

The Grange Fair

Dear Uncle Jed: The Groton grange held a fair on September 14th and 15th and I won first prize for a dress and some fancy work I had made. I also won third prize of one dollar in the spelling contest.

I had a very pleasant vacation, but I was glad to go back to school. I was very much disappointed and most of the children were as we expected to have our teacher of last year and she didn't come back to us.

I suppose she is teaching and making the children happy in some other school. We all loved that teacher and I know I'll never forget her and I don't believe any of the children will.

My little sister began going to school this term and she likes it. We all five start off to school every morning now.

FREDERICK GRISHAM, Age 11.
Groton.

Is Six Years Old

Dear Uncle Jed: I am a little girl six years old. I am going to write and tell you about my little baby brother. His name is John, Jr. He is two years old, has light blond hair and blue eyes. He is 32 inches tall.

Every morning he wakes up with my father and mother and gets out of his crib so that he can come in my room to wake me up and then he says "Betty come eat." Betty is my nickname.

My mother had a very nice birthday party when he was two years old. There were quite a few of his little friends here. He received many pretty presents also some money. My mother put it in the bank for him.

I guess this is all I can write tonight as it is seven o'clock and my bedtime. I must go to bed early so I can be at school on time in the morning.

I am a little Wide Awake friend,
(Betty.)

About Norway

Dear Uncle Jed: I have never written to you before. I am a boy 12 years old and go to the Goshen Hill school. I should like to tell the Wide Awake boys and girls what I have just learned in school about Norway.

Norway is a country of Europe. It is one of the most beautiful countries in the world. There are high mountains in Norway. The valleys are green and there is a clear, blue lake beach valley. Norway is far to the north. June days in Norway are so light that you can read a book in the evening without a light.

The people of Norway are called Norwegians. They have blue eyes and light hair. They are very good people and very intelligent and industrious.

In Norway the farmers have small farms. They have cows and goats and they make butter and cheese which they sell in the other countries.

Some Norwegian people are lumbermen. The forests are large and the trees are tall and straight. Some of the trees are used for firewood, some are sawed into lumber, and some ground into pulp. Pulp is used in making paper.

Some Norwegians are miners. They have mines of iron. Iron from the mines of Norway is the best iron in the world.

Some Norwegian people are fishermen. They fish along the coast and have some of the best fishing grounds in the world. The fish are codfish. Many sailing vessels are employed catching codfish. The fish are salted and dried and many of them are sold in other countries.

Many Norwegians have come to the United States. They can have larger farms here. Norwegians make good American citizens.

Is Going to be a Farmer

Dear Uncle Jed: It's quite a long time since I wrote to the Wide Awakes. So I would like to tell you what I'd like to be.

I am going to go farming when I finish school. I think I will take up an agricultural course so that I will learn more. I have lived on a farm all my life so I know quite a little about farming. When I get ready to farm I will work for my father for one or two years then I will work for myself. I am going to farm on a big scale and with horses because I have been around horses a great deal. For one thing I think horses are cheaper power than a tractor and I like to work with something that has real life. When I would be out in the field horses would be company while a tractor would not. Horses make good pets. When I work for my father I will be on a dry land farm. I'm acquainted with that kind of farming so I think I will stick to it instead of changing to irrigated farming. I will grow wheat, oats, rye, barley, and flax. Big waving fields of grain, as I once saw are a pretty sight. I have chosen farming because it is a healthful occupation. I like nature and I can be closer to her by living on a farm.

Camel

The cigarette that earned first place by its goodness

The greatest endorsement ever given to a cigarette is revealed by the fact that Government figures show that more Camels are being smoked today than ever before. An endorsement by the many—not the few.

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the place of choice tobaccos.

LEGAL NOTICES

AT A COURT OF PROBATE HELD at Lebanon, within and for the District of Lebanon, on the eighth day of October A. D. 1927.
Present, GEORGE E. BRIGGS, Judge.
Estate of Llewellyn P. Smith, late of the town of Lebanon in said District, deceased. The administrator c.t.a. appeared in court and filed a written application alleging that said estate is now in settlement in said Court, and praying for an order to sell certain real estate belonging to said estate, fully described in said application.
Whereupon, It is Ordered, That said application be heard and determined at the Probate Court Room in Lebanon, in said District, on the eighteenth day of October, A. D. 1927, at five o'clock in the afternoon, and that notice of the pendency of said application, and of said hearing thereon, be given by the publication of this order once in the Norwich Bulletin, a newspaper having a circulation in said District at least four days prior to the date of said hearing, and that return be made to the Court.
GEORGE E. BRIGGS, Judge
The above and foregoing is a true copy of record.
Attest, ISABELLE HYDE BRIGGS, Clerk

FRANKLIN A. CHAPMAN of Stonington, Conn., vs. John Hewetson of North Stonington, Conn., Court of Common Pleas, Order of Notice.
State of Connecticut, County of New London, ss. Norwich, September 26, 1927.
Upon the complaint of the said Franklin A. Chapman, claiming, for the reasons therein set forth a foreclosure of a judgment lien and the possession of certain liened premises now pending before this Court, having been returned thereto on the first Tuesday of June 1927.
It appearing to and being found by the Court that the said Defendant is absent from this State—gone to parts unknown—and now the plaintiff asks for order of notice in the premises.
It is therefore ordered, that this action be and is hereby continued and postponed for a period of three months from this date, and that notice of the pendency of said complaint be given said Defendant by publishing this order in the Norwich Bulletin, a newspaper printed in Norwich, Conn., once on or before the 15th day of October, 1927. By order of the Court.
J. FRANK COREY,
Assistant clerk of the court of common pleas for New London county.

ASSESSORS' NOTICE

All persons liable to pay taxes in the town of Norwich, are hereby notified to return to the assessors on or before the first day of November, 1927, a written or printed list properly signed and sworn to, of all taxable property owned by them on the first day of October, 1927. Those failing to make a list will be charged a penalty of ten per cent. additional, according to law.
Blanks can be obtained at the assessors' office in City Hall, or will be sent by mail upon application.
Office hours, 9 a. m. to 5 p. m.
Lists will be received beginning Tuesday, Oct. 4, 1927.
Dated at Norwich, Conn., Sept. 28, 1927.
ARAD R. MANNING,
JOHN B. OAT,
FRED G. PROTHERO,
Assessors.

AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 10th day of October, A. D. 1927.
Present, NELSON J. AYLING, Judge.
Estate of James F. Thurston, late of Norwich, in said District, deceased. The Administrator exhibited his administration account with said estate to the Court for allowance; it is therefore
Ordered, That the 18th day of October, A. D. 1927, at 10 o'clock in the forenoon, at the Probate Court Room in the City of Norwich, in said District, be, and the same is, appointed for hearing on the same, and the said Administrator is directed to give notice thereof by publishing this order once in some newspaper having a circulation in said District, at least two days prior to the time of said hearing, and make return to the Court.
NELSON J. AYLING, Judge.
The above and foregoing is a true copy of record.
Attest, HELEN M. DRESCHER, Clerk.

AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 10th day of October, A. D. 1927.
Present, NELSON J. AYLING, Judge.
Estate of John H. Wilson, late of Preston, in said District, deceased. S. Jennie Wilson of Preston, Conn., appeared in Court and filed a petition praying, for the reasons therein set forth, that administration be granted on the estate of said deceased, alleged to be intestate.
Whereupon, it is Ordered, That said petition be heard and determined at the Probate Court Room in the City of Norwich, in said District, on the 14th day of October, A. D. 1927, at 10 o'clock in the forenoon, and that notice of the pendency of said petition, and of said hearing thereon, be given by the publication of this order one time in some newspaper having a circulation in said District at least three days prior to the date of said hearing and that return be made to this Court.
NELSON J. AYLING, Judge.
The above and foregoing is a true copy of record.
Attest, HELEN M. DRESCHER, Clerk.

Duggan and William Dunigan of the Brotherhood of Railroad Trainmen. Burial was in Jordan cemetery.

STOLEN TARNAPOL STOCK STORED IN NEAR-BY CELLAR

(Special to The Bulletin)

NEW LONDON, Oct. 11—The police today recovered a part of the plunder stolen from the apparel shop of J. Tarnapol, 120 Bank street, which was burglarized ten days ago when $3000 worth of cloth coats, fur coats and dresses were stolen. With the recovery of the loot today, however, the police are without clues that might tend to reveal the identity of the thieves, but it is apparent that the crooks are local and not outside thieves, as was believed until the recovery of the loot. Patrolmen Patrick Sheehan received a tip about 1 o'clock this morning that a quantity of women's garments was stored in the cellar of the Fitzgerald building, 112 Bank street, but a few doors from the Tarnapol store. He investigated and found four coats, eight hats and a dress. The officer summoned Acting Sergeant William Graham and the clothing was taken to police headquarters where it was identified by Tarnapol as a part of his stolen stock. The thieves evidently transferred the clothing from the Tarnapol store to the Fitzgerald building and then transferred some of it, either to another hiding place or disposed of it by sale, intending to return at their convenience for the remainder of the goods. Occupants of the Fitzgerald building do not use the cellar except occasionally and state that they have no knowledge who is responsible for the placing of the stolen goods in the building. The police are satisfied that the crooks had definite knowledge of the movements of the police on the Bank street beat and also that they were aware that they could store the plunder in the Fitzgerald building without likelihood of its being discovered there.

WAYWARD VOLUNTOWN GIRL WITH ANOTHER SENT TO FARM

(Special to The Bulletin)

NEW LONDON, Oct. 11—Two young women were committed to the State Farm for Women by Judge Victor Prince in the police court today, the commitment resulting from the arrest of the young women, who were following a life of lewdness. They are Bertha Tuttle of Voluntown and Anna Jones, who has been a resident of New London but a short time. The former was arrested last night by Acting Sergeant William Graham and the latter was arrested by Acting Sergeant Graham and Motorcycle Officer Clarence Martin.

The funeral service for Patrick J. Bransfield was held at 3 o'clock this morning at St. Mary's Star of the Sea church and was attended by a large assemblage of mourners. High mass of requiem was celebrated by Rev. George Clark. The bearers were George F. Hart, William F. Dunbar, Charles H. Brown, Benjamin H. Rose, Peter G. Harris, and Frank Lyons, all members of the Sons of Veterans, of which organization Mr. Bransfield was a member. Burial was in St. Mary's cemetery, where the committal service was conducted by Rev. Fr. Clark.

The funeral of Charles W. Rice, formerly of Bridgeport, who died at Odd Fellows home, Groton, Saturday, was held at the home this afternoon at 2 o'clock. The services were conducted by Rev. George R. Atha, pastor of Groton Heights Baptist church. Burial was in the home cemetery.

Peter Piscatalla of 59 Bayonet street was presented in the city court today on a charge of violation of the state motor vehicle laws in failing to reduce speed or give a signal in passing intersecting streets. Piscatella, who was arrested by Acting Sergeant William Graham and Patrolman Frank Philopena last night, was fined $5.

NURSE DIES IN PROVIDENCE AFTER ILLEGAL OPERATION

(Special to The Bulletin)

NEW LONDON, Oct. 11—Miss Hannah Frederickson, 26, formerly of Ivoryton, superintendent of the children's department at Lawrence-Memorial hospital, died yesterday at the Rhode Island State hospital, Providence and, according to the Providence police following an illegal operation. Miss Frederick's body has been forwarded to Ivoryton, where the funeral will take place

The first knowledge the New London police had of Miss Frederickson's death was this morning when Detective John McGuire of Providence, telephoned to New London headquarters, relating the death of Miss Frederickson, stating that in his opinion the illegal operation was performed in New London. The New London police started a check-up of Miss Frederickson's movements the past few weeks. From information given at the New London hospital it was said that Miss Frederickson left the hospital five weeks ago, presumably for her vacation. Miss Frederickson entered the Providence hospital two weeks ago under the name of "Mary Stevens." She was known as such until her condition became grave a day or two ago, when she revealed her identity. It is also learned that about a month ago the nurse confided to a former classmate at the hospital the serious condition of Miss Frederickson, but the latter would not, under much pressure, reveal the identity of the man responsible for her condition. Miss Frederickson was visibly ill and was advised to seek treatment at a hospital. She finally consented to enter a hospital, and, naturally, did not desire to enter a New London institution. She went to Rockville and entered the hospital, remaining there about a week, when she returned to New London. It is believed that the operation was performed about three weeks ago and in New London, after Miss Frederickson returned here from Rockville. When her condition continued to become more serious due to septic poisoning having developed, Miss Frederickson went to the Providence hospital, where her condition gradually became worse.

COLUMBUS DAY CELEBRATION TODAY TO BE BIGGEST EVER

(Special to The Bulletin)

NEW LONDON, Oct. 11—Columbus day will be celebrated in New London tomorrow on a more elaborate scale thar ever before and tonight every detail of arrangements for the 485th anniversary of the discovery of this country by the immortal Italian navigator have been completed by the committee in charge of the celebration, which is under the auspices of the several Italian societies in New London.

A street parade will open the observance. This will be brief and the balance of the day and night will be devoted to the delivery of two addresses to the Italian-American residents at the state armory and dancing will be enjoyed there at night. The parade will start at 2:30 o'clock and will form at Bilinman, Reed and Bank streets. Lieut. Frank S. Shea, Battery A., C. N. G., will be the marshal. The parade will be in four divisions, as follows: Marshal Shea, aides, platoon of police, United States Coast Guard band and United States Coast Guard cadets; Second division: President Columbus Statue fund, Columbus Statue fund committee, 192nd Field Artillery band, Sicilian society, Caltavuturesa society; Third division: Columbus band, Norwich, Christopher Columbus lodge, No. 464, Sons of Italy in America, Tusana society, Gloria lodge auxiliary to Christopher Columbus lodge; Fourth division: Circle of Friendship, Muresa society, Italian-American Citizen club. The parade will move through Truman, to Bank, to State, to Huntington to Washington street, to the armory. Mayor James A. May will deliver an address of welcome and exploit the idol of the Italian race. Another speaker will be Rosario Gialmo, grand secretary of the Connecticut Sons of Italy and America. A concert by Columbus band, Norwich, under the leadership of Prof. P. Puca, will be given on Williams Memorial park after the speaking in the armory. It is planned by the New London Italian-American residents to celebrate Columbus day annually. The barber shops will close the entire day for most of the employes are Italians. The banks will be closed the entire day and the municipal building will close at noon.

Mrs. Nicholas Dest and infant daughter, of 575 Bank street; Mrs. George Howard and infant son, 87 Federal street and Mrs. Dennis Husband and infant son, 75 Tenth street, patients at Home Memorial hospital, were discharged today.

The funeral of Mrs. Alice Calkins, wife of Dr. Frederick W. Calkins, was held this afternoon at 3:30 o'clock at her residence, 380 Montauk avenue and were attended by a large assemblage of mourners. The services were conducted by Rev. Charles E. Spaulding, pastor of the Methodist church. The honorary bearers were Roy C. Barker, Stephen A. Prentis, F. H. Harris and Harry Holmes. During the service John D. Libby of Quaker Hill and Mrs. Albert Hewitt, of this city, sang "Nearer My God to Thee." Burial was in Jordan cemetery.

Mrs. Russell Greene is in Los Angeles, Cal., visiting her mother, Mrs. L. A. Bray.

Albert Goodrich, of 942 Lake Shore drive, Chicago, a student at Brown university, who suffered the amputation of his leg above the knee as the result of its being crushed Sunday night when the motorcycle he was riding in Waterford, collided with an automobile, is reported as resting comfortably at Home Memorial hospital, although Mr. Goodrich is still suffering from shock and he is by no means out of danger. If he survives two or three days longer, Mr. Goodrich's chances for recovery will be more than probable.

At All Souls' Unitarian-Universalist church, Huntington street, tonight a service of commemoration and praise in honor of Dr. John G. Stanton was held and was attended by a majority number of New London county physicians, together with hospital nurses and many of Dr. Stanton's former acquaintances. The addresses were by Dr. Charles B. Graves and Walter A. Towne, former principal of Bulkeley high school. A resolution was passed at the autumn meeting of the church council last night on the death of Dr. John Gilman Stanton, a loyal and steadfast Unitarian for many years, and for 15 years chairman of the board of trustees.

Henry Fulford, colored, employed at a Bank street barbershop, who at one time was prominent in local fistic circles as a preliminary fighter and who, since, has gained reputation as a football player, with New London organizations, was presented on a charge of breach of the peace and was fined $10 and costs. The penalization of Fulford was his first, although he has been arrested six times for the same offense.

Charity Commissioner Henry S. Dorsey who was the delegate from the local American Legion to the legionnaires' convention in France last month, returned to New London today.

Merrill W. Winthrop and Miss Mary E. Lamb, both of New London, were married last night at the parsonage of the First Church of Christ by Rev. J. Romeyn Danforth.

Harry Patterson of Waterford, drove to New London last night and parked his automobile on Masonic street while he attended a theatre. When the performance was concluded Patterson went to where he had parked the auto to find that it had been stolen. He reported the theft at police headquarters. The state police at Groton and Centerbrook and the police at Norwich, Westerly, New Haven, Middletown and Hartford were requested to be on the lookout for the stolen auto, but no trace of it was found. It is a Maxwell roadster.

Francis Allanach has sold a house and lot on Guthrie place to Elizabeth C. Chappell.

Jacob Lubchansky has sold a house and lot on Hempstead street to Barney Kozakow.

Anna Welczorek, trustee, has sold a house and lot on West Colt street, to Tufano Piscatello.

Personality Expressed

Personality in a home isn't a matter of mere money expenditure. It is rather someone's good taste, someone's charm and individuality expressed in the decoration and furnishing of the home. Interior decorating means making a survey of a home—an inventory of its good and bad points—planning color schemes and devising ways to give life, warmth and character to every room.

Mr. Becker of the Robert Goldstein company, who specializes in furnishings and interior decorative work, said, "There has been a remarkable interest and enthusiasm shown by the women in this vicinity for this work."

Women everywhere are asking, "Have you seen my sun porch since I redecorated it? Everyone is just crazy about it. I am so proud because I did every bit of the work myself and I had just loads of fun doing it."

Thousands of women have done work of this kind satisfactorily without a great deal of labor or money expenditure.

One big influence in creating homes of personality has been the new Duco finish made by the du Pont company. Duco is so easy to use and dries so quickly that it eliminates most of the difficulty of home decorating and is encouraging women to do this work themselves, where it might otherwise never be done.

Broadway Theater

It is not often that metropolitan editors stop to praise a motion picture. Therefore, the following editorial which appeared in The New York World a few days after Merian C. Cooper and Ernest B. Schoedsack's Paramount production "Chang" had opened, should be of interest to film fans.

"It deals with the struggle of primitive people against elemental things. It is the dangerous battle of Siamese savages against the jungle. And this jungle, with the leopards, monkeys, constrictors, bears, tigers and elephants which inhabit, could not be faked. It had to be stalked honestly, patiently, and often at great hazard; and the result is one of the greatest photographic documents that has ever been made. Perhaps the greatest thrill of all is where a herd of elephants, numbering many score, stampeded right into the camera's eye. What a feeling when the field goes dark and those great legs pound right over you."

"It is magnificent stuff. May the movies give us more like it."

Chang closes a most successful run at the Broadway tonight having played to capacity audiences all the week.

Richard Dix has played in many pictures but he never wore a yachting cap until his newest Paramount starring vehicle, "Shanghai Bound" which opens tomorrow afternoon for a three days engagement at the Broadway.

ANNOUNCEMENTS

Palace Theater

A clean cut vaudeville performance such as you all like to see makes its last appearances at the Palace today. Matinee at 2:15, and evening from 7 until 10:30. Five acts of big time entertainers are featuring headlining with Nimble Novelties a six people revue of talented performers. The screen's main attraction "Cheating Cheaters" with Kenneth Marian and Betty Compson is a thrilling story of a lot of crooks who try to double cross each other. Many tense moments are experienced in this one and a sweet tale included. A great two and a half hours entertainment and those who have seen this show all agree that it is 100 per cent.

Commencing tomorrow for three days another of the famous Palace bills will be shown. Five new acts of vaudeville will be the stage attractions and Thomas Meighan in "We're All Gamblers" will head the screen program.

The story is different and gripping. It was originally a stage play "Lucky Sam McCarver" by Sidney Howard, but it has been developed and made stronger for the screen by Hope Loring. James Cruze, maker of "The Covered Wagon" and "Old Ironsides" have done a splendid job of direction.

It moves. From start to finish come a succession of surprises. A strong comedy vein is furnished by redheaded, freckle-faced Spec O'Donnell while Gunboat Smith deserves full credit for all the laughs he injects. Marietta Millner, leading woman, is the brunette beauty brought from Vienna several months ago by Paramount. This is her second American picture. After seeing her we venture the prediction that there'll be many more of them. She's a comer.

Rarely in his career has Mr. Meighan been called upon for such a variety of performances. They range from comedy to tragedy. Through it all he seems to be actually living the part.

In fact, in spite of the series of successes this star has turned out over a period of years, we have no hesitation in calling "We're All Gamblers" one of his best.

Breed Theatre

Babe Ruth, the most sensational baseball player in the history of the game, is the star of "Babe Comes Home," the First National picture which comes to the Breed theatre for three days commencing tomorrow.

As indicated by the title and Bambino's presence in the cast, the picture deals with baseball. Some of its most thrilling scenes are of the diamond, but baseball is far from predominant in "Babe Comes Home." There is comedy, pathos and one of the most novel and appealing love stories the screen has presented apart from the atmosphere of home runs.

Anna Q. Nilsson and Louise Fazenda are featured in the cast, and it is between Miss Nilsson and the Sulton of Swat that the principal love story is developed. And what a love story it is! Ruth is exactly fitted for this part of the picture as well as for the baseball scenes.

Wid Gunning produced the picture for First National, and Ted Wilde, formerly Harold Lloyd's director, handled the megaphone. The story of "Babe Comes Home" was adapted from Gerald Beaumont's magazine tale, "Said With Soap."

In a comedy-relief love story that parallels the main theme are Ethel Shannon, Lou Archer, Arthur Stone and other well known actors, and in the baseball sequences several noted ball-players make up the supporting cast.

POETRY

Columbus

St. Stephen's cloistered hall was proud
In learning's pomp that day,
For there a robed and stately crowd
Pressed on in long array
A mariner with simple chart
Confronts that conclave high,
While strong ambition stirs his heart,
And burning thoughts of wonder part
From lip and sparkling eye.

What hath he said? With frowning face
In whispered tones they speak,
And lines upon their tablets trace,
Which flush each ashen cheek;
The Inquisition's mystic doom
Sits on their brows severe,
And bursting forth in visioned gloom,
Sad heresy from burning tomb
Groans on the startled ear.

Courage, thou Genoese! Old Time
Thy splendid dream shall crown;
You Western Hemisphere sublime,
Where unshorn forests frown,
The awful Andes' cloud-wrapt brow,
The Indian hunter's bow,
Bold streams untamed by helm or prow,
And rocks of gold and diamonds, thou
To thankless Spain shalt show.

Courage, World-finder! Thou hast need!
In Fate's unfolding scroll,
Dark woes and ingrate wrongs I read,
That rack the noble soul.
On! On! Creation's secrets probe
Then drink thy cup of scorn,
And wrapped in fallen Caesar's robe,
Sleep like that master of the globe,
All glorious, yet forlorn.

—Lydia Huntley Sigourney.

Before Columbus Came

Ere Christopher Columbus came,
Without an invitation
To look for spices, gold and fame
But found a Missing Nation
And opened up the U. S. A.
To foreign immigration,
You could not find a single book
Twixt Hollywood and Sandy Hook,
From Portland, Maine, to Puget Sound
No single volume could be found,
From Puget Sound to Monterey
And back again to Casco Bay,
No novel, history or play,
No Satevs Post, no Ladies' Journal,
No paper, weekly or diurnal,
No five-foot shelf, no book of rules
For making wise men out of fools,
Or teaching nitwits to be funny
Was to be had for love or money.

—Christopher Ward in The Saturday Review.

TAFTVILLE

Mr. and Mrs. Charles Babbitt and son Charles, Jr., of Valley Falls, R. I., have been recent guests of Mr. and Mrs. James Babbitt of Occum road.

Sotique Caisse of Occum has been a patient at St. Joseph's hospital, Willimantic, suffering from a carbuncle on his neck.

When the eastern North Carolina division of the Southern Textile association met recently at Raleigh, N. C., one of the chief speakers was Professor Thomas Nelson, dean of the textile department of the State College of Agriculture and Engineering, N. C. Professor Nelson at one time resided in Taftville, having come here when a young man and was employed as a weaver by the Ponemah mills.

The first meeting of the fall season of the Ladies Aid society of the Versailles Methodist Episcopal church was held Thursday in the church vestry.

Alfred R. Boutilier of Occum heights attended the conference and luncheon of Textile operating executives at Boston, recently.

Miss Lillian Hargraves entertained a number of friends at cards at her home Thursday evening. The first prize went to Irving Gregory and the consolation to John Krumbholz. Refreshments of sandwiches, cake and coffee were served.

Repairs are underway to the mill tenements of the Hygienic Fibre company of Versailles.

JUDGE RESERVES DECISION IN CENTER GROTON CASE

Judge Allyn L. Brown in the superior court at New London Tuesday took the papers and reserved decision in the $5,000 damage suit brought by Lawrence Thompson of Center Groton against Lizzie L. Sheldon of the same place.

The suit was begun Friday and concluded Tuesday afternoon.

The plaintiff claims that he made an agreement on Nov. 12, 1926, and paid $1 to the plaintiff by which he was to purchase the Colver homestead and a store adjacent for $5,500, but when on Feb. 12, 1927, he tendered her the money, she would not accept it or turn over to him the deed. He seeks to have the land vested in him. The defendant makes a general denial of the allegations.

Miss O'Rourke Recovers.

Miss Helen M. O'Rourke, daughter of Mr. and Mrs. Thomas J. O'Rourke, of Greene avenue, has returned to St. Raphael's hospital, New Haven, where she is a student nurse, after three weeks spent at her home. Miss O'Rourke was operated on for appendicitis on Labor day. She returns to resume her training fully restored to health.

WOMAN'S CITY CLUB HEARS FIRST IN SERIES OF CURRENT EVENTS TALKS

The German people have no use for the kaiser; they don't want him back, said Mrs. Marion Gaylord Altwell of New York city in an address before 350 members of the Woman's City club at the Wauregan hotel Tuesday evening. Mrs. Altwell is the lecturer for the current events series being held monthly by the club and Monday's address was the opening number of the programme. Mrs. Altwell is a graduate of Mount Holyoke college and has been given a degree by that college for her work in this line. She has been appointed chairman of International Relations for the New York State Federation of Women's clubs which assures a thorough knowledge of foreign affairs. Mrs. Altwell is well equipped by both study and European travel to present an up-to-the-minute resume of affairs to her audiences here who will gather once a month to listen to her addresses.

Mrs. Altwell was introduced to the club members Tuesday night by Mrs. A. N. H. Vaughn, chairman of the club's literary committee and in charge of the current events series. Her topic was Political Pictures and Personalities as Seen by an European Traveler.

Mrs. Altwell said in her talk that she has just returned from her third trip to Europe in the last four years. She told of the war-torn and desolated conditions of four years ago as compared with conditions today. Two years ago when she visited Europe there was a marked improvement. Her party consisted of 100, clergymen, educators, lecturers, writers, etc.

From what I saw and heard, Europe is distinctly on the up-grade, she said. The economic recovery is very noticeable as are the mental and spiritual recoveries. The attitude of Europe towards the United States is interesting. They have a strange mixture of feeling towards us.

The speaker told of the various political parties in England and of their problems. The labor party wants to reduce the power of the lords and the lords, who fear the labor party, might put through some radical form of legislation, are asking for more power. Mrs. Altwell told of her impressions of Lloyd George, as leader of the liberals. The ecclesiastical element is very strong in Europe. After interestingly picturing the homes of the bishop of London and the archbishop of Canterbury, the speaker went on to say that the mining situation is a great problem in England. The people are asking why something isn't done about it. The "red" propaganda in England has failed.

From England Mrs. Altwell took her audience to Berlin. She said that Von Hindenburg is greatly admired. He has faithfully kept pledges and promises made when he became president and has done more than any one man to make the Germany of today. The German people have no use for the kaiser. They don't want him back. The majority of the German people are satisfied with Germany as she is today.

Germany is forging ahead economically in splendid fashion. There are signs of prosperity everywhere. Prague was next referred to, the speaker describing a dinner which was given in honor of the visiting Americans in that place. Austria, the new republic, is a country that has come up in marvelous fashion. Austria is standing pretty securely now, she said. In Paris there is a different feeling than there was two years ago. There is now a feeling of hope, a feeling of prosperity. Briand, the speaker said, is the right kind of an internationalist. Mrs. Altwell, during the course of her address, described visits her party made to Geneva and to the peace palace at The Hague. She was roundly applauded at the conclusion of her most interesting and instructive talk.

WHAT UNITED WORKERS MEANS TO COMMUNITY

In preparing to carry on the annual district visitation for the United Workers, officials of the organization present for public consideration what the United Workers means to the community as follows:

"Having shown the importance of the support of the people of Norwich to the United Workers, let us now consider the value of that organization to the community.

"Suppose there were no Sheltering Arms, no children's home, no family welfare or public health nursing, in short, no United Workers. Children, the helpless aged, sick and needy would still be in our midst, would have to be cared for. How? Either by taxation or by just such an appeal as the United Workers is making, with the difference that the entire expense of supporting such work would be upon the public, whereas, under the United Workers, that organization bears the larger part, asking for a very little help to do the work, which in many places is supported entirely by the townspeople.

"To carry on such an enterprise as exists in Norwich would impose a burden of $40,000 to $50,000.

"Looking at it in that way, it is easy to see that if the United Workers dared hope to raise $5,000, it would be asking very little of the public."

SCHOOL BOARD EFFECTS ORGANIZATION FOR YEAR

The town school committee organized for the year at its meeting Tuesday evening in the superintendent's office at the court house. Chairman Walter F. Lester and Secretary Thomas J. Kelly were re-elected to their respective offices and Chairman Lester appointed the standing committees as follows:

Finance — James C. Macpherson, chairman, Edward G. McKay, Walter F. Lester; care of property, Robert McNeely, chairman, Dr. E. J. Brophy, Walter F. Lester; supplies, Edward G. McKay, chairman, James C. Macpherson, Walter F. Lester. The chairman is an ex-officio member of each committee.

Two new teachers were appointed as follows: Miss Abigail Murphy and Miss Bessie Bruckner.

The monthly bills were ordered paid and the board discussed some of the details of the new Samuel Huntington school at Norwich Town.

MATTRESS FACTORY FIRE CALLS OUT THE DEPARTMENT

At 4 o'clock Tuesday afternoon the fire department was called out for a small fire in the plant of the Morris Sussman mattress factory on Chestnut street. Box 25 was pulled in summoning Engine No. 1, Engine No. 3, Engine No. 5, Truck Co., No. 1, Squad A, the chief and deputy chief. Two water lines were laid but only one was used, the other being held in reserve. The fire, which was caused by a spark from an electric motor which operated a portable blower was quickly under control, but it was an hour and a half later before the firemen left the scene, as a close watch was kept to see that the fire did not break out again. A quantity of the burning material was pulled over and soaked down.

FOUR-FOLD COMRADES AT A BIRTHDAY PARTY

The Four-Fold Comrades of the Central Baptist church met with Misses Florence and Frances Bushnell Tuesday evening, when an interesting sketch was given, its title being "The Meditations of Martha Aurelia." Following this a most enjoyable social time was held, in the form of a birthday party. This was in honor of Miss Florence Bushnell and Miss Helen Denison, whose birthdays fall in October. The decorations were in pink and yellow, with dainty favors at each plate, and a large birthday cake in the center of the table. One of the interesting features was the hunt for gifts hidden in the cake.

TRIAL OF $60,000 SUIT AGAINST SHIP & ENGINE

Trial was begun in the superior court at New London Tuesday afternoon before Judge Allyn L. Brown in the $60,000 damage suit brought against the New London Ship & Engine Co. by the Textile Finishing Machinery Co., of Providence.

The Ship and Engine Co. is represented by Attorneys Arthur B. Calkins, Frank L. McGuire and C. Hadlai Hull, while the Providence concern is represented by Attorneys Arthur M. Brown and Charles V. James.

The textile company alleges that the ship and engine company manufactured 16 castings for hydraulic presses for them and that when they were completed they were not right. The New London concern claims they were right.

COUNTY W. C. T. U. TO HOLD CONVENTION HERE

Norwich will be the meeting place of the annual convention of the New London county W. C. T. U. which will be held on Thursday at Trinity Methodist church. The program will include, in addition to routine business, the election of county officers for the ensuing year. Mrs. Lena Greenbacker of Middlefield, state president, will deliver an address at 2 o'clock in the afternoon.

BERKER IS MAKING PETITION FOR PARDON

Gabriel C. Berker of this city, Simon A. G. Saulsbury of Preston and Diratto Cabaudo of New London are among 78 prisoners of the state prison at Wethersfield who have filed petition for pardons, which will be heard by the board of pardons on Nov. 7.

Berker is serving a term of from three and a half to six years for aiding George A. Finn to embezzle $57,000 from the Bankers Trust Co. of Norwich, where Finn was treasurer. Berker was head of a brokerage firm in Norwich where Finn lost the money he took from the bank.

Cabaudo is serving a life sentence for shooting to death a fellow Italian in a saloon conducted by Antone Grippo on Truman street, many years ago. Cabaudo was originally given a death sentence which later was commuted to life imprisonment.

Saulsbury is also serving a life sentence for the murder of two men at Preston several years ago.

NORWICH TOWN

LOCAL HOME AND FARM CLUB TO HOLD MEETING THURSDAY

The Norwich Town club, of New London County Home and Farm Bureau, is to hold an all-day session Thursday at the home of Mrs. Ernest Washington, on Williams street. The new demonstrator, Mrs. E. H. J. Robynson, of Gales Ferry, is to give a talk on Christmas Suggestions. Each member will be expected to bring her own material, thimble, scissors, etc. Mrs. William Weaver is president of the club, which was recently organized.

The October meeting of Home Chapter of The King's Daughters, Monday afternoon at the Johnson Home, had an attendance of fifty. Mrs. William E. Manning, leader, was in charge of the meeting. Interesting reports were submitted. It was voted to give a contribution to Miss Ada Shelley, of Windsor, state secretary of The King's Daughters, who has resigned. The next lesson in Acts, will be taken up at the November meeting, with Mrs. William Weaver and Mrs. Belle Worthington in charge. Delegates from Home Chapter to the state convention of K. D., November first and second, are first delegate, Mrs. Roswell J. P. Brown, second, Mrs. Thomas Keene and Mrs. William Whiteman, Mrs. Carrie Prentice and the leader, Mrs. Manning, who also is county president of King's Daughters. Home Chapter Sewing society, is to meet with Mrs. Herbert R. Branche of Mohegan road, Thursday, October 20th.

An entertaining program was put on at the meeting Monday afternoon, which opened with a piano solo by Mrs. Walter Cowan. Mrs. Manning read a sketch about Dinah Maria Mulock, also gave other readings regarding characters which were impersonated by members of the chapter as follows: October's Bright Blue Weather representing Autumn, Mrs. William Bogue; Christopher Columbus, Mrs. Charles Burke; Delusion of Ghosts, Mrs. Thomas Keene. After the collection, during the social hour, cake and coffee, were served under the direction of Mrs. Louis Engler, chairman on entertainment and her assistants.

Because of the rain the attendance at Sunday morning worship at the First M. E. church, was small, so the pastor, Rev. Albert E. Whitten, gave an impressive talk on the Lord's Supper, its meaning, etc., instead of a regular sermon. The Sunday evening Christian Endeavor service was omitted also for the same reason.

When the Congregational ministers and their wives assembled Tuesday at Jewett City Congregational church, from New London and Windham associations, those from the Norwich Town church included Rev. and Mrs. Gurdon F. Bailey and Rev. and Mrs. Charles E. Reeves.

It is expected that there will be representatives from the Norwich Town Congregational church school, at the New London county Sunday school convention, today (Wednesday) at the Second Congregational church, New London.

Crosby Peck, is the appointed delegate from the Congregational Young People's Christian Endeavor society, to the Boys' conference, to be held in New Haven, Friday, Saturday and Sunday, October 28-30. Delegates from the Sunday school are to be appointed later.

Isaiah 6:8. Also I heard the voice of the Lord, saying, whom shall I send, and who will go for us? Then said I, here am I; send me. This was the text of Rev. Gurdon F. Bailey, at Sunday morning worship, at the First Congregational church.

The president, Reginald Avery was in charge of the business period, at the meeting Sunday evening of the Young People's Christian Endeavor society. Ralph H. Marsh, was the leader, and the topic assigned was, How Can We Help Younger Boys and Girls? John 21:15-17.

At the meeting Sunday afternoon of the Junior C. E. society, the leaders were Esther O'Mara and Edna Pierce. Pledges were given out to be signed and returned at the meeting next Sunday afternoon.

Miss Gertrude S. Hyde, professor of art, at Mount Holyoke college, who spent the week end at her home here, returned Sunday to South Hadley, Mass. Miss Hyde had as her guest, Miss Florence Foss, also a professor of art, at the college, who returned with her.

Why risk body odor

when this hygienic toilet soap *keeps* pores purified?

STRANGE how quickly we notice body odor in others, yet so rarely know when *we* offend.

LAPSE OF 27 HOURS SINCE WORD FROM AMERICAN GIRL; SILENCE CAUSES CONCERN

Silence Has Been Unbroken Save For Wireless From Steamer American Banker That at 10.45 Tuesday Night the Plane Had Flown High Above the Ship—The Distance Was About 425 Miles East of New York—Concern is Felt Because the Plane Should Have Been Sighted by Other Liners During Daylight Yesterday.

By the Associated Press

The next few hours should tell whether Ruth Elder, comely Florida aviatrix, has achieved fame as the first of her sex to complete a transoceanic flight.

While some misgiving was caused by the failure of any ship in the path plotted by Miss Elder and George Haldeman, her co-pilot, to catch a glimpse of their plane, "The American Girl," this lack was offset substantially by reports of exceptionally favorable weather in midocean and along the eastern shore of the Atlantic.

If all goes well, they should arrive at Le Bourget field, near Paris, around 7 a. m. (eastern standard time) but the direction of prevailing winds at any point along the course might delay or advance the speed so as to make an appreciable difference.

With the exception of one brief dispatch from the American Banker early yesterday, no report has come from the American Girl since she soared away from Roosevelt field, N. Y., at 5.04 p. m. Tuesday afternoon.

NOT HEARD FROM SINCE SIX HOURS AFTER TAKE-OFF

NEW YORK, Oct. 12—(AP)—The second night since Ruth Elder and George Haldeman took off for France in their monoplane the American Girl found the silence concerning their progress unbroken except for one report less than six hours after the takeoff.

Haldeman drove the orange monoplane into the air at Roosevelt field at 5.04 yesterday afternoon while his youthful companion sat in a cabin chair, clutching a toy cat mascot and praying that her dream of being the first woman to fly over the Atlantic might be realized. Later she planned to take the stick herself and alternate with Haldeman as co-pilot on the long grind to Le Bourget field outside of Paris.

The only word that came concerning the American Girl during its first night's flight was received early today from the steamer American Banker. The captain reported by wireless that at 10.45 last night the plane had flown high above his ship about 425 miles east of New York, blinking its lights in greeting and disappearing into the moonlit skies.

After that the plane flew on, unless some unknown disaster overtook it, through the night and the following day without being seen by any of the many ships that dotted the steamer lane. This fact caused considerable concern as the American Banker said that the plane was flying at an altitude of but 1,000 feet and it was felt that at that height it should have skimmed into the vision of several other ships, at least during the daylight hours.

During the day the Mauretania reported from 800 miles at sea and the Celtic from mid-ocean that nothing had been seen of the American Girl, although a close watch had been kept. At its normal speed the plane would have passed the Mauretania's position at about one o'clock in the morning and that of the Celtic about eight.

The American Banker, the Mauretania and the Celtic all reported ideal flying weather, good visibility and favoring winds, but the fliers were due to run into foul weather shortly after dark tonight. Although the weather bureau's Atlantic service had been suspended for the season today, Dr. James H. Kimball predicted from yesterday's shipping reports that a storm area of 700 miles in width would be encountered tonight.

Barring accident Miss Elder and Haldeman expected to land at Paris about seven o'clock Thursday morning, E. S. T., which would be Thursday noon, French time.

Two more ships in the projected path of the plane reported to the Associated Press shortly before 4 o'clock today that they had not seen the American Girl. The ships were the Cameronia, about 1500 miles northeast of New York, and the Ryndam, whose estimated position was about 600 miles from here.

Allowing the plane a consistent speed of 100 miles an hour, it should have passed the point from which the Ryndam sent its message shortly after 11 o'clock last night, E. S. T.

The point from which the Cameronia reported should have been passed at about 3 o'clock this morning.

Stormy weather with a rough sea was reported by the Cameronia but the Ryndam, nearer port, reported fair weather.

The American Girl, if it maintained its speed should have been nearing a low pressure area with storms ahead about 2300 miles at sea at the time the ships reported.

RUTH ELDER'S MOTHER ON VERGE OF COLLAPSE

ANNISTON, Ala., Oct. 12.—(AP)—Ruth Elder's mother was practically on the verge of collapse at her home here tonight, members of the family said.

Worry and nervousness caused by the long delay before her daughter hopped off for Paris in the plane "American Girl," Tuesday, coupled with anxiety for Ruth's safety was assigned as the cause. Mrs. Elder was not confined to bed, however, it was said.

STORM WILL DELAY HOP-OFF OF THE SIKORSKY PLANE

OLD ORCHARD, Me., Oct. 12—(AP)—A storm increasing in intensity faster than the tide receded tonight forced postponement of the flight of the Sikorsky plane, The Dawn, from Old Orchard to Copenhagen, Denmark.

Mrs. Frances W. Grayson and her companions made the final announcement shortly after 8 o'clock when a last check with the New York weather bureau showed that the storm sweeping up the coast would increase rather than moderate. They hoped for better prospects tomorrow.

GERMAN TRANS-ATLANTIC AIRPLANE LOSES ANCHOR

BRUNSBUETTEL-AM-ELBE, Germany, Oct. 12—(AP)—The Heinkel hydr-airplane D-1220 which today began flight on the first leg of a proposed journey to America by way of the Azores tonight rested on the waters of the Elbe, awaiting a new anchor before taking off again Thursday.

At 1.21 o'clock this afternoon the hydro-airplane lifted itself out of the sunlit waters of the Bight of Warnemuende and took off on a southwesterly course in the direction of the English channel. Later in the afternoon the plane descended to the waters of the Elbe here, after a flight of approximately 130 miles.

The pilot, Horst Merz, well known Lufthansa navigator, said the decent was caused by a defective radiator. In the descent, however, the plane's anchor was lost in the Elbe. When the radiator was repaired it was decided that the plane would hop for Amsterdam tomorrow. The loss of the anchor, an added complication, caused postponement of the take-off until Thursday. Anew anchor is being brought from Warnemuende.

Besides Merz, the crew of the D-1220 are Fritz Rhode, mechanic, and Wilhelm Bock, pilot.

OVERTURES OF MINERS TO SETTLE COAL STRIKE

CLEVELAND, Oct. 12—(AP)—Ohio miners today addressed a proposal for a joint conference with mine operators to settle the coal strike in the Ohio district on a basis similar to that agreed upon in midwestern states, but were turned back with announcement of J. L. Good for the operators, that it would not be considered.

The proposal, signed by officials of District Six of the Mine Workers union, was made public in Steubenville by John Cimpue, sub-district president of the miners. The letter called attention to wage settlements in Illinois, Indiana, Iowa, Missouri, Kansas, Oklahoma and Arkansas and a copy of the Illinois "truce" settlement was enclosed.

When informed of the proposal by the Associated Press, Good who is secretary of the Ohio Coal Bureau association said that "Ohio coal operators are not interested in any proposition to settle the Ohio strike on a basis similar to that of Indiana and Illinois. It is useless for the miners union to submit such a proposal."

S. H. Robbins, president of the Ohio coal operators declared, "The Ohio operators have exhausted all efforts to deal with the United Mine Workers of America and are not interested in any further proposals."

The letter addressed to the operators asked for "an orderly discussion by accredited representatives without prejudice or restriction."

PRESIDENT COOLIDGE IN PITTSBURGH TODAY

WASHINGTON, Oct. 12—(AP)—Two successive nights of train travel are required of President Coolidge for his Pittsburgh trip and address there tomorrow at the Founders' day celebration of the Carnegie institution.

Departure from here tonight was late in the evening to have the special train carrying the president reach the Pennsylvania city early in the morning. He will have breakfast and luncheon there tomorrow at the residence of Secretary Mellon.

The entire day will be given by Mr. Coolidge to his visit in Pittsburgh which is an unusually long time for him to spend on a speaking engagement away from the capital. Mr. Mellon was in the presidential party tonight and Secretary Davis of the labor department, also a resident of Pittsburgh, will join Mr. and Mrs. Coolidge there tomorrow and return with them tomorrow night.

After speaking at the institution in the afternoon Mr. Coolidge will return again in the evening to have dinner as the guest of the trustees of the school, leaving late at night in time to return to the capital Friday morning.

An automobile trip about the city is on the president's program tomorrow morning. He also will view the international exhibition of paintings.

DEATH FOLLOWED SLEEP CONTINUOUS FOR 87 HOURS

WASHINGTON, Oct. 12.—(AP)—Samuel S. Dalton, 53, died here today, after sleeping without interruption for 87 hours.

Death followed a mysterious illness which doctors had been unable to diagnose definitely. They were of the opinion, however, that an abcess on the brain might have been the cause.

IN CANADA R. B. BENNETT TO LEAD CONSERVATIVE PARTY

PIRATES ARE OPERATING IN HONGKONG HARBOR

HONGKONG, China, Oct. 12—(AP)—Pirates who infest the coastal waters of South China today carried their operations into Hongkong harbor. They boarded the steam launch Wofatsing alongside the sea wall and stole bars of gold valued at $24,000.

CABLED PARAGRAPHS

PEKING, Oct. 12—(AP)—The stalemate continues on the northwest front where Suanhwafu has become a no man's land with only patrols of both sides crossing it.

MANAGUA, Nicaragua, Oct. 12—(AP)—After dropping bombs on General Sandino and two hundred of his followers in northeast Ocotal Sunday afternoon, Captain H. Thomas of the United States Marine corps crashed into a mountain but signalled that he was unhurt, marine headquarters announced. Many of Sandino's followers were killed in the attack and others dispersed.

WIRE SERVICE CRIPPLED BY AURORA BOREALIS

NEW YORK, Oct. 12—(AP)—Aurora Borealis, after a spree which tied up thousands of miles of telegraph wires in the United States and Canada for two hours this morning, played a return engagement this afternoon and crippled wire service as far west as Kansas City and south to North Carolina.

The leased wire network of the Associated Press was seriously affected and reports from the Western Union and Postal Telegraph companies indicated that their service was more or less demoralized.

Conditions improved after 3 o'clock this morning when the sun began to shine but when clouds banked the sky Aurora came back stronger than ever and conditions were expected to be worse tonight.

Aurora Borealis, sometimes called Aurora Polaris or Northern Lights, is a natural phenomenon which has puzzled scientists for years and has been the bane of telegraph operators since the invention of telegraphy. Many theories have been advanced to account for its action but the simplest explanation as it effects telegraphy is that with the coming of the lights the wires are charged with a heavier current than is used to operate the system and the wires are rendered useless for the transmission of messages.

The electricity in the air when Aurora Borealis is present, telegraphers say, combats the electricity on the circuit, introducing a foreign current which neutralizes the current operating the telegraph system. Although the condition cannot properly be called static, that is what it amounts to.

WILL OPPOSE ANY ATTEMPT "TO RAID THE TREASURY"

WASHINGTON, Act. 12.—(AP)—A warning that any attempt "to raid the treasury" would meet with stonewall opposition in the forthcoming congress was issued today by Chairman Madden in announcing that he had called the house appropriations committee to meet Nov. 15, to begin hearings on the batch of annual bills.

"This is a political year and judging the future by the past," the chairman declared, "it is not improbable that some will attempt a raid on the treasury. We wish to have those who would like to conduct a raid to know that we are still on guard."

Mr. Madden said he believed a $300,000,000 tax reduction bill could be enacted, but that he thought the first work of the session should be passage of a deficiency measure to care for items carried in the deficiency and post office buildings bills that failed in the closing days of the last congress.

FILM DIRECTOR CAREWE SEPARATES FROM WIFE

HOLLYWOOD, Cal., Oct. 12—(AP)—Edwin Carewe, noted film director and producer, tonight definitely confirmed reports that he and his wife, the former Mary Akin, had separated.

"It is a case of incompatibility," he said, "the situation has been growing steadily worse for several months and we decided two days ago to separate. We still have a high regard for each other."

The film director said a financial arrangement had been offered his wife, but had not yet been accepted. He said he hoped to be permitted to have his two children a part of each year.

Carewe will leave for New York as soon as he completes the picture upon which he is working and from there will go to Europe where he will spend several months.

ATTEMPTED TO SLAY WIFE AND COMMIT SUICIDE

CHICAGO, Oct. 12—(AP)—Hiding in his estranged wife's hotel apartment, Bert Horning, wealthy merchant of Terre Haute, Ind., tonight attempted to slay her and commit suicide after failing to effect a reconciliation.

The wife, Ethel, 26, was wounded three times. The husband then turned the pistol upon himself and fired a bullet into his head. Doctors said he could not live.

STRAWBERRIES ON PLANTS PLUM BLOSSOMS ON TREES

NEW BRITAIN, Oct. 12—(AP)—When George Carpenter announced that he had about 100 quarts of strawberries on plants on his Farmington road farm, he started something.

It was not long before Howard Chichester brought in some apple blossoms, while William Needham found a few plum blossoms on his trees to give surface evidence that the season isn't dead yet from old age.

DAIL HAS APPROVED COSGRAVE'S CABINET

DUBLIN Oct. 12—(AP)—After a four hour debate of the whole government policy, the Dail today approved by a vote of 76 to 70 President Cosgrave's cabinet which was submitted today.

President Cosgrave restated his intention of putting the public safety act, designed to prevent assassinations, into effect as one of the policies of the government.

PASSENGERS ON TROLLEY THROWN FROM SEATS

WORCESTER, Mass., Oct. 12—(AP)—Eight passengers riding on a Worcester Consolidated trolley were thrown from their seats tonight when the car left the rails on Grafton street and struck a pole. While all were shaken up not all complained of injury and with one exception their hurts were of a minor nature.

Mr. Woodward retired from service 12 years ago when his health failed. Burial will be in Columbia, Conn.

Former Coast Guard Commander Guilty

Of Conspiring to Violate the National Prohibition Law—Bribery Involved.

PROVIDENCE, R. I., Oct. 12.—(AP)—Dewey M. Parker, former commander of the coast guard patrol boat 231, was convicted by a jury in federal court here today of conspiring to violate the national prohibition act and conspiring to accept an alleged bribe of $5,000 from Sigmund Rand of Pawtucket to permit landing of a cargo of liquor at Rocky Point.

Rand, known to the authorities as the "king of the Rhode Island bootleggers," was convicted last December in federal court here of conspiracy to violate the national prohibition act and at the same time found not guilty of conspiring to bribe "Captain" Parker. He was sentenced to serve two years in prison and to pay a fine of $5,000. His appeal is now pending in the U. S. circuit court of appeals at Boston.

Four former members of the crew of the 231, who have confessed conspiracy and testified against Parker, will appear with him for sentence before Judge Ira Lloyd Letts Friday.

Government witnesses testified that Parker and his crew, with the exception of the cook, seized two boats laden with liquor and then decided that "the next one would be theirs." The third one was the yacht Hornet which Rand is alleged to have hired to bring a cargo of rum into Rocky Point on Narragansett Bay from rum row off Block Island.

FLOGGERS IN ALABAMA ARE TO BE PROSECUTED

LUVERNE, Ala., Oct. 12—(AP)—More than 100 indictments that will result in "at least 100 convictions and prison sentences," will be returned by the special grand jury investigating masked floggings in Crenshaw county, Attorney General Charlie C. McCall said today. He indicated that they probably will report to Judge A. E. Gamble tomorrow.

Today's session of the grand jury was marked by the appearance of four men said to have been members of whipping parties in Crenshaw county. J. P. Williamson, Shelby Gregory Maxie and Phaxton Miller were taken into custody in Montgomery and brought to Luverne today to testify before the grand jury.

Mr. McCall would not verify published reports that the four men confessed their part in a series of Crenshaw county floggings and turned state's evidence, implicating other persons in connection with masked violence.

James Esdale, grand dragon of the Ku Klux Klan in Alabama, who Mr. McCall said had been summoned to appear before the jury today, failed to appear. Attorney general said he understood Esrale was in Chicago. Inquiry at his offices in Birmingham failed to result in definite information as to his whereabouts.

The Rev. L. A. Nalls, a Baptist minister who had been summoned with klan head also failed to appear. A warrant charging him with participating in the flogging of Miss Fannie Clements has been sworn out and is awaiting service.

Several other witnesses were called before the jury today.

SAFE CRACKER EQUIPMENT WAS SEIZED IN NEW YORK

NEW YORK, Oct. 12—(AP)—A quantity of dynamite, electric drills and other alleged safe cracker equipment was seized tonight in the home of two brothers who, police charged, were responsible for a series of burglaries and safe blowing jobs. The police also found four pistols hidden in the house.

The brothers gave their names as George Boy, 26, and Victory Boy, 24.

They were specifically charged with burglarizing a 5 and 10 cent store last Sunday night. Also, they were charged with violation of the Sullivan law, which prohibits unauthorized ownership of firearms, possession of burglar's tools, and forgery. The forgery charge was made in connection with an allegation that the brothers had taken out automobile licenses under assumed names.

After checking fingerprint records, authorities said that both brothers had been arrested several times and that in 1922, George was given a five-year sentence for burglary in Cambridge, Mass.

A NATIONAL SURVEY ON EMPLOYMENT PROSPECTS

WASHINGTON, Oct. 12—(AP)—Employment prospects over the United States, as developed in a special national survey announced today by the labor department, present wide contrasts New England states without exception look for an increased number of workers to be demanded by industries and operations during the next few months, while the great manufacturing territory of New York, Pennsylvania and New Jersey gave forecast of maintained working forces, but with only minor opportunity for increases.

Coincidentally, the department of agriculture issued a report saying that the farm labor supply has been 2.3 per cent in excess of the demand this year, due largely to the lower volume of industrial employment.

Farm wages were reported 75 per cent higher than the 1910-14 period, but were said to be well below relative industrial wages still.

Average farm wage was reported as $35.68 a month with board and $49.77 without board, while daily wage average was $1.96 with board and $2.33 without.

INSURANCE TO SAFEGUARD ALL INSTALLMENT SALES

NEW YORK, Oct. 12—(AP)—A system whereby life insurance acts as a safeguard for all installment sales has been successfully applied in Great Britain, the Bankers Trust company of New York reports. One of the essentials of installment—or as it is called in England, hire-purchase transactions—is that the seller shall retain an interest in the goods until they are finally paid for. Meantime, if the goods are destroyed by fire, or some other accident, both seller and buyer are covered by the insurance on the goods.

To alleviate fear of any buyer that he may not survive to complete his contract, thus leaving others to pay for what he has bought, many British firms are now taking out life insurance policies on the lives of all their installment purchasers, and giving these free to their customers.

Tornado in Arkansas Killed Four Persons

Fourteen Persons Were Injured—Many Buildings Were Wrecked.

BLYTHEVILLE, Arkansas, Oct. 12—(AP)—Four persons are dead, fourteen injured, and more than a score of business buildings and dwellings in ruins tonight following a tornado which dipped into the northeastern tip of Mississippi county last night and vented its fury in the village of Dell, 11 miles southeast of Blytheville, total property damage was estimated tonight at $100,00.

All of the dead and most of the injured were crushed under falling timbers of their homes. Two negroes were injured when the storm struck a suburb of Blytheville and several others were hurt on plantations between this city and Dell.

W. P. Winn, a justice of the peace at Dell, and his wife and Austin Hardin and his sister-in-law, Mrs. J. A. Hardin, were killed.

The injured include: John Hardin, husband of the woman killed, and three other members of the Hardin family, and six members of the family of J. T. Green.

The Hardin home, directly in the path of the storm, was demolished and the bodies of the two persons killed there were carried about 100 yards from the wreckage of the house.

Among the more substantial buildings wrecked or badly damaged were the plant at Dell of the Phoeniz Cotton gin, the Dell school and the Stevens gin near Dell.

A. Rittenbury, constable at Dell, described the storm as heralded with a terrifying roar. "I have been in storms before, this one was the worst. The dead were lying among the debris and others—men, women and children—were crying for help. Small fires were burning and where there had been substantial homes, only heaps of debris remained."

HOME MOVIE PROJECTOR MENACES MOVIE THEATRES

NEW YORK, Oct. 12.—(AP)—The little home movie picture projector has become the greatest single menace to the motion picture theatre business, exhibitors agreed today, and proposed that films produced for the general market be withheld from "home consumption" for at least two years after their original release.

The proposition took the form of a resolution before the sub-conference of exhibitors of the motion picture trade conference. The resolution was ordered redrafted to make its provisions still more stringent. Many exhibitors demanded that "home consumption be prohibited altogether."

Five resolutions adopted by the sub-conference condemned as unfair delay in shipment of films already shown to the next exhibitor, payment of gratuities to distributors' representatives to obtain special favors, "bicycling" of films from one theatre to another when rental has been paid for only one, the making of false reports to distributors of results of percentage bookings, and the purchase of more films than can be shown to keep them from competitors.

The conference, in which exhibitors, distributors and producers are participating, was called by the federal trade commission for the purpose of drawing up regulations concerning fair play in the industry.

WILL BE NO PROCLAMATION FOR AMERICAN EDUCATION WEEK

WASHINGTON, Oct. 12—(AP)—Reports that President Coolidge had declined to issue a proclamation urging observance of American Education week, Nov. 7-13, were confirmed today by officials of the National Education association which, with other organizations, is sponsoring the week.

They made public a letter to Miss Cornelia S. Adair, president of the association, from Mr. Coolidge's secretary, Everett Sanders, declaring the president "has expressed himself fully as to his convictions on the value of education and holds that to rephrase such sentiments tends rather to weaken them than otherwise."

The letter, which followed a request from association officials for an audience with the president, concluded: "For that reason he will issue no proclamation this year. Therefore, it would not be fair to waste the time of the committee to discuss the matter with him."

It pointed out that the president had been "very glad to do this in 1923, 1924 and 1925, but no proclamation was issued last year. Because of the increasing number of requests made upon him by various interests for proclamations year after year, he feels that in most cases they should not be made annual events."

STATEMENT ON MEXICO BY GENERAL OBREGON

NOGALES, Mexico, Mex., Oct. 12—(AP)—General Alvaro Obregon, re-electionist candidate for the presidency of Mexico, declared today on his arrival here from Mexico City that the recent unrest centered there could "not be termed revolution because revolutions are made by the people and but a few disloyal soldiers took part in this simple riot."

"There are no two factions of public opinion as is supposed," Obregon said, "because if there were, the revolution would be in the entire national territory. The generals who revolted do not represent by any means any political force and their failure is proof of their lack of backing."

The battle scarred Mexican general whose presidential candidacy now is unopposed as the result of the execution of General Serrano and the asserted failure of General Gomez' revolt, declared his candidacy has the support of the majority of the people of his country.

22 JEWISH ACTORS HURT IN BUS WRECK

YOUNGSTOWN, O., Oct. 12.—(AP)—Twenty-two Jewish actors, and actresses, members of the Metropolitan Theater company, of Cleveland, were injured late today when a bus in which they were riding to Youngstown for a one night engagement collided with a truck near Welchfield. Mickey Cohen, suffered a fractured skull and was the only one seriously injured. Seven were taken to hospitals at Warren, near here, while the others proceeded to Youngstown after having their injuries dressed.

JAIL SENTENCE, $1,000 FINE FOR MAYOR OF INDIANAPOLIS

Mayor Duvall Also Disbarred From Public Office For Four Years For Violating the Corrupt Practices Act—Mayor Duvall Insists That He Will Continue in Office Pending Action by the Indiana Supreme Court on His Appeal—The Mayor is at Liberty on $2,000 Bond.

INDIANAPOLIS, Ind., Oct. 12—(AP)—Whether Indianapolis legally has a mayor was the question uppermost in the minds of city and county officials tonight after Mayor John L. Duvall had been formally sentenced to 30 days imprisonment, fined $1,000 and disbarred from public office for four years for violating the corrupt practices act during the 1926 campaign.

Duvall contended he still was mayor and insisted he would continue in office pending action by the Indiana supreme court on his appeal from the conviction in the Marion county criminal court.

Prosecutor William H. Remy and his special assistants were equally certain the disbarment part of the conviction automatically made Duvall ineligible to continue in office upon the formal passage of sentence. The jury which found Duvall guilty of making a deal with a local politician, ruled that the defendant should be disbarred from public office for four years from November 2, 1925, the date of commission of the alleged act.

While Remy and the special assistant prosecutors went into conference today following the pronouncement of sentence to discuss action pertaining to the removal of the mayor, it was understood no action was expected for a few days.

Prior to passing sentence today, Special Judge C. C. Shirley overruled a motion for a new trial. Duvall's attorneys were given sixty days in which to complete their appeal. The mayor was admitted to $2,000 bond.

TROUBLE AT ALABAMA POLYTECHNIC INSTITUTE

MONTGOMERY, Ala., Oct. 12.—(AP)—Complaints of students that conditions at the Alabama Polytechnic institute, are "deplorable" will be aired Friday at a call meeting of the board of trustees over which Governor Bibb Graves will preside. The governor issued the call for the meeting after a delegation of students had called upon him to investigate conditions. Dr. Spright Dowell, president of the institution, also appeared at the governor's office and asked for the meeting.

The resignation of Coach David B. Morey, Friday, kindled the flame of unrest which has been in evidence on the Auburn campus for several weeks. Previous to Coach Morey's resignation meetings of the various classes had been held endorsing the action of the senior class in drawing up a petition to present to the governor asking for the investigation.

Representatives of the student body placed before the governor a list of charges against the present administration. The list included the charge that there was a lack of discipline at Auburn and that this condition was brought about because there was no mutual understanding between President Dowell and the students. The petition said "that Mr. Dowell had the love and respect of less than 30 per cent. of the students."

The petition also said that the freshman class was 20 per cent. smaller than last year, charging that such a condition did not exist in any other A grade college in the south.

The delegation told the governor that for the past two weeks, members of the senior class each morning before daybreak went about Auburn tearing down placards aimed at Dr. Dowell. They said that further disorder had been averted by the action of the senior class in assuring the under classmen that they would go before the governor with the petition asking an investigation.

STUDENTS AND SOLDIERS BATTLE AT FOOCHOW, CHINA

FOOCHOW, China, Oct. 12.—(AP)—Scores were injured in a street battle today between parading students and soldiers of Tang Hsuching, the provincial military chieftain. The students were demanding the immediate expulsion of Tang Hsuching following the latter's demand for a million Mexican dollars for leaving. He is accused of wholesale graft.

The populace have paid a half million and refused to pay more. Tang Hsuching has fled to a monastry in the countryside and threatens further reprisals against the district unless the other half million is paid. The inhabitants are alarmed and fear more clashes.

Nationalist troops from Nanking are en route here seeking to oust Tang Hsuching.

STEADY INCREASE IN CANCER DEATH RATE

NEW YORK, Oct. 12—(AP)—The death rate from cancer in the United States is steadily mounting, the Spectator, insurance journal, says in its issue today.

Frederick L. Hoffman, consulting statistician of the Prudential Life Insurance company, author of the Spectator article, attributes the increasing toll from cancer to the "profound alterations in our modern mode of living as compared or contrasted with the more natural mode of living in former years."

The rate in 23 American cities increased from 74.5 per 100,000 in 1906 to 82.3 per 100,000 in 1916 and 114.5 per 100,000 in 1926.

COL. LINDBERGH IS AT SPARTANBURG, S. C., AIRPORT

SPARTANBURG, S. C., Oct. 12.—(AP)—Colonel Charles A. Lindberg arrived at the airport here today after circuling over the city for 15 minutes in his famous plane before he was recognized. He made a landing about 2 p. m.

The failure to recognize Lindbergh's "The Spirit of St. Louis" was due to the fact that other planes were flying over Spartanburg at the time. Once spotted, the aviator was greeted by whistles and bells.

After an overnight stay here, Colonel Lindbergh plans to proceed tomorrow to Winston-Salem, N. C.

POSTHUMOUS CHILD BORN TO MRS. WILLIAM P. IRWIN

DALLAS, Texas, Oct. 12—(AP)—A six pound baby boy was born today to Mrs. William P. Erwin, wife of the missing pilot of monoplane Dallas Spirit, which was lost in the Pacific ocean when the Dallas aviator and his navigator went in search of the missing Dole prize fliers.

Mrs. Erwin was taken to a local hospital late last night. The mother and baby were reported as "doing nicely."

MISSOURI DEMOCRATS ARE BOOMING SENATOR REED

SEDALIA, Oct. 12.—(AP)—United States Senator James A. Reed, who only seven years ago was repudiated by a state democratic convention because of his anti-Wilson utterances, today was acclaimed at a state-wide democratic rally and barbecue here as the party's logical presidential standard bearer in 1928.

Senator Reed was given ovation after ovation as he delivered an address denouncing the republican national administration and declaring "the times are ripe and rotten ripe for a change."

The senator's speech was accepted as the opening of a campaign to obtain for the next democratic national convention a Missouri delegation instructed for Reed.

Th action of the state democratic committee last night in unanimously endorsing Reed for president and urging him to file again for the senatorship so he might continue to represent the state if he should not receive the presidential nomination was in strong contrast to the attitude of his party in 1920. He then was refused the privilege of representing Missouri as a delegate to the democratic national convention, and was denounced from one end of the state to another as being no longer a democrat.

Senator Reed denounced the foreign debt settlements as schemes forced upon the country by Morgan and Mellon financial interests to enable foreign governments to borrow more money from American bankers, by relieving them of the necessity of repaying in full their war obligations to the United States.

"What we need is an American administration that thinks only in the terms of America and labors for the interest of our own people. An administration guilty of such transactions as I have described ought to be driven from power and buried in the grame of shame," he said.

SWEAR AFFIDAVITS FOR ENGLISH CHANNEL SWIM

LONDON, Oct. 12.—(AP)—Dorothy Cochrane Logan, who yesterday swam the channel, and Horace Carey, her trainer, swore affidavits today regarding the swim and tomorrow Dr. Logan will receive a prize of pounds sterling 1,000 for breaking the record held by Gertrude Ederle, Carey declared in a statement tonight.

The prize was offered by Lord Riddell, publisher of the News of the World, to the first British woman lowering the time taken by Miss Ederle to cross the English channel.

(Dr. Logan was credited yesterday with crossing the channel in 13 hours and 10 minutes, Miss Ederle took 14 hours and 31 minutes.)

Carey declared that if the watchman at Cape Gris-Nez lighthouse had geen keeping the proper lookout between 7 and 8 o'clock Monday night he could not have failed to see the dingy with Miss Logan aboard leave the fishing smack off shore and row to the beach from which she started her swim.

500 REVOLUTIONISTS ARE UNDER ARREST IN SPAIN

HENDAYE, Franco-Spanish Frontier, Oct. 12.—(AP)—Five hundred persons are under arrest in Spain in connection with the recent discovery of a revolutionary conspiracy against the Primo De Rivera government.

The arrests centered in Madrid, Barcelona and Bilbao.

Several officers are numbered among the alleged conspirators.

At the same time preparations to call a general strike were halted by the police. The strike was alleged to have been hatched at Vilboa by followers of Indalecio Prieto, extreme socialist leader.

FARMERS BETTER OFF THAN THEY WERE LAST FALL

WASHINGTON, Oct. 12—(AP)—Farmers are less dependent on banks this fall than a year ago, and taken as a whole their financial condition is better, the Federal Reserve board declared today in an agricultural review.

"This decline in loans is due partly to the fact that the farmers have liquidated some of their loans contracted earlier and in part to the fact that their borrowing at the banks in the spring of this year was somewhat smaller than the year before," the board said.

DEMUS WILL ENDEAVOR TO HAVE WOMEN JURORS

CINCINNATI, Ohio, Oct. 12.—(AP)—George Remus has faith in women jurors.

He said today that he would obtain as many women as possible for the jury which hears his trial on a charge of first degree murder for the killing of his wife, Imogene Holmes Remus.

"Women jurors," Remus said, "will first ask whether I was justified when they consider their verdict and they will see the justification I feel."

MANCHESTER MAN ARRESTED AFTER AUTO ACCIDENT

(Special to The Bulletin)

WILLIMANTIS, Oct. 12.—Misjudging the right from the left of the road William F. O'Connell, 25, of 44 Prospect street, South Manchester, drove his Ford touring car into the right side of a Studebaker touring car operated by Charles A. McCarthy, 22, of 146 Valley street, this city, some 200 feet east of the junction of Columbia avenue and Main street at 6.15 this evening. O'Connell's judgment, according to the police, was due to the influence of liquor and he will be charged with driving in that condition at the session of the police court on Thursday morning. His companion, Dennis Sullivan, also of Manchester, was held for intoxication. A quantity of wine was found in the car. The Ford suffered a broken wheel and fender on the right side and the two fenders and an entire running board of the total machine were demolished in the crash. The cars were approaching each other from opposite directions. McCarthy said that the Ford came out from in front of another machine just ahead of the McCarthy car and was traveling along the left curb stone. The accident was investigated by Officer Arthur Hurley.

BODY RECOVERED AFTER BEING IN WATER 3 MONTHS

(Special to The Bulletin)

WILLIMANTIC, Oct. 12.—The body of Ameen Farkouh, son of Rev. Farkouh of this city, was found in the water of Crystal lake, Ellington, about seven o'clock this morning by A. W. Smith of Hartford. The local youth and his sister were drowned in the lake July Fouth last. The girl's body was found on July 7 but an exhaustive search by divers and the use of dynamite failed to bring up the body of the boy. Dr. Edward Brade of Ellington viewed the remains this morning and gave permission for removal. The double tragedy occurred when a boat in which the victims were rowing about the lake was caught by a high wind and collapsed. One of the occupants of the boat was saved.

Feature entertainment was enjoyed at the first Lyceum meeting of the year at Windham high school this morning. Under direction of Miss Geraldine McGaughan of the faculty a playlet, Columbus at Court, was presented. The cast comprised: Francis Dillon, Ruth Gleason, Morton Tinker, Wallace Powell, Kerman Levigne, Mason Lincoln, Howard Reynolds and Philip Doe. Selections appropos of the Columbus day programme were rendered by the school orchestra directed by Miss Elizabeth F. Hunt. There were also remarks by Principal Egbert A. Case, a recitation by Cecilo Mastin and reading by Louis Sullivan. The assembly joined in patriotic singing. Janet Scripture acting president of the Lyceum, was in charge of the meeting. Miss Elizabeth McKinley was at the piano. Principal Case's talk was a plea for support of the various school activities.

William P. Allen died at his home in Irvington, N. J., Tuesday afternoon after two weeks' illness, which culminated in pneumonia. He was a former resident of this city and highly esteemed here. The deceased was born in Brooklyn, Connecticut, April 28, 1867, the son of Arba A. and Mary Prentice Allen. Besides his wife, Mrs. Delia L. Allen, he leaves one daughter, Miss Doris Allen, a student at William Smith college, Geneva, N. Y.; a sister, Mrs. L. C. Fisk of Upton, Mass., and two nephews, Byron P. Barstow of Engelwood, N. J., and Casius A. Barstow, of Windham. Mr. Allen was secretary of the Asher Mangle company of Newark, N. J. While a resident of this city he became affiliated with several fraternal organizations, among and others with which he was connected being Quinebaug lodge, No. 34, I. O. O. F., of Danielson; Eastern Star lodge, No. 44, A. F. & A. M., Trinity chapter, No. 9, R. A. M., Olive Branch council, No. 11, R. & S. M., and St. John's Commandery, No. 11, Knights Templar, of this city and Sphinx Temple, No. 2, A. A. O. N. M. S., of Hartford.

Willimantic's better lighting campaign failed to stop with th einstallation of a highly commendable white way along Main street. Alderman William E. Jackson, chairman of the lighting company has concluded a survey of the city and this week employes of the Rockville-Willimantic Lighting company are busy installing additional or more powerful lights to brighten up the town. Jackson street, Pleasant street and a section of High street are among thoroughfares that have received new lighting arrangements and it is stated that the program will be continued to meet at least present demands for better lights.

Noting the golden anniversary of their wedding, Mr. and Mrs. Clarence A. Hawkins of Bolivia street united with their seven children and 15 grandchildren at the home of their daughter, Mrs. Clyde I. Larkin, Tuesday evening to observe the event. Supper which featured a large cake made by Mrs. H. C. Hawkins of Mansfield Center was followed by the presentation of a purse of gold and entertainment. Mr. and Mrs. Ernest Nervegno have returned from a motor trip through the New England states and a visit with relatives at Shelburne Falls, Mass.

Mrs. F. M. Lehrman left today on a business trip in New York city.

Engine Company, No. 1, received a still alarm for a fire at the rear of the business and tenement block owned by Joseph Astmann at 25-27 Center street at 5.30 o'clock this afternoon. The fire was confined to a portion of the building against which rubbish had been piled and is believed to have started from hot ashes thrown into a barrel. Clapboards and a window sill of the house were somewhat burned. The blaze was extinguished with nine gallons of chemicals. The pumper and ladder trucks responded to the call.

After a few days illness, Alice Ida Stone, wife of Louis Barbero, of High street, Willimantic, passed away Saturday morning.

Mrs. Barbero was born March 13, 1899, at Hampton, Conn., the daughter of Amos & Cora V. Stone.

All her life was spent in Hampton until her marriage to Louis V. Barbero on April 29, 1919, after which she lived in Willimantic.

She is survived by her husband Louis V. Barbero, two sons Russel L., aged four years, and Earl Amos Stone, aged 21 months, her father and mother, Mr. and Mrs. Amos Stone of Willimantic, two sisters Mrs. Clara S. Moren of Middletown, Conn., Mrs. Vivian Freeman of Mystic, Conn.

Mrs. Barbero was of a cheerful sunny disposition, beloved by all who knew her. She was a member of Social Corner No. 1.

MANY MOURNERS AT FUNERAL OF MISS SARAH MAY MCGRATH

The death of Miss Sarah May McGrath occurred at 2:40 o'clock Wednesday afternoon at the home of her parents, Mr. and Mrs. James J. McGrath in Lebanon. Miss McGrath was born in Lebanon, May 4th, 1908 and received her early education in the Lebanon schools. She was a student nurse at the Middlesex hospital until her health became impaired. She had a very pleasing disposition and was loved by all. She is survived by her parents and two brothers, James of Middletown and William of Lebanon, and by five sisters, Mrs. Billus of Lebanon, Mrs. Harold Webster of Colchester, and Misses Elizabeth, Alice and Patricia at home. The funeral services took place from her home in Lebanon at 8:30. The high mass of requiem at St. John's church at Fitchville at 9 was sung by Rev. Phillip P. Mooney. Chopin's Funeral march was played on the organ as the funeral procession entered the church. Francis Shea sang for the offertory Pie Jesu and for the waiting hymn, Some Sweet Day. The bearers were two brothers, James and William McGrath, her brother-in-law, Harold Webster, her uncle and cousin, George and Joseph Cleary, respectively and her cousin Patrick Sullivan. Burial was in St. Joseph's cemetery, Greeneville. The floral forms were beautiful. Relatives attended from New London, Hartford, Norwich, and Middletown. A delegation from the hospital where Miss McGrath was a student nurse was present. Shea and Burke of Norwich were in charge of the arrangements.

STAFFORD SPRINGS

STAFFORD'S 68TH ANNUAL FAIR HAS MANY NOVEL ATTRACTIONS

(Special to The Bulletin)

STAFFORD SPRINGS, Oct. 12—The fifty-eighth annual fair and exhibition of Stafford Springs Agricultural society opened this morning. Weather conditions were favorable and at an early hour streams of cars from all parts of the state poured into the town headed toward the fair grounds. The local borough and state police were assisted by officers from Springfield, so traffic was kept clear and moving throughout the day.

Factories, offices and schools closed and allowed employes and pupils to attend on the opening day. Throngs of visitors crowded the midway. A colorful spectacle greeted the eyes of fair-goers as they entered the grounds at the main gateway. Columbus day, a legal holiday, enabled patrons from all sections to attend.

All entries were in place and ready for inspection at an early hour, a fact which afforded added pleasure to first day visitors. Entering the grounds from the side gate, a new poultry building is noted. The cooping capacity in former years made it impossible to accommodate all who would exhibit and many entries were turned away because of inadequate room. The new building provides ample space and numerous entries have been made. This year the poultry show has received more local support and on the whole has proved a much greater success than in other years.

Much attention has been given this year to the cattle show and many entries have been refused because of lack of space. A new ruling has been made and no cattle are allowed on the grounds unless they have passed an official tuberculin test. The rules concerning this feature have been made more exacting each year, but the cattle show has reached a high standard consequently the ground assigned for this exhibit is filled.

The Warren Woolen company, Cyril Johnson Woolen company, Phoenix Woplen company, Rhode Island Worsted company, Riverside Woolen Mills, Stafford Worsted Mill, local manufacturers of woolen and worsted cloths and yarns, have very interesting exhibits of their products, which may be seen in the Manufacturers' booth in Exhibition hall. Smith & Cooley, B. Schwanda and Sons, and the Gardner Hall Jr., company, also have attractive displays of their various products.

The countless exhibits of fruit and vegetables under the able management of M. H. Parker of Mansfield show careful arrangement, and the crowds that frequent the hall prove that interest in farm produce is very keen.

The exhibitions of domestic arts and needlework in the main hall show excellent workmanship and are a source of much interest to the procession passing through this hall during the day. Mrs. Lena Holt is supervising this exhibit and has received many compliments for the careful arrangement and placing of the articles.

The stage and band stand have been rebuilt and numerous other improvements have been made about the grounds for the betterment of the free amusement features. The vaudeville committee, with Dr. C. B. Tschummi as chairman, has done superior work in securing the several acts of vaudeville which won hearty applause and excited continuous laughter on the part of the on-lookers. The Phunny Fhord, which chased its owner about the race track while emitting spurts of fire and streams of water, kept the occupants of the grandstand at concert pitch throughout the performance. A splendid exhibition of acrobatic stunts was provided by the three Marlettas.

The track is in excellent condition and the racing achieved unusual success this year. Because of the large number of horses entered for the 2.32 pace, it was necessary for race officials to make a division, with eight horses in the first division and nine in the second. Over one hundred and twenty-one horses are housed at the stables; this is an extra large number and the high purses offered for the various classes of pacers and trotters bring in some of the finest horses on the circuit.

The New Departure band of Bristol occupied the new band stand which is situated opposite the judges' tower and played popular numbers during the day.

Athletic events were scheduled for today and although little interest was shown by local athletes, several teams from outside the town took part in the events.

DANIELSON

PUTNAM MEN HANDED OVER TO RHODE ISLAND AUTHORITIES

(Special to The Bulletin)

DANIELSON, Oct. 12—Rhode Island officials will deal with Adelard Benoit, 42 Main street, Putnam, and Joseph Colus, also of that city, who were caught in the very act of ransacking a house they had broken into at North Foster, a few miles east of here, by Assistant Postmaster Earle F. Winslow of the Danielson office.

Mr. Winslow said today that in company with Mrs. Winslow, his son, Norman, and Mrs. George Merrill, all of Elmville, he drove down to an unoccupied house owned by Ezra Mathewson of Elmville and located in the northern section of the town of Foster to get some pie apples, with Mr. Mathewson's consent.

The house has been closed and the windows boarded up for a number of years, but has been left furnished. From time to time raiders have broken in and taken away valuable antique furniture and other antique articles, including a cradle coming down to Mr. Matthewson through a line of ancestors over a period of 250 years. Clothing and other things also have been carried away.

Having this in mind before he started from Elmville, Mr. Winslow took along a revolver he has not shot in years. Arriving at the Matthewson place, which is in a wild and isolated locality, he was surprised to find a car parked in the yard. Hurrying out of his machine, his revolver in hand, Mr. Winslow cornered Benoit and Colus inside the house. They had packed a large basket of curtains and clothing.

Mr. Winslow ordered them to throw up their hands and threatened to shoot them if they made a false move. They appeared too frightened to offer any resistance, however, and upon another order from Winslow, Benoit, owner of the car found in the yard, produced his operator's license, thus fixing his identity. Mr. Winslow then allowed them to go. Returning to Danielson he notified the state police and officers picked the wanted pair up in the town of Thompson a few hours later.

Mr. Winslow said that boards had been ripped off a window of the Matthewson place to allow of gaining entrance.

This afternoon the funeral of Miss Mary Hill was held at the Pentecostal church on Academy street, the pastor, Rev. A. E. Gallup officiated. The funeral congregation included a considerable number of the members of the church. Burial was in the Union cemetery yat Moosup. The bearers were George Baker, Kent A. Darble, George Miner and Frank Medbury. A. F. Wood was in charge of the arrangements.

A recent death at Pittsfield, Me., was that of Albert D. Janes, 66, for years a resident of this town and for a long time employed in what was then known as the Sayles mill at Elmville. For the past 21 years Mr. Janes had been superintendent of the American Woolen company plant at Pittsfield, Me. The body was brought to Putnam for burial in Grove street cemetery. Mr. Janes leaves his wife an a daughter, Evelyn, who is a teacher in a private school in Maine. Mrs. Earle F. Winslow of Elmville is a sister and a brother, Nelson Janes, is a resident of Chepachet.

More fishes were taken from the traps in Chase reservoir today by representatives of the state fish and game commission. The morning's haul produced about 200 fish, including a number of pickerel, some of them of the so-called grandfather size, perch and some wonderfully fine mud pout. These fish were at once transferred to Old Killingly pond. The traps remain in the Chase reservoir, from which about 1,600 fish have been taken this week, and the yield there is expected to be large notwithstanding all that have been removed. By order of the commissioner, some of the fish have been placed in Alexander's lake and one consignment in Hall's pond between Phoenixville and Chaplin.

This afternoon the entire force of the Windham County National bank here, the institution being closed in observance of Columbus day, motored to Fall River to attend at the First Baptist church this afternoon the marriage of Miss Maude Frances Martin of that city and Ernest Dyson of the clerical staff of the Windham County National bank. Following the wedding ceremony, which attracted a large number of the relatives and friends of the contracting couple, there was a reception in the parish house. After their wedding trip Mr. and Mrs. Dyson are to make their home in Danielson.

Representing the bank at the wedding were President and Mrs. Nathan D. Prince, Cashier and Mrs. F. E. Storer, Mr. and Mrs. J. G. Bailey, Mrs. Nellie Davis, Miss Dorothy Blake, Miss Myra Codding, Miss Blanche Lamoureux, Miss Ella Young, Mr. and Mrs. Raymond Allen and J. Leo Bodo.

There was what might be termed a sporadic display of flags along the sidewalks of Danielson today in observance of Columbus day. A stray one was to be seen here and there along Main street, while Center street was quite gay and pretty with its flag display. On the whole, however, the display was not as general as those who would honor the Great Discoverer had hoped it might be. A more general display of flags is looked for the next holiday, which will be Armistice day.

In spite of very unfavorable weather the service at the Goodyear church last Sunday was quite well attended. Rev. Charles A. Downs preached from Isa. 40:10 and spoke on Religious Fog. At the Sunday school session the class banner was awarded to the class of which Miss Vivian Converse is teacher, her class having had the best attendance during September. No frost having visited Goodyear up to the last week end, the church was supplied with a fine collection of dahlias for the Sunday service.

A minor automobile accident this morning at the Winkelman building in Main street, involved cars driven by J. H. Milligan and Doris Brook, both of Danielson. Mr. Milligan was pulling out from the curb, his car headed north, when the Brook car came along, also headed north. As the machines clicked a front fender on the Brook machine was damaged, the Milligan car escaping without any injury. Chief John McFarland checked up the accident.

Mr. and Mrs. Francis Jaegar and children of Lower Newton Falls, Mass., have been visitors here with Mr. Jaegar's parents, Mr. and Mrs. Francis Jaegar.

Miss Katherine Sullivan of Taunton was a visitor here today with her aunt, Miss Margaret Sullivan, of Academy street.

A marriage last Saturday by Rev. C. A. Downs at the Congregational parsonage in Goodyear was that of Miss Marie Hession and Frederick Beck, both of Danielson.

Cars owned by Fred LaBeau of Mechanic street and A. Robillard were considerably damaged last evening when they were in collision just as Mr. LaBeau was turning into the driveway at his home.

Among those who were at Rockingham, Mass., today to see the automobile races were Leonard P. Morrisson and Winthrop E. Short.

Ellery Eldridge enters the list of those reported killing a fox this early in the hunting season. Mr. Eldridge was out hunting squirrels and was resting for a time when the fox came along to offer himself up as a sacrifice.

Lieut. Ross V. Urquhart, in charge of the Danielson barracks of the state police department, and Mrs. Urquhart are away for a few days' vacation.

Sidney A. Weston, Ph.D., editor-in-chief of the Congregational Publishing society, is to speak here next Friday night at the first fall meeting of the Church School council of the federation. His subject will be The Church and Its Young People.

The Miami chamber of commerce is circularizing Danielson people with an interesting brochure setting forth the beauties and opportunities of that Florida city.

Miss Elizabeth Dunn is visiting in Norwich with Mrs. Eugene Vetter.

Miss Migonne Morin was a visitor in Providence today.

Duck hunters have been bringing in a number of birds, finding them in the coves along the rivers hereabouts and on the shores of ponds and lakes.

Gerard Gorman and his classmate at Assumption college, Claude Chalsson of Cambridge, Mass., spent today visiting with Mr. Gorman's parents, Mr. and Mrs. Frank Gorman.

AVOID UGLY PIMPLES

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take nightly for a week. See how much better you feel and look. 15c, 30c, 60c.

PUTNAM

PROF. McGOWN SPEAKS AT D. A. R. CHAPTER MEETING

(Special to The Bulletin)

PUTNAM, Oct. 12—The Elizabeth Porter Putnam chapter, D. A. R. held their first fall meeting at Odd Fellows' hall. After the usual opening business, Mrs. Emily Butler gave a very interesting talk on the state meeting held at Waterbury on ctober 7. An invitation from the Sarah Williams Danielson chapter to attend a meeting of that chapter on November 10th, when the state regent, Miss Katherine Nettleton and the state vice regent, Miss Emmeline Street, will be present, was accepted.

Mrs. Lucy Child, who had charge of the program, then introduced William E. Wheaton, who sang two solos, Thy Sentinel Am I (Watson) and The Kashmiri Song (Amy Woodfords Finden).

Prof. C. S. McGown, president of the International college at Springfield, was then presented as the speaker of the afternoon. He gave a most intertesting and instructive talk. He said that the aim of the college, aside from instruction in English, is to teach aliens who some to our country, reverence for our laws and to inspire them with love for our flag. The teachers, 18 in number, who work from 12 to 14 hours each day, are not chosen wholly for their teaching ability but as character builders.

The students themselves contribute $70,000 of the needed $100,000 required each year for the running expenses and the remaining $40,000 is the gift of friends and organizations, as there is but a small endowment fund. As there are at present 120 students from 14 to 50 years of age, representing 26 different nationalities, 30 of these being girls who have been working in the mills and are now fitting themselves for teaching Americanization to their own people. Professor McGowan stressed the importance of the work that is being down in the college and emphasized the need of exemplary living and the careful observance of our laws by American citizens.

At the close of the address, the chapter voted to give $50 to the college. A social hour followed and dainty refreshments were furnished by the hostesses with Mrs. H. L. Peases as chairman.

Leonard H. Healsy, the deputy commissioner of agriculture whose home is at Woodstock, on a recent visit here spoke very encouragingly of the prospects of this year's harvest prospects He said, the fine weather with its many days of bright sunshine, had been the means of saving many crops from the effects of the gloomy skies and the cold weather of the spring and summer months. The unfavorable weather of the spring and summer made the outlook very discouraging but for the fine weather for the past weeks.

The corn will yield much more than anyone would have predicted but for fine weather in September. The fruit, particularly the peaches have been greatly benefitted in ripening by the excellent weather. It is believed by many who take an interest in agricultural affairs, that farming as a business has a bright future in Connecticut. This belief is based on the improvement in the market for farm produce.

With the remarkable growth in the development of good roads rural communities are no longer isolated and by the extension of facilities for common school education, due to the commendable policy inaugurated by Dr. Meredith, commissioner of education, country boys and schools have practically the same educational advantages as their city cousins.

The school census, as announced by Superintendent Jenkins revealing an increased population in Putnam, is certainly gratifying and to not a few it proved a satisfactory disappointment. For Putnam to have held its own during the past year means that it has really forged ahead. With one exception every industry in the city is being operated to full capacity or overtime.

Although Columbus Day is not generally observed in Putnam as a legal holiday, many of Putnam citizens went into Massachusetts to spend the day. A number of local people motored to North Grafton to witness the air pageant at Whittall field, just beyond Worcester. Putnam banks were closed today but other business seemed to be going on as usual.

The 4-H club of Thompson has chosen Mrs. John Bates as their leader. Their next meeting will be held at the home of Mrs. Ronald Bernklow and each girl is to take a model lunch put up by herself. The lunches are to be numbered and eaten and then judged. This is Girl Scout week and the girls are to wear their uniforms at school and church.

For the first time in the history of the town of Eastford a woman was elected for the important position of town clerk and treasurer. Miss Florence Latham was chosen for that office. Grant Trowbridge, who has held he office for number of years, declined this year to again run and Miss Latham was elected.

Warren W. Averill has returned from a trip to Florida. He drove down to Petersburg, Florida with Arthur Grosvenor in the latter's car, leaving here three weeks ago. Mr. Grosvenor will remain during the winter. Mr. Averill made the return trip by boat to New York. He says the trip by boat was very delightful and the voyage not rough.

Mrs. Rose Brazilion of Church street has returned from a visit with her daughter, Mrs. Alex Lavalle at Sterling.

GOSHEN

Stephen Gorski had a painful accident Friday evening, while attending the Boys' club meeting. He fell in such a way as to dislocate his left elbow. Mr. Bushnell took him at once to a physician in Norwich. The boy was able to attend church service Sunday and the high school lessons this week. He is a first year student.

There was a good attendance especially of young people at the Sunday morning service. The sermon on Making a Life was interesting and inspiring.

The Community club meeting will be omitted this week on account of the invitations from Lebanon to attend the reception to the new pastor of the Congregational church, Rev. Mr. Vey.

The C. E. meeting Sunday evening was held at the home of Miss Clara Gillette, with Mr. Bushnell leader.

Mrs. Charles Hinskley entertained over the week end her cousin, Mrs. Hamilton, of Hartford, who returned home Monday.

PLAINFIELD

Miss Mary Mitchell, of Bristol, Ct. was a recent caller at the home of Miss Virginia LaBonne.

An interesting bet was made concerning the World Series baseball game. The two principals in the bet were Miss Estelle Salois and her uncle, Napoleon Jodoin. Mr. Jodoin picking the Pirates as winners and Miss Salois the Yanks. The wager was the winner should take two cents in a wheelbarrow to the loser and, the wheelbarrow was a child's. So Saturday afternoon Mr. Jodoin living at one end of the Old Village started pushing the wheelbarrow to Miss Salois' home at the other end of the village. Two youngsters joined in the parade one with a balloon and the other with a drum. The two cents was accepted by Miss Salois after the loser had given everyone a hearty laugh.

Misses Allard and Gudreau were automobile visitors in London Sunday.

Miss Alice Gudreau has resumed her duties in Lawton mill after several weeks' vacation.

It is a question if girls elsewhere took any more interest in the world series game as the Plainfield girls. Heavy bets were made by many of them. In one case there were eight girls for the Yanks and one for the Pirates.

An interesting thing happened in the Lawton mill during the series. The No. 1 slasher room including Mr Leathers for the Pirates were against the No. 1 drawing-in room girls, who took sides for the Yanks. There was a good deal of fun for all showing the girls were the better pickers.

Mrs. Beatrice Dubreuille of Danielson spent Sunday with her mother, Mrs. David Hebert.

A large addition is being built to the Bristol cottage at Groton Long Point, for L. L. Chapman, of Norwich.

Coast guard boat Cuhome was launched from the south ways after having her engines looked over and getting a boat of paint, with some carpenter work on the cabin. It will soon leave for sea duty around Block Island and New London.

At the railroad station is a carload of ice consigned to a local ice dealer who ran short, after a busy summer.

Durwood Main with his shut gun left home Tuesday for a day's hunting in the woods, near Center Groton. The leaves and bushes were so thick he did not think he would get a shot, but soon he saw a cock pheasant rise from the brush. Main brought it down and it weighed six pounds. This with no dog to help him out. Later in the day he scared a pheasant from its hiding place and with a quick shot he got that, too, all the law will allow in a single day. Young Main could have had another one but he reads the game book over and wants to stay within the law. He led all the other hunters of the village for a single day's shooting, for besides the two pheasants he had two partridges and four grey squirrels.

O. Jensen of Fisher's Island is home for a few days' visit.

Mr. and Mrs. Lewis Lamb and daughter of Fisher's Island spent the day in the village this week.

A dance held in Unity hall for the fire fighters of the village recently attracted a large crowd, as 225 dancing fans took up all space on the floor. Hanney's Noble four orchestra of Niantic gave them plenty of music. Floor manager Sam Carson had a surprise for them putting on a wild west dance prompted by Prof Connie Walker of East Lyme, starting a barrel of fun. John Ellis, tenor, during intermission, sang several songs while Metam Beebe played the piano. He was called back twice. A prize foxtrot was held and the judges gave the prizes to Miss Mildred Ferguson and partner, William Franklin.

Mr. and Mrs. Loren Park of Newark, N. J., are visiting in the village for a few days.

Two young men of the fishing village made a bet that Babe Ruth of the Yankees would make a home run in Pittsburgh, but he failed to please them. Rollin Rathbun and Mike Passi are the two men. If no home runs were made in the Smoky city Passi had to roll a Spanish peanut from the waiting room to the town dock. So Tuesday afternoon as the school bell rang for dismissal at 3.30, Passi started to pay his bet with his rival Rathbun there to see him go through with it. A crowd lined the sidewalks. He got under way and the peanut was on its way to the town dock with the loser rolling it and the school children following. The crowd cheered him as he passed by. It took him two hours and 30 minutes to pay his forfeit, but Big Mike said he did not mind paying the bet that way, but was some glad that Babe Ruth hit two home runs before the series was over. He thinks it was a dark day in Pittsburgh and Babe could not see the ball to drive it out of the park.

John Scroggins has resigned as painter with the Toney Passi Sign Co.

With white frost Tuesday morning and a cold wind, people got furnaces going to take the chill off and overcoats are taken from their cedar bags. The frost killed many flowers and the farmers said the pumpkins got touched.

SHIPS AND GOVERNMENT

When it is stated by Chairman O'Connor of the shipping board that the steamship line operating ships in the Mediterranean and Black seas had but three competitors when it took the fleet of nine, vessels over from the government but now has 16 competitors, he directs attention to the fact that the relinquishment of control by this government was a signal for other lines to begin operations to get the business which the American line was developing.

It was clear to the chairman that as long as the backing of the government was assured to the line there was no desire on the part of most of the other lines to compete with it. When, however, there seemed to be an ending of that backing the competitors were quick to seize their opportunity.

In fear that this may be the attitude to be displayed toward all lines that acquire vessels of the shipping board, Chairman O'Connor has declared that the government through the shipping board will stand back of the American merchant vessels engaged in foreign trade. That is taken to mean that even though government ownership has given way to private enterprise, the step which this country is so desirous of having taken, it will not mean a relinquishment of government interest and backing.

Just how this backing will be furnished and what it will consist of is not disclosed. It is perfectly evident that those exporting or importing goods can do much for the merchant marine by demanding that the goods be sent on American ships and yet it is also known that that may mean increased costs, since American ships find it difficult to meet foreign competition, and that it may also lend strong encouragement to retaliatory measures.

This is only one of the complications involved in getting the government out of the shipping business, and yet it throws light upon the handicap which American shipping suffers as the result of restrictions which made it impossible for it to compete with shipping interests of other countries. Starting the merchant marine was a much simpler problem than getting rid of it and yet keeping it under the American flag.

FLYING THE ATLANTIC

Once more attention is centered upon an attempt to fly across the Atlantic over a new and longer course, involving a greater stretch of water and for that reason increased hazards. Except for the longer water flight it differs in no particular from other flights that have been attempted, but from the fact that it will follow the steamship lane there will be an opportunity for possible reports as to progress being made or for assistance in case such becomes necessary.

In this attempt there is no assurance of perfect weather. In fact the aviators left in the face of reports that bad weather would be encountered, but hopes were entertained of being able to fly above fog or to avoid bad storms if everything goes well.

This is, however, another one of those instances where no provision has been made for alighting on the water if such should become necessary. It is hoped that nothing of the kind will be necessary but there is no telling what may happen. It is a chance which the fliers take when they insist upon using land planes for such flights, and in this instance suits that are supposed to keep them afloat are the chief reliance in case of trouble.

No one knows what caused those planes which have been lost to disappear. Out of the many attempts it is to be expected that there will be some who will succeed, whether it is by rare good luck or because of better machines or greater skill. If wishes counted none of them would be lost, but there are combinations of circumstances severe enough for all but not all alike on these trips which embrace decided elements of uncertainty even for the best. It is in the face of such knowledge that the last plane to depart has started for Europe.

EXTENDING THE QUOTA

The next session of congress will have much business before it. Many measures will receive attention and there will be many which will fall of action unless follows a much different policy than it has in the past.

Indications point strongly to the fact that efforts in behalf of further immigration restrictions will be made and attention will be centered upon greater restrictions for Canada and Mexico, although it may be made to include the countries of the western hemisphere.

At the present time there is very little in the way of restrictions. Those coming from the north or the south are not governed by quotas and the result is that the purposes of the immigration restrictions placed upon other countries are being defeated. This is shown by figures of the immigration bureau which show that where there was .6 per cent of our total immigration from Mexico during the first decade of this century the second decade showed 3.3 per cent and the present year 20.2 per cent.

Whether it is by way of Canada or Mexico it is well understood that there are serious difficulties standing in the way of keeping out those who are determined to get in in violation of the laws. They will have to be dealt with in some other manner than through quota restrictions. The way to put a stop to such smuggling is through the registration of all aliens, but when congress is asked in December to consider additional immigration restrictions the restraint of those who could register as desirable citizens will be sought from nations which now are not included in the quota regulations, and which it had been hoped would not have to be. We have had no desire to discriminate against our neighbors, but to allow a general crossing when ordinary immigration requirements can be met. But through the way in which our neighbors are serving as an aid to those who seek to disregard the quota law the need for increased restriction is emphasized and congress must give the matter the necessary attention.

SIMPLICITY AND UNIFORMITY

Uniformity is of great importance in eliminating confusion. If every one understands what the others are going to do he is prepared to act accordingly and there will be no misunderstandings.

It is therefore a commendable step that has been taken in calling a conference by the Pan-American union for the purpose of overcoming the obstacles which interrupt the smooth flow of commerce between American republics. The importance of this can be realized when it is understood that each country has its own consular procedure, so complicated and misunderstood at times as to stand in the way of the accomplishment of the very thing desired.

Secretary of State Kellogg in his advocacy of uniform consular procedure emphasized the point that such regulations should be reduced to a minimum and that they should be made as simple as possible. He set forth that "the purpose of the regulations should be, not to hinder trade, but to facilitate commerce, thereby promoting the expansion of industry and contributing to the wealth and prosperity of the nation. If in addition to thus simplying the requirements, a certain degree of uniformity could be reached in the consular practice and procedure of the 21 republics a marked step forward will have been taken."

The present conference will consider the merits of the suggestions advanced and will make its recommendations to the sixth international conference of American states to be held in Havana next January, but in view of the relationship of the American republics, the trade that is being carried on between them and the desire for an increase in that direction, the desirability of eliminating all possible handicaps, and particularly those which can be advantageously dispensed with ought to make an appeal which will result in favorable action. By getting together and considering the question across the table the proper method for the best understanding has been adopted.

SMITH AND VARE

In the last session of congress there was much ado about the seating of Senator-elect Smith of Illinois, who had been appointed by the governor of that state to fill out the unexpired term of Senator McKinley to whose seat for the full term he had been elected, and there was a disposition to take action looking to the exclusion of Senator-elect Vare of Pennsylvania because of charges of irregularities in the election.

These matters were not definitely settled in the senate except that Mr. Smith was not permitted to take his seat or even to be sworn in, but both will be seeking their seats when congress assembles in December. Since the last session adjourned there has been some change of sentiment among certain of the senators opposing the seating of these men, if reports from Washington are well founded. It is now indicated that they will be allowed to take their seats and that such action as may be taken against them because of election practices in their respective states will follow.

This change of sentiment would seem to be due to the fact that there has been a calmer consideration of the situation. It may not represent any more favorable sentiment in their behalf but a less radical attitude concerning the handling of their cases. It is recognized that the senate has a right under the Constitution to be the judge of the elections, returns and qualifications of its own members but the point has been raised that they are not members until they have been seated and the indications now point to the probability that different tactics will be employed by the opposition henceforth.

A SLIGHT ERROR

The river packet was negotiating the floating dock at Bartonville with a great splashing of paddle wheels. The water churned and boiled as the pilot alternately signaled for slow speed ahead and reverse. The deck hands stood ready at the bales of freight to be unloaded on the levee. Passengers on the upper deck waved and shouted hearty greetings to friends on the river bank. Finally the hawsers were made fast to the huge cement-imbedded ring bolts, the gang plank was thrown out and the passengers surged to the port side of the ship.

John Benton stood beneath the pilot house, cheerfully contemplating the scene of bustling activity. River travel had always fascinated him, and whenever it was feasible to do so he always made his trips to Bartonville on one of the smaller river steamers.

But this trip had been a matter of grave concern to John, for it marked the end of his incessant travels. He had secured the local agency for his firm and would now settle down in Bartonville to the staid and prosaic life of a business man. Then there was Beatrice. For several years he had paid court to Beatrice Allen, and three days ago had written her a long letter of proposal, asking her to meet him at the boat.

That same day he had dispatched another letter; a friendly little note to Annie Mason, the daughter of the widowed boarding-house keeper, asking her to have his old room ready for him. But his only thought now was for Beatrice and he was visibly agitated as he eagerly scanned the crowd for a glimpse of her. His searching gaze failed to reveal her, but suddenly he started and a look of intense consternation came over his face. For there, waiting near the foot of the gang plank, stood Annie.

For a moment he stood dazed. There could be but one answer to this situation. He had placed the letters in the wrong envelopes. Annie had received the proposal of marriage that he had intended for Beatrice, and she was there to meet him.

John was astounded as this revelation burst upon him. What should he do? He had no heart to face the waiting girl. He stumbled down the companionway to the lower deck while his mind groped frantically for a way out of the dilemma. He had no precedent to guide him, for never had he encountered such an embarrassing state of affairs.

He took refuge behind a stack of barrels while he deliberated upon the matter. He recoiled from the mere thought of facing the poor, deluded girl. Perhaps, if he could escape unseen, he could send her a letter and satisfactorily explain his error. But how to escape?

The feasibility of remaining on the boat until the next stop, 60 miles farther on, at first suggested itself to him. But his firm had urgent business here that required his attention, so the plan was rejected. Then he spied a fisherman's dinghy out in the middle of the river and conceived the idea of having the fisherman row him over to the opposite bank until the steamer passed on. He started wigwagging a signal to the fisherman but soon noted the baleful glare of a ship's officer upon him, so he desisted.

He was in a quandary, and began to despair of being able to escape unseen, when a burly deck hand brushed past him and thumped a heavy barrel almost on his toes. John was seized with a sudden inspiration. He turned to the sturdy laborer.

"Listen, my good man," he said. "There is a person standing near the gangplank that I wish to avoid. Now you are not averse to making some extra money, are you? See that empty barrel? I will crawl into it, you put it on your hand truck and wheel it over behind that shed on the bank. There's a $5 bill in it for you."

The man agreed and John squeezed himself painfully into the barrel. All went well until the deck hand reached the middle of the gangplank, for John chose that inopportune moment to ease his cramped position. The barrel shifted and threatened to roll off. The deck hand frantically sought to right it, and only succeeded in pushing it entirely from the truck. It rolled to the edge of the narrow gangplank where it balanced precariously for a instant, then toppled into the water with a resounding smack and a great splash.

John came to the surface sputtering and gasping, tried to shake the muddy water out of his eyes, and bumped his head violently against a piling. A million stars danced before his eyes, the universe grew black, a great hairy arm reached down and grasped him by the collar, and he knew no more.

When he again opened his eyes, but an hour later, he found himself in the cool white room of the small local hospital. An efficient nurse with the inevitable white cap was bending over him.

"You're perfectly alright now," she said. "Simply swallowed a little water and bumped your head, cutting your scalp slightly. But it's hardly more than a scratch. A little court plaster and you'll be all fixed up."

With this assurance she left the room, closing the door softly behind her. Then John became aware of the presence of another person in the room. He turned his head. There, seated in a chair beside his bed, was —Beatrice.

"Why, wh—wh——" John could only gasp.

Beatrice smiled sweetly.

"Don't excite yourself, dear," she said soothingly. "I got your letter and came to the boat to meet you."

She drew the letter from her purse and put it to her lips. He recognized it at once. It was the long letter of love and devotion that he had written her three days before.

"But —I thought—Annie was there and—" he babbled incoherently.

"Now, take it easy and rest, John dear," the girl said softly.

But there was no rest for John until he had given her his account of the whole affair.

"Why, you poor boy," she cried as he finished the narration. "I was right there near the landing all the time, sitting on our sedan waiting for you. And about Annie. Don't you know that she is engaged to the pilot and comes down to meet him every time the boat comes in?"

John closed his eyes and sighed happily, for the caresses that followed were ample recompense for the violent bump on the head and the sudden immersion.—Detroit News.

YOUR HEALTH

HARDENING ARTERIES COMMON DISEASE

By L. Winfield Kehn, M. D., New York Member Gorgas Memorial

Arteriosclerosis, or hardening of the arteries, is a common occurrence and has become a source of worry and concern to many individuals.

This condition is in reality a constitutional disease which manifests itself by local changes within the walls of the various arteries. These changes result from degeneration of the tissue itself and in consequence the walls become tough or fibrous in some instances and lime-like or calcified in others. At times both of these types of transformation may appear in the arteries of the same individual, and as a result the vessels will have changed in caliber and length.

Many views have been expressed regarding the causes of arteriosclerosis, but only few logical proofs are at hand. One factor that seems to play a certain and rather prominent role is that of heredity. It has been found that infants at times have arterial disease, and it is also believed that a certain number of people begin life with arteries that are potentially diseased or liable to an early degeneration. Certain diseases in the parents may contribute to the development of this condition within the children. A disease likely to have such a bearing upon the offspring is syphilis.

Severe or prolonged forms of infection or infectious diseases are believed to have some part in the induction of degenerative changes within the walls of the arteries. Sir Allbutt, a great British physician, believed that certain toxic substances, probably the result of incomplete intestinal digestion, were absorbed into the blood and so affected the nervous system which controlled the vessels of the peripheral portion of the circulatory system as to bring about a contraction of the caliber of the smaller branches. With a contraction in these portions of the arterial system there naturally results a slowing or poor circulation unless some compensatory mechanism is brought into play. This compensatory effort is supplied by the heart and larger blood vessels. The heart will beat more powerfully and the vessels will sooner or later evidence injury in the form of disease within their walls.

It is believed that other factors or diseases may predispose or induce the hardening of the arteries. Chief among these may be mentioned overeating, excessive drinking or smoking, undue mental strain, lead poisoning, gout, and diabetes. In the aged, the arteries harden despite the fact that no especially untoward symptoms manifest themselves.

Upon the localization of the hardening process will depend also the location of some of the symptoms complained of, although some general symptoms always develop in this condition. For instance, if the hardening processis most prominently confined to the extremities, symptoms referable to these parts may predominate; whereas if the condition affects mainly the arteries of the brain, such symptoms as characterize this locality will develop. In like manner if the process is most prominently confined certain abdominal type signs may assert themselves. If the arteries of a vital organ such as the heart, lungs, kidneys, and liver are prominently involved, certain pronounced or dangerous symptoms may arise. Where the vessels within the eyes are affected, blindness may follow as a result.

The symptoms in the main, however, are regarded as due to a disordered supply of blood to the body tissues. Some of the symptoms are dizziness, ringing in the ears, numbness and tingling of the hands and feet, worm-like sensations in the skin, mental irritability and failure in mental application. In many of the cases high blood pressure may be, though not necessarily, a prominent occurrence.

Hardening of the arteries may not as a condition, in itself, produce symptoms. Many individuals having this affection do not complain, but if such persons should acquire another disease process the prospects of complete recovery are most unfavorable. Those who are aware of the existence of arterial hardening and who in consequence practice precaution regarding their activities and indulgences will unquestionably prolong their existence.

IN DAY'S NEWS

UGANDA

"Uganda, where less than 50 years ago natives and wild animals roamed at will, seldom seen by the white man, now is an important source of Britain's cotton," says a bulletin from the Washington, D. C., headquarters ofthe National Geographic society.

"Hemmed in from the sea by Kenya colony on the east, the Anglo-Egyptian Suddan on the north, Lake Victoria and Tanganyika territory on the south, and the jungles of the Belgian Congo on the west, the protectorate, which is about twice the size of New York state, has become self supporting And 90 per cent of Uganda's exports are cotton.

"The cotton crop in 1905 yielded about 350 bales," says the bulletin. "Now more than 200,000 bales are produced annually. It is not the white population but the black, wooly-headed, flat-nosed natives who are the Uganda cotton 'barons.' There are about 1,700 white inhabitants among a total population of more than 3,000,000. Many of them are experts who operate experimental farms and instruct the natives in cotton culture. More than a half-million acres of cotton-growing land are tended by the tribesmen. In eastern Uganda where the best cotton is grown, native chiefs have large holdings. Their tribesmen take keen interest in small plantations, some of which are smaller than half an acre.

"The main outlet to the sea of the protectorate is through ports on Lake Victoria where lake boats transport freight to Kisumu, British East Africa, the western terminus of the Uganda railway that does not touch the land for which it was named. However, a branch line to the protectorate is now under construction. Mombasa, on the India nocean, at the eastern end of the railroad, is Uganda's seaport.

"Boats leaving Uganda, when not filled with cotton, transport coffee, para rubber, cocoa, sugar, bananas and elephant grass, used in the manufacture of paper also rattan canes, recently found suitable for the manufacture of furniture; tea and iron. A small quantity of tobacco and flax is grown and a small amount of gold and silver is mined.

"Where small native villages once stood, the traveler now sees prosperous towns. Entebbe, the capital, is a beautiful little town of bungalows surrounded by well kept lawns bordering wide streets, shaded from the tropical sun by huge trees. It occupies a peninsula almost surrounded by the blue water of Lake Victoria. Nearly every bungalow is a seaside cottage.

"The government house is a gabled bungalow overlooking the lake. Save for a little business carried on in the Indian bazaars and the arrival of lake boats at the pier twice a week, Entebbe is quiet. It suggests a summer resort rather than the seat of government of a large, prosperous colony. Although the capital is little more than a stone's throw from the Equator, its climate is not unpleasant. The thermometer reaches 115 degrees by day but the nights are cool, the mercury sometimes drooping as low as 50 degrees.

"Contrary to popular opinion that central Africa is jungle-bound, Uganda has a large network of roads linking up various trade centers. On the roads between important towns it is not uncommon to see natives riding bicycles and driving pleasure automomiles and motor trucks. And beside the road, modern steel plays are often seen turning the soil that only a few years ago had never been touched by anything but the crudest implements.

"A good road connects Entebbe with Kampala, Uganda's largest and oldest town. Kampala was occupied by the British in 1890. Now it has a population of about 70,000 natives, Indians and whites. There are seven hills in Kampala whose crests are occupied by the population while in the valleys are banana plantations and thriving gardens. The Nakasero hill is the government headquarters. Nearby the Mengo hill contains the residence and headquarters of the native king of Buganda and his principal chiefs. Buganda is the main province of several that make up the protectorate.

"Jinja, at the exit of the Nile from Lake Victoria, is one of Ugandn's chief ports. It is the southern terminus of the Busoga railway which parallels the Nile for 82 miles inland. The Ripon falls and miles of cataracts make the river unnavigable for a greater portion of its length in the protectorate. Motor trucks also connect the city with outlying districts so that Jinja is an important concentration point for shipping. The constant influx of goods for export keeps the town in a bustle. Cotton is its chief industry.

"From Jinja, one can see Mt. Elgon rising more than 14,000 feet. In Uganda it is surpassed in height only by Ruwenzori, on the western border, which is more than 2,000 feet higher.

"There are numerous tribes in Uganda but it is the Buganda natives with whom the traveler usually comes in contact. The forests of the west are inhabited by pygmies. Lions, leopards, monkeys, hippopotamuses and elephants are still to be found there. The Buganda natives are intelligent, and according to the missionaries, easy to convert. Unlike many African tribes, they do not severely mar or deform their bodies and have readily taken to dress.

"Both men and women usually wear a wide, cotton cloth, sometimes brightly colored, draped about their bodies from the shoulders to the knees. The cloth worn by a native may have been made from the raw product of his own plantation, after having been woven in the mills at Manchester, England. Tall, klumsily built and ugly, the men are brave, polite to travelers, and happy. The women, while not beautiful, usually wear a smile rather than the glum countenance of some of their neighboring sisters."

Little Talks on Thrift

THRIFT AMONG SCHOOL CHILDREN

It is well within the range of possibility that during the school year which has just opened, not far from 10,000,000 school children will receive instructions in thrift in one way or another. In 1926 Arthur H. Chamberlain, educational director of the American Society for Thrift, made a careful survey of this subject and as a result of his investigations reported to a conference of thrift workers in Philadelphia that the number of students who received thrift instructions during the school year of 1925-1926 was approximately 8,000,000.

At the rate with which the thrift-in-the-schools movement is now growing in popularity in all parts of the United States, it is not unlikely that a very considerable addition to the 8,000,000 will have been made during the present year.

When it is considered that the plan of adding thrift to the school cirriculum was not inaugurated until 1915 and that the work of the National committee on thrift education was, in its earlier stages, seriously interrupted by the war, remarkable progress has been made. As time goes on more definite courses of study will be developed and increasingly effective methods will be devised for impressing correct thrift concepts upon the young.

It should be kept in mind by those who are teaching thrift that saving is the first step but the correct use of possessions is equally essential. In the earlier school years children are, perhaps, too far removed from the practical experiences of life to appreciate the values of thrift in spending and investment. But long before school and college days are ended the youthful student is called upon to make decisions involving the use of money, time and resources.

Over-emphasis should never be made upon mere saving. Earning, saving and spending are factors of equal importance. This should be kept in mind at all times by those who are today teaching thrift to the boys and girls of our country.—American Society for Thrift.

CHILD TRAINING

WISE WATCHFULNESS

Mrs. Florence Milner

Hilma was just at the age when she could walk alone and, like all other children, enjoyed the independence of it. To indulge her in the new pleasure, her father took her to the park where there were no automobiles to dodge. But there were other difficulties to be encountered—curbs against which little feet might stumble, people to be passed without collision and deep holes to be avoided.

I had watched other people "taking care" of children about Hilma's age. Many of them would repeatedly seize the child by arm or garment, whichever came first, shouting, "Look out!" "Take care!" "There, I told you you'd fall if you went there! Just look at your clean dress, now. It's all covered with dirt! Aren't you ashamed?" "There! if you can't stand up alone, you'll have to keep hold of my hand all the time." And the poor child would be dragged along, resisting every step and trying to pull away.

Today one mother was fussing at her child's clothes every minute. "Here, let me pull up your stocking, Mary dear." But "Mary dear" had just sighted a brilliant yellow dandelion in the grass, and, in her haste to reach it before her mother's forceful hand could imprison her she fell on her face and was dragged to her feet and made to regard, ruefully, the grass stain on her white dress.

Two other children were frolicking happily on the grass, rolling about like two healthy puppies. "Children, don't do that; it isn't pretty. Sit up and play nicely together." They sat up obediently but, having no idea how to "play nicely," they sat primly looking at each other and, no doubt, wondered vaguely why what they had been doing wasn't "pretty" when it was such fun. I wondered, too.

"Come here, Henry," called another anxious mother. Henry left his digging in the sand regretfully. So far as I could see all the mother wanted was to brush back the stray lock that fell picturesquely over his moist forehead and to give his blouse a needless pull.

In happy contrast to all of these were Hilma and her father. He never uttered one single "don't," never touched her except when her hand crept trustfully into his own. But this father was more watchful of Hilma than any of the nagging parents were of their offspring. If she veered toward some unsuspected danger, he stepped between it and her, turning her toward safety as if of her own will. Once she stumbled and fell. Her father did not run to pick her up and stir her emotions with pity. He let her alone to manage a return to the upright which she did with no apparent exception of outside assistance. She was used to meeting her own personal difficulties alone.

And is there anything we older people desire more than to be let alone in the pursuit of our own innocent desires? We resent interference. Why should we expect our children to feel different? Don't for a moment think I am preaching against parental discipline and a definite exercising of authority when necessary. I am merely advocating less unnecessary interference. Many restraints and reproofs are of no importance whatever. A little added watchfulness such as Hilma's father gave, will avoid the need for many reproofs. A little restraint on the part of parents will eliminate many needless and irritating "do's" as well as "don't."

Stories That Recall Others

It Looks Cleanest

Walter, age two, was eating dinner one evening when his mother placed a plate of assorted black and white cakes before him and asked him which kind he wished.

"I want that washed one," he said.

Sixty Seconds' Worth

The family was hobnobbing around the dinner table and the Tunney-Dempsey fight was being discussed.

"Think of it" said the head of the family waving a half gnawed ear of corn, "Tunney got $550 each second of the fight."

For a moment the thoughtful circle pondered those words in silence, and then the younger brother sighed and shook his head hopelessly.

"Gee" he drawled as he wiped his greasy fingers on his napkin, "I'd like to live like that for just a minute."

So rapid has been the change in the English language that the English of today bears no more resemblance to the English of 1,000 years ago than it does to German.

LEGHORN CROSSES GOAL OF LAYING 300 EGGS

After sixteen years of egg laying trials at Storrs, a White Leghorn pullet has finally come through with a record of better than 300 eggs. Birds of other varieties in Storrs competitions have succeeded in making the 300-egg class, but not until this year has a Leghorn crossed the goal.

It is the No. 9 pullet in the high ranking Hollywood poultry farm entry that gains the distinction of being the first 300-egger trapped at Storrs. She laid egg number 300 last Saturday and then added one more for good measure on Sunday, the last day of the forty-ninth week. The contest management frankly admits that this high scoring pullet afforded not a few anxious moments, particularly last week. She finished September with a record of 297 eggs and appeared to be going strong despite the fact that feathers were being dropped rapidly. She missed the first two days in October, laid an egg on October third, skipped the fourth and added one more on the fifth, bringing the count to 299. She then skipped the next two days and it was feared that she was quitting cold when only one egg shy of the 300-egg mark. It now appears she was only taking a little extra time in preparation for the supreme effort, for her total was brought up to 301 eggs as the forty-ninth week closed. The production by months of this bird from the start of the contest through last month are November 22, December 27, January 27, February 24, March 30, April 30, May 30, June 30, July 25, August 23 and September 27.

Production dropped three points during the forty-ninth week, the contest flock laying 3,771 eggs or 37.8 per cent. This is 267 eggs less than last week but a gain of 570 eggs when compared with the production for the corresponding week a year ago. Up to last Sunday night a grand total of 250,096 eggs had been produced by the contest birds. This is an average of 1,786 eggs for each of the 140 competing pens, or an individual average of 178 eggs per bird.

White Leghorns monopolized the honor roll this week, taking every one of the four places. E. M. Johnson's entry from Waldoboro, Me., placed first with 55 eggs; Hollywood Poultry Farm from Woodinville, Wash., second with 49 eggs; the North Poultry Farm from McAlisterville, Pa., third with 47 eggs; and Broadview Farm from Winsted, Conn., fourth with 45 eggs.

SIX CHURCH CONFERENCE HELD IN PRESTON CITY

The Six Church conference was held on Wednesday at the Preston City Congregational church with nearly 150 present. In spite of the severe frost of Monday, the decorations of cosmos, dahlias, gladioli and asters with potted plants were very beautiful. The opening devotions were led by the pastor, Rev. George Clark, Rev. W. J. Reynolds offering prayer. After an anthem by the choir, Rev. Newell Whitman of Pachaug and Rev. William Prentiss of Plainfield received the collection. Mr. Clarke said that the church remembered the birthdays of its older members and that some of the flowers were to be taken to an aged member.

Dr. S. H. Howe of Norwich was to be the speaker of the morning, but illness prevented. Rev. Charles Reeves of Norwich preached a most scholarly and convincing sermon from John 12: 19. The Winsomeness of Jesus was his subject. He first considered the scope of his winsomeness, saying that it was a rare man or genius to command the sympathy and win the love of all classes of men in all lands. He cited prominent persons in all ages, beginning with Bible characters, down to the present time who all were so drawn to this wonderful Man, that their lives and work were and are guided by His precepts. Not only those who are lifted out of degradation, but people of pure hearts who under the inspiration of Jesus have seen the beauty of the King afar off. As the spirits of men have been brought into contact with the spirit of Jesus Christ they have sprung into life.

The benediction was pronounced by Rev. G. T. Goodenough. Dinner was served in the vestry of the church. Rev. Mr. Smith of the Preston City Baptist church asked the blessing.

The afternoon session was opened with Rev. D. C. Stone of Hanover in charge of the devotions, the singing led by James Royle of Plainfield. There were two addresses being furnished by Mrs. Allen Latham of Norwich on home and foreign missions. Miss Edith N. Bliss of Norwich had prepared a paper on Work among the Negroes, which was read by Miss Marshall of Norwich. The paper was along the line that Christian Education does save. Many of the Southern Mission schools were mentioned. Rev. Mr. Clarke sang The Man of Galilee. Miss Hannah M. Crowell of Norwich gave a talk on some of her experiences in India. She based her story on her trip to a place near Bombay, where Dr. Valle was in charge of the hospital, and she made very clear the strain of labor and time the missionary undergoes.

The report of the last meeting was read by the scribe, Mrs. E. H. Wilcox of Jewett City. The roll was called, the churches responding as follows: Jewett City 15; Hanover 14; Lisbon 6; Pachaug 7; Plainfield 15; Preston City 54; visitors 36.

Rev. Mr. Whitman offered a vote of thanks for the hospitality of the church, and of appreciation of the music. Short speeches on the subjects of the afternoon papers were made by Revs. G. F. Goodenough, Prentiss and Whitman. Miss Lucy Baldwin of Canterbury and Mrs. Harding of Franklin. It was voted that a note of sympathy and regret be sent by the scribe to Dr. Howe. The conference was closed by the pastor of the church.

NORWICH PASTOR HEADS COUNTY RELIGIOUS COUNCIL

Rev. Edward C. Dunbar, pastor of the First Baptist church, this city, was elected president of the New London County Council of Religious Education at the afternoon session of the annual meeting, held in the Second Congregational church, New London, on Wednesday. Other officers of the council were elected as follows:

Vice President—Edward P. Bunyan, Second Vice President—Rev. Charles E. Spaulding, D.D., New London.

Secretary—Mrs. Joseph A. Elder, New London.

Treasurer—Charles I. Smith, Norwich.

In an illuminating and absorbing address before 100 members of the New London County Council of Religious Education, gathered at the Second Congregational church in the morning, Prof. L. B. Patton of Hartford pointed out that even as the new science has given us a new universe so is scientific study of the Bible giving us a new Bible. By the inductive method as used in France, satisfying conclusions can be drawn.

Applying to the Bible as to any subject of study the questions, Where was this found and how did it come to us? Is it in its original form? What are its characteristics? What is its classification? What is its composition? What is its age? What is its value? It can be known and understood, he said. In illustration of his inductive method of study, Professor Patton showed a little clay tablet, dated 2200 B. C., bearing a Babylonian inscription. The tablet, which had been inscribed 100 years before the life of Abraham, was a receipt for the sale of some kettles. The tablet was passed among those present, each having the opportunity to examine it.

George Nesbit McCluskey of Hartford gave a fine talk on the growth of week-day religious education and the value of church schools during the summer months.

Rev. J. Harlow Graham of Norwich presided at the morning session, which opened at 10.45, with worship led by Rev. W. D. Hoag of Old Lyme.

At the afternoon session at which Walter A. Towne, former principal of Bulkeley school, presided, in the absence of Rev. J. Beveridge Lee, who was unable to attend the conference, Prof. James Percival Berkeley of Middletown spoke in place of Prof. A. W. Myers of Hartford.

HOLIDAY FIREWORKS START BLAZE IN MACOMBER HOUSE

(Special to The Bulletin)

WESTERLY, R. I., Oct. 12—Fireworks from the Columbus day celebration by local Italians on Westerly athletic field set fire to and burned a hole in the rear of the shingled roof of the three-story house of J. H. Macomber, 187 High street. Officer Curtin turned in the alarm from Box No. 67, High and Pierce streets, while Chief of Police Brown, regular and special officers kept back the heavy auto traffic for fire apparatus to pass. Fire Chief Egger and his men made short work of the blaze.

ITALIANS UNVEIL TWO FLAGS IN OBSERVANCE OF COLUMBUS DAY

Under the auspices of the Italian society of Terilizzosi th eclebration of Columbus day was carried out in the city Tuesday afternoon to honor the name of their great countryman who discovered the New World on Oct. 12, 1492, after a western voyage across the hitherto trackless Atlantic which he began by setting forth from Palos, Spain, on Friday, Aug. 3, of that year. The big feature of the celebration on Tuesday was the unveiling of two new flags, one an American and the other an Italian flag.

By invitation of the society in charge of the celebration they were joined in the parade and ceremonies by the United Italian societies, the laborers' union, representatives of the Knights of Columbus, Mayor Milo R. Waters, and members of the common council and Dr. Clarence G. Thompson. Mayor Waters, with Miss Marie Denicolo, was sponsor for the American flag and Dr. Thompson and Miss Rose Dipinto, for the Italian flag.

The ceremonies were inaugurated with a parade at 4 o'clock, which formed at the Majestic building on Water street, headed by the Columbus Italian band, the start of the parade being heralded by the explosion of several bombs which were set off on the Lake street playgrounds. From Water street the parade proceeded to the city hall, where Mayor Waters and the other guests in automobiles joined the line, which proceeded up Broadway and down Perkins avenue and McKinley avenue to the state armory where the ceremony of unveiling the flags was carried out upon the platform erected in the drill hall.

After remarks by Joseph Colasanto, president of the society, Mayor Waters, Dr. Thompson, Rev. John J. Reilly, and Jack Alligretti, the flags were unveiled by the two young ladies, were blessed by Rev. Father Reilly, and were christened by the two sponsors.

Refreshments were served and many donations were made by the audience towards the flag fund of the society.

Following the ceremonies at the armory, the parade escorted the mayor back to the city hall and the attendant societies back to the Majestic building where the parade dispersed after the Italian national anthem had been rendered by the band.

In the evening there was a dance at the armory with an attendance of about 600 who enjoyed the program provided by the Fort Wright Serenaders.

Arrangements for the observance were made by Cosmo Quarto as chairman and Michael Barbarossa as secretary of the committee for the day.

TALK ON RECREATION BEFORE WOMEN'S GROUP

R. C. Rice, who is in charge of the city's recreational work at New London, was the speaker here Wednesday evening before a meeting of the recreation study group of the Norwich Women's City club, which met in the club rooms at the Wauregan hotel. About 25 were in attendance.

The speaker was introduced by Mrs. Leonard Hough, chairman. At the beginning of his talk Mr. Rice referred to the influence of play which was seen in the lives of the youth of England, France and ancient Greece and he defined recreation as the employment of leisure time in pleasant and profitable ways. It is also a factor in education when it is an attempt to train the young to be optimistic and happy. Unless the recreation does prepare for a better adult life it is missing its chief end and to take up playgrounds and recreational activities just because they seem to be the thing to do is useless, he declared.

To cultivate habits of honesty, loyalty and sportsmanship, in short to turn out a better grade of boy and girl, are the aims of directed recreation and in this the teacher is the most important piece of apparatus on the playground. It is worth while to spend money for the future of our young people, he said, for a vigorous mental and physical equipment means a vigorous moral and spiritual nature. For one thing, he said, the playgrounds should not be merely a miniature Coney Island or be merely killing time for those who go to them. Playgrounds have no right to exist unless they are all they are supposed to be, but recreation is vital and no community can afford to be without it.

Mr. Rice answered a number of questions at the close of his talk.

BLUEFISH LEGAL LENGTH NOT LESS THAN 9 INCHES

The sale of bluefish less than nine inches in length is unlawful under an act adopted by the last session of the legislature. Superintendent John W. Titcomb of the fish and game department pointed out in a statement this week.

Attempts have been made in the state recently to sell undersize bluefish, according to the superintendent, and two dealers have been warned. It is the intention of the board to have the law strictly enforced, in order to save the bluefish, Mr. Titcomb said.

Superintendent Titcomb has found that fishing for snapper blues, the season for which is now nearing its end, has not been as good as last year. However, fishermen have caught a large number of bluefish up to four and a half pounds in weight, according to reports.

"The fish seem to take to almost any kind of bait," Superintendent Titcomb said Tuesday. "One or more anglers were successful in catching them by using a toothbrush handle with a hook wired to it; in fact, a number of lures such as the Dowagiac minnow were successfully used in catching these more mature bluefish."

NORWICH ELKS CONDUCT ENJOYABLE LADIES' NIGHT

Ladies' night on Wednesday evening which opened the social season for Norwich lodge of Elks proved a most delightful occasion with cards as the entertainment for the earlier part of the evening and dancing to close the program.

Tables for whist and bridge were arranged in the hall and the play continued till abiut 10 o'clock. The scorers were the Misses Alice White, Margaret Sample, Catherine Brennan and Theresa Portelance. Those receiving the beautiful prizes in whist were Mrs. P. H. Wilson, 36, Miss J. Pedace, 36 and Mrs. L. Carter, 30. At the bridge tables the prizes went to Mrs. John Bowne, 1781, Mrs. Fred Hermann, 1775, and Mrs. Morgan Cronin, 1744.

D'Atri's Wauregan hotel orchestra played for the dance program and refreshments were served under the direction of the committee, Daniel Driscoll, chairman, James T. Egan, John H. Wilson, James Pedace, Philip Malady, John P. Corcoran, Henry Bamber, Richard Quinn and Michael Guinan.

TAX PAYERS ARE SLOW FILING THEIR LISTS

With more than a third of the month of October gone, the assessors have received only a small proportion of the tax lists of property owners in the town which have to be turned in during October in order to avoid the ten per cent additions.

The three assessors, A. R. Manning, John B. Oat and Fred G. Prothero, can easily handle a greater number of lists than are now coming to them daily so that tax payers who want to get their lists in with the least delay when they appear at the office of the assessors can do so by using the time now instead of waiting until the last few days of the month.

LEBANON BOYS GOING TO NTL. DAIRY SHOW

The Lebanon dairy club will hold their monthly meeting Saturday at 8 p. m. The meeting will be held at Lyman Memorial high school. The club now has twenty-four members and with two exceptions every boy is expected to be on hand. The exceptions are Arnold Manning and Donald Cummings. These two boys are going to the national dairy show at Memphis, Tenn. Arnold is representing the 4-H club while Donald is going as a representative of the vocational agricultural team. This club is probably the only one in the state which is sending two of its members to do judging at the national dairy show. The Lebanon dairy club is proud of this achievement and is doubly proud of the boys.

FIRE CHIEF SPEAKS ON FIRE PREVENTION MEASURES

Chief Howard L. Stanton of the Norwich Fire department was the speaker at the weekly luncheon of the Norwich Rotary club at the Wauregan hotel on Wednesday noon. Chief Stanton, speaking on fire prevention, in connection with Fire Prevention week, told the Rotarians many interesting facts regarding fire losses, causes of fire and precautions that should be taken against fire.

In opening his talk Chief Stanton said that he would refrain from talking about cleaning up rubbish, use of matches and carelessness with cigarettes and cigars but would deal with other methods of fire prevention. He asked that wherever a person saw an automobile parked against a hydrant to notify the police for unless the car is moved there will be a considerable delay in making hose connections should a fire demand the use of that particular hydrant. Another that while not preventing fire will aid in keeping down the fire loss is the proper and prompt use of the fire alarm system. Every resident of the city should know just the location of the nearest fire alarm box and also should know how to send in an alarm. Every school child knows how to operate a fire alarm box but there are thousands of adults in the city who do not.

The telephone is a good means of notifying the department of a fire but it has its limitations. A person phoning about a fire often forgets to give the exact location or becomes confused and unintentionally gives the wrong information. When the box is used there is no mistaking the location and the number of pieces of apparatus to be sent to that box. After ringing an alarm the person should wait at the box to direct the firemen to the fire.

In speaking of the Norwich department Chief Stanton highly praised his men saying that every one of the men was true blue and that no other city had a better personnel than Norwich.

In the past 26 years Norwich has had only three real big fires, the Shannon building fire with a loss of $200,000 in 1900; the Chappell fire with a loss of $130,000 in 1911; and the paper mill fire at a loss of $140,000 in 1920. From 1914 to 1920 the average loss per year was $25,000, about 23 cents per capita, while that in the past five years amounted to $54,000 a year for a per capita loss of less than $2. During 1924 the loss here was $41,000, including that of $21,500 at the Thames River Line freight house, a fire of doubtful origin.

While speaking of the history of the department, the chief dated back to 1902 when there were 11 volunteer organizations here, working with an appropriation of about $10,000 a year. At that time there were about 32 boxes, while today there are 80, which in reality should be increased to 100.

"Before I retire," continued the speaker, "I hope to see a couple more urgent additions made here in Norwich." We need a city service truck, and a new fire house to take the place of the one on West Main street built in 1869. As a general rule our tools are equal to those in use in other cities.

Going into statistics Chief Stanton said that matches, cigars, cigarettes and other "smokes" started fires in 1926 causing a loss of $37,830,000. Defective chimneys and flues were responsible for $27,092,000 and stoves, furnaces, boilers and their pipes caused a loss of $25,521,000. Spontaneous ignition is given as the cause of fires costing $21,739,000 loss. Sparks on roofs destroyed $18,350,000 worth of property. Electricity and electrical appliances caused a loss of $18,961,000. Of all these fires 46 2-3 per cent. were due to carelessness with electric flatirons. Much of the remaining electrical loss was the result of improper wiring and overloading of circuits. In the past 50 years, while the increase in population has been 150 per cent. that of fire losses has been 620 per cent. In 1870 the fire loss averaged $19 a minute, today the figure is $1,066.

Over 60 per cent. of the number of fires take place in homes, which means a home fire for every four minutes. Each day of the year on the average, 5 schools, 5 churches, 15 hotels, 1 hospital, 4 warehouses, 96 farms, 6 department stores, 2 theatres, 8 public garages, 3 printing plants and 3 dry-goods stores are burning.

Chief Stanton was given a hearty vote of appreciation for his talk.

President C. A. Spear presided at the meeting and Charles L. Taylor had charge of the program. Ben Palmer was song leader and Johnny Egan was at the piano.

SIXTEEN CHURCHES UNITING FOR GIRLS' RALLY SUNDAY

All the Protestant churches will unite next Sunday evening, in a great union service in Trinity Methodist church when the special feature of the evening will be a girls' rally under the auspices of the Council of Girls' Workers. Girls from 16 Protestant churches will be present.

The programme for the evening will be as follows:

Processional, "Rejoice Ye Pure In Heart," No. 421, led by the girls' choir of the Methodist church in choir costume; prayer, Dorothy Buckley of the First Congregational church, Norwich Town; scripture, Marion Agnew of Park Congregational church; anthem, "Take All Your Cares to Jesus," Taftville Congregational girls; roll call, read by Doris Lund of the Third Baptist church, with scripture response by each church group; anthem, "Lift Every Voice," by the Mt. Calvary Baptist, Grace Baptist and A. M. E. Zion girls; talk, "The Challenge of Friendships in Our Home," by Dorothy Packer of the Central Baptist church; welcome and announcements by Miss Edith Ellis, vice president of the council; offertory anthem, "Now the Day is Over," by Marks, sung by the girls' choir of Trinity Methodist church; hymn, "Blest Be the Tie That Binds," by the congregation; talk, "The Challenge of Friendships in Our Community," by Evelyn Wheeler of Trinity Methodist church; hymn dramatization "The Larger Prayer," by the Universalist Girls"; talk, "The Challenge of Friendships in the World or Our Day," by Olive Rathbun of the First Baptist church. Benediction, "May the Grace of Christ Our Saviour" sung by the Trinity Methodist girls' choir.

The ushers for the occasion will be furnished by the Norwich Town Methodist church, Beulah Rogers, Ruth Lathrop and Effie Ladd, and the Greeneville Congregational church, Esther Chapman, Helen Sutthill, Bertha Wallace and Elizabeth Buchanan.

The service will be held at 7.30 in the Methodist church and the girls are to meet in the Sunday school rooms where they will form in line for the processional.

SCANT PARKING SPACE NOW AT YALE BOWL

A problem will be presented to motorist patrons of several of the big football games at Yale bowl this year when parking space will be available near the field for only 4,000 of the 30,000 or more automobiles expected to come into New Haven. Owing to the construction of the Walter Camp Memorial, a new gymnasium and playing fields the parking space of former years has been materially reduced. Many private parking grounds have also given way to recent real estate developments.

Because of this situation local authorities in charge of traffic urge that as many patrons as possible come to the city by train, or arrange in advance for parking facilities away from the vicinity of the bowl.

Normal traffic through the main arteries of New Haven averages about 14,000 vehicles during a busy 12-hour period. Actual count showed that on the day of the Army-Yale game last year, during a corresponding period, approximately 50,000 vehicles passed along the same lanes of traffic.

The same abnormal traffic conditions as in other years, on the days of the big games, are expected along the main state highways. Approximately one-sixth as many pleasure cars as are registered in the state will be added to the usual traffic. A large proportion of these cars will come from out-of-state points. To meet conditions the state motor vehicle, highway and police departments have made arrangements with the Yale Athletic association, the Connecticut company, the New Haven and West Haven police, and the New Haven Automobile club to direct traffic in an orderly fashion.

Traffic direction at the New Haven line will be taken over by the New Haven authorities mentioned. Intracity routes will be the same as in other years except for one important change. Because of the highway construction the Forest street route, near the Milford turnpike, direct to the bowl, will be closed. A new routing has been arranged for traffic from the direction of New York. Such traffic, which follows the route from Washington bridge at Devon to Milford and along the Milford turnpike will be directed to Fairlea Farms road and thence to Clark's Corners and Derby pike direct to the bowl. Adequate signs will be posted in all parts of the city.

The state highway department has so arranged its trunk line work as to expedite traffic on the main routes to New Haven. Every available state policeman has been assigned to highway traffic duty for the days of the most important games, and men will be posted at dangerous locations, and recommendations of the motor vehicular department are to be carried out.

In addition to the New York route the following main routes to New Haven are recommended by the highway department:

No. 1 Hartford route (in good condition)—Enters New Haven by the way of North Haven, where traffic is split, one route continuing into the city by way of Middletown avenue and the other by turning to the right at North Haven Center into State street and thence to the right into Dixwell avenue.

No. 2. New London route (in good condition.)—Enters by the way of Cheshire, Mt. Carmel and Centerville, Whitney avenue, Putnam street and Dixwell avenue.

The following information concerning the condition of other routes has also been prepared by the highway department:

Boston Post road. Route No. 1—Traffic is subjected to and will be for the next three weeks, to a slight delay at the Peat Swamp construction job in Norwalk. This is the only place on the Post road where there is any forced delay.

Route No. 32—From the upper end of the Kensico reservoir into Armonk, about two miles is being reconstructed with concrete and travel along this road is very rough and considerably delayed. This piece of road can be detoured by going through Chappaqua to Bedford thence taking the direct road through South Salem to Ridgefield. An extra half hour should be allowed fro this detour.

Webster, Mass., Route 12—Putnam bridge over Prentice brook is under construction, open to traffic.

Other routes in good condition are: Bear Mountain-Peekskill-Brewster road into Danbury; West Gloucester, R. I., Route 101; South Killingly, Route 3; Oneco, Route 102; Agawam, Mass., Route 110; Somers, Route 103; Wales, Mass., Route 32; Union, Route 149; College highway Route 116.

OBSERVATION BUSSES BEGIN RUNNING THROUGH NORWICH

Two of the new parlor observation motor busses of the New England Transportation company will today (Thursday) begin running through Norwich, carrying out the company's plan to provide a more attractive service between Hartford and New London, via Willimantic and Norwich.

These coaches, which have recently been placed in operation on the New England line between Boston and New York and between Hartford and Springfield represent the very latest type in bus construction and have met with instant approval from the traveling public. Called a parlor observation coach this new vehicle has an elevated observation compartment at the rear in which 17 passengers may relax in comfort and enjoy the scenery without the discomfort of noise or dust, being some six feet above the road, perfect vision is afforded. A further feature which meets with distinct approval of travelers is the special baggage compartment below the observation deck which is dust-proof and weather-tight and precludes any possibility of soiling or injuring baggage on account of inclement weather.

These coaches will leave the New London and Norwich railroad stations northbound and the Bondmore Terminal at the corner of High and Allyn streets in Hartford operating through between Hartford and New London as well as covering practically all of the local schedules between New London and Norwich.

FATE OF "KIKI" CUYLER IS SUBJECT OF DISCUSSION IN "STOVE LEAGUE"

NEW YORK, Oct. 12—(AP)—The 1927-28 sessions of baseball's "hot stove league" may not develop as startling food for winter fans as last year, but there are already a number of shifts in prospect to enliven the off-season.

The fate of Kiki Cuyler, Pirate outfield star who warmed the bench during world's series, has aroused especially keen speculation on the assumption that Pittsburgh, for reasons best known to its own officials, will not keep him another year.

Cincinnati and Brooklyn are most often mentioned as likely to get Cuyler while Chicago fans have organized a "we-want-Kiki-Cuyler club" to influence an effort by the Cubs to obtain the Pirate star. Baseball men, however, do not expect the Pirates to let Cuyler go to the Cubs, Giants or Cardinals and thus strengthen the three teams which gave Pittsburgh the hottest chase for this year's pennant.

Cincinnati, it is suggested, might trade George Kelly, first baseman, and a pitcher for Cuyler, since the illness of Joe Harris this season may prevent him from being a regular again for the Pirates next year. Brooklyn has an excellent collection of pitching talent, which might interest the Pirates in any talk of trade, but the Robins need such twirlers as Vance, Petty and Doak as badly as they do outfielders.

Connie Mack already has released Zach Wheat, veteran outfielder and former National league star, unconditionally and there is a question whether Ty Cobb will be back on the job for the Athletics in 1928.

The size of Cobb's salary, variously estimated at from $40,000 to $60,000 for 1927, is understood to be an item which may influence the Athletics against re-engaging the famous Georgian. Before the start of this season, Cobb declared he wanted to have one more good year and then retire. He accomplished this purpose, most observers agree, but whether Ty really intends to put his spiked shoes away is something else. The game may still call him.

General re-organization of the St. Louis Browns and the Cleveland Indians is in prospect, with the latter club likely to change ownership. Phil Ball, Brown owner, announced some time ago a "housecleaning" would be made and that even George Sisler, crack first baseman, wasn't exempt from a shake-up. This prompted reports that Connie Mack might seek the former Michigan star. Jack McCallister is not expected to remain as Cleveland's manager another year. Tris Speaker, who is unlikely to wear a Washington uniform again, is talked of as McCallister's successor.

In the National league, Boston, Philadelphia and Brooklyn all are in the market for new material. It would not be surprising to see these teams figure in drastic shifts aimed at making them stronger contenders in 1928. The strength of the other five clubs in the senior circuit was pretty well established this season but the Giants still are looking for catchers and an outfielder or two and the Cubs an outfielder and an infielder or two.

Virtually all of the American league outfits, except the champion Yankees, are on the lookout for new strength and even the New Yorkers are not likely to turn down any good recruit prospects or advantageous deals.

HARTZ'S FIRST ACCIDENT IN A SPEEDWAY CONTEST

INDIANAPOLIS, Ind., Oct. 12—(AP)—The accident in which Harry Hartz, Los Angeles automobile racing driver, was injured today when he lost control of his machine as he was attempting to pass Frank Lockhart in the Columbus day sweepstakes race at Salem, N. H., was Hartz's first mishap in a speedway event. He has been prominent in the sport since 1922.

The Californian was known as a fearless but cautious driver. He was A. A. A. driving champion last year, when he won $71,700 in cash and many trophies. Hartz made his debut as a driver here in 1922, finishing second in the 500 mile race.

He duplicated the feat in 1923 and 1926. He has participated in six speedway events here, finishing fourth in the 1924 and 1925 races. Hartz was forced out of the running early in the 500 mile race this year, the only time he failed to finish.

Hartz was married shortly after the 1926 speedway race at the Indianapolis motor speedway. He started his racing career in 1919 as a mechanic for Eddie Hearne, veteran driver, but began driving for himself in 1921. He holds the 300 mile record, made at Atlantic City, May 1, 1926, at 134.901 miles an hour.

PORTO RICO COMMISSION TO JOIN NATIONAL BODY

NEW YORK, Oct. 12—(AP)—The Porto Rico boxing commission has become affiliated with the National Boxing association and will regulate the sport in that country according to the regulations of the parent body, Thomas Donohue, president of the National Boxing association, announced today.

Addition of Porto Rico to the N. B. A. swells the total of foreign members to four in addition to France, which has a working agreement with the association. Canada, Mexico and Cuba complete the roll that includes the boxing associations of 24 states in this country.

Porto Rico will be represented in the association for the first time next Sunday at the opening of the annual three day N. B. A. convention in Toledo, Ohio.

President Donohue also announced that Billy Kennedy, New Orleans lightweight, had been suspended indefinitely by the association for failure to fulfill a contract to fight at New Haven, Connecticut, last Monday night.

GENEVA BEATS BOSTON COLLEGE TEAM 13 TO 0

BOSTON, Oct. 12—(AP)—Bo McMillan's Geneva college eleven today defeated Boston college by the score of 13 to 0 before a holiday crowd of 20,000. The two elevens fought doggedly throughout the game with the Pennsylvania team displaying superior football.

Geneva's first score came in the second period when Flenniken hurled a 25 yard forward pass to Schachern who ran five yards across the line. The kick failed. In the third period Flenniken tallied another touchdown after a thirty yard run through a broken field. Schachern kicked the goal.

VARIED SUCCESS MARKS WEDNESDAY'S GRID PRACTICE

NEW YORK, Oct. 12.—(AP)—Varying degrees of success marked the work of varsity elevens today as they pounded away in scrimmage in preparation for their roles in Saturday's busy schedule.

Yale, Princeton and the Army were held to one touchdown each in their tussels with second teams, while in the Harvard camp a fighting varsity, trying to unearth a scoring punch for the Holy Cross contest, rushed the ball up and down the field to score three touchdowns against a team of ineligible players.

Some of the squads worked in adverse weather conditions. Coach Bill Ingram at the Navy welcomed a high wind and rainfall as it gave his players opportunity to show what they can do in handling a slippery ball, carried along in cross currents. A tentative lineup was issued for the Middies' game against Notre Dame.

The powerful Lafayette team concluded its work for the West Virginia game with a stiff workout in which several players were shifted about in various positions. Dartmouth worked until dark set in, trying out a set of plans and perfecting a forward pass attack. Only one change in the lineup was made by Bill Roper at Princeton, but two regulars were missing from the Yale team, due to minor injuries. Two stars of other years took positions with the second team to test out Penn's line for the game with Penn State.

Columbia and Colgate both went through a long drill for their important clash and Syracuse worked behind locked gates for the Georgetown encounter.

ILLNESS GIVES NORTHWESTERN A SEVERE SETBACK

CHICAGO, Oct. 12—(AP)—Northwestern's hopes of getting revenge on Ohio state next Saturday for the defeat which robbed the Purple of the Big Ten conference football championship in 1916, when last they met, were somewhat blighted today by a sally of grippe, which sent "Tiny" Lewis, the dependable, hard-smashing fullback, to the hospital, making his participation in the important game at Columbus doubtful.

The Northwestern squad, hampered like most all others in the conference by rain, snapped through a dummy scrimmage today. The squad will leave tomorrow night for Columbus.

Michigan also was hit today when it was announced that Harrigan, tackle, may be forced out of the Wisconsin game Saturday because of a bad ankle. The Wolverines spent most of today's practice session in polishing up their feared forward passing attack.

But Coach Glenn Thistlewaite and his Badgers are loading up with a bag full of tricks to stop this aerial attack. All the Wisconsin "cripples" are expected back in the lineup by Saturday and the Badger boosters expect their favorites to break the Michigan string of victories over Wisconsin, which now has extended over a quarter of a century.

TAFTVILLE TO CLAIM TITLE IF THEY WIN

The Martaffs of Taftville will claim the Connecticut and possibly the New England semi-pro baseball title if they win from the Riverview club on Sunday afternoon. Riverview is now claimant of the state title and recently defeated Moosup in a series billed to be for the New England title. Manager Troland is apparently set on copping the game to give him the claim for the title as it was reported last night that there is a possibility of two big league players appearing in his lineup on Sunday. He is waiting to hear from them and will make an announcement on Friday morning.

The Taftville manager is apparently afraid that Riverview has something up their collective sleeves to spring at the last moment. Manager Troland claims that he believes that Riverview will put a real ball club on the field Sunday and he is going to take no chances of letting them put something over on him. However Norwich fans will know more about the game Friday.

YALE HAS DIFFICULTY IN BEATING SCRUBS

NEW HAVEN, Oct. 12—(AP)—With two regulars out of the lineup, the Yale varsity today had difficulty in registering a single touchdown against the scrubs in the first secret practice of the year. Bill Hammersley, substitute halfback, scored on a 15 yard end run.

Earl Goodwine went in to give Bruce Caldwell, brilliant halfback, a day's rest, while Ralph Minor played at guard while Firpo Greene nursed a charley horse. Both Caldwell and Greene are expected to play against Brown's "Iron Men" Saturday in the bowl.

Today's was the second hard workout of the week, in an effort to correct the offensive weakness which the Bulldog has been exhibiting after he has gotten in the shadow of the enemy's goal. How long the secret practices would continue was not announced.

Sets New Track Mark

LAUREL RACE TRACK, Md., Oct. 12.—(AP)—The Dorwood stables' Elder established a new track record here today, covering two miles in 4:04 3-5 to win the Chevy Chase steeplechase, today's feature. El Bart fixed the old mark of 4:05 in 1913. Elder, with Charlie Mergler up, caught Freden Rock at the far turn and won running away.

ACCIDENT TO HARRY HARTZ CURTAILS ROCKINGHAM RACES

ROCKINGHAM Speedway, Salem, N. H., Oct. 12—(AP)—A spectacular crash that set fire to the speedway and sent one of America's leading automobile race drivers to a hospital with serious injuries today forced a halt in the 200 mile Columbus day sweepstakes here and substitution of the incompleted race and a 75 mile dash as a means of determining prize winners and championship points scorers.

The accident occurred on the 52nd lap of the scheduled 200 mile grind when Harry Hartz, attempting to snatch the lead from youthful Frank Lockhart by a terrific dash directly in front of the grand stand, lost control of his car while traveling at a 126-mile an hour clip. The machine skidded crazily down the boards to the dirt, overturning once and hurling Hartz a distance of 35 feet.

Bursting into flames the car bounced back onto the track and rolled over four more times, starting four fires along the infield rail. While the ambulance crew, pit mechanics and the track fire apparatus started for the injured man and the fire, chemicals on the flames threw dense clouds of black smoke across the track, blinding the rest of the flying field, race officials hastily flagged the drivers off the boards to prevent another crash.

Hartz was conscious when he reached the field hospital and later was removed to the Lawrence General hospital where it was said he had suffered a deep gash in his head and a broken leg. His condition, while said to be serious, was not regarded as critical.

After a hasty conference with other officials, Referee A. T. Hart decided to call the race a contest, allowing the drivers to "place" in the order in which they were driving when the starter's warning flag halted the race, and to stage another race of 75 miles, splitting the total cash prizes of $25,000 and A. A. A. championship points among the place winners of the two races.

The decision gave Lockhart first place, Hartz second, Peter Depaolo, present champion point leader, third, Babe Stapp, fourth, and Cliff Woodbury, fifth. Five of the fifteen starters had been forced off the track when the halt was called, four because of engine trouble and Dave Burns because of something in his eye, which sent him to the pits twice before the eye became too badly inflamed to permit him to continue.

The 75 mile race, started as soon as the track was cleared, proved a walkaway for Lockhart, who led all the way, finishing in 35 minutes 31.19 seconds. The race adage that an accident slows up the field, failed to hinder Lockhart who sent his machine around at an average of from 126 to 130 miles an hour. Babe Stapp, driving in the ruck until six laps from the finish, passed four cars in as many laps to gain third place and then brushed past Depaolo to finish second, a quarter of a lap behind the leaders. Depaolo was third, 50 yards behind, with his protege, Tony Guiotta just behind in fourth place.

Two 10 mile sprints which preceded what was to have been the 200 mile race were won by Hartz and Woodbury. Hartz finished in 5:12.45 and Woodbury in 5:14. Peter Kreis was second and Frank Elliott third to Hartz, while Lockhart and Depaolo were runners up to Woodbury. Immediately after the 75 mile race officials began the arduous task of figuring the division of cash prices and championship points.

ATTRACTIVE BOXING CARD AT NEW LONDON WEDNESDAY

Next Wednesday evening at the Lyceum theatre in New London a very attractive card of 10 rounds of boxing has been arranged for the benefit of Prince Post, American Legion. The main bout brings together Bobby Mays, New England lightweight champion, of New London and Ralph Landis of Brooklyn in ten rounds of fast milling. Bobby Mays demonstrated his toughness the other night in New Haven when after boxing 12 rounds in a workout earlier in the day he went to New Haven and fought ten more rounds as a substitute and won the decision. Landis is a rugged boy who is forging to the front in the Metropolitan rings.

Mickey Genaro of Meriden and Kid Wagner of New London are down for the eight round semi-final. Young Pecheeni and Young BeLizzie, both Norwich boys, will fight in the six rounder which will attract wide local interest. The curtain raiser will be between Jimmy Gerl of the U. S. S. Tucker and Kid Raymond of the Coast Guards.

GUTTA BALL TRIUMPHS IN SPECIAL MATCH

WOKING, England, Oct. 12.—(AP)—The old fashioned gutta golf ball scored over the modern rubber-core ball in an unusual golf match played here today.

A team of leading British amateurs and professionals which included Cyril Tolley, Robt Wethered, Robert Harris, Charles Hezlet, J. H. Taylor and Elander Herd, used the old fashion ball against a team of four handicapped players with modern golf balls.

After halving the singles, the gutta team won the foresome, 3 to 1, the others being halved. It was estimated for the purposes of the match that the modern ball gave an advantage of four strokes a round. Tolley, Ted Ray and other long hitters were more than held by their opponents who used the modern ball.

BAN JOHNSON TO YIELD THRONE IN AMERICAN LEAGUE ON NEXT MONDAY

CHICAGO, Oct. 12—(AP)—President Ban Johnson of the American league tonight entered the stretch run of his career as a baseball power after serving the league 27 years.

The retiring president called a meeting of his board of directors for Chicago next Monday when the affairs of the league will be presented to them preparatory to his surrending of office at that time. All the records and financial affairs have been checked and audited so as to present a complete record of transactions that have taken place since the one time czar of organized baseball took up his duties in 1900.

The directors are Frank J. Navin, of the Detroit club; Clark Griffith of Washington; Phil Ball of St. Louis, and Ben Shibe of Philadelphia.

President Johnson said that he intended surrendering the affairs of the league without waiting until November 1, the date his resignation was to become effective. He did not give any intimation who would succeed him, declaring he had no knowledge whatever of the club owners' intention.

Rumblings within the circuit, however, indicate that E. S. Barnard, president of the Cleveland club, is the choice of the club owners and that his election will be announced when President Johnson's term of office expires. The headquarters will be maintained in Chicago.

"I hope my successor will be a strong man for the good of the league," President Johnson said, "without one the league can easily go on the rocks. A rubber stamp resident will be a mistake. He must rule with an iron hand without regard for friendship or factions."

President Johnson, peering into the baseball future, can see no signs of waning interest, but he feels that the sources of baseball supply are drying up and that new schools for baseball development must spring up.

BOSTONIAN WINS COLUMBUS DAY FEATURE AT LAUREL

NEW YORK, Oct. 12—(AP)—H. P. Whitney's Bostonian with Jockey Workman in the saddle, today accounted for the Columbus day handicap feature of Laurel's program. Canter finished second, two and one-half lengths ahead of Dolan. Five went to the post for the mile and one-eighth race. As the barrier lifted Joy Smoke wheeled and was left at the post.

It was a neck and neck run all the way around, Canter leading by a head, in front of Bostonian, until 20 yards from the finish, where their positions changed as Bostonian got a wider stride and beat Canter by the same margin, a head. Dolan was in third position all the way. The track was sloppy and the time was 1:54 2-5.

Ariel galloped home with the Columbus day feature at Jamaica, doing six furlongs in 1:12 2-5. Sortie was second and Nusakan third.

Hawthorne's six-furlong event for all ages went to May Cooper, with Jack Alexander beating out Gotham for the place. The time was 1:18 3-5.

Guest captured the fourth race for two year olds at Thorndliffe, with Partake second and Ellen O third. The time for the six furlongs was 1:16 4-5. There were 11 starters.

A $5,000 purse offered in the Pierpont Handicap at Jamaica went to Kentucky II, with Jockey Laverne Fator in the saddle. Cloudland beat out Cherry Pier for the place. The mile and one-eighth was run in 1:51. Display, Nimba and Light Carbine also ran.

PRINCETON WEEKLY OUT AGAINST ALUMNI GAME

PRINCETON, N. J., Oct. 12.—(AP)—The Princeton Alumni weekly in an editorial which will appear in tomorrow's issue will say that the scheduled football contest between Princeton and Harvard alumni in New York on October 30 cannot be considered a Harvard-Princeton game.

The editorial deplores the publicity given the affair, saying that the comment is out of proportion to its importance and the probability of the game being played.

"Interesting though it might be to watch one-time gridiron stars of the two colleges in action once more," it says, "any contest they might play would not be an intercollegiate contest neither would it be a Harvard-Princeton game. Indeed, it would not even be a game between a Harvard alumni eleven and a Princeton alumni eleven, but would be instead a game between eleven Harvard alumni and eleven Princeton alumni."

The assertion that the Princeton alumni is in accord with the athletic authorities in the severance of relations between the universities last year is made and belief expressed that the question is looked upon as "a closed matter and offe properly so despite the hope of those responsible for the projected football game that it might tend to better the Harvard-Princeton situation."

ALL-MASS. BACKFIELD FOR DARTMOUTH TEAM

HANOVER, N. H., Oct. 12.—(AP)—An All-Massachusetts backfield will represent the big Green against Temple next Saturday according to plans followed out here today by Coach Jesse Hawley as he put the Dartmouth team through signal and forward passing practice until dark. Captain MacPhail, A. Masters and Harold Hamm, all from Arlington; and Myles Lane, of Melrose, will carry the pigskin against the "Quaker" invaders unless some accident prevents.

The signal drill and intensive work on their overhead game kept the Dartmouth team plugging until dusk hid the ball.

Brown Has Only a Short Drill.

PROVIDENCE, Oct. 12.—(AP)—Coach Laughrey eased up on his Brown football team today for the first time this week and the men went through a short drill that consisted only of signals, passing and kicking, with a short offensive scrimmage. The same team that opened against Penn went through the drill intact and there is every indication that they will start against Yale Saturday. Don Kelly, the Cleveland sophomore, was shifted from end to guard on the B team.

HOLY CROSS TEAM HOLDS FIRST SECRET PRACTICE

WORCESTER, Mass., Oct. 12.—(AP)—Holy Cross football team had its first secret practice today as the team prepared its plays and formations for the Harvard game Saturday. The Purple worked out in the morning to enable the squad to attend the Boston college and Geneva game in the hub in the afternoon. Routine work marked the beginning of the practice after which elevens were formed for a snappy signal drill. Head Coach Cleo O'Donnell, Backfield Coach Joe Fitzgerald, and Line Coach Luke Kelley concentrated on the first team while Bunny Corcoran worked with the second eleven.

HARVARD MORE OPTIMISTIC AFTER SECRET PRACTICE

CAMBRIDGE, Mass., Oct. 12.—(AP)—More optimistic reports trickled out from behind the closed gates of Soldiers field here today on the Harvard varsity football team's progress.

With a line-up twisted from that which appeared in the Purdue game last week, team A keeping the ball through the afternoon, pushed over three touchdowns in a long scrimmage with the "ineligibles." Art French contributing a brilliant 35-yard dash off tackle for one score. The scrubs line-up was bolstered by the presence of Carl Lindner, Ernie Gamache and Bob Meadows, all members of last year's varsity.

NEW ARLINGTON TRACK TO BE OPENED TODAY

CHICAGO, Oct. 12.—(AP)—The Chicago Day handicap at one mile with a $10,000 added purse tomorrow will inaugurate the first fall meeting at Arlington park, new $2,000,000 race course of the American National Jockey club.

The opening of the new track has been proclaimed "charter day," the proceeds going to the Children's Home and Aid society. A record crowd is expected with the new stands seating 18,000, larger than any other in the country.

Tilden Beats Doeg

SANTA MONICA, Cal., Oct. 12.—(AP)—William T. Tilden today defeated Johnny Doeg, 18 year old alternate on the American Davis cup team, 6-3, 6-3, 6-4, in an exhibition tennis match.

Mrs. May Sutton Bundy, a National women's champion of former years, won from Miss Majorie Gladman, National woman's junior champion, 6-2, 6-2.

Kaplin Signed for Two Bouts

MERIDEN, Oct. 12—(AP)—Louis Kid Kaplan, retired featherweight champion, has signed for two bouts in the near future, it was learned here today. He will meet Jimmy McLarnin, Pacific coast lightweight star, at Chicago next Tuesday, October 18, in a 10 round match, and will face Mike Dundee, of Rock Island, Ill., at the New Haven arena in a 12 round bout on Monday, October 31.

ACADEMY FOOTBALL NOTES

Three backs and an end have the lead in the matter of scoring football points for N. F. A. this season. Jim Kelly, Harry McGlone, Bill Tirrell and Johnny Greene are the ones responsible for 24 of the locals 25 points, the other coming on a Torrington offside during a try for extra point last Saturday. Each has a touchdown to his credit.

No points after touchdown have been negotiated, all four attempts via the dropkick route falling, for the most part, quite a bit short.

The Academy had but a light workout Wednesday. There was no scrimmage, the two hours being taken up with just the ordinary drills. Capt Jack Marks took charge in the absence of Coach Whitney. A sharp signal drill is expected today to get the squad in shape for the important tilt with Westerly tomorrow.

The new bleachers at the Academy didn't get much of a christening last Saturday because of the small attendance and unfavorable weather conditions but Friday should find the largest crowd of the season on hand.

On Saturday the local squad expects to take in the Yale-Brown game at New Haven, according to the yearly custom. There is usually one open Saturday for the local gridsters on which they travel down to the big bowl in the Elm city.

The big noise in the high school line in these parts Saturday will be at New London where Bulkeley is dedicating its new athletic plant, Mercer field. South Manchester high will provide the opposition and in this outfit the Orange and Black is tackling a tough nut.

In tackling teams outside of this section the members of the unofficial "Big Six" of southeastern New England have met with .500 success. They have won 3, lost 3, and tied 3. N. F. A., Chapman Tech and Windham have contributed the wins, Stonington and Bulkeley (twice) the losses and Westerly (twice) and Bulkeley scoreless ties.

In games among the "Big Six" the Academy has registered the only decision, a win over Chapman Tech.

The grid season of the Eastern Conn.-Western Rhode Island Interscholastic council (whatever that means) opens Saturday with Stonington opposing Chapman Tech. As was the case in basketball when Westerly did not enter, this is a three team football loop. The Academy does not strive for the football title.

It won't be long now before the first call for basketball candidates.

TRACK RECORD SMASHED AT STAFFORD

(Special to The Bulletin)

STAFFORD SPRINGS, Oct. 12.—Belle McKlyo, H. M. Stanford's bay mare, driven by A. Martin hung up a new track record here today in the second heat of the 2:10 pace, the feature event of the opening day's card at the Stafford Fair. Martin piloted the mare over the half mile oval in 2:07 1-2 to beat out Capt. Grattan driven by Walsh and took the race, which was a three heat event, in straight heats. The former track record was 2:08 1-4.

Spirit Volo, brown gelding, owned by F. D. Whitcomb and driven by Small won the 2:15 trot from a field of six starters after placing second to Rudalein the first heat.

The thirteen entries for the 2.22 pace were divided into two divisions with Warren The Great a bay gelding owned by W. V. Dousa of Attleboro and driven by Hanafin taking the first division in straight heats. Mordkin, a bay gelding owned by Tom Ashworth of Charleston City, Mass, and driven by Hodson won in the second division in straight heats. Peter Morris entered by Henry Myott of Norwich and driven by the owner took third money. The summaries:

BUILDING OPERATIONS IN NORWICH

The month of September showed a falling off in the building permits issued by Fire Marshal Howard L. Stanton, there being only thirteen issued during the month. These permits call for an estimated outlay of less than $15,000 which is far below the normal average for September. There were six permits issued for new garages, four for alterations to frame buildings and three for alterations to two brick structures.

During the quarter closing on Sept. 30th there were 62 building permits issued at the office of Fire Marshal Stanton, close to half of them being for new garages. There were seven new dwelling houses during the past three months and one permit granted for a new steel reinforced building. The estimated cost of the new buildings and alterations as outlined in the permits is $153,615. This amount includes the estimated expense of the new Silberman building on Water street which will be well over $100,000. The summary for the quarter is as follows:

New frame houses	7
New frame garages	26
New frame shed	1
New frame barn	1
New brick shop	1
New brick filling station	1
New structural steel building	1
Alterations to frame buildings	17
Alterations to brick buildings	7
	62

Estimated cost $153,615.

During the past week there were 13 building permits issued by Fire Marshal Stanton and seven applications for permits were filed and will be granted upon investigation. The permits granted were as follows:

To Tony Ceccarilli to erect one-car garage at 35 Roath street. The garage will be 8 1-2x15 feet and of frame construction.

To P. F. Sweeney to build an addition to the present house at 60 Laurel Hill avenue for Mrs. Claudia D. W. Brown. The addition will be 5x6 feet and two stories high.

To Frank Mininni to erect a 3-car garage at 252 Franklin street. The garage will be 20x30 feet and cement block construction.

To Isaac McLean Sons Co. of South Boston to alter present building at corner of Main and Shetucket streets owned by Harry Shannon.

To Wm. J. McNeely to add to present frame house at 535 Main street, for Mrs. Alexandea Isper.

To George E. Boucher to alter and add to present frame building at Laurel Hill avenue for the Moose lodge, the addition will be 28x30 feet and 2 stories high.

To the Edward Chappell Co. to erect a frame coal pocket on West Main street. The pocket will be 20x20 feet and will be constructed of yellow pine and concrete.

To F. S. Armstrong to erect a 4-car garage at the rear of his property on Otis street. The garage will be 18x40 feet and of frame construction.

To Frank Bronejko to erect a frame house and store 23x53 feet on North Main street for Stanley Kiecolt.

To Margaret Guilfoyle to erect a frame garage on Elizabeth street. The garage will be 11x18 feet.

To Herbert B. Wightman to erect a frame garage on Cedar street. The garage will be 10x20 feet.

To Homer Monty to erect a frame garage on Grant Court. The garage will be 18x23.

To James C. E. Leach to alter present frame building at 103 High street.

REAL ESTATE SALES AND MORTGAGE LOANS

In Norwich during the past week there were seven sales of real estate, exactly the same number as during the same week in 1926. The mortgage loans for the respective weeks were $45,700 and $18,270.

There were 19 sales of real estate in New London during the past week an increase of 10 sales over the corresponding week a year ago. The mortgage loans for the respective weeks were $43,035 and $51,850.

New London

Plans have been completed for a residence on Guthrie place for E. M. Cobb. The house will be of frame construction, 26 by 52 feet, containing seven rooms. The rooms will be finished in hard woods, with hard wood floors, and will be provided with steam heat and tile baths.

Application has been made for a building permit for the construction of a house on Grenada terrace, for R. B. Smith. The house will be of frame construction, provided with all conveniences and will cost $7,000.

Plans are being figured for a house on Squire street for Anthony and Mary Irlandi. The plans call for a frame house, 26 by 46 feet, arranged for two families, the flats to have five rooms and bath. The heating will be by steam. A frame garage, 18 by 20 feet, will also be erected.

A local contractor has broken ground for a house for himself at 38 Neptune avenue. Sub-contracts will be awarded. The house will have seven rooms and bath and will be 20 by 36 feet, of frame construction. A frame garage will be erected in the rear.

Building Permits

Ambrose Villano, alterations, 45 Division street, $500.

R. B. Smith, frame house, Grenada terrace, $7,000.

Louis Schwartz, frame shed, rear 141 Bank street, $1,000.

Antone Faira, frame addition, 29 Denison avenue, $1,000.

B. W. Kenerson, frame garage, 290 Crystal avenue $300.

Bulkeley School Athletic Field, Inc., clubhouse, Mercer Field, $800.

L. J. Church, frame addition, Cape Ann street, $150.

L. M. Leary, frame garage, 222 Coleman street, $700.

G. S. Montrello, frame garage, 59 Warren street, $700.

Salvatore Larocco, frame garage, 350 Jefferson street, $300.

Westerly

The greater part of building construction work in Westerly for the past several months has been apparently in the construction of business blocks. Two have been completed on one side of High and Canal streets, where another is already in process of construction. On the opposite side the foundations are being laid for another building. With the issue of this weeks permits application has been granted for still another business block, this time on Railroad avenue.

Zoning inspector Louis J. Rossi has issued the following zoning permits for the last of September and the first of October:

Sept. 28. Newall C. Swan, Pleasant View, Lot No. 58, south side Atlantic avenue, Pleasant View beach. Enclose front porch on Lot No. 58.

Sept. 29. W. Russell Dower, 5 Summer street. Alterations to dwelling to construct double window mullion.

Oct. 2. Joseph A. Morrone Bros., 125 Main street. Addition to existing garage 50 feet by 56 feet 2 inches.

Oct. 2. Green Stores, Inc. Brick business block 50 feet by 60 feet, basement and first floor.

Oct. 3. Estate of James A. Welch, Catherine R. Welch. Residence on west side of Elm street.

Oct. 5. Estate of A. L. Chester. Two story and basement business block 54 feet by 70 feet by 48 feet. 19 Railroad avenue.

Oct. 5—Westerly Fire district. Temporary fire headquarters.

Oct. 4. Earl C. Fisher, off Watch Hill road. One and one-half story cottage, 24 feet by 28 feet.

Oct. 6. Mary Fusaro, 18 John street. Addition in rear of 18 John street, closed rear entry.

Oct. 6. Robert Drysdale, 6 Spruce street. Addition 6 feet by 8.

Building Permits

Building Inspector Thomas Wills from his office in the Washington Trust building has issued the following building permits for the first week in October:

Oct. 1. Charles L. Fontana, 5 Railroad avenue. Remodeling shed, 5 Narragansett avenue, for three-car garage and work bench.

Oct. 2. Raymond B. Kenyon, Bradford. Two-story cottage house 22 feet by 28 feet, north side Quarry road.

Oct. 3. Mrs. Catherine R. Welch, 13 Park avenue. Residence, two and one half story, 11 Elm street.

Oct. 5. A. L. Chester estate. Wreck present barn 19 Railroad avenue. Construct two-story and basement brick business block, 19 Railroad avenue.

Oct. 4. Morrone Bros., 125 Main street. Addition 50 feet by 56 feet 2 inches to rear of present garage, Main street.

Oct. 5. Westerly Fire district. Alter present wooden garage, formerly Panciera Bros., Union street, for temporary quarters.

Oct. 6. Mrs. Annie Turnbull, 180 Main street. One-car garage.

Oct. 7. Robert Drysdale, 6 Spruce street. Bathroom and pantry addition.

Oct. 7. Earl C. Fisher, Watch Hill road. One story 24 feet by 28 feet bungalow.

Oct. 8. Mrs. Alice E. Bicknell, Pleasant View. Alteration on living room along new sea wall. The Andrea House, south side of Atlantic avenue.

Oct. 7—Watch Hill Beach association. Alteration of cottage by raising roof, Fort Road.

Oct. 7. Alice E. Bicknell, Pleasant View. Closing in front porch, The Andrea House, south side Atlantic avenue, Pleasant View beach.

MOTHER!

A Child Doesn't Laugh and Play if Constipated

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach, sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Fig Syrup," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Fig Syrup," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

Compact for easy parking

The things all wanted – and at a price for all

The outright issue of *what buyers want* decides all car success today. On that basis, for the first nine months Essex has outsold any other "Six" at or near its price, almost two to one. It reflects overwhelming preference for the things Essex gives:

Super-Six Smoothness and Dash—High-compression Power and Performance—Size and Roominess without Unwieldiness—Steady Riding without useless Weight. 50 miles an hour all day long—and far greater speed when wanted—Riding Ease Like Gliding. Economy of Price. Operation and Maintenance.

Essex has made it vividly clear that compromise short of 6-cylinder luxury is not economy; and that greater price can buy no higher degree of mechanical fineness.

Its Super-Six motor develops more than 2½ times the power its size ordinarily rates it. It converts waste heat to power and gives the brilliant efficiency of high-compression performance, with an economy of fuel that is astounding.

With flashing pick-up and positive brake action you drive fast with safety in traffic. And with the physical restfulness of its smooth, vibrationless performance, you have also the mental ease of perfect braking safety, and instant, easy steering control.

In five beautiful and colorful bodies, handsomely finished and appointed, it meets every requirement of utility, convenience, fine appearance and pride of ownership.

JEWETT CITY

NEW TRUNK LINE POSSIBLE, PROVIDENCE VIA NEWENT

(Special to The Bulletin)

JEWETT CITY, Oct. 12.—Just about the time that the borough gets quoted down on the various new state road propositions, a new route is suggested. It was learned today that the newest survey is likely to pass through Newent. It is reported that it will be the main trunk line from Norwich to Providence, and will make state road connections at Brooklyn, Conn.

From Danielson, then the present used route is direct to Providence. It is probable the new survey will pass a few feet west of the Congregational parsonage in Newent, from thence straight away to the objective at Brooklyn. In event of this proposition becoming acceptable, trunk line traffic would pass to the west of the borough. This survey would cut out several railroad crossings, including the only one in Jewett City, also the "S" curve overhead at Tadpole.

E. M. Gray, borough clerk and treasurer, who had a bad fall Monday evening, although still in bed, is reported as recovering favorably.

From all over the wooded section reports are coming in of the sure and settled come-back of the chestnut. Several branches already bearing nuts have been noted.

Some years will go by before the chestnut lumber industry, that once marked this section will be carried on again. Meanwhile the first to benefit by the new trees will be the chap with his chestnut bag.

The story in Wednesday's Jewett City news concerning a turkey supper at Everett Whipple's home in Voluntown, was not sent in by the local correspondents, and was absolutely untrue. There was no supper, and none of the parties mentioned were at Mr. Whipple's home on that evening. The copy was received in Norwich and was signed. Cheap jokers who put over such fraud news on a paper and marked and noted and eventually may get their reward in a way which they will find decidedly unpleasant.

Smelts at Groton

Smelts have struck on in the Thames river and several catches have been made in the vicinity of Groton ferry slip. Monday afternoon Eldon Rolfe of the ferryboat Mohican caught 37 of the fish. He angled from the ferry slip float. The fish were large, the quality making up for the small quantity.

It rained ink in parts of Jefferson and Hardin counties, Texas. Open wells and cisterns were ruined and puddles of the inky fluid stood in the fields over a wide area. A 325,000-gallon underground oil tank in the Sour Lake field was ignited by lightning. Particles of smoke and soot were carried into the clouds and blackened the downpour of rain as far as 20 miles east of the blaze.

"Don't Get Up Nights"

Says F. H. Marble. This is Nature's Signal of "Danger Ahead."

Fred H. Marble, Danielson, Conn., says in his own home paper, the Danielson Transcript: "My bladder bothered me 4 or 5 times every night. After taking Keller's Lithiated Buchu a few days I saw I was improving. Now I am not troubled at all. They have also relieved my friend Elmer Martin. I will tell or write my experience to anyone."

Lithiated Buchu acts on the bladder as epsom salts do on the bowels. Drives out foreign deposits and lessens excessive acidity. This relieves the irritation that causes "Getting up nights." The tablets cost 2c each at all drug stores. Keller Laboratory, Mechanicsburg, Ohio, or locally at Geo. Eppler's, druggist.

SOUTH WILLINGTON

Rev. Charles Lillie of Willimantic was a recent guest at the home of Mr. and Mrs. Elmer J. Mathews.

The seventeenth annual conference of the Tolland county council of religious education was held Saturday in the Methodist church, Rockville, with a large gathering of ministers and laymen. The principal speaker was Prof. Albert John Murphy of New York, secretary of the Congregational educational society. In the afternoon he spoke on social justice and a wilful religion. In the evening he told how religious education could give the people a better understanding as to how their wishes could become a realization. Officers for the year were elected as follows: President, Mrs. E. J. Mathews, of South Willington; first vice president, Rev. Charles G. Johnson, South Coventry; second vice president, Rev. George S. Brooks, Rockville; secretary, Miss Edna Latham, Columbia; treasurer, Lathrop West, Tolland. District secretaries, Mrs. B. A. Smith, Hebron; Mrs. W. P. Wildes, Sr., Spring Hill, Ernest Richard, Vernon, Miss Pearl E. McCluskey, Stafford Springs. Finance committee, Lathrop West, Tolland, Miss Rosa O. Hall, of South Willington, Wallace I. Woodin, Bolton; J. T. McKnight, Ellington; Mrs. R. K. Jones of Bolton, Miss Hattie Coombs of South Coventry, Mrs. Lavergne Dimock, West Stafford, O. K. Driggs, Vernon. Dept. Supts. Children's division, Mrs. Louis A. Cowdy, Hazardville. Young People's division boys, Frank Condon, Rockville. Girls, Mrs. Arthur Vinton, South Coventry. Adult and home division, Mrs. C. H. West, Tolland; missionary division, Mrs. Clara G. Potter, South Willington; temperance division, Mrs. James Service, Jr., South Willington; educational, Rev. E. E. Sundt, South Willington; directors for one year, Rev. George S. Brooks, Rockville, for two years, W. Hoyt Hayden, Rockville.

During the afternoon and evening sessions the rural religious schools were discussed. Rev. Mr. Sundt of South Willington said that there are 10 religious schools in the county now, whereas in 1914 there was but one. These schools convene weekly and the new movement under way is to have daily educational schools. He advocated this at the meeting.

Mrs. Clara G. Potter, Mrs. J. R. Edwards, Miss Rose O. Hall, Miss Sarah Wolstenholm, Mrs. E. J. Mathews and Rev. Edwin E. Sundt attended the convention.

BURGESS BEDTIME STORIES

Peter Gets to Work

'Tis but the lazy and the shirk,
Who finds no pleasure in his work.
—Old Mother Nature.

It was Farmer Brown's Boy who gave Peter Rabbit a chance to leave Old Jed Thumper's private bramble-tangle. Farmer Brown's Boy came tramping along the old footpath on his way to look for some wild grapes. Reddy Fox, who had been watching Old Jed Thumper and Peter quarreling in the bramble-tangle, had planned to stay right there until one or the other of those silly rabbits would have to leave the bramble-tangle. But when Farmer Brown's Boy came along, of course Reddy ran. He didn't want to be seen by Farmer Brown's Boy. No sooner had Farmer Brown's Boy passed than Peter left it. He had seen Reddy Fox run and he knew that this was his chance. So he made the best of his opportunity and headed for another bramble-tangle that had once been used but was used no longer by Old Jed Thumper. Young brambles were growing up in the very middle of the paths Old Jed Thumper had once cut through there.

No sooner had Farmer Brown's Boy passed the Bramble-Tangle than Peter left it.

Peter crawled in far enough to feel quite safe from Reddy Fox. Then he set to work. Those long front feet of his were made for cutting. The first thing Peter did was to cut away a place big enough for him to sit down comfortably. This would be his form. You know a "form" is a place where a rabbit or a hare is in the habit of sitting a great deal of the time.

"I must have these paths plenty big enough for me to get through without being scratched," said Peter to himself. "I'll clear out these old paths and then I'll make some new ones. There must be a path opening from every side of this bramble-tangle so that I can get into it from any direction. This is a better tangle than anything down in the Old Briar-patch. I am going to have a dandy place here. Mrs. Peter doesn't know what a mistake she's made."

Now, Peter Rabbit doesn't like to work. Any kind of work is hard for Peter. Some folks are built that way, you know. If he could make himself think a job was play, he would do it without any trouble. But as long as it is work Peter has a hard time. So it was that he didn't make very rapid progress in the making of his paths through the bramble-tangle. He would work a short time; then he would rest a long time. But even working like this one can get a thing done in time. So it was with Peter. This time came when he had all these little paths cut to suit him. Now if any enemy surprised him in any direction all he need do would be to scamper for his particular bramble-tangle and from whichever side he approached it he would find one of those little paths opening into it.

Peter sighed thankfully when the bramble-tangle at last suited him. But it wasn't long before he realized that one bramble-tangle wasn't enough. He wouldn't be able to stay all the time in or close to that bramble-tangle. He must have other bramble-tangles fitted up for his safety.

"You see," said Peter, talking to himself, "one never knows when danger may be near. It comes most unexpectedly. So it is a wise rabbit who always has a place of safetly close by. I certainly shall have to fix up some of the old paths of Old Jed Thumper. There was a time when he had them all over the Old Pasture, but I guess now that he is old he doesn't travel so much. Oh, dear! I don't like work. No, sir, I don't like work. I don't see why Old Mother Nature couldn't have planned to have paths all made for rabbits. I really don't. Well, as long as she didn't, I'll have to make those paths myself."

So day after day Peter worked, and the little paths grew longer and longer all through the bramble-tangles.

Peter Hears of Mrs. Peter

A rumor is a dangerous thing;
All sorts of trouble it may bring.
—Peter Rabbit.

Now, all the time that Peter Rabbit was so busy up in the Old Pasture fixing things so that he could live there reasonably safe and comfortable, little Mrs. Peter was at home in the dear Old Briar-patch. Peter had had a feeling that she might follow him up there to the Old Pasture. Every day while he worked he would have a feeling that little Mrs. Peter might be watching him. He didn't admit it to himself, but right down in his heart he hoped that she would come. The truth is, Peter missed little Mrs. Peter. He missed her more than he was willing to admit even to himself.

But little Mrs. Peter didn't appear, and gradually Peter began to lose hope that she would. All this time he hadn't heard from her. He didn't know a thing about her. You see, he hadn't seen anybody who could give him any news of her. So it was with a feeling of real joy that he discovered Tommy Tit the Chickadee one morning, for he felt sure that Tommy would have news.

"Hello, Tommy," he cried.

"Why, Peter Rabbit, what are you doing up in the Old Pasture?" asked Tommy, pretending to be very much surprised.

"Living here," replied Peter briefly.

"Living here!" exclaimed Tommy Tit, still quite as if he didn't know anything about the trouble in Peter's family. "Why, how can you be living here when I saw little Mrs. Peter only yesterday down in the dear Old Briar-patch?"

"She's still there, is she?" asked Peter before he thought.

"Why, of course, she's still there. Where else would she be?" demanded Tommy Tit.

"Up here with me, of course," replied Peter gruffly.

"I don't know why," said Tommy Tit sweetly. "She's got a perfectly splendid home down there in the dear Old Briar-patch and I think she's a wise little person to stay there. Certainly, she seems very happy."

Peter pricked up his ears. "Doesn't she seem to be worrying about me?" he blurted out.

"Not that I could see," replied Tommy Tit. "She certainly seems very contented. She says the sweet clover never was sweeter and her friends are all very good to her. By the way, Peter, who is that fine young Rabbit I've seen around two or three times?"

"What's that?" demanded Peter, sitting up very straight. "What's that you said?"

The bright little eyes of Tommy Tit the Chickadee twinkled with mischief. "I asked you who that fine looking Rabbit is that I've seen around lately."

"Where've you seen him?" demanded Peter suspiciously.

"Oh, just around," replied Tommy Tit.

"Around where?" cried Peter. "Around the dear Old Briar-patch?"

"I didn't say so, did I?" retorted Tommy Tit. "I didn't mention the Old Briar-patch, did I? By the way, Mrs. Peter is looking her best these days, I think. I can't remember when I have seen her look better. All the time I was talking to her yesterday she was dressing her fur and making herself look as nice as possible."

"Huh!" said Peter.

How To Care For Varicose or Swollen Veins

Rub Gently and Upward Toward the Heart as Blood in Veins Flows That Way.

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice that anyone in this world can give you is to ask your druggist for an original two-ounce bottle of Moone's Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. So penetrating and powerful is Emerald Oil that even Piles are quickly absorbed. Any one who is disappointed with its use can have their money refunded.

New England Industries

THE MUSICAL INSTRUMENTS AND PHONOGRAPH INDUSTRY

(Note: The information, on which this article, issued by the research department of the New England council, is based, was obtained by the domestic commerce division, United States department of commerce, through an industrial survey of New England conducted in co-operation with the New England council. The department of commerce is now preparing for publication a full report of this industry which will contain additional information of practical value to all New

Would the average citizen rather ride in an automobile than play or listen to a grand piano? Would he rather tune in on his local station than put a record on the phonograph?

These questions are suggested by a survey of the musical instrument and phonograph industry in New England recently conducted by the United States department of commerce in co-operation with the New England council. Sales for Connecticut and Massachusetts, which have the bulk of the plants, have fallen off since 1921, but if phonograph sales figures be subtracted the trend is upward. One manufacturer said that people were buying automobiles instead of grand pianos. Radio did benefit one organ maker, who found that these instruments were popular because of movie houses and radio concerts.

Musical instrument and phonograph plants numbered 70 in New England in 1923, according to census figures. This section produces 21.8 per cent of the country's piano and organ materials and 10 per cent of its organs and orchestrions; of the total value in New England, 34.3 per cent in pianos and graphs, 29.8 per cent in pianos and 29.8 per cent in piano and organ materials. New England has about 12 per cent of the musical instrument and phonograph establishments of the United States, and the value of the annual product ($29,961,301) is 10 per cent of the total for the country.

The average number of years in operation is 42 for the reporting group as a whole, but 69 for the piano industry alone. The original management has been retained in one third of the companies, and the average period of present operation is 18 years. Labor conditions and nearness to market are the reasons given by the largest number of manufacturers for locating here.

Branch plants have been established by 10 per cent of the campanies, all but one of these being outside of New England. Lumber is purchased from New England by a slight majority of the firms, and other chief raw materials, brass, zinc, lead, tin, silver, iron and steel are purchased almost entirely in this section.

Two-thirds of the producers use incentive wage methods such as piece work, the percentage of workers thus paid in the industry at large being 28 per cent. There is little seasonal fluctuation. Improvements in order of importance are in accident prevention, organization and executive control, production control, uniform cost accounting, continuous maintenance, and standardization of product. Almost two-thirds of the plants have increased their total sales in the last few years, new sales methods and extension of territory being the main reasons, with lowered production costs and new styles of product secondary ones. Seventy per cent of total sales are made outside New England, and sales in New England are increasing in most cases.

The channel of distribution most used is that direct to the consumer.

Water—A Business Without Competition

It is not uncommon to find a city served by two telephone companies, two gas companies, two electric light companies or two street car companies.

But a city with two competing water works systems is almost unheard of.

The oldest of the public utilities, water service is generally recognized, both by law and custom, as a business deserving an exclusive franchise and freedom from uneconomic competition.

This fact alone helps make water works securities sound and attractive investments.

From time to time we participate in offerings of securities based on privately owned, well managed water works companies. We invite investors interested in such securities to investigate them through us.

STATE JUNIOR MECHANICS ELECT THEIR OFFICERS

(Special to The Bulletin)

WESTERLY, Oct. 12—At the 32nd annual convention of the Rhode Island Junior Order of United American Mechanics, at Mechanics hall with 150 delegates in attendance State Councilor Edwin H. Blackler presided at the morning and afternoon session. Prominent guests included National Councilor E. A. Llewellyn of Cincinnati; Junior Past Councilor Thomas H. Walters of Philadelphia. At the opening of the morning session Town Council President John D. Nichols gave the address of welcome and the response was by Albert Lynch, past state councilor.

At 1 p. m. a roast ham dinner was served in Vets hall, Pawcatuck by the members of Matilda Morgan council, Daughters of America. About 2 p. m., the afternoon session was begun and the election of state officers was held.

National Deputy Horner of Pittsburgh, Pa., attended the convention, but National Secretary James L. Wilmeth of Philadelphia, expected to be in attendance was unavoidably detained.

The committees reporting Wednesday were: Good of the order, P. S. C. Arthur W. Barrus, J. J. Northup and W. H. Gardner, all of Providence; press, J. P. Salisbury of Providence; judge of elections, Elmer Gillson of Woonsocket, R. I.; clerks, Charles S. Orent of Providence and Charles Brown of Groton, Conn.; tellers, Benjamin W. Gardiner of Peacedale and A. Everett Ernst of Providence. At the morning session 14 members were received into the state council and resolutions were adopted on the good of the order.

The election of state officers resulted as follows: State councilor, Albert Gegmershausen of Miantanomo council, No. 7, of Providence; state vice councilor, Fred Northup, Commodore Perry council, No. 14, of Wakefield; junior past state councilor, Edwin H. Blackler, Hope council, No. 6, Westerly; secretary, George E. Harvey, Commodore Perry council, No. 14, Wakefield; treasurer, Henry T. Sweetland, Washington council, No. 3, Providence; chaplain, Pardon H. Cranston, Washington council, No. 2, Providence; warden, John B. Bosworth (reelected) Miantanomo council, No. 7, Providence; conductor, Victor V. Leach, Burnside council, No. 4, Pawtucket, R. I.; inside sentinel, Arthur L. Onley, Nathaniel Greene council, No. 18, Anthony, R. I.; outside sentinel, George Thayer, Old Glory council, Hope Valley; national representative for one year, Herbert E. Humes.

The next state convention will be held Oct. 12, 1928, in Providence and the 53rd anniversary celebration will take place next May.

At the evening session an enjoyable entertainment was provided.

Columbus day observance in Westerly was marked by the closing of town offices, post office, bank and some of the retail stores for part of the day, while there was an exceptionally large display of American flags.

Under direction of Westerly Italians, a formal program of a concert by the Colonial band of Providence, Prof. Antonio DiPalmer, director, was begun at 1 p. m. in front of Westerly Town hall. This was followed by addresses by the two announced speakers from Providence in the town hall. Shortly before 4 p. m. a band concert was given in Wilcox park. At 6:30 p. m. the band headed a short procession to the Westerly Athletic field where a concert of classical airs was rendered.

From 8:30 p. m. a large crowd watched an excellent display of aerial fireworks and set pieces.

The first of the cut stone from Quincy, Mass., for the Pawcatuck World war memorial arrived in Westerly Tuesday and was delivered at the site, junction of South and West Broad streets, Pawcatuck, where it will be erected in time for dedication on Armistice day. The grading work on the plot has reached the point where the top soil is now being graded.

Miss Catherine Marie Barrett, daughter of Mr. and Mrs. Patrick J. Barrett of Garden street, and Walter S. Currie, son of Mr. and Mrs. John Currie of Bradford, were married Tuesday afternoon at the rectory of St. Michael's church by Rev. J. F. X. Quinn. The bride was attended by her sister, Miss Mary Barrett. Chelsea Panciera of Bradford was best man. The bride wore a gown of white georgette, trimmed with silver. Her silk net veil was held in place with a coronet of pearls and she carried white roses. The bridesmaid wore pink georgette trimmed with lace, and carried a bouquet of fall flowers. Following the ceremony, a reception was held at the home of the bride's parents on Garden street. After a short wedding trip, Mr. and Mrs. Currie will make their home at Bradford.

Funeral services for Charles Dudley Leonard of 19 Palmer street, Pawcatuck, were held at his home Wednesday afternoon at 3 o'clock. There was a large attendance of relatives, friends and members of fraternal associates. Rev. Byron U. Hatfield, pastor of the First Baptist church conducted the service. Committal services were at River Bend cemetery in charge of Pawcatuck lodge, No. 90, A. F. and A. M. The Masonic service was in charge of Worshipful Master George A. Stillman, with Chaplain Samuel Girvan assisted by Thomas McKenzie. Members of the lodge, W. Bro. Bourdon A. Babcock, and Bros. Edgar R. Sweet, Frederick W. Boulter, Frank G. Crompton, Albert Sylvia and Thomas McSparran, acted as bearers.

Mrs. Susanna McIninch died Wednesday at her home, 170 High street, having come to Westerly about six months ago from North Grosvenordale, Conn. She had been ill for two years. She is survived by six children, Mary Peter, John and Mrs. George Clarke, Mrs. Susie LeClair and Miss Alice McIninch; and by five grandchildren, Henry LeClair and Pauline McIninch, of Westerly, and Mary and Henry McIninch of New London.

STONINGTON

NEW LONDON MAN KILLED—FELL INTO HOPPER ELEVATOR

(Special to The Bulletin)

STONINGTON, Oct. 12.—Sydney P. Anderson, 36, a colored man of 71 Belden street, New London, employed as a laborer by N. Benvenuti and Sons, of New London, was almost instantly killed about 11.30 o'clock this morning, when he fell into a hopper elevator while unloading sand from a freight car on Railroad avenue, Stonington. His death occurred while he was being taken to Westerly hospital in the Sanitary Corps ambulance. Anderson suffered a crushed chest and upper jaw, fractured skull and had internal hemorrhages.

Anderson was engaged in unloading sand from the freight car and the beam on which he was standing gave way in such a manner as to throw him into the hopper. The hopper was stopped as soon as possible, but not before the man had received terrible injuries. When taken from the hopper he was unconscious and bleeding from the nose and mouth. A call was sent to Stonington for the ambulance and while the man was being taken to Westerly his death occurred.

Dr. Michael H. Scanlon was called and gave permission for the removal of the body to undertaking rooms in Westerly.

Anderson had been in the employ of N. Benvinuti and Sons of New London for a number of years. That company is building a cement road between Stonington and Pawcatuck. Mr. Anderson leaves two sisters, Mrs. William P. Frost and Mrs. Gertrude Mills, of New London. He was unmarried.

The body was taken at 12.45 to Canal street undertaking rooms. The town of Stonington medical examiner, Dr. William H. Gray of Mystic, was notified as was Coroner J. J. Desmond of Norwich. Before the body was taken from the Westerly hospital a trooper from the Connecticut state barracks at Groton was called to the Westerly hospital. Disposition of the case awaits orders from the Connecticut officials.

In Stonington town court Wednesday morning before Judge William A. Wilcox, Eliza Lucy Skuce, charged with breach of peace, pleaded not guilty. Two witnesses for state Mrs. Anna R. Schram and Mildred Schram testified in passing defendant's house October 10th they heard her call them vile names. Defendant denied the charges stating that the vile language was addressed to her "little kitten" which ran in front of her at the door as the Schrams were passing. The case was continued thirty days without bonds. Complainant and defendant live in the Wolf Neck district. The arrest was made by Constable Ernest C. Whitford.

B. B. Holmes and family have closed their summer home here and returned to New York Wednesday.

Rev. Syman G. Horton, D. D., was one of the speakers at the annual convention of the New London county council of religious education held at the Second Congregational church, New London Wednesday.

A miscellaneous shower was given Miss Ethel Wier, Saturday evening at the home of Mrs. Charles Barnes, by several of her friends. Miss Weis is to become the bride Oct. 15 of Fred Rayner brother of Mrs. Barnes.

Lovers of music here are securing tickets for the Connecticut College concerts.

At St. Patrick's church, Rev. Thomas P. Mooney, pastor, a large number of the grade and high school boys received holy communion in a body at the 8.30 mass Sunday. October devotions, consisting of the rosary, litany of the saints, and benediction, will be held at 7.30 Wednesday and Friday evenings during October.

MUST BE SPECIFIC IN SUIT OVER TAX CLAIMS

Judge Allyn L. Brown, in short calendar session of the superior court in New London Friday, ordered the city of New London to amplify its complaint against Mrs. Annie R. Morgan and others, executors, to show just what portion of the $2,300 claimed for taxes is on various parcels of land belonging to the Morgan estate. This was ordered filed by Tuesday while Attorney George Curtis Morgan, counsel for the defendants, was ordered to file answer to the complaint not later than Friday.

The decision of the court came after a lively legal skirmish between Director of Law Troland and Attorney Morgan.

Attorney Troland said that all but $100 of the amount was on the property in Broad street and that he would rather leave the rest as a matter of proof when the case is tried. Attorney Morgan insisted that he wanted "specific accounts for specific taxes on specific property." He claimed that sometime ago a bank foreclosed on a mortgage on property when, in reality, it held no mortgage and that since, without knowledge of the defendants the bank had paid $8,000 in taxes on certain properties. He claimed that the city "connived" with the bank in this and that they were getting into difficulty and "I don't propose to help them out of it."

Director of Law Troland said that there was no need of bringing the bank into it and couldn't understand "what all the noise is about."

"I'll tell you what all the noise is about," shouted Mr. Morgan, but Judge Brown gave the ruling.

Anastasia Wieczorek, trustee, of New London, was given permission to sell property in West Colt street, New London, for $5,300 by Judge Brown.

Camel

The cigarette that earned first place by its goodness

The greatest endorsement ever given to a cigarette is revealed by the fact that Government figures show that more Camels are being smoked today than ever before. An endorsement by the many—not the few.

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the place of choice tobaccos.

POETRY

Not Now

The path of duty I clearly trace,
I stand with conscience face to face,
And all her plans allow;
Calling and crying the while for grace,
"Some other time, and some other place—
O, not today—not now!"

I know 'tis a demon boding ill,
I know I have power to do if I will,
And I put my hand to the plough;
I have fair, sweet seeds in my barn, and low!
When all the furrows are ready to sow,
The voice says, "O, not now!"

My peace I sell at the price of woe—
In heart and in spirit I suffer so,
The anguish wrings my brow,
But still I linger and cry for grace—
"Some other time, and some other place—
O, not today—not now!"

I talk to my stubborn heart and say,
The work I must do I will do today;
I will make to the Lord a vow;
And I will not rest and I will not sleep
Till the vow I have vowed I rise and keep,
And the demon cries, "Not now!"

And so the days and the years go by,
And so I register lie upon lie,
And break with Heaven my vow;
For when I would boldly take my stand
This terrible demon stays my hand—
"O, not today—not now!"

—By Alice Cary.

The Fishing Boats of Picardy

The red-sailed fishing-boats
Out from Calais,
Stumble in the Channel wash,
Curtsey in the bay,
Shining in the sea-light
As gallant are they
As seagulls of Picardy
Diving through the spray.

What if a storm flick
The Channel with its tail?
Here is still the fishing-boat
With its scarlet sail
And its men of Picardy,
Salty and hale—
Riding out the rough waves
And swearing in the gale!

Out from Calais
The red sails

HECTOR SHARRON, NEW LONDON, DIES; WAS JOLTED UNDER GARBAGE TRUCK

(Special to The Bulletin)

NEW LONDON, Oct. 12—Hector Sharron, 36, residing at 213 Shaw street, and employed as a laborer by the City of New London's highway department, was fatally injured this afternoon when crushed beneath a five-ton truck. Mr. Sharron sustained among other injuries a fractured spine and internal injuries. He died 15 minutes after he was admitted to Lawrence-Memorial hospital, while surgeons were caring for him.

Sharron was one of three garbage collectors on the truck, which had been covering a route for the collection of dry garbage. The truck was heavily loaded and was on its way to the city's dumping ground, off Riverview avenue. As the truck rounded the curve, corner of Williams and Blackhall street, Sharron lost his balance and fell. His body landed between the front and rear wheels in such a manner that the truck passed over the body just above the hips. Sharron's associates hastened to his assistance. He was unconscious and being placed in an automobile was rushed to the hospital. Sharron's injuries were such that he expired without regaining consciousness. He was unmarried and resided with his brother.

NURSE SAID TO HAVE BLAMED NEW LONDON POLICE OFFICER

(Special to The Bulletin)

NEW LONDON, Oct. 12—With the death at Rhode Island State hospital, Providence, Monday night of Miss Hannah S. Frederickson, 26, former nurse at the Mitchell ward of Lawrence-Memorial hospital, from septic poisoning resulting from an illegal operation, it is revealed that a New London police officer is mentioned as being responsible for the nurse's condition which resulted in an abortion being performed. The New London police are endeavoring to obtain a clue that will bring about the arrest of the physician or mid-wife who performed the abortion, but so far they have not been successful. Acquaintances of the nurse have been interviewed, but they assert that although Miss Frederickson admitted her condition, she steadfastly refused to name the man who was responsible for it. So far as is known the police are not endeavoring to ascertain whether there is ground for suspicion of the police officer as being the father of the unborn child. According to information obtained today, Miss Frederickson refused to reveal the name of the man responsible for her condition at the Providence hospital until she realized that she was about to die. It was then that she made reference to the New London officer. She also declared that no physician or mid-wife had performed the abortion, but that she had performed the delicate operation herself. Whether this statement is true is yet to be determined. Miss Frederickson's father went to Providence yesterday and accompanied the body to the nurse's former residence at Ivoryton, where the funeral was held this afternoon.

Tony Rispo, 18, residing at 82 Woodbridge street, was in the police court today on continuance, the boy being charged with the breach of the peace. He was found not guilty. Tony went to the Empire theatre, a Bank street motion picture house where the admission is but 10 and 15 cents and where, because of that fact, most of the patrons are boys and girls. There it was claimed that the boy amused himself and caused the discomfort of others by being noisy, so much so that Special Officer Timothy T. Sullivan arrested him. The boy denied his guilt from the start and his statement was accepted as a truthful one when he was tried today.

A. W. Fairbanks of Providence, has notified the New London police that his Ford automobile has been stolen and has requested that a watch be maintained for the car in this city.

Commissioner of Motor Vehicles R. B. Stoeckel today ordered the return of the drivers' licenses to Robert B. Coleman, 33 Hill street; Mario Gennaro, 42 Shaw street; Herbert F. Maynard, 99 Vietz street and Allen Elmore, submarine base. The licenses were suspended several weeks ago for violations of the state motor vehicle laws.

A Maxwell automobile, owned by Harry Patterson of Waterford, stolen from Williams street Monday night, was recovered this morning when Acting Sergeant William Graham found the auto on Masonic street, where it had been abandoned by the thief after it had been used about 24 hours. Patterson was notified of the recovery of the car, and came to New London and took charge of it.

Mrs. Mary A. Drew, 64, wife of Thomas Drew, died this morning at her residence, 174 Montauk avenue, after a lingering illness. Besides her husband, she is survived by a daughter, Miss Anna Drew of this city and a brother, Robert F. Murphy of New York. Mrs. Drew was born in England, but had resided in Stonington and New London practically her entire life.

At the city hall, as the parade passed, Mayor James A. May, and Councillors Cornelius D. Twomey, John F. Murray and Lucius E. Whiton, reviewed the marchers, the other members of the council being unable to review the line because of pressure of business. The municipal building displayed the American flag and the Italian flag.

William Corcoran of 53 Jay street; Genevieve Paulino, Waterford; Mrs. Howard Horton and infant daughter, 26 West Colt street; Miss Martha White, Waterford; Miss Claire Davis, Waterford, and John Stein, Pottstown, Pa., who was injured when the motor cycle upon which he was riding collided with an automobile in Waterford Monday night, were patients at Lawrence-Memorial hospital discharged today. Stein was riding on a cycle with Albert Goodrich, 20, of 943 Lake Shore Drive, Chicago, and the cycle collided with an automobile driven by W. Calms, United States Coast Guard. Goodrich is now a patient at Home Memorial hospital where his right leg was amputated above the knee as a result of the injuries he sustained. At first it was believed that Goodrich would not survive, but his condition has improved to such an extent that now it is anticipated that he will recover.

GREAT DISCOVERER PAID HONOR BY PROUD ITALIANS

(Special to The Bulletin)

NEW LONDON, Oct. 12—Columbus day was celebrated here this afternoon and tonight in a manner never before witnessed by the oldest residents of New London. It is planned by the Italian populace to make the event each year more elaborate as the date recurs. Next year a more elaborate celebration will take place, for it will commemorate the discovery of America by the erection of a monument, now in course of construction. The parade today was the most pretentious of any for 12 years. It was witnessed all along the line of march by thousands of men, women and children. The procession, composed of four divisions, formed at Blinman and Reed streets and moved to Truman, Bank, State, Huntington, Washington streets, to the state armory. The parade was headed by Marshal Frank S. Shea, Lieutenant Connecticut Coast Guard, and his aides, followed by a platoon of police and the United States Coast Guard band and three platoons of coast guard sailors. Following came the president of the Christopher Columbus statue fund, the 192nd Coast Artillery band, Sicilian societies, the Christopher Columbus band of Norwich, Sons of Italy, Christofo Columbo lodge, Tusano society, Gloria lodge, auxiliary to Christofo Columbo lodge, Council of Friendship, Meresa lodge, Italian-American Citizens' club in automobile and a mammoth truck containing the younger generation of Italian youths.

William Weizorick, 24 Harrison street, while walking across State street near Washington street, late this afternoon was struck and knocked down by an automobile driven by Mrs Emily Montague, of 466 Thames street, Groton. Weizorick said that he was not injured and walked away, apparently none the worse for his experience.

Anthony Sassi, 7, of 29 Cottage street, is missing from home and his parents have requested the police to assist them in finding the youth. The boy left home yesterday to go to school and has not returned. When the boy did not go to his home last night or this morning, the parents instituted a search for him and not being able to obtain any clues, they sought the assistance of the police.

George Sedenisky, of Chesterfield, reported to the police tonight that while his automobile was parked on Bilinman street a thief stole from it a supply of groceries and tools.

MISS PERKINS RESIGNS AT THAMES NAT'I BANK

Miss Jennie G. Perkins who has been employed at the Thames National Bank of Norwich for some years completed her duties there, as head of the control department Saturday. Miss Perkins is to become the bride of Robert Miller, of Boston, on Saturday, Oct. 22. The marriage will take place at Gales Ferry M. E. church at 4 o'clock.

The Forgiveness of Sins, Matthew 6:2 was the theme of Rev. Jerome Greer, at Sunday morning worship in the Methodist Episcopal church, the fourth in the series on the Lord's Prayer. The offertory solo, Come Ye Blessed, was sung by Miss Grace A. Chapman. The basket of beautiful cosmos and dahlias were from the gardens of Mrs. Charles Hoyt.

The topic for the Epworth League evening service was, Seeing my Crowd Through the Eyes of Christ, Ethel Main was leader.

Events in the church calendar for the week include the October meeting of the Woman's Home missionary society to be held, at the home of Miss Natalie K. Gibbs, Tuesday afternoon, Oct. 11, Wednesday, New London county church school convention, at the Second Congregational church New London. Thursday, church night service at the vestry, followed by the Mission study class on the book, New Paths for old Purposes.

Local and out of town friends gave Mrs. Walter M. Buckingham a surprise party on her birthday Thursday evening. The affair had been arranged by Mr. Buckingham and Fletcher S. Wilson. The table decorations were gorgeous dahlias presented Mrs. Buckingham from the Aplin gardens, and she was presented a handsome handbag by her friends. The guests included, Mr. and Mrs. Harvey M. Briggs, Mr. and Mrs. Lester Greenman and Mrs. Charles Tyler Bard of Norwich, with Mrs. Edward S. Worcester of New Brunswick, N. J.

Phebe Norman, three year old daughter of Mr. and Mrs. J. Edmund Norman was operated on for appendicitis late Saturday afternoon, at Backus hospital, Norwich. The condition of the little girl is said to be comfortable.

Mrs. Edward S. Worcester of New Brunswick, N. J., who arrived here last Thursday, and is the guest of her brother-in-law and sister, Mr. and Mrs. Everett Noyes, returned home Tuesday.

Mrs. A. C. Risdon was called to New York Saturday by illness of members of her family there.

Mr. and Mrs. Walter M. Buckingham entertained Mr. and Mrs. C. E. Curtice of Nashua, N. H., for a few days last week.

Nathan A. Gibbs returned Friday, from a business trip to New Haven and New York.

Mrs. Frank L. Lathrop of Norwich was the guest of Mrs. Fanny A. Molthrop Saturday.

Frank A. Davis and his sister, Miss Emma Davis of Norwich, motored here and were callers at the cottage of the latter, Saturday.

Mrs. Joseph Davidson of the Stoddard district entered Backus hospital Norwich as a surgical patient last week. Friends are pleased to learn that her condition is favorable.

Miss Caroline B. Freeman returned last week from a visit of several days with friends in Mt. Vernon, N. Y., her former home.

Mrs. Arthur Mead and daughter, Miss Edith Mead, of Moravia, N. Y., are guests of Mrs. Mead's sisters, Misses Annis and Fanny Hurlbutt and her brother, Ralph Hurlbutt arriving Monday.

Mrs. Jennie M. Davis of Norwich was the guest of her former neighbor, Mrs. Eugene LaFontaine, for the day, recently at her home in the Stoddard district.

The valuable police dog, Wolf, belonging to Nelson Parker, was struck by a passing automobile Thursday afternoon and died from his injuries. When hit the dog ran direct to the Ferry cove, where he was found by the neighbors, who buried the carcass.

The recently appointed committee of the Ladies' Aid society of the M. E. church, Mrs. Dudley C. Perkins, Mrs. Billings F. S. Crandall, Mrs. Eugene La Fontaine with Miss Alice Satterlee president, has purchased two new oil stoves, one four-burner to be used in the vestry kitchen and one three-burner for the M. E. parsonage.

Recent guests of Mrs. Josh B. Rogers, were her niece, Miss Natalie Benn and friend, Miss Norman Monroe of Hartford. They were joined by Miss Benn's father, Milo Benn of that city, who motored here and with whom they returned. Other guests have been Mr. and Mrs. J. Wilbur Norton and little daughter, Nancy Lee, also of Hartford.

DR. F. E. CHILD TO HEAD TOWN SCHOOL COMMITTEE

(Special to The Bulletin)

WILLIMANTIC, Oct. 12—The reorganization of the town school committee was effected at the October meeting held in the high school office tonight. Three new members were elected to the board at the town election last week, two of these, Charles H. Backus and Stanley J. Sumner, were present, while the third, Kenneth N. Hillhouse is away on an extended motor trip. Dr. Frank E. Guild was elected chairman succeeding to John Reilly. Dr. Guild has just completed his 38th consecutive year as a member of the school committee. To add to the laurels of this honor he has been chairman of the committee for some 20 years with interruptions. School Superintendent Egbert A. Case who is also principal of the high school was re-elected secretary. William B. Sweeney and H. Clinton Lathrop were appointed auditors and John McKenna was reappointed truant officer. The matter of transportation and petitions to extend the limit came up for discussion. It was decided that the present system was as adequate as demand required and that the present transportation limits should remain status quo. It was pointed out that the demand for use of the Windham high school auditorium had reached such a large proportion that they could not all be accommodated and to offset controversy the board voted that in the future the hall is to be reserved solely for school purposes. A committee of three, Christopher C. Case, Walter R. King and William B. Sweeney, was appointed to confer with the Willimantic Development company in regard to the rental or purchase of the plant occupied by the Goyer company on Valley street to be used as a trades school.

ANNOUNCEMENTS

Strand Theater

Van and Wartman's, Patent Leather Girls, which opens at the Strand theater for three days starting tonight, tomorrow night and Saturday matinee and nite is without a doubt the last word in entertainment.

The writer has no hesitancy in stating that this show is the peppiest, classiest and cleanest production of its kind in the show business.

The picture attraction, Bigger Than Barnums, will also be shown. A special matinee, Punch and Judy show, Saturday matinee for the children.

Breed Theatre

A picture filled with thrills and human interest, comedy and novel romance opens at the Breed theatre today for three days. "Babe Comes Home" is the title, and Babe Ruth, the giant figure of all baseball history, heads the cast, with Anna Q. Nilsson and Louise Fazenda featured.

As the title suggests, baseball figures prominently in the story, but if you don't know a base hit from an umpire you'll laugh and cry and tingle with thrills in response to "Babe Comes Home." Ruth has found a new career by virtue of his splendid histrionic performance in the stellar role.

Miss Nilsson is a worker in a laundry. Babe plays himself in so far as the baseball sequences go, but in the strong plot and the romantic sequences—as strange a love affair as the screen has ever shown—he proves himself a consummate actor.

Wid Gunning produced "Babe Comes Home" for First National Pictures, and Ted Wilde directed it. Ethel Shannon, Arthur Stone, Lou Archer and other well-known players make up a strong supporting cast. The picture is based on Gerald Beaumont's famous magazine story, "Said With Soap," and Ruth is playing a part originally intended for one of the best actors in the motion picture industry.

ANNOUNCEMENTS

Palace Theater

Entertainment as you like it will commence today and continue until Saturday night. Five acts of sure fire hits, each act tried and proven on the big time, will be the feature stage attractions. Gean Collins revue, a six people song and dance offering of Sunburnt style offering songs and dances with pep and ginger. Sully and Mack two men in a comedy bit called "Git Up." Joseph Bernard and company have a very unusual sketch called "Who Is She," this act a big hit will their Norwich audiences. Burke and Saun, a man and woman versatile pair of song and talk offerings. Raymond Pike, the "Personality Boy" has a very clever act of surprises.

Here is Thomas Meighan in a new type of role—two new types in fact. No Meighan vehicle in recent years has been crowded with so much action. "We're All Gamblers" is the name of the production. It was directed for Paramount by James Cruze, maker of "The Covered Wagon" and "Old Ironsides" and it opens today at the Palace theater.

It's a great story. It shows the star as a youngster at the start—a waif on a New York East river dock who is picked up by a policeman and taken in by a kindly woman as her son. By the time he reaches manhood he is a contender for the heavyweight championship, a celebrity who stirs the interest of an aristocratic woman. An automobile injury prevents him from winning the title and he eventually becomes the proprietor of a night club.

The early scenes of the fight, an auto accident and East Side life are tense and exciting. The night club's New Year celebration later brings about a thrilling climax.

Supporting Mr. Meighan is a brunette beauty from Vienna, Marietta Millner. She has appeared in only one American picture before this, but her future is assured. That dear old lady, Gertrude Claire, the grandmother in "The Goose Hangs High" adds charm to the film.

The screen play by Hope Loring is based on Sidney Howard's stage play "Lucky Sam McCarver."

Don't miss it!

Broadway Theater

As timely as tomorrow's newspaper is Richard Dix' new Paramount picture "Shanghai Bound" which began a three days engagement at the Broadway theater today.

"Shanghai Bound" is a romantic melodrama laid along the Yangtse river in China and China is "in the news" daily.

For months, scarcely a day has passed without some headline, such as "Marines Land in Shanghai" or "Warships Shell Chinese City" or "Chinese Pirates Attack Americans."

Dix' latest vehicle is laid right in the thick of the riots which have brought China into the consciousness of every newspaper reader.

Dix plays the role of a Yangtse river steamer captain, operating up the river from Shanghai, where one night he runs across a party of Americans who are totally unaware of their danger from the hunger-mad hordes. How he takes them down the river and his Chinese crew has deserted and joined with river pirates who attack the ship forms one of the most thrilling stories ever filmed.

Edward S. (Tex.) O'Reilly, erstwhile drillmaster for the Chinese Imperial army, wrote "Shanghai Bound."

"Ben-Hur" the long awaited picturization of the stage spectacle founded on Gen. Lew Wallace's immortal story will have its first local presentation at popular prices at the Broadway theater on Sunday.

The accompanying score is by David Mendoza and William Axt, the composers of "The Big Parade." The four principal romantic roles of the epic are taken by Ramon Novarro in the title role, Francis X. Bushman, May McAvoy and Carmel Myers. Betty Bronson, the originator of the film Peter Pan, is the Madonna in the Nativity scenes which form the screen prolongue of the picture.

Eliminating Damage Suits

The frequency with which the damaged suits and resultant damage suits follow, is a thing to be reckoned with, especially when these accidents occur on the outside, where slippery pavements cause many a false step and the uncanny fashion of invariably grasping the only freshly painted object in sight, irrespective of the "Wet Paint" placard.

"When the du Pont company gave the world Duco," said Mr. Becker of the Robert Goldstein company, it also did away with a lot of unnecessary and expensive litigation for cities, towns and boroughs everywhere."

"In former days a city painted its fire plugs, say, one day and the average drying time was from two to four days, depending upon the weather conditions during this period. In the meantime—ten chances to one—somebody sat on, leaned against or fell upon these fire plugs and in many instances somebody—and sometimes a number of somebodys—filed claim for damages."

"Now, a number of cities have specified Duco when repairing their fire plugs, because of its rapid drying qualities, because it is waterproof as well and because of its durability and in so specifying, have done away with many expensive and unpleasant law suits."

NORWICH DOINGS 75 YEARS AGO

Items in part from the Norwich Courier of 1852 giving news of those days of interest to Norwich are as follows:

Tuesday, Oct. 5, 1872—Boosters for Gen. Pierce by the Locofoco papers, regarding his stand on Irish people in America have evidently aroused the ire of the Irishmen, for hundreds of them have signed letters stating that the stories are entirely false and that Gen. Pierce is hostile. The trouble started when a paper, alleged to have been signed by Irish Catholics in New Hampshire, was sent west to drive the Irish Catholic vote to Gen. Pierce and away from Gen Scott. This letter soon returned to New Hampshire and the Irish people arose almost to a man to deny the charges in the letter and rally to support Gen. Scott. The whole matter is simply another "dirty" piece of political work to destroy the chances of Gen. Scott in the election, and hold up Gen. Pierce as one who has worked for the Irish, to have the religious test removed from the constitution of New Hampshire, when, in reality, he did nothing whatsoever to cause its removal.

Thursday, Oct. 7, 1852—As was expected Norwich elected her entire whig ticket to office in the election Monday, the whig majorities being very large. The election was conducted so quietly that it was difficult to persuade some people to believe that an election was really taking place. Besides the principal offices, other positions won by the whigs were surveyors of highways, pound keepers, sealers of weights and measures, gauger, fence viewers, haywards, weighers, tything men and food measurers. A tax of 10 cents on the dollar was also voted, one half to be for the town deposit fund and one half for the common schools, with two and one half per cent commission allowed for collecting.

English newspapers are unanimous in their belief that Gen. Pierce is not the best candidate but they support him because they have come to an agreement with his party—meaning that free trade to the limit will be Englands reward, much to the detriment of American manufacturers.

Saturday, Oct. 9, 1852—The Greeneville Scott and Graham club met last evening when E. M. Jerome of New Haven was the principal speaker. Gurdon F. Trumbull, Esq., of Stonington also spoke. To cap the climax those attending were treated to several numbers by the Greeneville Glee club.

The boat rate between Norwich and Stonington still remains at 10 cents and the war of the boats and railroad still continues.

W. M. Converse now has for sale the property and equipment of the Phoenix Foundry company of Bath street.

Limit for Road Aid Application

Saturday is the last day for towns to apply for state aid for roads, it was pointed out Tuesday by the state highway department. Many towns acted upon the matter in their annual meetings last week and it is believed that a large number of applications will be received before the end of the week. The legislature, at its recent session, appropriated $1,000,000 a year for state-aid roads.

GREENEVILLE

Misses Mary Sullivan, Elizabeth Morrison, Lida Coley of this city and Miss Mary J. Nelson of New London have just returned from a ten days motor trip of 1100 miles, going by way of New York city to Washington and returning home by way of Morristown, N. J., over the Bear Mountain and Storm King highway. While in Washington they visited many interesting and historical places such as Lincoln's memorial, Washington's monument, capitol and the white house, shaking hands with President Calvin Coolidge, also visiting the president's yacht, the Mayflower. The party also stopped at Mount Vernon, the Arlington cemetery, stopping at the grave of the Unknown Soldier and many other places of interest. The trip was made in Miss Coley's car with Miss Sullivan doing the driving.

WEDDING
Gadle-Krodel

At the rectory of St. Mary's Memorial church Wednesday morning at 8 o'clock, Joseph P. Gadle, Jr., of 87 Hickory street and Miss Anna Krodel of Occum were united in marriage by the pastor, Rev. William A. Keefe.

Miss Krodel is the daughter of Mr. and Mrs. Christopher Krodel of Occum. Joseph Gadle is the son of Mr. and Mrs. Joseph Gadle of 87 Hickory street and is employed by the Thermos Bottling Co. of Laurel Hill as an overseer. Miss Marie Gadle, a sister of the groom was maid of honor and Charles McIntyre, an intimate friend of the groom, best man.

The bride was beautifully attired in a white georgette gown with picture hat to match and carried a bridal bouquet of roses and lilies of the valley. Her bridesmaid wore Nile green georgette with hat to match and carried yellow chrysanthemums.

Following the wedding a breakfast was served at Cinderella Inn. Mr. and Mrs. Gadle left on a wedding trip, which will include visits to Worcester, Boston and Vermont.

The bride is a graduate of the W. W. Backus hospital school of nursing and the groom is a graduate of St. Mary's parochial school.

Alexander Yerrington and Charles Erwin motored to Andover Tuesday, making the trip in Mr. Yerrington's car.

St. Mary's parochial school had a half day session owing to Columbus day.

Joseph Buckley, a fireman, stationed at Engine Co. 2 started Wednesday on a ten days' vacation, which he will spend at Hill's Top farm, Preston.

The friends of Mr. and Mrs. Charles Perry of Boswell avenue will be sorry to learn that their daughter, Jeanne, has recently underwent an operation for appendicitis. They have received word daily that she is resting as comfortably as can be expected.

John Carrigan of New London spent Wednesday calling on his many friends in the village.

The members of the H club, who have their club rooms on Fourth street, held their October meeting Tuesday evening, with 100 per cent attendance. Election of officers was held, resulting as follows: Albert Prodell, president; Stanley Boyd, vice president; Chauncey Geer, secretary and treasurer. Stanley Boyd, who for the past year has been the athletic instructor for the club, was asked if he would fill the position as such for another term. The boys had a tent at Pleasant View this summer, which they brought home last Saturday.

The Greeneville Tigers held their regular practice Tuesday evening with about 20 candidates reporting under the personal direction of Manager Moleski, who was a great star on the N. F. A. team two years ago. A stiff practice drill was enforced for an hour followed by kicking and practicing of the backs in throwing forwards. It is expected that they will play their first game Oct. 23 on the J. B. Martin baseball field.

The National Fabric Co. closed its shop Wednesday in observance of the holiday.

Miss Helen Stephenson has returned to Hartford, after spending two weeks vacation at the home of her parents, Mr. and Mrs. Richard Stephenson of Boswell avenue.

Mrs. Michael Shea has returned to her home on North Main street after spending a few days with relatives in Taftville.

Miss Margaret White has returned to Stafford Springs, after spending a few days with relatives on North Main street

CORNS

Instant Relief

Dr. Scholl's Zino-pads stop all pain quicker than any other known method. Takes but a minute to quiet the worst corn. Healing starts at once. When the corn is gone it never comes back. If new shoes make the spot "touchy" again, a Zino-pad stops it instantly. That's because Zino-pads *remove the cause*—pressing and rubbing of shoes.

Dr. Scholl's Zino-pads are medicated, antiseptic, protective. At all druggist's and shoe dealer's—35c.

SUFFERS BROKEN NECK WHEN HIT BY AUTOMOBILE ON TAFTVILLE STREET

Clarence Walden, 22, of 219 West Main street, suffered a broken neck Wednesday afternoon when hit by an automobile on Norwich avenue, Taftville, near the Lisbon bridge. The young man is in the Backus hospital in a plaster cast, the injury being a critical one, but there are hopes for his recovery.

The machine that hit him was driven by its owner, Peter J. Lapple of Fitchville, who reported the accident at Norwich police headquarters after the injured man had been taken to the hospital by Dr. Clarence G. Thompson.

The physician was returning from making a professional call in Lisbon and had just driven his machine across the bridge when he came upon the man lying in the road with Lapple and a man who was riding with him nearby. Walden was partially conscious and was able to tell the doctor that he had been hit by an automobile, and Lappie acknowledged that he had been driving the machine.

Dr. Thompson at once took Walden into his car and hurried with him to the Backus hospital. Here the injury was diagnosed as a fracture of the fifth cervical vertebra and the man was put in a plaster cast.

LEICESTER COUPLE MARRIED HERE FIFTY YEARS AGO

LEICESTER, Mass., Oct. 12—Mr. and Mrs. George Alexander Bigelow, who were married 50 years ago at Norwich, Conn., celebrated their golden wedding anniversary Monday at their home on Mt. Pleasant street.

Mr. Bigelow is president and treasurer of the Hopeville Manufacturing Co. of Worcester, and they made their home in that city prior to 10 years ago.

He retired from the wool business in 1887 ,and since that time has been one of the principal owners of the Hopeville Manufacturing Co.

Mrs. Bigelow was a daughter of James and Ellen (Walbridge) Tucker of Norwich, Conn., where they were married. They have four children, Edward Alexander, manager of the Hopeville Manufacturing Co., and one of the most prominent Worcester manufacturers; Miss Dorothy E., an ardent member of the Worcester Y. W. C. A., and the Outdoor Sports club of Worcester; Helen L., the wife of George D. Church, registrar of Worcester academy, and Adelaide W., wife of Asa Merrick Parker.

WALDO NEWBURY ORGANIST IN WASHINGTON THEATER

(Special to The Bulletin)

MARTINS FERRY, O., Oct. 12—Waldo Starr Newbury assumes his duties Saturday as feature organist for the fine new William Fox theater in Washington, D. C. Newbury, a resident of this city, resigned as organist and orchestra director in a Wheeling theater to accept the Fox position.

A native of New London, Conn., Newbury took up organ work as a youth and at 14 was the youngest organist in Connecticut. He then served Trinity Methodist church at Norwich, Conn. He is a graduate of Gullmant organ school in New York. In addition to his Wheeler position, he was organist at the First Presbyterian church in Martins Ferry. He is a member of the American Guild of Organists.

BRINGS $10,000 SUIT OVER MYSTIC PROPERTY

Roberta Wilbur Landphere of Mystic is the plaintiff in a suit brought in the superior court for $10,000 damages against Charles E. Landphere of Old Mystic to secure the performance of an alleged agreement over a piece of property.

It is alleged that on Sept. 16, 1926, Mrs. Landphere, together with Helen F. Wilbur, Emeline F. Kellogg and John P. Wilbur were the sole owners in fee of premises located along the New London road, situated in Mystic.

Mrs. Landphere conveyed the premises, to the defendant, it is claimed, on the condition that he and his family establish their home there; to improve the property from time to time; and to reconvey the premises to Mrs. Landphere free from all incumbrances within a reasonable time. This, the defendant has failed to do, the papers set out.

A. Jordan 7665, Pettis 7590, J. Jordan 7275, Ellsworth 6825, Lewis 6665, Boynton 6665, Schuler 6565, Parker 6555, C. Peckham 6495, E. Peckham 6250, Underwood 6230, Bailey 5800.

WILL TAKE APPEAL ON GAS STATION APPLICATION

Following the denial of the application made by Harry and Herman Bass of Thamesville for permission to establish a gasoline station and pump on the premises of Morris and Rosa Bass, at No. 297 West Main street, the petitioners announced Wednesday evening that they intend to take an appeal. The petition was heard Tuesday by the board of selectmen, William S. Murray, Charles P. Bushnell and Patrick P. Connell. The opposition to the petition is on the grounds that the location of the station would only add to the menace of public safety. The applications will take their appeal to the joint board of appeals for the city and town of Norwich.

NORWICH AND JEWETT CITY WOMEN AT BAPT CONFERENCE

Mrs. George A. Ashbey, of Broad street, Norwich, Mrs. Arthur M. Brown and Mrs. Benjamin Gardner, of Jewett City, were among the fourteen guests of Miss Mary L. Howard, of Hartford at a two-days' house party at her country home at Bolton Notch this week.

This conference was held to consider the work of the women of the Baptist denomination in Connecticut for the coming year.

POQUYOGH BEACH CASE IN COMMON PLEAS COURT

In the common pleas motion list on Monday in this city the Poquyogh beach case in which the beach association is arrayed against W. Spaulding Warner, one of the cottage owners, came up again. Judge Charles B. Waller took the papers and reserved decision in the motion for more specific statement made by the defendant in the injunction and damage action brought by the Poquyogh Improvement Association, Inc., against Mr. Warner. Attorney Philip Z. Hankey, counsel for the association, made a lengthy argument against the motion.

The suit was brought against Warner after he had blockaded the bridge over Clam pond and later partially destroyed it.

Judgment in the amount of $211 on a sworn bill of particulars was entered in favor of The Newark Co. against D. Dame, of New London.

Daniel J. O'Brien of this city was awarded judgment in the amount of $217 against William Layer, a sailor stationed at the Submarine Base.

An auto owned by O'Brien, parked on Fox Hill, this city, was badly damaged when struck by an auto owned by the sailor and operated by him. Suit was brought to collect for the amount of the damage. The car, owned by the sailor, under attachment, will be sold to pay toward the amount of the judgment obtained.

Default for non-appearance was entered against the defendants in the case of Max Boyer, Arthur T. Keefe of New London against Maria T. and Fortunato for legal services rendered.

Duncan McKay of Lisbon, was given foreclosure judgment in the amount of $1,610 against Endowhia Semansky, and others of Lisbon. The fourth Monday in October was set as the limitation of time. The property is a large farm which recently had most of its buildings destroyed by fire, thought to be of incendiarism origin, after the tenants, Endowhia Semansky and family had just moved out. The judgment given McKay was against Semansky. Peter Pisarko and Vera Pokutny. McKay holds a first mortgage of $1,000, while Pisarko holds the third mortgage of $2,500. The judgment given was a foreclosure on the second mortgage and was for $1,610.

Default for non-appearance was entered against Elmer Putt in the case brought against him by Hire and Drive It, Inc.

Judgment for $125 was for the plaintiff, Attorney Edwin W. Higgins of this city, against Michael Mingo was entered. The attorney sued for damage to a wagon belonging to him which was demolished on the night of March 19, 1927, when hit by Mingo's automobile. Mingo has now disappeared from this city.

HIGHWAY DEPARTMENT WARNS AGAINST ROAD BONFIRES

Continuing its drive to lessen the forest fire hazard to Connecticut woodlands, the Connecticut state highway department has issued a warning to motorists using the highways of this state against throwing lighted cigarettes and cigars into the underbrush and dead leaves along the shoulders of the highways.

The highway department also issued a caution to property owners along the highways against destroying dead leaves by building bonfires on the shoulders of the road, lest sparks from these fires be blown into the woods and develop into forest fires. Due to the hot, dry weather of the past month and due to the rapid fall of the leaves, most of the woodland along the highways in Connecticut is now so dry that the smallest spark might start a conflagration.

Property owners are requested by the department to rake dead leaves into a protected spot on their own land before burning them and to carefully guard all bonfires while they are burning. It is essential to the safety of the woodland that all fires of this nature be carefully extinguished before they are left unguarded.

During the past summer the highway department has made a special effort to clear from the shoulders of the highway all dry brush and other inflammable materials. Despite this precaution, however, no amount of work can keep the shoulders of the highways free from the accumulation of dead leaves. These leaves are excellent tender, and only a glowing match, cigarette, or cigar is necessary to turn them into a roaring fire which may destroy thousands of acres of valuable woodland before it can be extinguished.

SUNSHINE BASKET IS SENT TO COMFORT CIRCLE MEMBER

Thirteen members of Comfort Circle of the King's Daughters attended a meeting held Wednesday afternoon with Mrs. Fred Tourtellotte, of West Pearl street. The matter of naming delegates to the state convention at Danbury early in November was deferred until the meeting Oct. 26th. A feature of the afternoon was the sending of a sunshine basket to Mrs. Frank A. Case, of Whitaker avenue, who is ill. This was prepared by the social committee, Mrs. Edward Adams chairman. It was decided to hold a food sale and the members voted a sum of money as a testimonial to Miss Shelley, state secretary, of Hartford, who is retiring from office. In the absence from town of the leader, Mrs. A. T. Utley the meeting was in charge of the vice-leader, Mrs. J. H. Allen.

A Tribute To "Brick."

The friends and neighbors on Laurel Hill will be grieved to learn of the sudden and unexpected passing of the dearly loved feline pet of Mr. and Mrs. George A. Keppler. Having been in ill health for some months it was not until a few days ago that the malady developed into a great misery in his head. Brick was born on Laurel Hill and soon after took up his residence at 148. He was the most faithful and loyal cat that ever waved a tail. Of a very kind and loving disposition; a great lover of home; and a true follower of the simple life. He made it his business to see that the Laurel Hill cars ran on time; and he was a familiar figure on the front steps as he sat watching for his master and mistress to return. Seeing them he would go to meet them and escort them to the door. At 11 o'clock he took his stand to watch for his master to come for dinner, never failing in this till the misery overcame him. An injury to a hind leg prevented him from being a success as a ratter; but his faithfulness and loyalty to his loved ones was never equaled. The doctrine of theosophy teaches that life is continuous and as one body is lost the Spirit re-incarnates into another body. If this is true then the sorrowing relatives and friends of Brick will some day meet him in another body as a higher form of life. The thought is comforting.

Brick is survived by one brother, Barrymore, and many sorrowing friends.

A tribute to his memory by his friend.—L. B. R.

BIG CROWDS ATTEND SCHWARTZ BROS. OPENING

Between 7,000 and 7,500 people visited the Greater Schwartz Bros. store, Main street, Wednesday afternoon and evening which marked the formal opening of the enlarged store. The store was open from 2 in the afternoon until 10 in the evening and officials of the store with department heads were on hand to welcome the visitors. Schwartz Bros' store is the largest and most completely equipped store of its kind in the state and is a credit to Norwich. As one New York man who visited the store Wednesday remarked, it is as beautiful and as modern as any of the Fifth avenue stores. Lyon's orchestra, seven pieces, furnished a concert program afternoon and evening.

Nearly 200 beautiful floral baskets and bouquets were received at the store from local merchants and other friends in Norwich and from cities throughout the country. Among the visitors to the store were people from Chicago, Jamestown, N. Y., Boston, Elizabeth, N J., New York, Manchester, N. H., and even several from Canada. All remarked most favorably on the beauty of the store and hundreds took occasion to compliment the owners and officials. The three large windows, handsomely finished off, are very attractively decorated with the latest in house furnishings.

On the third floor of the store is seen a six room bungalow, completely furnished from kitchen to den. The enlarged store now takes in the Worth Specialty shop giving 2,000 extra feet of floor space on the main floor. In making the addition it was necessary to lower the floor 18 inches and to blast through solid rock.

All the steel columns have been lined up, instead of being scattered about the store. The walls have been refinished throughout the entire store, this work and the beautiful work in the show windows, being the result of the labors of a clever and well known New York artist .The added floor space gives the store an additional large show window.

The stairway, which formerly occupied the center of the store, has been moved over to the northwest corner of the store, a much more attractive arrangement. The awning over the sidewalk is the largest, by ten feet, of any store awning in the state.

Souvenirs were given to the thousands who visited the opening. No sales were made Wednesday and the store will be closed today (Thursday) in order to give the store officials and department heads an opportunity to prepare for the business opening Friday morning.

FORMER COLCHESTER CAMPERS ARRESTED IN NEW YORK

Max Schwartz, 16, his brother, Oscar, 13, and Morris Goldstein, 21, summer residents at Colchester, were arrested Tuesday in New York charged with holding up Jacob Lebovitz, Bronx candy store dealer, and were held in the Tombs prison pending investigation into other crimes with which police hope to connect the trio. They were arrested by Patrolman Vernon Heaney who interrupted them in the act of robbing the candy store. Shortly after being locked up they were identified by Jacob Rachowits, Bronx butcher, as the three men who had held him up Monday morning and robbed him of $80.

The youths, who had spent most of the past summer in a Jewish camp at Colchester, left that place to return to New York a week ago. They are quoted by the New York authorities as stating that they found themselves without funds upon their return to New York and had decided to resort to illegal means to obtain money.

JUDGE AND ATTORNEYS INSPECTING TWO PLANTS

The $60,000 damage suit brought against the New London Ship and Engine Co. by the Textile Finishing Machinery Co. of Providence, entered its second day of trial before Judge Allyn L. Brown in the superior court at New London Wednesday. Indications are that the trial will not be completed before the end of next week if then.

Wednesday afternoon, Judge Brown and counsel for both sides visited the plant of the ship and engine company at Groton where the machinery was inspected and the court was given an idea of the material and machines used in turning the casting or cylinders which are the cause of the present litigation. Today (Thursday) the judge and attorneys will go to Providence where the plant of the plantiff concern is located and the hydraulic presses there will be inspected.

Quite a group of lawyers consisting of Attorneys Arthur M. Brown, James C. Collins and Tillings of the firm of Tillings and Collins of Providence, represent the plaintiff, while Attorneys Arthur B. Calkins, Frank L. McGuire and C. Hadlai Hull appear for the defendant.

Only one witness has been heard thus far and the plaintiff has not yet finished its direct examination of him. He is William A. Stelling and Attorney Collins is examining him. Some samples of material were introduced Wednesday, consisting of heavy pieces of composition or metal and some smaller pieces with threads cut upon them. Also there was a paper disk of recordings which was on hydraulic press No. 24 of the Providence plant which was the first one to break.

The plaintiff contends that the ship and engine company made for it, 16 castings or cylinders and that the material used was so porous that the regular amount of pressure could not be put on the presses.

The ship and engine company denies the allegations. A large number of witnesses have been called into the case and much evidence of a technical nature will be introduced.

The case will not get under way until next Wednesday again because Attorney McGuire is slated to argue a case Tuesday before the supreme court.

PLANE AMERICAN GIRL FORCED DOWN AT SEA AFTER FLIGHT OF ABOUT 3,000 MILES

Ruth Elder and George Haldeman Were Picked Up About 325 Miles Northeast of the Azores—Plane, Forced Down by a Broken Oil Pipe, Was Destroyed by Fire as the Ship Barendrecht Attempted to Salvage It—The Aviators Probably Will Be Landed at The Azores Saturday Morning.

PARIS, Oct. 13.—(AP)—Ruth Elder failed by a scant 300 miles of accomplishing the feat of being the first woman to cross the Atlantic by airplane.

She and her co-pilot, Captain George Haldeman, were forced down on the waters of the Atlantic by a broken oil pipe and tonight are safe and sound aboard the Dutch tanker Barendrecht which rescued them. Their plane, The American Girl, was estimated to have traveled 2,900 miles along its 3,500 mile journey.

The plane was destroyed by fire as the ship was attempting to salvage it, the ship reported. The Barendrecht is en route to the Azores where it is expected to land the aviators Saturday morning. The ship in a relayed message gave its position at 43.34 north, 21.39 west, about 225 miles north-northeast of the Azores.

The first news of the landing and rescue arrived here at 4.35 p. m., in a radio message Miss Elder sent to the Paris office of The Associated Press.

Most of Paris and almost all of provincial France, however, went to bed tonight thinking the aviator and her pilot lost, since it was not announced by officials until after 6 p. m., that they were safe. About that time Commandant Renvoise of Le Bourget flying field received a message from Miss Elder. The last editions of all the Paris afternoon newspapers were on the streets at that time with their headlines reading the same as they had during the day: "No news of the American Girl."

Even the first editions of tomorrow's Petit Parisien and Le Matin carried headlines "Lost In Sea?" and "No News of the American Girl Since Tuesday evening." Tonight after dinner when most good Parisians were home some papers put out special editions sold to late strollers, and caretakers of refreshments along the boulevards began to get the news.

Expressions of relief were then heard everywhere and at the same time comment was almost universal, "she was mighty lucky to land by a steamship and be rescued."

Most of the news printed in Paris tonight had been relayed back across the Atlantic from New York, where it had been sent by The Associated Press shortly before noon, eastern standard time. As far as direct word from the fliers is concerned there were only the identic messages sent by Miss Elder to The Associated Press and Commandant Renvoise. The message read:

"Landed by S. S. Barendrecht, with broken oil line. Both Haldeman and I O. K.—Ruth Elder."

PLANE, THE DAWN, READY TO START FOR COPENHAGEN

OLD ORCHARD, Maine, Oct. 13—(AP)—After a day in which the elements did their best to spoil the projected flight to Copenhagen, the crew of the Sikorsky plane, The Dawn, made fresh plans tonight for a start at low tide tomorrow morning.

All seemed greatly pleased with the manner in which the amphibian came through its two-hour ordeal, when an unusually high tide augmented by strong southeast winds tore at the ship and buffetted it with high rollers.

Mrs. Frances W. Grayson, the woman who now expects to be the first to set foot on European soil, after a transatlantic flight, especially in view of the fate of the American Girl, said tonight:

"We have gained fresh inspiration and added reliance by today's experience. Our Wright expert, T. Harold Kinkade, says the motors were untouched by the surf. The plane itself is unscarred and we are certain no water reached our gasoline tanks.

During those two hours The Dawn showed how well she could ride the waves, even with her landing gear down. Of course, in a forced landing at sea the wheels would be retracted so that she would be even more easily managed.

BETWEEN 40 AND 50 TRAPPED MINERS WERE RESCUED

SCRANTON, Pa., Oct. 13.—(AP)—Between 40 and 50 miners, trapped in the Peck mine of the Glendale Coal company at noon today, were rescued tonight. All were in good condition and apparently suffered by slightly from their imprisonment.

Then men were shut off from the outside world when a wheel in the tower of the colliery collapsed, dropping the heavy steel cable holding a mine cage filled with rock. The cage ran wild down the shaft and became wedged just above the Hudak vein, which is the upper level of the mine and 200 feet below the surface.

More than 200 workers in two lower veins got out through an opening so small that some of the stouter miners had their clothing torn off as they were pulled through the tiny holes in the earth. The men in the Hudak vein, however, had no other way out except through the main shaft and were forced to wait until the obstruction could be cleared.

TO RETURN FLEET CORP. TO SHIPPING BOARD

WASHINGTON, Oct. 13.—(AP)—Return of the Fleet corporation to the direct management of the shipping board, together with reorganization which places control of government-owned lines in the hands of T. V. O'Connor, chairman of the board, was ordered today at a special meeting of the shipping board.

To put a single executive at the head of the corporation, the board elected O'Connor president of the Fleet corporation and chairman of the board of directors.

A. C. Dalton, who has been president of the corporation, will become its vice president and general manager, being responsible to the board.

Today's reorganization appeared to be the final step in a long and controversial effort by the shipping board to regain control of the corporation since they were separated in 1921 by Albert D. Lasker, the Chicagoan appointed by President Harding to head the board.

CITIZENSHIP IS DENIED MADAME ROSIKA SCHWIMMER

CHICAGO, Oct. 13.—(AP)—A federal judge today denied application for American citizenship to Madame Rosika Schwimmer, originator of the Ford peace ship plan to end the World war, after she made negative reply to his hypothetical question as to whether she would kill an enemy of the United States in time of war, if by so doing she could save the life of an American soldier.

"I would not kill a man even if he tried to kill me," Madame Schwimmer, 54 years old, and a Hungarian subject, told Federal Judge A. Carpenter.

"That's enough," interjected the court, "the petition is denied."

Madame Schwimmer announced immediately that the case would be taken to the United States circuit court of appeals.

GEN. SUMMERALL CALLED FOR BUDGET CONFERENCE

PITTSBURGH, Oct. 13.—(AP)—Major General Charles P. Summerall, chief of staff of the army, has been recalled from his western inspection trip by President Coolidge for a conference on the budget program of the army for next year, it was explained here late today on behalf of the president.

Everett Sanders, secretary to Mr. Coolidge, made this announcement tonight after a day of mystery over the sudden departure of General Summerall from the west for Washington.

Mr. Coolidge authorized the statement that he wished to confer with General Summerall about the budget program. Other than this, there was no comment on his behalf regarding the general's return.

TRIAL OF THE CHICAGO SCHOOL SUPERINTENDENT

CHICAGO, Oct. 13.—(AP)—Former Congressman John Gorman today told the board of education that every history text used in the Chicago schools with one exception is pro-British in its interpretations, and charged that William McAndrew, suspended superintendent of schools is aware of the fact and approves of the condition.

Mr. Gorman, who made an investigation of all history books at Mayor Thompson's request, appeared before the board at the trial of Mr. McAndrew on charges of insubordination and conduct unbecoming the office of superintendent. Thompson made a campaign pledge to oust Mr. McAndrew.

Mr. Gorman introduced history text excerpts over the protests of Mr. McAndrew's attorneys along with school records intended to show that the suspended superintendent had approved the use of all the texts criticized.

"The Boston Tea Party was the last straw," the colonies added insult to injury," "the capitol of Massachusetts was the seat of vulgar sedition," "George Washington was a tyrant, dictator, despot and the step-father of his country," "the continental congress was a collection of pettifogging lawyers and mechanics," read Mr. Gorman from two history books by David Muzzey.

The use of these partcular books, he added, had been prohibited in several states.

In all the texts he examined, said Mr. Gorman, he found only one, "The History of America," by Fish, that was of a satisfactory patriotic nature. The other books distorted or omitted important facts, he charged.

Mr. Gorman maintained that Mr. McAndrew approved all the texts used and referred to a report on history books submitted to the board last March voicing such approval.

The next session of the hearing will be held next Wednesday, Oct. 19.

SCHOOL CHILD KILLED BY BLAST EXPLOSION

MORGANTOWN, W. Va., ct. 13.—(AP)—One child was killed and several others were injured, some seriously, when a charge of explosive was set off near the Everettsville schoolhouse, near here, late today, according to information received here from the state police detachment at Everettsville.

The blaze was set off by a contracting firm which was building a road near the school house. Information reaching here said a large stone thrown into the air by the explosive fell through tre roof of the one-room schoolhouse were about 30 children were congregated.

Mary Russell, 12, was killed. She was the daughter of Harry Russell, miner who was killed in the Everettsville mine explosion of April 30 when more than 100 men lost their lives.

MEXICAN REBEL CHIEFTAIN KILLED BY MILITIA FORCES

MEXICO CITY, Oct. 13.—(AP)—A rebel chieftain named Viernes and 13 of his followers have been killed by the militia forces of the Orizaba region in a battle near Huatusco in the state of Vera Cruz. The region where the battle took place is about 40 miles from Perote where federal troops are pursuing General Arnulfo Gomez.

The reports of the battle which occurred Wednesday morning do not give the number of rebels and militia engaged but say that Viernes, who is a bandit leader in the Orizaba region in supposed to have assembled a small force to support the Gomez revolutionary movement.

Colonel Carlos Terrazas commanded the militia which routed the bandits. The survivors escaped into the mountains.

CABLED PARAGRAPHS

BERLIN, Oct. 12.—(AP)—Dr. Adolf Wermuth, former chief burgomaster of Berlin, died yesterday. He was 72 years old.

TIENTSIN, China, Oct. 13.—(AP)—After Madame C. C. Wu, wife of the Nanking (Nationalist) foreign minister, had been held in communicado for more than 36 hours, the authorities this afternoon permitted her mother, Lady Hokai, and other female relatives to visit the prisoner. They talked with her for more than an hour.

MYSTERIOUS SLAYING OF PHYSICIAN AND WIFE

BIRMINGHAM, Ala., Oct. 13.—(AP)—Police admittedly had made no headway tonight in solving the mysterious slaying of Dr. F. F. Blair, former state physician and his wife, who were found shot to death in their burning home early today.

While loath to accept the murder-suicide theory, officials at the same time indicated there was little tangible evidence which pointed to murder.

Answering a call turned in by neighbors, firemen rushed into the Blair home to find the physian and his wife lying on the floor. Draperies and bedding in the room were a mass of flames. Thinking the couple overcome by smoke, firemen carried them into the open where it was discovered that both had been shot to death.

Friends of the couple were able to recall no motive for suicide. Although Mrs. Blair recently had returned from a hospital where she had been treated for a malady of long standing, it was said she had been in the best of spirits.

The position in which the bodies were found and the fact that the two pistols were found in different rooms of the house, police said, indicated it would have been impossible for either the physician or his wife to have fired the shots.

HIGH TIDES FLOODED THE PROVIDENCE WATERFRONT

PROVIDENCE, R. I., Oct. 13.—(AP)—The highest tides seen in Providence in years nearly inundated the waterfront here this morning, while tide-clogged sewers were unable to carry away a heavy downpour of rain which flooded town streets to a depth of a foot or more.

At 10.30 o'clock the tide was three feet and two inches above mean high water. Water was within a foot of the top of wharves along the waterfront and the crib work of the new Point street bridge was covered by water. Low land in the southern part of the city was flooded at hundred yards or more from the shore line. High winds sent spray of waves dashing over wharves and breakwaters and considerable damage was suffered by small craft in the harbor.

$500,000 Y. M. C. A. DORMITORY NOW OPEN IN SPRINGFIELD

SPRINGFIELD, Mass., Oct. 13—(AP)—The new $500,000 dormitory of the International Y. M. C. A. college, known as Alumni hall, was thrown open today in connection with the meeting of the trustees of the college. The building will accommodate more than 250 students and forms a needed addition to the college plant. William Orr, newly appointed financial secretary to the Geneva fund, whose work is to raise money for the branch of the college just opened in Switzerland, was the chief speaker.

President L. L. Doggett reported that $2,044,000 of the $2,250,000 endowment and expansion fund was raised and favored a financial agent to close the fund. There remains outstanding $180,000 pledged by alumni, which must be brought in to enable realization of conditional gifts.

NEGRO STUDENTS TAKE UMBRAGE AT ORDER

HAMPTON, Va., Oct. 13—(AP)—Construing the refusal of school authorities to dim the lights in the college motion picture house as a reflection of their morals, the entire student body of 900 negroes are remaining away from classes at Hampton Normal institute, one of the leading Negro schools in the United States.

Student leaders said today that the strike results from an incident in the motion picture house last Saturday night, when male students took exception to orders that the lights be kept burning and several declined to go to their class romos.

The school's administrative board was to have taken up the matter several days ago and to have decided that a number of the student leaders should be expelled. When this became known, all of the students, including the girls, struck.

INVESTIGATING OPERATIONS OF TRACTOR COMPANIES

BOSTON, Oct. 13.—(AP)—Investigation of the operations of three tractor companies in New England, on the ground that the concerns constitute a trust in violation of federal laws has been asked of the federal trade commission at Washington by Fred L. Norton, Boston attorney. The concerns are the Eastern Tractors company, the Tractor Snow Equipment company and the Maine Tractor company, all incorporated under the laws of Maine.

He alleges the three concerns are linked together with some of the same officers and directors and that they are competitors "only in form and not in substance."

SKELETON OF MAN FOUND IN WIRE ENCLOSURE IN WOODS

HOLYOKE, Mass., Oct. 13—(AP)—The skeleton found in a chicken wire enclosure in dense woods on a rocky slope, not far from this city late yesterday was that of a man, physicians found today, exploding the theory that it might be that of Miss Alice Corbett of Utica, N. Y., Smith college student who disappeared nearly two years ago.

The skeleton was brought to this city today and examined by Dr. F. A. Wood, medical examiner. In a pocket was found a wallet containing some money and there was a watch and chain in the clothing. A shovel was found nearby.

Police were continuing their efforts tonight to establish identification.

Holding Their Fish For Higher Prices

Twenty Vessels of the Labrador Fishing Fleet Determined to Get Their Price.

ST. JOHNS, N. F., Oct. 13—(AP)—Twenty vessels of the Labrador fishing fleet in port here with their season's catch are holding their stock for higher prices, demanding nothing less than $4.00 a quintal.

Exporters started with an offer of $3.60 and raised it to $3.80 as a compromise but no fish were unloaded at that price.

The fishermen are holding determinedly to their demand of a minimum of $4.00 which the merchants declare is prohibitive in view of the state of the foreign markets.

PROBING ADMINISTRATION OF MRS. FLORENCE E. C. KNAPP

ALBANY, N. Y., Oct. 13—(AP)—Testimony that relatives of Mrs. Florence E. S. Knapp, former secretary of state and first woman to be elected to cabinet office in New York state, drew salaries but did no work, was heard today at the opening session of an inquiry into her administration of the 1925 state census.

The inquiry was ordered by Governor Alfred E. Smith after the Cities Census Committee, Inc., a non-partisan citizens committee, had charged her with maladministration of the $1,200,000 census fund. The governor appointed J. Le Boeuf, Jr., as commissioner to conduct the inquiry and present his finders to the attorney general.

Mark Stern, of Schenectady, first deputy secretary of state under Mrs. Knapp, who testified that relatives of Mrs. Knapp were on the census payroll without having to his knowledge ever performed any work, also said that at the conclusion of Mrs. Knapp's term of office early this year he had sent at her request to her home in Syracuse certain census records and memoranda.

AMERICAN MARINES KILLED NICARAGUAN BANDIT LEADER

WASHINGTON, Oct. 13—(AP)—American marines have killed the Nicaraguan bandit leader Sentos Lobos and captured seven of his men, Admiral David F. Sellers reported today to the navy department.

A second patrol of marines and Nicaraguan guardsmen, the admiral said is being organized at Matagalpa to search for Lieut. Earl A. Thomas, of Richmond, Ind., and Sergeant Frank E. Dowzell of Carbondale, Ind., marine aviators missing following a crash several days ago near Gullall.

A detail under the command of Lieut. George J. O'Shea, of Brooklyn, N. Y., which went to their rescue following the accident, was engaged by a Nicaraguan bandit band of 300 and four of the Nicaraguan troops were killed together with 25 to 50 of the bandits.

MRS. BUDLONG WILLING TO BE RECONCILED

NEWPORT, R. I., Oct. 13.—(AP)—Testifying in her own defense today at the trial of the divorce action brought by her husband, Milton J. Budlong of New York and Newport, Mrs. Jessie Margaret Budlong announced that she was willing to be reconciled with the petitioner.

Mrs. Budlong, who is acting as her own counsel, took the stand late in the day after the petitioner's case had been completed. At the outset Judge Herbert Carpenter, presiding at the trial, denied her request that certain exceptions be entered on the ground that the motion was made too late.

The judge then instructed Mrs Budlong to use the narrative style in giving her testimony rather than the question and answer plan she had adopted at previous court hearings.

"I do not want this to be a punch and judy show," the judge said.

Step For Solution of the Roman Question

Overtures Made by "Osservatore Romano," Mouthpiece of the Vatican.

ROME, Oct. 13—(AP)—For the first time since it lost its temporary power more than 50 years ago, the Vatican has taken a decisive step towards solution of the "Roman question."

The "Osservatore Romano", mouthpiece of the Vatican, has laid down conditions on which the whole struggle between the church and the state might come to an end. First of all, the newspaper reiterates, the absolute necessity of the Holy See having some kind of territory, no matter how tiny, in order to convince everybody of the complete liberty and independence of the pope in the spiritual government of the church.

The Vatican organ proposed that Italy, which annexed the pontifical states, violently depriving the pontiff of his legitimate possessions, should restore a portion of the papal domain, even if a very insignificant part.

In other words the "Osservatore," suggests that another state should be formed, similar to the republics of San Marino and Andorra, the principality of Monaco and the Grand Duchy of Luxembourg, which, while existing as independent states, are no threat to neighboring or surrounding nations.

Those supporting this idea recall that in 1870, when the church's temporal power was overthrown, Italy would have been ready to leave the pope what is called "Leonine City," namely that portion of Rome on the right bank of the Tiber where St. Peters and the apostolic palace and the Vaticanostand, but Pope Pius Ninth and his secretary of state, Cardinal Antonelli, refused.

Later Italy, ruled at that time by strong anti-clerical elements, not only never would have ceded the "Leonine City," to the Holy See, but refused to listen to any other like proposals such as the proposition of giving the pope a corridor constituting an outlet from the Vatican to the Mediterranean sea so the papacy might become a small sea power.

The present suggestion of the "Osservatore" is virtually a resumption of the project advanced before the war by Cardinal Bourne, archibishop of Westminster, who argued that as there are lords in England who possess estates larger than the republic of San Marino, where they enjoy almost sovereign rights, similar estates might be created for the pope.

Cardinal Bourne proposed that the large tract of land adjoining St. Peters Basilica and the apostolical palace should be ceded by Italy to the pope with the right of extra territoriality. This is practically what the "Osservatore" suggests today.

The "Osservatore's" editorial produced a profound impression, there being a general conviction that the Vatican organ could not possibly express such determined opinions on the solution of the "Roman question," without knowing that some pourparlers on the subject had been going on between the Holy See and the Italian government. It is, in fact, known that one of the ambitions of Mussolini's government is to put an end to the conflict between the church and the state, which for fifty-seven years has poisoned the life of the nation.

62-YEAR-OLD MAN TAKES GIRL OF 18 FOR THIRD BRIDE

NEW YORK, Oct. 13—(AP)—A 62-year old Long Island physician, twice previously married, has taken as his third bride a girl of eighteen who is of the same age as the doctor's youngest daughter, it was learned today.

Dr. Clarence N. Platt, long connected with the medical department of the Consolidated Gas company and noted as a sportsman, slipped quietly away to Connecticut last week and married Marion Gray, of Astoria, L. I., a pretty clerk in a Manhattan insurance company. The bride is of the same age as the physician's youngest daughter, Elizabeth. There are two other children, Natalie, 21, and Clarence, 19.

Six years ago Dr. Platt's second wife, Mrs. Edith Tisdale Platt was sued for $50,000 by the wife of her chauffeur for alienation of his affections. A settlement was effected out of court but the Platts were divorced. Dr. Platt's first marriage, to a Connecticut society girl who died within a few years, followed shortly his graduated from Yale in 1884.

LOS ANGELES MAKING FLIGHT TO NEWPORT

LAKEHURST, N. J., Oct. 13—(AP)—The dirigible Los Angeles left the naval air station late today for a training flight to Newport, R. I. The tender Patoka is at the naval base there and the airship will moor overnight, returning in the morning.

FREEDOM, EDUCATION AND WEALTH ARE OPEN TO ALL

Fact Stressed by President Coolidge in His Address at the Opening of the International Exhibition of Paintings in Pittsburgh—Asserted That While the Ranks of Unskilled Labor Have Not Yet Attained Full Enjoyment, the Conditions Are Greatly Improved Over What They Ever Have Been—Paid Tribute to Andrew W. and Richard B. Mellon.

PITTSBURGH, Oct. 13—(AP)—Commemorating the anniversary of the day on which Andrew Carnegie dedicated his surplus wealth to the education of the people, President Coolidge declared in a speech here today that a mutuality of interest has arisen between employer and employe resulting in "an industrial peace," which "a short time ago would have been thought impossible."

His address also formally opened the international exhibition of paintings held in Pittsburgh this year through the support of Andrew W. and Richard B. Mellon, and alluding to their services, Mr. Coolidge paid them a high tribute which drew a hearty response from the audience which packed the Carnegie Institute music hall.

"They stand out," the president said, "as men who are devoting themselves to the service of humanity, one by remaining as a leader in great financial and industrial enterprises and the other by turning his great talents to the administration of public finance as secretary of the treasury of the United States, where his leadership in the last six years has been greatly instrumental in restoring the economic equilibrium of the world."

On the platfor mwith Mr. Coolidge as he spoke were Pittsburgh and other Pennsylvania citizens who have contributed their, wealth and interest to the development of American art, as well as representatives of a dozen foreign countries which have paintings exhibited.

The production of these works of art, the president said, should be stimulated and encouraged but, he added, "it is even more desirable to encourage their wide appreciation by the people."

"It is a fundamental principle of our institutions," he declared, "that freedom, education and wealth are not to be reserved for the few, but are to be reached through equal opportunity which is open to all. We have staked America on the potential capacity of the average citizen. Truth and beauty are inseparably related. A general contemplation of fine paintings cannot fail to provide an inspiration which will result in the improvement of the character of the people. It is for this reason that the painter and the founder of art galleries rank high as public benefactors. They raise people to a spiritual level which they could not otherwise attain."

Referring to Mr. Carnegie as one of the great benefactors in this line, Mr. Coolidge held that the mutuality of interest which this employer has with his workmen was an example of the good to be derived from such association.

"While the ranks of unskilled labor have not yet come into their full enjoyment," he said, "their condition is greatly improved over what they have ever before received. The question for the determination of the American people is no longer whether they will be able to secure prosperity but rather what use they will make of their prosperity."

The founder's day address of the president was a part of as busy a day as he has had on any of his speaking trips. Arriving here early in the morning, he motored from the special train to the home of Richard B. Mellon to be the joint guest of the Pittsburgh banker and Secretary Mellon, whose home here is closed.

After breakfast, Mr. and Mrs. Coolidge motored through the principal downtown streets to the block house of old Fort Pitt, one of the landmarks of the city. Here, surrounded by a large and enthusiastic crowd, they signed the register and posed for pictures and returned to the Mellon mansion for luncheon. This evening the president and Mrs. Coolidge accepted an invitation to dinner with the trustees of the Carnegie institute in the foyer of the music hall.

An international atmosphere was given the exercises at which the president spoke this afternoon by the presence of Paul Claudel, new ambassador from France, the ministers from Austria, Rumania and the Netherlands and the charge d'affaires from Belgium and Italy. On the platformal so, in addition to members of the Mellon families, were Secretary Davis of the labor department and Mrs. Davis, Senator Reed, and Representatives Porter and Morin and Campbell, all of Pennsylvania, Otto H. Kahn, the New York financier and Mayor Kline of Pittsburgh.

The exercises, under the direction of Col. Samuel Harden Church, chairman of the the institute's board of trustees, were broadcast.

Throughout the major portion of his speech, the president emphasized the need for combining material progress with the things of the spirit.

"The rattle of the reaper, the buzz of the saw, the clang of the anvil, the road of traffic are all part of a mighty symphony, not only of material but of spiritual progress," he declared.

"Out of them the nation is supporting its religious institutions, endowing its colleges, providing its charities, furnishing adornments of architecture, rearing its monuments, organizing its orchestras and encouraging its paintings. * * * The American people see and understand. Unperturbed, they move majestically forward in the consciousness that they are making their contribution in common with our sister nations to the progress of humanity."

Mr. Coolidge leaves the Mellon home late tonight to board his special train in time to bring him back to the capital tomorrow morning.

SOVIET GOV'T TO RECALL AMBASSADOR FROM PARIS

MOSCOW, Oct. 13—(AP)—Replying to the French note of Oct. 7 requesting the recall of Christian Rakovsky, soviet ambassador to France, Foreign minister George Tchitcherin tonight handed Jean Herbette, the French ambassador a note declaring that the soviet government could not longer ignore the French demand. The note declares that the soviet government considers the demand ill founded but feels compelled to release Rakovsky and solicit the French government's consent to appoint a successor.

Tchitcherin admits France's right to demand Rakovsky's recall, but holds that such a demand concerning an ambassador who for two years has conducted the most important negotiations, yielding substantial results to both governments, ought to be well founded. Tchitcherin states that the soviet government cannot agree with the inferences in the French note.

ENGINEER CRUSHED IN LOCOMOTIVE DERAILMENT

BOSTON, Oct. 13.—(AP)—The engineer of a freight train on the Wrentham branch of the New York, New Haven & Hartford railroad was killed today when the locomotive and one car left the track because of a washout and toppled over an embankment. The heavy rain storm of the forenoon had undermined the tracks, railroad officials said.

Engineer Hugh Keenan of Providence was pinned beneath his engine and crushed to death. His fireman, Robert Lilley of Providence, had several ribs broken.

The accident occurred one mile west of Hillside station between Adamsdale and North Attleboro. The train was bound from Cedar to Providence.

AN INCREASE IN LIFE INSURANCE POLICIES

NEW YORK, Oct. 13—(AP)—New life insurance policies written in the first nine months of this year by 45 companies exceeded $108,000,000 the total for the same period last year, it was announced today by the association of life insurance presidents. Total new business to September of this year was estimated at $8,352,000,000.

New business in September of this year showed a small decrease from that of September, 1926, the report showed. Group insurance showed a decline for the nine months period but ordinary and industrial insurance showed small increases.

HEAVY EARNINGS BY DODGE BROTHERS, INC.

DETRAIT, Oct. 13.—(AP)—The Dodge Brothers, Inc., today reported a net income after depreciation, interest and allowance for federal taxes, of $2,628,147 for the third quarter of 1927.

After provision for dividends on the preferred stock net earned on the common was $1,167,922.

RAINFALL WAS HEAVY THROUGHOUT NEW ENGLAND

BOSTON, Oct. 13.—(AP)—What the weather bureau here described as "a little secondary disturbance" deposited 1.66 inches of rain in Boston within a few hours today and sent the warm south wind to a velocity of 41 miles an hour, the highest point reached since last February. The storm caused considerable damage throughout New England.

One man was killed in Waterville, Maine, being knocked to the street from a wagon by a falling electric light wire. Many other wires and limbs of trees were blown down in that city.

The steamer Governor Dingley, with passengers from St. John, N. B., for Boston, was forced to put into Portland for shelter.

At Haverhill and Lowell many poles and wires were blown down, cellars were flooded and streets washed out. Rutland, Vermont, had nearly three inches of rain, with considerable damage to streets and telephone lines. At Springfield there was a rainfall of 2 1-2 inches.

In Somerville a woman and her five small children were rescued by police from a combination store and tenement where they had been marooned when water gathered in the street to a depth of five feet.

NO RELIGIOUS CEREMONY FOR ASHES OF VANZETTI

TURIN, Italy, Oct. 13.—(AP)—Monsignor Travaglini, bishop of Cuneo, has refused the plea of Luigia Vanzetti that a religious ceremony be held over the ashes of her brother, Bartolomew Vanzetti, executed in the United States for murder with Nicola Sacco, before interment at Villa Falletto.

Monsignor Travaglini based his stand on Vanzetti's professed atheism and the fact that he had not asked religious consolation before his electrocution and that his last words were "long live anarchy." The bishop said that regardless of these facts, the Vanzetti family may have masses said in Bartolomeo's behalf as there was a possibility that at the last moment he changed his mind and thus may secure Divine forgiveness.

REPORT OF SINKING OF OIL BARGE WISCONSIN

NEW LONDON, Oct. 13—(AP)—The barge Wisconsin sank last night in 15 fathoms of water, seven miles southeast of Sakonnet, according to a message received this afternoon at the local coast guard base from the tug Carlisle. The crew of four men were taken off before the barge sank.

In view of the warning of the Carlisle that considerable wreckage was left in the vicinity, constituting a menace to navigation, Commander George E. Wilcox of the coast guard base notified the lighthouse service to have buoys placed there. A destroyer or patrol boat will be sent there Sakonnet is east of Newport, R. I.

80. MANCHESTER MAN DRAWS FINE FOR DRUNKEN DRIVING

(Special to The Bulletin)

WILLIMANTIC, Oct. 13.— William F. O'Connell, 25, of 44 Prospect street, South Manchester, who was arrested here Wednesday evening after his car had traveled down the extreme left side of Main street and crashed with another machine, pleaded not guilty to a charge of driving while under the influence of liquor, at the police court session this morning. Testimony introduced, including an affidavit of the young man's condition by Dr. Charles A. Jenkins satisfied the court that the accused was guilty and he was fined $100 and costs, amounting to $112.15. O'Connell's companion in the car, Denis Sullivan of Windsor, was fined five dollars and costs for intoxication. The car driven by O'Connell crashed into the right side of a touring car driven by Charles A. McCarthy of this city.

Dr. Frank E. Guild, who was chosen chairman of the town school committee at its October meeting, today announced the personnel of the subcommittees as appointed by him to be as follows: teachers, H. C. Lathrop, Guild, K. N. Hillhouse, R. A. Parker and W. B. Sweeney; properties, repairs and insurance, C. C. Case, Lathrop and Sweeney; transportation, Dr. W. P. S. Keating, W. R. King and Parker; library and text books, Case, Hillhouse and S. J. Sumner; supplies, W. R. King, C. H. Backus and Dr. Keating; evening school, Parker, Backus and Sweeney; graduation exercises, King, Keating and Sumner.

The worst storm of the year was experienced here today. Accompanied by a high wind the downpour started about one o'clock this morning and continued until about 10 o'clock in the forenoon. The unusual rush of water found the storm gratings unable to allow a free flow into the sewers and sections of several of the downtown streets became flooded. Water overflowed onto the sidewalks along Main street at points near Windham street and Mansfield avenue and a similar flood was experienced at the corner of Jackson and Valley streets. There was an unprecendented volume of rain water washing down over Chapman street from the hill section. Street Superintendent Edwin O. Sumner found it necessary to call out all of his men to cope with the situation.

The body of Lorraine Bauer was taken from 36 Union street at two o'clock this afternoon for burial in the family plot at St. Joseph's cemetery. Rev. Charles M. Kelly conducted a committal prayer at the grave. Arrangements were by Kilbourey Brothers.

TWO WOMEN FOUND HELP

Their Sickness Banished by Lydia E. Pinkham's Vegetable Compound

Mrs. Nina Matteson, Box 206, Oxford, N. Y., writes—"If it had not been for your medicine, I could not have done my work as it should have been done. Mother told me of Lydia E. Pinkham's Vegetable Compound, and I had read in different papers what it had done for different women. She wanted me to try it, so my husband got me one bottle at first; then I took two others. * * * Now I am feeling quite strong again."

Mrs. Ernest Tanguay of Adams, Mass., says she was ill for four years and could not sleep nights or go out on the street. She read about the Vegetable Compound and decided to try it. After taking eight bottles she was able to do all her work and go anywhere and is quite herself again.

This dependable Vegetable Compound is a household word in thousands of homes. The fourth generation is now learning the merit of Lydia E. Pinkham's Vegetable Compound. If this medicine has helped other women, why shouldn't it help you? At your druggist's.

Bite yourself an Alphabet

"Mr. Pretzeleer is busy in conference"

Very, very high pressure executives make it a rule to pretzel at least once every afternoon. They find that biting out letters rests their 90 H. P. brains. Try it. Lock the doors. Send out word you're in conference and start biting. A good word to bite is

because it helps make you believe you are —busy, at least, being a pretzeleer.

It was a pretzeleer who invented the word toothsome. He was thinking of the fine hearty salty flavor that comes free with every O-So-Gud. And the crispness and brittleness. To say nothing of the crunchiness.

The more you pretzel with O-So-Guds the better you like it. Pretzel before going to bed. With soup, salad, dessert. When you drink ginger ale. If the youngsters *will* eat between meals there's nothing better than a knotty but nice pretzel ... And you don't have to worry about digesting them. That's easy.

Uneeda Bakers pretzels, of course. We call them O-So-Guds because they are.

PUTNAM

PETITION TO RESCIND WATER SYSTEM VOTE IS PRESENTED

(Special to The Bulletin)

PUTNAM, Oct. 13—As the result of the special city election Tuesday by which the recommendation of the water commissioners that two steel reservoir tanks be built at once was lost by a vote of 192 to 294, a citizen' meeting was held last evening to consider the situation.

The purpose of the meeting was to see if the city of Putnam through its citizens, can not get something done and to put a stop to the unseemly wrangling, charges and counter charges, that have been going on to the detriment of the project in hand and to the interest of the city. Also to give the city an adequate water supply for fire protection, not for the present alone, but with a view to the future.

The meeting functioned with a free and unbiased mind, and no criticism was made of any past actions on the part of the water commissioners or of the special committee. Free discussion was asked for, and there were few if any who did not express an opinion.

Of the thirty present all but two were in favor of a concrete reservoir as the best and most economical method of water storage; one of these signed the petition, and the other said that he wanted more information before committing himself.

The following petition, self explanatory, was read and signed:

To the mayor and common council of the city of Putnam:

We, the undersigned, electors of the city of Putnam, respectfully request your honorable body to call a special city meeting to be held on the 27th day of October, 1927, to see if the city will rescind the vote heretofore passed at a special city meeting on the 19th day of July, 1927, appropriating $135,000 for the purpose of constructing additions to the water works of the city renewing the services, and purchasing additional equipment to be used in connection herewith substantially in accordance with the recommendations of the water commissioners on file in the clerk's office as modified by the common council, and to see if instead of the directions given in said vote to the common council and water commissioners that the city will direct the common council and the water commissioners to construct a concrete reservoir with a capacity of not less than 2,000,000 gallons upon Richmond Hill, so called, on land owned by the city, make the necessary connections therewith to the pumping station, and to the water pipes in the streets of the city of Putnam, and to make such other replacements of pipes as may be necessary, and to appropriate the sum of $135,000 therefor and authorize the common council to borrow such sum or so much as may be necessary either by issuing bonds as provided by the act of the legislature, authorizing the city of Putnam to issue bonds at its January session of 1927, or by giving notes by the city in payment therefor.

The question as to whether a concrete reservoir on Richmond Hill would meet the approval of the New England Fire Insurance exchange which fixes the insurance rates for this city is fully answered in the affirmative by the following letter as well as by statements from the members of the arbitration committee. The letter is as follows:

March 26, 1926

A. Gilman, chairman board of water commissioners, Putnam, Conn.,

Dear Sir:

We have delayed replying to your letter of the 19th so as to give study to the propositions for improvement to your system as shown on a plan of Henry A. Symonds, dated January 7, 1926.

Two of the most serious deficiencies in your water system are the small storage provided and the inadequate arterial mains.

The propositions proposed by Mr. Symonds tend to correct these and I know that you will agree that it is not of much value to provide increased storage unless adequate pipe sizes are available to distribute the water throughout the system for fire supply. The mains recommended will strengthen the backbone of the distribution system and should be included in the program for increased storage.

It is probable that if these improvements are made and the fire department is correspondingly improved to the same degree of efficiency as the water supply we could quote a classification as B for minmum rates on dwelling property.

WIND AND RAIN DO DAMAGE IN DANIELSON

(Special to The Bulletin)

DANIELSON, Oct. 13.—For several hours this morning this community was about drowned out. Such a deluge of rain has not fallen over this territory in a blue moon and the southeasterly gale that drove it like hail against whatever happened to be in its way contributed to the damage that the storm caused.

Streets were awash with water for several hours. This was due not only to the rapidity with which the rain fell, but also to the fact that accumulations of leaves, now falling from the trees and being whipped off by the gale were swept into drains, partly clogging them. Getting across streets in the business and several residential sections could only be accomplished by accepting wet feet, and it was in that condition that a great many people arrived at their destinations.

Limbs were broken from trees, streets washed out and telephone and electric light services somewhat upset by the storm. Scores of children, in all parts of the town, did not venture forth for school this morning. Put to a very severe test, coaches on passenger routes through Danielson kept close to their schedules right through the storm. No motor vehicle accidents of any importance due to the storm were reported in this immediate territory, though a great number of cars were moving about.

Supt. W. E. Parker explained this morning why the "no-school" signal is not used on stormy days in Danielson. It so happens under the present arrangement of the school system of the town that pupils are transported here from a number of communities and points several miles from Danielson's school buildings. They come from Goodyear, Brooklyn, Attawaugan, East Killingly, Mashentuck, South Killingly, the Dark Lantern district and other points. It is manifestly impossible to give notice to all these pupils through use of a "no-school" signal, particularly to those who are resident in the rural districts of the town. This being the case, the policy of keeping the Danielson schools open every school day is being followed.

Today Joseph B. Stetson of Brooklyn was reflecting with a great deal of pleasure on his 80th birthday observance, which took place at his home yesterday. The family gathering that sat about the bountiful board for the birthday dinner numbered 24 persons. It was as cheerful a gathering as one might conceive of, and especially intent on making Mr. Stetson's debut as an octogenerian a delightful event for him. It was all of that during. During the course of the dinner Mr. Stetson was presented with a purse of $50 in gold, and there were numerous other gifts for him from the guests.

A feature of the dinner was the reading of a historical sketch of the Stetson family, the first member of which came to the Plymouth colony in 1633. Four generations of the family have lived on the Stetson farm where Mr. Stetson was born and always has lived. He said today that the family tradition is that when his great-grandmother first arrived at the farm she came on horseback from Preston, this state, following a line of blazed trees. That was 174 years ago. The original part of the Stetson dwelling was built even longer ago, the exact date being uncertain, but likely is well on toward 200 years old.

Those attending Mr. Stetson's anniversary were his brother, Dr. James B. Stetson, of New Haven; his nephew, George Allen Stetson and Mrs. Stetson, of Sharon, Mass.; Mr. and Mrs. Robert Stetson and two children and Dr. Richard Stetson and his fiancee, all of Boston; Mr. and Mrs. James A. Stetson, their son and two daughters of Fair Haven, Mass.; Mrs. Elanor Bagles, her son and his wife, Mr. and Mrs. James Beaman and son, all of New Bedford, and Percy Harris of Providence.

No such record of rainfall in such a few hours has been noted in this town in many years as was shown by a rain gauge at King George Jacques in East Killingly today. King George set the rain guage out last night. From 2 a. m. to daylight today the rainfal was 1 1-2 inches, and from daylight to noon, when the storm ceased, 3 1-2 more inches of rain came down, a total of five inches in ten hours. Last Sunday's storm showed a rainfall of an 1 1-2, a total of 6 1-2 inches in five days.

INVESTIGATING DEATH OF FOSTER DUCK HUNTER

(Special to The Bulletin)

DANIELSON, Oct. 13.—Over in the neighboring town of Foster, R. I., an investigation was underway today to establish if possible the exact circumstances under which Fred M. Smith, 64, store owner at Hopkins Mills and one of the town's most prominent citizens, met death while out duck hunting in the North Foster section of the town.

Mr. Smith's body was found yesterday lying diagonally across his gun, which was full loaded. Examination of the body revealed that what appears to have been a rifle bullet entered near his right shoulder, then traveled downward toward his left side. Dr. Harry Smith, medical examiner at North Scituate performed an autopsy on the body yesterday, seeking the bullet, but failed to find it, but again took up the task this afternoon.

Mr. Smith set forth on his duck hunting trip Tuesday. Upon his failure to return in due time a searching party went seeking him, but failed to find any trace of him when night had fallen. As many as 100 men took part in yesterday's search, which resulted in the finding of the body in a lonely section of woods.

The predominant theory as to Mr. Smith's death in Foster today was that he fell victim of the aim of some excitable deer hunter. There are others who lean toward the opinion that he might have been diliberately shot. The fact is that, up to this afternoon, no more than theory entered into the opinions.

Mr. Smith, a native of Gloucester, had lived at Hopkins Mills for years, conducting a general store beside the state highway, near the bridge over the river at that point. He leaves a daughter, Mrs. Oliver Ide, of Niles, O., and a brother, Daniel, of Pascoag. Mrs. Smith died about ten years ago.

Of special interest to his many friends here, and especially to those in his home city of Putnam, was the announcement this afternoon that State Bank Commissioner John B. Byrne has been elected vice president of the Hartford-Connecticut Trust company. Nathan D. Prince of Danielson is president of this bank, which is one of the largest doing business in New England.

A marriage Tuesday evening at the home by Rev. C. J. Armstrong of the Danielson Baptist church was that of Miss Elsie Soule and Charles Reel, both of East Killingly. They were attended by Mrs. Bertha Adams and Howard Soule, sister and brother of the bride. A reception followed the marriage ceremony. Mr. and Mrs. Reel are to make their home in East Killingly.

A marriage at St. James' church was that of Miss Sophie Young, daughter of Mr. and Mrs. Edward Young of Pawtucket, and Frederick Bode, son of Mosses Bode of this place. Rev. James McCarthy, M. S., performing the cremony and celebrating the nuptial mass. Miss Marie Doran of Pawtucket was bridesmaid, and Arthur Bode, Moosup, a cousin of the groom, was best man. The bride wore pach colored satin with picture hat to match. The bridesmaid's gown was of pink georgette and her hat a picture model in black. A wedding breakfast was served at the home of the groom's father, Mechanic street. After their wedding trip, during which they will visit at Manchester, N. H., and at New Bedford, Mr. and Mrs. Bode will make their home in Danielson. The bride's traveling costume was of blue satin, with hat to match.

The body of Miss Eva Russell, 34, daughter of Mr. and Mrs. Frank Russell of Wauregan, was brought to her parents' home from the Backus hospital at Norwich, where she died last evening. Miss Russell had been a patient at the hospital several weeks and had undergone two surgical operations. The body was brought to Wauregan in charge of Undertaker L. E. Kennedy.

For the first time since it has been in service the overland mail truck fell more than an hour behind its southbound schedule this morning, arriving here about 11.25 a. m. The severity of the storm caused the delay.

The unusual circumstance of a funeral being postponed at this time of the year because of the weather was noted at Brooklyn today, when the date for the funeral of Mrs. Sarah Godman was changed.

A wedding at the Congregational church in South Killingly the past week end was that of Miss Alice Terwilliger of that place and Earl Mott, of Wauregan, Rev. Harding W. Gaylord of Danielson officiating.

W. Irving Bullard has been named as one of the five delegates to represent the National chamber of commerce at an International conference to be held under the auspices of the league of nations at Geneva.

Mrs. Arthur E. Smith of Pleasant street.

Mrs. Jessie H. Gilpatric has returned from a visit of several weeks with her son Raymond Gilpatric and family at New Britain.

Miss Delia Rowe is the guest of her cousin, Miss Cora Cleveland at Plainfield.

Miss Antoinette Caron of the Vaughn Insurance agency has returned from a short visit with her mother in Norwich.

Mrs. Earl Kent and Mrs. Roy Shippee are in New York city to attend the wedding of their brother, Henry Bernett.

G. Stanley Shaw and W. H. Schoonover were in Salem, New Hampshire where they took in the big automobile races at the famous Rockingham fair.

Merrill Fish, Richard Whalen and J. Otis Fox attended the Stafford Springs fair yesterday, making the trip in Mr. Fox's automobile.

Mr. and Mrs. Robert G. Perry, of Brooklyn, N. Y., with Mrs. E. C. Morse of this city and her sister, Mrs. Jessup of Brooklyn, N. Y., motored to Northampton and Amherst this week and called on some of the students at Smith college and Amherst.

Mrs. Henry Blackwell of Trenton, N. J., has been the guest of Mrs. Vionsiatsky at Thompson. Her daughter is a student at the Howe-Marot school there.

JEWETT CITY

MACHINE CATCHES FIRE, 5,000 BREAD LOAVES BURNED

(Special to The Bulletin)

JEWETT CITY, Oct. 13—A terrific southeast storm accompanied by a gale swept over the town Wednesday night and until nearly noon Thursday. Broken tree limbs kept the electric light men busy, trouble hunting. The most disastrous result was to two machines on the Plainfield road. A man named Baratz, of Providence, was arrested a few days ago by Officer Vegiard for violation of the parking law in front of the post office. He was to appear in the town court this morning and was on his way here from Providence. Just after crossing the bridge at Bishop's the machine, a Chevrolet coach skidded and ran into a pole. The man managed to get to a house and W. J. Bromley was called. Finding the man seemingly painfully injured, Mr. Bromley took him to Backus hospital. The machine had a bent frame, the front was smashed and it will be an expensive proposition to repair the car.

The Sunrise express, a Reo speed wagon, skidded on the slippery highway on Plainfield road on the Plain, early in the morning, and turned upside down, catching fire. The driver escapedy, but the load of bread for the A. & P. stores and the Providence papers were a total loss. The driver carries about 5,000 loaves of bread to deliver along the line. In spite of the rain, the load burned all day.

THE LATE FRANK B. TRACY ONE OF ELEVEN CHILDREN

(Special to The Bulletin)

JEWETT CITY, Oct. 13—Frank B. Terry, 73, died at the home of his brother, Willis C. Terry in Griswold Wednesday night, after a long illness. Mr. Terry was born in Griswold September 29 1854. He was the son of David K. and Susan Thompson Terry. He has been a farmer in Griswold all his life, and was a charter member of Jewett City grange and later a charter member of Pachaug grange. Three years ago he went to his brother's home to live. Mr. Terry was one of a family of eleven children, four of whom survice him: Willis C. Terry of Griswold, Mrs. Charles Crary and Mrs. William Crary, of Preston and Mrs. Frank Bromley, of Achison, Kansas. Mr. Terry was a director of the Jewett City creamery until his illness prevented.

The funeral of John Francis Shorey, eighteen months old son of Mr. and Mrs. Albert Shorey, was held at their home on Hill street Thursday afternoon. The child, who has never been strong, died of bronchitis Tuesday. He is survived by the parents and nine sisters and brothers. Rev. J. W. Carter conducted the service. Burial was in Jewett City cemetery. Undertaker E. E. Gilbert was in charge of the arrangements.

The Catholic Woman's council held a whist party in the K. of C. rooms in Finn block Wednesday evening. There were twenty-one tables. Mrs. Henry Cadieux won the first prize, Miss Dora Bachand second and Mrs. Helen Walsh was given the consolation award. Leon Wheeler scored the highest for the men, Antonio Lamarine second and John O'Shea got the consolation award. The committee was Misses Anna Rubsenas and Catherine Barnett.

David A. Goldstein of New Haven received a fine of five dollars Thursday for violating the parking law in front of the postoffice. There is a perfectly plain sign there with no parking in sizeable letters, but in town and out of town people disregard the law every day. Officer Vegiard intends to enforce it.

Mrs. Dona Ballou, Miss Margery Brewster, Mrs. S. H. Holmes, Mrs. H. E. Paul and Mrs. J. G. Blair attended the O. E. S. banquet at Mystic this week.

THE HUNTING SEASON

With the opening of the hunting season, we arrive at the time of year when large numbers can be expected to be abroad with firearms and when in their search for game they find it necessary to trespass upon the property of other people in search of game.

Those acts in themselves may be perfectly harmless. There may be no danger from carrying or using fire arms provided it is done with due consideration for the possible effects, and there may be no detrimental results from walking through the fields or woods for squirrels or birds, but it is no secret that such acts have been the cause of tragedy and destruction. Life has been suddenly terminated and property has gone up in smoke.

Hunters as a rule are not a reckless lot of individuals. They don't intend to commit deeds that are lawless. They do not set out with the idea of wild destruction and yet all too numerous are the instances where they fail to so handle their weapons that safety is assured. Carrying guns in the underbrush, over fences and walls when they are loaded and companions too near them has meant the death of many a hunter. Similar acts have brought about the end of the hunters themselves, while those individuals who go through the woods and underbrush dropping matches or discarding smoking material without a thought as to the consequences have found all too late that they were the cause of burning up the investments of others.

In view of these conditions, repeated over and over again, there can be little surprise that the amount of posted land is increasing from year to year and that there is not a welcome on the part of farmers to those who are inconsiderate of the privileges which they enjoy. Abuse leads to curtailment in the country quite the same as elsewhere. These and other depredations may be the fault of only a few and yet each and every instance serves to place increased restrictions upon the hunters as a class. There was reason enough for the warning to have been heeded long ago and yet there are some who pay no attention to it even now.

REDEEMING LIBERTIES

A month from now and the second Liberty bonds will be called for redemption. That means that the government is going to pay off that issue and after November 15, according to the notice that has been issued, interest will cease on that issue. Any time thereafter the owners of those bonds will be able to have them cashed, but they will get no more interest after that date.

There are outstanding at the present time something like $830,000,000 worth of those bonds. The bonds were issued to run until 1942, but the government had the right to call them in 1927 and it has decided to exercise that right because plenty of money is available and a considerable saving in interest can be effected for the government.

In the next four weeks the holders of Liberty bonds should make it a point to look over their securities and see if they have any of the second Liberties. If they have they should make sure that they are presented for payment soon after the middle of next month.

It might seem that such a matter would be carefully attended to by all government bond holders, and yet the many instances when it is not is clearly of more than $11,000,000 which represents bonds that have never been redeemed. Some of these issues date back to before the Civil war while others are of a more recent date.

There are those bonds which have been lost or destroyed in some manner which may account for part of the unredeemed millions, but that offers no excuse for those who have not lost them to dig out their securities and get them cashed when the time comes. If the owners of those unredeemed bonds had cashed them in and put their funds at interest they would be receiving at bank interest a half million a year which is now lost to them. Keep your mind on your second Liberties and get them cashed.

PREVENTION WAS LACKING

Summer resorts seem to be the meccas for the big fires during Fire Prevention week. First it was Revere beach which was visited by a serious fire as the result of a cigarette being carelessly thrown to one side in a woman's rest room, and that was quickly followed by the destruction of three blocks in Ocean City at an estimated loss of $2,300,000 caused by the backfiring of an automobile in a pile of rubbish.

Here we have brought to our attention two fires which could easily have been prevented. That they have occurred during Fire Prevention week serves to accentuate the fact that they were preventable, and yet the slight degree of care that was necessary to bring about this prevention was lacking. The responsibility for those fires can be found in too many of the instances where life as well as property is destroyed, and when we stop to realize that there are about as many lives lost through fires each year as there are people in Norwich it furnishes much food for more than passing thought. This is increased when it is also remembered that property losses rise to a total of well over a half billion dollars.

There are various ways of meeting such situations. Already there is talk in Ocean City of establishing a code calling for fireproof structures. Another method is to put a curb on the gross amount of carelessness. Fireproof structures will stand in the way of fires but they will not prevent carelessness, so that even though they are made necessary during the reconstruction period there will still be an opportunity for the careless to continue their destruction.

At Revere the woman who tossed a cigarette aside could in a twinkling have put out the firebrand that was responsible. At Ocean City the removal of that pile of rubbish would have eliminated a serious danger point, but it is probably true that thousands of just such conditions are tolerated every day and a big chance taken that may easily mean serious consequences.

How many are going to profit from the lessons taught by those two big fires this week? They are no different than hundreds of others which have preceded them but illustrate a deplorable practice.

THE AMERICAN GIRL

The American Girl failed in the attempt to fly from Long Island to Paris. Something went wrong. There was trouble with the oil pipe, the machine caught fire and was burned. The fliers were picked up and are safe but it was lucky that they fell where help was available. The flight had been planned along the steamship lane where such a rescue was hoped for in case of being forced down, but it appears to have been a ship not crossing the Atlantic but following the European coastline that discovered them in their plight and gave help. The American Girl was without equipment to keep it afloat, another case of attempting a transoceanic flight in a land plane.

Courage on the part of the fliers was not lacking, but neither has it been lacking in the other instances where failures have resulted. In each instance it was failure on the part of the machine and from all indications and it was in the face of just such a possibility that the American Girl was started in the attempt to cover the 3600 miles from point of departure to destination.

Highly gratifying was the prevention of another ocean tragedy. How close a call it was will be known later. This is the second case where fliers have been picked up by vessels when seeking Europe through the air and it doesn't appear to be necessary for any more attempts to be made under conditions which contribute nothing to aviation even in case the trip is successful. There is no call for the risking of human life in such a manner and yet it is not expected that it will prevent others from setting out on similar quests.

CUTTING THE TAX

Indications at the present time point to the probability that there will be a warm contest in congress over tax reduction at the coming session. It was experienced to some extent last session and it will be intensified in December because of the large surplus at the close of the fiscal year and the opportunity which is presented to play politics with it.

From Washington comes the report that the democrats can be expected to urge a tax cut of $500,000,000 and that Senator Simmons is now going over the estimates with a view to leading such a move as a bid to the business men of the country.

It may well be expected that the business men are fully convinced of the efficient manner in which the affairs of the government have been administered and the wisdom of the policies which have been followed. They are not unappreciative of conditions and they well know the effect of that leadership which would invite a deficit while making a play for political effect. Good, sound businesslike guidance of the nation's finances is desirable. It has been had in a conspicuous degree and the time has not been reached when encouragement can be given to the idea of trying to play horse with it.

Tax cutting may well be anticipated at the coming session of congress but when it comes to the amount and the method good judgment rather than political expediency should be the governing force. Let it be a non partisan, scientific handling of the situation and the interests of all will be the best served.

EDITORIAL NOTES

The storm that brings down the leaves is always pleasing to the hunters.

The weatherman indicated he was trying to fill up the brooks and reservoirs.

The man on the corner says: Even quietude doesn't insure a flight across the ocean.

When there is talk about another war, thought always turns to Mexico, China or the Balkans.

There's always a chance in the Balkans for the league of nations to demonstrate its peace power.

With rain, at the start and again in the middle, the weatherman is doing his part for Fire Prevention week.

Of course when the next congress experiences any slack periods it will have a chance to think about disposing of Muscle Shoals.

It will not be long now before the smoke from burning leaves clouds the city, but it cannot approach the smudge that comes from Hollyhock Island.

WHAT IS BEAUTY

That is the trouble with these country house weddings. A lot of ordinarily sensible people get marooned up among the hills with a moon, a murmuring brook and the scent of elderberry blossoms—and almost anything is likely to happen. Remember what it did to Mott Marshall?

Jack brought him up from the station the night before the wedding and dropped him down on the dusky, shadowy terrace, with the cicadas singing like mad and a fountain splashing just out of sight among the laurels. He tossed his hat into a chair and settled down as though he had been there for hours. It was Curt, I suspect, who asked him why the deuce he wasn't married.

"Because," said Mott firmly, "I can't find a woman beautiful enough." There was a rising roar of protest but Mott went on:

"I used to think that what I wanted was love or personality or charm—or even brains. But I know now that I want a face so lovely that I would never tire of looking at it—a perfect body, light and lithe and graceful and vibrant with life."

There was a stir among the shadows and Beth Kenyon slipped quietly into a chair just outside the circle of light from the living room. Enid drew her forth and introduced them. "This is Mott Marshall, Beth. He is to be Jack's best man. And Mott this is Beth Kenyon. She will play the wedding march." As their hands met Mott gave her that quick look of pity that so many people give Beth—when they meet her first.

When Beth was a tiny thing a cruel stab of illness gave her back a wicked twist. For years her father, who owns most of the flour mills in Minnesota, has chartered ships, bought hospitals and endowed universities in vain effort to mend the kink and humble the hump between her shoulders.

Beth looks out upon the world from a thin, sad, colorless little face until she smiles!

"Play something, Beth!" suggested Enid. Beth's music fell softly upon the evening air.

"You're crazy, Mott," Curt was saying. "There is just one possible basis for a successful marriage—companionship." He patted my hand in the darkness.

"Tosh," exploded Mott. "After the first year married people never talk together—they just argue. Anyway, I am going in quest of a woman whose every motion is living poetry; whose face is a symphony of line and color. When I find her—then I'll marry."

In the pause that followed, Beth's music dropped suddenly into a haunting minor key. Mott looked up quickly as though he had just heard it. He rose and sauntered into the living room.

"What's that thing you're playing?" he asked, casually.

"A funeral wail they sing in the farthest Hebrides," she answered.

"Oh!" There was eager interest in his voice. "Have you ever been to the Hebrides islands?"

That was about the last we saw of Mott Marshall at that wedding. We pried him away from the piano long enough to carry the ring. And after that they talked and talked, as though time itself were not long enough for them to get everything said that they found to say to one another.

One night toward the end of summer Curt brought Mott home with him to dinner. He was silent and moody and said he hadn't done a tap of decent work since spring.

When Curt and I came back from doing up dinner dishes we found poor old Mott, a lump of dejection, on the piano bench, picking out Hearts and Flowers with one finger. Suddenly he whirled on us.

"Why won't Beth marry me?"

"Perhaps she doesn't—" I began, fencing for time.

"She does," he cut me short. "I know she does. There is something else. Something I can't get at. What is it?"

His tone sort of ate into your heart. It was so puzzled and aching. Curt dropped down beside him and flung an arm across his shoulders.

"Mott, old chap. Remember that night at Enid's wedding and all that stuff you said about the woman you married having to be the poetry of motion and symphony of line and color? Well, Beth heard you say that. She knows she is not beautiful and she's afraid." Mott sat up sudden and straight and glared at Curt.

"Beth not beautiful? Say—have you ever really looked at her eyes? Or watched her hands while she is playing? She is the most beautiful woman I have ever known!"

"Have you told her that?" asked Curt, gently.

"Well—no—I don't suppose I have," said Mott slowly.

"Well go and do it," and Mott went—so fast that he took Curt's hat instead of his own.—Exchange.

YOUR HEALTH

CHECKING CONTAGIOUS DISEASES BY QUARANTINE

By E. R. Ahlman, M. D., Hoquaim, Wash. Member Gorgas Memorial

Since the day when experience and observation began to show that most contagious diseases are spread through personal contact with matter not through the machinations of the evil eye or other obscure causes created by superstition and ignorance, our efforts to combat the spread of the contagious diseases began to show results. It was found that the surest and best way to check the spread of such diseases was based on the isolation of the patient, thereby limiting contact with other persons and matter as much as possible. That's why you should not break quarantine under any circumstances. That's why you should willingly submit to quarantine whenever a member of your family has a contagious disease.

A case of contagious disease should be promptly reported to the proper health authorities. This is done either by the physician in charge or by any person living on the premises if no doctor has been called. Neglecting this, or hiding such a patient as they are known to do in some backward communities, is a condemnable thing and one of the greatest obstacles in fighting the spread of contagious diseases. Totally ignorant of the presence of such a patient, people will continue to visit the premises and come in contact with infective matter. They will either come down with the disease themselves or become carriers of contagion and thus, unawares, spread the disease.

Upon receipt of a report, the health authorities will immediately take steps to check further spread of the contagious disease. They will remove the patient to a hospital for contagious diseases, if such an institution exists in your community, then they will disinfect the premises and keep the persons living there under observation during the incubation time—that is, the time it takes for a contagious disease to break out after infection has taken place. If no isolation hospital is available, the patient is taken care of at home and in certain types of contagious diseases, as the law provides, the house is put under quarantine. Nobody is permitted to enter such a place except the attending physician who has the means and knowledge to avoid contact with infective matter, and nobody can leave the premises until such time as the health authorities see fit to lift the quarantine. Nothing can be removed from the premises, and all supplies which are needed are placed on the porch or doorsteps. The house is placarded with the name of the disease in plain letters, as a warning to stay away. Before the quarantine restrictions are removed the premises are disinfected under the guidance of the health authorities. As a rule quarantine restrictions are particularly rigid on cases where persons engaged in the sale, handling or distributing of food stuffs have been exposed to contagion.

All these regulations and measures are usually common knowledge, easy to understand, and generally admitted to be necessary. But how about the willingness of the general public to abide by these restrictions? It is true that these restrictions are often inconvenient, and even financially a burden, as in cases where the provider of a family is compelled to refrain from his work and is confined to the quarantine premises. And there will often be considerable interruption in school attendance to the detriment of children. This is deplorable, to be sure, but individual discomfiture and inconvenience should be subordinate to the welfare of the community as a whole.

Quarantine measures are passed for the protection of the public. We should not forget that. It is up to each and every one of us to assist the health authorities by abiding by the restrictions and doing our share in the commendable work of preventing the spread of contagious diseases.

IN THE PUBLIC EYE

Jacob Epstein, the famous sculptor, has returned to America, the land of his birth. In 1903 he left New York, a penniless young man, to study art in Paris. After twenty-five years he has returned to his native land one of the most-talked-of sculptors in the world. For fifteen years he has made his home in London, and five examples of his work are in the Tate gallery. Epstein was born on the lower East Side of New York City, in very humble circumstances. Even as a schoolboy he displayed marked talents in drawing and modeling. His work was brought to the attention of Mrs. Hamilton Fish, who arranged for him to go to Paris. Not long after his arrival in the French capital he designed the tomb of Oscar Wilde, the first of his works to attract wide attention.

IN DESPAIR OVER PIMPLY, RED SKIN

ITCHED AND BURNED—UGLY TO LOOK AT

Healed at last, quickly and easily

Charlotte, Mich., Oct. 21:—"I have been a sufferer from a most unsightly skin disorder, my face being full of pimples and blackheads and my complexion was very muddy. It was very ugly to look at as it was red and firey and it annoyed me by itching and burning. I tried many treatments, but got no relief. When I was a small baby I had eczema on my body and my mother used Resinol Ointment on it and she recommended it to me at this time. In desperation I decided to send for a sample of Resinol. After using the sample I bought more Resinol as I was convinced it was a splendid remedy. After I had applied it four times, the pimples began to heal and at the end of two weeks they had entirely disappeared. Now, I have such confidence in Resinol Ointment I would not be without it." Peter Rabbit Worries

Worry gets one all upset;
It never was of service yet.
—Old Mother Nature.

Peter Rabbit had lost all interest in his work. For two or three days now he hadn't cut a single little path up there in the Old Pasture. In fact, he hadn't done a thing except sit around and worry since Tommy Tit had chanced along and told him how comfortable little Mrs. Peter was down in the dear Old Briar-patch and how extra well she was looking. Perhaps you remember that Tommy Tit had asked Peter about a fine looking young Rabbit he had seen around. He hadn't told Peter where he had seen that fine looking Rabbit, but Peter had at once jumped to conclusions and he was sure that Tommy Tit had seen that fine looking young Rabbit at the dear Old Briar-patch.

"No other Rabbit has any business in the dear Old Briar-patch," muttered Peter. "What's he doing over there, anyway? And what's Mrs. Peter trying to look so nice for? I don't like it. No sir, I don't like it. She has no business to be happy. She ought to to be sorry because I've left her. I'd like to meet that good looking Rabbit. He wouldn't be so good looking after I got through with him. No, sir, he wouldn't be so good looking. I believe I'll run down to the dear Old Briar-patch and see what's going on."

"Good morning, Carol," said Peter.

Then Peter remembered how he had said that he would never come back. Certainly, it wouldn't do to go back so soon. Little Mrs. Peter might think he had changed his mind and that he had come back to see her. No, it would never do. He must try to find out things without going back there.

So Peter began spending most of his time on the edge of the Old Pasture nearest to the Green Meadows and the dear Old Briar-patch. It was too far from the dear old Briar-patch for him to see any one over there. But now and again some of the feathered folk would come along and Peter would at once begin to ask questions. Carol the Meadowlark was one of the first of his old friends that Peter saw. He happened to alight on the post of the fence along the edge of the Old Pasture right close to where Peter was sitting.

"Good morning, Carol," said Peter.

"Why hello, Peter!" exclaimed Carol. "It's a long time since I've seen you. Where have you been keeping yourself?"

"Oh, I'm living up here in the Old Pasture now," replied Peter, trying to speak carelessly.

"You don't mean to say that you and little Mrs. Peter have separated?" cried Carol.

"Well, not exactly separated," said Peter. "I just came up here and she stayed down there."

"I, I understand," replied Carol, which he didn't at all. "Little Mrs. Peter is looking unusually well, I think."

"Does she have any visitors?" inquired Peter.

Carol chuckled. "Well, I visited her yesterday," said he.

"Oh, I don't mean that," replied Peter hastily. "Have you seen any—er—strangers around there?"

"Yes," replied Carol. "I saw a strange cat over there yesterday. Excuse me, Peter, there's Mrs. Carol and I must go join her."

Before Peter could say a word he flew away.

Stories That Recall Others

At the Dentist's

It fell to the lot of Bob, the older brother, to take Harry, a few years younger to the dentist for an examination shortly after the school term opened.

Previously the dentist has drilled one of Harry's molars and filled it temporarily.

Just as the dentist pulled out the temporary filling Bob peered into his brother's mouth and cautiously said: "Gee, Harry, you certainly have a big hole in your mouth."

The dentist noticed Harry whimpered a little but finally the lad settled back in the chair.

Playing Safe

At a recent meeting a speaker told the following story by way of complimenting the principal speaker for his frank stand on certain mooted questions:

In a certain little town was a young chap who was afraid to call his soul his own. He never made a statement without qualifying it. In the same town was another fellow who took keen delight in doing what he was forbidden to do. He enjoyed hunting most when the season was closed and fishing when he was not supposed to.

One winter day the timid chap was out hunting, when he saw the other fishing through the ice in violation of the law. The timid boy told the townsmen, who immediately arrested the fisherman and brought him up in court. The first chap was called in as a witness.

"Did you see this man fishing through the holes in the ice?" he was asked.

"Yes I did," he answered in a quavering voice, and then fearful as to the outcome of such an assertion, he added: "But I don't know whether they were this year's holes or last year's."

A Message to Underweight Men and Women

The one supremely good health building tonic that is also the one great weight producer known to modern science the country over is McCoy's Tablets.

They build flesh where flesh is needed—sunken cheeks, neck and chest—and many a man and woman, skinny and scrawny have thanked McCoy's after a few weeks' treatment for the decided improvement in looks and figure.

Many times the increase in weight is astonishing—one exceedingly thin woman gained 10 pounds in 22 days.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty cent boxes of McCoy's Tablets or 3 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

The name McCoy's Cod Liver Oil Tablets has been shortened—just ask for McCoy's Tablets at Lee & Osgood Co. or any drug store in America.

DESCRIBES WORK OF NEUROPSYCHIATRIC DEPT.

The neuropsychiatric department is one of the branches of the United Workers towards the support of which a portion of the funds secured by district visitation are devoted. The work of this department is described as follows by officials of the organization:

The neuropsychiatric dpartment of the United Workers was established with the expectation that its support would be assumed eventually by other organizations; until this can be arranged it is so oxviously necessary to continue a work of such value to the community, that we ask the cooperation of the public in carrying it on.

The following summary gives a clear idea of some of the activities of the clinic, which has shown a slow sturdy growth.

In its fourth year there has been special development along educational lines. Articles in newspapers and magazines and constantly stirring interest in better mental health, happiness and usefulness to be secured by clearer understanding of personal feelings and how to manage them; how to train children in habits of concentration and resourcefulness, as well as home making, and earning a living; how to be men and women "who can stand ridicule and criticism and persevere in the face of jealousy and friction; who will not wilt in the face of discouragement, nor flare up in anger and quit their jobs. Mechanical or professional skill is only 50 per cent of a person's home value or market value. What evidence does he show of self direction of dependence and inferiority? How does he control his feelings? How does he get on with superiors or subordinates?"

The adoption of the mental hygiene point of view demands as many changes in accepted habits of thinking on these questions as Col. Lindbergh has revealed on the subject of aviation.

The clinic and the committee in charge have helped to stimulate popular interest in better ways of learning how to be healthy, happy and useful. They provide special study groups, consultation service, psychiatric and social, and a very slowly growing lending library of books, pamphlets and magazines, with opportunity for study and discussion. Public appreciation of this is shown by an increasing number of persons who ask advice for themselves or relatives.

Clinic hours are 2-5 p. m. on Thursdays, daily office hour 11-12 or by appointment.

TRAPPED IN PORCH ON HIS SEARCH FOR FOOD

(Special to The Bulletin)

WORCESTER, Mass., Oct. 12.—Elroy Simmons, 18, Thompson, Conn., freshman at Worcester Tech, was arrested this morning when trapped in an enclosed porch at the home of William B. Aspinwall, principal of the Worcester normal school. He will be arraigned in Central district court on a charge of breaking and entering. The boy was discovered by Mrs. Aspinwall who awakened her husband. Simmons is said by the police to have left the house through an unlocked window which led onto an enclosed porch. The window closed behind him and he was found trapped when the police arrived in response to a telephone call. The boy is said to have been in that vicinity for the evening and to have entered the Aspinwall house in search of food.

CONTEST FOR BOY AND GIRL SINGERS OF CONNECTICUT

HARTFORD, Oct. 13.—(AP)— More than a dozen young Connecticut songsters, presumably the pick of the state, will stand before the microphone at station WTIC Saturday night and vie tunefully for the privilege of representing the state in the nation-wide radio audition being conducted by the Atwater-Kent foundation.

The boy and the girl adjudged the best will represent Connecticut in competition with the champions from other New England and eastern states in the district audition in New York in November, over the waves of station WEAF.

CONTRACT FOR COTTAGE AT MYSTIC ORAL SCHOOL

The executive committee of the state board of finance and control awarded the contract Thursday for the construction of a new superintendent's cottage at the Mystic Oral school, to Elisio V. Bartolucci and company of New London. The award is for $14,479.43, plus the cost of composition shingles. The state did not consider any bid calling for wood shingles and the Bartolucci company changed its original bid to cover this provision.

The committees authorized the purchase of eight and three-quarters acres of land from the estate of Walter R. Markham in Middletown at a cost of $4,000 for the protection of the Long Lane farm for women. The last legislature appropriated $20,000 for the purchase of additional land around the farm.

Y. M. C. A. LEADERS MET TO CONSIDER WORK

A supper meeting Thursday evening at the Y. M. C. A. building for the consideration of Association work in this part of the state was attended by the presidents and general secretaries of the Norwich, New London and Willimantic associations as well as he chairman of the Windham county Y. M. C. A., with James L. Case, national councillor, presiding. The work of the various departments was discussed and suggestions were made for improvements that might be inaugurated in this section.

THREE INCHES OF RAIN FLOOD CITY AND ALL SURROUNDING TERRITORY

Three inches of rain that fell in a few hours after 1 o'clock Thursday morning came close to making a record for any similar period within the history of the water department and flooded city streets and the surrounding country. A high wind heralded the approach of the rain and reached the proportions of a gale about 2 o'clock, rain and wind together bringing the leaves off the trees and when the flood of water carried the leaves along to culverts or catchbasins these were quickly clogged up and the adjacent streets flooded. At one time Franklin square was converted into a broad pond, while the hilly streets had washouts of more or less seriousness. The street department was kept busy making repairs where the streets were gullied and in clearing out clogged sewers and catch basins.

Lowlands where the water settled were converted into ponds and lakes, this being the case at the Backus hospital lot along Washington street, at the flats along the Yantic river above Bean Hill and on the Yantic baseball diamond.

The Fitchville road alongside the American Woolen company mill was covered with dirt and stones from the hillside when the outlet to a reservoir on the hill became clogged up and the water came down in a torrent across the road. Supervisor Henry T. Gorman, who is in charge of state highway repairs in this district, had a force of men out clearing the road of the stones and dirt that were piled onto it by the flood.

At one time during the day, Chief George Linton got a telephone message at headquarters from the office of the United States Finishing company that a big iron boiler was floating down the Shetucket river past the bleachery property. Where the boiler came from or what became of it was not learned.

William Graat of 114 Thames street salvaged a motor launch that had been blown loose from its moorings and was floating down the Thames river past the Richmond Radiator Co. works. The boat was nearly submerged when he observed it, but he secured the help of four other men and pulled the drifting launch ashore with much difficulty. The boat had a registration number but there was nothing else to indicate its ownership.

The storm put about 200 telephone services out of order, but of the 4,000 telephone lines in this district, only 48 were affected. Falling limbs from trees caused short circuits in a number of instances. The telephone company, in order to make prompt repairs, took crews off construction work and put them to work repairing the storm damage.

The gas and electric department encountered considerable trouble in the Norwich Town section. For a time light service was crippled in that section.

Pautipaug hill in the town of Sprague was reported to have been gullied out by the storm so badly that it was almost impassable and the expense of repairs on the hill would be about $500.

LYON TELLS LIONS HOW TELEPHONE EXCHANGE WORKS

The public pay station and the telephone in general was the topic of an interesting talk given by Henry S. Lyon, local exchange manager for the S. N. E. Telephone Co. at the weekly meeting of the Norwich Lions club Thursday noon at the Wauregan hotel. Frederick Bielefield, scout executive for Norwich, gave an interesting report relative to forest fires in the state. It was announced that several civic clubs of the city have accepted invitations to attend the concert by the Royal Welch Ladies to be held soon under the auspices of the Lions club.

In his talk Mr. Lyon said:

On one subscriber's line from subscriber to operator, there are 82 soldered connections in the central office.

There are 234 soldered connections in use when two subscribers are talking together in Norwich.

To give you some idea of the magnitude of soldered connections in a central office the size of Norwich, I give

HENRY S. LYON

you the following data:

Terminal Room—Main district frame 45,000; intermediate district frame 100,000; relay rack 66,440; coil rack, repeating 8,000; toll test board 3,780; service observing desk 3,000; fuse panel 2,250; power board 500; local test board 1,280; total 230,250.

The operating board in Norwich consists of 28 positions, 9 of which are used for toll work; the remaining 19 are used solely for local work.

On each of these positions, there are approximately 8,500 soldered connections, all of which must be kept tight and in good condition.

In the multiple of board there are 2,700,000 soldered connections.

The total number of soldered connections in the board numbers approximately 2,791,000.

Relays—In the terminal room there are approximately 9,000 relays. Among these relays are about 50 different types, each type varying from the next in characteristics, adjustment and appearance. These relays must be maintained always, in perfect condition ready to operate when the circuits, of which they are a part, are in use.

There are 1125 relays enclosed in the switchboard proper. Nearly every one of these relays are used thousands of times each day as evidenced in the following information.

The average number of local calls handled per day in Norwich is approximately 26,422. Six hundred "out toll" calls are placed in Norwich daily. Fourteen hundred "in toll" calls are handled daily. The total number of calls handled daily by the local and toll traffic force is 28,422, or per year 10,374,030, which is a pretty large figure. Calls for information exceed 500 per day, or 182,500 per year.

Going back to the number of soldered connections in the entire central office, I estimate that there are over 3,000,000. This is a very conservative estimate. There are 3122 circuits working at the present time. We have facilities for over 4,000. When two local subscribers are talking together they are using six relays, in addition to the miles of wire which they see strung on pole lines and in cables.

During a year in Norwich, we have approximately 15,000 cases of trouble. Many of these are due to the elements, namely thunder storms, heavy rain storms, hail and sleet. About 20 per cent of all trouble is located in the central office. Receivers off the hook accounts for 17 per cent of our trouble; 2,500 R. O. H. in Norwich in a year. We clear about 50 troubles per day on the average.

In Norwich we have 40 miles of aerial cable and 15 miles of cable which is underground. The milage of our aerial line wire is nearly 2,500 miles. There are 950 U. C. and aerial terminals in Norwich, some of which are on poles and some in cellars, from which the subscribers' loops are run.

One hundred and ten toll circuits cut in the Norwich test board, 95 of which terminate in the Norwich operating board. We have 34 A. B. circuits between Norwich and the various cities nearby, covering eastern Connecticut from Danielson to New London and Mystic.

DISTINGUISHED PRELATE WILL PONTIFICATE AT CHRIST CHURH

The Most Reverend William Henry Francis, D. D., of New York, archbishop and metropolitan of the Old Catholic church in America, is to pontificate at the annual acolyte vesper service to be held at Christ church on the evening of October 18th. The service is being arranged by the members of St. Vincent's Guild of St. Andrew's church, and not only clergy and acolytes from throughout the diocese of Connecticut are to be here for the service, but representatives of the Eastern Orthodox churches in communion with them are to be in attendance. Rev. Louis Howell of Norwalk is to be the preacher of the evening, and from 7 to 7:30 p. m. there is to be an organ recital by Stanley Pierce, organist at the church.

Archbishop Francis is the ranking prelate of the Old Catholic church in America. Under orders from the archbishop of Utrecht, His Eminence is the supreme head of the church in the United States and Canada, and because of his high rank, his visit to Norwich is a matter of unusual interest.

Supper is to be served to the visiting clergy and acolytes in the parish dining room early in the evening. Pontifical vespers will be sung at 7:30 p. m.

TO DEDICATE PALMER HALL AT NORTHFIELD

Palmer hall, the recent gift of Mr. and Mrs. George S. Palmer of New London, to Northfield seminary, East Northfield, Mass., will be dedicated with appropriate exercises on Saturday afternoon. Mr. and Mrs. Palmer were guests of the Northfield hotel over the past week end. Mr. Palmer is a member of the board of trustees and of the finance committee of the Northfield schools, of which the Northfield seminary is the girls' branch, and will speak at the dedication service.

The new Palmer hall, recently completed by the H. Waleg Lines company of Meriden and this city at a cost of aproximately $200,000, is of brick with marble trimmings, and contains 20 class rooms. The entire upper floor is occupied by the science department, while the first and second floors are used for general class rooms. It stands on a slope of the most elevated section of the campus, between Weston and East halls, overlooking the administration building and the old Stone hall tower clock, and commanding and arresting view of the Connecticut valley and distant mountain ranges.

NOANK WOMAN HEADS COUNTY W. C. T. UNION

At the annual convention of the New London County W. C. T. U. Thursday at Trinity Methodist Episcopal church Mrs. Lois Shandeor of Noank was elected president for the coming year. Other officers were elected as follows:

Vice president, Miss Ethel Barrows of New London; secretary, Mrs. Rosalie Rogers of New London; treasurer, Miss Harriet Cross of Norwich. Rev. J. Harlow Graham, pastor of Trinity church, extended a welcome to the delegates. Reports were heard from the directors of the scientific S. T. I. and L. T. L. work. The state president, Mrs Lena Greenbacker of Middletown and Mrs. Mary Stearns of Willimantic delivered interesting addresses. Mrs. Stearns told of the recent national meeting. Rev. David A. Pitt, D. D., pastor of the Central Baptist church, also addressed the meeting.

The retiring county president, Mrs. Lillian Slocum of New London, presided at the meeting which was attended by delegates from unions in the county. Mrs. Albert Boardman welcomed the delegates in behalf of the local union.

BRIDGE TROUBLE MADE STEAMER CARISCO LATE

Arrival here of the steamer Carisco of the Thames river line on her regular trip Thursday morning from New York was delayed about two hours by trouble at the highway bridge at New London which was out of commission.

The loss of power at the bridge occurred about 7 o'clock and due to the telephone being out of commission word of the trouble had to be relayed to the Connecticut Power Co. by Walter Bump, towerman at the New Haven road tower at Groton.

Repairs were not completed until about 9 o'clock and in the meantime the Carisco was forced to stand by below the bridge. The telephone to the bridge was still out of commission at a late hour Thursday.

Halloween Entertainment For Class

The October meeting of the Philathea class of the United Congregational church school was held in the church school rooms, last week, with Mrs. Everett Maurice, Mrs. Philip Roberts and Miss Nellie Crowe as hostesses.

After a short business meeting Halloween stunts under the direction of Miss Marion Beebe and Miss Jane Dearing afforded much amusement. The prize of the evening went to Mrs. Edwin Colt.

Later in the evening the class adjourned to the Philathea class room which was very prettily decorated for the occasion. The hostesses served a delicious Halloween luncheon of cider, sandwiches, doughnuts, assorted cakes and candy.

SUDDEN DEATHS IN PAST THREE MONTHS

INCIDENTS IN SOCIETY

Mr and Mrs. Walter E Gilbert have closed their Groton Long Point cottage for the season and are at their home on Broad street.

Dr. and Mrs. Henry Allen Kelley, of Portland, Me., are visiting for a week with the latter's mother, Mrs. Zebulon R. Robbins, of Cliff street.

Announcement was made of the engagement of Miss Elisabeth Sevin to Reed Wadsworth Tisdale, of this city, when the Wednesday evening bridge club met this week with Miss Sevin, at her home on Bliss place.

When the Monday Study club opened its season, meeting with Mrs. Edward J. Graham at her summer home, Wallstone, Lebanon, the paper on "Edward VII and Elizabeth of York" was read by Mrs. Wallace S. Allis. Miss Jane McG. Aiken treated the oral topic, which was "The Chapel of Edward VII".

NEW ENGLAND CONFERENCE SLATED FOR SPRINGFIELD

New England commercial agricultural and industrial organizations soon will receive formal invitations to the third New England conference to be held in Springfield, Mass., on November 17 and 18.

This conference, called by the New England council, is expected to be the greatest gathering of New Englanders ever held under one roof or in one city. Last year, at the second New England conference in Hartford there were some 1,200 in attendance. Springfield confidently expects that she will be called upon to entertain 2,000 delegates and guests.

This year's conference will differ from the one in Hartford last year to the extent that a part of the time will be given over to group sessions dealing with agriculture, industry and recreational resources. The conference will open on the afternoon of Thursday, November 17, at which there will be a general session dealing with the results and future activities of the various committees of the New England council. The morning of the seventeenth will be given over to registration at the books to be located in the lobby of the Municipal auditorium.

State meetings will be held on Thursday evening in various parts of the municipal group of buildings of which the auditorium is a part. At these meetings will be elected the members of the New England council from each state.

Friday morning the group sessions will be held, and it is expected that many organizations interested in the three phases of New England development to be discussed—agriculture, industry and recreational resources—will instruct their three delegates to separate and cover each of these meetings. The recreational group session will be continued Friday evening after a second general session in the main auditorium on Friday afternoon. At this session the chairmen of the state and group meetings will report on the accomplishment of those meetings, and there will be a general discussion of a future program for New England's development.

BALTIC

Mr. and Mrs. Lawrence G. Drescher have returned after their vacation, spent at Groton Long Point, New York city and in the Catskills.

About six o'clock Thursday morning the residents about Jodoin Square were aroused by a noise which sounded like a blast. After investigation it proved to be a chimney which the heavy wind had toppled. This chimney was on Mr. Martin's home, overlooking the sun parlor into which it crashed causing considerable damage, along with a little fright.

William Stentson and Henry St. Germain, who figured in an automobile accident with Mr. Pion, in Taftville, Thursday morning, are able to be around, although they are badly bruised.

Miss Dorothy Lynn spent Columbus day visiting friends in New London.

BRINGS SUIT ON CLAIM FOR $5,000 IN DAMAGES

Suit for $5,000 damages has been brought by Peter Duffie, Sr., against Walter R. Thoma, both of this city, for injuries which Duffie received when he was riding a motorcycle which was in collision with Thoma's automobile on North Main street on the morning of Sept. 30, 1927.

Papers in the suit have been filed at the office of the clerk of the superior court in which Duffie claims that his injuries consist of two gashes on right leg requiring fourteen stitches, right ear cut, left wrist sprained, body and limbs bruised and internal injuries.

The suit is returnable to the superior court in November.

MOTOR TRIP TO NORTHERN NEW ENGLAND

Mr. and Mrs. Nathan E. Whiting and Mrs. Charles E. Briggs have returned from a motor trip over the Mohawk trail to Plymouth, Vt., where they visited the Coolidge home. They returned by way of the Connecticut river valley, stopping one night at the home of Mr. and Mrs. Richard Potter at Charlestown, N. H., former residents of Norwich.

How to Banish Piles

Dr. Leonhardt Has Discovered a Harmless Internal Remedy That's Guaranteed—No Cutting—No Messy Salves

If you think that the surgeon's knife is the only method of escape from the misery of piles, it's because you haven't heard of the new treatment known as Dr. Leonhardt's HEM-ROID.

The Doctor's treatment is internal. By experimenting, he discovered the cause of piles and then went further and compounded a remedy that would remove the cause.

Every pile sufferer should benefit by his discovery and so that there will be no doubting or delay, Lee & Osgood Co. and all druggists are authorized to sell HEM-ROID with guarantee that it will do as stated or money back.

On that honorable basis every pile sufferer should try Dr. Leonhardt's HEM-ROID without delay.

Grandmothers Knew The Secret

In 1851 there was introduced a pure-quality herb laxative

Dr. True's Elixir

Grandparents, present-day mothers, and the younger generation have relied upon Dr. True's Elixir to give them and their children just the right kind of relief from worms and constipation, indigestion and other stomach complaints. No wonder it is known as

ACADEMY FAVORITE TO WIN OVER WESTERLY HIGH THIS AFTERNOON

For the first time in nearly a score of years the Academy enters a football game with Westerly as the favorite. The game comes this afternoon at the campus starting promptly at 3 o'clock.

Because of early season records, the means which the Red and White has taken to dispose of their two adversaries and because of the advantage of playing before a home crowd that believes that N. P. A. is now on the way to a great football season, the locals should win today. If both outfits play the ball of which they seem capable then the Academy should be about one touchdown better.

In its two starts the Academy's grid machine has shown a lack of teamwork. The engine has not begun to hit on all cylinders.

The material seems to be there but in an undeveloped state, as yet. Although there were only three veterans from the 1926 team reporting this year, nevertheless there is a wealth of candidates on hand who have played football before somewhere. Practically the entire second team of last year came up this year and many of them are now included among the first stringers. Development seems to be becoming effected slowly but surely and once they do, then, look out!

While the Academy considered itself hard hit when eight of its first stringers played their last game last Thanksgiving, it has but to look to Westerly to see just as tough a situation, if not a little more so. Coach Rogers has no Ray Meikle, "Boots" Salimeno, Turoo, DeRocco to run out his formations this year for they also have departed.

In their stead Capt. Leo Spellman, Dave Meikle, Sawyer, et al. are carrying the burden and whether they are better is the thing that will be proven at N. P. A. this afternoon.

Westerly has run up three scoreless ties in as many starts this season with its inexperienced but scrappy outfit. Central Falls, Colt Memorial and Windham have all journeyed to her stronghold and after hard battles retired with nothing to show for the efforts.

The Academy, in two starts, disposed of Chapman Tech and Torrington high, but in neither did they look overly impressive. Tech was sent back home on the weak end of an 18 to 0 count while Torrington was barely beaten 7 to 6, an offside on a try for extra point providing the margin. The locals have yet to rush a point past the set of lines that now mark the goal. Of the three touchdowns in the Tech game one came on a recovered fumble, one on a long forward pass and the other on an intercepted pass. The touchdown in the Torrington tilt came on a forward.

The Red and White has shown a strong land attack in midfield but once they get down within the last ten or fifteen yards then their offensive, is not so good, as the boys say. As yet they have not shown that strong punch so essential to a successful eleven. Failure to "hit when hits mean runs" is what might be the description here but whatever it is the fact remains that the locals have yet to show "it".

The Academy has the basic foundation for a strong forward passing attack. The plays appear well conceived and have been nicely carried out to the point where the receiver enters into the picture, only to have this latter individual muff the throw time and time again. What few passes that have been caught have gone for long gains and if they could only get into the knack of catching more and more of these passes then things would appear rosier to Academy supporters.

The Academy lineup for today will probably be LaCroix and Greene at ends, Shea and Kahn at tackles, Fox and Mish at guards with Murphy at center, Bill Tirrell at quarter, Jim Kelly and Harry McGlone at the halves and Capt. Jack Marks at fullback.

The Academy should outweigh Westerly today although the exact figures are not available.

Although today's game is not one to have a bearing on the Eastern Conn.-Western Rhode Island grid title, yet it should go quite a ways toward determining which is the best team in this council. The Academy and Westerly seem to be the stronger in this loop. The locals are not included in the football end of it officially.

AERIAL ATTACK EXPECTED IN MAJORITY OF GAMES

NEW YORK, Oct. 13—(AP)—Indications of an intensive aerial attack on eastern college fields Saturday were in prospect as squads drilled with the forward pass offensive today.

Pennsylvania worked out the overhead drive which Coach Lou Young plans to hold in reserve when the Red and Blue stacks up against Penn State. Bedzek's warriors, twenty-seven strong, left for Franklin field after a rousing send off at State college.

The Harvard varsity was drilled at coping with a snappy forward passing play expected from Holy Cross and its star hurler, Blondy Ryan.

Horween had the Crimson coaches representing the Purple in an afternoon scrimmage. The Crusaders had a light practice session at Worcester.

The return of Johnny Hoben, quarterback, who was injured in the Georgia game, broke as good news on the Yale campus. Waldo Greene and Bruce Caldwell were also back in the Blue lineup ready for the mixup with Brown. Most of the Bruins who played against Eli last season will be pitted against the Yale line again.

At Annapolis, Navy had a long workout which extended until after dark under electric lights consisting chiefly of forward passing and a defense of an aerial attack anticipated from Notre Dame.

Seven players, including two varsity men, Black and Harris of the backfield, will be out of the Dartmouth lineup against Temple it was announced today, because of injuries.

Passing and punting marked the Army program in preparation for Davis Elkins. Cagle, Meehan, Hutchinson and O'Keefe displayed great skill in an aerial offensive.

Only a brief drill was held by Crowley's Columbia charges. The Lions expect to use two sets of backs against Colgate.

The Hamiltonians left for New York and will work out on Baker field tomorrow.

Bill Roper had Baruch, Lowry and Wittmer picking the pigskins out of the air and passing in a forward passing drill at Princeton. Norman was out of the backfield for the Tiger but will be in shape for the game with Washington and Jefferson.

Syracuse polished off a hard grind with several new formations to be used against Georgetown. Lafayette intends to make extensive use of the aerial drive against West Virginia.

MARTY GILMAN TO PLAY GUARD FOR AGGIES SATURDAY

(Special to The Bulletin)

STORRS, Oct. 13—In facing Springfield college at Springfield Saturday afternoon, the Connecticut Aggies will present a somewhat changed eleven from the combination which started the Maine contest last week.

Coach Louis Alexander said early this week that some changes would probably be made, and his team "A" lineup used this afternoon indicates that the changes have already been made.

Dummy scrimmage took up most of the two hour practice session this afternoon, Alexander directing his men carefully in carrying out their individual assignments. His first lineup saw Howard Kennedy and Henry Schildgen on the wings, Ken Wilson, Marty Gilman and Ed Colacurcio in the guards, and Red Geissler at center. In the backfield, Bill Knaut called the plays, Captain Eddy and Pop Williams filled the halves, and Ray Ryan played fullback. This is the probable starting lineup against Springfield, though there is always the possibility of last minute changes right up to the time of the first whistle.

In giving Wilson the first call at left tackle, the Springfield boy is temporarily, at least, winning back the position he held regularly last year. Coe Hawkins of Hartford has been playing tackle and Wilson guard, but Alexander hasn't been satisfied with the latter's play as a guard and from now on he will undoubtedly be played at tackle or not at all. Wilson has a real fight on his hands to remain a regular, for Hawkins has come along fast this year and has played good football in all three of the Aggie contests.

A 180 pound guard is a rarity in college football, but that's exactly what the Aggies have in Mart Gilman, Norwich youth, who will start at right guard for the Storrs eleven against Springfield. Ed Colacurcio will get first call in the other guard position. Gilman, in winning a regular guard berth on the Aggie eleven, had to compete with two much heavier men in Dick Ruffkess of Hartford and Whitey Begren of East Hartford. The play of Begren, incidentally, has shown great improvement this year, and he is certain to see plenty of action before the final game is played. Begren is a senior who has been out for football each year since entering the State college. At right end, it seems definitely settled that Henry Schildgren will get first call instead of Seraphino Tombari of Norwich, though the latter will probably play at least a part of the game.

DOOLEY AND FRIEDMAN IN FRIENDLY PASSING CONTEST

NEW YORK, Oct. 13—(AP)—One of those mythical meetings between great college quarterbacks of the past who never played on opposing teams became a reality today when Bennie Friedman of Michigan and Eddie Dooley of Dartmouth met in a forward passing duel on the deserted turf of the Polo grounds.

With the deadly accuracy of a thrown spear, the ball went hurling down the field for 50 and even 60 yards as the friendly rivals fought it out. Long range honors went to Dooley but Friedman proved the better sharpshooter.

No challenge was needed. With a clasp of huge palms they met in a downtown hotel for the first time since they were introduced at an "All-American dinner" here two years ago when at the height of their college fame, fell to talking of football and drifted to the Polo grounds for a workout by common consent.

In the fine art of pegging the ball at the precise spot in the air where it would fall lightly as thistledown into the arms of a racing runner, Friedman was adjudged the winner by vote of the "crowd," consisting of four persons, including the park custodian.

"Let's try for distance, now Ben," Dooley suggested, leading the way toward mid-field. Gripping the oval like a baseball he sent it sailing up and over the goal posts 50 yards away for a total non-stop flight of 60 yards. Try as he did, Friedman could not quite clear the bar, and honors were considered even.

The duel bore out the records of their work in college games. On the books is a 55-yard pass by Dooley to Myles Lane that scored a touchdown, while most of Friedman's scoring passes to Oosterbaan and others ranged from five to 23 yards.

From Friedman, Dooley learned how near he came to having to compete with Bennie for the job of quarterback at Dartmouth.

"I was all set to go to your school myself," the Michigan player told him. "A week before I was to go east I went up to Ann Arbor, and liked the place so well I stayed."

"Lucky for me," commented Dooley. "They'd have had to make a center or something out of me if you had come to Hanover."

THREE REGULARS RETURN TO YALE LINEUP

NEW HAVEN, Oct. 13—(AP)—Three regulars returned to the Yale first team lineup this afternoon allowing Head Coach Tad Jones to give his best eleven a long workout preparatory to the Brown game on Saturday. Johnny Hoben, quarterback, who was injured in the Georgia game, Waldo Green, who was out this week due to a charleyhorse, and Bruce Caldwell, who was given a rest yesterday, were in the lineup today. No changes are expected in the lineup before Saturday's game. Earl Goodwine, another first string back, was injured in yesterday's scrimmage and did not work today, but may play against Brown.

The team as it is expected to play against Brown is as follows: Scott and Fishwick, ends; Quarrier and Eddy, tackles; Green and Webster, guards; Charlesworth, center; Hoben, quarterback; Caldwell, Decker and Cox, backs.

GRAMMAR SCHOOL CHILDREN FREE AT YALE-MARYLAND GAME

NEW HAVEN, Oct. 13—(AP)—Because of numerous requests from high school groups throughout the state for information as to admission to the Yale-Brown game, the university today reiterated its announcement concerning free admission of children.

Children of grammar school age, or under, will be admitted to the Yale-Maryland game, free of charge, provided group leaders make application for tickets not later than October 31 and procure badges. The number of tickets requested must be specified. High school children will not be admitted free.

Hill Beats Moracchini

LONDON, Oct. 13—(AP)—Johnny Hill, British flyweight champion, defeated Franco Moracchini, of France tonight when the referee stopped the bout in the ninth round.

INDUSTRIAL BOWLING LEAGUE OPENED SEASON THURSDAY

The Weave room team of the American Woolen Co., carried off all honors in the opening night's play in the Industrial Bowling league Thursday evening at the Aetna alleys. The Weave room led by Bentley with his 350 total went 25 pins over the 1500 mark in winning three straight games from the International Silver team. Bentley also had high single with 125. The Thermos team took three straight from the E. C. P., while the U. S. Finishing five took two from the Yantic Woolenmen, the second string being a tie. The scores:

ACADEMY WILL USE ARMORY FOR BASKETBALL

The Academy has secured the State Armory on McKinley avenue, for their basketball team this winter, according to an announcement made Thursday evening by Manager Mace Goldblatt. This replaces the Y. M. C. A., the scene of the Red and White home battles in its first year at the sport in 1926.

It was also made known that practice for this year's quintet will start about the third week in November, right after the Bulkeley game, and that the first game will be about a month after that date.

Manager Goldblatt is now busy getting the schedule lined up and to date has close to 15 tilts pending with leading schools of the state. The majority of games will be played at home, bringing only the pick of scholastic quintets to this city. The schedule, when completed will probably contain close onto 20 games, opening in mid-December and closing the early part of March.

Schools with which games are now being sealed include New Haven Hillhouse, Torrington, Naugatuck, Waterbury Wilby, Weaver, Bulkeley and Kingswood Prep of Hartford, Windham, Stonington and others. As yet no game has been arranged with Chapman Tech, it is understood, although this will probably be done shortly.

The seating capacity of the local drillshed is much greater than that of the Y, which on more than one occasion last year was insufficient to handle the crowds. The Chapman Tech and Bulkeley Independents games were the most noteworthy in this respect when the crowd overflowed onto the playing surface and greatly slowed up the fray.

Any occurrence of this kind will no doubt be done away with in the new location although much larger crowds would seem to be in order this year. The fans showed support to the team once it started its sensational winning spurt the latter part of last season and should this good work by the boys continue this season then maybe "ground rules" will be in vogue even in the much enlarged home floor.

Save Capt. Ray Yerrington who is now attending Springfield Y. M. C. A. college, all other members of that game band that made history for N. F. A. in basketball last season will be available for the opening bell. They are Capt. Jim Kelly and Buck LaCroix, guards, who blossomed out in the latter part of the season to be widely proclaimed as among the best in their line in the state, Les Pingree, center extraordinary, Joe Viau, who alternated between center and forward, Lloyd Jarvis, forward and Dave Tigar and Swatzburg. The latter two saw but little service but looked promising. There are some newcomers who carry "reps" that appear pretty good.

Taken all in all the outlook in basketball for the locals is brighter than in any other sport this year.

WORLD'S SERIES MELON IS CUT LANDIS SENDS OUT CHECK TO PLAYERS

CHICAGO, Oct. 15 (AP)—The world's series players' melon amounting to $339,440.67, the greatest in baseball history, was split up into 170 shares by Commissioner Kenesaw Mountain Landis tonight when he mailed checks to the conquering Yankees and members of the teams which finished second, third and fourth in the American and National league races.

The defeated Pirates have not yet notified the commissioner how they want their losers' end divided with the result that he still is holding $111,843.39, the amount the Pittsburgers got for their disastrous series with the American league champions.

The Yankees split $167,765.06 into 27 full shares of $5,782.24. Miller Huggins, manager of the club and Arthur Fletcher and Charley O'Leary, coaches each received full shares along with the players. The traveling secretary, trainer and club attendants received checks for portions of shares.

The Athletics and Cardinals, which finished in second place in their respective leagues, divided $29,958.06 each, the Athletic players splitting their award into 25 shares of $1,178.32 and giving "Baby Doll" Jacobson, an outfielder who was only with the club a short time $500. The Cardinals divided theri purse into 27 shares of $1,033.02, split up one full shares between the trainer and secretary, and another shares was split three ways to take care of "Rabbit Maranville, Fred Frankhouse, rookie, pitcher, and Ernest Orsatti, young outfielder. Each received $344.35.

The third place Senators and Giants each divided $19,972.04, twenty seven players receiving full shares of $665.73, while three shares were divided equally among club officials in amounts of $332.87. The Giants divided their amount into 25 shares of $783.22.

The fourth place clubs each distributed $9,986.02, the Cubs having 31 shares of $315.69, with each of the bat boys receiving $100 each. The Tigers vided their purse into 27 shares of $1,332.87 and split two shares between H. Billings and clubhouse attendants.

In all instances, the players included their travelling secretaries, trainers, coaches and club house attendants, and Nick Altrock and Al Schacht comedians of the Washington club, who amused the world series fans.

KEARNS AND DEMPSEY MAY PATCH UP BREACH

NEW YORK, Oct. 13—(AP)—Despite the assertion in Salt Lake City today of Jack Dempsey that he "wouldn't consider" proposals for peace with his former manager, Jack Kearns, other developments indicated definite moves are under way to patch up the differences between the pair, looking toward the eventual resumption of Dempsey's management by Kearns.

Kearns, here, authorized the announcement by his associate, Teddy Hayes, that he had agreed to indefinite postponement, in Trenton, N. J., of an action to recover $333,333.33 from Dempsey under the terms of their former contract. According to Hayes, eKarns went to Trenton today with his lawyers to effect this postponement but Arthur F. Driscoll, of counsel for Dempsey, declared he "knew nothing" of this or of any negotiations to settle the Kearns-Dempsey differences out of court.

Most boxing observers were skeptical of any arrangement which would put Dempsey again under the management of the man who piloted him to the championship but also were willing to admit that "stranger things have happened in the boxing racket." Hayes, however, asserted definite moves were under way, first to settle legal differences and then bring the two together, thus confirming a copyrighted story published by the New York Daily News this morning.

According to Hayes, Dempsey wants further time to consider peace proposals. Kearns, Hayes said, plans to leave for the Pacific coast in about ten days to meet Dempsey.

Reports of a Dempsey-Kearns approachment were current last summer but al lhands turned thumb down at the time. It is generally understood by boxing men that Leo P. Flynn, who supervised Dempsey's preparations for the Sharkey and Tunney fights, no longer will be associated with the ex-champion before the title fight in Chicago, reports of differences between Flynn and Dempsey persisted in spite of denials.

Dempsey and Kearns split in 1925, a few months after the fighter married Estelle Taylor, screen actress.

MANDELL AGREES TO DEFEND TITLE FOR MULLEN

CHICAGO, Oct. 13—(AP)—Sammy Mandell, world's lightweight champion, came t oterms with Promoter Jim Mullen tonight for a match involving the title at the coliseum here Nov. 14. It will be Mandell's second defense of his crown since he won it from Rocky Kansas in the rain here a year ago last July. Mandell defeated Phil McGraw in Detroit last July, the first dangerous opposition encountered.

Promoter Mullen has six opponents in prospect and will select what he considers the outstanding challenger. Those under consideration are: McGraw, Louis (Kid) Kaplan, formerly recognized by the New York athletic commission as featherweight champion; Spug Myers of Pocatello, Idaho; Stanislaus Loayaza; Billy Petrolle, Fargo, N. D.; Jimmy McLarnin and Hilario Martinez, the Spanish lightweight champion.

Mandell's decision to fight, Mullen said, was not influenced by the threatened action of the National Boxing association, which, according to reports, intended to strip him of his title because of his apparent reluctance to meet outstanding challengers more frequently.

STATE TEAM MATCH WITH MASS. SATURDAY

BRIDGEPORT, Oct. 13—(AP)—The Connecticut golf team headed by W. Parker Seeley of Bridgeport, will meet the Massachusetts team in the final match for the tri-state team championship Saturday afternoon at the Belmont Springs Country club. The team winning Saturday's match will win the championship as both teams hold victories over the Rhode Island team.

Frank Ross of Hartford will be the number one player on the Connecticut team and the other players will probably line up as follows:

Number two, Paul Havlland, Bridgeport; number three, Johny Sill, Bridgeport; number four, George Smart, Hartford; number five, Clive Alvord, Greenwich; number six, Sid W. Mott, Bridgeport; number seven, W. Parker Seeley, Bridgeport, captain; number eight, H. D. Strong, Bridgeport; number nine, Bud Geoghegan, Hartford; number ten, Sam Smart, Hartford.

RUANE WINS OPENING FEATURE AT ARLINGTON

CHICAGO, Oct. 13—(AP)—Before a shivering crowd of 12,000 racing fans, J. B. Partridge's colt, Ruane, a son of Behave Yourself, came from behind to capture the $10,000 Chicago day handicap, the stake feature race inaugurating the opening 16 day meeting of the American National Jockey club at Arlington Heights this afternoon.

The winner paid the surprising odds of $40.02 in the $2 a mutuels and despite a heavy track, ran the mile in 1.47 3-5. Devon paid $20.24 to finish second, while $3.34 was the show price on Mix-Up, the favorite.

Chicago's civic and society leaders turned out almost en masse to attend the inaugural program on the new $2,000,000 track that H. D. Brown, the California sportsman and his Chicago associate built. It was Charity day, with the gate receipts going to children charities.

For the first time at a Chicago race track, a mutuel totalizer was used.

The track is one of the most pretentious in America, with elevators to the top of the grandstand, and club house quarters so gorgeous that the plant looked like a hotel.

BETTING ON FIGHTS IS NOT A MISDEMEANOR

NEW YORK, Oct. 13—(AP)—Acceptance of wagers on prize fights legalized by the Walker boxing law does not constitute a misdemeanor, it was decided today by Supreme Court Justice Valente, who granted a writ of habeas corpus freeing Irving P. Weiner from trial in connection with taking a $500 bet on the Delaney-Maloney fight last February.

"When the cloak of illegality is stripped from the fight," Justice Valente ruled, "then the taint of criminality disappears from a wager laid upon the result of the contest."

He pointed out that those sections of the law governing prize fights before enactment of the Walker law were stripped of their power by the latter bill, and that restrictions against betting were cleared away with the ban against fighting.

The ruling was interpreted as still another step in the campaign against anti-betting legislation by varied sporting interests.

ACADEMY TO RUN WESTERLY IN CROSS-COUNTRY TODAY

The Academy cross-country team opens its season between the halves of the Westerly football game at the campus this afternoon in running against the harriers of that same school.

Coach Matthew Sheridan has had about 30 candidates working out for nearly three weeks and right now they seem in pretty fair shape. This is the second year of the sport at the local school, the Red and White making a nice showing in 1926.

The Rhode Islanders will send up a strong outfit that should test the locals to the minute and an exciting time seems in prospect.

Seven are slated to start for each school.

N. Y. Hockey Team Sells Scott

NEW YORK, Oct. 13—(AP)—The New York Americans of the National Hockey league today announced the sale of Laurie Scott, substitute wing, to the New York Rangers. He is to report to the training camp of the Rangers at Springfield, Mass., in about ten days.

Scott formerly played with the Sakatoon club of the Western Canada league.

Wesleyan Captain Off Squad

MIDDLETOWN, Oct. 13—(AP)—Captain J. Lee, of the Wesleyan eleven has been left out of the revised lineup for the game against Bowdoin at Brunswick, Me., on Saturday. His place at end will be filled by Williams, a junior, with Bagg withdrawn from his backfield position to serve as reserve end. A. K. Fricke and C. M. Lester, both 1924, have been helping coach "Bill" Wood with the team this week.

HOLY CROSS PLAYS TEND TO BAFFLE HARVARD

CAMBRIDGE, Mass., Oct. 13—(AP)—Holy Cross, impersonated by a team of coaches, had Harvard's varsity football team outsmarted the greater part of the afternoon in a dummy scrimmage that marked today's preparations for the Crusaders' invasion of the stadium next Saturday.

Holy Cross is expected to unleash a spectacular forward passing attack with Blondy Ryan doing most of the tossing, and this afternoon's drill saw the coaches, with Roger Doherty, '25, in the role of the Holy Cross passing artist, foot the regulars with several of the deceptive H-C plays. Howie Burns, 144 pound quarterback, and Wallie Harper, sophomore fullback from Ottumwa, Iowa, seem to have won the spurs as running mates with Guarnaccia and Crosby in the backfield.

DARTMOUTH LOSES SEVEN PLAYERS FOR TEMPLE GAME

HANOVER, N. H., Oct. 13—(AP)—Dartmouth's chances against Temple university, scheduled to meet the big Green here on Saturday ,diminished today when Trainer Harry Hillman announced that seven players would be out of this week's game. Two of these, Dick Black, fullback, and Bob Harris, halfback, are first string men.

Three second string guards, Phinney, Gray and Bragner, and two tackles, Roberts and Brown, also will be unavailable against Temple; second highest scorers in the east. Art Gow, varsity center, who had been on the bench for four days, was back in the squad today.

Light Drill for Holy Cross

WORCESTER, Mass., Oct. 13—(AP)—A long signal drill in which a forward passing offensive was stressed and a dummy scrimmage in which the varsity eleven worked against Harvard plays and formations today concluded Holy Cross' heavy training for its annual game with Harvard Saturday. Only a light signal drill and kicking practice will be held tomorrow.

Dole Returns to C. A. C.

STORRS, Oct. 13—(AP)—Head Coach Sumner A. Dole of the Connecticut college football team, will be brought home tomorrow after eight weeks of confinement in a Willimantic hospital, following an operation for appendicitis.

General Heye, who succeeded Von Seeckt as head of the German Army, will soon pay a visit to the United States.

NORWICH TOWN

JOHN BURNS IN COUPE RUN FROM ROAD INTO BROOK

A miraculous escape from death by drowning, was experienced by Joseph Burns of Norwich Town, at a location near his home, early Thursday morning. After having his car bumped by another automobile, causing his Ford coupe to plunge from the state highway on Town street, into the brook running into the Yantic river from Lowthrope Meadows, he was released, apparently unharmed, except for shock to his nerves.

The sudden crash forced the car across the sidewalk at a point between the gas station of Bernard and Gilman, and that of Frink's creamery, tearing down the iron fence. After going over the embankment the car landed in the brook several feet below, upside down. Had it not been for the assistance of the occupant of the other machine in extricating Mr. Burns, he would have drowned.

As a result of the severe rainstorm Wednesday night and early Thursday morning the water in the brook was of unusual depth, the Yantic river in several locations overflowing its banks.

Mr. Burns reported as usual at his work, but was obliged to return home at noon, he was so completely unnerved.

Mr. and Mrs. John Wood of Providence are visiting at the home of Mrs. Wood's sister, Mrs. Jonathan Smith, 30 Town street.

Carl E. Small of Waterford, was a caller Thursday afternoon at the home of Dr. and Mrs. Charles H. Lamb. Wednesday, Dr. and Mrs. Lamb, motored to Mystic, and were dinner guests at the home of Dr. Lamb's sister, Mrs. Harriet E. Brainard, of Pearl street.

Mrs. Wilfrid Sabowinc of Town street, accompanied by friends, spent Columbus day in New Haven. The trip was by automobile.

In continuing the story, The Book of Acts, those in charge at the November meeting of Home chapter of the King's Daughters will include Mrs. William H. Whitman, with Mrs. William Weaver and Mrs. Belle Worthington.

Mrs. David M. Dean entertained a company of friends at a sewing bee at her home on Town street Wednesday.

THE FARMER MUST CATER TO HIS MARKET.

(Written Specially for The Bulletin)

Hank Sherman's grandfather and father used to raise big crops of potatoes with little work and sell them at a reasonable profit. Nowadays Hank can't get his money back once in ten years, what with the high cost of fertilizers, wages, etc., and the comparatively low price offered for potatoes.

But he keeps right on planting potatoes for the market.

Peleg Waterhouse's grandfather and father used to grow fine crops of clover and timothy hay, feeding out the clover on the farm and selling the timothy at fancy prices to the city livery stables. Nowadays Peleg can't raise and harvest timothy hay and sell it for what the seed and labor has cost him.

But he keeps right on seeding his fields to timothy.

Silas Fanning's grandfather and father used to have big peach orchards, which produced fine crops year after year. They furnished the family a large share of its fruit, fresh and preserved, and the waste windfalls brought in considerable income when turned into peach brandy. Nowadays Silas gets a few peaches about once in five years, which he has to sell in close competition with those from 13 other states, all able to produce them cheaper and better, and the new inquisition forbids him to sell, make or have any peach brandy from the culls.

But he keeps right on setting new peach orchards.

Because dad and granddad made a living and some profit from peaches, potatoes and hay, Hank, Peleg and Silas can't get it through their noddles why they can't. "It's the same land and the same climate, ain't it?" they ask plaintively. "Why can't we make it do for us what it did for them?"

Well, it isn't so certain that the climate is the same. Evidence accumulates till it closely approaches proof that what we call climate is far from a fixed condition. There have been times when palms and bamboos flourished within a few miles of the north pole, as shown by their fossil remains in the polar coal seams. There was another time when glacier ice lay at least a mile thick over the soil of New England, as deep as it now lies over northern Greenlands here is strong probability that the climate has fluctuated between wide extremes in the geologic past, and is still fluctuating. The changes are so slow that they are hardly noticeable in a year over a generation. But there is small room for doubt that they are occurring. We know that the climate of Connecticut is different today, from what it was when it was buried under thick ice for many thousand years; that the climate at the north pole is different now from what it must have been when it enabled tropical trees to flourish. We cannot feel sure that it is quite the same, now, that it was even a short 100 years ago.—For 100 years, in geologic time, are but as a hundred seconds in a man's life.

Nor are we justified in saying that the soil is the same. When grandfather cleared off the forests and worried out the stumps and planted his potatoes and seeded his timothy and set out his peach orchards, the soil he worked on was rich and mellow with the accumulated humus of many thousand years. It was an ideal seedbed which not all the skill of succeeding generations has been able to improve upon or even successfully copy. Since then it has been cropped, and cropped, and cropped. We have returned some of the original humus in our manurings, and some of the original plant-foods in our imported fertilizers. But it has been a hit-or-miss replacement. We have used such manures as we had, and bought such fertilizers as we could afford, and applied them by rule o' thumb, without knowing whether we were giving back to our pillaged soils too much of one thing or too little of another. Doing the very best he knows how and can, no one of us is sure, when he is fertilizing his fields, whether he is starving them with too little nitrogen or clogging them with too much phosphorous; whether he is undersupplying humus or overstuffing with potash.

Instead of soil and climate being the same, now, that they were in granddad's days, the probabilities are that both are distinctly different. Naturally, their reactions to our cultivation are comparably different. What they did as a matter of course for the old 'uns they won't do for us. And we haven't yet found out the way to make 'em.

But that isn't the only change which has occurred in three generations. Demand has varied greatly. The markets of today call for quite different lines from those of granddad's time. Potatoes, which were then the local staff of life, are now just a vegetable adjunct. Peaches, whose supply crude transportation systems limited to near-by neighborhoods, are now carloaded on us from thousands of miles away and, even at that, supply but a single item in our world-scraping fruit demands. And hay; why even if we could raise as big crops of as good quality as father and grandfather did, where are the livery-stables to which we might sell them? Supplanted by automobile filling stations and garages, which have no more use for hay than they have for baled excelsior.

No, men and brethen, it won't do to keep on farming the way dad and granddad farmed, and trying to raise the produce they found worth while. They grew such things as their conditions made easy and profitable; we have simply got to find out for ourselves what sorts of product our conditions make it practicable and remunerative for us to supply.

There is a great deal of talk about the necessity of "business" methods in farming. To many, "business" methods mean chiefly keeping books, a job which is neither attractive nor effective with the average farmer. He is too busy working with hoes and harrows to find pen and paper work either pleasant or feasible.

But that isn't what I understand by "business" methods as applied to farming operations. The "business" of farming for profit is the producing for sale of something which buyers want. You can't make consumers take what you happen to have, so long as they don't want it, can't use it, and won't pay for it. It isn't a question of what you like to raise or can raise easiest, but of what you can sell most surely and most profitably. It's not what you have, but what you can get rid of.

Take a single illustration. My father went about his farm work in kip boots, which he at first had made for him by a local shoemaker but later bought, ready-made, at the shoe-store. Nowadays I don't know a farmer in seven counties who wears kip boots at his work or any other time. How big a business do you suppose a 1927 shoe dealer would do if his stock consisted mainly of kip boots of the vintage of 1867? Can you imagine a shoe-dealer so devoid of business sense as to invest his capital in kip boots for which there isn't any sale? He would have been wise to do just that thing 50 or 60 years ago, but he would be a dumbbell to do it, now. His business sense tells him that the way to make sales and, incidentally, profits, is to offer the buying public what that buying public wants. If it wants kip boots give it kip boots, if it want tan Oxford ties, give it tan Oxford ties.

There is current among horsey circles the saying that you can lead Dobbin to the water but you can't make him drink.

Anybody can offer anything for sale, but nobody can make a customer buy what he is not even interested in.

I do not, myself, consider business as the sole end and purpose of farming. Making homes and building characters are both more important functions. But, as one must eat to live, so one must do business to get the wherewithal for home and characters. It may be a sordid necessity. But it is a necessity, just the same. It's the cellar-wall down in the dirt and grime which you have to lay before you can erect the house. It isn't the whole house. The man who lays a good cellar-wall and stops right there without imposing on it any superstructure, is just as nit-witted as the other chap who hurries up an imposing house without preparing any adequate foundation for it. It is highly desirable that we should keep our heads erect and up high enough to see over the stumps. It is equally essenntial that we keep our feet on the ground.

Therefore, we've got to do our business, first, in order to get the better things out of it. And it is simply common sense to do business in a business-like way.

As society is constituted, we've got to have money. The only way to open to us to get it, honorably, is to produce stuff which those who have money are willing and anxious to swap their money for.

If John D. Rockebilt goes into the shoe-store and says, "I want a pair of low shoes, tan uppers, neolin soles, Oxford style, size seven, width E," the dealer gets him a pair to meet those specifications. And both are pleased, John D. because he's got the footgear he wants, and Mr. Dealer because he's got his little profit.

But suppose, instead, John D. should drive up to your farm and say, "I want a good, ripe, solid-meated pumpkin, calculated to furnish such a pie as Mother used to make," and you answer, "Wel, ne-ow, I hain't got no pumpkin, but I've got some real nice oats," how many bushels of oats d'ye suppose John D. would take and pay for?

The fact that your granddad and your dad and yourself have always raised oats and never pumpkins won't net you a single cent profit on any such deal.

If your market wants pumpkins and is willing to pay well for pumpkins, raise 'em.

If your markets wants white beans and is willing to pay good prices for white beans, raise 'em.

If your market wants asparagus or green peas or muskmelons and is willing to pay you a handsome profit for them, raise 'em.

Why, if my market wanted catnip, and was willing to pay enough for it to make it an object, I'd raise catnip. Why not?

The farmer who has, year after year, produce which his customers want is much more likely to have also a bank account than the farmer who raises what his ancestors used to becausse it paid them.

"The times change and we change with them."

If we don't, we're reasonably sure to find ourselves stranded in some backwash.

WESTERLY

FAIR PLAY COMMITTEE SENDS CIRCULAR TO VOTERS

(Special to The Bulletin)

WESTERLY, R. I., Oct. 13—Following the discovery that an adjourned republican caucus to vote on nominees for town offices would be illegal if held Friday, in that three days, not two are required Chairman Everett A. Kingsley has announced that the balloting will be held in the Westerly town hall Saturday next from 2 to 9 p. m.

Without this change in date, several thousand notices were mailed to Westerly voters by the fair play committee as follows:

"To the taxpayers and voters of the town of Westerly:

The fair play committee of the town of Westerly was formed as the result of the general dissatisfaction in the town against the policies of the present administration and their method of doing business. The fair play committee does not desire to dictate the policies of the town of Westerly, as this is the province of the officers elected, guided by public opinion as reflected through the various town meetings and public hearings. The fair play committee stands for the election of men who are fearless, independent and conscientious, and who have the interests of all the people at heart.

Therefore, the fair play committee fully endorses the following candidates for election and recommends that you give them your undivided support at the caucus, Friday, October 14th: For third councilman: Thomas H. Collings; fifth councilman: James O. Lynch; sixth councilman: Frank H. Crandall; seventh councilman: Edward L. Sawyer; for highway commission: Angelo Cappucio.

BEPPO BOUMENOT, Chairman.

Samuel Girven was re-elected president and George E. Broughton vice president at the postponed annual church meeting, roll-call and supper of the Broad Street Christian church. Rev. Arnst L. Schoning, pastor, held in the vestry Wednesday night. Other officers elected are: Secretary and church clerk, Franklin Smith; treasurer, Orlando R. Smith; board of trustees, Edward Card, 3 years, Mrs. James Clark, 2 years and Franklin Smith, one year. Raymond Collins was re-elected deacon for three years.

The supper served at 6:30 was largely attended. The evening's program included besides the election, the secretary's report, report of the trustees, and treasurer's report. Other church bodies making reports were the Ladies' Aid society, Ellen Gustin circle, Junior Christian Endeavor society, Senior Christian Endeavorers and Beta Boy's club. Reports of the Rhode Island-Massachusetts conference of Christian churches, held this year at Assonet, Mass., were made by the delegates, Mrs. Orlando R. Smith, Miss Lizzie E. Martin, Mrs. Elizabeth West and Rev. Arnt L. Schoning. The roll call was very generally responded to. The musical program included violin solo by Miss Amy Eaton, piano duet Miss Grace Carmichael and Miss Grace Main. Congregational singing and an address by President Samuel Girven were a part of the program which concluded with a benediction.

The following transfers have been recorded in the office of the Westerly town clerk: Oct. 13. Knight Finance corporation to Sarah Soloveitzik and Gertrude Soloveitzik, lot No. 4, White Rock.

Maynard Land company of Providence to Alexander Sieczkiinis, lots Nos. 24, 25 and 26 Melrose Heights.

The Third District court session this (Friday) morning, Judge Oliver H. Williams on the bench, will probably be a lengthy session for beside cases to be tried on the criminal docket there have been a number of civil cases set down for trial. One of the criminal cases to be heard is that of alleged attempted assault upon a sixteen year old girl.

From Narragansett council, No. 21, Knights of Columbus, four members went to West Warwick Monday night to participate in the installation of J. P. Gibson council, No. 181. District Deputy James McCormick, assisted by District Warden Richard J. Butler, Jr., both of Westerly, installed the officers. The two district officers were accompanied by Financial Secretary James F. Stellman and William A. Reardon, of Narragansett council.

The funeral of William Thomas, 111 Stillman avenue, Pawcatuck, was held at his home Thursday afternoon at 2 o'clock. Rev. G. Edgar Tobin, rector of Christ Episcopal church, read the service. Burial was in River Bend cemetery, with the Masonic ritual carried out by members of Pawcatuck lodge. George A. Stillman, master, with Samuel Girven, chaplain, assisted by Thomas McKenzie. The lodge members who were bearers were Alexander Marr, Stanton S. Greene, Ralph B. Catlin, Dwight L. Freeman, Samuel Bailey and Frederick Holdsworth.

Thursday afternoon at 2 o'clock at his home funeral services were held for John Frisbie Farnsworth. The services were conducted by Rev. Lewis A. Walker, pastor of Calvary Baptist church. Among relatives and friends present were members of Pawcatuck Seventh-day Baptist church, Westerly and the People's Mission of Pawcatuck in which as one of the founders Mr. Farnsworth had taken a great interest. Burial was in River Bend cemetery the bearers being James A. Saunders, John C. Loughead, Joseph Herold, David W. Shaw, George R. Salb and Chester Stedman, all interested Mission workers.

A combination of high wind from the southeast and a downpour of rain Thursday morning contributed to the high tide on the Westerly beaches going over the sand dunes and causing the coves and docks along the Pawcatuck river to have exceedingly high water marks.

George Metz left Thursday afternoon for Providence.

Winfred Brown of South Kingstown, formerly of Westerly, is a patient at the Westerly hospital, ill with pneumonia.

Fred W. Harvey of Wakefield, was in Westerly Wednesday.

Mr. and Mrs. Edward Fenelon and daughter, Mildred, have returned to their winter home in Yonkers, N. Y., after passing the summer in Westerly.

Rear Admiral H. O. Dunn, U. S. N., retired, and Mrs. Dunn left Westerly on the Colonial express Thursday mhursday morning for New York after passing the summer at Ninigret farm, Haversham. They are to sail shortly for a trip abroad.

John Donahue of Pawcatuck has completed his duties with the Hoxie Taxi service for the season.

Groton visitors to Westerly Thursday morning by way of New London reported an hour and a half delay in ferry boat service caused by the high winds.

Robert Blake left Westerly for Chestnut Hill, Pa., to resume his studies at St. Martin's.

Edward L. Pierce of Wakefield, was in Westerly Thursday.

Joseph Gervasini was in Kingston Thursday afternoon.

Get rid of that cold the natural way
TAKE FATHER JOHN'S MEDICINE

BUILDS UP THE BODY TO THROW OFF DISEASE GERMS—SOOTHES AND HEALS

WHEN the germs of cold or grip get into the system, the various organs try to eliminate them. A person of usually robust health may overcome the cold with slight help, but with the young or old or a person of low vitality the cold may linger and lead to serious results.

The best way to get rid of cold and grip germs is by helping the body to cast them off in the natural way. There is no better remedy for this than Father John's Medicine which is a tonic food medicine perfectly blended, pleasant to take and easy to digest.

The high grade cod liver oil with other healthful ingredients in Father John's Medicine supply the needed fighting strength and build new blood and tissue. It soothes and heals and relieves the irritated membrane. Seventy years of success; no alcohol or harmful drugs.

AGRICULTURAL INTERESTS

CROP YIELDS IN U. S. SHOW FARMS ARE NOT WEARING OUT

In American experience new farming regions are likely to be characterized for a generation or two by methods of agriculture which result in gradually reducing yields. The average pioneer is not a good farmer, not because he does not want to be put partly because he has not the experience and knowledge of his farm and its potentialities in crops under the methods proved best by time and trial, and partly because the abundance and cheapness of land in newly developed regions is not favorable to intensive methods of utilization or careful husbanding of soil resources. Only after this period is past does agriculture in such regions attain a stage of development characterized by increasing yields per acre.

This substantially is the conclusion reached by B. O. Weitz, of the bureau of agricultural economics, United States department of agriculture. He supports this with facts that fly in the face of the common belief that crop yields per acre have been declining as the virgin fertility of the fields has been exhausted. Department statistics show that in 40 years the combined acreage of corn, wheat, oats, and potatoes has been expanded about [illegible] per cent. The total production of these four crops has increased 77 per cent. This means that a third of the increased production is the result of a better yield per acre.

Again, contrary to common belief, he finds the figures show that "most of the increases in acre yields have occurred in the older farming regions east of the Mississippi river, thus disproving another erroneous impression that farms in the older areas of the United States in general have become worn out." In the case of corn, Virginia, Maryland, the New England states, Iowa, and Minnesota are named as states recording gains of from 6 to 14 bushels in the average yields per acre. Mr. Weitz concludes that in the course of time, as the farming communities become accustomed to the possibilities of their fields, develop suitable strains of plants, learn profitable use of fertilizers and wise crop rotations, that acre yields in the humid northeastern portions of the United States may approach the present standards in northwestern Europe. In the dryer sections of the United States the acre yields will be limited necessarily by the moisture available to the crops.

WINTER GARDENING IN A COLD FRAME

Those who have cold frames—and every gardener should have one—may provide themselves with plants of unusual interest and beauty and excellent material for early spring cutting by planting the poppy anemones, known botanically as Anemone coronaria. The finest strain available is of Irish origin, and known as the St. Brigid anemone. It comes in double, semi-double and single form.

These anemones grow from peculiarly dried-up-looking tubers, which should be planted in cold frames, as they are not completely hardy, but winter easily in a frame and start blooming early in April. The main difficulty is in determining which is the top of the tuber. It is indicated by a slight depression with a few points in it. Another method is to look for the old roots which still may cling to the tuber on the under side.

The anemones want rich soil. Give them a liberal application of pulverized sheep manure when planting and put them about two inches underground. If in doubt as to the top of the tuber plant it edgewise.

They have foliage resembling parsley, from which numerous stems arise to a height of about a foot, bearing flowers two to three inches in diameter in various shades of scarlet, blue and rose with central contrasting coloring. They last well when cut. They are of very easy culture.

The Mariposa tulips, the butterfly and globe tulips of California, may be grown in a frame very easily and bloom in late May. Their markings are unusual on white, yellow or lavender grounds, resembling the eyes on butterfly wings. Plant them two inches deep. They sometimes winter outside with a mulch of leaves, but are short lived under these conditions, while they thrive in a cold frame.

The gorgeous ranunculus may also be grown in a frame giving giant double buttercups in orange, scarlet and yellow. These are a cluster of pointed tubers to be pressed into the soil with claws down on a bed of sand and about two inches deep. They are not as reliable as the anemones, but well worth the trouble. A cold frame stocked with these plants will yield an amazing display of color in early spring, lasting until about the first of June. They need considerable moisture and the frame should not be allowed to dry out.

HINTS FOR THE FARMER

Even if a colony of bees is strong at this time it cannot be expected to go through the winter well in the north unless it now has a good, young queen so that plenty of young bees will be reared to live through the winter. All old bees which have worked through the summer will soon die. Any colony which does not have at least 30 pounds of honey and the hive full of young bees when cool weather comes should be united with some other colony of the same kind. Most winter loss is caused by poor fall management.

Legume hays have two great points of superiority over grass hays for growing and milking animals—they contain more protein and more lime. The high protein is very important if the hay is being fed alone or with a low-protein concentrate such as corn or oats. High lime is even more important, for there are no concentrates containing large amounts of this element. As far as is known, there is no way to satisfy the lime requirements of very productive dairy cows on winter feed except to give them large quantities of well-cured legume hay.

Sap sweet-gum trees were formerly "weeds" in the forest. Now they are bringing good prices for cross-ties. Timber values are changing rapidly and trees that once were classified as "worthless" are referred to as of "less value."

Where pastures are limited, or where dry-lot feeding is practiced; hogs require supplemental mineral feeding. One of the most essential, mineral substances for proper nutrition in animals is ordinary salt (sodium chloride), since this compound enters inthe composition of all body tissues, gland secretions and blood.

A good beef cow is smooth, well proportioned, with short legs, short back, short and broad head, wide muzzle, glossy hair and a loose pliable skin. She should have a good udder and supply enough milk to feed her calf well. Beef cows usually are lower set, blockier, more symmetrical, carry more flesh, and have smaller udders than dual-purpose cows.

Several hundred pounds of water are necessary during the life of a cultivated plant to produce one pound of mature matter. Thus, a plant such as wheat or corn requires each day an amount of water equal to several times its own weight.

TIME OF PICKING APPLES IMPORTANT FOR BEST STORAGE

September and October are the principal apple-picking months. Picking apples at the right time to catch the qualities most desired in the markets and to avoid injuries in storage is important to growers. The picking maturity varies with the different varieties and with the conditions of storage which they will undergo. Department Bulletin 1448-D, which may be obtained by application to the department of agriculture, Washington, D. C., includes the tests to be applied to the principal varieties. Color, firmness, and the tenacity with which the fruit adheres to the tree, are the principal points to be observed. In several varieties, otherwise similar, a few days difference in picking may produce wide differences in keeping qualities and dessert values. The use of pressure test apparatus for determining the firmness of the fruit is advised. This apparatus measures the pressure required to force a plunger of stated size into the pared fruit for a given distance. At this distance an electric contact is made and a flashlight indicates the point at which the reading should be made. The Arkansas Black apple usually tests 25 pounds when in picking condition, while the McIntosh is ready for storage when it registers not less than 14 or 15 pounds.

DAIRY COW IS GOOD MARKET FOR FARM CROPS AND LABOR

A dairy-herd-improvement association is an organization of dairy farmers who cooperatively employ a man to test their cows for economical production of milk and butter fat. The tester visits each farm one day each month, weighs the feed and milk of each cow, tests the milk for butterfat, and figures the results.

The dairy-herd-improvement association furnishes the dairymen definite information regarding the milk and butterfat production of each cow, thus enabling him to cull out the low producers, to feed the remainder according to known production, and to breed up a herd in which the daughters excel their dams. That all this is adding to the profits of members of dairy-herd-improvement associations is indicated by the increase in the number of these associations.

It is estimated that the average dairy cow in this country produces annually about 4,500 pounds of milk containing about 180 pounds of butterfat. The records of thousands of cows tested regularly show average yields of more than 7,200 pounds of milk and 282 pounds of butterfat. Several associations have average yearly records of more than 200 pounds of butterfat.

In the Ottertail, Minn., association in 1924-25 the cow produced an average of 239 pounds of butterfat and returned little more than $3 for every dollar's worth of feed consumed. Moreover, each cow returned $101 income above feed cost. Commenting on this record J. C. McDowell of the United States department of agriculture remarks that any cow that returns $3 for every dollar spent for feed is a good market for feed, and that a cow that each year returns $100 above feed cost is a good labor market.

NOANK

The girls in the village have the latest style in hair dressing, the Lindbergh wave. About 20 of them are seen with the new bob on East Main street. Noank was for Lindbergh; when he was flying to Paris, making a name for himself, the whole town quit work and turned on the radio. So when anything that is new comes out, girls will try it if it is the style.

The young fishing fleet is working nights while the nights have a full moon, as light as day. They claim the fish are big and fat and seem to be plenty. Boat Minnie P. got ten barrels of flat fish, the Jennie T. had nine barrels and the other boats made good catches. They are fishing back of Fisher's Island and near New London. Night fishing will continue for a few more weeks.

Columbus day in the village was a holiday. The school closed at noon, the children was told by the teachers all about Columbus and how he found this country on Oct. 12, 1492. A flag drill was held in grade six by twelve girls dressed in red, white and blue. The stores closed for a half day, also the post office. The flag on the Liberty pole was flying to the breeze. Forty local people attended the big parade held in New London.

Traffic was held up fifteen minutes to get the cow off the street. During the day the animal had to be shot.

It is estimated that more than seven million sheep have died as a result of the protracted drought in Queensland. Many farmers are faced with ruin.

THREE CENTURIES ART SENT TO VIENNA SHOW

LONDON, Oct. 13.—(AP)—Some 120 paintings and 157 miniatures, together with a large number of drawings, representing the best productions of British artists during the last three centuries have been sent to Vienna for an exhibition lasting two months. The vans containing the paintings were sealed by an official of the Austrian legation and are not to be unsealed until they reach Vienna.

The sending of these paintings, which have been loaned by well-known Englishmen, is an answer to the courtesy of Austrians who sent their best tapestries to the Flemish-Belgian exhibition in London earlier this year. Among the pictures is Romney's portrait of Mrs. Davenport, which brought $300,000 at an auction.

UPHOLSTERED IN PLAIN TAUPE MOHAIR AND VELOUR

Mohair is used on the inside backs, inside arms, entire fronts and one side of the cushions, with plain velour trim on the outside back and under arms.

Another feature is your opportunity to select from many samples of colorful materials, such as Bi-Color Velours, Tri-Color Velours, Ratine Tapestry, Tapestry or plain Velour to be used on the reverse side of cushions at no additional cost.

The Davenport is 80 inches long (a tall man can lie upon it with ease).

The Wing Chair is very generous in its proportions, with a high back, too.

How This Suite Is Made

Every Suite is made and constructed in accordance with our regular specifications, viz: all new material (no excelsior); heavy spring construction bases upon which loose cushions (spring constructed) are used for additional comfort.

And just think, on every Suite is used Good Quality Mohair in combination with harmonious tapestries and velour.

The Arm Chair is very inviting and speaks of comfort.

FREEMAN FAVORABLE TO KEEPING NAVY STRENGTH UP

Congressman Richard P. Freeman of New London is preparing a call for a special competitive examination, through which he expects to make three and possibly five appointments to the United States Naval academy at Annapolis. The present quota allotted to each member of congress is three, but Secretary of the Navy Wilbur is strongly in favor of increasing the number of students at the academy and has indicated that he will ask congress at the session which convenes next December to provide sufficient funds to permit each congressman to name five candidates, instead of the three which has been the rule since 1923.

The academy will accommodate upwards from 2,400 students, while next June's class will have around 1,800 midshipmen. Secretary Wilbur believes all facilities of the academy should be utilized and graduates not needed for the service could be returned to civil life and take active part in the Naval Reserve.

Congressman Freeman stated that he was heartily in favor of the navy secretary's program for maintaining the navy at full strength, and expressed the opinion that the commissioned personnel of the service could be maintained at the desired standard only by increasing the number of students at the academy.

Congressman and Mrs. Freeman recently returned from an extensive tour of Canada, and plan to spend most of the time until congress convenes in December at their home in Neptune park, Ocean beach.

POETRY

A Song for a Sorrow

Though the north wind of sorrow blows raw on your heart
And you're beckoned and shadowed by pain,
And the frost of unhappiness freezes your blood,
You will sit by the fire again.

Now despair like a leech sups the veins of your joy
And sadness blots hope with a stain,
And the black cup of grieving is drunk to the lees,
But you'll sit by the fire again.

You will sit by the fire and let the past wait,
Wait long in the dark it has wrought.
You will sit by the fire and brighten your heart
And lighten the dusk of your thought.

Let the raw wind of sorrow do its worst with your heart,
Let your sweet star of happiness wane,
Today's soon to-morrow—all tolling bells cease,
And you'll sit by the fire again.

—Ezra Munn.

HUMOR OF THE DAY

Holmes—A slow town, is it?

Watson—Slow! The speed cops there ride bicycles!—Detroit News.

Office Boy—You're wanted at the telephone, sir.

Boss—Who is it—my wife?

Office Boy—No, sir, it's a lady.—Exchange.

She—When you married me you used to call me a little dear!

He—Perhaps I did, darling, but since then you've developed into a big expense!—Pathfinder.

First girl (as her friend unpacks)—"So this is your bathing suit. It's the loveliest thing I ever saw. And what's this?"

Second Girl—"Oh, that's the suit I bathe in."—Exchange.

Mrs. A (at resort)—Doesn't it worry you to write to your husband for more money?

Mrs. B—Not at all. If he's having a good time he owes it to me and if he isn't having a good time he has saved it.—Facts and Fancies.

"John, the doctor has ordered me to the seashore."

"Why? You're not run down or tired out are you?"

"No, but I shall be by the time I get my trunks packed."—Boston Transcript.

"That's a thundering queer looking old Ford you've got," called a neighbor. "What did you give for it?"

"Aw, I ain't as poor as you think I am," responded Tobe Sagg of Sandy Mush. "This old flivver don't belong to me."—Punch.

Marjorie came home, after her first day at school, crying as if her heart would break. Her mother asked the reason for it.

"Teacher promised me a present, but she didn't give it to me," sobbed Marjorie.

"Teacher promised you a present!" marveled her mother. "That's funny. First time I ever heard of such a thing."

"Well," explained Marjorie, "she was giving out seats, and she called me and said, "Marjorie, you sit here for the present."—Los Angeles Times.

KALEIDOSCOPE

A frog stowed itself in an airplane at Pensacola, Fla., and was discovered when the machine landed at Macon, Ga. This is the greatest known hop of any frog of Calaveras county, remarks the Boston Globe.

At an auction in East Putney, Vt., where the articles to be sold included a large number of antiques, more than 100 cars were parked in a field near the house and twelve states were represented among those attending the auction.

The choir at the Swedish Mission at Muskegon, Mich., did not sing during a revival campaign. Because the members were dressed in fashion, with short skirts, rouge and bobbed hair, they were forbidden by the evangelist to take part in his services.

Steam for power, heating and electric generation is bought by New Yorkers to the extent of 7,000,000,000 pounds a year. Combustion engineers who made the survey call it prophetic of the time when householders will buy steam instead of running furnaces.

The city fathers of Jacksonville, Fla., successfully tried a new way of providing music for the frequenters of the city's ten larger parks. One outstanding musical organization was engaged to play in a studio, and the music then was broadcast through batteries of loud speakers in the parks in all parts of the city.

"Don't count turtle eggs before they're hatched," John Toomey, keeper of the reptile house in the Bronx (N. Y.) zoological gardens, advises Mrs. Buster, from the Galapagos Islands, laid an egg, the first it twenty-three years, and the keeper laid it away to hatch. Eight weeks later he unburied it and found it bad, just as bad as any egg can be at the end of eight weeks. It had been slightly cracked.

More than 5,000 people have died from encephalitis lethargica, the so-called sleeping sickness in England and Wales in the last five years, according to an announcement recently made by the minister of health. Health authorities in England are expressing alarm over the encephalitis situation even though the number of cases has been reduced from 5,000 in 1924 to some 2,267 in 1926. It has been estimated that about 30 per cent of all cases die, and that 70 per cent of the recoveries show various disease manifestations ranging from mild conduct disorder to complete paralysis. The London county council has made efforts to provide for the treatment of partly recovered victims, but this meets the needs of only a comparatively small group. It has been pointed out to the home secretary that there is need of providing an institution where children who have suffered from the disease can receive special treatment, for its after affects are recognized as a contributing cause of delinquency. Active need of scientific research to combat this scourge is urged.

STOCK PRICES HIGHER

NEW YORK, Oct. 13.—(AP)—The stock market, after an early period of hesitancy, moved upward today under the leadership of General Motors and U. S. Steel. The rise was influenced largely by expectations of a sharp decrease in broker's loans which were not fulfilled however, as the federal reserve figures, published after the close of the market, showed a drop of only $46,000, and by reports that William C. Durant, well known market operator, was again active on the upside. Call money held steady at 4 per cent. Despite the calling of about $20,-500,000 in bank loans.

The day's business news was rather mixed in character. Directors of the Pullman company placed the new stock on a $4 annual basis, equivalent to $16 on the old issue which paid $8 annually, and special dividend distributions also were made on National Candy and Prophylactic Brush. Relatively poor third quarter earnings were reported by the Baldwin Locomotive and Gabriel Snubber companies. General Motors reported September sales of cars by dealers to consumers were 133,596 units, as against 118,364 in September, 1926, and 158,619 in August of this year.

Short covering operations were reported to have played a big part in the rise of nearly 4 points in U. S. Steel common, the buying of which was influenced to some extent by the belief that the steel industry will experience marked improvement when the new Ford car gets into big production. General Motors, which is believed profited most by the suspension of Ford operations advanced 3 1-8 points to 120, closing just before the top.

American Machine & Foundry, buying of which was based on the reported discovery of a new metallurgical process by the company, was the individual feature, scoring 26 points to a new record high at 149 3-4, or more than double the year's low. There are only 100,000 shares of the stock of this company outstanding, a small supply of which is in the hands of the public.

Some of the mercantile stocks also recorded sharp gains, particularly Abraham & Straus, which soared nearly 16 points to a new high at 107, closing at 106, and R. H. Macy & Co., which jumped nearly 8 points to a new peak at 115 3-4.

Pools were again active and succeeded in lifting a number of specialties to new high records. The list included American Home Products, American Sumatra Tobacco common and preferred, International Paper, Koty, Hollander and Sons, Rossia Insurance, and Radio corporation, the demand for the last-named being stimulated by unconfirmed reports that 1927 earnings may exceed $7 a share. On the other hand, Sinclair, Tidewater, Cuba Cane Sugar preferred, Butterick company and U. S. Hoffman Machinery sank to new 1927 lows.

Rails advanced with the industrials although the gains were much smaller, Nashville, Chattanooga and St. Louis, seldom traded in, jumped 9 points on a few sales, but most of the others moved up only a point or so.

Most of the commodity markets pointed upward. Cotton sold down at the start, but rallied briskly later on reports of lower temperatures in various sections of the crop belt, closing about $2 a bale higher. Wheat rose a fraction of a cent a bushel higher after an early sinking spell. Raw sugar was unchanged and coffee futures advanced slightly.

Time money and commercial paper rates were unchanged.

Speculative interest in the foreign exchange market was divided between the advance in Dutch guilders to a new high around 10.15 cents in response to the raising of the bank of Netherlands rediscount rate from 3 1-2 to 4 1-2 per cent., and the weakness of Spanish pesetas, which broke 20 points to around 17.22 cents. Sterling and franc exchange was slightly easier.

GASOLINE TAX RAISED BY 24 STATES IN YEAR

While the 1927 legislature in Connecticut made no advance in the rate of the gasoline tax of two cents per gallon in this state, an analysis just completed by the department of motor vehicles shows that the subject of the gasoline tax was a most active one throughout the various states during the past year. Increases in the rate of gasoline tax were made in 24 states.

Every state in the Union today has a gasoline tax, with the exception of New York and Massachusetts. Up until this year Illinois and New Jersey had no tax, but now both these states have adopted the two cent basis. Statistics at the present time show that the average tax rate of all the states is three and one-fifth cents per gallon.

Connecticut put the gasoline tax into operation in 1921, charging one cent per gallon. The legislature of 1925 increased this price to two cents. When the draft of the Connecticut gasoline tax law was made, Oregon was the only state in the Union which was collecting this tax; the tax collection in Oregon being based upon retail sales and the overhead or cost of collecting the tax running very high. The Connecticut law was based upon the collection of the tax from the wholesaler, and is today, either in whole or in part the basis of the tax collection in all the other states. Consequently, Connecticut is considered the real pioneer in the present form of collection of gas tax.

In 1919 in addition to Oregon the states of Colorado and North Dakota also collected a gasoline tax and in 1920 the state of Kentucky added this tax, all these states basing collection upon retail sales. The rapidity with which the various states added this tax is disclosed in the following statement:

In 1921, 11 states were collecting a gasoline tax; in 1922, 19; in 1923, 18; in 1924, 26; in 1925, 45; in 1926, 46; in 1927, 47.

Included in the above list is the District of Columbia, which imposed a gasoline tax in 1924.

During the past year, out of the 47 states including the District of Columbia, which collected a gasoline tax, 23 states made no advance in the rate. Among this group is included Connecticut. Twenty-four states made advances from one-half cent to two cents per gallon. Two states, Illinois and New Jersey, which were without tax previously installed it, leaving two states, New York and Massachusetts which are now the only two which do not charge a fuel tax. Some of the states made considerable increase in 1927, notably New Mexico, which raised its rate from 3 to 5 cents per gallon. Alabama and Maryland which raised ther rates from 3 to 4 cents, and Texas which went from 1 to 3 cents. Two states Wyoming and West Virginia, increased the rate of tax one-half cent, while 18 other states increased the tax one cent.

The following table gives the present rate of gas tax in each of the states:

Five cents, five states—Arkansas, Florida, Kentucky, New Mexico, South Carolina.

Four and one-half cents, one state—Virginia.

Four cents, 10 states—Maine, Maryland, Idaho, West Virginia, Georgia, South Dakota, North Carolina, Mississippi, Nevada, Alabama.

Three and one-half cents, one state—Utah.

Three cents, 17 states—California, Colorado, Wyoming, Michigan, Arizona, Indiana, Delaware, New Hampshire, Pennsylvania, Iowa, Oklahoma, Ohio, Oregon, Tennessee, Vermont, Montana, Texas.

Two cents, 12 states and the federal district — Connecticut, Illinois, Kansas, New Jersey, Rhode Island, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, Washington, Wisconsin and the District of Columbia.

No gas tax, two states—Massachusetts, New York.

Eastern Connecticut Health.

The weekly morbidity report issued by the state department of health for the week ending October 8, shows the following cases of communicable diseases reported from towns in eastern Connecticut:

Diphtheria—Norwich 2.

Scarlet fever—Groton 1, Norwich 3, Eastford 1, Thompson 1, Willimantic 1.

Measles—New Haven 1.

Whooping cough—New London 2.

Typhoid fever—Willimantic 1.

Given Miscellaneous Shower

Mrs. Howard E. Rogers was hostess at a miscellaneous shower at her home in Montville Wednesday night for Miss Arleen Donovan, who will be married Monday, Oct. 17, at St. John's Catholic church in Montville to Leon St. Germain of New London. Cards and other games were enjoyed, after which Mrs. Rogers served a buffet lunch. Miss Donovan received many beautiful gifts.

NEW LONDON GARBAGE TRUCK DRIVER ARRESTED FOR CHARRON'S DEATH

(Special to The Bulletin)

NEW LONDON, Oct. 13.—Joseph F. Hall, 15 Orchard street, driver of the city's garbage truck which ran over and fatally injured Hector Charron, 3., of 213 Shaw street, yesterday afternoon, corner of Williams and Broad streets, was arrested this morning charged with manslaughter. He was presented in the police court, but the case was continued to Nov. 1st, by which time, it is believed, Coroner J. I. Desmond will have rendered a finding as to whether Hall is criminally responsible for Charon's death. Charron was riding on the running board of the truck as it rounded the corner. His body landed between the wheels, the rear ones passing over the body, crushing Charron. He died 15 minutes after being admitted to Lawrence-Memorial hospital.

POLICE OFFICER GRILLED REGARDING NURSES' DEATH

(Special to The Bulletin)

NEW LONDON, Oct. 13.— The police today investigated the death of Miss Hannah S. Frederickson, formerly of Iveryton and until recently employed as a nurse at the Mitchel ward of Lawrence-Memorial hospital. She died at Rhode Island State hospital, Providence, Monday, from septic poisoning caused by an illegal operation. Today they dropped temporarily all efforts to ascertain the identity of the physician or mid-wife suspected of having performed the abortion. With the day force reporting for duty, Captain Charles A. Finney instructed Sergeant Nelson Smith and Motorcycle Officer Clarence Martin to go to Iveryton and interview John Frederickson, father of the dead nurse, for the purpose of ascertaining, if possible, his knowledge of his daughter's male acquaintances, more particularly the identity of the police officer mentioned as having been responsible for the condition of the young woman and which brought about the performance of the abortion. Frederickson was interviewed an hour and is said to have furnished the police with such information as will bring about the evidence which is sought in the way of the identification of the accused officer. When the officers returned to New London Sergeant Nelson Smith caused the suspected officer to be summoned to police headquarters and there he was interrogated two hours as to his alleged intimacy with Miss Frederickson. After the two hours of grilling the accused officer is said to have made a signed statement, the contents of which was not revealed. It was also brought out that the girl made a statement a short time prior to her death in which she denied that a physician or a mid-wife performed the abortion, but said that she performed the operation herself.

Mrs. Margretta F. Riley, 76, wife of William J. Riley, died this morning at her residence, 185 Connecticut avenue. Death was caused by a shock which Mrs. Riley suffered recently, although she had been an invalid about three years. She is survived, besides her husband, by two daughters, Mrs. A. J. Pfannenstell and Miss Isabelle Riley of this city; two sons, William A. Riley of Hartford and Charles R. Riley, of Bristol, Conn., a brother, John Russell, of West Hartford, and a sister, Mrs. E. P. Chapman, of East Hartford. Mrs. Riley was born in Aberdeen Scotland, the daughter of William H. and Isabelle Russell. She was married 55 years ago and had resided in New London about nine years, moving to this city from Hartford.

Mystic Oral school is to have a new building for a contract to erect it was awarded today to Martolucci Brothers.

William S. Holmes, of Waterford and Mrs. George Ryan and twin daughters, patients at Home Memorial hospital, were discharged today.

Mrs. Everett Langlais and infant daughter, of 137 Mitchell street, Groton and Joseph Joseph, 26 Cedar street, patients at Lawrence-Memorial hospital, were discharged today.

Announcement is made of the engagement of Miss Belle Aguiar, daughter of Mr. and Mrs. Adilino Aguiar, 59 Maple avenue, to Charles B. Gomes, Cambridge, Mass. Miss Aguiar graduated from Williams Memorial institute last summer.

Miss Teresa Cavanugh, 44 Hempstead street, has returned to New London having attended, as delegate from New London circle, No. 525, Companions of the Forest of America, the national convention of the organization held in Washington last week.

William Manice has returned to his home, Poquonoc road, Groton, after having motored to the White Mountains and Canada. Mr. Manice was absent from Groton 10 days.

Mr. and Mrs. Isadore S. Malcolm have again taken up their residence in the Hull building, Main street. Mr. and Mrs. Machol have resided for the past six months at Poquyogh, Waterford. Mrs. Machol is a stenographer for the superior and common pleas courts of New London county.

Williams Memorial Institute Alumnae association held a meeting at the Young Women's Christian association last night, when plans were discussed for the winter diversion of members of the association. Miss Charlotte Gates presided at the meeting and within a few days she will appoint committees who will assist her in arriving at a plan for conducting the various functions. It has already been arranged to have a bridge whist next month and a dance at Thanksgiving and Christmas.

Saul M. Hurwitz, principal of the Hebrew school and Dr. Jacob Greenfield, and Miss Suzzanna Seidel, teachers, have resigned and will this week go to other cities where they have obtained positions. Mr. Hurwitz will go to New York, where he has been engaged as principal of the Astoria Jewish Center. Dr. Greenfield is to be principal of the Zion Hebrew institute of the Bronx, New York and Miss Seidel will teach with the Associated Hebrew schools, Philadelphia.

The annual meeting of the John Winthrop club, held in the rooms of the organization last night, was attended by a representative number of members. The election of officers was the principal business transacted and resulted in Joseph C. Keefe, who formerly held the office of vice president, being elected president. Waldo L. Miner was elected vice-president and Ralph E. Wadleigh was chosen secretary. The annual report of the treasurer showed that all current bills had been paid and the club's funded indebtedness decreased during the year just ended. After the meeting bridge was played.

Jacob Linious, one of the oldest members of Konomoc Hose company, was honored by the members of that organization tonight when given a testimonial at the quarters of the company, Union street. Mr. Linicus, a former foreman, has just rounded out 50 years as a member of the company and it was because of this fact that he was honored.

The police tonight received a telephone message that boys were awaiting to steal a quantity of grapes from the yard in the rear of the residence of Benjamin A. Armstrong on Hempstead street. The boys were awaiting the departure of a man employed at the residence before starting their thieving. Automobile Patrol Officer Augustus Ray was assigned to the complaint and going to the yard found three boys, all about 15. The officer arrested one of the youths, but the other two succeeded in making their escape.

The referendum petition started in circulation several days ago to compel the calling of a special city election to permit the voters to decide whether the present form of city manager government shall continue or the former municipal form of government shall prevail, is being signed freely and it is anticipated that the circulators will have the petition on file in the office of the city clerk in another week. Matthew Keenan, Main street merchant, is sponsoring the circulation of the petitions. Two of them have been placed in each of the five wards and are being signed in a house to house canvass. If the necessary 800 signatures are obtained this month the election will undoubtedly be called for November.

City Clerk and Mrs. Julian D. Moran have returned to their home on Ocean avenue, after two weeks' motor trip to Canadian cities.

TWO NORWICH FLAPPERS END UP AT POLICE STATION

(Special to The Bulletin)

NEW LONDON, Oct. 13—Two young girls, both 14, who ran away from their homes in Norwich last Tuesday, were arrested here tonight and later were turned over to relatives, who came here seeking the girls. The girls left home Tuesday morning, one of them coming here with a supply of clothes, but neither possessed funds of consequence. The girls went to the roomnig house, 207 Huntington street, conducted by Mrs. Charles H. Goes and secured accommodations and then went about the city presumably seeking the company of sailors, for they went to the public landing, where the bluejackets land and later met two sailors and went for a joy ride. They even went to Norwich yesterday, then returned to New London. Tonight they went to the municipal pier, which is close to where the sailors land and there they were observed by Captain Charles Kelley of the New York, New Haven and Hartford railroad's special police. He called the attention of Patrolman John Sullivan to the girls loitering about the pier. When the girls were questioned it came out that they had run away and they were taken to police headquarters. In the meantime relatives of the girls decided to come to New London and make a tour of the central part of the city in search of the pair. After failing to find any trace of the girls the relatives went to police headquarters. When the relatives had made known their mission it was revealed that the girls in custody were the runaways.

CITY HAS NIGHT VISIT FROM A HUGE DIRIGIBLE

(Special to The Bulletin)

NEW LONDON, Oct. 13—A huge dirigible gave the populace of New London a chance to observe air traffic by night, tonight when the massive ship hovered over the harbor and central part of the city. The dirigible was first sighted off the mouth of the harbor and with the rays of the moon shining on the big air craft, she presented a splendid sight as she traveled over the Thames. When off the United States Coast Guard academy the dirigible shifted its course and continued over the city, traveling in a northeast direction. The dirigible then headed almost northward and in a short time disappeared from view. The dirigible was illuminated, her cabin displaying a series of lights that resembled the portholes of a yacht. The whirring of the engine could be heard plainly and in its flight over the city the dirigible proceeded at a slow speed.

ANNOUNCEMENTS

Will Give Organ Recital

Next Monday evening at Park Congregational church, Miss Annie L. Taft, who has been organist at the church for several years, is to give a free organ recital for the enjoyment of the public.

Miss Taft plays with much taste and artistic theory. Her technique is more than adequate, her musical understanding mature and her execution finished and fluent. She has a fine sense of values, knows how to make an attractive program and then is able to perform it in a manner to attract her hearers. Without in any way cheapening the program she has no fear of including numbers that the audience will like. As a consequence she is able to please the seasoned musician as well as the infrequent concert goer. She makes the organ sound so that people like to hear it, which is the highest praise that any performer can hope for.

ANNOUNCEMENTS

Breed Theater

Baseball, liberally mixed with comedy, makes Babe Comes Home, which opened at the Breed theater yesterday, the ranking sport picture of the season.

At the head of the cast is George Herman ("Babe") Ruth, the mighty home run king, who is responsible not only for the thrilling baseball with which the picture is spiced, but also some excellent comedy character acting. Ruth extends his facility to film acting in surprising fashion.

Opposite the sensational slugger is Anna Q. Nilsson, at her very best. The love affair worked out between the blonde Swedish star and Ruth is novel, comical, and at times touching; nothing of its kind has been seen before in all the screen's vast variety of romance combinations. Miss Nilsson enacts the role of a laundry girl who falls in love with the baseball star of the picture. Louise Fazenda is also featured in an exceptionally entertaining comedy part.

Ruth as the baseball star does not force the spectators to use their imagination, for he is, of course, ideally cast. The surprise comes in his skill in the rest of his acting. An admirable cast, that includes Ethel Shannon, Lou Archer and Arthur Stone, appears. Ted Wilde directed Babe Comes Home.

The story which appeared originally in a magazine under the title "Said With Soap," is one of Gerald Beaumont's happiest sport yarns, and the producers have added to its comedy punch and charm.

Broadway Theater

Richard Dix has landed and reports the situation well in hand. Down the Yangtse river is a dirty Chinese river boat. Dix comes with a cargo of American refugees fleeing from hungermad pirates. And he brings his boat to safety, too, but only after one of the most thrilling fight seen on local screen this year.

The picture is "Shanghai Bound" Dix' newest Paramount starring vehicle, the current feature at the Broadway theater. It proves a worthy successor to The Quarterback, Knockout Reilly, and Man Power, the recent hits that have lifted Dix to such lofty heights of popularity.

It's a good picture in every sense of of the word, Richard Dix fans will be more than pelased with this new vehicle.

Patrons of the Broadway theater are awaiting with keen interest the season's greatest dramatic event in the forthcoming presentation of the pictured "Ben-Hur." The fame of this work is already wide after a season's crowded run in New York and highly successful special runs in Chicago, Boston and Philadelphia. The picture is based on General Lew Wallace's novel and stage play of the same title, enhanced by all the wondrous resources of the motion picture art, of which Metro-Goldwyn-Mayer, in association with A. L. Erlanger, C. B. Dillingham and F. Ziegfeld, Jr., took full advantage.

Palace Theater

Yes indeed! after reviewing the entire show at the Palace, all we can say is don't miss it. Yes, indeed! Five acts of vaudeville such as we would want if we could order it special. Gean Collins Revue, five colored performers, who make the stage, orchestra, stage hands, ushers and audience dance and sing right with them. Talk about making it hot, these folks do that and then some. Sully and Mack two eccentric comedians could make a tombstone laugh and we don't mean maybe. Joseph Bernard and company the company being a sweet miss who takes the part of friend wife, who is being deceived by a husband who likes to step out, wifey gets suspicious and then the fun begins. Very natural and got a big hand. Burke and Saun, a man and woman team in songs and pretty dances were a big hit, lots of personality there and good seasoned performers. Raymond Pike, the one man vaudeville show, can do anything from soup to nuts, not a cook or a house man but a real entertainer, one that you could sit and watch for hours and still want more. His finish stunt making a complete somersault without his hands touching the floor is nothing short of a miracle. What a show. It's a "Wow."

Thomas Meighan's versatility gets a new chance for expression in "We're All Gamblers" a new Paramount picture directed by James Cruze, which opened yesterday afternoon at the Palace theater. Manager Wolfsohn is to be congratulated.

It seems strange that this star and director have never been brought together before. They are an unbeatable combination. Cruze, master of spectacle as he proved himself in "The Covered Wagon" and "Old Ironsides" now shows that he can make a swift-moving drama of few striking figures in metropolitan life. The scene shift from the lower East Side to a gymnasium where Meighan is a heavyweight championship contender; to an automobile accident which begins a romance between Meighan and a brunette beauty, Marietta Millner; to a night club with a New Year's celebration and finally to a smashing climax.

It is a new type of vehicle for the popular star. He is convincing in the scenes where he is a rough, vigorous type of fighter; his mood and manner shift completely in the tenderer love scenes and he is impressive during the final tense moments when the solution of a murder hangs in the balance.

The strong suporting cast includes Cullen Landis, Philo McCullough, Gunboat Smith, Gertrude Clair and Spec O'Donnell.

Strand Theater

Van and Wartman's "Patent Leather Girls" musical comedy which opened at the Strand theater last night for a three day stay surely made a decided hit with Norwich theater goers, everything about this musical comedy with its pretty girls and clever comedians spells refinement and class. Now folks don't miss it, if you want real entertainment.

The feature picture attraction Bigger Than Barnums, is all that its name implies. You'll thrill you'll shudder, you'll applaud, you'll cheer, when you see this stongest of all dramatic stories.

What Is Going On Tonight

Columbian commandery, No. 4, K. T., meets in Masonic temple.

Norwich lodge, No. 950, L. O. O. M., meets in Moose home.

GREENEVILLE

A number of local Elks with their lady friends attended Norwich lodge of Elk's Ladies' Night on Wednesday evening.

Prompt persons already have filed their lists of taxable property, as of October 1, with the assessors of Norwich.

Mr. and Mrs. John B. LeClair have returned after a ten days' trip to New York, New Jersey, Baltimore and Washington, visiting points of interest in their travels and making the trip by auto covering about 1400 miles.

Mr. John Carroll and son have returned to their home on Central avenue after spending a few days in New York city. While there they attended the last game of the world's series.

Harry Brand of Westerly has accepted a position as manager with the local A & P store.

A local baseball fan who attended the world's series has in his possession a score card autographed by Babe Ruth, and takes pleasure in showing it to his friends.

William Dempsey of Smith avenue has accepted a position with Winward Trucking Co.

Maurice and Jacob Goldblatt of North Main street motored to New Haven Thursday.

Joseph Donnelley, a clerk at the post office, has returned after spending a two weeks' vacation visiting relatives in Boston and New York city.

A local grocery clerk while driving his machine down Fourth street hill near the Greeneville Congregational church, Thursday morning, came close to having a serious accident. The lugs of the car's tire rim came off the bolts that hold the tire to the rim, which resulted in the tire rolling down the hill before his machine. People who were at the scene shouted to the driver thinking that the car was tipping over. Stopping his car on Central avenue the driver found that the two bolts that were left in the rim were minus the lugs and that the threads on the bolts were stripped.

John Barwell has returned to Hartford after spending a few days at the home of his parents Mr. and Mrs. William Barwell of Central avenue.

Mrs. Ida Eaton of Mystic is spending a few days at the home of her mother Mrs. Daniel Shaw of Boswell avenue.

Considerable damage was done by the storm yesterday morning, fruit being knocked from the trees, limbs torn down, and in some instances whole trees being uprooted. Central avenue, at 8 o'clock, presented the appearance of a street in Venice. Gutters on both sides were filled to overflowing with water and dead leaves which clogged up all the sewers, while streams of water running from the gutters on the side streets added to those in the car tracks. Automobiles coming down the avenue looked like racing motor boats with spray shooting out on either side and drenching the nether limbs of pedestrians who were already soaked to the skin. Thanks to the efficient work of the street department in clearing out the sewers, the water had almost entirely disappeared by mid afternoon.

Mr. and Mrs. William McMahon of North Main street left Thursday for a two weeks vacation to Canada, making the trip by auto.

Mrs. Frank Piontkowski has returned to Saybrook after spending a few days as the guest of her sister, Mrs. Edward Piontkowski of Prospect street.

The school children of the lower grades had a half day session on account of the bad weather Thursday.

The Ladies Aid society of the Greeneville Congregational church held a Halloween supper Thursday evening in the dining room of the church. The room was prettily decorated with black and orange crepe paper and Jack o lanterns, black cats and witches. The table decorations were very artistic. The flower decorations on the four large tables consisted of cosmos, dahlias, salvias and trailing vines. Orange candles were placed in the centre of the tables, and were lighted at the beginning of the supper by the waitresses. A bountiful supper was served from 5:30 o'clock to 7:00 p. m. to over 150 people. The menu was: cold boiled ham, cabbage salad, pickles, baked beans, brown bread, bread rolls and cake, doughnuts, tea, coffee.

The committee in charge of the supper was: Kitchen, Mrs. Charles Sears, Mrs. John McNeeley, Mrs. Frank Quinley, Mrs. William Brown, Mrs. Elizabeth Pedrick, Mrs. George Mitchell, Mrs. William Gordon, Mrs. William Fleming, Sr., Miss Ellen Hayes and Miss Lizzie Brown. The reception committee comprised Mrs. Richard Stephenson, Miss Mary McConnell. Decorations were in charge of Mrs. Raymond Britton, Mrs. Frederick Thompson. The waitresses were Mrs. James W. Semple, Mrs. James Service, Mrs. Howard Rydholm, Mrs. Alex Sutthill, Mrs. Jabez West, Mrs. George Turner, Mrs. Alfred Smith, Miss Florence Tilly, Mrs. Charles McMillan, Mrs. Thomas Haslem, Mrs. Charles Levitsky, Mrs. Adams, Mrs. Raymond C. Britton, Mrs. Frederick Thompson, Mrs. George Geer, Mrs. Joseph Campbell, Mrs. Frank Crooker, Mrs. Charles Twist, Mrs. R. R. Agnew, Mrs. Charles Foster, and Mrs. Hugh Finlayson.

CREOMULSION

FOR THE COUGH OR COLD THAT HANGS ON

Mother! Do You Know the Danger of that Cough or Cold?

Mother, if the youngsters play hard and "take cold," if for any of a dozen other reasons they get "sick with a cold," stop it as fast as you can. Don't let it hang on. Colds that stay and stay, too often lead into pneumonia or flu or chronic bronchial trouble. Too often a cold leads into a fatal complication.

If any of your youngsters develop a cough or a cold that hangs on, use sensible precautions immediately and give them Creomulsion. Help their strong, youthful bodies to fight coughs and colds with Creomulsion. It is pleasant, easy to take.

Creomulsion is an old remedy now. Millions know its merits and like it. We guarantee that it will relieve stubborn coughs and colds, if you follow directions, or we'll refund your money.

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

Thursday's storm wrought havoc with most of the streets and roads about the town, many of them being covered to a depth of several inches with water. This was especially the case where the water rushing down the gutters carried quantities of fallen leaves into the pipes. These leaves clogged the pipes and they were unable to take care of the great rush of water which overflowed the streets at most of the intersections. Many bad washouts were reported on the country roads surrounding the town, and driving was very dangerous for motorists. Many cars were stalled by water getting to the wires and into the distributors, so that garage men were busy throughout the morning towing in stranded automobiles. There were several skidding accidents, a Hudson sedan owned by a Baltic man turning over on its side on Occum road, after it had been in collision with another car. There was no one hurt, and the car was not badly damaged.

People who watch the outward signs for the true condition of the weather, noted that semi-officially the warm weather has been declared over, as the screen-door and screens were removed from the local postoffice this week by Postmaster Edward Adams.

An evening of national bridge and whist was conducted Thursday in Parish hall, by the Children of Mary society for the benefit of Sacred Heart church, with 50 tables in play. Prizes in bridge were awarded as follows: Women, first, Miss May Ring; second, Miss Margaret Daley; third, Miss Mary Tylender—Men; first, John Tarrant; second, Clarence Disco; third, John Murphy. The whist prizes were taken by: Women, first, Mrs. William Malone; second, Mrs. Oliver Paul; third, Miss Ethel Roy; consolation, Miss Treffie Parent.—Men, first, Armand Dinier; second, Michael Murphy; third, Richard Coleman; consolation, Alfred Senecal.

The arrangements for the success of the affair were in charge of Rev. Omer N. Mandier, chairman, who had the assistance of the Misses Helen Breault, Agnes Dougherty, Sadie Hasler, Nora Murphy, Mary Hanlon and Catherine Hasler. The scorers were the Misses Grace Phalen, Mary Ward, Pauline Hasler, Elizabeth Ward, Annie Daley, Julia Chappell, Loretta Sullivan, Irene Chappell, Katherine Fontaine and Abbie Murphy.

BLODGETT AIMS TO HAVE TAX COLLECTORS AND TREASURERS UNDER PROPER BONDS

State Tax Commissioner Wm. H. Blodgett has embarked upon a campaign to have Connecticut municipalities put their treasurers and tax collectors under sufficient bonds.

Connecticut municipalities do not have adequate surety coverage for tax collectors and treasurers, in the opinion of Commissioner Blodgett, in fact these officials are under-bonded to the tune of nearly three and one-half millions, to be exact, $3,418,200. If all the town treasurers and tax collectors were properly bonded, says Mr. Blodgett, they would be covered in the sum of $7,855,600.

In arriving at his figures regarding bonding of officials Mr. Blodgett finds that the 196 towns, cities and boroughs making up the state of Connecticut have each a treasurer and a collector. Then, 42 towns have 45 special tax collectors. This total of 241 collectors of taxes is bonded for $2,316,500. The group is responsible, Mr. Blodgett finds, for tax bills totaling $61,467,953.14.

Mr. Blodgett wants this group to be bonded up to $3,927,800 at the very least. There are 196 treasurers in the state, bonded for $2,120,900. These should be bonded as high as the tax collectors, says the commissioner, for "Exclusive of their trusteeship, it is probable that double the amount of money that passes through the hands of the collector passes through the hands of the treasurer each year."

Fifty-three municipalities ask less bondage for treasurer than for collector; in 83 the coverage is equal in each case; and in 60 the treasurer has to put up a larger bond than the collector.

"Nineteen of the 241 collectors of taxes and eight of the 196 treasurers in Connecticut municipalities have no bond whatever," says Mr. Blodgett. He found it out by a thorough study of the state's tax situation. Tax collectors who have given no bonds are those in Bloomfield, East Windsor, South Windsor, Willington, and Windsor; special personal tax collectors for Bloomfield, Cheshire, Kent, Morris, North Stonington, Putnam, South Windsor, and Waterford had no bonds; collectors of regular taxes in East Hartford fire district, Colchester, Fenwick, Litchfield, and Newton also have given no bond.

But in Bloomfield, East Hartford fire district, South Windsor and Windham the collector is an officer of a trust company who is under bond under a state statute affecting such banks.

Treasurers of Avon, Bloomfield, Voluntown, and Willington; and the treasurers of the borough of Fenwick, Litchfield, New Canaan, and Newton have no bonds. The treasurers of Avon and Bloomfield are trust company officers.

Five of the 241 tax collectors, and three of the treasurers in the state have personal sureties. They are the treasurers of Bozrah, Danielson borough, and Groton borough; the personal tax collectors of Coventry North district, East Lyme, and Sprague; and the regular collectors of Middlebury and Griswold.

Collector Blodgett has drawn up a chart in which he proposes how the taxing officials shall be bonded. He has arranged "uniform bonds" for the collectors and treasurers. He is authorized by law to arrange matters. The proposed bond for use in the future provides a bond of 17.5 per cent the amount of the tax on the rate bill up to $100,000; then 6.5 per cent for $1,000,000; and 163 per cent for $8,000,000.

Notices of the new form of bond and the recommendations for each municipality are going out to all selectmen, mayors, wardens, collectors, and treasurers. And these will be followed in the course of time by field agents who have been ordered by Mr. Blodgett to check up on the bond of every official on the list.

COMBAT TRAIN GIVEN "SHOTS" AGAINST TYPHOID

At the weekly drill Thursday night at the armory of 1st Battalion Headquarters Battery and Combat Train Capt. Edmund Douglas inoculated about 40 men in the second of three immunization treatments against typhoid fever. There were nine absentees who draw a $5 fine for each absence. There was some target practice for the shoot tonight (Friday) against the rifle team of the gas and electrical department.

The headquarters battery has a new and later type radio set coming which will be used to communicate with headquarters battery in New London. These were in radio communication at Camp Tobyhanna, Penn., but due to sets being of obsolete type the distance was short.

MONTVILLE CHURCH SUPPER DRAWS BIG PATRONAGE

A meat pie supper served in the Montville Community house Thursday by the Ladies' Aid society of St. John's Catholic church was attended by over 200 from Norwich, New London and Colchester, as well as residents of Montville. The successful affair was in charge of Mrs. George A. Chagnon with able assistants, proving not only very pleasant socially but profitable for the parish. The pastor, Rev. James A. O'Meara, was greatly pleased with the co-operation of so many friends outside the parish in making the evening such a success. All the efforts of pastor and people are bent toward increasing the fund being accumulated for a new and larger church for Montville.

TRINITY M. E. STUDYING CHURCH HOUSING PLANS

The church housing committee of Trinity Methodist church met again Thursday evening to study plans for a more adequate housing for their religious education and social activities program. This committee has been at work for some time. It has canvassed the question of re-location and of expansion in the present location. The members of the committee are James C. Macpherson, Ernest O. Rodier, Guy B. Dolbeare, Robert J. McNeeley, Dr. E. J. Jones, George W. Armstrong, Mrs. Albert Boardman, John B. Stanton and Mrs. Geo. K. Greenlaw.

HEALTH DEPARTMENT PUTS SAFEGUARDS ABOUT OYSTERS

The oyster's place on the menu is usually established by custom during months which are spelled with the letter "r", says the weekly letter of the state department of health. Starting with September and continuing through April the oyster season continues at its height. In these months, temperatures are lower for storage of food and the physical condition of the oyster is probably at its best. Although some oysters are consumed in the summer months, the public and the oyster growers have become accustomed to planning their respective menus and business operations on the "r" basis.

The oyster is a very nutritious food, containing many elements which are beneficial in the diet. Not only can the oyster be considered a good food but the sanitary supervision of the oyster industry by state, federal and local authorities makes it a safe food, so far as any human precautions can make it so.

The federal government co-operates with the various states by exercising supervision over methods used and issues lists of certified shippers in all parts of the country. These lists are furnished to local health departments who in turn do their part by seeing that only shellfish from certified dealers, according to the lists issued are shipped to their particular communities. The lists are re-issued each year.

All this carefully constructed machinery operates so that the public can be assured that the nutritious oyster may take its place with safety on your menu, whether in a harmless oyster cocktail or an enticing oyster stew.

PRESENTATION TO CHEF AT UNCAS-ON-THAMES

Charles Bernot, chef at Uncas-On-Thames, and his wife, were given a delightful surprise party, on Tuesday evening, by members of the staff. During the course of the evening, different games, stunts, and tableaux were enjoyed by those present. Immediately following the program, two rugs were presented to Mr. and Mrs. Bernot from the staff by Dr. Hugh B. Campbell, who spoke of the long continued service tendered the institution by Mr. Bernot.

After singing several songs, with Dr. Campbell as song leader, the guests adjourned to the dining room, where a delightful lunch was served. The whole affair was under the supervision of Miss Miriam M. Campbell, and Mrs. Hugh B. Campbell.

Chief Stanton Will Entertain Speaker

ORGANIZED LABOR NOT TO BE TRAMMELED BY POLITICS

Its Members Are to Participate Actively, But Not as a Party, in the National Political Campaign of 1928—Declaration Made That Trade Unionists Are Not Pacifists—While Opposed to War, They Are Ready to Fight For Freedom—Close of Convention at Los Angeles.

LOS ANGELES, Oct. 14—(AP)—Organized labor closed its annual congress here today with a determination to participate actively, but not as a party, in the national political campaign of 1928.

The final admonition of William Green, president of the American Federation of Labor, in bringing the forty-seventh annual convention to an end, was that each member do his share in the big political gestures next year.

The federation, whose gathering this year was declared by Green to be a course in economics, second to none that could be extended by any university, will hold its next year's convention at New Orleans beginning November 21.

The labor executive declared the outstanding development at the convention was the reentry into the building trades department fold of the United Brotherhood of Carpenters and Joiners. This was effected in pre-convention conference after the carpenters and joiners had stood apart from the building trades unit for more than six years as a result of jurisdictional dispute.

Today's short session of the federation was marked by declarations that trade unionists are not pacifists. It was said that they were opposed to war, but ready to fight for freedom.

The convention, only about half of whose membership of nearly 400 was present at the final session, voted unanimously in favoring a committee declaration that trades unionists urge friendly relations between the nations of North America.

"We are not pacifists," the report said. "We are ready to fight for our economic and political rights. But we deplore, yes, abhor, economic as well as political warfare.

"Labor never will surrender its right to fight for freedom and we believe that no country is fully free politically until its workers are fully free economically."

The convention voiced its approval of a measure calling for federation assistance to New York firemen in obtaining an eight hour day and to oil field workers throughout the country in cutting down their hours of labor.

The resolution committee's report praised the work of the federation's educational bureau; condemned rural schools of the country as inadequate and described as "pernicious" what it said were legislative attempts to determine the contents of social and biological science in public school text books. Opposition developed but the report was carried.

The delegates took a definite stand in favor of the five-day week, when they voted concurrence in the executive council's report. That section of the report concerning the new goal of organized labor declared that during the past century and a quarter both the work day and the work week had been reduced steadily.

"This is progress of which labor may well be proud," it added. "It has brought benefits to millions and harm to none. Shortening the work day has turned toil into work; has afforded the nation's citizens greater opportunity to participate in national problem, and has made possible better home life.

"Last year labor for itself the new five-day week goal. It is an end toward which some unions may strive directly, while others have still an intermediate goal to reach. Many of the unorganized still are working long hours; for them, organization must come first."

Though President Green declares in his final address that labor must participate actively in the 1928 political campaign, earlier in the convention he frowned on proposals to create a third party of liberals, farmers and trade unionists.

If such a plan were carried out, he said, labor might not find champions fighting for them from all of the political parties, as it had at the present time.

ALBANIAN MINISTER TO CZECHOSLOVAKIA WAS ASSASSINATED

PRAGUE, Czechoslovakia, Oct. 14—(AP)—Cena Beg, newly appointed Albanian minister to Czechoslovakia, was assassinated here tonight by an Albanian student Agiyiahh Bebi while he was dining at his hotel.

Bebi was arrested immediately. He calmly admitted his intention to kill Cena because he said Cena wished to betray Albana to Czechoslovakia.

KU KLUX KLAN RECORDS SEIZED AT LUVERNE, ALA.

LUVERNE, Ala., Oct. 14—(AP)—Records and paraphernalia of the Luverne klavern of the Ku Klux Klan were seized today in behalf of the special grand jury inquiring into the wholesale floggings and James Esdale of Birmingham, grand dragon of the Klan in Alabama, was questioned as to its activities.

Seizure of the local Klan's records at the home and office of Ira B Thompson, reputed local Klan head, were understood to have been ordered because local Klan officers refused to testify regarding its membership. Cecil Davis of Birmingham, said to be former grand titan of the southern province of the Klan, began serving a five day sentence today for refusing to answer questions when called before the grand jury.

Esdale, who had been summoned several days ago but was out of the state, came to Luverne today and was closeted with the grand jury for an hour and 20 minutes but he declined to answer questions as to what was said. Attorney-General McCall, who has taken personal charge of the inquiry and local officials, declined to comment on the seizure of the Klan records.

Mr. McCall had indicated previously that the grand jury would make its report possibly today, but late today he said no report could be made until tomorrow night at the earliest.

REMUS TO BE ARRAIGNED ON MURDER CHARGE TODAY

CINCINNATI, O., Oct. 14—(AP)—George Remus "unlawfully, purposely and of deliberate and premeditated malice did kill and murder" his wife, Imogene Holmes Remus, the Hamilton county grand jury reported to Judge Chester R. Shock in criminal court today.

A few hours later, Remus, who shot and killed his wife while she was going to divorce court here on Oct. 6, was served with a copy of the grand jury indictment which charged first degree murder. In eight days the preliminaries to trial have been disposed of.

Tomorrow morning at 11 o'clock he will be arraigned to make a plea. During the second week of November, if present intentions prevail, he will face the criminal court to defend that he was "justified" in the killing while the state demands the electric chair for the crime.

Remus is expected to plead "not guilty" when he is arraigned tomorrow for since the shooting he has repeatedly stated he was justified. He charged that his wife deserted him for another man and stole his fortune gleaned from his bootlegging activities.

TROUBLE BETWEEN NON-UNION MINERS AND UNION MEN

CAMBRIDGE, Ohio, Oct. 14—(AP)—Trouble between non-union miners and union men at the Quaker mine of the Leatherwood Coal company near here today, led to the arrest of 85 men, charged with violating the injunction granted by common pleas Judge Charles S. Turnbaugh. The injunction specified the union men might have three pickets at the mine which has been operating on a non-union basis for some time, employing about 400 men.

At noon today, it was said, nearly 100 union sympathizers gathered near the mine and ordered the non-union men to quit work. When they refused trouble followed.

When arraigned before Judge Turnbaugh he told them he would recommend to federal authorities that the affair be investigated, and added: "If the evidence reveals what I think it will, I shall recommend your citizenship papers be taken away and that you be deported."

DENVER COUNTY DEMOCRATS FAVOR WET CANDIDATE

DENVER, Col., Oct. 14—(AP)—County democrats today adopted a resolution pledging the support of their congressional candidate to a modification of the Volstead act. The vote was 805 to 262 and was taken at the democratic county convention of the first state congressional district.

S. S. Harrison White, former justice of the supreme court, later was nominated as the democratic candidate for congressman.

White will oppose finely McFarland, republican nominee in the special election in November to fill the unexpired term of the late Congressman William M. Vaile.

DIVORCE SUIT AGAINST ACTOR ELIOT DEXTER

LOS ANGELES, Oct. 14—(AP)—Suit for divorce was filed today against Eliot Dexter, widely known screen and vaudeville actor. Mrs. Dexter charges he deserted her April 6, 1926, and since had given her no financial support.

Before her marriage to the actor in November, 1922, Mrs. Dexter was Mrs. Alvin Untermeyer, a divorcee. Dexter's first wife was Marie Doro, actress. She divorced him.

Dexter is said to be on a vaudeville tour in the east

Ruth Elder to Land at the Azores Today

It is Quite Probable That She Will Land Without Even a Toothbrush.

PARIS, Oct. 14—(AP)—Captain Goos of the Dutch tanker Barendrecht, which rescued Ruth Elder and George Haldeman from the sea, tonight sent the Associated Press the following message: "Steamer Barendrecht will land crew airplane at Horta, Azores. Arriving Saturday."

PARIS, Oct. 14—(AP)—Ruth Elder and George Haldeman, rescued from the sea by the Dutch tanker Barendrecht yesterday, will set their feet on land tomorrow at Horta, the Azores, for the first time since they hopped off Tuesday afternoon from Roosevelt field, N. Y., in their ill-fated plane "the American Girl."

It is understood here that Paris, which was their goal when they climbed into the plane, is still their destination and that they will continue their journey here by the more ordinary means of transport.

It is likely that the two fliers will land without even a toothbrush for it is believed that all their belongings were destroyed when their plane took fire as an effort was being made to lift it aboard the Barendrecht, the plane lies beneath the waves of the Atlantic, a mass of charred wreckage.

Although no definite news was received from the fliers themselves it was known from wireless messages sent by Captain Goos of the Barendrecht that the fliers were tired and Paris assumes that they are also happy.

The tenor of all the comment in the Paris newspapers is that the fliers had a miraculous escape, that they ought to be congratulated but at the same time told not to do it again. It is likely that Miss Elder will get quite a welcome for the French have shown great admiration for her spunk although they doubt the wisdom of the course she tried to pursue.

For the moment, however, knowing that she is safe Paris is turning its thoughts to others things and the voyage which Dieudonne Costes began across the South Atlantic this morning has taken the place of Miss Elder's odyssey front pages of the Paris newspapers.

The crew of the Junkers plane D-1230 and Gill Dillenz their passenger, who crossed from Portugal to Horta today are expected to be among the first to welcome the American fliers to the Azores.

The committee of American aviation enthusiasts who waited all yesterday at Le Bourget will become Miss Elder and Haldeman on their belated arrival in Paris—at some railway station some day next week.

FIVE REBEL MEX. GENERALS COMBINE WITH GEN. GOMEZ

SAN ANTONIO, Oct. 14—(AP)—Five revolting Mexican generals have united their forces under General Arnulfo Gomez and are operating between Tuxpam and Vera Cruz, representatives of Gomez in San Antonio announced tonight.

The force under the personal command of General Gomez has been reinforced by bands under Candido Aguilar, Irenio Villareal, Kesareo Castro, Hector Almada and another general named Medina, it was claimed. Gomez agents said their announcement was based on messages received today.

The combined force was reported to be marching toward Cierrt Amarillo with the plan of overrunning the rich oil fields between Tuxpam and Vera Cruz. Gomez headquarters here asserted. They are expected to be reinforced soon by men under General Larraga, who has revolted in San Luis Potosi and marched out of the city with the intention of joining General Gomez.

The territory chosen for his operations by Gomez is said to be the same which was held so long against Carranza by General Palaez just before the Obregon revolt. Carranza was never able to dislodge Palaez and the president was deprived of revenues from the the vast oil fields.

SHOT HERSELF WHILE SITTING IN AUTOMOBILE

BOSTON, Oct. 14—(AP)—While sitting in a parked automobile at a street corner in the financial district today Mrs. Ethel Howard Clark of Hollywood, Calif., a nurse, shot herself in the left breast. She was in a dying condition at the Relief hospital tonight.

A note which the woman had written before leaving her hotel, said that the "moral responsibility rested on a Boston broker who had recently sold Mrs. Clark some mining stock.

TWO YOUTHFUL BANDITS ROBBED BRYANT, IND., BANK

PORTLAND, Ind., Oct. 14—(AP)—Two youthful bandits with guns waving in true wild west fashion robbed the Farmers and Merchants bank at Bryant, six miles north of here of between $2,500 and $3,000 in cash late today.

The robbers did not demand that the safe containing $6,000 in cash be opened.

Policy Unchanged on Foreign Loans

State Department is to Continue to Express Approval on Disapproval.

WASHINGTON, Oct. 14—(AP)—President Coolidge contemplates no present change in the state department policy of extending or withholding its consent to loans by American bankers to foreign governments, although he recently considered abandonment of the practice.

This was stated officially today at the white house, in connection with the statement issued yesterday by Senator Glass, democrat, Virginia, assailing the policy as unauthorized and opening the field both for possible scandal at home and difficulties in the conduct of foreign relations.

The president feels that the advisory contact of the state department with American bankers in such matters should be maintained as drastic regulatory laws passed by congress might prove embarrassing to the conduct of foreign affairs. He also takes the view that the procedure is authorized by the constitutional provision placing the conduct of foreign affairs in the hands of the chief executive.

Coincident with the white house statement of Mr. Coolidge's attitude, the state department made public the form of letters sent to bankers requesting an expression on foreign loans and Senator Borah, of Idaho, chairman of the senate foreign relations committee, declared his own belief that the administration practice should be terminated.

One paragraph of the form letter sent to bankers by the secretary of state, as made public at the department says:

"I beg to state that in the light of the information before it, the department of state offers no objection to this financing."

As further evidence to support the contention that the department does not actually approve or disapprove loans, this paragraph of form letters was made public:

"You, of course, appreciate that, as pointed out in the department's announcement of March 3, 1922, the department of state does not pass upon the merits of foreign loans as business propositions nor assume any responsibility in connection with such transactions; also that no reference to the attitude of this government should be made in any prospectus or otherwise."

Senator Borah, in a brief statement, said he did not wish to be placed in the attitude of criticising the state department.

"The department inherited this practice and had a particular situation to deal with," he said. "I do think, however, that it is a practice that should be terminated."

Senator Glass and other senators have taken a like view and some observers saw in the present situation the probability of a move at the coming session of congress for at least a declaration against the state department's policy.

Several senators today expressed the view that there was ample authority for congress to prohibit the practice by affirmative legislation.

FRENCH AIRMEN ARE TO FLY TO BUENOS AIRES

PARIS, Oct. 14—(AP)—French fliers fighting pluckily against the ill luck that has pursued them since Nungesser and Coli disappeared, again today attacked the Atlantic ocean by air.

Dieudonne Costes and Joseph Lebrix, after making a splendid flight from here to Louis, Senegal, where their plane barely escaped destruction from a tornado, took off in the Nungesser-Coli from St. Louis early this morning continuing their flight to Buenos Aires.

The fliers started somewhat blindly and rather numbly as the weather was none too good and their wireless has been silent for the first twelve hours since their hopoff.

Louis Breguet, constructor of their plane is confident, however, that the plucky pilots will make the second leg of their journey successfully. He thinks they ought to be heard from in the region of Natal, Brazil, between midnight and one o'clock tomorrow morning.

THREE BANK ROBBERS SURROUNDED IN THICKET

MILL CREEK, Ill., Oct. 14—(AP)—Three men who robbed the First National bank of Grand Tower today and took $1,600 were surrounded in dense thicket near here tonight by more than fifty officer sand citizens after the trio abandoned their automobile, exchanged shots with deputy sheriffs and fled into the timber.

CREDITED WITH ALTITUDE RECORD OF 18,266.4 FEET

HAMBURG, Germany, Oct. 14—(AP)—Pilot Roehne, flying a small sporting plane, was today credited with establishing a new altitude record at 5,630 meters (18,266.4 feet) last Sunday. The record was certified by the nautical observatory which examined the height indicator. The previous record was 5,268 meters.

The Old Bus!

The paint may be scraped off here and there and the engine may miss now and then, but the old bus is still a good old friend. You can recall all the service the old bus has given you, but did you ever stop to think how much the oft-discussed business of advertising has had to do with the fun you've had out of the old bus?

Didn't advertising tell you of many things that made your car run easier and more economical? Didn't advertising help you plan your pleasure trips? And when you are through with the old bus, won't advertising help you dispose of it advantageously and enable you to select the new one more intelligently?

And that's just the motor car department of life. Advertising means quite a lot to you, doesn't it? Life would be full of detours without it.

TROOPS MAKING DRIVE ON PEKING ARE PUT TO FLIGHT

The Main Shansi Armies Have Been Scattered Into Roving Bands—The Northern Army Had Deliberately Drawn 80,000 Men of the Shansi Army to a Point 85 Miles Southeast of Peking and Then Sent the Northern Army to Cut Off Their Retreat.

PEKENG, China, Oct. 14—(AP)—The main Shansi armies which have been driving on Peking have been crushed, but scattered bands are still in the field—some within twenty miles of Peking—with northern forces close at their heels, a spokesman for the northern alliance stated today.

This spokesman declared that the northerners deliberately drew the main Shansi army of 80,000 men almost to Paotingfu, 85 miles southwest of Peking, and then sent the northern army by way of Anchow toward Tingchow to cut off their retreat. Most of the Shansi force was forced to abandon the Peking-Hankow railway and flee southwestward toward their native province of Shansi.

The latest message from Chang Hsueh-Liang, son of Marshal Chang Tso-Lin, stated that his troops are about to enter Chengtingfu, 70 miles south of Paotingfu, but contrary to previous reports the Shansi forces still hold the important railway junction of Chentow near Chengtingfu. The northern spokesman said that the fall of this latter place was expected hourly.

Operations on the northern front have been delayed unexpectedly by an early heavy snow fall, but fighting has been going on at Tsaikowpu, the northerners advancing westward causing the Shansi army to evacuate the important trading city of Kaigan.

The Shansi leaders evidently had made elaborate plans to capture Peking, the spokesman said. Apart from the two main armies, two divisions were detailed to advance along the mountain roads and cut communications. This plan failed largely because of the rapidity of the northern victory against the main Shansi armies.

Several of these raids have been stopped, notably in the western hills twenty miles from Peking where one Shansi regiment was disarmed. A stronger Shansi force took Chochow, only 38 miles south of Peking, but were driven out by northern troops.

Severe fighting has been going on between the northern forces and the nationalists in the province of Honan, but reports here indicate a somewhat slow advance of Shantung (northern) troops along the Lunghai railway.

SHARP TALK AT TRIAL OF BUDLONG DIVORCE SUIT

NEWPORT, R. I., Oct. 14—(AP)—A series of verbal jousts between Judge Herbert Carpenter and Mrs. Jessie Margaret Budlong marked today's session of the trial of the suit for divorce brought by Milton J. Budlong of New York and Newport against Mrs. Budlong.

Judge Carpenter urged Mrs Budlong, who occupied the witness stand all day in her own defense, to complete her testimony and allow the trial to finish this week. Mrs. Budlong refused. At one point the judge exclaimed:

"It is your damnable disposition and nothing else that brought you into this, Mrs. Budlong."

On another occasion the witness referred to Abbott Phillips, counsel for the petitioner, as a "devil."

"I think you are too, so honors are even," the court remarked.

In her testimony Mrs. Budlong made an absolute denial of every allegation made by her husband in his suit for absolute divorce. She frequently denied flatly statements that had been made by Mr. Budlong, his counsel and his witnesses.

RADIO CAUSING YOUTH TO NEGLECT HIS STUDIES

NEW YORK, Oct. 14.—(AP)—The power of the federal radio commission was exerted today as an auxiliary to parental authority to save a 15-year-old radio enthusiast from ruining his health and neglecting his studies while he spent his time operating his amateur station.

As a result, station 2, ATZ, operated by Eric H. Palmer, Jr., of West Brooklyn, will be "silent" at least until January 1, 1928.

Eric, Jr., it was said, went when he learned of the commission's action, but brightened up considerably when Eric, Sr., informed him that if he forgot about radio for a while, he would buy him a complete, new radio outfit.

In addition to neglecting his studies, the elder Palmer told the local representatives of the radio commission that his son had changed from a hale and hearty youngster to a pale, sunk-enchested and weak-eyed youth.

RECEIVERS FOR CHARLESTON INDUSTRIAL CORPORATION

CHARLESTON, W. Va., Oct. 14.—(AP)—Receivers for the Charleston Industrial corporation were appointed in federal court today and the government filed a bill of complaint in a move toward foreclosing its mortgage on the war-born chemical town of Nitro, which was purchased by the Industrial corporation from the government in 1922.

The government's bill of complaint alleges that the corporation, a real estate concern, owes approximately $1,125,000 of the purchase price of Nitro. The town, it was stated, was sold by the war department for $8,000,000.

LONDON, Oct. 14.—(AP)—A dispatch to the Westminster Gazette, from Dublin says that after obtaining legal advice Michael Hayes, speaker of the Dail Eireann, has refused to allow James Larkin, elected by the Irish workers party from North Dublin, to take his seat on the ground that he is an undischarged bankrupt.

MEXICAN REBELS DEFEATED WITH HEAVY LOSSES

LAREXO, Texas, Oct. 14—(AP)—Rebels attempted to capture the town of Huatusco, Vera Cruz, were defeated with heavy losses, according to reports issued by the Mexican war offices and given out at the Mexican consulate here today.

Huatusco was without a regular garrison, the defense being made by residents who armed themselves and routed the rebels into the mountains, the consulate was informed.

General Claudio Fox has been ordered by President Calles to the state of Guerrero to run down a small band of rebels according to the consulate, which also said General Jose Alvarez, chief of the President Calles military staff, has been promoted to the rank of brigadier general. Generals Pedro-Saavedra and Pedro Gabay were made general of division.

SIX PERSONS WERE KILLED WHEN TRAIN STRUCK BUS

INDIANAPOLIS, Ind., Oct. 14—(AP)—Six persons were known to have been killed and more than a score injured tonight whe nan interurban struck an automobile trailer at a crossing on the outskirts of the city. More than fifty members of the Indianapolis Sahara Grotto drill team and band were in a truck and trailer bound for a barn dance in the country. The truck cleared the tracks but the trailer was struck squarely.

Ambulances and police emergencies were rushed to the scene of the accident which occurred at Emerson avenue and the Honeybee line. The injured were rushed to hospitals in Indianapolis. An accurate check on the dead and injured was at first almost impossible due to the confusion. One of the members of the Grotto band said it seemed as if dead and injured were "scattered every place."

NEARLY TRAPPED BY FLOOD IN EXCAVATION

BELLOWS FALLS, Vt., Oct. 14—(AP)—Likened by onlookers to an "army of ants crawling out of a hole," more than three score workmen of the New England Power company engaged in building the Connecticut river dam here today saved their lives by running at top speed and climbing out of a rock excavation when flood waters broke through about 100 feet of coffer dam protecting the incompleted structure.

Some reached the river bank on the New Hampshire side while others climbed up the piers of the Boston and Maine bridge.

Large stores of machinery and supplies were carried down stream by the flood waters, swollen by the rain of the last few days.

FOUND GUILTY OF KILLING GUARD IN PENITENTIARY

MOWSON, Md., Oct. 14—(AP)—Benjamin F. Spragins, tonight was found guilty of first degree murder in connection with the fatal shooting last July of Alfred E. Walker, a guard at the Maryland penitentiary. The jury did not recommend mercy, thus imposing the death penalty or life imprisonment. Sentence was suspended however, pending motion for a new trial.

Walker was killed during an attempt by Spragins and Charles (Country) Carey to escape from the penitentiary. The essayed break was frustrated.

GEN. GOMEZ LOCATED IN STATE OF VERA CRUZ

MEXICO CITY, Oct. 14—(AP)—General Alvarez, chief of the presidential staff, announced this afternoon that federal troops under command of General Escabor had discovered General Arnulfo Gomez, with only 35 of his followers still with him, in the Huatusco region of the state of Vera Cruz. A battle was believed imminent.

NEW HAVEN POLICE SEEK OWNER OF STRANDED BOAT

NEW HAVEN, Oct. 14—(AP)—Local police today were seeking the owner of a 30-foot cabin cruiser, the "Lady Ellen," which was found this morning aground in the Quinnipiac river. It was believed that either the storm Wednesday took the craft from its moorings, or that it had been stolen and then deserted.

WASHINGTON, Oct. 14—(AP)—Arturo Garcia-Fermenti, 19 year old student of the National University of Mexico, tonight won the second international oratorical contest.

Georges Quiot-Guillain, of France, was second; and Frederick P. Hotson, of Ontario, Canada, was third.

TROUBLES AT ALABAMA POLYTECHNIC INSTITUTE

AUBURN, Ala., Oct. 14—(AP)—After hearing complaints of five student leaders against the administration of Dr. Spright Dowell, president of Alabama Polytechnic Institute, Gov. Bibb Graves late today appointed five members of the college board of trustees to investigate conditions and report to him Oct. 18.

The governor presided at a specially called meeting of the board today to receive the students' protest.

Charges that Dr. Dowell was "incompetent because he failed to keep up with the human side of student life," that discipline is lacking and that Alabama Tech is the only Class A college in the south where student enrollment has shown a material decrease in recent years, wer emade before the board by the five students.

Tribute was paid to Dr. Dowell by L. S. Whitten president of the interfraternity council for his development of the "business side of the college during the seven years he has been here, "but the students," he added, felt that he had lost personal contact with them.

BOMB WAS THROWN INTO RACING ENCLOSURE

KANSAS CITY, Oct. 14.—(AP)—Dog racing at the Parkville Greyhound track several miles from Kansas City was briefly interrupted tonight when a bomb was thrown into the racing enclosure causing consternation among 5,000 spectators. No one was injured.

The bomb was believed to have been thrown from a passing automobile. A highway skirts the edge of the track and the automobile was seen to drive near the enclosure and the bomb hurled on the backstretch.

The blast, occuring immediately after the first race of the evening, rocked the grandstands and tore a hole 12 feet wide in the ground. Racing was resumed with a heavy guard around the track.

Managers of the track said 15 guards were on duty before the races started tonight. Bad feeling has been evidenced recently between hangers-on of the Parkville track and another nearby where dog racing started several weeks before the Parkville track opened, according to police.

EARL CARROLL APPEARED BEFORE THE PAROLE BOARD

ATLANTA, Ga., Oct. 14—(AP)—Earl Carroll, New York theatrical producer, appeared before the federal parole board today in behalf of his application for parole from the Atlanta penitentiary, where he is serving a year and a day term for perjury.

The board, meeting in special session to consider the petitions of more than 125 prisoners who have become eligible for clemency during the past month, held its meeting at the prison honor farm, where Carroll for some time has fulfilled the duties of librarian.

Only at the board's discretion are applicants accorded such a hearing and Carroll was one of a few inmates who have been called thus for in the two days of the body's meeting.

What he told the board, however, was kept secret.

INVESTIGATING DEATH OF FATHER, MOTHER, DAUGHTER

RICKARDSVILLE, Iowa, Oct. 14—(AP)—The deaths of Mr. and Mrs. George Stillmunkes and their daughter, Natrona, 13, were investigated today in an effort to determine whether the fire that swept their bedroom Wednesday night was accidental or incendiary.

Officials suspect that Stilmunkes, a merchant, ignited the oil-soaked rags found near the beds of his wife and daughter. A suitcase containing a thousand dollars in cash and important documents was found clutched in the merchant's hand as he lay stretched upon the floor.

Neighbors said Stillmunkes quarreled with his wife recently over business matters.

TO ENDEAVOR ESTABLISH ENDURANCE FLYING RECORD

CURTISS FIELD, N. Y., Oct. 14—(AP)—Edward F. Schlee and William S. Brock, who recently flew from here to Tokio in an attempt to circle the globe by airplane, will try to establish a new world's endurance flying record early next month at Daytona, Fla., they announced today when they landed here in their plane, Pride of Detroit, from Springfield, Ohio.

They are confident that they can remain in the air more than 60 hours, they declared. The fliers came here, they said, to wind up business affairs in connection with their attempted around the world flight, and will return Monday to Detroit, where their plane is to be overhauled in preparation for the duration attempt. They also are planning another globe girdling flight, they said, and although they refused to go into details, it was intimated that the flight would be made next year.

The Pride of Detroit was covered with signatures of persons who had crowded about it on flying fields from here to Tokio. Schlee estimated that nearly 10,000 names had been scrawled upon every available portion of the wings and fuselage.

MRS. GRAYSON MAY START ON OCEAN FLIGHT TODAY

OLD ORCHARD, Maine, Oct. 14—(AP)—The party which has waited on the Sikorsky plane, The Dawn, through days and weeks, tonight took on a livelier spirit with the almost certainty that Mrws. Frances W. Grayson and her companions would hop off tomorrow morning for Europe. As though to change the atmosphere engendered by wearisome postponements, the group of forty who monopolized the Hotel Brunswick tonight made merry at a farewell dinner. It was the idea of Mrs. Grayson, who has been most eager of the flyers. In the course of the celebration she presented each newspaperman and the guests with an autographed photograph, taken today in Portland, while groups of news writers and cameramen presented skits to remove all thoughts of tomorrow's ordeal.

The weather reports of the evening were promising, according to Pilot Wilmer Stultz and Navigator Brice Goldsborough. Unless a disturbance develops on the trans-Atlantic route before morning, they were confident that at last they would be on the way.

CONVENT TO BECOME HOME FOR METHODIST WOMEN

DANBURY, Oct. 14—(AP)—St. Joseph's Roman Catholic convent, on upper Main street, will be sold to the New York district of the New York east conference of Methodist Episcopal churches, to be used as a home for aged Methodist women, it was announced today by Rev. James E. O'Brien, of St. Joseph's church. It will be the first home of its particular kind in the history of the state, according to conference officials.

The 13 nuns of the convent will move to the present rectory which will be transformed into the new convent and the three priests who are at present occupying the rectory will move to a new and smaller rectory.

GERMAN AIRMEN HAVE ARRIVED AT THE AZORES

EMDEN, Germany, Oct. 14—(AP)—The crew of the Junkers plane D-1230 and their passenger Lili Dillenz, Viennese actress who arrived at at Horta, the Azores, today completing a 900 mile hope from Lisbon, Portugal, are described as highly elated over the successful performance of the plane in a private dispatch from Horta.

OLD CARD BLOCK HAS VERY INTERESTING HISTORY

(Special to The Bulletin)

WILLIMANTIC, Oct. 14.—While a steam shovel digs for a basement over which will be erected a modern business block on the site of the old Card block which has been razed the interesting history of the torn-down structure is being gathered and compiled which involves the names of many well known "old timers." The Card block was the oldest business block in the city and the second oldest building to be erected on Main street. The Harden Fitch house at 1289 Main street which is at present occupied by Robert C. Crosthwaite is the oldest, according to records. John L. Leonard, who is recognized as one of the most accurate historians of the town and others do not remember when the Card block was built. Records show that in the '50's the block and land were the property of Frederick Campbell. It was deeded to Dr. David C. Card on May 14, 1864, for the sum of $4,200 and it remained in the Card family until the settlement of the estate on June 15, 1915, when it was purchased by Attorney John L. Hall of Boston. Attorney Hall is a native of this city and members of the Hall family owned considerable real estate here. Back in 1865 the Campbell and Johnson families were the predominating land owners. At that time, according to a fine pencil sketch by John L. Leonard, nearly all of Main street was lined by picket fences and cow paths led to what is now known as "the hill" and is a thickly populated section. Old residents claim that there have been no drastic changes in the appearance of the Card block for over half a century. Dr. Card had built an addition to the structure in the rear of the block. The original structure was of brick. The original block was used as the Willimantic post office during the two democratic administrations of President Franklin Pierce in 1853 and James Buchanan in 1857. Thomas Campbell, brother of the owner, was postmaster. With the election of President Abraham Lincoln in 1861, James Walden was appointed postmaster and after conducting the post office in the Card block for about a year he removed it into his block across the street and subsequently established the Adams Express office here.

Postmaster Walden carried express matter from the railroad station to the post office in a wheelbarrow. Robert E. Isbell later succeeded him as agent for the express company, and he in turn was subsequently succeeded by E. P. Ellsworth who had become assistant agent in 1881. The vacated store in the Card block was taken over by the Cassaza Brothers as a fruit stand. The fruit business later was conducted by Tony Costa and James DeMarchi and then by the Lombardo brothers, one of whom was the father of Frank P. and Charles Lombardo who succeeded to the business and remained located there up to the razing of the building.

The wooden addition built half a century ago by Dr. Card was first occupied as a drug store conducted by F. H. Watson. Dr. William Wright ran the business for a time and then removed to Central Village. The late Hugh C. Murray, founder of the Murray Boston store and John McCracken, who came here from Providence, started a dry goods store in the addition. When the Loomer Opera house block was built Messrs. Murray and McCracken took over three stores in that building. The Card block store was occupied by Deacon Nathan H. Stearns as a harness shop. He sold out to John Manley of Colchester, father of the late John Manley who was a police officer here for many years. In the late '80's Samuel Chesebro took the place over as a pharmacy. In 1894 he removed the business to the corner store of the Loomer block, this store having been vacated by H. C. Murray, who had removed his business into the newly built Murray block. Charles Whittemore, father of Willard L. Whittemore, established a confectionery store in the Card block store. After his death it was occupied by the S. K. Ames company.

Funeral services for Andrew J. Harkins were held at the late home in North Coventry with a high mass of requiem in St. Mary's church, South Coventry, at 10.30 o'clock this morning. Rev. Dennis F. Moran was celebrant. Burial was in the Center cemetery, North Coventry, where Rev. Father Moran read a committal prayer. The bearers were Adolph Reisch, J. Skilton, W. B. Hawkins and C. MacFarland. Arrangements were in charge of Avery and VanZandt.

Services for Isas Farkouh, whose body was recovered from Crystal lake, Ellington, Wednesday, were held at St. Paul's Episcopal church at ten o'clock this morning. Rev. Gabriel Barrow of Brooklyn, N. Y., officiated and delivered the eulogy. There was a large attendance. Burial was in the new Willimantic cemetery where a committal service was conducted at the grave. The bearers were Richard, Shaheen, Assad and Louis Haddad. Rev. Farkouth, father of the boy, also read a ritual at the cemetery.

An improvement is noted in the condition of Edward A. Grady who was injured Monday when he fell from a staging at the construction job of the new Windham street school addition. Another X-ray photograph was taken of the injured man at St. Joseph's hospital today showing that while the left shoulder is painful it is not badly fractured. Bruises about the body are not serious.

A Reo speed wagon driven by Samuel Reinstein of Village Hill and a Hudson brougham operated by J. Francis Keon of this city collided at the junction of High and Main streets at seven o'clock this morning. The brougham suffered somed amage which will be settled for by agreement between the drivers.

The new organization of mothers' primary and junior departments of the First Congregational church met in the church house this evening to arrange the program for the year. It was voted to hold monthly metings. The business session was followed by a social. Mrs. Evelyn Nichols is director of the work of the departments.

The funeral of William P. Allen was held at two o'clock this afternoon with services conducted at the First Congregational church house by officers of Eastern Star lodge, No. 44, A. F. and A. M. The bearers were Walter and George Grant, Nathan Bushnell, L. C. Fisk, Charles Bushnell and Burt Hatch. Burial was in the family plot of the Windham cemetery. Avery and VanZandt had charge of the arrangements.

The workers' conference of the First Baptist church met in the church vestry this evening, the meeting being preceded by a supper.

A supper given at the Congregational church house Thursday evening was enjoyed by about 125 guests. Mrs. C. C. Helmold was chairman of the dining room committee and Mrs. Robert H. Fenton of the supper committee.

Success attended a food sale conducted today by Anne Wood Elderkin chapter, D. A. R., and in charge of the following committee: Mrs. Frank Williams, Mrs. Byron Potter, Mrs. Noah Webster and Mrs. Walter B. Knight.

Over 50 workmen are rushing the work on the addition to the Windham street school. The brick walls of the first floor are now complete and it is hoped to have the building covered by Thanksgiving.

An interesting fire prevention and fire-fighting exhibition was given in observance of Fire Prevention Week at Windham field this evening. The display was under direction of Fire Chief Henry J. Kelley and included the use of chemicals to extinguish a fire in a makeshift structure. A fire alarm box was installed and instructions as to its use were given.

C. H. Weare who recently purchased the Chaffee Manufacturing company plant has removed his family, consisting of his wife and two daughters from Troy, N. Y., to Walnut stret, this city.

Preparations are being made for the eighth annual dance for the benefit of St. Joseph's hospital given under the auspices of the Alumni association.

See how white your wash becomes

without scrubbing or boiling

Every week millions of washes are done the Rinso way.

Clothes soaked gently in Rinso suds come out whiter and brighter than you could scrub them!

No wonder they last longer—no washboard to wear them threadbare. No hard rubbing to ruin your hands. No boiling to waste fuel. *Just Rinso!*

Rinso makes even the hardest water soft and soapy all through. Not frothy soap bubbles, but thick, cleansing, *sterilizing* suds.

So safe, quick and economical that the makers of 30 leading washing machines endorse it. Get it today. For best results follow easy directions on package.

POETRY

American Names

I have fallen in love with Americas names,
The sharp, gaunt names that never get fat,
The snakeskin titles of mining claims,
The plumed war bonnet of Medicine Hat,
Tucson and Deadwood and Lost Mule flat.

Seine and Piave are silver spoons,
But the spoon bowl metal is thin and worn;
There are English counties like hunting tunes
Played on the keys of a post-boy's horn
But I will remember where I was born.

I will remember Carquinez Straits,
Little French Lick and Lundy's Lane,
The Yankee ships nad the Yankee dates
And the bullet towns of Calamity Jane,
I will remember Skunktown Plain.

I will fall in love with a Salem tree
And a rawhide quirt from Santa Cruz,
I will get me a bottle of Boston tea,
And a blue-gum nigger to sing me blues.
I am tired of loving a foreign muse.

Rue des Martyrs and Bleeding Heart Yard,
Senlis, Pisa and Blindman's Oast,
It is a magic ghost you guard;
But I am sick for a newer ghost,
Harrisburg, Spartanburg, Painted Post.

Henry and John were never so
And Henry and John were always right?
Granted, but when it was time to go
And the team and the laurels had stood all night,
Did they never watch for Nantucket Light?

I shall not rest quiet in Montparnasse
I shall not lie easy at Winchelsea.
You may bury my body in Sussex grass,
You may bury my tongue at Chamonmedy
I shall not be there. I shall rise and pass
Bury my heart at Wounded Knee.
—Stephen Vincent Benet, in Yale Review.

The Beautiful Isle of Somewhere

Somewhere the sun is shining
Somewhere the song birds dwell
Hush then thy sad repining
God lives and all is well.

Chorus—

Somewhere, somewhere
Beautiful isle of somewhere
Land of the true, where we live anew
Beautiful isle of somewhere

Somewhere the day is longer
Somewhere the task is done
Somewhere the heart is stronger
Somewhere the guerdon won.

Somewhere the load is lifted
Close by an open gate
Somewhere the clouds are rifted
Somewhere the angels wait.

HUMOR OF THE DAY

She—You say he has absolute faith in his fellow men?

He—Yeah. He writes "Personal" on a postal card.—Detroit News.

Gladys—"I weighed 125 pounds, stripped."

Passionate Lover: "You can't tell anything about these scales in the drug store."—Exchange.

"That Madge Wilder is as good as a circus. Think of her being engaged three times this summer!"

"Well, she wouldn't be an up-to-date circus without three rings, you know."—Boston Transcript.

Father—"I understand that young man of yours travels in rather speedy company."

Daughter—"Thanks for the compliment, old dear."—American Legion Weekly.

"Jack," she cooed as they sat on the beach in the moonlight, "have you ever been engaged before?"

"Why," he answered, "you don't think that this is my first vacation, do you?"—Facts and Fancies.

"The doctor says I must cut out cigars and late hours."

"That means a decided change in your mode of living, then, doesn't it?"

"It means nothing of the kind. It simply means I change doctors."—Pathfinder.

A man whose life had been spent in active business passed to the spirit world.

On arriving there he thought, "Now for some rest and perfect peace."

After quite a short time a spirit tapped him on the shoulder and said, "Excuse me, sir; you are wanted on the ouija board."—Tit-Bits.

"My wife", said Brown "has a terrible memory. She simply forgets everything."

"Well," remarked Jones, "mine used to be that way, but I found a way to cure her."

"How was that?"

"If there is something I am anxious for her to know and remember I write it on a card and put the card in my trousers pocket."—Life.

KALEIDOSCOPE

In New York city more than 60 police are constantly engaged in a search for persons reported lost or missing.

Thomas Nast, cartoonist, in 1870 originated the donkey and elephant as symbols of the democratic and republican parties.

Examination of the mummy of King Tut-ankh-amen showed that his ears were pierced and earrings were found in an outer casket.

The ole swimmin' hole looked good to John Foss of Turnbridge, Vt., and in he went. When he came out he discovered that a cow had been displaying goatlike propensities, nibbling at his trousers and consequently his pasabook recording his bank savings.

For a week a buffalo roamed over the farms of southwest Kansas as did his ancestors when those farms were prairies. Startled farmers did not believe their eyes when they saw the buffalo loping across their fields. Investigation proved the animal had been shipped from Yellowstone park to a ranch near Cimmaron and had escaped, to be captured after a week of freedom.

Joseph Costa, of Waltham, Mass., has received a post card which he tossed overboard in a sealed bottle in mid-Atlantic while returning from his wedding trip to Italy in April, 1926. The bottle was washed ashore on Great Inagua, an island in the British West Indies, 14 months later, and the finder complying with the request written on the card, mailed it to Costa.

Dried milk that has been treated with ultra violet light is the most practical of the irradiated foods that have been used to prevent rickets in babies, in the opinion of Dr. Alfred F. Hess, an authority on rickets, "it is the unanimous opinion that dried milk treated in this way prevents or cures infantile rickets and tetany," asserted Dr. Hess in a recent report to the American Medical association. "The specific gravity of the milk is maintained for a period of at least six weeks."

Squirrels that eat ice cream and drink milk shakes attract considerable attention in a Bridgewater (Mass.) drug store, when Edward Lord, a clerk, puts the animals through their tricks for unbelieving customers, says the Boston Globe. When he places a scoop of ice cream on the counter, the two squirrels will pick it up in their paws and eat it. Placed on a customer's shoulder, they will run down his arm and drink a milk shake out of the glass. One man found that his straw hat was ruined after one of the squirrels had taken several bites out of it as he perched on his shoulder.

DANIELSON

E. L. DARBIE NOT A CANDIDATE FOR CONGRESS

(Special to The Bulletin)

DANIELSON, Oct. 14.—Attorney E. L. Darbie's boom for congressman from this district has blown up. It blew because Mr. Darbie stuck a large size pin it. Within the past few days there has been some published speculation and gossip about candidates to oppose Congressman Richard P. Freeman of New London for the nomination and among those mentioned was Mr. Darbie, speaker of the house during the 1925 session, and member of the state senate from this district the past session.

Mr. Darbie does not want the nomination for congress. He has said that, and as plainly and positively as he is capable of saying things when he so desires. Today Mr. Darbie explained that during the past week he sent a newspaper clipping speculating as to his candidacy to Congressman Freeman with the notation that "the Killingly delegation to the congressional district convention will in all probability be instructed to vote for you."

Mr. Darbie, chairman of the republican town committee of Killingly, it may be drawn from this, is for Congressman Freeman's renomination and has not the slightest interest or desire to obtain it for himself.

There were no developments up to this afternoon that would tend to disclose the circumstances under which Fred M. Smith, prominent Hopkins resident met death while out duck hunting Tuesday. Continuing his autopsy yesterday, Dr. Harry Smith, medical examiner, North Scituate, recovered the rifle bullet that caused Mr. Smith's death. It had lodged in the left lung, after entering near the right shoulder and traveling downward and across the body. Mr. Smith was carrying a shotgun, which was found fully loaded under his body, when he was struck down by the rifle bullet. It was understood here today that Rhode Island state troopers working on the case are endeavoring to determine whether anyone carrying a rifle was seen Tuesday in he vicinity of where Mr. Smith's body was found. That section is sparsely inhabited. There is the chance, some held, that Mr. Smith was maliciously shot, but the majority opinion appears to be that he was killed by someone who mistook his moving form for that of a deer.

As to the bonding of town and borough tax collectors and treasurers, as discussed in this morning's issue of The Bulletin, the recommendations from the tax commissioner's office for the bonding of such officials in the town of Killingly and borough of Danielson are set forth in a communication received by James R. Walsh, collector of the town of Killingly today.

At present Mr. Walsh is under a bond of $20,000. It is recommended that this be increased to $26,000, Town Treasurer Frank T. Preston's bond has been at $10,000 for years. The commissioner recommends an increase to $26,000. As borough tax collector, Sidney H. Perry is bonded for $5,000. He is charged with the collection of borough taxes amounting to $27,640.05. In this instance the commissioner recommends the the bond be decreased to $4,700, while that of Frank T. Preston, as borough treasurer, should be increased from $1,000 to $4,700, the same of the tax collector's.

The death of Mrs. Ella A. Woodworth, 76, occurred this afternoon about 3.30 in her home on Hawkins street. Mrs. Woodworth had been seriously ill for a number of weeks. She had been a resident here for a great many years, was for years a teacher of the town and more recently a member of the town school committee. She was the widow of Martin V. Woodworth, who has been dead for many years. Mrs. Woodworth was born April, 19, 1851 at Pomfret, a daughter of Marshall and Roxa Carter Wetherell. She leaves a son, Arthur Van Woodworth, who is engaged in business here and a daughter, Miss Elizabeth Woodworth, who is principal of the School street school. There are also two sisters, Mrs. Amelia Young, who is seriously ill at her home here, and Mrs. Jennie Humphrey, now living in Putnam.

There are those who see All Hallows church at Moosup becoming a shrine church as the result of the miraculous cure of Mrs. Blanche Lorette Mathieu, 31, following the making of a novena to Saint Therese. Mrs. Mathieu's case is attracting wide-spread attention. She was stricken with paralysis late in December of last year and since that time up to the making of the novena had been unable to raise her hands to her head and to get about only with very great difficulty and the aid of a cane. Now she walks normally, can use her hands and arms freely and is able to do light housework. Such cases as these have been the means of churches in various parts of this and other countries becoming shrines, where pilgrims gather for novenas in the hope of restoration of health or for other blessings. It is well within the realms of possibility that this may be the case with All Hallows church, where Rev. Joseph E. McCarthy is the pastor.

The formation of a new Camp Fire girls' group is announced—the Wakitatinas—with a present membership of thirteen. The girls held their first meeting Wednesday evening of this week at he Westfield Congregational church. The officers elected were: President, Jay Walker; vice president, Frances Kennedy; secretary, Ella Nash; treasurer, Ruth King; scribe, Barbara Alexander; song leader, Jacqueline Gardner. Other members of the group are Elsie Myers, Mary Pike, Beatrice Pluze, Gladys Bowen, Dorothy Fogerty, Marjorie Mellor, Helen P. Given.

The girls expect to accomplish much and hope to be of public service.

Edward Lavine, 74, died last night at the home of his daughter, Mrs. John McGovern. He was a native of Pennsylvania. For a considerable period of time Mr. Lavine had been employed as a police officer on a dock in New York city. Mrs. Lavine died three years ago.

A general exchange of pulpits is arranged for the coming Sunday through arrangement of the Putnam Clergy Fellowship, in which are representatives of different denominations. The arrangements contemplate a better acquaintance between pastors and congregations as well as between different interested churches.

The arrangement of the exchanbes is as follows: Rev. Albert Abbott of the Danielson Methodist Episcopal church to the Putnam Congregational church; Rev. Chester J. Armstrong of the Danielson Baptist church to the Moosup Methodist Episcopal church; Rev. F. C. Baker of the North Grosvenordale Methodist Episcopal church to the Danielson Nazerene church; Rev. George A. Barker of the Pomfret Congregational church to the Waurgan Congregational church; Rev. W. H. Dunnack of the Moosup Methodist Episcopal church to the Danielson Baptis church; Rev. John F. Duxbury of the Putnam Methodist Episcopal church to he Pomfret Congregational church; Rev. James P. English of the Putnam Congregational church to the Danielson Methodist Episcopal church; Rev. A. E. Gallup of the Danielson Nazerene church to the North Grosvenordale Methodist Episcopal church; Rev. Harding W. Gaylord of the Westfield Congregational church of Danielson to the Plainfield Congregational church; Rev. Henry E. Hodge of the Putnam Baptist church to the Westfield Congregational church, Danielson; Rev. Walter Lanphere, Eastford Congregational church to the Dayville Congregational church; Rev. C. S. Nightingale of the Moosup Baptist church to the Brooklyn Congregational church; Rev. John R. Pratt of the Brooklyn Congregational church to the Eastford Congregational church; Rev. W. C. Prentiss of the Plainfield Congregational church to the Putnam Baptist church; Rev. George H. Reese of the Central Village Congregational church to the Putnam Methodist Episcopal church

This evening the first fall meeting of the Institute of the Quinebaug Valley Chautauqua League was held here, at the Methodist Episcopal church, with Rev. Harold H. Critchlow as the speaker. The evening's program included a period for the Bible Study class and for the Pageantry class. There were devotions, a lecture period and then refreshments, the closing period, 9.30 to 10, being given over to games. Other meetings are to be held during the latter part of this month in Punam, Moosup and Danielson.

Funeral services for Mrs. Sarah E. Godman were conducted at her home in Brooklyn this afternoon by Rev. John R. Pratt of the Brooklyn Congregational church. The attendance at the service was representative not only of Brooklyn but also of various surrounding communities. During the service Mrs. Evia Stone sang In the Dawn of Eternal Day, and Lead, Kindly Light. Representatives of the Household of Ruth, of which Mrs. Godman was a member, and led by Charles Geer of Danielson conducted their ritualistic service at the home, this service including the singing of Asleep in Jesus, Scripture reading and prayer. They also conducted the committal service, singing Shall We Gather At the River?, and depositing a sheaf of wheat on the grave. The bearers were Edward Williams and Floyd Scott of Putnam and Warner Page and Dewey Woodson of Brooklyn. Burial was in the South cemetery at Broklyn. A. F. Wood was the funeral director.

James W. Lathrop is making plans to improve the Dickinson estate which he has bought. Some of the shrubbery and trees have been cut down.

NOANK

The wind from the southeast Thursday morning, after 1 o'clock, was hitting around 85 miles an hour. The fishermen were called from their beds at 2 a. m. as their boats were pounding against the dock and one nearly got away. Water was across several streets and the wires on Pearl street were down, and some afire. The linemen from Mystic were called and after an hour's work had the damage repaired so the people could pass. Down at Wilbur's dock, John Bentley was trying to save a boat from going adrift and the wind was so strong that it blew him over. By getting hold of a spile he saved himself from a wetting. Many fruit trees were ruined.

Kenneth Butson has moved from Poquonoc to the Searles house, on East Main street.

Kid Sherman, the village star featherweight boxer, was telling his friends at Roger's store that he is coming back for a return match with Buck Shea of Bridgeport. When he fought him in New London a few months ago, Kid Sherman did not give the fans the best he had, and was disappointed about it himself. A few years ago he did not back away from the stars of the state but fought hard battles and won his share. For the last few weeks, behind closed doors, Sherman has been hard at it with his trainer, taking on two good men who weigh more than himself, Big Earl Chapman was the first to meet him for five rounds and with his crossfire left, soon in the four rounds, sent Big Earl to dreamland. The second man to step in the ring for six rounds was Jab J. Walsh. It was some battle and went the limit; both men were ready to quit and the battle was a draw. In the early morning, he is doing five miles on the road, then jumps into a row boat to row for two more miles. He breakfasts on dropped eggs on toast, with no coffee, but milk and a small bowl of oat meal. Kid Sherman said just one more shot at Buck Shea to show the boxing fans that he is the old kid of a few years ago. He said "come on, you match-makers, give me one more chance to prove that I am still the old Kid Sherman of the fishing village!"

Edgar Babcock has returned from Plainfield, to make his home at Groton Long Point for a few months.

Raymond Coon and Freeman Rogers, in a big Oldsmobile touring car, left Monday night for a trip of 1800 miles. Capt. Freeman was at the wheel headed for the Berkshire hills, then to Canada, going over Bear Mountain bridge and the Storm King highway. Mr. Coon knows a banjo player named Len Hopkins, in Rutland, Vt., where they will stop. The banjo is 100 years old and it is claimed by Coon. They were due to reach there Thursday night and are due home this (Saturday) noon. If the trip is a success without a blow-out or a flat tire, Mr. Roger and his pal will win a box of cigars. If the blow-out comes, Orlando Clark and his mate George Stoner will have a lobster supper. Time will tell who are the lucky ones.

Rev. Lyman G. Horton of the Methodist church attended the annual convention of the County Council of Religious education at the Second Congregational church in New London.

Christopher Culver, game warden of Groton, has been in the village.

Mrs. John Murray was a recent visitor in Deep River.

Boat Lillian of New York has left the town dock after putting aboard ice and gasoline for the scallop grounds outside Block Island.

Miss Adrian La France of Danville, Canada is visiting Mrs. H. Park for three months. It is her first time in this country. Miss La France was at the town dock Tuesday afternoon watching the fishing boats come in with lobsters, the first one she ever saw right from the water. Fish, too, were new to her. She said, "They can fool me on fish, but they've got to take their hats off to me on farming!" She is raising the largest pumpkins in her town, weighing 32 pounds each.

Mrs. Margaret Peasley and children, John and Claire, after a visit with local relatives have returned to Boston.

Mr. and Mrs. Joe Mulherrin, of Hanover, N. H., are spending a few days in the village.

Boat Grace A., Capt. George Adams, was out to the fishing grounds near Point Judith early Tuesday morning, dragging the flatfish. About 10 o'clock his net got under the boat into the wheel and the boat did not move. Capt. Adams saw another boat coming full steam ahead to help out the disabled craft and tow it to Packing house dock arriving at 12:30. The boat will be hauled out on a local ways before the net is free. Capt. Adams got only two barrels of fish and the net loss is $65.

Along the highway near Fort Hill, in the Fishtown district are new markers. It is a large metal shield with the letters Conn. on the upper part and figure 1. In the center are the letters U. S. It reads "U. S. route, No. 1" painted on the poles along the roadbed. This section is a part of the Boston Post road the other part of U. S. route no. 1 stretching from Fort Kent, Me., to Miami, Fla. It is a help to strange automobile owners who are touring the country.

Mrs. Lewis Main is spending a few days in Saybrook, with relatives.

Charles Olson has returned from Block Island.

Millard De Biasi spent a day in Madison this week.

William Tourjee is in New York.

Clarence Spink of steamer Richard Peck is home on a short furlough.

William Pumstead has returned, after a visit in Brooklyn, N. Y.

Bruno Braeci has returned to work, after being ill at his home.

Announcement

Today we are again forced to readjust our store's quarters while our new building is being erected.

In the Exchange Block we will continue our small store on the Main street side and give up the room on Railroad Square. In the Exchange block store we will maintain our newstand and racks for our regular newspaper customers.

A stock of Candy, Tobacco, Greeting Cards and our Circulating Library will be available here. This store will be operated on our regular schedule of opening and closing hours.

At 55 Main street, below the railroad crossing we have opened our regular stock of Stationery, Office Supplies, Books and Greeting Cards together with all lines carried at the Exchange block store.

At the down town store our Hallowe'en display is ready. Our Christmas Cards will be ready next week and we feel that between the two stores we will be able to serve your wants better than we have during the past month.

Work on our new building is progressing very rapidly and by Dec. 15th, we will be back home better equipped than ever to serve you. Meanwhile, bear in mind our two present locations.

GALES FERRY

Under the auspices of the Village Improvement association at the Country club house, Tuesday evening, Mrs. Belle H. J. Robynson, new home demonstration agent of the county farm bureau gave a demonstration of making Christmas gifts. A large number was present. Mrs. Robynson promised some demonstration of work for each month, proposing Miss Foster, representing a firm from New York for next month, in the cleaning of dresses and other garments.

The October meeting of the Woman's Home Missionary society was held at the home of Miss Natalie K. Gibbs, Tuesday afternoon, the president, Mrs. George H. Wright, presiding. Miss Sarah T. Latimer had arranged the program. The meeting opened with singing, My Faith Looks Up to Thee. The devotions were conducted by Mrs. Henry W. Hurlbutt, the subject, True Fellowship, closing with the Lord's Prayer in unison. Roll call and minutes of last meeting were given by the secretary, Mrs. Fanny A. Molthrop who also gave a brief report for the treasurer, in her absence, stating $7 had been paid on the society's pledge toward the church budget. Mrs. Jerome Greer reported articles to the value of $5 sent last month as gifts to the Silver Lake work. It was voted upon the suggestion of Mrs. Greer that a pledge of $30 be divided between national and conference work. The 2nd and 3rd of November the annual conference missionary meeting will be held in Trinity M. E. church, Norwich. Mrs. Greer, conference corresponding secretary will attend and the delegates appointed, were Miss Latimer, Mrs. R. Irvine Hurlbutt; alternates, Mrs. George H Wright, Mrs. C. E. Colver. Is There a Frontier, was a paper reviewed by Miss Alice Satterlee. The first chapter in the new study book, The Adventure of the Church, was read by Mrs. Rufus W. Hurlbutt. Miss Latimer conducted the enigmas, giving the onestions in paper nuts, containing little favors. Mrs. Molthrop read a selection in closing. There was a good attendance. During the social hour Miss Gibbs served cake, wafers and tea, assisted by Mrs. Andrew P. Miller. Two new members were welcomed, Mrs. James Whipple and Mrs. H. Winthrop Hurlbutt.

Phoebe Norman, little daughter of Mr. and Mrs. J. Edmund Norman, three years of age, who was operated on for appendicitis at Backus hospital Saturday, is reported to be as comfortable as can be expected.

Mr. and Mrs. Stanley Herman of Newmarket, N. H., have taken the cottage of Miss Laura A. Perkins at Perkins place, moving in Tuesday. Mr. Herman is an instructor in the submarine base school.

Miss Grace E. Povey, assistant librarian of the Public library, New London, who has been in Jaffray, N. H., for a vacation of three weeks returned home Saturday and resumed her duties in the library Monday.

Rev. Allen S. Bush attended the meeting of the New London County association of ministers at the Congregational church in Jewett City Tuesday.

STILL A YEAR AHEAD

Only the Perfected Whippet has all these Vital 1928 Advantages

In the perfected Whippet you may *now* see the advantages which are characteristic of the modern trend in light car design

More than 125,000 owners have driven more than 400,000,000 miles. 45% tell us they chose the Whippet for its unequalled economy; 46% were influenced by the greater safety of BIG 4-wheel brakes; others mention its comfort and roominess; still others its attractive, modern design with such features as low center of gravity, full-vision body, force-feed lubrication and silent timing chain.

Through the friendly suggestions of these loyal owners it has been possible to develop the finer Willys-Overland Whippet of today. We invite you to see and drive this modern car

The most economical light car, Whippet holds the A. A. A. Coast-to-Coast economy record.

BIG 4-wheel brakes make Whippet the safest light car.

Narrow front body posts eliminate the "blind spot" hazard and permit clearer vision.

Oversize balloon tires and genuine Gabriel Snubbers insure smoother riding.

Whippet affords appreciably greater leg room than any other light car.

SPECIAL WEEKS

We surmise that there will be hearty endorsement of the position taken by President Coolidge concerning the plea for a new proclamation for National Education week. This week comes next month but the president has declined to issue a proclamation, taking the position that he has expressed himself thoroughly as to his convictions on the value of education and holds that to rephrase them simply serves to weaken the sentiment.

Ever since the idea of having a special day or week for emphasizing the merits of a particular movement was put forth some people have stayed awake nights thinking up ways in which it could be employed. The result is that there isn't a week or a day, hardly, in the whole year but what is devoted to some special object, and in some instances there are several specials all claiming the mystic influence of one week.

Many a person has voiced the opinion that the idea has been overworked. The president indicates as much when his secretary expresses his views concerning the issuance of new proclamations for the same old story.

There are unquestionably certain propositions which get valuable assistance from the idea of a special day or week. It is a time for concentrating the country's attention upon a specific matter for public welfare but the idea has been used so much that its charm has gone. It has been overworked and without saying anything against National Education week, or the subject in general, the president's views have become known and there are reasons for believing that they will be applauded from all parts of the country.

When it gets so that some special object is being boosted every day in the year, with a part of the time of the school children demanded each day for all or most of them, it is time to call a halt. It is also time to stop and consider what the reaction of the public is to all these efforts and if the number of them isn't hurting rather than helping.

THE MONTH TO BE CAREFUL

Although October is about half gone it is nevertheless golden advice that is given about using proper care in the highways during this month, which has come to be known as the "death" month because of the many serious accidents which occur at this time.

This is the month when the leaves are falling, and the street that is filled with leaves, especially if they are wet, offers a hazard which needs to be considered by motorists. Frequently it is the case that, even though the leaves appear dry on the surface, they are a wet mass underneath and nothing contributes more to skidding than just such conditions.

Wet leaves on a smooth surface are as bad for the automobile driver as an icy surface, for it is frequently the case that the danger is not anticipated until the machine is involved in contortions and a more or less serious accident has happened. With the driver bearing in mind what sort of treatment he can expect from wet leaves, or a slippery surface, he can so govern his speed and driving as to minimize the menace.

Thus the warning is not only timely but it deserves full consideration from all those who are in a position to profit by it. Such a reminder may not be required by all, but passing the word along does no harm and it is possible for it to do much good. Everyone knows that there is need of careful driving at all times, whatever the condition of the highway may be, but in slippery periods more caution is obviously required. It is best that thought should be given to such conditions before the machine begins to skid, or before another car has been struck. The driver who is mindful of his duty may have anticipated what is required of him, but to new drivers, to those who suffer frequently from temporary aberration or those who are disposed to take chances the warning that is issued deserves respectful attention in the interest of safety. In fact drivers might well strive to keep October from being known as the "death" month.

MUSCLE SHOALS

Disposition of Muscle Shoals has been hanging fire for years. It has bothered other congresses and it can be expected that it will occupy some of the attention of the coming one. Whether any progress will be made is a question, although there are those who have confidence that something will be done.

With such an investment standing idle there is the best sort of an argument for coming to some decision regarding its use. Thus far it has been impossible to come to any understanding as to whether it should be leased or operated by the government. In view of the experiences in the latter direction, it is believed that sentiment runs strongly against the government undertaking any such activity. We know what the experience was in trying to run the railroads of the country, even during a period of emergency conditions. We know what the situation is concerning the operation of the merchant marine by the government and there is no desire to have the government get into the manufacture of fertilizer or the generation of electricity in view of such experiences.

Muscle Shoals could have been leased if it had been possible to get congress to agree upon the terms. It is not improbable that capital is ready to take over that plant and operate it if congress can be gotten to approve the lease. Whether it will be necessary for the government to go through the experience of running Muscle Shoals to demonstrate whether it ought to go into or keep out of such business may be demonstrated at the coming congressional session.

Just at the present time that big project is awaiting disposition. There have been reports and recommendations without getting action but the situation cannot be allowed to drag on forever. Because it should have been settled a long time ago is one of the reasons why it ought not to be allowed to drag along over any greater period of time. Such a policy only invited deterioration similar to that which is taking place on those many government merchant vessels which are swinging at anchor or rolling about in the mud, unkempt and unprofitable.

WHERE RAILROADS SUFFER

The situation which has been confronting the railroads has been well illustrated by the statement from the president of the Boston & Maine railroad when he declared that that railroad has carried over 3,000,000 fewer passengers this year than during the same period in 1926. This decrease is only part of the 15,000,000 which the road has lost since 1921.

The answer to this situation is that the railroads are not getting the business they used to in transporting passengers. They are using other means of travel. One in five persons own an automobile and they use it for their own benefit and invariably take someone else with them. Those who do not own a machine are in many instances giving their patronage to the motor bus lines. The railroads are still used for long distance traveling but when it comes to short distances they are almost deserted. They are experiencing a competition which they cannot meet so that it is understandable when they take off trains and curtail service which experience shows are not wanted.

What is true of the steam roads is also true of the trolleys. They felt the effects of it before the railroads and suburban lines have one after another given up the attempt to meet expenses when such is impossible.

The motor bus and the motor truck are being employed by both steam and electric lines in their endeavor to meet the changing conditions, and the change is proving successful in many instances. This means that transportation is being turned from the private way and the iron horse to the public highways and the gas driven machine. Time effects many and radical changes.

THE COSGRAVE GOVERNMENT

The election in the Irish Free State did not result as favorably as President Cosgrave had anticipated. He had hoped for a majority that would be sufficient to permit the conduct of the government without depending upon support from other parties, or that would eliminate the danger of serious trouble from his opponents. In any government there is an advantage in having a good sized and active opposition party but it does not contribute to the smooth running of a government if control is uncertain and dependence has to be placed upon the catering that is done to participants in a coalition.

Nevertheless President Cosgrave has decided to do the best he can. He has been chosen as president of the executiv council which shows that the government has a majority of only six votes. This narrow margin cannot go unnoticed and neither can the fact that he has failed to get the support of the labor members. For some reason he had looked forward to support from that direction. Nevertheless there is an advantage in knowing where opposition and support lie and it is apparent that he intends o make he most of the situation, whatever may be, and come what may.

Probably it was too much to expect that the complicated political situation in Ireland could be straightened out in such a short time. No doubt greater influence upon the electorate can be expected from the manner in which the present government meets the problems which it is certain to face.

EDITORIAL NOTES

Is this Fire Prevention or Fire Production week?

Big as the last year surplus is it will not take much to replace it with a deficit.

Did you ever try to improve upon the coloring of the autumn leaves as done by nature?

The man on the corner says: Flying and living are much alike: some succeed and others fail.

A vivid picture of what it means to run for president of Mexico, if not on the inside, is now being presented.

It is about time some idea of the size of the pork barrel which congressmen plan on filling was furnished.

One might suspect that Boston has a fire bug who is determined to make a joke out of Fire Prevention week.

THE MAN WHO TALKS

Some one has said that it is not easy to place a man "who wears last year's hat, drives this year's car and lives on next year's income." This certainly is no easy problem to solve, although it is quite natural to ask "is he a progressive or a conservative?" As far as wearing last year's hat is concerned one might say that he was a fundamentalist (a believer in the good old things); as to driving a car of this year's make he is truly an opportunist. But in regard to his living on next year's income he is most emphatically a modernist. Just how some people get by with this trick cannot be expressed in language—at least not in English that a church member would like to hear. But this we know that it is no more difficult than living through the present year without one's paying his living expenses. The man who can go through the present year without paying the milkman, grocer, butcher or anybody else he owes knows how to handle next year's income to perfection.

The question whether the world is growing worse or better right along is an idle one unless you have in mind some fixed standard of judgment. If one means that less emphasis is put on man-made, dogmatic theology than formerly it must be admitted that we have not only fallen from grace, but that we have tumbled headlong down several thousand feet in a perpendicular line. If Cotton Mather or Jonathan Edwards should come into almost any modern church, and listen to any sermon that gave the prevailing thought of this age, he would probably lift up his voice and howl with rage somewhat in this fashion: "Oh, they have taken away my dear old hell!" If one means that the world is growing worse because men and women are no longer roasted at the stake because of their independent thinking (and this claim was once made) then surely we have taken another great tumble from grace.

If, however, we look at the question—and most assuredly it is a serious question—from another standpoint, there will be some valid reason for believing that the church of the living God has not wholly settled down into the "seat of the scornful." It is doubtless true that Christians are not quite so sure about the unknowable today as they were when Puritanism was in full bloom. If we look at the matter from the humanitarian standpoint it must be admitted that the world has been tumbling up hill. If it is true that "pure religion and undefiled before God and the Father is this, to visit the widows and fatherless in their affliction, and to keep himself unspotted from the world" then the world is not on the brink of moral collapse. When did the world ever do so much to feed the hungry, clothe the naked, shelter the outcast and support the weak and fallen as now? Was there ever a time when the spirit of Christ touched the world as now?

Isn't it a big thing to see ourselves as others see us? It is big because nobody does it; either because they can't, or because they don't want to. Most people can remember the time when as children they used to laugh till their sides ached watching some fool dog running round and round in a circle in the vain attempt to catch his own tail. Now if we are perfectly honest can't we remember when we did things which were perfectly rediculous, and if another had done them we would have said: Oh, the poor fool!" My dear old grandfather had the habit of pushing his spectacles up over his classic brow and then ransack the house in the vain attempt to find them. It was my bed time one night when he was on one of these hunting expeditions. As I started to go up stairs, he said to me very solemnly, "Henry, I hope you won't forget to say your prayers!" I hastened upstairs so that he wouldn't see me giggle. I said to myself: "Isn't that the limit!"

Do we realize the physical, as well as the mental and moral value of calmness? No victory is greater than the absolute mastery of ourselves. And chief among the things to be conquered is our nerves. I do not go so far as to state that one's mind can fully control his body. However strong one's will power may be it cannot ward off every form of physical ailment. If it could there would be no such thing as physical death. It is at the same time true that we could greatly diminish bodily complaints by getting our minds into the right attitude in regard to all kinds of bodily disorders. The nerves are affected by getting into a high strung bodily and mental state. The development and practice of calmness is the greatest known antidote for distracted nerves. We all of us need a little more of the Quaker mildness. Whittier expresses it thus:

"Breathe through the heats of our desires
The coolness of thy balm."

One of the most important words in the English language is "actuality." It is the real thing in both thought and action; it is what actually exists in both the visible and invisible worlds. When you are asked to give a certain person a recommend, do you base your estimate on what that person proposes to do next year, or on what he actually did last year and this year? Do you base your estimate on the clean, straight life he has led in the past and is leading in the present, or on his promise to do better in the future? To those seeking the employment of young men and women, which carries the greater weight accomplishment or promises? As a general thing does the community rate men by what they have actually done, or by what they profess they are capable of doing? The old saying, "That a bird in hand is worth two in the bush" applies to this question with singular fitness.

Are we not still dazzled by the glamaour of a great title? If it is true that "coming events cast their shadow before," and all the ages of human history give abundant evidence of this, than the converse of the proposition must also be true that "has been" glories leave behind them a trail of light. This thought is brought to mind by the hampered life of that poor unfortunate, otherwise called the Prince of Wales. Custom and tradition are merciless in their demands on what the boy who happens to be the eldest son of a king shall say and do. Most boys have something to say in the selection of their wives, because they are fully as much interested as any outside parties. Not so the first born of royalty. Any old maid will do for him if she only chances to be a big imperial. What he must eat, what he must wear, where he must go, and how he must look, are marked out for him. "God save the king" and also the poor prince!

It is well that we should give some recognition of a special character of October 12, as the great name of Columbus will always be one to conjure with. On this day in 1492 his eyes fell on what we now call San Salvador and settled once and forever the question of the existence of this great "El Dorado of the West." Looking back to the 15th century from the standpoint of the 20th with its marvelous improvements as to ocean travel, one can hardly realize what tremendous resources of character and ability were necessary to make the voyage that Columbus did into the great western unknown. Its only parallel to it is the attempt today to fly over the same vast expanse that Columbus sailed across so long ago. "The Spirit of St. Louis" could make no such discovery at the end of the trip in 1927 as the Santa Marie did in 1492. Each in its day contained the elements of the miraculous.

THE ISLAND OF TRISTAN DA CUNHA

"The Lonely Island" is the name given to a volcanic peak that juts out from the middle of the South Atlantic ocean. The island is Tristan da Cunha, named after the Portuguese voyager, and since its annexation, the smallest possession of the British empire.

Tristan has recently received its first travelers from America, when the luxurious motorship Asturias with tourists on an African cruise stopped for a few hours a short distance from the lava reefs.

The entire active male population of 30 men put out in their canvas-covered whaleboats. They were eager to trade their crude trinkets, sheepskins, and carving for the luxuries of soap, bread, sugar, and other commodities that come but infrequently to this isolated dot midway between South America and Africa. They were laden with other gifts by the passengers, who were touched by the sight of these primitive people, descendants of British seafarers and American whalers and women of darker races. After three hours' bartering the liner left Tristan and its people to their island solitude.

Capt. Harry E. Le Brecht of the Asturias, which has recently ended its cruise at New York has described the sensation among his passengers and the amazement of the swarthy islanders as they came aboard. In flimsy craft they had braved the heavy surf that beats continuously on the volcanic crags they call home, risking their lives in response to the siren summons of the liner. Mail, food, bulky gifts and other things were lowered on a raft. The islanders were soon laden with every sort of gift—candy, phonograph and records, silk dresses, suits, stockings of silk, even furs, perfumes and other finery, everything but money, for which no one on the island has any use.

Gifts From Their Majesties

The sea was so high the bulky supplies could not be lowered into the boats for fear of swamping them. A large raft had been made with beams and barrels. On this was lashed a big box with gifts from the king and queen of England, a package from the marchioness of Bute Chapter of the Daughters of the British empire, presents from the ship's passengers. The raft was then lowered to the water and towed off by one of the whaleboats. Groceries, paints, blankets and toys were among the articles left for the strange colony that is flourishing despite every hardship in its remote and ocean-bound home. The settlement is over 125 years old.

Tristan in spite of its jagged contour, desolate surroundings and loneliness, is so dear to the islanders that they have stoutly resisted every effort to transport them to South Africa, where the Cape Town government is again offering them farm land and finances to start anew. Nothing short of coercion would bring many of the islanders to exchange their precipitous fastness in the middle of the South Atlantic for mainland homes. The record of health has been splendid. There are no so-called epidemic diseases, no vaccinations, no doctors. The great disadvantage, in addition to the hard life, scanty food and vegetation, is the lack of schooling for the children.

Tristan da Cunhan rises sheer out of the sea for 2,000 feet and spreads out as a table land for 21 miles. On this towers an extinct volcano, with no minor peaks to diminish the effect.

There is something majestic in the appearance of the island as the shore is approached. The surf roars along the beach, the snowy whiteness of its foam beating relentlessly upon the black lava base of this bleakest of human habitations. On a stormy night the gale rushes either from the ocean, bringing giant combers, or down from the peak, accompanied by stone avalanches or torrents which leap from precipices directly into the sea. The entire aspect of the place is forbidding. There is no harbor or bay for a ship to aproach. Only the small boats of the islanders can find the way safely to the landing beach.

First Settlers

Bleak and lonely as the island is, it was the deliberate choice of a place to spend their lives of the first settlers. There were three of them, Thomas Currie, an Englishman, an American whaler named Lambert, "late of Salem, mariner and citizen thereof," and Williams, another seafarer. Then for a time Currie was the only inhabitant until joined by two seamen who left a ship that stopped for water. Together these three began tilling the soil, raising vegetables, wheat, oats and even pigs.

The island gradually gained settlers from the ships, for a century ago the seas of the South Atlantic were alive with whalers. Sometimes as many as 100 whalers would be seen in the offing, many from New Bedford and Salem. Then there would be great activity on the island, bartering of fresh meat for oil and stores, a respite for the hardy crews ashore and most important the replenishing of the ships with water, for Tristan is an oasis for fresh water in a 2,000 mile radius of ocean.

There is a glamour of buried treasure and pirates too about this island. Tristan was discovered in 1506 and as it stood like a peak midway between the rich South American ports as well as the Indian trade routes it was frequented by buccaneers of many nations. After the pirates came the whalers and after the whalers the clipper ships brought connection with the world to the lonely island, but with the advent of steam the Tristan group has become more and more isolated. There are frequently gaps of two years between the arrival of ships that communicate with the island. Most of these have been relief ships or those directly requested to leave supplies as the result of efforts of the Tristan da Cunha fund, which is organized in London to send necessities to the island. Missionaries have been sent at intervals to educate and give spiritual guidance to the inhabitants. Once a year the British flag is raised.

Soldiers From Cape Town

The first official British settlement was a garrison of 87 picked soldiers sent from Cape Town. They were all skilled men and many of them took their families. Horses, sows, sheep, pigs and poultry were taken along. Preparations were made for a long stay. But the war ended and there was no further need to maintain the outpost in the lonely South Atlantic, and a year later, 1817, the garrison was withdrawn. But Corp. William Glass of the Royal Artillery decided to remain with his Creole wife and their two children. The others cast their lot with him, shipwrecked mariners soon added to the male population and the basis for the present colony was laid.

Corporal Glass was ruler from 1817 to 1853. His kingdom continued to flourish, for it had become a melting pot. Sailors of many nations, even Asiatics joined. Negro women were brought from the Cape and from St. Helena.

Following Glass came the reign of Alexander Cotter, an old man-of-war's man, who had stood guard over Napoleon in St. Helena. He and his shipmate of a dozen voyagers, one John Mooney, had visited the island in a tender in 1817 to assist in the removal of the garrison. They were so attracted by the life there that on returning to England they sought their discharge from the navy and permission to settle on the island. They were landed on the brig-of-war Satellite in 1821. Six years later, when there were five single men on the island, they made an arrangement with a Captain Amm for him to go to St. Helena and try to persuade five women of that island to return with him. The captain was successful and it is reported that each man, though not too satisfied with the captain's choice, took one of the women as his wife.

The next ruler was Peter William Green of Amsterdam. He was wrecked on the island and soon became its leader. He was able to save hundreds of lives of other mariners by his daring in going out to sinking ships with his whaleboat crew. He was the island's king until 1902. During his "reign," 15 of the 21 men of the island, 12 of these being married, were drowned when out in a heavy sea to hail one of the passing ships. The male population was gradually replenished, however, from passing whalers.

Above the Average

The present inhabitants are reported to be physically above the average, their children being exceptionally so. The condition of their teeth is perfect. They are extremely shy and reserved, with not much animation of expression, and this may have been mistaken for dullness of intellect by the ignorant. When once this reserve is conquered, they are found to be intelligent, simple and kindly, revealing a courtesy which is most uncommon in these days. They suffer from lack of education, only 20 per cent being able to read or write, and consequently their own sphere they manifest contheir vocabulary is small; but in siderable skill and intelligence, their boats, for instance, built from scanty and unpromising materials, showing uncommon craftsmanship. The men who rowed out to see the Asturias and its passengers were tall and rugged. Their features show the admixture of races, the solely British basic stock being altered by American, Dutch, Italian, Danish, St. Helena and Negroid strains from Cape Colony. Their number, 150 persons, is now the largest on record.

LETTERS TO THE EDITOR

Old Time Religion

Mr. Editor: The question is often asked what has become of the old time religion, of the mighty revivals that swept the country in Finney's and John Wesley's day, when souls were converted by the hundreds and whole communities were stirred by the mighty power of God. The writer of this article remembers of attending Willimantic camp meetings over 40 years ago. Although only a boy I saw this old time religion manifested in a wonderful way. Men whom I was well acquainted with living in my own home town, who were wicked and sinful under the preaching of old time religion by Spirit filled men of God, came and confessed their sins calling upon God for mercy and pardon and came away changed men when the altar call was given to any one who wanted to be saved and lead a different life. What changed the lives of these souls—modernism, atheism or so called evolution or any other man made religion? No, it was the old time religion. These spurious religions that have been handed down through the ages to the present time never saved a soul or lifted a burden, neither can they, being a product of man and not of God. This old time religion is available today to any one who will go the Bible way and meet Bible conditions, who will confess their sins and forsake them, 1st John 1:9.

I believe in the old time religion
For it saves from all sin here below.
Gives me peace passing all understanding
While the rivers of pleasure doth flow.

Sunday Morning Talk

LOOKING FOR GOD

A human soul, do what it may, can never afford to do without God. Never in the long run. All the intellectual proven of scientific investigation, and the imagination of scientific poets which is sometimes put in place of fact, all lead up to one conclusion, that there is one great cause they, the scientists do not quite understand. They cannot quite do without God. We cannot do without Him intellectually. The best way to find out is to try as the mathematicians try a problem, as we did at school. Where does your criticism land you if you try to do without God? One of the Latin poets tried it. He put his striving doubting thoughts into poetry, he acknowledged that he had to force the vision of the life and the death, and he landed himself in philosophic despair, where many others have followed him. There can certainly be no other end to the argument of no God, but despair in the end. There are rocks in the Atlantic far too high to be touched by the most lofty spray. And there are thoughts and heights to lofty ever to be washed by the spray of mere empty words.

Ask yourself what this great world would be without God, who impels the stately procession of the stars, who measures the circles of the winds, who governs the changing of the season of the seasons? Try to reason to yourselves, what is the reason and origin of the universe. Ask yourselves, "How am I to admire all this beautiful cosmos, this order, this—what the old Greeks used to call God?" It lands you into the sense of an awful force of pitiless lanes, the crushing of everlasting movement, without a meaning the human will is crushed under the machinery of the universe; for you have dismissed its master, God.

Intellectual, scientific, material none of these can do without Him, the object of the heart's affection.

And it is all to be found in "One in whom is no spot, no blemish," Across whom there passes no cloud, in whom is no darkness or shadow of turning. A friend that never changes, a Father with loving tenderness, a heart on which we may always rest. One that leads us in commonplace work up to higher things. He is the One that sustains us even though we may forget Him. He is the One that will go with us even to the end.

IN THE PUBLIC EYE

Dr. Stanley K. Hornbeck, who is understood to be under consideration for appointment as head of the Far East Division of the state department at Washington, is lecturer on the far east at Harvard university and is generally recognized as one of the best-informed men in America on Chinese affairs. His first experience in China was as a teacher in Chinese government colleges from 1909 to 1913. Since then he served for four years in the economic adviser's office of the state department, was a member of the American delegation to the Washington conference and to the Versailles conference. Recently he returned from China, where he was a member of the American delegation to the Chinese tariff conference. Dr. Hornbeck is the author of "Japan's Trade During the War" and "Contemporary Politics in the Far East."

Stories That Recall Others

Will Be in Cabinet

Two girls were overheard on their way to school discussing what they were going to be when they grew up. Each was trying to outdo the other as to the exalted position she would then hold.

The older of the two said: "I'm going to be the president of the United States. Immediately the younger one retorted: "Oh! I'll be your kitchen cabinet then."

Got His Numbers Mixed

Bobby, age three, had bumped his head quite hard. After getting it kissed he continued crying. When asked why he cried so long, he said: "Oh, my two-head hurts."

Sometime later his mother noticed he was rubbing his forehead. She put two and two together and asked him if he meant that his fore—(four) head hurt. With a knowing grin the lad admitted that she had guessed right.

The first dwelling-house built entirely of steel has been erected at Duisburg, Germany.

ROAD SOCIETY

The marriage of Miss Irene Thibdeau and Charles Gavitt took place at the Road church Wednesday at three o'clock. The church was decorated with roses and other flowers by Mrs. F. Ernando Wheeler and a wedding bell hung from a latticed arch under which the bridal party stood when the ceremony was performed by Rev. C. F. Eldredge. The bride was attended by Miss Helen Gavitt, sister of the groom and the best man was Ambrose Thibdeau, brother of the bride. The ushers were Samuel Thibdeau and Fred Chase. The bride was dressed in white, wore a veil and carried an arm bouquet of white carnations while her maid was gowned in tan and carried daybreak carnations. The church was well filled with interested friends. The Sweetest Story Ever Told was sung by Mrs. Daniel Cronin, to an accompaniment played by Mrs. Joseph Noyes. After the ceremony Mr. and Mrs. Gavitt with party ove to the home of the groom's mother in Wequetequock as she was not able to be present and later held a reception for a few friends at the home of the bride where a delicious wedding supper was served. The table decorations were yellow and pink and a beautifully decorated wedding cake was cut by the bride. The gifts to the bride included a chest of silver from Mrs. Frank Henderson, where Miss Thibdeau has lived for a number of years, linen, silver, and glass, etc. Mr. and Mrs. Gavitt will live here for the present with the bride's parents, Mr. and Mrs. Samuel Thibdeau.

OBITUARY

Mrs. Manuel Leion

About one o'clock Friday afternoon Mrs. Mary Leion, widow of Manuel Leion, died at her home No. 100 Thames street, following an illness of 10 days. Mrs. Leion was born in Fayal, Azore Islands, but for many years had made her home in this city. She conducted a small store on Thames street. Surviving Mrs. Leion are three sons, Frederick, William and Frank Leion of this city, five daughters, Miss Louise Leion of New London, Mrs. John J. Murtha of Norwich, Mrs. F. H. Wright of New York, Mrs. W. L. Henderson of Holyoke and Miss Florence M. Leion of Webster, Mass. There are also 12 grandchildren.

Mrs. Leion was well known to many residents of the West Side section and her many friends and acquaintances extend their sympathy to the bereaved family.

LOAD OF HAY MAKES WRECK OF BEACON

The traffic signal beacon at Shannon corner came to grief about noon Friday when the top section of the light was ripped from its base by a load of hay on a large truck bound for the Norwich state hospital in Preston. John J. Morley, driver of the truck, made the usual swing around to the right of the beacon, but the load of hay, listing badly to the left, caught the light and ripped it off the base. Traffic was held up for about 20 minutes while the street department cleared away the wreckage. Officer Michael Carroll directed traffic for the remainder of the day.

Friday night the crippled beacon was swatched in canvass and laid across the top of the supporting standard, strongly suggesting a bier around which funeral rites were to be held.

CONTINUANCE IN COURT ON WORTHLESS CHECK CHARGE

Charged with passing a worthless check for $127 on the Sunshine Laundry, No. 193 Franklin street, on Sept. 2, Moe Widrowitz of this city was presented in the city court Friday morning. Through counsel he asked for a continuance to October 25 and the continuance was granted. He was released on bonds of $300. Accused claims that at the time he issued the check he informed the laundry that it was not to be cashed for several days. Complainant denies this statement.

ENGLISH CHILDREN NOW EXPECT LONGER LIVES

LONDON, Oct. 14. (AP)—The expectation of life for a child born in England today is 17 years longer than it was for a child born in 1846, according to a report of Sir George Newman, chief medical officer of the ministry of health.

The fight against disease and early death has resulted in statistics showing that from 1846 to 1850 there were 22.4 deaths per thousand persons, and 137 infant deaths per thousand persons. From 1921 to 1925 there were only 10.9 deaths per thousand and 76 infant deaths.

"These figures mean," said Sir George, "that despite an enormous increase of population, without increase of home territory, the total death-rate and the infant mortality rate of the nation have been halved in four generations."

The infant mortality rate was 5 per cent lower in 1926 than in 1925. Last year the country saved 40,000 babies' lives above the annual average infant mortality calculated on the years 1901 to 1910.

"This also implies a better physical condition in children from one to five years of age," Sir George reported.

Diseases of the heart and blood circulation were listed as the most deadly of ailments.

BYRON MEMORIAL IS FAVORITE OF GREEKS

LONDON, Oct. 14 (AP)—Greek visitors to London almost invariably make a pilgrimage to what is often described as the least-known statue in London, the Byron memorial, which is hidden away among trees and shrubs in Hamilton Gardens near Hyde Park corner.

The Greeks revere the poet as a stout advocate of Greek independence. He is depicted seated on a rock in an attitude of meditation, his favorite dog by his side. The marble for the pedestal was given by the Greek government, and the cost about L3,500 was raised by public subscription. The statue, of bronze was unveiled in 1880.

WHITE NEEDS YELLOW IN EGG COMBINATION

LONDON, Oct. 14 (AP)—The husband who requests his wife to fry him three eggs for breakfast may feel a little uneasy over the statement of Miss Margaret A. Boas, a Belt Memorial Research Fellow, that the whites of eggs are poisonous.

Miss Boas has made a number of experiments at the Lister Institute of Preventive Medicine since 1922. She fed whites of eggs together with other food, to rats and found that they began to lose weight after 21 days, became bald, developed a skin disease and finally died.

Miss Boas, however, has been good enough to qualify her statement by saying that the yolk of the egg counteracts any deleterious effect of the white.

MORE GOLD SENT BY AIR TO CAPITALS OF EUROPE

LONDON, OCT. 14. (AP)—Transport of gold bullion between London and European capitals by airplane is becoming more and more common.

This new mode of transport is cheaper than by sea and the saving in time compensates the banks for the transport cost and insurance by reducing the interest charges by many days.

All pilots and mechanics of airplanes carrying gold cargoes are armed with revolvers. If a forced landing has to be made the help of local police is immediately obtained to guard the machine until its consignment is transferred to the nearest bank.

The October moon will be in its last quarter Monday, the 17th, at 9:02 a. m.

CALLS NORWICH BUILDING CODE JOKE: POINTS OUT FIRE NEEDS

The Norwich building code is a joke, one of the weakest codes in the country, declared Major John H. Howland, nationally known engineer, who was the speaker Friday evening at the chamber of commerce supper meeting in the Wauregan hotel which was the climax of fire prevention week locally. Major Howland spoke upon the topic "Fire Out Fire", devoting the early part of his interesting and instructive address to the general subject of fire prevention measures to cut down the loss from fires, more than half of which are due to preventable causes he said, and taking up the local situation at the close of his remarks.

There was an attendance of about 75 with Swahn's orchestra playing for the supper hour and L. M. Crandall acting as song leader. The divine blessing was asked by Rev. Dr. David A. Pitt and Mayor Milo R. Waters was toastmaster, presenting Walter F. Lester, secretary of the New London County Mutual Fire Insurance company to introduce the speaker. In the course of his brief introduction Mr. Lester referred to the fire protection which this community experiences with its department under its veteran chief on the job 24 hours in the 365 days of every year.

Taking up the local conditions, Major Howland said that the city is doing well to put in the new reservoir which will so greatly increase the water supply, but there are many recommendations upon which no action has been taken. One of these is a 12 inch cross-over in Shetucket street which would make a 50 per cent improvement in the fire fighting facilities in the congested business section of the city. The per capita water consumption, 140 gallons, is much too high, he said. There must be much that is going to waste. As to the fire fighting organization, this is much undermanned, he said. There are 37 men in the department, but with the time off per week, vacations and time off for meal hours, the available force is reduced to about 10 men, only two and a half for each of the seven pieces of apparatus. This is not any where near enough and the city could well afford to put on 20 more men.

In regard to apparatus, he spoke of the recommendations made for a second truck, a city service truck, that could be used for calls for outside districts, leaving the big truck for the congested business district, where it is a very valuable piece of apparatus. He declared that the Norwich fire chief is due to have more liberal support on the recommendations he makes, one of which is for the city service truck.

He mentioned also the need of a new fire station to replace the No. 5 station on West Main street, which is in the wrong location, and the fire alarm system needs more fire alarm boxes. In 1917 it had 66 boxes, half of which were of an obsolete type. In 1927 there are 80 boxes, but a city like Norwich should have 140 boxes, he said, and needs 20 new ones now as well as 25 others to replace the old boxes. Norwich business men, he declared are not awake to the protection of their property.

Referring to Chief Howard L. Stanton, who was a guest at the supper, Major Howland called him a top notcher in fire fighting and fire prevention and stated his belief that the city would make its biggest mistake ever to let him leave the fire department. If it hadn't been for Chief Stanton's untiring efforts, Norwich would have experienced some very serious losses, the speaker said, and the fact that the per capita loss in New London was $5 and in Norwich only $2 was largely due to personal effort on the part of Chief Stanton.

He urged that salvage work be better provided for in fires by furnishing water proof covers or blankets to be carried on fire apparatus and advised that the city was expecting too much of the chief by putting so many different duties upon him, but he should be provided with an assistant and divide up these many duties. Moreover, the fire prevention committee should be kept permanently on the calendar of the chamber of commerce and co-operate with the fire chief in the closest manner possible. Major Howland also spoke of the importance of having well qualified watchmen on duty in industrial plants and mercantile establishments.

Major Howland was roundly applauded as he made telling points in his interesting address.

Chairman Lester invited Chief Linton to speak and the Norwich chief responded with a straight-from-the-shoulder talk that had his listeners applauding him frequently.

Chief Stanton said he and the deputy chief had had a busy time in fire prevention week giving talks in the schools and other places, but Norwich was doing something towards fire prevention every day in the year as well, and the department is willing to do the best it knows how with the tools at hand. So far as we go nothing exceeds what we have. In no city in the United States is there less water damage than in Norwich, because we have a force of young fellows who are experts in fire fighting and they get right in with a half inch hose and do the work quick at the seat of the fire. Often they don't use any water at all, but do it all with chemicals. The department is run with economy. Of the $98,000 appropriated, the sum of $82,000 goes into payrolls and outside of salaries it doesn't cost any more to run the department now than it did 25 years ago.

The 140 gallon per capita water consumption is too large, he said, and there is more than one leak running into a blind sewer. It is no secret that the water department found a broken six-inch main running into the Franklin street sewer. Every big fire we have had has been because the department didn't get the alarm quickly and most have broken out when the police were off duty at lunch.

The chief said he would welcome any chamber of commerce committee that wished to confer with him on fire matters.

CENTRAL BAPTIST WOMEN BEGIN SEASON'S WORK

An interesting October meeting of the Woman's league of the Central Baptist church was held Friday evening in the auditorium of the church, opening with the devotional meeting led by Mrs. W. H. Whitneyan of Norwich Town.

Mrs. George A. Ashbey, president of the league, presided at the business meeting which followed. The secretary's report was read by Miss Ruth Hamilton giving a report of the last meeting held in June.

The report of the treasurer, Mrs. Gilbert S. Raymond was read, showing a balance in the treasury of $286.72. The reports of the following committees were given, each chairman showing that her committee is already busy with the winter's work:

Religious education, Mrs C. C. Gildersleeve; program, Mrs. R. Richardson; social service, Miss Alice M. Dean; friendship, Mrs. Charles S. Storms; membership, Mrs. Harrison C. Noyes; social activities, Miss Emily Gallup; domestic, Mrs. Henrietta Tefft; decoration, Mrs. Lucius Brown; publicity, Mrs. A. Maynard; circles, Miss Belle Rathbone; mission magazine, Mrs. S. B. Palmer.

Mrs. Ashbey appointed a committee for furnishing the new woman's room and for having charge of all things pertaining to the room, consisting of Mrs. Gilbert S. Raymond, Miss Ruth Hamilton, Miss Marion Palmer, Mrs. Harrison C. Noyes and Mrs. Lucius Brown.

Mrs. Ashey spoke of the study classes to be formed in the church—one to be started very soon—using the book "A Straight-way Toward Tomorrow," the teacher to be Mrs. Benjamin H. Palmer. Miss Rathbone reported that the circles were formed and some already started.

Mrs. Richardson then took charge of the program. Very interesting reports of the mission conference at Northfield were given by Mrs. B. H. Palmer, Mrs. D. A. Pitt, and Mrs. Lucius Brown.

The report of the New London County Baptist association meeting at East Lyme in September was presented in the form of telegrams sent by several of the ladies who attended.

Mrs. Olive Potter then rendered a vocal solo in a very pleasing manner.

Miss Sybil Palmer who spent the summer as a nurse at the Twillingate hospital, Newfoundland, held the close attention of her hearers as she told of the place and work. Two handsome drawn-in rugs were exhibited as the handiwork of the natives.

Mention was made of the league meeting in November, for which an out-of-town speaker has been secured, and plans already formulated for a worth while evening.

Played at Eagles' Hall.

A successful whist and pinochle was held at the Eagles home Tuesday evening with 20 tables at play.

WOMAN'S GUILD HAD FINE MUSICAL PROGRAM

Mrs. Walter F. Lester, president of the Woman's Guild of the United Congregational church, presided over the meeting of the guild held at the Community house Friday at 3 p. m. After the business meeting Mrs. Archibald Mitchell, Jr., chairman of the program committee introduced Dr. J. Lawrence Erb, of Connecticut college and organist of the United church. Dr. Erb's subject of the afternoon's talk was "The History of Modern Songs" and in an informal, but in a most interesting way, traced the development of the many phases that make up modern music. Mrs. Charles Tyler Bard sang most delightfully several songs to illustrate the talk. Dr. Erb said that songs were divided into two distinct parts, church and court songs. At that time there was no solo work only a simple air with an accompaniment, one person singing might be visible for the other parts would be filled in by persons behind the screen. Dr. Erb sketched briefly the career of Adam DeLa Hale, 1240 to 1287, a hunchback of Naples. He was the most celebrated of all troubedours and wrote many pieces. Guillaume de Machault, a Frenchman in great position, born in 1295 and died 1377. Harry Lawes, 1595 to 1662, an Englishman who wrotes for the Masques. Salvatore Rosa, 1615 to 73, a great painter, poet and musician; Handel, 1685 to 1759, one of those popular writers of the times. Many of his arias were exquisitely beautiful. William Freidemann, Bach 1710 to 1784, oldest son of Sebastian Bach, although very talented and bidding fair to outshine his father, his career was a failure because of dissipation.

Mrs. Bard then sang with fine expression and in a most charming way the songs of the different composers as Follows: I Have a Little Cake (Hale); Swetheart, Gentle and Pretty, (Marchault); While I Listen to Thy Voice (Lawes); To Be Near Thee (Rosa); Say If You Damask Rose Be Sweet (Handel); Soft Dews From Heaven Falling (Bach); Unto Thee Blest Trinity (Anonymous) but on one of the prettiest of the sacred songs. Inasmuch as the songs written before 1750 were expressed by the melodies and figured bass only, the accompaniments for these songs had been carefully modernized while still maintaining the simplicity and characteristic rhythms of the original.

Tea was served by the committee, Mrs. Arthur M. Thompson, chairman, and a social time followed.

CHARGED WITH FAILURE TO GRANT RIGHT OF WAY

Amedee Pion of Taftville was presented before the city court Friday morning on a charge of failure to grant the right of way. The case was continued until Saturday and he was released on bonds. Pion's summons to court followed an automobile accident at Taftville, near No. 1 mill of the Ponemah company.

Two Hudson sedans which figured in the crash were badly damaged. Mr. Pion was on his way to Baltic and was about to make the curve near the mill when his machine crashed into the sedan driven by William Stintson, a Baltic auto dealer. It is understood that the front end of the Pion car hooked into the rear of the other machine causing it to upset.

Stintson and Henry St. Germaine who was riding with him were thrown out into the highway. Stintson received a cut on the forehead and St. Germaine had his leg cut. Pion escaped unhurt. It is claimed that Pion's machine was skidding before the crash occurred. The accident occurred during the heavy storm Thursday morning.

STAFFORD SPRINGS

STATE TROOPERS ARREST THREE AT STAFFORD FAIR

(Special to The Bulletin)

STAFFORD SPRINGS, Oct. 14—On the second day of Stafford fair Thursday, although a steady downpour deluged the booths and decorations of the midway, at nine o'clock today they had resumed their former color and appearance. Midway attractions are numerous and every possible inch of space has been granted to concessionists. The local mills remained closed today and stores and offices closed at noon. The exhibits of farm produce and fancy articles remain in exhibition hall. Many of the articles have been judged and the receivers of premiums named.

The high school booth which occupies a conspicuous place in the midway has received the patronage and support of the townspeople and other visitors.

The vaudeville program contains some of the very best attractions to be had. In addition to the three main acts, Chief Buffalo Bear and his squaw appear on the midway and track.

The fair association has charge of the dining hall on the ground floor of the exhibition hall. The moderate costs and attractive way in which meals are served have drawn large crowds each day.

State troopers were busy on the grounds Thursday. Although there was actually no fair on that day the fakers and gamblers did a thriving business among those who did attend. The troopers arrested three men for conducting illegal games and presented them before the local police court where all pleaded guilty.

Charles Truax of Fort Lee, N. J., was fined $40 and costs of $9.47.

Charles O'Brien was fined a similar amount and Henry Stephen of Union City, N. J., was fined $20 and costs of $9.47.

Ralph Castle was fined $200 and costs of $12.97 for selling intoxicating liquor at the stables on the ground, and was sentenced to the county jail at Tolland for five days.

Frank Smith of New Haven, was also fined $200 and costs of $12.97 for selling intoxicating liquor.

The Poultry show has had a large attendance each day. A great number of entries has been made by local fanciers and this group has been independent of the main exhibit.

The officials who are receiving compliments for the success of the fair are: President, Robert H. Smith; vice president, Alexander I. Mitchell, Frank H. Baker, James Sheppard, Jr., Secretary David P. Mitchell; treasurer, William O. Ladish; secretary of racing, Ernest K. Taft; director of rentals, Michael O. Halloran.

ACADEMY SHOWS IMPRESSIVE FORM IN 19 TO 6 VICTORY OVER WESTERLY

A combination of a stellar set of tacks at their best, protected by a much improved line employing a light but most effective forward passing game with a rugged line attack was entirely too much for Westerly Friday at the campus and the Academy swept in impressive manner to their third straight win of the season. The score was 19 to 6 but the Red and White's superiority was more marked than that would indicate.

After a slow start the locals finally hit top speed and during the closing minutes of the second period and during the third completely outplayed their heretofore dangerous rivals from Little Rhody.

The Academy scored thre touchdowns and put over one after point, that on a forward pass, McGlone to LaCrois. Westerly scored in the closing minutes of the game when Captain Spellman scooped up a fumble and raced 25 yards. This was Westerly first score of the year in four games and it was made over a team composed of substitutes.

Once they hit their stride yesterday, the Red and Whitesters were immense. The backs, who had been doing more than their share in previous affairs got plenty of support this time and the way they ripped and tore the opposition's line was a revelation. When not doing this Bill Tirrell directed a few passes here and there and yesterday for the most part, these tosses connected for long gains. It took just the first two for the locals to come from past midfield and score their first touchdown in the closing minutes of the first half. The initial effort was a toss, McGlone to Tirrell for 35 yards and the last a 20 yard pass by McGlone to Buck Lacroix over the goal line. The Academy's last score also came on a pass when standing on his own 40 yard mark, Harry McGlone tossed a 30 yard pass to Jim Kelly, who completed the remainder of the journey by some neat broken field running.

The Academy's other score came in the early part of the third period, when receiving the kickoff, they marched 70 yards by straight football and Harry McGlone skipped around end for the score.

STAFFORD TRACK RECORD IS AGAIN SMASHED

(Special to The Bulletin)

STAFFORD SPRINGS, Oct. 14—For the second time in as many days the track record at the Stafford fairgrounds has been lowered, Beau Dillon, the bay gelding owned by A. Allbright of Newark, N. J., hanging up a mark of 2.07 in the second heat of the 2.16 pace which he won in straight heats. The previous mark of 2.07 1-2 was made on the opening day of the fair by Hazel McKlyo. Kingsley was driving the gelding to make the new mark and was hard pressed by Reppert B.

Straight heat racing featured the program which had been postponed from Thursday because of rain. Hollyrood Dick took the opening event of the day, the 2.21 trot in straight heats while the feature race the 2.12 trot was taken by Nerbelwyn in three heats. The summaries:

WINDHAM BEATS AGGIE B FRESHMEN, 14 TO 0

(Special to The Bulletin)

WILLIMANTIC, Oct. 4—Facing a team far heavier, the fast Windham high eleven defeated the heavy Connecticut "Aggie" B freshmen by a score of 14 to 0 in a highly cheered encounter at Recreation park here this afternoon.

The bulging "Frosh" team met its first handicap before the close of the first quarter when a beautiful punt by "Shick" Saba put the Windham ball on the danger line. Captain Heller lost no time in going through the Aggie line for a touchdown. When the goal was kicked the timepiece showed six minutes of play. The second and third quarters brought out some colorful Windham tackling with Usher as one of the stars. A spectacular recovery by Nichols failed to prove profitable for Windham because of an off-side penalty. Runs by Saba and Warren kept the Windham ball threatening. With several minutes to play in the final quarter Saba started things going by speeding the ball down the field for 25 yards. Arthur Meikle continued the journey an additional 12 yards and a forward pass nabbed by Saba registered the second touchdown. The kicked goal brought the score 14 to 0 and it remained unchanged despite a fast display of aerial playing in the last five minutes. Chubbeck featured for the visitors.

AGGIE FRESHMEN OPEN SEASON TODAY AT STORRS

(Special to The Bulletin)

STORRS, Oct. 14—Football players in the freshman class of 1931 at Connecticut Agricultural college will have first chance to prove their ability here tomorrow afternoon when what will be the opening game of the season for the Yearlings will bep layed with the New Haven Boys' club. The kickoff is scheduled for 2:30 p. m., and with the varsity playing away at Springfield, the frosh encounter will be the only grid attraction at home tomorrow.

FINAL GAME OF TAFTVILLE-RIVERVIEW SERIES AT MARTIN DIAMOND SUNDAY

SUNDAY'S LINEUPS

Martafts	Riverview
Krauss ss	1b Faber
Jarvis cf	cf Moore
Hillis 2b	lf Mills
Davis rf	rf Sipples
Comisky 3b	2b Liberty
Feitag or Eccleston c	3b Christy
Gley lf	ss Normandin
Nichols p	c Belair
Murphy 1b	p Tillman

On Sunday at the J. B. Martin diamond the curtain will decend on the baseball stage in Eastern Connecticut when the Martafts of Taftville and the Riverview club of the Norwich State hospital make their final bow of the season in the final game for the semi-pro championship of New England. Sunday's game will bring to a close a successful season for both clubs, Riverview having a more extensive schedule this season than the Martafts. Riverview has been conceded the state semi-pro title and is defending it in Sunday's game against the Taftville aggregation. Both clubs have won two games and this will be the deciding game.

Although the weather will be somewhat chill for baseball a large crowd is anticipated as both clubs will send in their strongest lineups. All four of the games played so far have been close and given the fans the best baseball of the 1927 season. With practically the same teams playing as in the other games Sunday's battle should prove equally as close.

Manager Troland of the Martafts, suspecting that the Riverview team will be greatly strengthened is taking no chances and has added another player to his club. This player is Feitag, regular catcher for the Baltimore Orioles during the past season. With the addition of Feitag the Taftville manager claims that he has a club that can beat Riverview without trouble, provided they play the same lineup as has been on the field in previous games.

Chet Nichols, now signed with the New York Giants, will do the pitching. Chet has been a local favorite for a number of years and has pitched some mighty fine games. In the present series Nichols has beaten the Riverview club once and being beaten in the second game. In the second game Nichols allowed but three hits.

Riverview will use Ironman Johnny Tillman in the box with either Joe Belair or Joe Hamil doing the catching. Tillman for the past two years has seemed to be a jinx to a Taftville club and in the present series has beaten Taftville twice and on succeeding days. The remainder of the Riverview lineup, as far as is known, will be the same as in the previous games but it is rumored that the veteran manager of the Hospital club has a few aces up his sleeve to spring on Manager Troland on Sunday. However, it will be a nice ball game no matter who wins or how.

The game is scheduled to start at 2 o'clock.

THREE BASKETBALL LEAGUES AT Y. M. C. A.

Basketball seems in for a great year here during the 1926-27 season. It was learned that plenty of delectable dishes will be served up by the Y. M. C. A. during the winter months and this in addition to the Academy's quintet should keep local fandom on the jump.

It is understood that the Y is to promote three leagues during the season.

An industrial loop, much similar to the baseball variety sponsored by the recreation commission during the summer and two church leagues, senior and junior, are planned.

Although it is not certain it is expected that the Dutsy league will be made up of many of the teams that comprised the diamond loop. This idea went over "big" during the summer and there now appears no reason why a court circuit should not be just as successful. This Industrial league replaces the City league of the latter part of last season.

Play in all leagues is scheduled to start about the first week in December or probably slightly before then. Plans are now being definitely laid and from present indications things should go along smoothly so that this first basketball Dusty league can get underway with difficulties. It will probably consist of eight teams and further and more definite announcements will be forthcoming shortly.

DAVE BANCROFT RELEASED AND SIGNS WITH BROOKLYN

NEW YORK, Oct. 14—(AP)—Dave Bancroft, manager and shortstop of the Boston Braves for the past four seasons, will wear a Brooklyn uniform next season.

His unconditional release was announced here today by Emil Fuchs, president of the Boston club, but there was some mystery about the actual details of transferring his contract to Brooklyn.

Mr. Fuchs declared Bancroft's release was granted at the latter's request and that no money or players were involved in the transaction. At the Brooklyn club's offices, however, it was indicated that a cash consideration figured in the deal. Baseball men circulated an unconfirmed report that the release cost the Robins about $20,000.

Observers attributed the poor showing of the Braves this season in finishing seventh as a factor in Bancroft's release, as well as the fact that the shortstop himself fell considerably below his usual high playing standards. Mr. Fuchs, however, emphasized that the Boston club was prompted solely by Bancroft's wishes in the transfer of his contract to Brooklyn. In a letter to Bancroft, Mr. Fuchs praised the player as a "credit to the American game" and extended the Braves' "good will, best wishes and affection."

Under four years of Bancroft's leadership, the Braves finished eighth in 1924, rose to fifth in 1925 but dropped back to seventh last year and this season.

Bancroft figured in a sensational row with Earl Smith, Pittsburgh catcher, this season. In a game at Pittsburgh, after they had had some dispute, Smith attacked the Boston manager knocking him down with a punch to the jaw. The Pirate backstop was fined $500 and suspended for a month as a result.

The first break in the 1927 ranks of major league managers will not effect the Brooklyn club's leadership. Wilbert Robinson, veteran pilot who also holds the club presidency, has a managerial contract for another year.

HIGH SCHOOL PLAYER DIES FROM GAS POISON

SPRINGFIELD, Mass., Oct. 14—(AP)—Rushing home to obtain his football uniform for one of the big games of the year this afternoon, Eugene Gow, 16, high school athlete, forced his way into his home, which was being fumigated with a deadly gas compound, and fell dead after he had taken but a few steps.

The youth was a freshman in the High School of Commerce but had made the football team this season. His teammates learned of the tragedy shortly after the annual game with Cathedral high school, also of this city, had gotten under way. While feeling the loss of one of their mainstays, they went out and waged a stubborn, uphill battle and held their foes to a scoreless tie.

AGGIE VARSITY PLAYS AT SPRINGFIELD TODAY

(Special to The Bulletin)

STORRS, Oct. 14—Springfield and the Connecticut Aggies will resume football relations tomorrow at Pratt field in Springfield after a lapse of three years, and the contest looms up as one of the most attractive grid cards of the day for western New England. The kickoff is scheduled for 2:30 p. m.

Not since 1924, when Connecticut and Springfield battled to a scoreless tie, have elevens representing the two institutions met in football. In that year, Springfield was one of the two elevens which held the Aggies' undefeated team to a scoreless draw. Tufts was the other.

Academy Wins Cross Country.

The Academy made a clean sweep of the day's events by winning the cross country run held between the halves. Westerly went under 27 to 29 in a tightly contested affair.

Wilcox, dusky Westerly runner came home first in 13 minutes, 31 seconds for the 2 miles of rugged ground. Weisgraber of the Academy was second with Cotter of Westerly third. Navick of Norwich, fourth and Holdridge, also of N. F. A. fifth. The runners received quite an innovation as they sped the length of the gridiron to finish at the north goal posts.

This was the Academy's first victory at this sport.

Finnegan Beats Sacco.

Boston, Oct. 14.—(AP)—Dick (Honeyboy) Finnegan, Dorchester junior lightweight, won the decision over Jimmy Sacco of East Boston in their ten round bout here tonight. Finnegan floored Sacco twice in the first round and once in the third.

M. Alton Buffinton, treasurer of the Bowenville coal Company, Fall River, Mass., died while on his way home in a trolley car. He was a brother of Charles Buffinton, former National league baseball player.

Hughie Mack, 43, motion picture comedy actor, who was one of the first actors to leave the legitimate stage for the screen, was found dead in bed at his home in Santa Monica, Cal.

A Mary Carr Picture at Y. M. C. A.

Perhaps no woman in picture story takes the part of Mother more perfectly than does Mary Carr and at the 4 o'clock service at the local Y. M. C. A. on the coming Sunday, she will be seen in the picture titled "Somebody's Mother." This is an appealing story of a woman who has her only child stolen from her when a baby. For fifteen years she peddled matches, scanning every face, searching everywhere for her long lost boy. Her faithful devotion is finally rewarded, and a woman with a sad heart begins to rejoice again. Seldom is a story screened that displays the strength of a mother's love as does this seven reel feature. F. N. Miner of New Haven will give a brief talk on Mother, and appropriate music will be furnished by Hugh Kinder. The public 14 and over are invited.

Pictures and Song Service

Sunday night at 6 o'clock at the Community house the picture committee will present their first program of the season which is to be a beautiful dramatization of "The Twenty-Third Psalm," showing the shepherd attending his sheep beside the still waters. Another picture will be entitled "Motherhood In Nature," depicting how the shepherd instinct in nature cares for the young and how the strong protect the weak.

There will be a song service at which Miss Nellie Howie, organist of the Congregational church of Taftville, and Mrs. Charles Tyler Bard, and Archibald Mitchell, 4th, will lead a chorus of young people. Picture programs will be furnished by the young people on the third Sunday of each month when you are cordially invited.

Christ Episcopal Church

On Sunday the church school of Christ Episcopal church will continue the contest for attendance at the 9.15 service. The boys are ahead but the girls are close behind. At the 10.30 choral eucharist, Beethoven's music in two flats will be used. The sermon subject is "Neighborly Spirit" from the gospel for the 18th Sunday after Trinity. Announcement will be made of an archdeaconry meeting of the Girls' Friendly in the parish room on Sunday afternoon at 3 p. m. St. Vincent's guild of young men will attend an acolyte service at the Church of the Good Shepherd at 4 p. m. in Hartford. Tuesday, October 18, St. Luke's day eucharist at 10.30 a. m. St. Vincent's acolyte service at 7.30 p. m. at which service all the people of Norwich are invited to attend as it is a community service to encourage a loyal spirit among young men.

PLAINFIELD HIGH DEDICATES FIELD TODAY

Plainfield High school will dedicate its new football field this afternoon at Plainfield when the Putnam High school eleven, Plainfield's bitterest rivals, will meet. The new field is located near the Community house in the center of the village and has been equipped with bleachers that have a seating capacity of approximately 500. This is the first year that Plainfield has had a real football field and interest in the gridiron sport is reviving at a rapid rate. Coach George Mullen who is directing the destinies of the Plainfield team has rounded out what may be classed as one of the best teams that Plainfield has ever had. Working under the difficulty of the lack of material, which is usually experienced in a small high school, Coach Mullen has developed a team that though lacking in football experience is fast and scrappy.

Today sees Plainfield up against their toughest opposition of the season when Putnam, reported to have a good team this year, clashes today. Putnam like Plainfield got off to a rather disheartening start but has greatly improved since the opening game. Looking over the records of both teams to date it would seem that today's game will be fought on as even terms as any football game.

Plainfield will start the game minus the services of Royle, who was injured in practice this week, which will greatly handicap the left end of the line. Plainfield has an almost veteran backfield with Capt. Williams at left half, Tetreault at right half, and Derda at full. The line is made up mostly of new material.

Putnam has what is considered a strong team with a large number of veterans around which the team has been built.

The game will start at 2:30 o'clock. The lineups:

Plainfield—Royle or Modliszewski le; Abood lt; Laakso lg; Smith c; Driscoll or Bonin rg; Koss rt; Shippee re; Baknowsky qb; Tetreault or Jollicoeur rhb; Williams lhb; Derda fb. Substitutes—Bakanow, D'Avignon, Burby, Dobson, Pease, Mros, Baldyga, Luty, Polewaczik and Lang-

Putnam—Arnold le; Hall lt; Dumas lg; Sabin c; Nelson rg; Wilson rt; Bobe re; Donovan qb; Child rhb; Cody lhb; Wheaton fb. Substitutes—Greene, T. Benardinis, Arnold, Elliott and Anderson.

TO COMBAT SIGNBOARDS AND PICNIC PARTIES

KENNEBUNKPORT, Me., Oct. 14—(AP)—Kennebunkport, famed as the summer home and inspiration of several of America's foremost authors, is going to launch a campaign tomorrow against "scenery wreckers"—signboards and picnic parties—with the wives of some of the men who made it famous setting an example.

Mrs. Booth Tarkington, wife of the Indiana author, and Mrs. Kenneth Roberts, whose husband is widely known as a magazine writer, will head the campaign. With other local women, they will begin the campaign by parading and picking up the cans, picnic remains and other refuse.

LONDON HAIR SNIPPER LOSES HIS SCISSORS

LONDON, Oct. 14—(AP)—Andrew Mc Kenzie, 34, is serving his fifth sentence for snipping off tresses of young women. His most recent offense occurred in a London omnibus and brought him a penalty of six months at hard labor.

McKenzie testified at his trial that he stole ten shillings from a man in order to buy scissors to cut off the hair of his recent victim, who lost eight inches of a plait which she wore hanging down her back. The girl had never seen the snipper before.

A crusade against the improper wearing of kilts is being waged in Scotland, due to the growing practice of foreign visitors in donning the Highland costume without a knowledge of the correct way to wear it.

DELANEY GETS VERDICT OVER RENAULT

NEW YORK, Oct. 14.—(AP)—Jack Delaney, retired champion of the light heavyweights, pounded out a close decision over Jack Renault, former headliner in the class, in a ten round feature match at Madison Square Garden tonight. Thefight officially opened Tex Rickard's campaign to determine the next logical contender for a shot at Gene Tunney's title.

Delaney, at 170 pounds conceded 19 1-2 pounds to his fellow Canadian and handed him a solid trouncing after being on the floor for less time than it took to start a count in the second round. A solid right to he ear spilled he retired king of the light heavyweightsbut he was not badly hurt and fought back viciously.

A vicious right uppercut, as Renault backed out of a clinch in the fourth round, caught the former Canadian mounted policeman squarely on the nose and started a flow of blood that continued for several rounds. The nose appeared to have been broken and was split badly along the ridge.

From the second round through the fifth, Delaney made a target of Renault's face with a stinging left hook and jab that caught the Canadian repeatedly as he seemed to close quarters for an attack on the Bridgeport warrior's ribs. Although Renault smashed both hands to the body with occasional telling effect he could not match the score of Delaney.

As the flow of blood from Renault's face diminished in the closing rounds, he redoubled his efforts to smash out a victory through Delaney's body. Jack was too clever, however, and the continual clinching that followed Renault's style of attack brought rounds of whilehearted boos from the 16,236 fans who paid $54,134 to see the contest.

Renault bulled Delaney about considerably as the flow of blood stopped completely in the eighth and ninth rounds, and Delaney's body showed pink throug the tan under a fierce bombardment. But Renault could not stem the tide. Toward the close, his face against was a gory mask from Delaney's sharp left hand punching to the head.

ECHOS FROM THE LODGE ROOMS

CATHOLIC LADIES OF COLUMBUS

At the 17th annual state convention of the Catholic Ladies of Columbus at New Haven Friday and Saturday the following delegates and alternates from Mercier assembly are in attendance: Mrs. Margaret Dutton, state president; Miss Lucy Murphy, president; Mrs. Louis Combies, vice president; Miss Mary A. Sullivan, recording secretary; Miss Frances Kingberger, alternate; Miss Mary J. Murphy, alternate.

Approximately 39 members of the local assembly and a number of members of Hoey assembly of Baltic attended the opening session of the convention Friday evening. They made the trip by bus chartered for the occasion by Miss Catherine Hallahan and Miss Helen Drescher.

The noted Danbury degree and drill team with its splendid choir executed the drill after which an entertainment was given by Elm City assembly. Mass will be celebrated this (Saturday) morning at 9 o'clock by Rev. Francis May, state chaplain, at St. Mary's church, Hillhouse avenue, New Haven, after which the convention will proceed in session.

The election of officers for the ensuing year will take place and in the evening at 6.30 o'clock a banquet will be held at Hotel Garde. Next Tuesday the regular monthly social meeting of Mercier assembly will be held. Miss Nonie Nagle is chairman of the social feature which will be an elaborate fashion parade, displaying on living models the latest in fashions. Orders for rings and pins must be submitted at this meeting, as the orders are to be forwarded next Wednesday, without fail.

MOOSEHEART LEGION

The Women of Mooseheart Legion held their regular meeting Thursday evening with the senior regent, Vera Sterry presiding. Routine business was transacted. Past Regent Teresa Watters reported a good sum realized at the recent whist and pinochle party held at the home. It was voted to hold the next meeting Tuesday evening, October 25th, instead of Thursday evening that week.

All Legionnaires who would like to attend the banquet and entertainment in New London, Mooseheart day, have been requested to communicate with Past Regent Teresa Watters as soon as possible. Past Regent Mary Hunter was awarded the carafe donated by Past Regent Caroline Hastedt.

COMPANIONS OF THE FOREST

Nevins-Carver circle, No. 1235, held a very successful whist and pinochle Monday evening. The prizes were awarded as follows: Whist, women, 1st, Mrs. Kane, 43, half dozen Rogers silver tea spoons; 2nd, was a tie between Mrs. Day and Miss Quinn, 41, Miss Quinn winning the prize, silver cold meat fork; 3rd, Mrs. Day, perfume flaconette. Men, 1st, H. A. Sherman, 40, safety razor set; 2nd, Mrs. LaValle, 36, a fountain pen; 3rd, Mrs. Margaret Cormier, 24, silver match case.

Pinochle, women, 1st, Mrs. Amburn, 6,950; 2nd, Mrs. Herman 6,430; 3rd, Mrs. Farrell, 6,360; men, 1st, Mr. Prodell 6,300; 2nd, Dave Kahn, 5,980; 3rd, James Kane 5,340.

The pinochle prizes were the same as at whist. The committee in charge of the evening comprised Chief Companion Teresa Watters, Ethel Hoelck and Ellen Smith. Rose Kennedy had charge of the cake table and a good sized sum was realized.

GROTTO

Nemrod Grotto is at present making plans for sending a big delegation to the next national convention of Grottos which is to be held at Richmond, Va., in June 1928. Under the direction of Louis Brown, an "On to Richmond" club has been organized with a large number of members already signed up and with prospects of many more.

In order to show the Grotto members the big events which took place at the recent Cleveland convention, movies of the parade and other features of that convention will be shown at the Grotto rooms Monday evening, October 17 at which time a large attendance is brought to Norwich through the courtesy of Monarch Philip Jones of Hartford.

PATRONS OF HUSBANDRY

At open meeting sessions which are to be held by Mystic grange next Tuesday evening and by Konomoc grange in Waterford next Wednesday evening, plenty of fun and a lot of good helpful information about poultry raising will be given by the production of the four act play, The Way of A Hen. This is the same play that received such a tremendous ovation by the Connecticut poultry group who attended the world's poultry congress at Ottawa, Canada. The characters in this play include Meade Summer, Cornell graduate under Prof. James E. Rice. Mr. Summer won the contest last year for the high score for judging poultry at Madison square garden. The play has the endorsement of Prof. Jones of Connecticut Agricultural college.

Norwich grange, No. 173, had twelve candidates for the first and second degree at its meeting in Steiner hall last Wednesday evening, the tableaux under the direction of Miss Ella Lester being an especially beautiful part of the work. In the lecturers hour there were songs and a reading entitled "Charity" by C. E. Ellis, the worthy chaplain. Visitors were present from Bozrah, Franklin, Preston City, Pachaug, and Berlin, Mass., Sandwiches, cake and coffee were served by the feast committee, Mrs. Teresa Waters, chairman.

The grange committee to represent different parts of the city in collection of jelly or canned fruits to be given to the Rock Nock home and Sheltering Arms about Thanksgiving time has been appointed as follows by the lecturer, Mrs. Althea Brown: Mrs. Whitman, Mrs. Davis, Mrs. Kahn, Mrs. John O. Peckham, Mrs. Woodmansee, Mrs. Staubley, and Mrs. Thatcher.

The grange auxiliary held its meeting this week with Mrs. Austin of Hamilton avenue, having an all day meeting, with a delicious dinner served at noon. Next Tuesday the meeting is to be with Mrs. Risley of Rogers avenue and members are to bring cake or pie. Mrs. Ida Richardson has been appointed chairman for the auxiliary supper with Mrs. Charles Browning as her assistant.

Thursday night 40 members of Norwich grange attended the Lebanon grange meeting for Neighbors' Night. The Norwich grange part of the entertainment consisted of recitations by Miss Marion Gibbs and Mrs. Clara Burke, with an orchestra, and the presentation of "The Play Actor." Mrs. Brown, the Norwich grange lecturer was invited to take entire charge of the programme in the absence of the Lebanon lecturer.

ODD FELLOWS

At the regular meeting of Shetucket lodge, Tuesday evening, the first degree was worked on a class of candidates by Narragansett lodge of Westerly. The degree was worked in a most impressive manner before one of the largest turnouts of members for the season. A delicious supper was served before the meeting by Hope Rebekah lodge, No. 21.

Welsh Rabbit

I ate me a Welsh rabbit,
In the night last past;
I ate me a Welsh rabbit
Whereby to stay my fast;
Simply a Welsh rabbit,
A harmless, armless thing
With not a leg to stand on,
Nor voice to speak or sing

I ate me a Welsh rabbit,
Then hied myself away
To bed and dreams and wishing
Twere longer yet till day;
Simply a Welsh rabbit,
A wileless, guileless beast,
That hath no other mission
Than serving for a feast.

I ate me a Welsh rabbit;
Gadzooks! I thought it so!
But after I had gone to sleep
How quickly it did grow
Into the strangest creatures—
Into the maze of night,
Into the gibberish monkeys,
Into the shapes that fright.
Into the ring-tailed roosters,
Into the jabberwocks,
Into the jangling jaguars,
Into the six-horned ox,
Into the horse with flippers,
Into the hog with wings,
Into the cat with feathers,
Into the cow that sings,
Into all manner of creatures,
Of all the earth and the air and the sea,
And all of them promenading
Or sitting around on me.

I ate me a Welsh rabbit,
In the night last past.
I ate me a Welsh rabbit
Whereby to stay my fast;
Simply a Welsh rabbit—
How could there possibly be
In a little thing like that
A whole menagerie?

If Only

"Man wants but little here below,"
I've heard that quite a lot.
But your will always find he wants
Just what he hasn't got.
"If only" are two little words
Forever in the mouth
Of him who wishes east were west
And north not north, but south!

"If only," you will hear him say,
"The world were square, not round;
And Father Sol came out at night,
While stars at noon were found;
If only flowers were cabbages
'Twould be so good for bis
And nature anything at all
But what she really is!

"If dogs and cats swam in the sea,
While fish walked on the land;
If fingers were upon the feet
And five toes on each hand;
If only white were black or green
And navy blue were red,
And wouldn't it be rather nice
If kings were queens instead!

"If only supper -time came round
Each morn at half-past eight;
If only we could boil the toast
And drink tea from a plate;
If only, when we came to meals,
Each one of us were able
To put the food down on the chair
And sit upon the table!"

"If only 'yes' always meant 'no.'
And 'p'raps' meant 'it's a cert';
If only we could wash ourselves
With little cakes of dirt;
If only I were not John Smith
But Bill or Tom or Sam,
If only I were anyone
But who I really am!"

LABELS FOR PRESERVES

Dear Editor and Social Corner Sisters: Another week has gone by and so many things to be thankful for. Plenty of sun and warm weather for two weeks or more and now again a little more rain. And to night it is so quiet here that I can hear the very stillness hum in my ears. It's heavenly to me.

I wonder how many sisters have used the narrow stripe up at the top and bottom of The Bulletin to mark their preserve and jellies. I mark all of mine with them. You see it is just right in width but you cut the size you want for length. I cut mine 1 1-2 inches long and 1 inch wide or 2 inches long either way. You can just make it good. Try it some time. I have put up over 50 quarts of preserves and jellies and I find it helps a great deal. To buy the regular seals of course costs money and this is so easy if you will only try it.

Here are a few hints.

To Clean Paint: Tea leaves may be saved from the table for a few days and when sufficient are collected, steep not boil, them for half an hour in a tin pan. Strain the water off through a sieve and use this tea to wash all varnished paint. It removes spots, and gives a fresher, newer appearance than when soap and water is used. For white paint, take un a small quantity of whiting on a damp piece of old white flannel and rub over the surface lightly and it will leave the paint remarkably bright and new.

Indelible Ink: To one tablespoon of rain water, one half teaspoon of vinegar and a piece of lunar caustic, three inches long, shake well together, wet your cloth with a little milk and soda (to a tablespoon of milk a piece of baking soda as large as a grain of corn.) Iron smooth and write immediately.

To Clean Marble: Take two parts of common soda, one part of pumice stone, and one part of finely powdered chalk. Sift it through a fine sieve, and mix it with water, then rub it well all over the marble and the stains will be removed. Then wash the marble over with salt and water.

To Clean Cut Glass: Having washed cut glass, let it dry and afterwards rub it with prepared chalk and a soft brush, carefully going into all the cavities.

To Take Mildew from Linen: Rub the spots with soap, scrape chalk over it, and rub it well. Lay it on the grass in the sun, as it dries wet it a little; it will come out with two applications.

To Raise the Pile of Velvet: Cover a hot smoothing iron with a wet cloth; hold the velvet firmly over it, the vapor rising will raise the pile of the velvet with the assistance of a light whisk.

Best wishes to all.

MOTHER PRESTON.

AN OLD PICTURE

Dear Editor and Cornerites: My dollar prize is very much appreciated and I thank you.

A few days ago I had a very nice little visit with Pisces and while there she gave me several old pictures which I prize very highly, one of which I believe is the old school house on the hill at East Killingly, now used as a dwelling house and replaced by a modern two story building. The picture is of a one story building with a cupola and bell on one end (which I think faces the street) one chimney about midway of the roof, an entry way built out on the front, one other door, five windows on the front and three on the end which shows. On the steps stand a man and woman, she wearing a large plaided dress and hoop skirt, he wearing a dark suit with white handkerchief tucked in pocket and has a full beard. At their right are 25 or more girls of all sizes, and all wearing short waisted, full skirted dresses, hoop skirts and pantalettes. At the left are 30 or more boys all wearing long trousers, short jackets and standing like little and big gentlemen with their hats in their hands. I imagine this might be the day when the committee man comes, for a horse is standing at the end of the building, and perhaps some of these supposed scholars may be visitors. On the back of this picture is printed, Photographed by Bethuel Curtis, traveling photographer. But there is no date given. This letter is an appeal to the E. K. or any other readers ofthe Social Corner for any information regarding this picture. Has any one else one like it? Was the new building built on the old location? Were there two rooms and two teachers in the old building? What year was the new building built? Put on your thinking caps and let us have some Corner letters about this picture. No doubt but what some of those girls in the pantelettes and the boys in the copper toed shoes Are living now Who are they?

Butterfly: You write to the Corner and tell us about it and I will let you have your picture taken with me again.

We have several new members in Club 4, but have not seen many letters from them as yet. Busy times now.

Primrose: Good news received: expect to be there.

Forget the slander you have heard;
Forget the hasty, unkind word,
Forget the quarrel and the cause,
Forget the whole affair, because
Forgetting is the only way.
Forget the trials you rave had
Forget the weather if it's bad,
Forget the knocker, he's a freak,
Forget the years of your age.
But don't forget the Corner Page.

A WEDDING DAY

Dear Editor and Social Corner Friends: Another rainy Sunday, and very dark and lonesome! However I will try and write a few words for the Corner page. Yesterday was the day the fashionable wedding of one of my good neighbor's daughters occurred. I should say at least 500 (or more) guests were present at the reception given at the Mashmoquet house, the beautiful home of the bride. Not a drop of rain fell all day, but just before the sun went down, a ray of sunshine appeared, a token of good luck and happiness for the newlyweds. To-day they are crossing the ocean for Europe, on the S. S. Celtic where they are expecting to spend the winter. My thoughts seem to turn to them, wishing them a safe, and pleasant honeymoon trip. I felt very sorry (being one of the invited guests) to think I was not able to attend the reception, having always known the bride all her life.

Have a care, O, gentle maiden,
Stop and think, O noble youth,
Marriage is a bond eternal,
Founded on the Rock of Truth.

FINE DAY WITH AUNTY NO. 1

Dear Editor and Members of the Social Corner: What fine weather we are having! When reading the Corner page this week I was surprised at not seeing an account of the picnic at Aunty No. 1's, Sept. 28. There were nearly 150 present I was told. I couldn't count them, they moved around so much and some came after others had gone. One lady came all the way from Putnam and arrived after we had had dinner. As usual there was an abundance of good things to eat and all seemed to enjoy it. The day was pleasant but cool. I was disappointed at not seeing Aries, Crimson Rambler, Calla Lily, The Friendly Voice and several others that live near there. I saw several from Club No. 1 that I knew. Foxglove and Whirlwind were there with two friends from Southington and Sister Olive of Hartford kindly invited Jennie, Priscilla and a friend, and myself to go in her car. As we rode over the hills the view was beautiful, as we saw the foliage on the trees turning to crimson and gold. I was pleased to meet several sisters from the Shore Line club that I had not seen before. After visiting and admiring the beautiful flowers of which Aunty No. 1 has quite a variety, we started for home about 3:30 p. m. arriving in Hartford about 5 o'clock, after having passed a very pleasant day.

I have thought of writing you of my trip over Bear Mountain bridge and the Storm King highway but have not done so, so will tell you about it now.

On July 17 we left Hartford at 7:30 a. m. going through Waterbury, Danbury and Peekskill. While going over the mountain the clouds seemed to lie on top of the distant hills like smoke, and when the sun shone on them it was a very beautiful sight. We stood on the bridge and watched two excursion boats going up the river loaded with people.

After leaving Bear Mountain bridge we rode through West Point, visiting the stadium and other points of interest. We stopped for lunch at a wayside camp and continued on over the Storm King highway. The view is very beautiful every where you look. At Newburgh we crossed the ferry to Beacon. After traveling over a circuitious route we arrived in Danbury and in due time we were in Hartford and home.

I am sorry to hear that Amy is not as well. Will write soon. Can any of the sisters tell me how to root a begonia leaf?

A friend gave me a leaf of Rex begonia and I have been trying to root it in water for several weeks but no roots appear. Now I have planted it leaf down in a pot of dirt and will keep it moist and see what luck I have.

With best wishes to all the Corner members, I will say good day.

CHRYSANTHEMUM CULTURE

Dear Social Corner Members: I have been much interested in all the references to the picnic at Moses Wife's because I wanted very much to go. Two other gatherings to which I belonged were scheduled for the same day. In the morning while watching the weather and wondering if I could make it a telephone call that a relative was coming to dinner settled all plans. More unexpected company prevented time for regrets.

I have several times been at Moses Wife's and know what a fine meeting place it would have been. I also know that a few years ago she made it a lovely place for a certain wedding so I am wondering if I know Harry E.; also how far away Pisces lives.

I want to answer Majestic's inquiry about chrysanthemums. I have had very good success with a collection of hardy ones I have had for a number of years. They have thrived in various places. The secret lies in what an English landscape gardener told me. They must be moved every two or three years or they tend to die out. I divide often and put them in new places and have some fine boquets even after they have had hard frosts on them. A stiff freeze has failed to spoil the blooms sometimes.

We have had no frosts yet, however, and still have an abundance of corn, tomatoes and other vegetables. I have so many canned tomatoes I would welcome ways of using them next winter. I am very fond of them, but find it hard to work them off on the family.

When one has plenty of jar space a most delicious grape juice that needs no diluting is made from one cup of grapes (steamed) one half cup of sugar. Cover with boiling water and seal. Let stand a few days before using.

One of our most delightful drives this season was to Purgatory in Sutton, Mass. There is an ideal picnic spot provided, a quiet country road and a unique natural phenomenon to see and remember. There was a large number of other sightseers there when we went but a very orderly company. It is not far over the Massachusetts boundary.

We are receiving much benefit from our Windham County Four-H club leader who gives cooking and serving lessons here regularly. When the rest of the county gets acquainted with her and her work I am sure her time will be much in demand. We all enjoy having her come into our homes, she comes in such a frankly helpful way.

Special greetings to Buffalo and Last Rose of Summer and best wishes to all.

FOUR GOOD DINNER DISHES

Dear Cornerites: Here are four good dinner dishes.

Camp Stew: Place 1 tablespoon of butter and lard combined in a frying pan, and in this brown 2 tablespoons of flour. Add 3 cups of hot water, 2 slices of bacon chopped, 2 cups sliced potatoes and 1-2 cup sliced onion. Cover and cook 20 minutes. Add 1 cup shredded dried beef and cook 10 minutes more, adding another cup of hot water. This is delicious.

Meat Loaf: To 1 1-2 pounds of hamburg steak, add 3 slices of bread soaked in milk, 1 egg, and salt and pepper to taste. Mix thoroughly and spread a layer in the bottom of a baking dish. Next spread a layer of partially cooked macaroni and over this one can of tomatoes. Cover this with the remainder of meat mixture and dot well with butter. Bake in hot oven until brown, reducing heat to cook thoroughly. Serve with baked potatoes.

Ham and Noodle Scollop: Butter an earthen butter dish. Cover the bottom of the baking dish with a generous layer of noodles that have been boiled in beef stock, add a layer of cold boiled ham, cut in small pieces, sprinkle with parsley. Cover with another layer of noodles, making 3 layers, filling the dish, add 1 cup of milk. Cover with a layer of buttered crackers and bake in moderate oven 30 minutes. Serve hot.

Ham Croquettes with Fresh Peas: Two cups of finely chopped ham, 2 cups mashed potatoes, to which have been added 2 tablespoons of cream, yolks well beaten of 2 eggs and 2 tablespoons of butter. Beat thoroughly until smooth, then add 1-8 of a teaspoon of cayenne. Mold into croquettes and roll in the remaining egg, well beaten, then roll in dry bread crumbs or meal and fry in deep fat, part lard and part butter. Serve with green peas.

Here is a good apple short cake. Prepare 2 layers of one egg layer cake. An hour before serving time place in a moderate oven the following: Fill a buttered casserole, with tart apples which have been pared and sliced. Cover with 1 cup of sugar, the juice and grated rind of one lemon and 1-2 teaspoon of nutmeg. Mix into the apple with a case knife. Dot with butter, cover closely and bake one hour.

Immediately before serving spread between the cake layers and on top serve with sweetened cream (whipped).

Pastry flour does make a finer cake than bread flour, but when none is at hand two tablespoons of corn starch well sifted with a cup of bread flour, give excellent results.

CLUB NO. 6 MEETS OCT. 18

Dear Social Corner Sisters: Don't forget that Club 6 will have its next meeting Tuesday, Oct. 18 at the grange hall in North Stonington village. Bring dishes, and something good to eat.

Savilla: Hope you get down.

Billie: Saw a lovely rose in bloom by your front door Saturday. Do you know the name of it?

All you who have met Frances L. will be sorry to hear that she buried her husband on Wednesday. While he had not been well for some time he kept at his work and was only ill two days.

TAKES ANOTHER'S PENNAME

Dear Social Corner Editor: I have been to meetings and picnics of the Social Corner and had a wonderful time. Have been asked to join and know I shall enjoy it very much. Would like to join Club No. 4 as it is near my home.

Will take for a pen name

WINTER HOUSE PLANTS AND THEIR CARE

Dear Sisters: To begin with, a word or two of general suggestion. The temperature desirable for house plants varies between 40 and 65 degrees according to the individual needs of the specific kind.

Brilliantly flowering plants enjoy as much sunshine as possible, while foliage growth, such as ferns, palms, ivys, etc., do better in a more or less shaded location.

I find thorough watering once a day is necessary for all plants in most cases. But this rule should be kept in mind, i. e. the earth in the pot be be allowed to dry at least one third of the way from the top to the bottom frequently in order to prevent decay of the roots, hence the flowering plants can absorb healthily more water than the plants which are shaded. The two remaining crying needs of vegetation are oxygen in the air and nitrogen in the earth. Artificial gases and all vitiating vapors are bad for vegetation—perhaps injure the lungs of the plants more than our own; therefore, you must counteract any unavoidable condition of this sort by frequent, thorough ventilation with clean outdoor air.

The nitrogen in the earth must be replenished as the vegetation absorbs it, by the frequent use of fertilizer in the watering can. It is best to use rain water and add to it at times either a good prepared fertilizer or some made by putting leaf mold, bone dust or manure in the water and letting it stand.

Cleanliness is as necessary to successful plant growing as to successful housekeeping. If the pots and leaves are not washed frequently bugs and insects will quickly appear to devastate the plant.

Of the individual plants probably roses are the most popular. They are also the most difficult, to grow. They should be in a window away from other plants on account of the difficulty with which they are kept free from bugs, even with frequent washing.

Temperature should be quite even at about 60 degrees and the roses should have plenty of sunshine, much watering and rich and frequent applications of liquid fertilizer. Rose plants can be bought at any time, and if they have been trimmed in September or October, they should bloom all winter. The best varieties are: Nephitos, a white tea rose; La France, a silvery pink; Clotilde Soupert, profusely blooming small pink rose.

Bulbous plants are very satisfactory and easy to raise in the house. The crocus, the tulip, the hyacinth, narcissus and daffodil are most popular. These can be bought in December and January, in bloom, or if economy is a big consideration, it would be better to wait and buy the bulbs by the dozen late next summer and coax them into bloom yourself next winter. If you buy the blooming plants in December and keep them to cheer up the house in January and February, place them in a sunny, warm spot and water frequently; and do not use too much fertilizer.

When they stop blooming cut down the vegetation and take them to the cellar. There they should stay unwatered to rest through the summer in the darkness, coolness and dampness. Next fall you will remember with a sense of pleasure the wealth of beauty you have buried below. The plants will look very hopeless and dead. Take fresh pots, place a loose piece of crock over drainage hole, then put broken crockery or stones in the bottom of the pot. This secures proper drainage and prevents the earth from collecting in the bottom in a decaying mass of sogginess. Carefully shake off all the old dirt from your bulb and repot it in soft dirt, a little sand and rich manure, placing it not too deep and packing the earth tightly around it. When the bulbs have been repotted, place them on a fairly light window sill in the cellar, and water them when they become quite dry. They will busily gather nourishment from the fresh earth, light and water, and plenty of water and fertilizer they will gratefully respond with leaf and stalk and finally, gorgeous bloom again.

I think there is much pleasure to be gained in nursing plants along to a satisfactory culmination than in buying products of some other persons care and starring them ostentatiously in the limelight of your own bower.

HALLOWE'EN PARTY FOR CLUB 4

Dear Editor and Social Corner Members: Greetings!

Club No. 4 is really waking up. A Hallowe'en picnic is to be held at the home of Mr. and Mrs. Ernest Burton, Sawyer district, on Thursday, Oct. 27.

All club members with their families and friends are cordially invited to be present and thus help to make this a banner gathering in all ways.

Of course no one will forget to bring their plate, cup, spoon, knife, fork and something good to eat.

To reach Mrs. Burton's home turn to right at the four corners near Children's home. Then first left. Follow yellow bow.

Those wishing to go by bus. Leave R. R. station at Putnam at 10:30 a. m. and 12:15 p. m. Free transportation will be provided from bus line to the Burton home and return to bus line.

Yours for a good time.

BAYBERRY CANDLES

Dear Social Corner Sisters: Sumac: In your letter concerning the making of bayberry candles you wrote how hard it was to pick the berries. If you will spread an old cloth under the bush and rub the berries on the bush with your two hands they will fall off and will take you but a few minutes to gather them.

Another thing, the bayberries are best picked after the first frost. I find it takes one quart of berries to make two good sized candles. Place four quarts of berries in four quarts of cold water and boil four hours, adding hot water as it boils away. Boil rapidly at first then simmer, then set away over night. Lift off the piece of wax and melt it in top of the double boiler. Strain through fine cheese cloth and add two ounces of paraffin wax. Keep it in the top of the double boiler over hot water but not over a fire.

I tie two pieces of candle wicking on a pencil about three inches apart, their length determined by the desired length of the candle plus three inches. Holding the pencil between the wicks, dip them into the wax and then out quickly. Repeat three times without allowing the wicks to touch each other. Suspend from the pencil from 10 to 12 minutes. Meanwhile dipping a second pair of wicks, alternate the cooling and dipping process until the candles are of the desired size.

Candle dipping is certainly interesting. I wish some of the other sisters would write their mode of dipping candles.

I learned quite a little from Sumac's letter and I hope I have helped too.

Of all the games and playthings for children the gravity type of running toy is the least destructible, having only one heavy wheel by which momentum is obtained for making the toy go.

Games of skill in shooting or throwing things are generally to be avoided except the good old fashioned ring-toss, floor ball croquet, rubber bubbles, nine pins, fish pond, battledore, these are games that may be tried with fair success. A pair of scissors for each child will prove a good investment. Scissors with points that will permit careful picture cutting are best. The round end scissors, often given to children on account of the danger in the pointed ones, are a nuisance. When a mother is able to be with her children while the scissors are in use, no accident need be feared. Teach the children never to run with scissors in hands, or carry them any way but points downward.

Many kindergarten occupations are helpful to the mother who must keep her children amused while she is busy; it is a mistake, however, to give them to the children as their personal property. It is better for the mother to call these her toys, and produce them only when other amusements fail.

AT THREE SCORE AND TWELVE

Hello Everybody: This is station Z. A. N. Y. broadcasting on one meter, 2 kilocycles and 3 watts. Will be 71 years old on Oct. 15 th. The aerial is in fairly good condition, considering the shock it received 65 years ago, when it fell, struck on a rock and had a dent put in it. The ground connections have two bad joints but go very good if not used too long at one time. The transformer is all right. The volume is good but becomes very loud if the ground connections are disturbed very much.

That's about enough of this for "An empty head can be filled with almost anything but sense."

Nonesopretty: Judging by your letter in Saturday's Bulletin you do not care for dried apple pies, and here is another little rhyme to go with yours. "I hate, abhor, detest, despise, abominate dried apple pies," but I bet if you could eat one of Twice Twenty's dried apple pies you would change your mind and I know she would give you her recipe if you asked her. I have eaten many of them so know what I am talking about, and her pumpkin pies can't be beat.

This is the time of year that the game birds suffer by the hunters.

Please, Farmer Bill don't shoot the quail,
Instead go out and feed them.
Next summer when the bugs are bad
Your truck patch sure will need them.

I have a book giving a report of the celebration in Norwich on the 200th anniversary of the settlement of the town, Sept. 7th and 8th, 1859, with an appendix containing historical documents of local interest. Compiled, printed and published by John W. Steadman in 1859. In this book is the deed of Norwich from the Indians on Aug. 20, 1683. Think some of the illustrations would be very appropriate for the Norwich Bulletin calendar. Would like to know if any other writers have one of these books.

Probably I will not broadcast again this year so here is a recipe for A Happy New Year: Take a large quantity of cheerfulness and let it simmer without stonping. Put with it a brimming basinful of kindness, then add a full measure of thought for other people. Mix into these a piling tablespoon of sympathy. Stir well together and then carefully strain off any grains of selfishness. Let the whole be served with some sauce and fruit of the spirit.

Yours for the good of the Corner.

CLUB 6'S MEETING TO BE AT NORTH STONINGTON

Dear Social Corner Editor and Sisters: Once more we are starting our indoor meetings, and it happens to fall my lot to be hostess and I hope for a good big crowd. I sure am a slacker at writing letters, but now must get busy. Our next meeting will be held Oct. 18th at Grange hall, North Stonington. Please be sure to bring plate, cup, knife, fork, spoon and something good to eat.

E. L. M.: I know something about those old chimneys being torn down, for when my father took ours out I had to go up a ladder to bed for a while. I could do it better then than I could now. Wonder why?

Idaleane: You sure are having some dandy trips this summer and am awfully glad for you.

Frances L.: Am so sorry for you; you have my sympathy.

Now don't forget the time and place of our next meeting.

CLUB NO. 2 MEETS OCT. 19

Dear Corner Sisters: Just a reminder of the change of Club No. 2's meeting in Buckingham Memorial to the third Wednesday each month. Coming this time on Oct. 19. From reports coming in it seems to be satisfactory and the members are glad of the change of day.

Majestic: In reply to your inquiry of the best place for chrysanthemums I have had fine luck in blossoms and increase of plants with mine set up by the house on the west side. I have a bed on the south side in open garden so it looks as if they need sun. Mine are thick plants and heavily budded.

Silver Locks: Thanks for paper. Family looked all through it but couldn't find the history of family in it. Wish you had marked it.

Catnip: Where are you? Hope you and Joan will be on hand Wednesday.

VARIETY OF RECIPES

Dear Corner Folks: There's a variety in these recipes which should serve many wants.

Nasturtium Punch: Chop fine 2 dozen flowers, rub them to a paste by adding 1-2 cup of sugar. Boil together 1 pound of sugar and a quart of water for five minutes. Take from the fire, add the juice of two oranges, and one lemon and the nasturtium flowers. Let these stand until perfectly cold, add four tablespoons of grape juice. Freeze this mixture and serve in punch glasses. A nasturtium flower in the top of each glass makes a pretty garnish. Serve this with meat.

Prune Dolls: Select large prunes and soak until quite soft. Press out flat for bodies of dolls. Dry with towel. Draw faces on flat side of marshmallows with tooth pick dipped in melted chocolate. Fasten heads on bodies with tooth pick using raisins for necks and raisins on tooth picks for arms and legs. Lay dolls down until prunes are dry.

You can make a dog with prunes with head and ears and tail of raisins.

Salmon Cakes: 1 can salmon, 4 eggs, 2 tablespoons thick sweet cream, 1-2 teaspoon salt, 1-8 teaspoon pepper, 4 tablespoons milk, 3 tablespoons cracker crumbs, 2 cups white sauce, 1-2 cup celery, 3 slices of toast, 2 tablespoons butter.

Method—Flake the fish add the beaten eggs, the cream, salt and pepper. Mix and shape into cakes, then dip in the cracker crumbs rolled fine. Saute in butter until browned on both sides. Toast bread and serve salmon cake on slice of toast with white sauce. Be sure toast is hot.

Salmon Sandwich Filling: One slice of bread all buttered with melted butter, next slice of bread place crisp lettuce leaf (wiped dry) next slice of bacon crisply fried next salmon (all dry) next slice of bread, a slice of ripe tomato, sprinkle this with salt, pepper and mayonnaise. Place another slice of toast on this filling. Have the toast hot, cut off crusts and protruding filling. Sometimes I put sliced cucumber in place of lettuce leaf.

Fruit Punch: 1 quart boiling water, 1 tablespoon of tea, 3 lemons, 2 oranges. Rub and juice small pineapple, 1 pound sugar, 1 quart of ginger ale, 1 pound of fresh strawberries or raspberries, 1 block of ice.

Fruit punches are delicious if properly blended. The foundation is generally a lemonade with different varieties, but they all need a little doctoring. Tea and gingerale seem to give it the right kind of flavor.

Fudge: 1 cup cream or top milk, 3 cups sugar, 1 pinch cream tartar, 1 ounce chocolate.

Cook over quick fire, stirring until sugar dissolved. Then turn gas flame low and cook slowly. Do not stir after it boils in cold water remove from the stove and cool. Then add 1 teaspoon of vanilla and stir until creamy. Pour into greased pan and place in cold water in shallow pan to cool. Be sure your pan is water tight, cut in squares. (This will be soft and not a hard fudge.)

Fish Omelet: Separate the whites and yolks of five eggs. Beat the yolks add five tablespoons of milk, three tablespoons of fine cracker crumbs and 1-4 teaspoon of salt. Beat the whites stiff, fold into the yolks, pour into a large frying pan containing melted butter and lard in equal quantities. Cook slowly without stirring, until the lower half of the egg mixture has thickened, then place in the oven until the upper portion has set. Have ready one cup of chopped fish (cod middle after it has been cooked) place in 1 tablespoon of butter, two tablespoons of milk. When the omelet is served pour the fish over one half of the omelet. Turn the other half over the fish and serve onto a hot platter. Garnish with potato chips and parsley.

Delmonica Steak: 1 lb. beef steak chopped, 1 grated onion, 1 teaspoon salt, 1-4 teaspoon pepper, 2 tablespoons suet chopped.

Mix all ingredients well and shape into a large cake on a sheet of wax paper. Then put it on a greased heated broiler or frying pan and sear on both sides. This should take from four to five minutes for rare steaks, six to nine minutes for medium, 8 to 10 for well done. When the meat is well browned turn down the flame.

Spanish Pancakes: Beat 2 eggs very light, add to them 1 1-2 cups of milk, one tablespoon of butter, melted, 2 cups of flour and a little salt, sifted with the flour. Bake on a griddle like ordinary griddle cakes. If you wish several cakes to the pan. For either these are served hot with jelly. Sprinkle with powdered sugar.

Sweet Potato Pone: Mix in the order given, one pint of grated raw sweet potato, 1 cup sweet milk, 3 level tablespoons of butter, 2 tablespoons brown sugar. Mix 2 level teaspoons of baking powder with this and bake in buttered dish 45 minutes.

TO CLEAN ELASTIC CORSET

Dear Corner Friends: To clean an elastic corset spread the corset out on a table and rub well with bread crumbs. Then scatter fuller's earth over them, roll up and leave until next day. Brush them thoroughly and put in the sun to air. This is a good way to clean these, as washing takes away the elasticity.

Soon will be time to put away your porch furniture. Any painting or renovating should be done at this time and each piece should be well covered with canvas to protect them from dust.

When you are planning to use nuts in your cake, bread, or candy, shell them a day ahead of time. The air will take away that dry taste of the nut and bring out the oil moisture which makes nuts so delicious.

Did you ever try pushing small balls of cotton, wool right up into the ends ofthe glove fingers. Do this when the gloves are new. It prevents the finger nails rubbing against the leather fabric.

A velour hat you can clean with sulphuric ether or you can hold it over the steam of a boiling kettle of hot water rubbing it all the time with a soft piece of a rag. But if there are any grease marks they can be removed by the ether.

IN NORWICH FIFTY YEARS AGO

Fifty years ago this week the social event of the week in Norwich was the marriage of Charles D. Noyes and Miss Carrie Crane which was solemnized at the Central Baptist church. Mr. and Mrs. Noyes observed the 50th anniversary of their wedding Tuesday of this week at their home on Lincoln avenue. Interesting extracts taken from the files of The Norwich Bulletin of October, 1877, follow:

Monday, Oct. 8, 1877—A temperance meeting was held in Breed hall yesterday afternoon, which was designed as the inaugural of the temperance work for the year to come. Dr. Jewett was present and made some introductory remarks. The other speakers were the Rev. Mr. Montgomery, and the Rev. Mr. Hastings of Boston. A large audience was present.

Miller says that people are arranging for their fall and winter entertainments in the shape of dancing. He is now engaged for three evening classes to be held in Steiner's hall and will have a Saturday afternoon and evening class which commences the 20th. His band already have over 20 engagements for private schools which looks as though there will be lots of dancing the coming season.

The parade of the fire department of our city passed off in a most satisfactory manner Saturday and reflected credit on all concerned. The several companies were out in their best dress and happiest spirits. The streets were lined with spectators. Visitors came from New London and down from Willimantic. The procession was headed by E. M. Brewster as marshal of the day.

Tuesday, Oct. 9, 1877—It has come to light lately that Max Strakosch, the well known musical manager, was married very privately at Watch Hill on the 1st of August. His wife is the daughter of Wm. H. Nelison, a retired New York merchant.

Sixteen tramps were put to work yesterday morning, after they had been treated to breakfast at the expense of the city. The tramp gentry require very careful watching at the hands of the police, however, as some of them are as skillful at making as sudden a disappearance as a professional bounty jumper.

Mr. Mahoney, one of our local pedestrians, walked in Breed hall Saturday afternoon. Fifty miles in 10 hours was the feat he set himself to accomplish. He made the distance, according to the time kept, in nine hours, forty minutes.

Wednesday, Oct. 10, 1877—A daring theft was committed at the house of Dr. Bailey on East Main street, one afternoon last week, which resulted in the robbers securing a roll of bills worth $130. The supposed thief was a young man about 21 years of age.

The finely engraved silver trumpet presented to Capt. Nash by the members of Wauregan Engine Co., on the day of the parade, will be on exhibition at Hawes jewelry store this morning.

Mr. Wm. N. Andrews of this city, grand patriarch of the Odd Fellows of the state, will preside at the grand encampment to be held at Odd Fellows hall, New Haven next Tuesday.

Major T. C. Swan, assistant quartermaster general of the state, inspected the armory of Co. C, yesterday morning.

Thieves made a descent on Mr. Edwin N. Roath's hen roost in Preston, Monday night and captured 10 of the fowls.

Thursday, Oct. 11, 1877—One of the most charming social events of the year in Norwich was the wedding of Mr. George A. Bigelow of Worcester and Miss Dora L. Tucker of this city, in the Second church last evening. The ceremony was conducted by the Rev. Mr. Palmer and participated in by Dr. Dana. The ushers were Messrs Frank H. Smith and Oliver L. Johnson, Jr., of this city, Mr. Jones of New York and Mr. Stockwell of Worcester.

The trumpet presented to Asa Nash, Esq., was engraved by Summerville home talent. It is beautiful in finish.

The praying band which Mrs. Clark organized numbers about forty members and have been photographed in a body.

The water in the city reservoir has risen seven inches this month, besides furnishing the regular supply to the city.

Friday, Oct. 12, 1877—The pleasant event of yesterday was the marriage at the Central Baptist church of Mr. C. D. Noyes of the late firm of C. D. Noyes & Co., and Miss Carrie Crane, also of this city. The ceremony took place at noon and was witnessed by a large circle of warm friends and invited guests. The beautiful marriage rites conducted by the Rev. Mr. Davies, the floral decorations of the pulpit and the universally admired bridal attire made it a brilliant occasion, although the elements were chary of their smiles. Mr. George A. Davis and Mr. John Powelson acted as ushers. The bride and groom intend a ten days' tour in New York city and state when they will return for a visit of two days before leaving for Springfield, Mass.

Some of the merchants on Main street have their goods so low over the sidewalk that they expect a how from every tall person who passes.

Mr. John Irish of this city was one of the three representatives from this state of the First Connecticut Cavalry Regiment at the burial ceremonies of Gen. Custer at West Point Wednesday.

Saturday, Oct. 13, 1877—At a regular meeting of Palmyra Encampment, No. 2, I. O. O. F., held Thursday evening, J. B. Corey, P. C. P., and John W. Tripp, P. C. P., were chosen delegates to the grand encampment of the state to be held at New Haven next Tuesday.

The Central M. E. church has been making some alterations in their church edifice and has also purchased a new organ. The church will be opened tomorrow and the services will have some reference to the occasion.

The arched portion of the railroad tunnel just over the Laurel Hill bridge does not prove to be satisfactory to the railroad company and workmen are engaged in repairing it. The main imperfection seems to be that it is not watertight.

Daniel Wenzel, a Preston boy, was tossed about on the horns of an infuriated steer that was being driven to the slaughter house Thursday, but the injuries were slight.

STAFFORD SPRINGS

BODY OF ISES FRAKOUK COMES TO SURFACE OF LAKE

The body of Ises Frakouk was found about nine o'clock Wednesday morning, near the Pierson cottage, by Mr. Smith of Crystal Lake. July 4th, Ises Frakouk, accompanied by his sister was rowing on the lake when their boat capsized. The occupants of the cottages about the lake dragged the lake was dynamited but with no result. All hope of recovering the body was gone when it come to the surface of the water of its own accord. The body was in a badly decomposed state and unrecognizable. An uncle of Ises identified the body by a gold watch found on the person of the boy. The body was removed to local undertaking rooms under the direction of Edward A. Brace, medical examiner of Ellington. Funeral services were held Thursday morning.

At the annual meeting of the town school committee this week the following officers were elected: Chairman, Robert H. Fisk; secretary, Michael D. O'Connell; building committee, Charles H. Moore, Harold B. Pinney, Benjamin Phelps; fuel committee, Harold B. Pinney, Robert H. Fisk; transportation committee, Harold B. Pinney, Charles H. Moore, Benjamin Phelps; teachers' committee, Francis S. Brick, Robert H. Fisk, Miss Mary Smith; auditors, Robert H. Fisk, Michael D. O'Connell.

Although the gates at the Stafford fair remained open Thursday the races and vaudeville performances have been postponed to Friday because of the wet grounds.

Ellery M. Chamberlin, 60, of Staffordville, died at Norwich state hospital. He is survived by his wife and son, Arthur Chamberlin, both of Staffordville. The funeral was held at the Congregational church in Staffordville Wednesday afternoon at two o'clock, Rev. Edward Eells officiating. Burial was in Staffordville cemetery. Mr. Chamberlin has resided in Staffordville most of his life. For several years he carried the mail and ran a stage between Stafford Springs and Staffordville. For the past few years he conducted a cigar and confectionary store but was obliged to give it up a few months ago, on account of failing health.

Thomas W. Donlan, 71, of West Haven, formerly of Staffordville, died at Johnson Memorial hospital Monday morning after a brief illness. The body was taken to Great Barrington for burial. He was for some years superintendent of the Babyan mill at Staffordville.

Mrs. Frank Harris and son, Bradley, are spending a few days with relatives in town.

WESTERLY

CHARLES L. R. ROWLING DIES AT AN EARLY HOUR FRIDAY

(Special to The Bulletin)

WESTERLY, R. I., Oct. 14—Charles John R. Rowling, 65, well-known Westerly stone cutter, died about 4 a. m. today at his home, No. 6 Chestnut street. He had been ill for some time with consumption, and a short time ago pneumonia and pleurisy developed. He was born in Cornwall, England, and coming to America married Phoebe G. Couch, of Easton, Pa. Besides his wife he is survived by two daughters, Mrs. Thomas Henry Coles and Miss H. Emma Rowling, all of Westerly. He was a member of Grace Methodist church. He held membership in the Granite Cutters' union and in the I. O. O. F., Manchester Unity. A brother, Fred Rowing resides in Cornwall, England.

SIX BREAKS IN LEFT ARM—FRED GREENWOOD INJURED

(Special to The Bulletin)

WESTERLY, Oct. 14—Caught yesterday afternoon in a heavy roller at the plant of the Bradford Dyeing association at Bradford, Fred Greenwood of 44 Cross street, Westerly, had his left arm broken in six places before the machinery could be stopped and the injured man released. He was taken to the Margaret Edward Anderson hospital.

The Third District court, Judge Oliver H. Williams on the bench, did not hold a long session Friday morning for Westerly attorneys with district court cases continued were at West Kingston, so their cases were continued another week.

APPLE BLOSSOMS DECORATE PARSONAGE DINNER TABLE

Six relatives of Rev. and Mrs. H. A. Coolidge motored from Leominster, Mass., in the storm last Sunday to help their host and hostess celebrate their 27th wedding anniversary in the afternoon. The dinner table was decorated with lovely fresh apple blossoms which Mr. Coolidge had gathered in the morning. One of the apple trees in the parsonage orchard had a large branch covered with blooms. The hail, early in the season, destroyed the first blooms, so it bore no apples, but blossomed a second time.

The first frost of the season to affect the hill farms was that of Tuesday morning, Oct. 11. Only tender plants like tomato vines, dahlias, etc., were injured.

A meeting of the Parent-Teacher association, held in the Town hall Monday evening, had an attendance of about 50. Miss Agnes V. Kloman, the new school nurse was the speaker. Her address was interesting and instructive along lines of health. Light refreshments were served during the social period. Miss Kloman plans to call at the homes of the school children to become better acquainted with the parents.

Mr. and Mrs. F. Alexander Magoun, their children, Priscilla, Richard and Theodore, and a friend, all of Watertown, Mass., were at their Mashapaug cottage for the week end.

Mr. and Mrs. Joseph Atkinson of Boston were week end guests of Mr. and Mrs. H. G. Barber.

Miss Ina Hathaway, a student at Stafford high school, was at her home for the week end.

Mr. and Mrs. Holcomb R. Howard and son, Fairman Howard were week-end guests of Mr. and Mrs. G. Raymond Towne at their cottage at Black Point, on the Connecticut shore.

Two tracts of land have recently been purchased by the state for forestry uses. One of 35 acres was formerly owned by Webster Brothers of Monson, Mass., and one of 50 acres owned by Frank Morey of Westford.

Andrew Rizner and family of Middletown are spending this week with Mr. Rizner's mother, Mrs. Mary Rizner.

Mr. and Mrs. Frank Peck of South Lyme were guests last week at the Thayer homestead. Mrs. Thayer who has been ill with neuralgia is still confined to her bed and is quite weak.

Mrs. Raymond C. Barrows, her little daughter, Helen Louise, and her mother, Mrs. Ada C. Yeaw, are guests of friends in Brattleboro, Vt.

Mr. and Mrs. Harry Palmer were at their bungalow for the week end and entertained friends from Hartford. Mrs. Palmer remained for a few days. They have installed a motor for an electric ice-box and electric heater.

Peter Tries to Forget

Who seeks forgetfulness will find
The thing is ever on his mind.
— Peter Rabbit.

Peter Rabbit wasn't himself at all. No, sir, Peter Rabbit wasn't himself at all. He was becoming reckless. Peter always has been more or less careless, but now he was becoming reckless. He didn't seem to care what chances he took. He had more narrow escapes than he could keep count of. Time and again it looked as if Reddy Fox or Mrs. Reddy would have a Rabbit dinner. More than once it was just pure luck that they didn't have.

"I don't understand it," said Reddy to Mrs. Reddy. "Peter Rabbit isn't himself at all. I'm glad he isn't, but I don't understand it. Why, I all but caught him asleep today and he was some ways from the nearest bramble-tangle!"

"And he isn't taking any care of himself," added Mrs. Reddy. "He ought to be ashamed of himself to go about looking as he does. Do you know yesterday I saw him jump right out in front of Old Man Coyote, and Old Man Coyote so nearly caught him that I don't know now how Peter managed to escape."

It was true. Peter was reckless. He took chances such as he had never taken before. He didn't pay any attention to his personal appearance. When he got a burr in his coat he didn't take the trouble to bite it out. When he got all spattered with mud he didn't take the trouble to wash it off. He really didn't look well at all. Little Mrs. Peter certainly would have been ashamed of him if she could have seen him. And it was all because Peter was trying to forget.

What was it Peter was trying to forget? He was trying to forget little Mrs. Peter and the fine looking young Rabbit Tommy Tit said he had seen about. He was trying to forget the dear Old Briar-patch. He was trying to forget that little Mrs. Peter had told him when he left that he needn't come back, and he was making hard work of forgetting.

Now, it is a queer thing, but it is true, that the most difficult thing to forget is something you want to forget. If you don't want to forget a thing you can forget it just as easy as easy can be. If you want to forget a thing it will even creep into your dreams. So it was with Peter. The more he tried to forget the more he thought about little Mrs. Peter and about that fine looking young Rabbit. My, but Peter was in a bad temper those days! He certainly was in a bad temper. He actually went out and hunted up Old Jed Thumper, the old gray Rabbit, who had always lived in the Old Pasture, and quarreled with him for the sake of having a fight. Now wasn't that dreadful? But he did it, and he wasn't sorry afterward. All the time he was fighting he wished that Old Jed Thumper was that handsome young Rabbit. You see, not even in the middle of a fight could he forget that young Rabbit, whom he

"And he isn't taking any care of himself," added Mrs. Reddy.

had never seen, but whom he pictured as living in the dear Old Briar-patch. Tommy Tit hadn't said that that handsome young Rabbit was in the Briar-patch, but Peter felt sure he was.

"If I ever get hold of him I'll kill him," said Peter. "Yes, sir, I'll kill him."

Of course that was only talk on Peter's part, but it shows how he felt. He did all sorts of crazy things and it was all because he was trying to forget and couldn't.

PIMPLES CAUSED ERUPTIONS

On Body. Itched and Burned. Cuticura Healed.

"My trouble began with itchy pimples on my body. They were hard, large and red, and festered and scaled over. The pimples itched and burned and I scratched them, causing eruptions. My clothing aggravated the breaking out, and I lost my sleep on account of the irritation. The trouble lasted about two years.

"I used other remedies without success. I read an advertisement for Cuticura Soap and Ointment so purchased some, and after using two cakes of Soap and two boxes of Ointment I was 'healed.'" (Signed) Miss Gladys Jacques, 107 Carnation St., Pawtucket, R. I.

PERFORMANCE OF NEW JORDAN AIR LINE EIGHT THRILLS PUBLIC

Hair trigger acceleration, brilliant speed and hill climbing are astounding

Five to forty miles an hour in high gear in twelve and a half seconds

Top speed still undetermined as speedometer hits stop pin at eighty-two miles an hour

AEROPLANE characteristics have now been applied for the first time to an automobile motor, in the new Jordan Air Line Eight—marking a very definite turning point in all previous standards of motor car performance.

Results are truly amazing!

Without adding a pound of weight to the car, Jordan and Continental engineers, working with Stromberg aeroplane carburetion experts have increased horse power 33% and torque 21%.

The result, translated into performance and every day utility, represents the greatest single advance that has been made in fifteen years.

The car can be driven as fast as anyone but a race driver would dare to drive an automobile.

Hills that never before have been negotiated in high gear can now be conquered with ease.

Get-away in traffic is actually startling.

A specially constructed chassis, carefully balanced, and built of the finest materials carries the greatly increased power and speed without vibration, without side sway or "shimmy."

The duplex aerotype system of carburetion automatically adjusts itself to meet varying conditions of temperature and altitude, eliminating the necessity of changing carburetor adjustments during seasonal variations.

Bohnalite pistons and Lanchester torsion neutralizer give an instant and velvet smooth response to the slightest pressure on the accelerator.

The heaviest crankshaft Jordan has ever used, made of selected, double heat treated steel and machined all over is balanced to a hair line.

A new and patented steering gear of the hour glass worm type almost handles the car unaided.

Bodies by custom designers, are of the new high-waisted design, so popular abroad.

Long chrome vanadium springs covering over 80% of the wheel base and controlled by Houdaille hydraulic shock absorbers front and rear, give a soft wave-like riding sensation over the roughest roads.

Appointments in quiet good taste. Optional upholstery in broadcloth or mohair. A wide choice of striking new colors.

Hydraulic four wheel brakes—Air-Maze air cleaner—oil filter—gas filter—Tilt Ray headlights—combination ignition and wheel lock—sixty-five distinctive features in all, are combined in this new companion of the Little Custom Jordan.

There are four models—five passenger Sedan—five passenger Victoria—two passenger Playboy Coupe with collapsible top—two passenger Playboy Coupe with permanent top.

STOCK MARKET OPENED FAIRLY STRONG: PRICES DROPPED OFF SHARPLY AT CLOSE

NEW YORK, Oct. 14—(AP)—Confused price movements characterized today's stock market. The opening was fairly strong in view of the unexpectedly small decrease in Federal Reserve brokers' loans, but prices sold off rather sharply in the afternoon on the raising of the call money rate from 4 to 4 1-2 per cent. The closing which was irregular, was featured by aggressive bullish demonstrations in a few rails and specialties.

Banks called about $20,000,000 in loans in reflection of the government withdrawal of funds to meet fourth liberty loan interest payments, due tomorrow. This probably accounted for the stiffer call money rates, which are believed to be only temporary. Time money and commercial paper rates were not changed. Prompt oversubscription of several large bond offerings this week was accepted as an indication of easy credit conditions, despite the loss of gold through shipments abroad last month.

Foreign trade figures showed a favorable balance of $65,000,000 for September, although exports were substantially below those of the same month last year. A further slight increase in steel mill operations was reported, and there was a better demand for copper. Most of the public utility earnings reports published during the day, including American Telephone, made favorable comparison with the third quarter of last year, Western Union being one of the few to show a decline.

Heavy accumulation of Erie common, which advanced more than 3 points to within a fraction of the record high, and a substantial gain in Chesapeake and Ohio revived reports of an early decision in the Van Sweringen merger case. Good buying also was noted in Wabash common, although the day's gain was small. Other rails attracted little interest.

General Motors common was again turned over in large volume, but it closed unchanged at 128 7-8. U. S. Steel common touched 148 1-2 and then sold down to 146 3-8, closing just above that level for a net loss of 1 1-8 points. Only about 25 per cent of the total stock outstanding was in brokers' hands as of Sept. 30, as against nearly 30 per cent a year ago. Bethlehem opened a point higher, but was unable to maintain the initial gain. Colorado Fuel was bid up nearly 4 points to $3 3-4, and closed near the top.

Gains in some of the specialties ran as high as 10 points. About a score issues reached new high ground for the year, among them American Home Products, American Linseed preferred, Coty, International Paper, Radio Corporation, Madison Square Garden, Lambert, Cushman's Macy, May Department Stores, Rossia Insurance and Midland Steel Products preferred.

There were several weak spots scattered through the list. Pierce Arrow common and American Zinc preferred, sank to new 1927 low levels.

Commodity markets were mixed. Cotton sold down nearly $2 a bale on selling influenced by the slack mill demand. Wheat was moderately higher but corn sank to new low levels for the season. Coffee and sugar prices held fairly steady.

Another sharp break in Spanish pesetas, followed by a brisk recovery, and a further gain in Dutch Guilders to within 3 points of parity were the contrasting features of the foreign exchange market. Others rather showed little change.

MARKET WAS WEAK

New York

Stocks steady; Midland Steel Products preferred up 11 points.

Bonds quiet; $30,000,000 Rentenbank loan oversubscribed.

Foreign exchanges irregular; Dutch Guilders at new 1927 high.

Cotton easier; favorable weather.

Sugar lower; disappointing spot demand.

Coffee higher; firmer Brazilian market.

Chicago

Wheat firm; rains Canada.

Corn easy; larger country offerings.

PATROLMAN CLARENCE WELLS NAMED IN NURSE'S TRAGEDY AT NEW LONDON

(Special to The Bulletin)

NEW LONDON, Oct. 14.—The police continued their investigation today in an attempt to determine the physician or mid-wife of performing the illegal operation upon Miss Hannah S. Frederickson, former Lawrence-Memorial hospital nurse, who died from septic poisoning at the Rhode Island State hospital, Providence, last Monday night, but they were not rewarded by obtaining tangible clues. The police, however, believe that within a day or two, they will learn the name of the abortionist. The Providence police have been requested to assist the New London police for Miss Frederickson, according to Medical Examiner Griffin made a statement a short time before she died. The police are also continuing their delving into the facts of the girl's death involving a member of the New London police department. The patrolman accused was interviewed at police headquarters yesterday and he emphatically denies any intimacy whatever with the nurse. After the interview Sergeant Smith went to a house here where Miss Frederickson's sister is staying temporarily, but she was unable to provide additional facts even denying that she had knowledge of the condition of the nurse.

Late this afternoon Captain Charles A. Pinney issued an order which reveals that the officer under suspicion is Patrolman Clarence Wells. Captain Pinney decided not to permit Wells to perform further patrol duty until such time as he is given a chance to vindicate himself. Captain Pinney ordered that "Patrolman Clarence Wells is ordered suspended for conduct unbecoming an officer pending a hearing before the city manager." Wells was supposed to report for duty at 7 o'clock tonight but his suspension was ordered before that hour and a messenger was sent to his home with a notification to that effect. Patrolman Wells is one of the youngest officers on the force, having been appointed a regular patrolman about five years ago. He has always been considered competent and efficient and never before has he been suspended or reprimanded for any violation of the police rules and regulations.

The meat market of Frank Wyrond, corner of Colman and Bank streets, was burglarized last night and from the nature of the loot the thieves obtained, which was but little, it is believed that the burglary was done by boys residing in the neighborhood where the market is located. The plunder consists of six cartons of cigarettes, candy and $1 in pennies. Motorcycle Officer Clarence Martin was assigned to the case and he is on the trail of two boys suspected of having committed the break. Patrolman George Laboue discovered the robbery last midnight when he went to the rear of the store and found a window removed. The glass had been taken from the frame, the putty having been whitled away. Wyrond was notified of the burglary and went to the store for the purpose of determining his loss. He said that he closed the store at 8.30 so that the robbery was perpetrated between that hour and midnight.

Late this afternoon three boys were observed in the vicinity of Saybrook by Lieutenant Bushey in charge of the Centerbrook barracks of the state police. The boys were questioned and admitted having perpetrated a robbery here. The boys even admitted having broken into the Wyrod store. The New London police were notified and Sergeant Nelson Smith and Motorcycle Officer Clarence Martin drove to the Centerbrook barracks and brought the boys to police headquarters here. The boys were turned over to Probation Officer Richard W. Mansfield and they will be presented in the juvenile court within a few days. One boy is 12, another is 14 and the third is 16.

BULKELEY FIELD DONOR, F. W. MERCER GIVEN DINNER

(Special to The Bulletin)

NEW LONDON, Oct. 14.—An informal dinner was tendered Frederick M. Mercer at the Hotel Mohican tonight by the directors of Bulkeley School Athletic Field association, and the officers of the Bulkeley School association. This was to further honor Mr. Mercer for his generous act, several months ago, in purchasing the former Cannon Ball park and presenting the field to Bulkeley High school for all out-door sports. The dinner was served in one of the private dining rooms. The athletic field will be formally dedicated tomorrow afternoon. A street parade will precede the dedicatory exercises. The line will form at Bulkeley school at 1.30 and headed by three bands, the United States Coast Guard band, the 192nd Field Artillery band and a band from South Manchester, students of Bulkeley school, Williams Memorial Institute, and South Manchester High school, and United States Coast Guard cadets, will move through Huntington street, to State, to Bank and to the field. The participation of the students of Williams Memorial Institute and the United States Coast Guard academy cadets in the parade is simply complimentary. Arriving at the field the dedicatory exercises will begin with a flag raising. Former Principal Walter A. Towne of Bulkeley, will hoist Old Glory to the top of the tall pole. Thomas E. Troland, president of Bulkelay School Athletic field association, will deliver an address of formal acceptance of the field and Headmaster Homer K. Underwood of Bulkeley, will make the acknowledgement. The other speaker will be Mayor James A. May. After exercises Bulkeley's football eleven will play South Manchester High school eleven, the game to be the first athletic event on Mercer field.

ELK'S LIFE MEMBERSHIP HONOR FOR M. M. SCOTT

(Special to The Bulletin)

NEW LONDON, Oct. 14.—At the meeting of New London Lodge of Elks, last night in the Washington street lodge room, Past Exalted Ruler Malcolm M. Scott was presented a life membership in the organization. The presentation was made after Mr. Scott had concluded his report as a delegate to the national convention of the order. Past Exalted Ruler Joseph G. Harrigan made the presentation speech, referring to the able manner in which Mr. Scott administered the affairs of the lodge during the fiscal year. Mr. Scott responded by saying that he appreciated highly the gift and that he had been happy to serve the lodge.

Mrs. Wilfred Darby, of Groton; John Webster, 81 Golden street; Mrs. Mary Platt, Essex; John Burroughs, 28 Elliott avenue and Mrs. Carlos Allyn, Groton, patients at Lawrence-Memorial hospital, were discharged today.

Steamer Carisco, of the Thames River line, damaged the fender rack of the Thames river highway bridge yesterday, but the damage is not of consequence. The steamer was on its way from New York and this port to Norwich and in passing through the draw the tide carried the freighter against the fender racks, ripping away several of the planks. The only other damage was the disfiguration of the paint on the hull of the boat, but none of the plates were damaged.

Relatives and friends from this city and Norwich attended today the funeral of Mrs. Susanna McIninch at Westerly. The funeral was held at 9 o'clock at the Immaculate Conception church. The bearers were James Ledwidge, Herman Flood, James Roy, William Loiselle, Victor Benoise and Huntley Smith. Burial was in St. Michael's cemetery, Westerly.

The funeral of Sidney P. Anderson, of 71 Belden street, who was fatally injured at Stonington, Wednesday, was held this afternoon at 2 o'clock at the Shiloh Baptist church. The services were conducted by Rev. Sinclair Grimstead. The bearers were members of the Yargan club, an organization of which Mr. Anderson was a member. Burial was in Jordan cemetery.

Mrs. Nellie B. Mills, 84, wife of William W. Mills, died yesterday afternoon at her residence, 14 Maple avenue, after a long illness. Besides her husband, Mrs. Mills is survived by a daughter, Mrs. Frank H. Bailey and by two sons, Charles P. and William H. Mills. Mrs. Mills was born in Stonington, Jan. 3, 1843 but had resided in New London about 40 years. She was the daughter of the late Mr. and Mrs. Thomas J. Weeks. She was an active member of the Montauk Avenue Baptist church.

Victor Armezzina has sold the grocery business long conducted by him at 177 Main street to Peter Haddad.

Thomas Colbert, train caller at the Union station, residing in the Harris building apartments, is having a vacation of two weeks.

Robert Mather, 18 Carroll court, reported to the police this afternoon that he had lost his cornet while passing through Main or State street.

Alex Robinson, colored, was arrested this afternoon by Sergeant James McGrath, New York, New Haven & Hartford special agent, charged with vagrancy and trespassing upon railroad property. He is a stranger in New London and will be presented in the police court tomorrow.

The teachers of the public schools of New London are having a difficult time getting the board of school visitors to take action on their request for an increase of $400 in salary. At a meeting of the board yesterday when the matter was brought up, a heated discussion of the subject resulted, it finally being disposed of temporarily by deferring action until the next meeting. The teachers requested an increase in salary last April, but nothing was ever done, except to discuss the request. The request was brought up last night when two letters were read from the teachers requesting that something toward definite action be taken. Mrs. Nellie Kelley and Mrs. Rosemary O. Anderson were strongly in favor of granting the increase. Philip Z. Hankey said that he believed the teachers were not overpaid, but he did not want to raise the salaries too high, so that the teachers would be paid over the amount teachers receive in other cities in the state of the approximate size as New London. Nathan Belcher stated that the school budget had already been prepared and could not be changed. He said that there was no provision for the increase in the budget. Mrs. Anderson declared that the request of the teachers was in advance of the preparing of the budget, to which P. LeRoy Harwood responded that the board could not change the budget. Mrs. Anderson then accused Mr. Harwood of "hedging." A heated debate of the matter followed, after which the board went into session as a committee. When the discussion was concluded it was voted to defer action until the next meeting. Dr. J. M. Ganey was the only absentee. The request of the teachers provides for an annual increase of $50 for eight years. The board also elected officers, P. LeRoy Harwood being re-elected president and Frederick W. Edgerton reelected secretary.

Miss Alleen Donovan, of Montville, was tendered a miscellaneous shower last night at the residence of Miss Theresa St. Germain, on Bank street. The bride-elect received many handsome and useful gifts. Others in attendance were Misses Florence Clarke, Fannis Socol, and Clarinda and Dorothy St. Germain, Mrs. Paul Cavanaugh, Mrs. George Hastings, Mrs. Ernest Watrous, Mrs. Harry Clark and Mrs. J. A. St. Germain.

Capt. and Mrs. James P. Smith, of Spring street, are in Beverly, Mass., tonight and attended the wedding of Frank Davey, son of Mr. and Mrs. Edward Davey, Spring street, this city, and Miss Eva Cook, of Beverely, formerly of New London.

The annual observance of Navy day will be Oct. 27th, and the general organization for the celebration has been completed and the participation of the navy and war departments, the United States Coast Guard and all other governmental agencies is already assured. The exact program that will be followed by navy, coast guard and troops at the several forts in the New London Artillery district has not been decided, but will be within a few days. The celebration will be open to the public and coast guard and submarine boats will convey New Londoners to the location of the exercises planned.

The hearing on the petition of Henry H. deBeaulieu, 409 Williams street, to erect a gasoline filling station, corner of Ocean avenue and School street, was held this afternoon before George H. Bradford, of Montville, head of the state gasoline tax and permit division, at the office of the county commissioners at the court house and was attended by a score of residents, most of whom were opposed to the granting of the permit. After listening to the arguments of 15 residents against the petition being granted, Inspector Bradford reserved decision. The opponents of the petition included Mayor James A. May and Councilor Edward L. Streeter, Jr., Guy V. Putnam and Robert Thayer. Mayor May and Councilor Streeter contended that the existence of the filling station where its location is sought would create a traffic hazard, stating that a blind corner would exist there by the erection of such a building as is proposed and that great danger would exist because the vast amount of traffic on Ocean avenue, one of the principal thoroughfares leading from the center of the city to Ocean Beach. Frank L. McGuire, counsel for the applicant, said that the granting of the petition would result in a building being erected that would beautify the corner and would prove beneficial to traffic.

Sister Mary Bernadette, who passed to her reward at St. Mary's Home, West Hartford, last week Thursday, had served forty years in religion. A native of Norwalk, Johanna Lane entered the Sisters of Mercy at St. Elizabeth's Convent, Middletown, February 15, 1885. The parochial schools of the diocese which she served longest as a teacher are St. Mary's school, Greenwich; St. Mary's, New London; St. John's, Middletown, and St. Mary's, Portland. It was while stationed in Portland that she was stricken with the malady which caused her death.

The convention sessions will continue three days and will be devoted to the discussion of subjects of general public interest in the fields of education, social action, legislation and immigration.

ANNOUNCEMENTS

Strand Theater

Last showing today and tonight of Van and Wartman's, Patent Leather Girls. A special Punch and Judy show for the children at today's matinee, also Bigger Than Barnums, a regular circus picture.

Coming Sunday, William S. Hart in his greatest western picture Tumbleweeds, also Red Grange, the famous football star in his latest picture, One Minute to Play. Don't fail to see this wonderful double feature show Sunday night, Oct. 16th.

Broadway Theater

That motion picture producers know no geographical barriers is proven this week on the screen of the Broadway theater where Richard Dix in "Shanghai Bound" will be shown for the last times today. The locale is China, and the Yangtse river, where the action takes place, is realistic enough to please the most captious critic.

Dix has a great vehicle in "Shanghai Bound." This ace of Paramount stars has increased his popularity immensely recently with such splendid pictures as "The Quarterback," "Knockout Reilly" and "Man Power" but in "Shanghai Bound" he even betters them. The unusual background, stirring action and timeliness of theme are sufficient reasons why this is a picture not to be missed.

"Ben-Hur," with its magnificent chariot race pictured in a death-defying contest on a vast circus arena—the knightly Ramon Novarro and the wicked Francis X. Bushman as the opposing heroes—comes into the Broadway theater on Sunday for a 4 days engagement.

Theatergoers greatly enjoyed the stage "Ben-Hur" and vividly remember Bill Farnom, Bill Hart, Emmett Corrigan, Mary Shaw and others of the old casts. It was the most popular stage spectacle ever produced, touring America for 22 seasons. Metro-Goldwyn-Mayer, in arrangement with A. L. Erlanger, Charles B. Dillingham and Florenz Ziegfeld, Jr., have made a new and greater "Ben-Hur" in the newer art of the motion picture that out-tops the former achievement even as the wizard-like powers of the twentieth century surpass the inventions of our forefathers.

You see 48 horses—42 teams—start abreast in their mad dash over the seven laps of the Antioch race course, and you cannot forbear a cheer as Ben-Hur wrecks Messala and forges to the front! Roman and pirate navies contend in realistic death-grapples on the Mediterranean. The towers and turrets of Zion rise anew. From the exquisite Madonna to The Last Supper and the procession of palms, the masterpiece of art are re-enacted, often in color.

Breed Theater

The comic side of the World war, as it appears in many recent war mirthpieces, reaches its hilarious climax in John McCormick's production, Lost at the Front, which co-stars George Sidney and Charlie Murray under the First National pictures' banner.

Lost at the Front, which was produced by Frank Griffin, is to be the attraction at the Breed theater for four days beginning tomorrow evening. It is an entirely new type of World war comedy, and it deals with a new locale; the Russo-German front. Among its unusual features is the appearance of the famous Russian woman soldiery, the "Battalion of Death," which figures in some of the most fun-provoking scenes.

Del Lord, ace of the two-reel comedy directors, megaphones the picture, and Natalie Kingston, Wampas Baby Star for 1927, appears as leading lady in a most interesting role, that of Olga, a Russian sculptress in one of New York's downtown artist's studios. Among other interesting personalities in the cast are John Kolb and Max Asher.

Lost at the Front is a riot of hilarious comedy of every kind from slapstick to comedy-drama, throughout all its rapid sequences. Its great mirth masters, George Sidney and Charlie Murray, with Director Del Lord, who won a $3,000 diamond-studded belt as the greatest comedy director, were assisted throughout by two famous comedy constructors, Gene Towne and Clarence Hennecke.

The result is the fun masterpiece of the year.

Palace Theater

Today for the last times the Palace offers an unusually great show of five acts of vaudeville and the supreme feature attraction of the year, Thomas Meighan in "We're All Gamblers" a story of a kid foundling brought up by a poor woman, who afterwards reaps her reward through the efforts of a faithful adopted son. A real story and well received by enthusiastic audiences ever since the showing of this masterpiece which started Thursday afternoon.

For Sunday evening only two big feature pictures will be shown. Marie Prevost in "Man Bait" is a story of a little shopgirl who has learned the ways of the world through bitter experience. She is kidnapped by the harum-scarum son of a millionaire member of New York aristocracy. A real romance develops between the poor girl and the scion of wealth. The story is original and surprising, developing a thrilling climax. The added attraction is Rex Lease in "The Cancelled Debt" a tale of a motorcycle cop who through the arrest of a young girl speeder wins for himself a sweetheart and wife. Action galore and plenty of enjoyment.

Commencing Monday for three days another banner five act bill of supreme vaudeville is headlining Morgan and Ross Revue" an eight people offering, band songs and dances. The feature screen attraction, Marion Nixon and Hobart Bosworth in "The Chinese Parrot" is a thrilling melodrama of the Orient.

No book has ever equalled the Bible in sale records.

Notice to Architects

In conformity with the provisions of Section 64 of the General Statutes, Revision of 1918, "An Act Regulating the Employment of Architects on Public Buildings," architects are hereby invited to submit competitive plans for **Buildings to be erected at Mansfield State Training School and Hospital at Mansfield Depot, Connecticut.**

General Requirements:

Item 1. A Dormitory for 100 boys. Two stories and basement. Dormitories, day rooms, twelve single rooms 10x12, office, lavatories, bathrooms, clothes rooms, broom closets. Floors, tile over cement. This building to be heated from central heating plant.

Item 2. A Pavilion for contagious cases. Foundation is already in place. This building is to be one story with its own heating plant. Half glass partitions arranged with a bath and toilet between each room, and to accommodate twenty patients. Floors, tile.

Costs, including architect's fees, not to exceed as follows: Item 1, $100,000; Item 2, $24,000.

For further particulars address Dr. Charles T. LaMoure, superintendent, Mansfield Depot, Connecticut.

The architect of the plans selected by the committee in charge will be employed to prepare the working drawings and specifications and to superintend the construction of the buildings. For his compensation he will receive the commission authorized by the American Institute of Architects. No compensation will be paid for plans not finally accepted.

An estimate of cost from some reliable contractor will be required to be submitted with each plan. All plans must be signed by the architect and deposited with the Comptroller of the State at his office in the Capitol, City of Hartford not later than November 21, 1927, at 12 o'clock noon.

The committee in charge, in accordance with law, will give a public hearing on said plans in Room 8, State Capitol, on Monday, November 28, at 11 o'lock a. m.

The right is reserved to reject any or all bids.

Dated at Hartford, Connecticut, October 13, 1927.

FREDERICK M. SALMON,
Comptroller

AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 14th day of October, A. D. 1927.

Present, NELSON J. AYLING, Judge.

Estate of Thomas P. Johnson, late of Norwich, in said District, deceased. The administrator exhibited his administration account with said estate to the Court for allowance; it is therefore

Ordered, That the 20th day of October, A. D. 1927, at 10 o'clock in the forenoon, at the Probate Court Room in the City of Norwich, in said District, be, and the same is, appointed for hearing the same, and the said Administrator is directed to give notice thereof by publishing this order once in some newspaper having a circulation in said District at least three days prior to the date of said hearing, and make return to the Court.

NELSON J. AYLING, Judge

The above and foregoing is a true copy of record.

Attest, HELEN M. DRESCHER, Clerk

AT A COURT OF PROBATE HELD at Norwich, within and for the District of Norwich, on the 14th day of October, A. D. 1927.

Estate of John H. Wilson, late of Preston, in said District, deceased.

Ordered, That the Administratrix cite the creditors of said deceased to bring in their claims against said estate within six months from this date, by posting a notice to that effect, together with a copy of this order on the sign-post nearest to the place where said deceased last dwelt, and in the same town, and by publishing the same once in a newspaper having a circulation in said district, and make return to this Court.

NELSON J. AYLING, Judge.

The above and foregoing is a true copy of record.

Attest, HELEN M. DRESCHER, Clerk.

NOTICE

All creditors of said deceased are hereby notified to present their claims against said estate to the undersigned at R. F. D. No. Norwich, Conn., within the time limited in the above and foregoing order.

E. JENNIE WILSON,
Administratrix

GREENEVILLE

Sunday will be monthly holy communion Sunday for all men of St. Mary's parish. They will receive the sacraments in a body at the 7:30 mass.

Many local young people attended a dance in the Plainfield Community house Friday evening.

Patrick Bradley of Central avenue is spending a few days at the home of his sister, Mrs. Thomas Gannon of New London.

The St. Andrew's parish social was held Friday evening in the guild room with a large number of the parishioners and their friends attending, all being welcomed by the pastor, Rev. Mr. Jones. Musical selections were rendered by Art Fitch's Roamers, being received by the audience in a pleasing manner.

The specialties were violin, banjo and piano solos. The second act winning much applause was the act numbered Community Choruses put on the screen under the direction of Howard Adams with Miss Ruth Fitch accompanying on the piano. Mr. Adams had witty parodies on popular songs concerning some of the church members, and flashed the chorus on the screen with a moving picture machine.

The third act comprised solos capably rendered by Mr. Lockhart, who sang Love Sends a Gift of Roses and for his encore, Lassies O' Mine.

While preparing the stage for the next act the orchestra entertained the audience by rendering a few selections. Mr. Banfield, the well known slight-of-hand magician, held his audience spell bound with his difficult tricks, which he very cleverly executed.

The rector of the parish, Rev. Jones, spoke of the many available attractions in the way of social recreation supplied by secular agencies and which would be thought to be sufficient. Yet, however excellent, they could not quite give the fellowship which social functions of this nature supplies. He trusted that this event would only be a pleasant forerunner of many such, during the coming winter. He urged members of the parish to be ready to respond to any call made upon their time, energy or talents for the success of the future programmes. He also said that he had an announcement to make that at the last meeting of the Women's guild it was voted to have a harvest supper.

After the short talk by Rev. Jones refreshments were served by men. After the refreshments were served music was furnished by the orchestra when old and new dances were enjoyed.

PRIZES AWARDED AT PRETTY COSTUME PARTY

The Girls' Friendly society of Christ Episcopal church held a delightful costume party in the parish rooms on Friday night, Mrs. James Southhouse, Mrs. Oza Williams, Mrs. C. M. Budlong and Mrs. Lawrence Sylvia being the reception committee. The judges were Albert Reynolds, Stanley Pierce and Robert Moody.

Prizes were awarded for the prettiest costume and for the most original, Miss Gertrude Hathaway and Mrs. Elsie Berberick winning the prizes. Over 125 attended and the event proved to be a very decided success. Miss Helena Crandall gave two solo dances to add to the evening's enjoyment.

J. N. Lapointe Co., New London, employer, and Ateo Camillucci, New London, employer, emery in left eye, July 11, at rate of $15.35.

Will Attend Officers' School

An officers' school will be held this (Saturday) afternoon at 4:30 in New Haven at Fitzsimmons' cafe, which will be for review of a two day problem. Those attending from this city will be Capt. Charles Colt, Lts. Meredict Lee and Harry House of Battery B, Capt. N. C. Pierce, Lts. Wilbur and E. W Jewett of Headquarters battery, Capt. W. R. Denison and Lt. Jonathan Johnson of Headquarters staff.

WALDEN DIES WITH BROKEN NECK: DRIVER OF MACHINE IS UNDER BONDS

Clarence Arthur Walden, 24, of No. 219 West Main street, died late Friday afternoon at the W. W. Backus hospital from a broken neck received when he was hit by a machine on Norwich avenue, near the Lisbon bridge, Wednesday afternoon. The machine was driven by Peter Lappie of Fitchville.

It was late Wednesday afternoon that Dr. Clarence G. Thompson, returning from a professional call, found Walden in the road and had him removed to the hospital. Examination there showed that he had a broken neck and he was immediately placed in a plaster cast. He failed to rally and his death occurred late Friday afternoon. At the time Dr. Thompson found him in the road, Walden was partly conscious and was able to tell the doctor that he had been hit by a machine. Mr. Lappie who was nearby informed the physician that his machine had hit Walden. Lappie later made a report of the accident at police headquarters.

Lappie, driver of the machine which struck Walden, was arrested early Friday evening by State Policeman Johnson, and later released on bonds of $2,500 for his appearance in the city court his (Saturday) morning on the technical charge of manslaughter.

EXTENSION OF TIME GRANTED TO FILE CLAIM

An application of Joseph M. Oliver & Sons and Nick Stonaton for extension of time to file claims in the case of Joseph Schwartz against the P. Schwartz Co., was granted by Judge Allyn L. Brown at Friday's short calendar session of the superior court in New London. The claims must be filed by October 18. The semi-annual report of Receiver P. LeRoy Harwood was approved.

A default was entered against Joseph Mondelci in the case of Conti against John M. Malon, Jr., and Mondelci. The default was entered for failure to plead. The case is the result of an automobile accident.

Following lengthy examination of witnesses, the motion for custody of child made by the defendant in the case of Elizabeth B. Ethier against Lionel R. Ethier, both of Norwich, was denied by Judge Brown.

The following motions were continued:

Pashkofsky against Sukhovirsky and others; (1)approval of sale; (2) approval of deed; (3) allowance to committee and appraisers; (4) supplemental judgment.

Card, administratrix, and others against town of Stonington; motion to expunge.

Nazuruk and others, against Krwosnik, and others; (1) disclosure of defense; (2) if no defense, judgment of foreclosure and limitation of time.

Silvia against Burrows; appeal from probate; motion for non-suit.

The following motions went off the list:

Melvin against Tillotson, and wife; judgment.

O'Donnel, Jr., against borough of Groton; motion for default.

Elizabeth B. Ethier against Lionel R. Ethier; hearing.

Fox against Shahan; motion for default.

CENTRAL BAPTIST PEOPLE WILL ATTEND CONVENTION

Three of the services of the Connecticut Baptist convention at the Central Baptist church in Hartford next week are to be attended by good sized delegations from the Central Baptist church of this city.

A number of the women of the church are to attend the women's banquet held at 5:30 Tuesday afternoon in the church and twelve automobile loads are expected to go from here to attend the laymen's banquet which will be held at 6 o'clock Tuesday evening at the Hotel Bond.

On Wednesday, the final day of the convention, four or five automobile loads will go from the church to attend the young people's banquet.

AUTOMOBILE ON FIRE FROM SHORT CIRCUIT

At 2:25 o'clock Friday afternoon the fire department responded to a telephone call for an automobile fire at the corner of Church and Court streets. The Chevrolet coach owned by Mrs. Carrie Mulcahy of Quaker Hill, caught fire from a short circuit. The blaze was quickly extinguished, the only damage being scorched paint work and burned wires.

Will Continue Series on Prophets

At the Central Baptist church on Sunday morning one of the most virile characters in the Old Testament will be portrayed when Dr. David A. Pitt, the pastor, takes as his theme "Amos, the Herdsman of Tekoa." This is the fourth in Dr. Pitt's series on the prophets.

In the evening there will be a great union service in Trinity Methodist church, and the Central Baptist church is one of the sixteen Protestant churches which are uniting in this service, which will be held at seven-thirty. The program will be entirely in charge of the girls from the various churches. Special music has been prepared by girls of several churches and three girls will speak on the theme "The Challenge of Friendships." Dorothy Packer speaking on friendships in the home, Evelyn Wheeler on those in the community, and Olive Rathbun on the challenge of friendships in the world of our day. The meeting will open with a processional, led by the Methodist girls in choir costume. All girls between twelve and twenty-one from the sixteen Protestant churches are to meet at seven-fifteen in the lower room at the Methodist church. This girls' rally is under the auspices of the Council of Girls' Workers.

It is a great compliment to a Norwich writer, Gertrude Bell Browne (Mrs. W. Tyler Browne), that already two towns of Connecticut, New London and Simsbury have adopted her Indian story, "Hot Suns and the Great Whiteness" for history reading in the public schools.

BAPTISTS OF STATE TO MEET IN HARTFORD

The annual session of the Connecticut Baptist convention and affiliated societies will be held at the Central Baptist church in Hartford, October 17 to 19. Rev. David A. Pitt, D. D., of this city will preside at the convention sessions. At 11 a. m. Monday, October 17, there will be a special session for meditation and prayer with Rev. P. F. Wolfenden of Bristol presiding and Rev. Samuel Macaulay Lindsay, D. D., of Brookline, Mass., as the speaker. At 2 p. m. there will be a ministers' meeting with essays by Rev. John W. Brush of New Haven and Rev. C. J. Armstrong of Danielson. At the same hour the ministers' wives will hold a session with Mrs. Ivan H. Benedict of Hartford presiding. At 7:30 p. m. will be the 108th annual meeting of the Connecticut Baptist Education society with Rev. Burtt N. Timble of Meriden presiding and an address by President Everett Carleton Herrick of Newton Theological institution.

The opening convention session will be 9:30 a. m. on Tuesday, October 18, with Dr. Pitt in the chair. There will be reports and election of officers and the annual sermon will be preached by Rev. Frank B. Haggard of Hartford. At the afternoon session will be addresses by Miss Gertrude Teele of Burma, Rev. W. H. Bowler, D. D., of New York, Rev. Arthur Ventura of Waterbury, and Rev. Arthur W. Warren of Torrington. At 5:30 p. m. will be banquets for the men and women, the former at the Central Baptist church and the latter at the Hotel Bond where Dr. Bowler and W. C. Coleman of Kansas, president of the Northern Baptist convention will speak. At 8:15 p. m. there will be addresses by Rev. Albert W. Beaven of Rochester, N. Y., and Rev. M. Joseph Twomey, D. D., of Newark, N. J., formerly of this city.

At 10 a. m. on Wednesday, October 19, there will be reports of committees and addresses by Miss Mary L. Howard of Hartford, Rev. E. C. Condict of Burma and President Coleman. In the afternoon there will be addresses by Mrs. Sophia J. Tomlinson of Philadelphia, Rev. Isaac Higgenbotham of Boston and Rev. Albert H. Gage, D. D., of Scranton, Pa. The young people's banquet will be held at 6:30 p. m. with an address in the evening by Rev. Charles H. Heimsath of Bridgeport on "Youth Has Its Say."

There are 155 Baptist churches in the state with a resident membership of 21,365. These churches raised for benevolences the past year $176,922.11, of which $31,855.80 was spent in Connecticut.

INCENSE IN BASKET STARTED MAIN ST. FIRE

Flames shooting from a window on the third floor of the building at No. 248 Main street, Franklin square, caused Officer Hugh McAvoy to turn in an alarm from box 23 a few minutes before 10 o'clock Friday night. Prompt discovery of the fire and a fast response by the fire department prevented what might have been a serious blaze in the three story building. Two water lines were quickly laid by the firemen but their use was not required as the flames were quickly extinguished by a few gallons of chemical. The recall was sounded a few minutes after the box had been pulled.

The fire was in an unoccupied room in the rooming house conducted by Mrs. A. L. Willett. Incense which had been burned in the room and which was thought to have been extinguished was thrown into a metal waste basket by Miss Isabel Fanning, housemaid. Waste paper in the basket became ignited and in turn set fire to the curtains on one of the windows in the room. The curtains were destroyed, the woodwork about the window was somewhat scorched and a nearby commode was somewhat damaged. The building is owned by Emil Weite.

The fire was discovered just in time to prevent a serious blaze as given a few minutes more it would probably have spread to such proportions as to endanger the entire building. Few of the several hundred people who quickly gathered on the square knew just what the fire was as there was no sign of flames or smoke a minute or two after the firemen arrived on the scene.

GRANTS DIVORCE TO PLAINTIFF IN LEDYARD

Judge Allyn L. Brown of the superior court who last week heard the divorce suit of Edwin H. Avery of Ledyard against Bertha Lewis Avery of Stonington handed down judgment Friday granting divorce on the ground of desertion. The couple was married March 10, 1900 and the suit was brought on the ground of desertion since May 5, 1923. There is a son aged 19 and a daughter aged 12, but no decree is made as to custody.

TRANSFERRED FROM SUPERIOR TO COMMON PLEAS COURT

Motion to transfer from the superior court to the common pleas court the case of Mary Cherkafska of Astoria, N. Y., against A. Dembar and B. Dembar of Colchester has just been granted by Judge Allyn L. Brown of the superior court. Damages of $5,000 are sought.

The plaintiff who is a widow and was employed as a maid in a hotel in Colchester owned and operated by B. Dembar charges that she was wrongfully discharged on July 24, 1927, and has never been paid for her services and that furthermore that on July 11 and July 27 the defendant, B. Dembar, assaulted her by taking hold of her person and making improper advances and tried to get into her room at night.

In two other counts in the complaint it is charged that on July 24 the defendant, A. Dembar, while standing near the Elmwood house, Colchester, grabbed her by the arms with such force as to bruise her arms from shoulder to wrist, and that B. Dembar accused her of theft of a sweater and had her presented and fined $14 in the justice's court in Colchester.

Mrs. Cherkafska alleges that this charge was false and that because of her ignorance of the English language she was not able to make a proper defense, and ignorant of her rights under the law was not represented by counsel.

COMING HERE FOR EAGLES' CLASS INITIATION

State Vice President Richard Dempsey of Hartford, accompanied by a large delegation from Charter Oak aerie, will be here on his official visitation to Norwich aerie when it has a class initiation this (Saturday) night. Final arrangements were made by the committee at a meeting Friday night.

Friday, Oct. 21 short calendar, bar meeting and assignment of cases. Alice Norma Susi vs. John Susi.

Tuesday, Oct. 25. (Special): Totman vs. Baldelli, alias. ——.

RIBS FRACTURED WHEN RUN OVER BY TRUCK

Julius Wolfrom, 65, of No. 275 Main street, is in a critical condition at the W. W. Backus hospital, suffering from broken ribs and other injuries. He was hit Friday morning about 7 o'clock on Market street by a truck owned by the Norwich Tallow Co., and driven by Charles O'Neil of Norwich. It is understood that the truck was at the James M. Young store collecting tallow and was backing around when Mr. Wolfrom stepped off the curb, was hit, knocked down and run over.

The injured man was taken to Dr W. T. Driscoll's home on Broadway and from there to the hospital. X-ray pictures show that all but two of his ribs are broken.

PAYS FINE FOR DRIVING WHILE UNDER INFLUENCE

Found guilty of driving while under the influence of liquor Delifa St. Johns of Westerly, R. I., was fined $200 and costs in the city court Friday morning. Judge Libby remitted $50 of the fine. Walter H. Marshal, painting contractor, who is St. Johns' employer, was fined $5 and costs for intoxication. Both were arrested in Taftville Thursday night by Constable Louis A. Paquette after their machine had run up on the sidewalk on Hunter's avenue about 11.30 o'clock.

St. John denied he was intoxicated, claiming all he had was two bottles of homebrew and a glass of wine while visiting in Jewett City. Several witnesses testified that the operator was under the influence.

B'Nai Brith Auxiliary Held Meeting

Rose of New England auxiliary, No. 40, I. O. B. B. held its regular business meeting Thursday evening with the president, Mrs. Alex Pasnik presiding. There was a large attendance and during the session plans were discussed for the coming social activities of the lodge. A supper and entertainment will be the opening event of the season. Arrangements have been completed for a series of card parties. The Bible class session for the children will be continued as in the past. After numerous suggestions had been made for the good and welfare of the auxiliary the meeting closed in usual form.

INCIDENTS IN SOCIETY

Dr. and Mrs. William W. Leonard will motor to Norton, Mass. for a week end visit to their daughter, Miss Beatrice Leonard, a student at Wheaton college.

Lieut-Commander John A. Monroe and Mrs. Monroe have returned to town, after a number of weeks spent at Sherbrooke, Canada.

When the Tuesday Afternon auction bridge club was entertained this week by Mrs. E. Allen Bidwell, of Bliss Place the prize was won by Mrs. Harry E. Higgins.

Mrs. James Lewis Smith of Broad street has returned from Brooklyn, N. Y., where for three weeks she has been visiting her niece, Mrs. Ella R Lace.

This (Saturday) afternoon, the members of Gen. Ebenezer Huntington society, Children of the American Revolution are to be taken on a motor trip to Brooklyn, Conn. to the places made historic by Gen. Israel Putnam. The pilgrimage is in charge of Mrs. Elisha E. Rogers, assisted by Mrs. Charles L. Stewart and Mrs. Roy D. Judd.

Miss Elizabeth E. Johnson, daughter of Mr. and Mrs. Henry D. Johnson, of 21 Lincoln avenue, a sophomore at Wheaton college, Norton, Mass., is a member of the cast of "Rococo" an English comedy. This is one of three one-act plays to be given this (Saturday) evening at the college, in observance of Founder's day.

Visited Old Homestead.

Mr. and Mrs. Walter A. Rich of Putnam and Mrs. Charles Saunders of Mobile, Alabama, were week end visitors with Mr. and Mrs. Albert D. Crary of Mowrey avenue. On Sunday the party visited the old homestead of Mrs. Saunders' grandparents on Swanton Hill, also the cemetery in Ashwillet, where Mrs. Rich was much interested in looking up the geneology of her Revolutionary ancestors. Later the party had dinner at the home of Mr. and Mrs. Herbert Vincent of North Stonington.

NORWICH TOWN

Alterations are in progress at the home of Mr. and Mrs. Allen Kinney, 12 Town street. The roof is being built up on both sides high enough to make a large, airy flat of six rooms. When completed, there will be all modern conveniences, several large windows for sun and light, which, with new interior finish and equipment will make attractive living quarters for Mr. and Mrs. Kinney, who eventually will reside there.

The lower apartment in this house was formerly their home until about eight years ago, when they moved to Providence. Mr. and Mrs. Kinney moved their household goods back to Norwich Town several weeks ago. At present, until their new quarters are completed, the work being done by Mr. Kinney and others, they are staying at the home of Mrs. Kinney's brother-in-law and sister, Mr. and Mrs. David M. Dean, who reside next door.

A new section of iron fencing, 12 to 15 feet in length, was placed on Town street, Friday, under the supervision of the town officials. This was to replace that torn down the day previous, when the Ford coupe of Joseph Burns, 34 Town street, left the highway after being struck by another car, and plunged through the fence, dropping into the brook, a distance of several feet.

Mrs. John F. Burns of Peck's corner, received many telephone calls on Friday, from friends who thought it was her son, John A. Burns. The young man also received inquiries at the place of business where he is employed. The fact that the report of the accident mentioned John Burns was somewhat confusing. It was Joseph Burns who was in the accident. The coupe was removed from its watery resting place by a wrecker Thursday evening.

Although the day was so stormy on Thursday there was an attendance of 12 at the home of Mrs. Ernest Washington, when the October meeting of the Norwich Town club of the Home and Farm Bureau was held. Those attending, however, did not arrive until noon, so nothing was accomplished in the morning. Under the instructions of Mrs. E. H. J. Robynson, of Gales Ferry, the demonstrator sent out from Connecticut Agricultural college, Storrs, the afternoon was a busy one for the women present, who profited by the many helpful Christmas suggestions, and cut numerous patterns to take home for future work, from those displayed by the demonstrator.

Mrs. Robynson was the dinner guest of the hostess. The others carrying lunches were served dessert of gingerbread with whipped cream, by Mrs. Washington. The next meeting of the Norwich Town club, Mrs. William Weaver, president, is to be held at the home of Miss Florence Browning on Plain Hill road.

COOLIDGE STUDYING THE AGRICULTURAL SITUATION

The President is Preparing a Sound Relief Policy to Recommend to the Next Congress—Probably Will Propose a Reduction of the Revolving Fund From $300,000,000 Perhaps $250,000,000—Numerous Farm Organizations Are Canvassing the Whole Situation.

WASHINGTON, Oct. 16.—(AP)—After a summer of silence, President Coolidge in disclosing to his friends that he is giving the question of a sound agricultural relief policy his close attention in anticipation of recommendations to be made to the next congress.

There are as yet no indications regarding the president's views, except a belief held by those who have discussed the problem with him that he is as determinedly opposed as ever to the equalization fee principle of the McNary-Haugen bill which he vetoed last winter.

With spokesmen of some farm organizations still insisting that this provision again will be demanded next winter, it appears that the way to a compromise has not yet been found, but it is believed in many quarters that some sort of conciliation will be effected.

The viewpoint from which the president has watched developments in the farm relief situation is not apparent, nor is there any indication whether his summer in the west gave him any new opinions in the matter. Secretary Jardine has been credited with working out the details of a new co-operative marketing measure, with a $300,000,000 fund to be loaned to farmers and co-operatives, but whether such a measure is being formulated under encouragement from Mr. Coolidge has not been disclosed.

The president is watching, however, the progress of various groups which are studying the farm relief question and has himself disclosed to Chester H. Gray, Washington's representative of the American Farm Bureau Federation, that the administration has begun an investigation as to what course should be pursued. The president was told by Mr. Gray, whose organization has been one of the most ardent supporters of the McNary-Haugen plan, that the fight for this measure would be carried forward next winter along substantially the same lines as it was last session. There will be a disposition to accept changes, however, Gray added, but the principle of controlling crop surpluses and permitting the crops to pay their own expenses—which in substance is the equalization fee principle—will be demanded without quarter.

Changes which the McNary-Haugen supporters will accept, Mr. Coolidge has been told, will be a reduction of the revolving fund from $300,000,000 to perhaps $225,000,000; selection by the president of the federal farm board, the same as any federal board is chosen, instead of from a list of candidates nominated by representatives of the farmers, and increase or reduction of the number of commodities to be affected or the application of the proposed measure to only one or two crops as an experiment.

Some of the president's advisers believe he may soon make public his farm relief plan for the winter in view of his recent inclination to discuss the subject. Others consider it unlikely that any comprehensive idea of what he has in mind will be gained until he sends his annual message to congress.

In the meantime numerous farm organizations as well as some business organizations have notified Mr. Coolidge that they are canvassing the whole situation. Representatives of the American Farm Bureau Federation, the National Grange, and the Farmers' Union will meet in Washington November 9 when an attempt will be made to reach an agreement to press for enactment of a farm relief bill next winter. Heretofore the grange and the farm bureau have not agreed on the McNary-Haugen bill.

NEW BRITAIN MAN HAD VERY UNPLEASANT SUNDAY

NEW BRITAIN, Oct. 16—(AP)—Bertram Thompson, of this city passed anything but a quiet Sabbath today.

To begin with, his automobile was stolen this morning from its parking place.

Later in the morning he went to call on his brother in law, Edwin Lindbergh of Berlin. An altercation arose when Thompson repeated to his brother in law stories he had heard, to the effect that he had spoken disparagingly of Mrs. Lindbergh. The stories, Thompson understood, had originated with Lindbergh. In the course of the altercation, police say, Lindbergh struck Thompson and knocked him down the stairs, after Thompson had pulled a pistol from his pocket.

Thompson was arrested on charges of carrying concealed weapons and breach of the peace. While Lieutenant Samuel Bamford was booking Thompson at the police station, word came that the stolen car had been recovered at West Haven. But the clouds had not lifted.

Dr. William Flanagan, sent Thompson to the New Britain General hospital, where, after bandaging him up and taking a few stitches, it was decided that he had a probable skull fracture as a souvenir of his misunderstanding with Lindbergh. He was kept at the hospital under arrest.

DOROTHY COCHRANE LOGAN DID NOT SWIM CHANNEL

LONDON, Oct. 16—(AP)—Dorothy Cochrane Logan, the young London physician who confessed to hoaxing the public by her alleged swim across the English channel, seems likely to reap much publicity, but very little credit from her attempt, as she put it, "to show the desirability of establishing an international commission to supervise and certify all channel swims."

Alderman Wood, mayor of Folkestone, today put in a nutshell the general view of the public of her escapade, saying: "I aprove of Miss Logan's suggestion that there ought to be some board of control to verify the claims of channel swimmers, but I do not approve of her method of drawing attention to it. She might have done it in some other way—the public don't like being hoaxed."

Miss Logan herself now seems to realize the questionable nature of her procedure. To a newspaper correspondent she said today: "I hate the publicity the hoax has caused, and now I realize that it was a foolish thing to do."

She added that she wished to apologize to those who may have been hurt by her apparent acceptance of undeserved congratulations.

CLARENCE DARROW HAS RETURNED FROM EUROPE

NEW YORK, Oct. 16—(AP)—Clarence Darrow, widely known Chicago criminal lawyer, returned today aboard the liner Minnewaska after a stay of several months in Europe where he had gone for a rest. Mr. Darrow, who was accompanied by his wife, said he planned to remain in New York for a short time before going to Chicago.

He said he did not plan to resume active law practice for some time.

JOHNSON AND MALONE TO DEBATE PROHIBITION

BOSTON, Oct. 16—(AP)—A debate on prohibition between William E. (Pussyfoot) Johnson, famous dry campaigner, and Dudley Field Malone, New York attorney, will be held on November 10, it was announced tonight by league for public opinion, which will sponsor the event. Johnson will uphold the affirmative on the subject, "Resolved, that prohibition should not be modified."

PRESENT POPULATION OF CHICAGO IS 3,741,910

CHICAGO Oct. 16—(AP)—Chicago's present population is 3,741,910—a gain of 1,040,205 in seven years, according to an estimate of Frederick Rex, municipal reference librarian, based on the increase in the city's registered vote.

ROBBERS CORNERED BY TAXI DRIVER AND COP

NEW YORK, Oct. 16—(AP)—Following a trail marked by sundry items of his clothing which a pair of hold-up men had taken from him, together with his night's receipts of $11, a taxicab driver, accompanied by a patrolman, early today cornered the robbers and recovered $8.92 of the cash loot.

William Cahill, the chauffeur, sat shivering in his cab when Patrolman Albert Waterhouse found him on a lonely street in the remote reaches of the Bronx near dawn today. He was minus his shoes and trousers which the hold-up pair had taken to prevent pursuit.

The patrolman and Cahill started off in the direction taken by the robbers. Presently they came upon a shoe. It fitted Cahill. In the next block he drew on its mate. Then followed the trousers, into which Cahill climbed and in a basement areaway they found two youths who the driver said were the robbers one a boy of 16 and the other 22. They directed their captors to a spot nearby where they had buried $8.92 of the chauffeur's earnings.

ARGUMENT OVER GIRL RESULTED IN SHOOTING

NEW YORK, Oct. 16—(AP)—An argument over a girl entertainer in a Brooklyn cabaret today was said by police to have been the cause of a shooting in which three men were wounded, two of them seriously.

Police said an unidentified youth asked the girl to dance with him and three men, apparently friends of the girl, interfered. Words were exchanged and the three men left the dance hall. They were seated in a lunch wagon, police said, when their assailant entered and began firing. He escaped in an automobile.

The wounded were John Gillican, 28, shot in the side; Thomas Callahan, 26, shot in the abdomen, and John Asmus, 30, shot in the right arm.

LUMBER LADEN SCHOONER REPORTED IN DISTRESS

PORTLAND, Ore., Oct. 16—(AP)—The steamer Wallingford, bound for San Francisco, from the Columbia river with lumber, was reported in distress tonight in a gale off Cape Arago with her propeller broken. The Wallingford, McCormick line officials here, owners of the craft, said, lost her propeller last night and was taken in tow by the steamer Cellilo. The towing cable broke during a gale today and word of the vessel's condition was flashed here by radio.

Thirty persons are aboard the Wallingford, including Captain Gus Illig and his wife.

16 SINGERS TOOK PART IN STATE RADIO AUDITION

HARTFORD, Oct. 16—(AP)—Sixteen Connecticut singers took part in the state radio audition which was conducted under the auspices of the Atwater Kent foundation from station WTIC of the Travelers Insurance company, Saturday night. Each singer represented a certain section of the state after having been chosen from among other contestants, in locally staged auditions.

Just before the broadcast, each singer was given a number, which represented the only method of his introduction to the radio audience. At the time announcement of a number was made over the microphone, the particular singer to whom that number had been allotted was not allowed in the room and consequently none of the singers knows the number assigned him.

Anyone who heard the program is entitled to vote for the singer of each sex which he liked best. All ballots must be sent to station WTIC and should be mailed so that the postmark will read not later than 9 a. m., Monday.

The ballot sof the radio listeners will count for 60 per cent and the decisions of 12 judges who heard the program but did not see the singers, will count for 40 per cent in the final judgment. H. S. Billings, manager of the station, will announce the winners late this week.

Those who took part in the audition Saturday night were:

Miss Marguerite Durhaime, 13 Jackson avenue, Mystic; Kenneth Burdick, 37 Courtland street, Westerly, R. I.; Angeline Earl Magnano, 40 Center street, Middletown; Harold Heaton, Johnson avenue, Meriden; Charles Coles, 271 Vine street, Bridgeport; Elizabeth Van Sciver, 1217 Noble avenue, Bridgeport; Lucy E. Oldrin, Locust Hill, Darien; Frank F. Chapman, Weed avenue, New Canaan; Katherine B. Delzell, 1778 East Main street, Waterbury; Fred L. Messer, 322 Frost road, Waterbury; Mary C. Hannan, 8 Town Hill avenue, Danbury; Celso Ganio, Jr., 1 Marcus avenue, Danbury; Josephine I. Wallace, Chestnut street, Windsor Locks; J. Edwin Klinghergs, 91 State street, New Britain; Louise Twyman, 84 Dixwell avenue, New Haven, and Henry Rappa, 128 Prospect avenue, Shelton.

STATISTICS SHOW LOW PAY FOR EUROPEAN WORKMEN

NEW YORK, Oct. 16—(AP)—To earn the equivalent of an ounce of gold, the Paris bricklayer works ten times as long as a bricklayer in Philadelphia, a Berlin artisan five times as long and a London laborer three and one half times as long, statisticians of the national industrial conference board announced today.

These comparisons, based upon the 1926 scale of wages in three cities are, however, more striking when measured in the gold value of the currencies of the different countries than when arrived at by relative purchasing power, the report said.

The Berlin bricklayer may purchase for his wages 40 per cent as much of the comforts of life as the Philadelphian, although he earns only one fifth of the money the American does. The London workman gets 60 per cent as much for his wage as does the American, although the ratio is three and one-half to one in favor of the Philadelphia laborer. Comparative figures for Paris were not available, the report said.

In the printing trade, the conference board said, the hand compositor in Paris must work five 8-hour days to earn the gold equivalent of the Philadelphia printer's daily wage. In berlin the craftsman must work nearly four times as long, and in London a compositor must work almost twice as long as the Philadelphian.

A RECEPTION IN NEW YORK FOR LEVINE TODAY

NEW YORK, Oct. 16—(AP)—Father welcome suit tonight in preparation wellcome suit tonight in preparation for the reception to Charles A. Levine, first and only air passenger to cross the Atlantic, who will arrive home tomorrow on the Leviathan.

City officials, headed by Grover A. Whalen, chairman of the mayor's reception committee for distinguished visitors, will meet the Leviathan at Quarantine, and escort the passenger of the trans-Atlantic monoplane Columbia up the bay in the city tug, Macom.

When the official welcoming party sets foot on Manhattan, shortly before ten o'clock, with their distinguished flying passenger a series of receptions will keep Levine busy for the next fortnight.

Mayor James J. Walker will receive Levine at city hall and following the reception an official luncheon will be tendered at the Hotel Astor.

Mrs. Levine and her children will be at the battery when the Macom docks.

Tonight Mrs. Levine expressed the hope that her husband will abandon dangerous flying, after his escape from death several times.

The captain said he expects to reach San Francisco tomorrow.

Preparing For Trial of Slayer of Gen. Petlura

To Triple the Police Guard Around the Assizes Courts in Paris.

PARIS, Oct. 16.—(AP)—In order prepared for eventualities d[illegible] trial of Samuel Schwartzb[illegible] the murder of General Simon [illegible], officials of the Paris depart[illegible] of justice have ordered tripled the usual police guard around the Assizes courts. The trial, which will begin Tuesday, is expected to last fifteen days and promises to become another of France's causes celebres. Three of the most prominent members of the Paris bar will appear in the case. Lawyers Wilm and Campinchi for the prosecution and Henri Torres for the defense.

The murder has been characterized as a political crime, the defense claiming that Schwartzbar shot down Petlura as revenge for the general's activities in organizing pogroms while acting dictator in behalf of the soviets. All told 150 witnesses have been subpoenaed.

The defense fund includes 500,000 francs subscribed in the United States.

General Petlura, who was anti-Bolshevist president of the shortlived Ukrainian republic, was shot by Schwartzbar on May 25, 1926, while walking in the Boulevard St. Michel in the Latin quarter. Schwartzbar, who had been following the general for two weeks, confronted him and shouting "dirty dog, defend yourself," fired five shots without giving Petlura a opportunity to do so.

Schwartzbar did not resist arrest and exulted over his deed, saying it was done in revenge for the way Petlura had mistreated Russian Jews in the Ukraine when in end power. He told the police further that in killing Petlura he was avenging relatives and friends who, he alleged, had been killed by Petlura.

Petlura had a spectacular career in the Ukraine from 1918 to 1921 and although called "generl" never held that rank. He drove out the Germans who occupied the Ukraine after the treaty of Brest-Litovsk and attempted to establish a government there. When the Red army appeared to recover the region for Russia, he joined the anti-Bolshevik leaders, first Deniken and then Wrangel. Even before the defeat he made overtures to Moscow, and played with the soviet union and established a brief republic at Kiev with himself as president.

When the Reds dispersed his army, Petlura fled to Poland, then to Galicia where he mobilized a division of refugees from little Russia, who were eager to fight their way back home. Early in 1920 his force joined that of Pilsudski when it entered Ukrainia and captured Kiev, but when the Poles were driven out of Kiev Petlura again became a fugutive in Poland. At the time of his death Petlura was publishing a Ukrainian language newspaper in Paris.

BUTCHER CONFESSES THE SLAYING OF SWEETHEART

NEW YORK, Oct. 16.—(AP)—A butcher who confessed to an insane fear of the tools of his trade, sharp knives, told detectives today how he had overcome his obsession in a blind fury and slain his sweetheart with his bare hands although she menaced him with one of the dreaded blades.

Harry Gilmore, 27, the butcher, was charged with homicide after the body of Mrs. Helen Brandon, 26, formerly of Washington, D. C., was found Saturday night in her apartment on the upper West Side. She had been strangled to death.

Mrs. Brandon, whom Gilmore said he met and became infatuated with during the world series in Pittsburgh in 1925, well knew of his fear of cutlery, he claimed. She had often treaded upon his weakness, he said, frequently brandishing a knife to clinch domestic arguments either in Pittsburgh, Washington or New York where they had lived during the past two years.

Gilmore, taken into custody today in his apartment, which is on the same floor with Mrs. Brandon's, confessed, according to police, that a series of contemptuous slights that the woman had inflicted on him had driven him to a rage Saturday.

A stormy scene following Mrs. Brandon's refusal to awaken him in time for work, cook his breakfast or iron his shirt came to a climax, he said, when the woman, using her knowledge of his fear, advanced on him with a knife.

Conquering his phobia for knives, he lunged at Mrs. Brandon, struck her to the floor and choked her to death, police said Gilmore told them. At noon he went to his work in a butcher shop nearby where he remained all day, handling the razor-edged knives which he so feared in the hands of another.

FRENCH AVIATOR NOW NORTH OF BAHIA, BRAZIL

RIO JANIERO, Brazil, Oct. 16.—(AP)—Dieudonne Costes and Joseph Lebrix in their Brequet biplane "Nungesser-Coli," landed north of Bahia today near the Espirito Santos border. They flew from Port Natal, a distance of about 500 miles.

The two French aviators, who are nearing the completion of their flight from Paris to Rio Janeiro, and thence to Buenos Aires, Argentina, took off from Port Natal at 7.40 o'clock this morning. They flew over Pernambuco two hours later, having covered a distance of 150 miles, and proceeded to their landing place, 300 miles further along.

The distance from Bahia to Rio Janeiro is 800 miles.

Ocean Flight Tested Courage of Ruth Elder

At One Time Sleet Threatened to Force the American Girl Down.

HORTA, Fayal Islands, Azores, Oct. 16.—(AP)—Ruth Elder, the little American girl, who first won the hearts of the sailormen aboard the Dutch Steamer Barendrecht when she climbed aboard from her disabled plane in mid-Atlantic, and has charmed everyone at Horta since her arrival here, had her courage tested in full measure before coming down on the sea alongside the rescue steamer.

Because of heavy sleet that froze as it fell on the airplane, it became necessary for Ruth to crawl out on the tail of the plane to effect a balance. This she did without a sign of wavering, and came back in safety.

Added to the danger from the lowered oil pressure, because of a broken oil pipe, was the menace of the sleet, which until the plane was lightened threatened to force it down.

This was an eventful day for the girl flier, and she was kept busy in a round of entertainments, such as the modest community of Americans was able to honor her with, in spite of fatigue which she felt on landing at Horta Saturday morning, she did not retire until 2 o'clock Sunday morning. She is the guest of G. W. Mackey, cable traffic chief and his wife.

Arising soon after 10 o'clock she had breakfast of corn-flakes, pineapple and bacon. Then she said she felt fit, and had come well out of the strain of the long and hazardous air jaunt enroute to Paris from Roosevelt field, New York.

Ruth still seems to be devoted to her scarlet plaid sweater and stockings, which match her vigorously red cheeks, the plus-fours and cricket shirt, the same attire she wore while "riding" well above the waves.

At dinner today, however, she was gowned in a fashionable Paris creation from the wardrobe of the hospitable Mrs. Mackey, but it had to be tucked in to fit her slender figure. This was strictly a family affair, but later she received callers, well wishers, autograph hunters and what not.

Then came a meeting with the town barber, whom Haldeman had summoned in a futile attempt to persuade his aerial companion to have her hair bobbed. But Ruth refused, declaring that her hair now must grow "onward."

There was a lunch also in the mess-hall maintained by one of the cable companies, and she was the center of reception by American residents, which prevented her from keeping an appointment for five o'clock tea at the British consulate.

The Portuguese Mail Liner Lima, which is to carry the two fliers to Lisbon on their way to Paris, is expected to lift anchor tomorrow morning. Despite the heavy rain Miss Elder spoke in glowing terms of Fayal Island. She has come back to her normal self, but the stormy night over the ocean has given her something to think about. She revealed today that her sleep aboard the Barendrecht was disturbed by dreams of the plane battling the elements. Then she would struggle in her narrow bunk and cry for help, until she awakened and found that help had already reached them.

ONTARIO PROFITING BY REPEAL OF TEMPERANCE ACT

DETROIT, Mich., Oct. 16.—(AP)—During the summer months, following repeal of the Ontario temperance act, more than 85,000 automobile tourists from the United States visited interior Ontario via the Detroit route, alone, according to statistics compiled by the Essex County (Windsor) Automobile club.

The club, which has charge of issuance of automobile touring permits to aliens passing into the interior of the province through Windsor, estimates "conservatively" that these tourists spent more than $2,000,000. The automobile tourists are estimated to have numbered less than tenth of the total non-touring aliens who visited Windsor only.

The interesting observation that a majority of the tourists tabulated were attracted to the province by its scenic beauties is made by the organization, in its report made public tonight.

"Only five per cent. of the visitors asked how liquor permits were obtained and about one per cent. actually bought beer or whiskey in Windsor before starting out on their trips," the report asserts.

"Furthermore, no American tourist was arrested for driving while drunk. No cases were reported for drinking out in the open all summer, and not a single case was brought to our attention, of a tourist being arrested for drunkenness."

CHILD SAVED AS SHE WAS SINKING IN BOG

EVERETT, Mass., Oct. 16.—(AP)—Attracted by the screams of a child, three youths who were hunting for bait in a marsh near the Malden river this morning rescued four-year-old Ida Feitel as she was sinking in a bog, and recovered from a nearby creek the body of her grandmother, Mrs. Esther Feitel, 60 years old.

As the little girl was being extricated from the mud she told her rescuers that "another girl" was in the water farther on. Search discovered the body of the grandmother. It was believed that the two had wandered about over the marshes most of the night, and that the aged woman had stumbled into the creek in the darkness.

Mrs. Feitel came to this country from Russia four years ago. The family physician said Mrs. Feitel had been mentally deranged recently, as the result of illness and a desire to return to her home in Russia.

NEW YORK POLICE SEEKING SLAYER OF GANG CHIEFTAIN

"Little Augie" Was Ambushed and Shot by a Crew of Five Gunmen in Delaney Street Saturday Night—Jack Diamond, "Little Augie's" Bodyguard, is in a Hospital With Two Bullets Under His Heart—Will Not Tell the Police Who Did the Shooting.

NEW YORK, Oct. 16.—(AP)—Confronted by the wall of silence which surrounds gang warfare on the lower East Side, police sought vainly today for the perpetrators of the murder of Jacob Orgen, gang chieftain known as "Little Augie," who was ambushed and slain by a crew of five gunmen in Delaney street Saturday night.

Jack Diamond, "Little Augie's" bodyguard, was still in a critical condition with two bullets under his heart, but he would not tell detectives who had shot him and his chief as they strolled along the crowded street.

Despite this reticence detectives knew that Orgen's death was due to activities of the reorganized "Kid Dropper's" gang, which still exists although its leader was slain on August 28, 1923, by Louis Kushner, a member of "Little Augie's" gang.

The rival gangs, whose members have been replaced as they dropped away, were openly hostile as early as 1923 when a lucrative business was enjoyed by Nathan Kaplan, "Kid Dropper," in furnishing thugs for the protection of strike breakers. Soon "The Dropper" evolved a plan of doubling profits and sold his services as a provider of guards to the strikers as well as substitute workers.

To give both employers of his thugs some semblance of loyal support the members of "The Kid's" gang would stage harmless, fake battles in which many shots were fired but no one hurt.

"Little Augie," a rising power among East Side gangsters, saw the possibilities of taking some of "The Dropper's" trade. He organized a gang which competed with the older organization in furnishing thugs in labor troubles.

This rivalry culminated in the death of "Kid Dropper," who was shot as he sat beside a police captain in a taxicab. Kushner, his slayer, had slipped up to the rear window of the cab and fired a bullet in the gangster's head, a crime for which he received a sentence of 20 years in Sing Sing.

Three weeks ago the enmity between the rival gangs broke out afresh when one of the "Kid Dropper" gang was killed in the street by gunmen who also fatally shot a man seated on the steps of his home. "Little Augie's" gang was credited with this killing and the leader's bodyguard increased its vigilance.

Last night the five gunmen rolled into Delaney street behind Orgen and Diamond. Three who had trailed the pair fired a fusillade, leaped into the car containing two confederates, and sped away.

TO DISCUSS EFFECTS OF PROHIBITION ON HEALTH

CINCINNATI, Ohio, Oct. 16—(AP)—Prohibition and its effect on the health of Americans will be among vital subjects discussed before the annual convention of the American Public Health association which opens its annual convention here tomorrow night.

The subject will be treated in detail by Professor C. E. Winslow, of Yale university; Haven Emerson, M. D., of Columbia university, and Louis I. Dublin, Ph. D., of the Metropolitan Life Insurance company.

The delegates will be given the benefit of statistics and a forum session has been arranged for a discussion of the subject.

Leaders in public health will contribute the latest findings in mental hygiene, control of communicable diseases, pasteurization and sanitary control of milk handling, nutrition, sewerage disposal and child hygiene, while educators from the leading colleges will discuss the matter of teaching health to college students.

Fifteen hundred delegates from every state in the Union, Canada, Cuba and countries of Latin America are to attend the convention, which will continue through October 21.

He plans to go to Washington tomorrow to present to President Coolidge his credentials as successor to Baron de Cartier, recently appointed ambassador to the Court of St. James.

This is the second trip to America for the prince, who made a brief visit to the United States 23 years ago. He began his diplomatic career as an attache in Vienna in 1906 and has held posts in Berlin, Paris, Portugal, the Independent Congo State, Luxemburg and at The Hague, where he has appointed minister in 1920.

He was accompanied by his wife and daughter, Princess Elizabeth.

EIGHT MASKED MEN HELD UP ROADHOUSE AT CHICAGO

CHICAGO, Oct. 16—(AP)—After mortally wounding Joseph "Red" Goodman, singing waiter and semi-professional football player who attempted to thwart their plans, eight masked men early today held up eighty men and women at "The Barn," a roadhouse, taking their money and jewelry valued at $10,000.

Goodman was shot through the head when he surprised the men as they were about to enter the roadhouse. The leader of the bandits posted two men, armed with machine guns, at the entrance. Lining the victims up against one end of the room, the bandits methodically stripped them of their money and valuables while the dance orchestra was forced to continue its jazzy tunes.

SOVIET AMBASSADOR SLIPPED OUT OF PARIS

PARIS, Oct. 16—(AP)—Christian Rakovsky, the soviet ambassador to France, who was recalled by his government at the request of the French government, slipped out of Paris by automobile at dawn today. It is believed that he is headed for Berlin.

M. Rakovsky did not trouble to make any visits of courtesy such as retiring diplomats are accustomed to do. Almost all of Paris was abed when the Russian representative left town. His bags and baggage preceded him yesterday by train.

The general newspaper comment may be summarized in the phrase—"France is not sorry to have him go."

FALL AND SINCLAIR ARE TO GO ON TRIAL TODAY

WASHINGTON, Oct. 16—(AP)—A new instalment of the stirring story of the naval oil reserve leases will be started tomorrow in the District of Columbia supreme court with the calling to trial of Albert B. Fall and Harry F. Sinclair.

They are charged with criminal conspiracy as a result of the lease of the Teapot dome naval reserve in Wyoming to Sinclair's especially organized Mammoth Oil company by Fall, then interior secretary of the Harding administration.

The impanelling of a jury will be the first order, with the expectation that at least one and perhaps two or three days will be consumed in drawing the twelve men who are to decide as to the guilt or innocence of the one time cabinet officer and the wealthy oil operator and sportsman.

This will be the second time that each of the accused has faced a jury in the district court. Fall was acquitted with Edward L. Doheny last December of a criminal conspiracy charge based on the lease of the Elk hills, California, reserve to Doheny, while Sinclair was convicted early last spring of contempt of the senate in refusing to answer certain questions in the senate oil inquiry.

The oil man has appealed from the sentence of three months in jail.

CAMPAIGN AGAINST TEXT BOOK, "MODERN HISTORY"

NEW YORK, Oct. 16—(AP)—A campaign to prevent the use of the text book "Modern History," by Professors Hayes and Moon, in public schools of New York state, has been launched by the veterans of foreign wars who find in the book "subtle falsehoods designed to restore America into sentimental, spiritual and political subjection to Great Britain."

Declaring that the volume is "unfit for public school use," the American legislation committee of the veterans and the council of administration, department of New York, of the organization have opposed introduction of the book into New York state public schools. The national veterans' organization is also attempting to force the withdrawal of the history from use in Chicago and other cities in the west, as a result of protests from patriotic bodies.

ENGINEER CONFESSED RESPONSIBILITY FOR WRECK

GALLIPOLIS, Ohio, Oct. 16—(AP)—Before dying in a hospital here, Perry Thomas of Middleport, Ohio, one of the oldest and most trusted passenger engineers on the New York Central railroad, stated that he was responsible for the head-on collision of passenger train number 31 and a freight train near here yesterday in a fog.

Thomas, it is alleged, ran by a block, the resultant wreck killing his fireman, R. O. Callahan of Middleport, and injuring several passengers.

Had the collision occurred three minutes later both trains would have met on a bridge crossing the Ohio river.

LOST PLANE MAKES LANDING AT WILLIMANTIC

(Special to The Bulletin)

WILLIMANTIC, Oct. 16.—A small plane manned by Pilot B. I. Jones and co-pilot J. W. Somers of Waterbury landedin a field on the farm of Arthur King in Pleasant Valley near here about 1 o'clock this afternoon. The landing was made safely. Pilot Jones said that they were traveling from Whitinsville, Mass., to Waterbury via Hartford. They lost their bearings and came down in the field to make inquiries. The size of the field, however, could not allow a take-off and Pilot Jones telephoned to Waterbury for a truck to hail the plane to that city. The flying machine is the property of the Waterbury Light Plane club.

SIMPSON IS FINED FOR AUTOMOBILE CRASH

(Special to The Bulletin)

WILLIMANTIC, Oct. 16.— Henry Simpson of Fall River, Mass., refrigerating engineer, and alleged hit-and-run driver, was fined ten dollars and costs, amounting to $50.70 on an amended charge of failure to turn to the right while passing another vehicle to which he pleaded guilty in police court Saturday morning. Charges originally placed against Simpson were of driving while under the influence of liquor, reckless driving and evasion of responsibility after an accident. The case was continued several times. The accident took place on Columbia avenue the evening of August 21, last, and involved three machines in addition to a Pontiac driven by Simpson. Of the several witnesses who were to testify in the case but two were present in court, Mrs. Ruth Alden Connor and Mr. Connor of Hartford. They were not called upon to testify. Simpson's attorney said that all civil claims as a result of the accident had been settled and the amended charge was asked for to save the young man's driving license. Before the officers arrived at the scene of the accident Simpson had made his escape and a chase by the state police was unsuccessful.

STAFFORD SPRINGS

CLOSING DAY OF THE FAIR BRINGS OUT GOOD CROWD

(Special to The Bulletin.)

STAFFORD SPRINGS, Oct. 16.— Clear skies and beautiful weather drew out a crowd for the fourth and final day of the 55th annual fair of the Stafford Springs Agricultural society. The attendance was all that could be desirer on each day of the fair and the financial success of the undertaking is fully up to expectations. The racing, the exhibits and the vaudeville show have all been of superior quality and Stafford has maintained its reputation for giving one of the best fairs in New England.

The cattle were led before the grandstand Friday and a very fine exhibit it was. The owner of each yoke of cattle was handed a dollar bill while passing the judges' smtand. Some very interesting exhibits of articles by the unior Achievement group were shown at theeast entrance of the main hall, two model airplanes made by local boys attracting special attention.

The Buell exhibit of farm produce, including fruits and vegetables was among the largest displays in the hall.

Mrs. Carrie B. McLaughlin sponsored the only exhibit of antique articles at the fair. A rare collection of old teapots, ranging from old pewter to silverware, was admired by those who went into the hall. Among the interesting acts on the stage was that of Lola Arline and her trained seals. A splendid exhibition of gymnastics by the Three Mariettas was also one of the features of the program.

Although the attendance was not as large Saturday as on the previous days, considering that the show had been carried over an extra day on account of rain, there was a fair sized crowd on the ground by the middle of the afternoon.

The officials responsible for the interesting horse racing each day were: Starter, A. L. Deidler, Plainfield, N. J. Judges, Charles B. Stickney, P. B. Leonard, Rockville. Timers, Dr. G. L. Nichols, chairman, Hoboken, N. J., John Lee, Stafford Springs, J. M. Quinlan, Stafford Springs. Clerk, Ernest K. Taft, Stafford Springs.

As We Grow Older

Proper Kidney Action Is More Than Ever Important.

AS we grow older, there is apt to be a gradual slowing up of bodily functions.

The kidneys are the blood filters. If their action becomes sluggish they do not thoroughly cleanse the blood of poisonous wastes. This tends to make one tired and achy, with often nagging backache, drowsy headaches and dizziness. A common symptom of imperfect kidney action is scanty or burning excretions.

Elderly people recommend **Doan's Pills.** This tested diuretic is endorsed the country over. **Ask your neighbor!**

Now Read What 11,105* Doctors say About Lucky Strike Cigarettes Because

"It's toasted"

WHAT is the quality that Giacomo Rimini, Margaret D'Alvarez, Cesare Formichi, Armand Tokatyan, Emma Trentini, William Faversham, Florence Reed, Paul Whiteman, and other famous singers, actors, broadcasters and public speakers have found that makes LUCKY STRIKES delightful and of no possible injury to their voices?

For the answer we turned to medical men and asked them this question:

Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105* doctors answered this question "YES."

Consider what these figures mean; consider that they represent the opinion and experience of doctors, those whose business it is to know.

Paul Whiteman, Noted Orchestra Leader, *writes:*

"It was but recently, when I started to act as master of ceremonies with my band at the Paramount Theatre, that I realized how vital perfect voice condition was to a performer. I have always been a consistent smoker and, fortunately, Lucky Strikes were my favorite brand. I like their toasted flavor and, best of all, I can smoke as often as I like, without fear of irritating my voice, which is becoming a great asset in my work."

DANIELSON

TWO FOSTER PEOPLE HELD FOR QUESTIONING IN DEATH

(Special to The Bulletin)

DANIELSON, Oct. 16—Working on the theory that Fred M. Smith of Hopkins Mills was murdered last Tuesday, the Rhode Island bureau of criminal investigation, the district attorney's office at Providence and the Rhode Island state police had, at the week end, taken Walter E. Simmons, 60, of Foster, and his wife, Frances, 49, into custody for questioning and Simmons for a time was held as a suspicious person and subjected to a long grilling at the state police barracks in North Scituate. Simmons was being questioned in a room on the first floor of the building while Mrs. Simmons was being grilled in a room on the second floor. Officials conducting the investigation refused to give out any statement as to what information of importance the questioning developed, if any.

The allegation that there was an affair between Smith and Mrs. Simmons enters into the case in large measure, and such information as has leaked out from official sources would tend to indicate that this allegation is the real basis for the questioning of Mr. and Mrs. Simmons.

Smith, a business man at Hopkins Mills, ten miles east of here on the Providence road, was one of the most prominent citizens of Foster. His death under such mysterious circumstances has again brought to mind the fact that his store building was burned to the ground some time ago and that the belief was then expressed that the fire might have been the work of some enemy, though the incident is not apparently connected in any manner with his untimely death.

Smith went out duck hunting last Tuesday, and when he failed to return at nightfall a search for him was instituted, but without success. It was not until last Wednesday, a short time before noon, that his body was found. Under it was his shotgun, fully loaded. A rifle bullet that entered near his right shoulder and traveled across the body and downward had caused death.

Saturday afternoon Smith's funeral was held from the home of his sister, Mrs. Byron E. Round in Foster. It was said today to have been the largest funeral ever held in that town. So many came that all could not be accommodated within the house, many sitting on chairs in the yard or standing about while Rev. Gilbert B. Cutler of North Scituate conducted the service. There were 76 cars in the funeral procession, burial being in the Acote Hill cemetery at Chepachet, where upwards of 100 Klansmen in full regalia conducted the committal service of the order. The bearers were George Cook, John Hopkins, Clarence Hopkins, Gustav Olson, Winthrop Saunders and Andrew Shippee.

A. F. Wood of Danielson was in charge of the funeral arrangements.

It was stated today that investigation of the case will continue during this week. Prosecutor D'Avila of the attorney general's office and Captain Harwood of the state police department are taking an active part in the effort to establish if possible the exact circumstances under which Smith met his death.

As has more or less frequently happened there in the past, two cars crashed at the intersection of Reynolds and Broad street this morning, slightly injuring some of the passengers in one of the machines

Proceeding eastward through Reynolds street on the Providence route, Ernesto Calangelo of 18 Pleasant street, East Hartford, driving a Velie touring car, was in a jam at the Broad street crossover with a Buick roadster owned and driven by Omearn G. Chase of Sterling, proceeding northward.

The Velie was knocked over on its side in the accident, which was checked up by State Officer Holman Bell of the local barracks. Ella Lavoie, Mary Michaud, Yvonne Michaud and William Michaud, riding with Mr. Calangelo, were shaken up, bruised and variously but not seriously injured in the affair. They were taken into the home of Mr. and Mrs. S. Gingras, nearby, and treated by Dr. F. P. Todd. Occupants of the Chase car were not injured. The Calangelo car was damaged to the extent of about $100, the Chase car being less seriously jammed up.

The intersection where the accident happened is an extremely dangerous one, motorists who are familiar with it taking extra precautions every time they go over it. If the proposed plan of relocating the entrance of the Providence trunk line to Danielson from the east is carried out next year, the traffic at this point will be so lessened as to materially reduce the hazard there.

With the time for paying borough taxes elapsed, numbers have proved delinquent and a considerable amount of the tax money due the borough is unpaid. This is not unusual, however. Collector Sidney H. Perry is continuing the work of collecting. The time limit for paying expired last Wednesday.

And on the matter of taxes, mention may be made of the fact that only two weeks remain for filing lists of taxable property with the town. Assessors are now receiving these lists, which will enter into the making up of the next grand list on which next year's tax rate will be based.

James Day, 83, said to be the last veteran of the Civil war resident in Pomfret, died at his home in that place during the early hours of Saturday morning. He was a native of the town of Killingly and for many of his active years was engaged as a carpenter. He leaves his wife and the following children: Irving, Louis, Robert, Henry, Albert and Mrs. Etta Willette, the latter resident in Hartford.

This afternoon at 1:30 at the home of his son-in-law, John McGoven, in Goodyear, funeral services for Edward Lavine, former New York dock police officer, were conducted by Rev. Charles A. Downs. During the service Mrs. Joseph Greene and Nancy Whittaker sang Sometime We'll Understand, and Abide With Me. Burial was in the Dayville cemetery. The bearers were Edward S. Lavine, Norris Lavine, Brooklyn, N. Y., George Saurette, Joseph Fournier, Clarence Burdick and Arthur Longbottom. Louis E. Kennedy was in charge of the arrangements. Among those who came for the funeral were Mr. and Mrs. Shields and a Mrs. Nettleton, a sister of Mr. Lavine's, of Brooklyn, N. Y.

Saturday morning the funeral of Miss Eva Russell was held from the home of parents in Wauregan with services at the Sacred Heart church, Rev. J. H. PUTNAM

WOODSTOCK MAN DIES WHILE PICKING APPLES

(Special to The Bulletin)

PUTNAM, Oct. 16—Gardiner Sumner, a well known lifelong resident of Woodstock, was found dead in his apple orchard about 1 o'clock Saturday afternoon. He was in his 68th year. Mr. Sumner had gone to the orchard in the morning saying he would be home by noon, but upon his failure to return at that time search was made and he was found lying under a tree with a partially filled basket of apples near him. It was not thought that he had been up in a tree. Dr. R. C. Pike examined the body and said death was apparently due to a sudden attack of heart trouble, although he had seemed to be in good health. Mr. Sumner is survived by his wife and two daughters, Miss Leslie Sumner, and Miss Susan Sumner, both of whom live at home.

Funeral services for Mrs. Adeline Lagasses were held from her home in Webster Saturday morning at nine o'clock. She was found lying on the floor of her home by her husband when he went home to his dinner on Thursday. The medical examiner pronounced death due to heart trouble.

Mrs. Adeline Benoit Legasse was born in Putnam sixty-nine years ago and received her education here and after her marriage to Paul Lagasse lived here for many years. They removed to Webster about seven years ago. Besides her husband she is survived by two brothers, Fred Benoit of Webster and Paul Benoit of this city.

Nativa Tessier, 19, died at the home of her parents Saturday after an illness of one and one half years. She was the daughter of Mr. and Mrs. Zotique Tessier.

PUTNAM MAN HAS LEG BROKEN IN AUTO ACCIDENT

(Special to The Bulletin)

PUTNAM, Oct. 16—Saturday about noon the delivery truck of the Dayville Grain and Coal company at Putnam was in collision with a Ford touring car driven by Dewey Burke of Putnam. The accident happened at what is known as Wilcox Four Corners on the road between South Woodstock and West Woodstock.

The driver of the grain truck was not injured nor was the truck much damaged. The Ford car was driven by Dewey Burke, 29, of Putnam and with him was Daniel Meehan, 62, of Dayville and Thomas Reynolds, 44, of Elmville. The three men were taken to the Day Kimball hospital where it was found that Mr. Burke has his leg broken in two places. The injury to Mr. Meehan has not yet been fully determined, beside a number of minor cuts and bruises it is possible that there may be internal injuries. Mr. Reynolds who suffered a broken wrist and some scalp wounds was treated for his injuries and was able today to be taken to his home in Dayville.

The small car was badly damaged and in attempting to avoid the big truck ran into a tree. The road at this point is hidden by a dense foliage and it is not possible to see the road from which the big truck was coming.

The delegates from the four classes in the Putnam high school to the older boys' conference which is to be held at New Haven on the 28th, 29th and 30th have been selected by vote of their classmates and are as follows: Senior class, Richard McCauley; junior class, Chester Hile; sophomore class, Donald McLean; freshman class, William Jones. All of the delegates are to receive free tickets to the Yale-Dartmouth football game.

Franklin Perry, son of Dr. and Mrs. E. F. Perry of this city, who is one of the editors of the Amherst Student, the undergraduate newspaper of Amherst college, was the news editor of the edition this past week. Young Perry is one of the members of the junior class who are members of the student staff and who are competing for the position of editor-in-chief for the senior year.

Masters Ross and Randall Gilpatric of New Britain spent the week end with their grandmother, Mrs. Jessie H. Gilpatric, Fremont street.

Mrs. Newton A. Ballard and Mrs. Arthur Tourtelotte attended the Musical Festival at Worcester last week and were the guests of their sister, Mrs. William Fletcher.

Mr. and Mrs. John Moss of Woodstock avenue were the guests of relatives in Boston last week.

Mrs. Emory Munyan and son Winthrop of Worcester are the guests of Mrs. Munyan's mother, Mrs. Lowell D. Ross of Main street.

Miss Mary McGarry of Woodstock avenue has returned from Boston where she was called by the serious illness of her sister, Miss Margaret McGarry.

Mr. and Mrs. Clarence James and children have returned from Providence where they have been the guests of Mr. James' brother, Howard James and Mrs. James.

Mr. and Mrs. Edward W. Mullen and Mrs. Eliza Mullen have returned from a visit to New York city.

WESTERLY

REP. TOWN COMMITTEE ELECTS TOWN OFFICERS

(Special to The Bulletin)

WESTERLY, R. I., Oct. 16—The republican town committee's slate for town officers was elected at the Saturday voting caucus in the four contested nominations made by the Westerly fair play committee. Out of a possible total of somewhat more than 3,300 votes there were cast in the first voting district 914 ballots and in the second district 1017.

The caucus beginning at 2 o'clock and continuing until 9 when the polls were closed was adjourned from Tuesday evening last. So split were the ballots, especially in the first district that final results were not announced until after 11:30.

The officers were first district, moderator, Everett A. Kingsley; clerks, Charles D. Maxson and John J. Dunn; supervisors, James Hodgson, Leo Rowan, Bessie West, Minnie Turano; teller, Howard Thorp; gate tender, Samuel Patton. Mrs. Anna Thornton Williams cast the first ballot.

In the second district, moderator, Lewis Stanton; clerks, Walter S. Price, Mabel A. Saunders; supervisors, James Docking, Fred Manfredi, William Collings, John Main; tellers, George A. Dolan, Elisha C. Burdick; gate tender, Edwin Barber, Jr., James H. Coleman cast the first ballot.

As the count continued it was apparent that the contests for sixth councilman and member of the highway commission were close. For member of the highway commission, Charles F. Berry to succeed himself for six years was renominated by a margin of 33 votes over Angelo J. Cappuccio, the candidate of the fair play committee. Capreccio carried the first representative district by a vote of 506 to 367 and Berry' majority of 577 to 405 in the second district offset this lead by the narrow margin of 33. A still closer battle was waged between Rogers E. Trainer and rank H. Crandall for sixth councilman. Trainer, a member of the present council, defeated Crandall by 21 votes at the caucus. Crandall carried the first district 472 to 380 and Trainer the second district 546 to 483.

Member of Highway Commission for Six Years

	1st Dist.	2nd Dist.	Total
Charles F. Berry	367	577	944
Angelo Capuccio	506	405	909
Berry's majority			35
Third Councilman			
George E. Broughton	435	658	1093
Thomas H. Collings	424	324	748
Broughton's majority			345
Fifth Councilman			
James O. Lynch	455	338	793
Isaac G. Smith	417	630	1047
Smith's majority			254
Sixth Councilman			
Frank H. Crandall	472	433	905
Rogers E. Trainer	380	546	926
Trainer's majority			21
Seventh Councilman			
Joseph Fraser	383	593	976
Edwin L. Sawyers	474	383	857
Fraser's majority			119

Another candidate backed by the fair play committee who made a good showing was Edwin L. Sawyers for seventh councilman. He was defeated by Joseph Fraser, the republican town committee candidate, by 119 votes. Sawyers led in the first district 474 to 383 and was beaten in the second district 593 to 383.

George E. Broughton, regular republican candidate, led the ticket, being the choice for third councilman by a vote of 1093 to 748 polled for Thomas H. Collins. Broughton in the first district led Collings 435 to 424 and in the second 658 to 324.

Isaac G. Smith, a member of the present council, was nominated over James O. Lynch, another candidate of the fair play committee, by a total of 1047 to 793. Smith's majority was 254 votes.

Horace E. Burdick, Farquhar Smith and James Naccarato are the three councilmen who were nominated at the republican caucus held on Tuesday evening. Their names were presented by the republican town committee and were not opposed by the fair-play committee.

At the session of Washington county superior court, before Associate Justice Charles A. Walsh, held until late Friday night at West Kingston, the prayer of the petitioners was granted in the equity case, Caroline Gervasini as venerable of loggia Cornelia Madre del Gracchi, No. 831, Westerly, Sons and Daughters of Italy in Rhode Island, vs. Concetta S. Grillis, et al, begun at Westerly a week ago last Wednesday. By the court order the respondents are directed to return to the society the sums of $600 and $500 declared illegally loaned to society sisters and to also produce a liberty loan together with other records and property of the society. Seven days is the length of time required to file notices of appeal, if any are taken.

About 4 p. m. Saturday Angelo Gradione, Jr., aged 8, son of Mr. and Mrs. Gradione of 47 Tower street, falling from the running board of an automobile owned by Samuel Kahn of Pleasant street, had his left leg fractured. The rear wheel of the automobile passed over the boy's leg. He was taken to the Westerly hospital where the fracture was reduced by Dr. Michael H. Scanlon.

Collection of Westerly town taxes began at 9 o'clock Saturday morning in the town treasurer's office. For the first day some 250 taxpayers presented themselves before Town Treasurer Pendleton's assistants, Miss Mary E. Quinlan and Miss Dorothy C. Lenihan, Constable M. J. Burke being on duty.

Architect George Ernest Robinson of Boston, who is drawing up plans for the new Westerly Central fire station, was a Westerly visitor the past week and met with members of the building committee of the Westerly fire district, which is to report at a special fire district meeting to be held Tuesday evening, Nov. 22nd.

The repair train of the Western Union Telegraph company, consisting of a baggage too and repair car, two camp coaches for the accommodation of the repair crew and a freight box car of supplies, was sidetracted Saturday on the siding near the westbound train shelter, while the crew is making chanegs and repairs to the company lines. Two gasoline tender cars for the working crew form a part of the equipment.

Patrolman Adin R. Sheldon of Pawcatuck is now performing day patrol duty for Stonington police on the West Side and will continue until Oct. 30th when Constable Carl Wilson Brown, now on night patrol duty, will relieve Officer Sheldon who then changes to night duty for two weeks. This is a change from former police duty when Officer Brown was day man and Officer Sheldon the night guardian of the peace.

JEWETT CITY

GLADYS I. JEFFERS BRIDE OF NORWICH BANK CLERK

(Special to The Bulletin)

JEWETT CITY, Oct. 16—Tyler Gilbert, son of Mr. and Mrs. Otto Gilbert and Gladys I. Jeffers, daughter of Mr. and Mrs. H. T. Jeffers were married at the bride's home Saturday afternoon at four o'clock. The ceremony was performed before a bank of ferns, the floral decorations being pink and white chrysanthemums. Rev. G. F. Goodenough, pastor of the Congregational church, of which the bride is a member, was the officiating clergyman. Before the ceremony Mrs. John Davis, the groom's sister played Cadman's "At Dawning." As the bridal party entered the room she played the march from Lohengrin. The bride was gowned in pink crepe with fringe trimmings and carried pale pink roses. Her sister Miss Marian Jeffers was bridesmaid and wore green georgette with gold lace and ribbon trimmings, and carried deep pink roses. The best man was John Davis, the groom's brother-in-law.

During the reception a salad supper for near relatives only was served in the dining room which was decorated with marigolds. Mr. and Mrs. Gilbert are on an automobile trip for two weeks. Mrs. Gilbert wore a dark red crepe traveling dress with hat to correspond and a sport coat. They will live at the bride's home during the winter. The bride received many gifts of China, silver, linen, pictures and money. Mrs. Gilbert is bookkeeper with the Glasgo Finishing Co. She is a graduate of Riverside Grammar school, also from the Jewett Commercial school, of Norwich. She is retiring president of the A. C. G. club and very popular. Mr. Gilbert is a clerk in the Chelsea Riverside Grammar school and Norwich Free Academy. He is a member of the Jewett City Baptist church, and its treasurer and Sunday school superintendent. He is a member of Mt. Vernon lodge, No. 75 F. and A. M. and of the Quinebaug Camps association, a young man of high standing both here and in Norwich.

The groom's gift to the bride was a string of pearls and her gift to him was a Masonic watch charm; her gift to the bridesmaid was a cameo pin. The groom gave the best man Masonic cuff links. A pin was given to the pianist.

K. of C. meeting postponed from tonight to Thurs. Eve.—Adv.

Mr. and Mrs. Robert Smith of Phenix, R. I., Mr. and Mrs. Herbert Smith, of Pawtucket and Mr. and Mrs. Clarence Jeffers and family of Plainfield, were in town for the wedding.

Members of Mt. Vernon lodge are requested to meet at one today to attend burial of Chas. H. Ray.—Adv.

The American Legion auxiliary is to meet at the home of Mrs. George Thornton this (Monday) evening.

Charles H. Ray, 84, died at the Masonic Home, Wallingford. Friday night, after an illness of several weeks. He was born in Griswold Sept. 25, 1843, the son of Nelson and Clarinda Hiscox Ray. Most of his life was passed in Jewett City and Lisbon. Until he retired from active business he was one of the painters for Slater Mills, also was boiler tender the latter part of the time He was a member of the Baptist church, and a past master of Mt. Vernon lodge, No. 75, F. & A. M. For years he owned the property south of the Baptist church, and gave the land to the Baptist church which is used for a driveway.

He also owned and built the house in Sylvandale now owned by Frank Johnson. Mr. Ray's wife died a month ago. He is survived by a nephew Irving Saunders, of Groton, and by several cousins, two living in Jewett City, Frank I. Ray and Everett H. Hiscox.

The funeral of Frank B. Terry was held at the home of his brother Willis C. Terry, Sunday afternoon. It was a Grange funeral, Rev. G. F. Goodenough officiating, and W. B. Montgomery, Harold Geer, Walter Hyde and Byron Klunie singing Abide With Me. Burial was in Pachaug cemetery, the grange burial ritual being carried out by Master Walter Hyde and Chaplain William Edmond. The quartet sang Nearer My God to Thee. The bearers were George F. Palmer, Chauncey Robie, Dr. F. D. Browning, Harold Geer, M. H. Bartlett and Arthur Parks. There was a large attendance of grange members and there were beautiful flowers. Relatives were present from Westerly, Preston, New Haven and Arcadia. Undertaker E. E. Gilbert was in charge of the arrangements.

Finn's tonight, "The Rough Riders," with Mary Astor and Noah Berry. Added attraction, Leach's five-piece orchestra.—Adv.

MOTHER!
Look at Child's Tongue if Sick, Cross, Feverish

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.
When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Fig Syrup," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.
You needn't coax sick children to take this harmless, "fruity laxative;" they love its delicious taste, and it always makes them feel splendid.
Ask your druggist for a bottle of "California Fig Syrup," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by the "California Fig Syrup Company." Refuse any other kind with contempt.

YOUR 1928 MARKERS

Some are as particular about their automobile registration numbers as they are about the numbers on their homes. They do not like to be changing around from one to another. They like the idea of being identified by the license number they display, and they likewise appreciate being able to pick their car out of a crowd by a number they have had for years, and thus be relieved of the burden of remembering a new number each 12 months. It would probably be surprising at the many persons who could not identify their own car if it were not for their number plates.

The state motor vehicle department is willing to accommodate all those so minded. That is, it is willing if they are agreeable to lending such cooperation as will make possible the assignment of such numbers before the big rush for new registrations sets in at the end of the year. This means that those who want to retain their present numbers for 1928 must make application for them before the 15th of November and after receiving them put them away out of sight until the new year rolls around. This accommodation costs nothing but the tying up of the registration fees from the time the check is drawn until the first of the year and throughout the state there are large numbers who welcome this chance.

It is a plan which helps to relieve the congestion at the end of the year and it eliminates the possibility of the delivery of the plates being so delayed through congestion that the machine cannot be driven as the new year comes in.

It may be all a whim, this idea of keeping the number from year to year but the motor vehicle department is perfectly willing to encourage it. Already it has sent out its reminder and made ready to take care of all the demands that are made upon it for the retention of the same number in 1928 as they now have, the color of course being changed. Whether old numbers are obtained, or smaller ones than already possessed are desired, it has been indicated that there's a time limit and those interested must govern themselves accordingly.

PATROLS FOR SCHOOL CHILDREN

Within a short distance of schoolhouses there are to be found signs indicating the number of feet ahead the school buildings are. They are intended as warnings to automobile drivers to bear in mind that within that zone children may be unexpectedly encountered and that therefore they should be on the alert to detect them and avoid accidents. They are invariably warned to drive their cars slowly for protective purposes.

It may not be long before there will be additional provisions for the safety of school children in the neighborhood of schoolhouses if the plan which has been adopted by the American Automobile association is put into operation as has been done in Washington.

There have been instances where attention has been called to boys acting as traffic guides. The A. A. A. plan is not that but under the supervision of that organization there are 325 boys who have been selected for carrying on safety work among the school children. They are equipped with Sam Brown belts and have a badge. They are picked because of their standing and ability and are expected to guide by their example and by their advice. They are not traffic policemen but at crossings near schoolhouses they can easily be the means of preventing many accidents and do much to prevent that serious habit of school children of dodging out into the street in their play.

At many schools it is the habit of the children at the close of school to burst out heedlessly across the street the first thing, without looking to be right or left to see if there is a machine approaching. It is not easy to break up such a practice, and yet in these days of so much fast and silent traffic it is very necessary if fatalities and injuries are to be prevented.

There would appear to be an excellent opportunity for such school patrols to direct the children and to send home to the reckless at such times the peril involved to bring to the attention of he school authorities or their parents those who are disposed to see how near they can come to being hit and yet escape.

LOANS TO OTHER COUNTRIES

When Senator Carter Glass, former secretary of the treasury in the Wilson cabinet, expresses himself that there is no legal warrant for the practice of insisting upon government approval of private loans to foreign countries he may be able to prove that statement, but when he undertakes to say that there is no justification for the action which has been taken in that direction he will have difficulty in getting public approval. If he is so much concerned regarding the legality of such a move perhaps it might be well to have action taken that would establish it, and yet if such a practice is as wisely applied at all times as it has been in the past there is no real need for it.

When this government went into the business of loaning money to other countries it was after the opening of the war. When it called for submission of applications for loans by foreign countries from private bankers it was for the purpose of protecting American loans already made. If the return of the American loans was to be accomplished it was important that there should be some protection for them. It can be readily understood that this government might be much embarrassed through private loans unless there was something in the way of supervision on the part of the government.

The practice is thus one that has developed because of circumstances. It has been forced upon the government whether it desired to exercise such supervision or not, and it is quite apparent that this supervision exists only so far as private loans to foreign governments is concerned. It has nothing to do with such loans as may be made to private foreign interests.

The situation resulting from the war has forced some moves that have not been made before, and it can be appreciated that the time may not be far away when it can and will be abandoned, but even if it is it will be subject to recall in case a similar situation should prevail in the future.

THE FAKED SWIM

In her confession that she did not swim across the English channel and that the claim she made to that effect was a fake, it is an illuminating situation which has been brought to light by Dorothy C. Logan.

She had obtained all the credit for not only swimming the channel after several failures but she was hailed as a record breaker and received a good sized purse for the alleged accomplishment. She even swore to an affidavit that she had actually made the swim without physical assistance. Now she retracts all the claims and declares that it was all a fake, that she spent most of the time in the boat that was supposed to accompany her and that she did it for the purpose of emphasizing the need of trustworthy umpires when any such swim is being undertaken.

Perhaps her method was necessary in order to get the right attention focussed upon that particular point, and it is entirely possible that because she has successfully faked the swim that she has used that method to throw doubt about the accomplishments credited to others.

Barnum has been credited with saying that the public likes to be fooled. It cannot be said however that it is willing to go wild over false claims concerning long distance swimming. The disclosure is bound to have the effect of giving all swimmers henceforth a black eye unless they can produce the sworn statement of reliable witnesses and then of course the question will arise as to what are reliable witnesses, for if swimmers can fake such a record many a witness might be easily persuaded to yield to strong temptation.

BETTERING THE SITUATION

It is out of the ordinary for candidates for the presidency of any other country to come to this country for the purpose of eclaring their candidacies and getting approval. It is a situation that would not exist but for the conditions which have prevailed in Nicaragua which has an election next year that is to be supervised by this country.

General Chamorro, a former president and a conservative seeks the presidency as does General Moncada, a liberal candidate, who was recently engaged in a revolt against the present government there. The former is at present in this country and the latter is on his way. They represent diametrically opposed elements in their country and while the approval sought and the supervision that is to come are innovations for Nicaragua, they give recognition to the position which has been taken by the United States for the prevention of bloodshed in that republic and the efforts which it is putting for the replacement of revolution by orderly elections where each and every legal voter is entitled to express himself in accord with his own judgment.

The United States has no other than an altruistic purpose in going to the aid of Nicaragua. It is of the greatest importance for the economic welfare of that republic that peaceful adjustment rather than disastrous strife mark the setting up of administrations in that neighbor to the south, and it is impossible to overlook the approval which is being given to the American attitude by the course which is being followed by these candidates.

WOMAN IN LIFE AND IN THE KITCHEN

SUGGESTIONS FOR THE HOUSEWIFE

Never use the same brush for both varnishing and painting.

Fix up the dingy-looking bathroom with light paint.

Lamp-smoke stains on a wall may be removed with oatmeal.

Pour kerosene oil down the outside drain to keep mosquitoes from breeding.

A mending kit in the guest room will be appreciated by your visiting friends.

Baked or candied sweet potatoes are good with sauted ham.

Use three tablespoons of cocoa as a substitute for one large square of chocolate.

Macaroni may be used in place of potatoes in any meat caserole.

Tighten the hinges and latches on the refrigerator and your ice bill will be less.

A rather heavy washable material should be used for kitchen curtains.

A porcelain wall clock for the kitchen is the cook's delight.

To retain the flavor of a vegetable it is advisable to cook it in the skin.

Bake bread puddings slowly, so that the milk and eggs will not curdle.

Californians make a delicious fruit cocktail for beginning a meal by using grapefruit and cherries, with strained honey on top.

A teaspoon of mixed pickle spices tied in a small bag and added to the water in which fish, ham or tongue is boiled, will add a very pleasing flavor.

Small rubber guards serve a double purpose, for they hold a narrow heel in place, and also protect the wear of the sheer stockings at the heel.

WATER STAINS ON MAHOGANY

Water stains on mahogany may be cleaned if done at once. If it has been on long enough to cause a white spot it can be removed if rubbed with a soft cloth and a little polish. The spot will eat into the finish if allowed to remain, and the table top will need refinishing. Avoidance of unnecessary spotting by asbestos mats under vases of flowers is the best prevention.

A CLEANING PASTE

An excellent paste for cleaning saucepans, sinks, tiles, discolored china, stone, paint, etc., can be made as follows: Take equal parts of whiting, soft soap, white sand and soda. Place the ingredients in a saucepan, adding enough water to form a smooth paste. Boil until dissolved and pour into jars for future use. Apply with a clean flannel wrung out of hot water and afterward rince with clear warm water.

HEALTH AND BEAUTY

Ammonia is a sure cure for bee stings.

Tincture of benzoin on cotton will cure toothache.

The most essential thing in the sickroom is fresh air.

In cold weather don't forget to rub a little cream or oil on the legs after the bath. They are particularly sensitive and liable to chap around the ankles and at the knees. The usual cleansing cream or a body oil will serve.

To make Florentine sachet powder take one ounce each of cloves, caraway seeds, nutmeg, mace and Tonquin beans. Add as much Florentine orris root as will equal all the other ingredients put together. Grind the whole well to a powder. Drop upon the powder six drops of oil of lavender and six drops of oil of bergamot. Mix thoroughly and put into sachets of silk or satin.

PARAFFINING JELLY

The proper way to paraffin jelly is as follows: Have your paraffin very hot. Run a toothpick around the edge of the jelly, close to the glass and a quarter of an inch down. Pour coating of the boiling wax over the jelly, being sure that it is thick enough to cover every bit of the surface, when cool put on the tin lids or cover with rings of white paper dipped in white of egg to seal. Store in a cool, dark place.

VARNISH WILL SAVE REFRIGERATOR

Have you ever noticed little beads of glistening moisture on your ice box? They are caused by the difference in temperature between the outside casing and that of the room, which it is impossible to prevent. The moisture held in the room atmosphere condenses on the outside of the box. When it seeps inside, panels warp, seams open, and the ice box becomes useless.

Then, too, this condition offers germs an opportunity to develop, causing the ice to melt more rapidly. While you cannot prevent the condensing of moisture, you can prevent its penetration by a good coat of varnish. Varnish will save your refrigerator and ice bills.

RIGHT WAY TO POLISH

Before applying polish to a chair or table the furniture should be wiped over with a cloth wrung out of lukewarm water to which a little vinegar has been added. This cleans the wood and a clean surface will take a much more brilliant polish than a dirty one.

HOW TO MIX PLASTIC PAINT

Plastic paint for decorative purposes can be prepared by mixing one quart of flat wall paint of any desired color, one pound of plaster of paris, one-half pound of bolted whiting and about one-eighth pint of varnish of the best quality, says Popular Science Monthly. If a thicker mixture is desired, add more plaster of paris and whiting in the proportion of two parts of plaster to one part whiting. This mixture can be made in larger quantities and used for finishing walls in the same way as prepared plastic paint.

DARKENING SHOES

Brown shoes may be made darker by rubbing them with milk, to which a few drops of spirits of ammonia have been added. This will dry very quickly. The shoes should then be polished with a clean, dry cloth.

DICTATES OF FASHION

This is to be a brown autumn and winter, apparently. But the browns take on such reddish autumnal hues that they are very live colors.

A rich purple velour coat has a lavender and purple plaid kasha lining which turns up to form the hem, cuffs, collar and revers.

The luxuriously furred coats of winter develop novel ideas. One has deep patch pockets of beaver on a camel's hair model.

A navy homespun suit with circular skirt and straight jacket has frogs and standing collar of navy braid to give it a military effect.

Two cut amber beads, of huge proportions, form the focal point on a brown velour turban which has its slashed brim turned up pointedly.

Autumn gloves appear in many of the novelty skins. There are pigskin gloves, with snakeskin cuffs, gloves of ostrich, and calf, made with the fur inside.

A draped evening gown of burgundy velvet has two huge red chiffon shoulder roses from which drip two short chains of emeralds and diamante stones.

New coats emphasize the importance of cuffs. The deep cuff which tapers the sleeve's fullness to the wrist usually has decorative tucks or incrustations.

The ensemble still dominates the formal mode and one of the most effective exponents of this fashion is seen in an evening frock of green transparent velvet with a coat to match.

All blues are destined for a pronounced vogue this season, especially those bordering on the aquamarine tint. Navy is perhaps least important and the preference is given those a bit more brilliant in tone.

The smartest boarding school and college girls are wearing mannish tailored suits of Oxford, covert cloth or men's wear suiting. With these they wear a fine hand-knitted jumper, a close little hat of felt and a pointed fox neckpiece.

COVERT CLOTH FROCK

Whether to have a fall frock of covert cloth may divide itself into a double problem—for the part-covert dress is smart, too. It is composed of a covert cloth blouse trimmed in silk which matches a pleated skirt. It is belted in at the hips and makes a more-than-usually formal two-piece dress. There really is no question—you must have something of covert.

BROWN POPULAR FOR FALL

If you are wondering whether you can wear brown—a leading fall color—be reassured that there is a brown this fall for everyone, red, brown, the gorgeous color of autumn leaves, if for the titian haired type of woman; golden brown for the blond with the glint of sunlight in her hair, and a darker seal brown for the olive-skinned brunette—a brown which will blend with the velvet softness of her eyes and hair.

LAUNDRY HINTS

To iron pongee well, roll it in a towel while wet and do not press until it is most dry.

Use clear, cold water to remove grass stains from clothing and then rub firmly between the fingers. Soap is apt to set the stains.

Most indelible ink contains nitrate of silver, the stain of which may be removed by just soaking in a solution of common salt and water and afterward washing with ammonia.

If alcohol is spilled on varnished or painted surfaces, cover quickly with oil and if a spot remains after wiping rub it gently with an oil and a soft cloth until it disappears.

To remove iron stains from woolen articles, dip the stained part in a saucer or bowl containing a little warm hydrochloric acid. Allod it to soak for a minute, then wash the article and rinse in strong soda and water to remove all traces of the acid.

TREATMENT OF SCORCH

A simple remedy for scorch stain with water and place in the sun. For more serious cases a piece of cloth moistened with hydrogen peroxide may be placed over the stain, covered with a dry cloth and the spot ironed with a medium hot iron. If the hydrogen peroxide soaks through, replace the upper cloth, or the contact will cause the iron to rust rapidly. Rinse the garment thus treated before ironing. This method must be used carefully on colored fabrics, as the dyes may bleach out.

FLOUR BAG LETTERING

To remove printing from flour bags, cover the bag with kerosene and let them soak 24 hours; then cover with cold water, naptha soap cut up fine, bring to a boil, and boil 20 minutes; then wash on a washboard as you would anything. If the color isn't all out, put in cold water, naptha soap and a little kerosense, and boil again.

OLD RAGS AND CARPETS

Old rugs and carpets can be woven into rugs, if there is a weaver in your vicinity. These rugs are heavy and soft, alike on both sides, and quite durable. As they have no definite design, they fit in well with almost any color scheme.

HOW TO VARNISH WALL PAPER

When ordinary wall paper is used in a child's room or in any other room where it is likely to become badly soiled, it can be given a coat of white damar varnish to protect it and to allow it to be cleansed with a damp cloth. The varnish, says Popular Science Monthly, may be mixed with turpentine to reduce the gloss. It is best to apply a preliminary coat of glue size made by soaking a quarter of a pound of white glue overnight in a little water and adding one and one-fourth quarts of boiling water.

CONCERNING WOMEN

The next lady mayoress of London, wife of Sir Harold Moore, lord mayor-elect, is of American descent.

Mrs. B. M. Drapper, who has been active in public affairs in England for some years, has now been elected mayor of the city of Deptford.

Miss Polly Packard, whose home is in the Sequoia National park, California, travels 48 miles a day in order to attend high school.

The police of Los Angeles are worried by the activities of girl bandits, seven of whom were reported to be engaged in hold-ups in one night recently.

One of the most remarkable business women in England is Mrs. L. A. Willson, who, beginning her career as a mill hand, is now a builder of houses on the principle of mass production.

A news item in a London paper to the effect that the young widow of a British war hero was in straitened circumstances resulted in her receiving 14 proposals of marriage in two days.

Miss Elsie Eaves, who has done extensive engineering work in the west is the first woman to be elected to full membership in the American Society of Civil Engineers.

The economical buy in bed and table linen is half-bleached linen. It is stronger than the bleached linen and will become creamy white in a few washings.

TRY AGAIN

When the cream will not whip, add the white of an egg to it. Let both the cream and the egg get thoroughly chilled and try whipping them together.

RECIPES

Peach Butter: Wash the peaches and remove the fuzz by rubbing them with a damp cloth, but do not peel them. Place them in a grahite kettle, add a little water and stew them until they are very tender. Run them through a fruit press or colander to remove the stones and skins. Put the pulp in a clean preserving kettle and sweeten it to suit the taste. Boil until it is very thick and of a rich color stirring constantly. Pour into carefully heated stone jars while boiling hot and seal at once with new rubbers. Peach butter is usually considered to be better if it does not contain spices. Use great care in making the butter. Stir constantly and vigorously, so that it will not burn.

Chutney Sauce: 12 sour green apples, 12 small green tomatoes, 3 green peppers, 3 Spanish onions, 1 pound seedless raisins, 6 tablespoons salt, 1-4 pound green ginger root, 3 tablespoons mustard seed, 2 1-2 cups dark brown sugar, 1 1-2 quarts vinegar.

Wash tomatoes, remove them and "eye" and chop coarsely. Sprinkle with 2 tablespoons of salt and let stand over night. Drain. Pare, core and chop apples, peel and chop onions, remove seeds and white fiber from peppers and chop. Mince ginger. Put apples, tomatoes, onions, peppers, ginger and raisins in preserving kettle. Add remaining salt and sugar to vinegar and bring to the boiling point. Boil 10 minutes and pour over mixture in preserving kettle. Add mustard seeds and cook gently until vegetables are tender and mixture is thick. It will take about an hour. Pour into sterilized glasses and seal.

IN THE PUBLIC EYE

The death of Brig. Gen. Henry L. Abbott of Boston has left Gen. Adelbert Ames the oldest living graduate of West Point. Gen. Ames was born in Rockland, Me., 92 years ago this month. After the Civil war he was an active participant in reconstruction politics. In 1870 he was elected U. S. senator from Mississippi and three years later he became provisional governor of that state. His subsequent career in the south was stormy. Trouble arising in state elections, he called upon the government for troops, but was refused. Thereupon he organize a state militia among the negroes. At this the white population rose in open rebellion. In 1876 Gov. Ames was impeached and returned to the north. In the Spanish war he served conspicuously in the Santiago campaign. In recent years he has made his home in Massachusetts.

YOUR HEALTH

CARBOHYDRATES AS A FACTOR IN DIET

By R. R. Kime, M. D., Orlando, Fla.
Member Gorgas Memorial

Carbohydrates and fats supply heat and power for work, while proteins supply material for building and repairing the body. If each is not taken in proper amount and proper proportion, inefficiency and disease result. Carbohydrates include sugar, starch, and cellulose. They should form about 60 per cent of food calories consumed each day.

A marked deficiency in the carbohydrates in daily diet disturbs metabolism and if long continued frequently leads to acidosis. If the diet is deficient in carbohydrates and fats, the body must make up the deficiency from proteins, if possible, and that is injurious and leads to disease. In heavy workers or in case of sudden demands for increased energy the carbohydrates are used first, then the fats, to supply the demand.

A sufficient amount of carbohydrates in diet is essential to good health, but an excess long continued produces fermentation, disturbs the bowels, and adds toxic elements which must be eliminated.

Some of the carbohydrates contain proteins which must be considered in making up a well-balanced diet. The proteins in cereals and vegetables are difficult to digest and assimilate and are not quite all utilized in the body hence the necessity for milk, eggs, or meat to supply the demand for proteins.

The carbohydrates from sugar syrup, honey, and some well-cooked bread, cereals, and potatoes are usually more easily and quickly appropriated and meet the sudden or prolonged demand for energy and hard work.

One should not depend on a one-sided diet alone. Good health demands a mixed well-balanced diet containing proteins, carbohydrates, fats, vitamins, and minerals.

Loran has found that when one lives solely on plant food 28.28 per cent of the food is eliminated unused, but if a proper amount of animal protein is eaten only 8.88 per cent is lost.

Carbohydrates increase sugar in the urine and blood in diabetics and should be eliminated to a great extent or materially lessened in their diet. Persons much overweight should lessen the amount of carbohydrates in food eaten, avoid food fads and advertised fat reducers, and place themselves under the care of a physician for advice as to food and exercise.

Any person with marked increase in the amount of urine passed and with a tendency to diabetes should have the urine and possibly the blood examined for the amount of sugar present and secure competent medical advice as to diet and treatment.

KEEP STOMACH YOUNG!

Eat What You Want

When the food you eat goes into your acid-soaked stomach, it sours and can't digest, makes foul gas and sour bile. The blood takes these poisonous acids and carries them through the body. Naturally it makes you miserable and despondent, because your system is not nourished—you lose weight.

Pape's Diapepsin dissolves the acids and sweetens the stomach. It digests the food; no more sour bile is taken up by the blood. Your appetite is like a youngster's again, and gradually you get back your health, flesh and energy.

Chew a tablet or two of Pape's Diapepsin after meals. It tastes good, and relieves the misery of indigestion in five minutes. It will keep your stomach young and vigorous so you can eat anything you want without being afraid of the consequences.

IMPRESSIVE SUNDAY SERVICE AT Y. M. C. A. BUILDING

Seldom has there been a more impressive service at the local Y. M. C. A. than that held Sunday afternoon in the gymnasium at 4 o'clock. A large audience attended. The opening part of the service consisted of the singing of America, scripture reading and prayer, and the tender selection, "Where is My Wandering Boy Tonight," which was rendered in solo by Hugh Kinder, who also furnished appropriate music for the feature moving picture, "Somebody's Mother." Mary Carr taking the part of mother. This picture story was, from beginning to end most impressive, portraying as it did the proverbial and tender love of a mother, even though her boy was lost to her for many years, yet her love never diminished for a moment.

Between the reels, F. J. Miner of Hartford gave a very timely and touching talk; he told of some of his experiences as he has visited very many homes in Connecticut, and how he always found that no matter if some of the homes were homes of poverty, still there he found unmistakable evidences of mother love. Mr. Miner emphasized the fact that God desired to work his holy will in the lives of the boys and girls, and that if he was permitted to do this, the boys and girls would surely grow to be noble men and women. He urged the fathers and mothers to cooperate with God in the training of their children.

Next Sunday, an unusual treat awaits the public of Norwich, when the student chorus and musicians of the Dudley Bible institute will furnish a rare musical program of vocal and instrumental music which will doubtless be heard by a large audience.

FLED FROM AUTOMOBILE AFTER COLLISION HERE

Two New London young men, Frederick Bosworth and Harold Winslow, fled from the automobile they were driving after it had been in a collision Saturday night in this city, but Bosworth was caught by the police in this city and Winslow by the police in New London. Charges of reckless driving and evading responsibility are lodged against them. Winslow, according to the police, acknowledged that he was driving the car at the time of the crash. The machine was a Dodge roadster, 1919 model, registered in the name of John Kenyon of 17 Franklin street, New London.

The machine was in collision about midnight at the corner of North Main street and Central avenue with a car driven by Percy Avery Holmes of 23 John street. Holmes, who was driving down North Main street was about to pass the beacon at the foot of Schofield hill when the New London machine, which was coming in the opposite direction, cut across in front of him. It is understood, and Holmes' machine crashed into the side and right rear wheel of the New London car.

Officer Quinn who saw the collision from a distance was not near enough to stop the two men when he saw them hurry away after the crash, but Bosworth was caught in Bath street by Officer Dunion. Winslow ran away and reached New London where he was arrested about 3 o'clock Sunday morning for the Norwich police after he had been to a doctor to have seven stitches put in a long gash in his throat.

The New London machine was crippled in the crash, having a rear wheel crushed, windshield glass broken, mud guard and running board ripped off. It was left at the curb in Central avenue over Sunday.

Bosworth was released under bonds of $100 and Winslow under bonds of $300 for their appearance in the police court this (Monday) morning.

WEDDING
Loumer-Bogdanski

At the parsonage of the United Congregational church, Saturday afternoon at 2 o'clock, Rev. Alexander H. Abbott, pastor of the church, united in marriage Alfred Loumer of Brookline, Mass., and Miss Edna Bogdanski of No. 82 North street. Miss Julia Paweleo was the bridesmaid and Edward Bogdanski, brother of the bride, was the best man.

Following the wedding ceremony a dinner and reception were held at the home of the bride's parents, Mr. and Mrs. William Bogdanski, No. 82 North street. The bride and groom left later for a wedding tour and on their return will reside with the bride's parents. The bride received numerous and beautiful gifts including furniture, silver, linen, gold, money, cut glass and linen.

Another Continuance in Pion Case

The motor vehicle law violation case against Amedee Pion of Taftville was again continued at the Saturday session of the city court to October 31st. The case had been continued Friday morning until Saturday morning. Pion is charged with failure to grant the right of way. He was summoned to court following an automobile accident Thursday morning near the Ponemah mills, Taftville.

102 KLANSMEN INDICTED IN ALABAMA FOR FLOGGINGS

BIRMINGHAM, Ala., Oct. 16—(AP)—The first of eleven men recently indicted on charges of flogging two white men and a Negro, will go on trial in Jefferson county circuit court here tomorrow, with Attorney General Charlie McCall, directing the prosecution

Julius Lumpkin, indicted for flogging, will be the first of the eleven men to face trial. Trial of W. J. Worthington, prominent Birmingham attorney, indicted for bribery and kidnaping, in connection with the whipping of Arthur Hitt, a Negro, is expected to be called at an early date. Hitt, it is alleged, was frightened into selling his farm for $900, considerably below its estimated value, after being flogged repeatedly and threatened by a masked band. The real estate transfer records showed Worthington as the purchaser.

A member of the Hartford committee to raise a sum toward the $2,000,000 to be secured as a memorial to Governor General Leonard Wood, for curative work among the lepers in the Philippines is Mrs. Jerome Mayer, formerly of Norwich. Governor Trumbull is the state chairman.

Song Service With Picture

Sunday evening at 6 o'clock at the Community house on Church street a song service with a moving picture dramatization of the twenty-third Psalm was given for the young people's service of the United Congregational church to which all members of the parish and their friends were invited. Miss Nellie Howie, organist of Taftville Congregational church, was at the organ, while the young people of both home-time sessions occupied the balcony and served as the choir, led by Mrs. Charles T. Bard and Archibald Mitchell 4th.

This was the first in a series of similar services to be held on the third Sunday of the month.

Another Night School Class.

The registration in the beginners' grade in the night school at Broadway school house has grown so large that another class is to be started this (Monday) evening.

OBITUARY
John Moore, Sr.

John Moore, Sr., a former Norwich florist, died Saturday night at the home of his son, John Moore, Springfield, Mass. Mr. Moore was born in Torquay, England, February 3, 1850 and came to this county about 55 years ago. He lived in Norwich the greater part of his life and for 24 years was employed as florist for David A. Wells. Later he established himself in the florist business on Jail Hill. He was married in New Jersey. About 10 years ago Mr. Moore removed to Springfield, where he had since resided.

Mr. Moore in addition to being an expert on flowers was a collector of butterflies of which he had a splendid collection. He was a member of the Episcopal church. Surviving are one son, John Moore, Jr., of Springfield, one daughter, Mrs. Albert M. Lamphere of No. 437 Main street, two grandchildren, Betty Lamphere and John Collins Moore. There are also brothers and a sister in England. The burial will take place in this city.

Mr. Moore was well known in Norwich and his many friends and acquaintances made during his long residence here, sincerely mourn his death.

Eugene D. Boyens

Following a short illness, Eugene D. Boyens, 75, retired railroad man, and for years a resident of Norwich, died at his home, No. 23 Hedge avenue, Sunday morning about 8:15 o'clock. Mr. Boyens was born in Dayville, this state, in 1852 and was the son of the late Mr. and Mrs. Daniel Boyens. He was married three times. Several years ago Mr. Boyens retired after about 35 years service with the old Providence and Fishkill road, and the New York, New Haven and Hartford railroad. He was a member of the New England Railroad Veteran's association, the brotherhood of trainmen at New London and of New London lodge of Moose.

Surviving Mr. Boyens are his wife and one son, Andrew Boyens of Norwich, a grandson, Robert A. Gray, Jr., one brother, Charles Boyens of Occum, a sister, Mrs. Ezra Bennett of this city and nephews and nieces. Mr. Boyens was widely known among railroad men and had many warm friends in Norwich and New London who extend heartfelt sympathy to the bereaved family.

William B. Jackson

William B. Jackson, a resident of Taftville for 18 years, died Saturday at his home in Baltic, where he had been a resident for the past 20 years. His illness extended over a period of three years, during which he received the most tender care. Mr. Jackson was born in Ashton-on-the-Lyne on Jan. 21, 1867, the son of John and Esther Garside Jackson and came to this country in 1889, where he has since resided. He was an energetic and faithful worker in his employment as overseer of the slasher room of the Baltic Mills company. Surviving him are his wife, who was Miss Nora Petterson, two brothers, Charles and Arthur Jackson of England and a sister, Sarah, of England. He also leaves a cousin, James B. Jackson of Taftville. News of his death was learned with sincere regret by a large circle of friends in Taftville, Baltic and elsewhere and their sympathy is extended to the family in their time of sorrow. During his residence in Baltic and Taftville he easily made friends and was highly esteemed by all who knew him. He was a member of Samaritan lodge, I. O. O. F., M. U. of Baltic

Miss Beatrice J. Johnson

Miss Beatrice J. Johnson, formerly of this city, died Friday at her home, No. 87 Harrison street, Pawtucket, R. I., after a lingering illness of about a year's duration. She is survived by four brothers, Charles J., and Fred A., of Pawtucket, Gustavus Johnson of Springfield, Mass. and Edward O. Johnson of Hartford and one sister, Mrs. Frank E. Rose of Pawtucket.

The funeral service was held at her home Sunday afternoon at 2 o'clock. Burial is to take place today (Monday) at Maplewood cemetery, this city.

FUNERAL
Elaine Mills

At Maplewood cemetery, Saturday afternoon at 2:30 o'clock, the funeral of Elaine Mills, 7, daughter of Mr. and Mrs. Ernest L. Mills, was held, Captain Evelyn Austin of the Salvation Army conducting the service. Two hymns, In the Sweet Bye and Bye and Beautiful Isle of Somewhere were sung. Friends acted as bearers. The child died Friday night in this city from infantile paralysis. She is survived by her parents. The Henry Allen & Son Co., had charge of the funeral arrangements.

UNIVERSALISTS ARE MEETING IN HARTFORD CONVENTION

The biennial sessions of the Universalist general convention and allied organizations will be held this week at the "Church of the Redeemer," Universalist, in Hartford.

The sessions of the General Sunday School association opened on Friday evening and will conclude on Tuesday evening with addresses by Rev. Dr. J. M. Tilden of Lombard college, Illinois, and Rev. Dr. John Murray Atwood of St. Lawrence university, New York.

The sessions of the National Women's Missionary association will be held Tuesday and Wednesday. The ministers' meeting on Tuesday, the layman's meeting on Thursday, and the Ferry Beach reunion on Thursday evening.

The sessions of the general convention proper will open Wednesday evening with occasional sermon by Rev. Dr. B. G. Carpenter of Illinois, and will hold through Sunday next.

At business sessions special interest attaches to reports of the finance commission, the commission on comity and unity, the commission on foreign relations and the commission on religious education.

Bozrahville Council Delegates.

Bozrahville Council of Jewish Women has named its delegates to the peace conference to be held in New Haven, Wednesday, as follows: Mrs. Nathan Gilman, Mrs. Jeanette Menss, Mrs. Bessie Smith, Mrs. Minnie Jacobson, Mrs. Ray Barber and Mrs. I. Reddy. The meeting which they are to attend is the Connecticut Conference on International Relations and will be held at the Town club on Whitney avenue.

BULLETIN CO. BUYS THE RECORD AND WILL CONTINUE ITS PUBLICATION

As announced in its issue or Saturday evening, the Norwich Evening Record, newspaper and job printing plant, has been purchased by The Norwich Bulletin and the property will change hands at the close of business October 31. The publication of the Record is to be continued as the evening edition of The Bulletin.

The purchase of the Record was made possible because of the serious illness of Frank H. Pullen, sole owner and manager of the Pullen Publishing company, by which the Record has been published since 1910, who has not been in good health for a number of months. It was his preference, in the disposition of his newspaper business, that The Bulletin should own the Record. That deal has been concluded, and it is interesting to note that under reversed circumstances The Bulletin owners would have preferred Mr. Pullen's ownership of The Bulletin.

The retirement of Mr. Pullen from the newspaper field and business activity will be learned with sincere regret by a host of friends and those with whom he has done business for practically two score years. Well grounded in newspaper work, Mr. Pullen's aim has always been to provide a good home newspaper and under his guidance the Record has undergone a marked improvement. Mr. Pullen was business manager of the Lowell Courier at the time he came to Norwich with the late Allan Cleworth, also for years connected with the Lowell Courier, in 1888 and Norwich has always felt proud that it was able to get such excellent citizens, whose work in newspaper publication was not only of the highest order, but whose activities in other organizations, and whatever pertained to the welfare of Norwich, have ever been most laudable. In the same similar high esteem has he always been held by his employes.

The bringing together of these two papers is in keeping with changes which have been going on throughout the country, where in 35 of 100 cities of 20,000 to 30,000 population newspapers have combined in the past few years. For nearly 40 years the Record has occupied the evening field unopposed, and as it continues that service in conjunction with The Bulletin there will be afforded a combined circulation of 16,000 to 17,000 with prospects of it being increased, thus giving complete coverage to both readers and advertisers.

When the transfer takes place, advertising contracts will be either completed or adjusted, but all new ones will be made at a rate to include both papers, thus meaning a saving to the advertiser.

The Bulletin is the 10th oldest newspaper in America, the Weekly Register, from which it can date its ancestry having been published first at Norwich Town in 1790. It has been a factor in the campaigns of every president of the United States. Many are the other papers which have entered the local field at one time or another as will be noted by the following history of newspapers in Norwich.

NEWSPAPERS THAT HAVE COME AND GONE IN NORWICH

In the autumn of 1858 J. Homer Bliss, known as "a practical printer and a fluent and forceful writer," induced William D. Manning and James N. Perry to unite their printing offices. The plant which resulted from the combination proved big enough to issue a newspaper, so of course the thought occurred, Why not go ahead and do it? The thought was simple, but bold; for the owners could envision no new paper for Norwich unless it was a daily, and no new daily unless its politics was republican—and in the Norwich Daily Courier the city already had a paper which filled the field in both particulars.

The First Paper

But Norwich also had something else that was worth thinking about. It had a well-occupied burying-place for newspapers born out of time or out of joint; and in that burying-ground at the time there rested the following 25 journals.

1. The Norwich Packet and the Connecticut, New Hampshire and Rhode Island Weekly Advertiser.

The first issue of this publication, the pioneer newspaper of Norwich, bore the date "From Thursday, Oct. 1, to Thursday, Oct. 7, 1773." Originally it had been owned by the Robertson brothers, Alexander and James, and by John Trumbull; but in 1774, with the American Revolution approaching, the "Scotch interlopers"—as the Robertsons were called—thought it the safe thing to leave Norwich for the protection of the British garrison in New York. Thereafter Trumbull carried on alone till his death on Aug. 4, 1802. Shortly before he died the name of the Packet was changed to—

2. The Connecticut Centinel.

Failure followed this attempt to revitalize a dead horse by the device of giving it a new name. The old pelter passed out for good in 1804 or 1805, and in the Norwich newspaper burying-ground the memory of the same animal under both its names is perpetuated by a double headstone.

3. The Weekly Register.

First appeared on Nov. 29, 1790, with Ebenezer Bushnell as publisher. Bushnell was succeeded in 1793 by his brother-in-law, Thomas Hubbard, who moved the plant in 1796 from Norwich Town to the present business center of Norwich—a section which was then known as the Landing, or Chelsea. From the ashes of this short-lived Phoenix there arose the weekly Chelsea Courier, later called the Norwich Courier. This paper has been published continuously ever since in either a weekly or, as at present, in a semi-weekly form. In addition, there have been a number of concurrent publications, issued daily or tri-weekly, each known as the Courier, and each under the same ownership as the weekly Courier but selling separately. All of these concurrent publications have been dead for years and years; the dates of their deceasings will appear in due chronological order.

4. The True Republican.

Published by Consider and John Sterry and Elphras Porter for about three years from June, 1804.

5. The Native American.

Published by Samuel Webb from 1812 to 1820.

6. The Norwich Republican.

Published by Boardman & Faulkner, etc. J. T. Adams, editor, September, 1828 to 1838. During the last three years of its life it was a whig paper with Lafayette S. Foster, later United States senator, as editor. The Stonington Telegraph was merged with the Norwich Republican about 1831. Both now lie under a common headstone.

7. The Canal of Intelligence.

Levi Huntington Young, the owner, got the bright idea for this name from the circumstance that a canal to join Norwich with Worcester was being discussed at the time. Died 1829, aged 2.

8. The Norwich Spectator.

Marcus B. Young, publisher; Park Benjamin, later well known in the literary world, editor.

1829, hail and farewell.

9. Norwich Free Press.

A Young-Benjamin, casualty of 1830.

10. The Religious Intelligencer.

John Dunham, publisher; J. Huntington, editor.

Blessed are the dead that die in the Lord.

11. The New England Review.

Samuel B. Bulkeley, publisher. Weekly.

Gone, and also forgotten.

12. The Herald of Peace.

William Faulkner, publisher. Charles Wheeler Denison editor. Published in the 1830s.

The First Daily

13. The Norwich Daily Courier.

The Rev. Dorson E. Sykes, publisher, editor and owner. The first daily newspaper in Norwich. March 7, 1842, to August 12, 1842.

At rest in the bosom of the Weekly Courier.

14. The Tri-Weekly Courier.

August, 1842, to Dec. 1, 1858. Killed to make room for the Daily Courier, second of that name, which was the daily that had the Norwich field when The Bulletin was founded.

15. The Total Abstinent, monthly.

John G. Cooley, publisher. First issue, May, 1841.

The first paper advocating total abstinence to be published in Connecticut. Its heir was—

16. The Total Abstinent, weekly.

Edward R. May, editor. First issue, Oct. 28, 1843. Its heir was—

17. The Spectator.

1844. Its heir was—

18. The Gleaner.

1845. B. F. Taylor, publisher.

It takes something more than a rechristening to save a dying publication. The waters of the Fountain of Youth are not in the baptismal font.

19. The Norwich News.

William Faulkner, publisher. 1848. Died in infancy.

This Faulkner is the same as the publisher of the Norwich Republican and the Herald of Peace. He went to San Francisco in the California gold rush of 1849, entered into partnership wih Warren Leland, published the Pacific News, and got rich.

20. The Palzhan Gun.

Temperance paper. First issue, March, 1848.

21. The Needle.

22. The American Patriot.

All three papers belong to this period; all had axes to grind; all are found in the infant mortality column.

23. The Weekly Reporter.

John G. Cooley editor. 1845 to 1848. Like nearly every popular newspaper of the time, its aim was to be "spicy" and it succeeded well enough to be hauled into court and fined for libel.

24. The Norwich Tribune.

E. S. Wells founder. Sold to Charles B. Platt, later business manager of The Bulletin, and Edmund Clarence Stedman, the latter being editor. The Tribune has been variously called the handsomest weekly yet seen in Norwich and a newspaper that was too good for the city. It was born in January, 1852, and in June of the following year it went where all too-good newspapers go.

25. The State Guard.

Andrew Stark publisher. 1855-1856. A know-nothing organ. Its hope of immortality rests in the transmogrification of John D. Park of Norwich, who was put on the bench by the know-nothing party when the hurly-burly was at its height, and who managed to stay on the bench so long that ultimately he became chief justice of the state.

When Bulletin Was Started

These were the dead papers of Norwich, whose ghosts danced like hobgoblins before the mind's eye of Manning, Perry and Bliss in that fall of 1858 as they canvassed the journalistic field which led to the Norwich newpaper burying ground.

The living press was also present on that field in great plenty. It was represented by four weeklies and one daily, as follows:

1. There was the Examiner.

The first issue of this weekly had appeared on July 14, 1853. It stood for the Maine law, Sabbath observance and the improvement of the common schools. On the occasion of its passing The Bulletin took pains to mention "the gentle touches of humor with which its columns abounded," and which "were dashed off from the lively pen of our well known fellow citizen, John G. Cooley, Esq., the former editor of the Reporter." Among its editorial contributors were the Rev. H. P. Arms, the Rev. J. P. Gulliver and the Rev. J. A. Goodhue.

2. There was the Weekly Aurora.

This paper had been started on May 20, 1835, by J. Holbrook, who sold it to Gad S. Gilbert. After passing through the hands of William French and French and Conklin it was taken over on August 5, 1844, by John W. Stedman, its editor and printer as well as its owner. Stedman ran it as a democratic organ, and that was why he was postmaster in that fall of 1858, when Manning and his associates were looking over the field.

3. There was the Reveille.

This was a weekly established in 1857 and published at Norwich Town, its circulation being mainly local.

4. There was the Weekly Courier, already mentioned.

And, most important of all—

5. There was the Norwich Daily Courier.

This republican morning paper, established on Dec. 1, 1858, was already covering exactly the field that the Manning group had marked out for themselves. It had, also, whatever prestige there was to be derived from the fact that it was connected with a plant which had been in continuous operation since 1790.

All these publications were competing in a town, the population of which according to the next census, that of 1860, was only 14,048. So, if Norwich in the fall of 1858 was not the most overnewspapered city in the United States, there is ground for thinking that it was a good runner-up for the distinction.

Nevertheless Manning and his friends went on with it. Acting on the suggestion of H. H. Osgood, they took young Isaac H. Bromley into partnership, formed the firm of Manning, Perry & Co., and on Dec. 15, 1858, brought out the first issue of the Norwich Bulletin.

It was Bromley who had the inspiration for the name. The very latest, hottest news was posted on the bulletin board; a newspaper then, named after the board would be associated in the minds of its readers with the latest, hottest news. Hence the newspaper name Bulletin.

Bromley's Recollections

Reminiscing in 1886 on those first few months of The Bulletin's life, Mr. Bromley wrote: "The Bulletin and the Courier (daily) were immediately in warm competition, both being republican in politics; and Norwich, which for a long time theretofore had been content with a tri-weekly delivered with reasonable regularity three afternoons in the week by Erastus Newcomb, enjoyed the sensation of two dailies delivered early in the morning and containing besides telegraphic and local news a great deal of statesmanship of a high order on the question whether Edmund Perkins or some one else should represent the third district in the next congress. The reason why I know it was of a high order is because I did most of it myself, and was patted on the back for it by many persons who have since died.

"The change in the Courier from a tri-weekly to a daily did not agree with Mr. Sykes, the then editor, whose constitution was not robust, and he consequently embraced an early opportunity to sell the property to George B. Smith of Springfield, Mass., a graduate of the Republican office. Mr. Smith at once put the Courier into a handsome new dress, employed two or three editors, organized a city department, employed correspondents all over the district and for a little while made things hum. Col. John C. Moore came on the paper at that time.

"The Daily Courier at that time was by all odds the best paper, the most attractive in its make-up, the most complete in its departments and the most carefully edited in New England. It doesn't make me so sick to say so now as it did then.

"The poor fellows in The Bulletin had hard sledding. We had to work hard and pay cash. Smith apparently had plenty of credit, and it was generally understood that Gov. Buckingham's check book was behind him. Whew! It starts the perspiration even now when I think of it.

"But one morning as I was leaving the office about four o'clock, I fell in with Smith, who in company with Col. Moore was just going home from his night's work. The Wauregan either had not closed or was just opening—it was something of an 'all-night house' in those times—and Smith suggested that we 'take a night cap.'

"Now among the accomplishments on which the late Col. Moore especially prided himself was that of making an uncommonly fine gin cocktail. We went in, and the colonel proceeded to concoct the beverage. As we were about to take it Smith said:

"'Oh, by the way; it may interest you to know that we issue the last number of the Daily Courier this morning.'

"It did interest me—Somewhat. There was took another.

"That was the turning point with The Bulletin. People who had got in the habit of reading the Courier found they could not get along without a daily paper and subscribed for The Bulletin. Its circulation and business increased, and in a short time it was out of the woods and on permanent footing."

In the foregoing account the genial narrator has been quite too modest. He was a genius, who almost unaided made the impecunious little Bulletin, so brilliant that its contemporary, despite the backing, real or reputed, of Gov. Buckingham's checkbook, didn't stand up under comparison. As Ben Day had shown before Bromley's time, and E. W. Scripps has shown since, the commonly mentioned "hatful of type" is really enough to start a newspaper on, if the editor only has a hatful of brains also.

It was in August, 1859, that the second daily Courier passed out of the picture. Sykes was appointed trustee of Smith's assigned estate and started a semi-weekly in September.

In the following February Smith's estate was auctioned off. Col. Moore bought the good will of the Courier for 28 cents, according to the report printed in The Bulletin. The Courier called this report a falsehood and said that the sale represented only the "equity of redemption" over certain mortgages, whereupon The Bulletin offered to publish the amount of those certain mortgages if the Courier would make them known. Anyway, The Bulletin's assertion that Smith's creditors would get only from one to three cents on the dollar stood unchanged.

Combined with Bulletin

On June 6, 1860, H. C. Kinne took over the Courier property and again tried to get away with a daily Courier, the third daily newspaper of that name. Both daily and weekly suspended in November, and on Dec. 14, 1860, there came the announcement of a consolidation with The Bulletin, which continued the Courier as a weekly. The Eastern Bulletin, which had been The Morning Bulletin's weekly edition, ceased publication forthwith. The Courier is now being published by The Bulletin as a semi-weekly.

While the tragedy of Smith and the Courier was dragging to its close, other casualties were occurring in other parts of the arena. The passing of the Examiner was noted in The Bulletin of Feb. 3, 1859, and of the Reveille in the issue of Jan. 4, 1860.

That made 30 headstones in the Norwich newspaper burying ground as The Bulletin entered on its third year.

There now remained only the Aurora for The Bulletin to reckon with; but competition from this quarter was growing more formidable to the same extent as it was growing less elsewhere. The daily Courier was no sooner decently interred for the third time than the daily Aurora made its appearance. This was noted in The Bulletin of Jan. 3, 1860. The daily Aurora flickered out with the last day of the same year.

Period of Newspaper Peace

In 1862 the National Flag, a literary paper, was flung to the breeze. Its furling was unnoticed.

There followed a period of war between the states of the Union, but of peace between the papers of Norwich. Then on Jan. 21, 1867, the first issue of the daily morning Advertiser appeared. Being a John W. Stedman enterprise, the paper was of course democratic. In January, 1871, it changed over to an evening daily; and in August, 1874, it suspended. About $60,000 was reported to have been lost in the venture. Of this amount, D. P. Coon was said to have lost $20,000.

A. Walt Pearson, the city editor, was made editor of Stedman's other paper, the Weekly Aurora. Later he joined the staff of The Bulletin and rose to be its editor, holding that position from 1893 to his death in 1920.

In August, 1871, Jack Moon's Paper and Lady's Pleasure Boat essayed to float in on a rising tide of popularity, but soon found itself floating out on the Stygian stream instead.

In 1873 the Norwich Patriot appeared and Plain Folks was published by John G. Cooley in 1875. Their decease attracted no attention.

Then along came the Argus, a weekly, in January, 1876. Next month, John T. Wait became president and Henry Ruggles went on as editor. In April of the same year it died. In 1886 J. L. Hunter moved its press to Willimantic.

Cooley's Weekly Starts

Better luck attended Cooley's Weekly, the first issue of which appeared on July 15, 1876. The founder, John G. Cooley was no novice, as the record shows, at founding newspapers. Cooley's Weekly was successful from the start.

The founder retired in 1880 and his son, John G., Jr., took up the management. The editor was David S. Adams. In October, 1888, it was bought by Cleworth and Pullen, subsequently the owners of the present Norwich Record. Cooley's Weekly has an unbroken publication record down to the present day.

On Nov. 22, 1876, The Bulletin notes the passing of still another contemporary as follows:

"The Norwich Banner of this city made its farewell appearance, last Saturday. It perished in the same frost that froze the petals of Benjamin F. Butler."

Vim died the same year, and the Reformer, a temperance paper, the year before. The Rev. Hugh Montgomery was editor of both.

In March, 1878, the Fenian Crusader started a holy war that it couldn't finish.

The No License Advocate appeared from May to October, 1879, the publishers being the Revs. L. T. Chamberlain, Leonard Woolsey Bacon and Hugh Montgomery.

In the fall of 1879 Henry Brown started the American Conflict, which at various times appeared as a weekly, semi-weekly or monthly.

Daniel Lee published the Observer, a weekly, from April 8, 1879 to May 22, 1880.

In that same year, 1880, somebody else was found to take a chance with a daily newspaper in Norwich. The newcomer was Gordon Wilcox. His paper, the Evening Star, twinkled from May 15, 1880, to June 25, 1881, and then went into eclipse.

By that time, however, the Norwich Evening News was present and carrying on. This democratic daily started in March, 1881. In November of that year, W. D. Leahy, its business manager, resigned, and in March, 1882, it suspended.

The Norwich Mercantile Gazette, a weekly appeared from June, 1882 to April, 1883.

The People's Weekly Gazette was established by Gordon Wilcox after the eclipse of the Evening Star. This paper is said to have continued the spirit of the Star, whatever that was. It was published off and on till 1919.

The Record Established

It was not until 1888 that another effort was made to establish a daily paper in Norwich, and this time the attempt succeeded. On May 22 of that year John G. Lynch started the Norwich Evening Record as a democratic organ. The property changed hands four times in 14 months and then was purchased, in 1890, by Allan Cleworth and Frank H. Pullen, owners of Cooley's Weekly. Since that time the Record has been conducted as a home paper of independent politics, with Cooley's Weekly as its weekly edition. After Mr. Cleworth's death, in 1906, Mr. Pullen formed the Pullen Publishing company, which took over the property and has held it ever since.

In the 1890's four attempts were made to break into the daily newspaper field in Norwich. The Norwich Post ran from 1892 to 1898. The Morning Index lasted from 1895 to 1897 and was succeeded by the short-lived evening Observer. The morning Call, which has been mentioned as being in a sense the successor of the Index also, appeared in 1898 and 1899.

Since the last year of the last century the grim reaper of out-of-luck newspapers has had a vacation in Norwich. Up to that date his toll from this city was 54. So far but four papers have escaped him—The Norwich Bulletin, The Norwich Courier, the Norwich Evening Record and Cooley's Weekly.

GIRLS CONDUCT PROGRAMME AT INTERCHURCH RALLY

A congregation that filled Trinity Episcopal church Sunday evening was present for the interchurch girls' rally conducted under the auspices of Norwich Council of Girls' Workers. Girls from the following churches were in attendance;

United Congregational, Taftville Congregational, Park Congregational, Greeneville Congregational, Norwich Town Congregational, Trinity Methodist, Norwich Town Methodist, A. M. E. Zion, Central Baptist, First Baptist, Third Baptist, Mt. Calvery Baptist, Grace Memorial Baptist, German Lutheran, Universalist and Trinity Episcopal.

The girls met in the Sunday school room of the church from which, after a brief prayer service, they marched upstairs into the church, led by the Methodist church girls' choir and singing Rejoice Ye Pure in Heart. Miss Edith A. Ellis, vice president of the council, presided at the service, which was opened by prayer by Dorothy Buckley of the First Congregational church and scripture reading by Marion Agnew of Park Congregational church. The anthem, Take All Your Cares to Jesus, was rendered by the Taftville Congregational girls and the roll was called by Doris Lund of the Third Baptist church, each group responding with a verse of scripture.

Girls of Mt. Calvery Baptist, Grace Memorial Baptist and A. M. E. Zion churches rendered the anthem, Lift Every Voice, and Miss Dorothy Packer of Central Baptist church spoke upon "The Challenge of Friendships in Our Homes." The welcome and announcements were given by Miss Ellis, followed by the offertory anthem, Now The Day Is Over, by the girls' choir of Trinity Methodist church. The congregation united in the hymn, Blest Be The Tie, which was followed by a talk upon "The Challenge of Friendships in Our Community," by Evelyn Wheeler of Trinity Methodist church.

A hymn dramatization, The Larger Prayer, was given by the girls of the Universalist church and was followed by a talk upon "The Challenge of Friendships in the World of Our Day" by Olive Rathbun of the First Baptist church. The service closed with the benediction, May the Grace of Christ Our Saviour, sung by the Trinity Methodist girls choir.

The ushers for the service were Beulah Rogers, Ruth Lathrop, and Effie Ladd of the Norwich Town Methodist church and Esther Chapman, Helen Suthhill, Bertha Wallace and Elizabeth Buchanan of Greeneville Congregational church.

RIVERVIEW WINS EASILY OVER MARTAFTS IN DECIDING GAME

Sharp hitting, loose fielding and airtight pitching by Johnny Tillman were prominent Sunday afternoon as baseball faded from the 1927 sport picture with Riverview snowing Taftville under, 8 to 1, in the final game of the championship series. Riverview's attack on Chet Nichols was vicious and sustained resulting in Riverview's collecting 15 hits which they turned into 8 runs with the aid of several costly errors by Taftville. As a ball game it was a very disappointing climax to what had been a nip and tuck series and the 2000 fans that saw the wreckage of the Taftville team went away with a very garbled impression of the game.

At only one time during the contest did Taftville threaten; this in the fifth, but here the loose base-running of Freitag cost them at least one run if no more. This was the only time that Taftville showed any signs of real baseball, Tillman being master of the situation during the entire game. Tillman with his change of pace and his slow twister was stingy with his hits allowing but four, two of these coming in the fifth inning. Johnny not only pitched brilliantly but his hitting was a surprise to everyone, he collecting three singles from Nichols.

As is the rule when local umpires are used in a series in which the interest runs so high, there was plenty of crabbing and in fact Joe Faber protested so vehemently that Umpire Nafhey banished him from the game only to allow him to return. For all his crabbing Joe Fabre played a mighty fine game and looked the best of any ballplayer on the lot.

In baseball parlance the breaks of the game were decidedly with the Riverview team but it was more than breaks that lost the game for Taftville. Chet Nichols had little on the ball besides its cover and the Riverview team hit it back at him almost as fast as he could throw it up. Riverview got two of their runs on what appeared to be errors of judgment on the part of the umpires but again it was no fault of the umpires that Taftville lost. There is no one to blame but Taftville and Chet Nichols.

Jim Troland, who has given the local fans some of the best baseball of the year, although disappointed at not winning the series, was quick to give full credit to the Riverview club, saying that without exception the Riverview team is the best semi-pro club in Connecticut, if not New England. "A team that can take three straight games from a ball team such as I had," said Manager Troland, "is sure some club and I heartily congratulate Doctor Wilcox on his team."

Riverview got away to a good start in the first inning when Bill Gley misjudged Faber's towering fly which went for two bases. Moore sacrificed and Faber came home on Mills' single. Their run in the second inning was more or less of a gift. Normandin singled and went to second on Belair's sacrifice. A wild pitch gave Normandin the third bag. Tillman hit to Jarvis who threw to Freitag at home who had Normandin by a foot but Umpire Taft failed to see it that way and called Normandin safe. With one out in the third three hits in succession filled the bags and a nice sacrifice by Moore sent Belair across with the third run. At this point the Riverview scoring stopped until the ninth.

The ninth inning was more or less of a slaughter, ten men facing Nichols in this frame and all but three getting hits off his delivery. One of the three drew a base of balls while Normandin fanned and Belair filed out in his second turn at bat. Of the eight men who got on base five scored giving Riverview a lead that was impossible to overcome.

Taftville's only threat was in the fifth inning and that wasn't so much. Nichols the first man up was safe when Normandin pegged wild over first base. Freitag doubled into the right field crowd and scored Nichols. Gley singled over second and Freitag was held at third. Eccleston rolled to Faber who threw to Normandin forcing Gley and Freitag attempted to score but was caught flate footed ten feet from the plate. This ended Taftville's only bid for the game.

One of the unusual plays of the game was the unassisted double play by Lilloyd Jarvis who played first and then completed the double at third. On a squeeze play Jarvis ran in from first snapped Normandin's attempted but and then ran to third doubling Liberty who had crossed the plate.

The winning of the series give Riverview the undisputed semi-pro championship of Connecticut for the second consecutive year. They have beaten back all opposition that has come their way and have gone through the 1927 season with the best record ever attained by a team in this section of the state. All the leading semi-pro clubs in the state have been met and they have been beaten either in a single game or in a series.

MUCH INTEREST IN THE PECHEENI-BELIZZI BOUT

Much local interest is centered in the six round bout between Young Pecheeni and Young BeLizzi which will take place at the Lyceum theatre in New London next Wednesday evening. Young Pecheeni is now in New London working out for the coming scrap in which he expects to give Young BeLizzi's professional career a severe setback. On the other hand Jackie Burns who is managing BeLizzi is working his boy out against Young McCarthy and others and is confident that BeLizzi will be able to slip over the kayo on the West Side lad. A large crowd of Norwich fans will go to New London just to see this bout alone to say nothing of witnessing the scrap between Bobby Mays and Ralph Landis in the main go.

Cochran to Defend Title

NEW YORK, Oct. 16—(AP)—Walker Cochran, world 18.2 balkline champion, will defend his title in a 1,500 point match against Jake Schaefer in New York, December 19-21.

The match, the first under the new rules in New York will consist of five block of 300 points each. Previous championship matches have been played in three blocks of 500 points each.

N. B. A. TO BOYCOTT MANDELL UNLESS HE DEFENDS TITLE

TOLEDO, Ohio, Oct 16—(AP)—The National Boxing association with a membership comprising the athletic commissions of 24 states, opened a three days' convention here today with prospects of taking action to force Sammy Mandell, world's lightweight champion, to defend his title against an outstanding challenger, or having a boycott raised against him in every state affiliated with the association.

Thomas E. Donohue, of New London, Conn., president of the association, was unwilling tonight to definitely say what action would be taken against Mandell, but intimated that he would recommend a boycott in the 24 states they represent unless Mandell agreed to comply with the mandate of the association.

Mandell has signed to box in Chicago on November 14, but his opponent has not yet been selected. President Donohue says if Mandell's foe is one of the outstanding challengers and if the battle is fought at the lightweight limit, it is likely the association will not attempt to enforce any severe action against Mandell.

Walk Miller, manager of Tiger Flowers, former world's middleweight champion, will appear before the association tomorrow in the interest of having Mickey Walker stripped of his title as middleweight titleholder. Miller claims to have a contract with Jack Kearns, Walker's manager, guaranteeing a return bout with Flowers within ninety days in the event that the title changed hands when they met in Chicago last April. The title changed hands but the Georgian deacon failed to get the return fight. Miller will present his contract to the association for action.

The association is expected to make a concerted move to have the federal law prohibiting the transportation of films from one state to another wiped out. The commissioners feel that if boxing is legalized in the states they represent the patrons of boxing in those states should be privileged to see the pictures of battles fought elsewhere. President Donohue is a candidate for reelection and there is no apparent opposition, although Paul Prehn, a member of the Illinois state athletic commission, also is a candidate.

ARTHUR CAIN KILLED WHEN RACING CAR SOMERSAULTS

VINCENNES, Ind., Oct. 16—(AP)—Arthur Cain, St. Louis race driver, was instanty killed and Ira Hall and Charles Crawford, both of Terre Haute, were seriously injured in accidents that marred the races held at the George Rogers speedway near here this afternoon.

Cain was killed instantly when his machine turned over on the 35th lap of the last race, a 20 mile event.

Hall was cut about the face and suffered a possible fracture of the shoulder when his car crashed into the fence after skidding on the eighth lap of the second event, a 10 mile race. Hall had won the first 10 mile race.

Crawford suffered possible internal injuries when his machine skidded and struck the fence on the seventeenth lap of the last race. He was thrown clear of the car and lit on his head on the track.

ONLY TWO YALE PLAYERS SUFFER MINOR INJURIES

NEW HAVEN, Oct. 16—(AP)—Taking stock after his Yale varsity had thoroughly avenged last year's defeat at the hands of Brown, Coach Tad Jones found only Caldwell and Cox suffering from noticeable injuries. While both may be out of the practice of the first day or so this week, neither is injured sufficiently to threaten loss of his services against Army next Saturday.

Coach Jones was well pleased with the work of the team, and from all indications has in mind no changes in the starting lineup this week Charlesworth, at center, the only new man in the lineup for the Brown game, handled himself well and is expected to be a fixture at the pivot position.

PRINCE OF WALES TO GIVE TROPHY TO JONES NEXT YEAR

CANDWICH, England, Oct. 16—(AP)—If Bobby Jones wins the British open golf championship for the third successive time when the big event is played here next summer, he will receive the trophy from the hands of the most distinguished sixteen-handicap player in the whole world of golf—the Prince of Wales. The heir to the British throne, who yesterday was elected unanimous captain of the Royal St. George's club, where he plays most of his rounds in the late nineties, wants to see Bobby defend his title and has expressed a desire to present the championship cup.

PLAINFIELD HIGH HAS EASY TIME WITH PUTNAM

Ppainfield High had little trouble in defeating their ancient rivals, Putnam high, 19 to 0, in the dedication game at Plainfield on Saturday afternoon. The game was a fitting opening for the new field and the record crowd of the season was on hand. Plainfield played brilliantly throughout and only once or twice during the game did the Putnam team threaten the Plainfield goal line seriously.

Herman to Box Morgan

PHILADELPHIA, Oct. 16.—(AP)—Announcement was made here tonight by Leon L. Rains that Tommy Herman, Philadelphia, and Tod Morgan, junior lightweight champion, had been matched for a 10-round bout at the arena here on October 24. Then men will enter the ring over the 130-pound limit and Morgan's title will not be at stake.

NEW ORLEANS, Oct. 16—(AP)—Loyola university of New Orleans, using a consistent aerial attack, defeated Loyola university of Baltimore, here today 19 to 0.

EASTERN FOOTBALL TEAMS RUN TRUE TO FORM IN SATURDAY'S GAMES

NEW YORK, Oct. 16—(AP)—Triumphant banners of a few fine football teams still were flying high today over the gridirons of the east after as hard-fought a set of mid-October battles as the game has seen.

The colors of Notre Dame were kept aloft by a remarkable last half rally that brought a 19 to 6 win over the Navy, while Pittsburgh, undefeated and unscored upon, upheld the intersectional prestige of the east by taking Drake of Iowa into camp by 32 to 0.

Upsets were few as most of the games were "naturals," with the contestants rated on even terms, but the day had its surprises among which were counted the 20 to 0 triumph of Penn State over Pennsylvania's hitherto unbeaten team, and the 19 to 6 victory of Syracuse over Georgetown which had been carrying all before it. Somewhat surprising, too, were the 20 to 6 win of Washington and Jefferson over Carnegie Tech, both powerful aggregations, and the work of West Virginia in holding the Lafayette Juggernault to a 7 to 7 tie.

Both Yale and Harvard, rejuvenated, gained sweet victory over foes which had beaten them the year before, Yale downing Brown and Harvard disposing of Holy Cross. In defeating Georgetown Syracuse gained similar solace for a whipping in 1926.

An untimely trimming by Virginia Polytechnic institute a week ago apparently stunn a fighting Colgate team to its best efforts, or Columbia, which had not been scored upon went down before the Maroon assault.

When the last signal had been called only as many of the major eastern teams as can be counted on the fingers of two hands made up the ever shrinking roll of the undefeated.

Army and Princeton maintained their places rather easily against Davis and Elkins and Washington and Lee, respectively. Cornell marked time with an open date. Dartmouth swept on to triumph over Temple led by the remarkable halfback, Lane. Lafayette was tied but not beaten. New York university's unshrinking Violets walked through Fordham readily. Syracuse, Washington and Jefferson, Pittsburgh and Princeton, the latter two of which have not been scored upon, were among those to keep records clear.

Results in other sections of the country which proved of interest in the east because of intersectional battles in which the teams have figured or will engage, included the hard-won victory of Northwestern over Ohio State, which fills Harvard's place on Princeton's schedule this year, and the one point win of Chicago over the Purdue team that felled Harvard last week. The Virginia Polytechnic eleven, which conquered Colgate, in turn went down before Maryland, while the crash with which Alabama fell before Georgia Tech after a three year reign in the south reechoed through the north and east.

Looking ahead to another busy day this Saturday, coaches will start preparation tomorrow for games that include Cornell vs. Princeton, Yale vs. Army, Harvard vs. Dartmouth, Pittsburgh vs. Carnegie, Lafayette vs. Washington and Jefferson, Georgetown vs. West Virginia, Syracuse vs. Penn State, Navy vs. Duke, and Chicago vs. Pennsylvania.

CHICAGO LEADS BIG TEN WITH CLEAN SLATE

CHICAGO, Oct. 16—(AP)—The University of Chicago's football team, regarded as not having much of a chance in the western conference this fall, leads the Big Ten today with two victories. Outplayed by Oklahoma in the season opener, the Maroons came back strongly to triumph over both Indiana and Purdue. Good breaks and good ball carriers after two discouraging seasons have brought the Staggmen to the tough part of their schedule with a clean slate in conference games.

Michigan and Northwestern, two of the four elevens picked to be championship contenders, responded with victories in their initial games. But Ohio State was counted out of the race yesterday by the Northwestern disaster, and Minnesota, supposedly one of the greatest teams in years, will have to show much improvement to overcome the handicap of yesterday's tie against the inspired Indiana team.

Purdue, highly regarded because of the victory over Harvard, went into the second division by a one point defeat at Chicago. Wisconsin hopes likewise faded under the customary Michigan triumph. The dark horse of the race so far is Illinois, which after three preliminary games, opens up next Saturday with five hard conference battles in a row. Against Iowa State yesterday the Illinois looked none too good.

The conference standing:

	W	L	T	TP	OP
Chicago	2	0	0	27	19
Northwestern	1	0	0	79	21
Michigan	1	0	0	68	0
Minnesota	0	0	1	111	24
Ohio	1	1	0	57	25
Indiana	0	1	1	35	27
Wisconsin	0	1	0	57	26
Purdue	0	1	0	40	7
Iowa	0	1	0	76	13
Illinois	0	0	0	89	12

RED GRANGE SERIOUSLY INJURED IN GAME

CHICAGO, Oct. 16—(AP)—Harold "Red" Grange, was seriously hurt today in a football game between his New York Yankees and the Chicago Bears of the National Professional league. He was taken to a hospital, with indications of a broken leg. Trafton, of the Bears, collided with Grange on a forward pass play.

The Bears won the game 12 to 0. Driscoll and Senn made Chicago's touchdowns. Driscoll, former Northwestern university star, made an 80-yard run from kick-off. Grange brought him down 23 yards from the goal. More than 25,000 people stormed the gates of the Chicago Cubs park to see the game.

The grandstands, in process of reconstruction, were jammed, thousands standing on the forms for new cement foundations for the upper deck of the first base stands.

JOHNSON UNDECIDED AS TO HIS FUTURE

WASHINGTON, Oct. 16—(AP)—Having formally ended his famous pitching career in big league baseball, Walter Johnson today sought seclusion on a hunting jaunt at Potomac Beach, Va.

Hardly had the "Big Train's" action become known before he received many expressions of regret from his friends here, along with numerous tentative business offers which would keep him in baseball.

Before leaving for the hunting trip, Walter said he had nothing immediate in view. He will examine the various propositions before him but hunting alone will take his time until Tuesday.

When the pitching ace returns to his home at Alta Vista, Md., he is expected to get in touch with Paul Block, owner of the Newark, N. J., club of the International league, who hopes to sign Johnson as manager of the club.

"I have no plans right now as to just what I am going to do," said Walter, shortly after his resignation was announced. "I am just going to look things over, and should there come an opportunity to manage a ball team, and it looks good, I might undertake that."

Walter will be a free agent as soon as all American league clubs waive on him. It is not expected that any club will hinder his wish to retire from the big league mound, as expressed to Clark Griffith, president of the Washington club.

Griffith assured Walter that he would use his best efforts to secure the waivers necessary for an unconditional release. "I deeply regret tht our day of parting association has arrived," he said, "and I am granting your request solely with the belief that it is being of service to you."

PITTSBURGH LEADS MAJOR COLLEGES IN THE EAST

NEW YORK, Oct. 16 (AP)—Pittsburgh leads the major college elevens of the east thus far with its record of four victories, no defeats and 153 points scored to none for its opponents. Dartmouth which has scored 188 points to 14 is runner up, while New York university has made the third best showing so far. The records:

WOODBURY WINS DIRT TRACK CHAMPIONSHIP

DETROIT, Mich., Oct. 16.—(AP)—Cliff Woodbury, of Chicago won the American Automobile association dirt track championship race here today by taking the first two 50-mile heats and finishing third in the last heat for a total of 24 points.

George Souders, of Indiana finished second in the first two heats and won the third for 22 points and second place.

Wilbur Shaw, of Detroit, finished third, and Dutch Bauman, of Indianapolis, fourth. Woodbury's best time was an average of 80 miles and hour for the first heat.

The point system used by the A. A. A. in scoring a heat race is based on placement alone.

LANE INCREASE HIS LEAD IN SCORING

NEW YORK, Oct. 16—(AP)—Myles Lane's phenomenal scoring total rose to 87 points when the Dartmouth halfback made 34 points single-handed against Temple Saturday. Lane now overtops his nearest competitor by 30 points and at this early stage, in the season is only 33 points short of the best mark made in the entire season of 1926 when Wilson of Lafayette finished at the top last year with 120 points Lane was fourth with 81.

Booth of the powerful Pittsburgh eleven climbed into second place in his team's shutout victory over Drake while Connor of N. Y. U. clung to third and Roepke of Penn State rose to fourth.

Academy Football Notes

The Academy enjoyed a well-earned rest over the week end. Saturday, 42 strong, the Red and White footballers invaded the Yale Bowl but only to witness the Blue down the Brown Bear.

The trip was made in eight private automobiles, leaving here in mid-forenoon and arriving home about 8:30 in the evening.

The locals were much impressed with the manner in which Yale administered and with Bruce Caldwell, in particular.

Dan Polsky, former N. F. A. star, and now a member of the Brown squad, did not see service. He is laid up with a bum leg. However, several of this year's Academy team saw him before the game warming up.

The Academy remaining contributions to the varsity football world, Mart Gilman and Pheno Tombari at Conn. Aggies saw considerable service at guard and end, respectively. The Storrs outfit lost to Springfield college 31 to 21.

The usual dedication luck followed Bulkeley at New London Saturday, when formally opening Mercer field, their new athletic plant, South Manchester won 6 to 0. According to some who went from here, the game was of a very ragged nature, both teams showed poor football at times. Bulkeley rallied in the last quarter and almost put over their first score of th eyear in four games but fell short by about 15 or 20 yards.

The grid season was opened with the first game of the Eastern Conn.-Western Rhode Island council Saturday at Stonington. Stonington went out on top in this loop by trouncing Chapman Tech 31 to 6. Cragan and Cronin played well for the winners.

The Academy is in for a stiff week's work in preparation for the important tilt with Warren Harding high of Bridgeport here Saturday. Plenty of interest is attached this meeting and the largest crowd is expected.

Jim Williams and Fred Schwartz played with the Conn. Aggie freshman in their opening game Saturday. Williams was at halfback and Schwartz at center. The latter went the whole route. Leo Fisher, star halfback for Warren Harding last year and also stellar shortston, played fine ball for the Storrs bunch in downing the New Haven's Boy's club.

40 STUDENTS OF GEORGIA TECH UNDER ARREST

ATLANTA, Oct. 16—(AP)—The names of 40 Georgia Tech freshmen on the police register constituted the only remaining evidence of the efforts of 1,500 jubilant students to "take the town" Saturday night in celebrating Georgia Tech's football victory over Alabama.

The combined efforts of the police department, the fire department and a tear gas squad were necessary to subdue the 1,500 or more youngsters.

Forty of the participants were booked at headquarters on charges of disorderly conduct, but were released on minimum bonds and raced madly back to join those who still carried on despite authorities.

Tea gas bombs were released in the mob of students to break their ranks, and then firemen turned fire hose on the exurberant youngsters to complete the rout, as the two score were corralled and sent to police headquarters.

Police department heads today announced that they would recommend the organization of a reserve squad sufficient to cope with similar situations and restrain youthful exuberance.

INTRUDED THE HOME OF MRS. EDITH R. M'CORMICK

CHICAGO, Oct. 16—(AP)—Michael Halallack, who claims to have been recently released from the Iowa State prison, created a furor at the Chicago home of Mrs. Edith Rockefeller McCormick today, while she was entertaining Prince William of Sweden.

Halallack, carrying a steel, leather covered cane, became violent when refused admission by the attendants, and the police were called. He told the police that Mrs. McCormick gave him an invitation to call at her home, when he was released. "I was working in the prison chair factory, when we met," he declared at the police station.

The intruder was taken to the bureau of identification and will probably be sent to the psychopathic hospital for observation.

TEXTILES ARE IRREGULAR IN OUTPUT; FALL EXPANSION OF BUSINESS IS SLOW

NEW YORK, Oct. 16—(AP)—Signs of gathering momentum were a little more numerous in the business situation last week, but the long-expected fall expansion had not yet overcome the sluggishness of its start. Progress was made in many lines of industry, but in most instances it was so slight that lines on the charge of commerce appeared almost horizontal. Business as a whole was surrounded by an atmosphere of marking time, as if waiting for some major development which, in view of some commentators might be the resumption of full time operations in the Ford plants.

The tardiness of the hoped-for improvement of the steel trade was attributed largely to the absence of motor car makers from the market for sheets. Sagging prices accompanied this want of buying. The inquiry for steel rails was brisk, but in September steel orders lagged behind shipments with the result that unfilled orders held by the U. S. Steel corporation at the end of the month dropped back to the approximate level of the close of July.

Shipments of grain and merchandise contributed to another increase in revenue freight loadings, but the daily average still was marked by failure to come up to the figures of last year. Soft coal production increased, following the end of the strike of bituminous miners in Illinois and Indiana, and there was a slight softening of prices in the middle west. Hopes were held out that striking miners in the Ohio fields would return to work in the near future.

While there was an increasing tendency in crude petroleum, the oil trade displayed little of the nervousness whic hit felt during the earlier months of the year. Overproduction undoubtedly remains a large factor in the oil industry, but with concerted efforts to combat it, there is less pessimism, and fewer references to the "crisis" are voiced.

Slight improvement was recorded in the lumber trade, both in demand and production. The figures both of the preceding week and the corresponding period of last year were exceeded.

Textiles displayed numerous irregularities in output, as well as in price. The cotton goods branch was particularly unsettled in view of the wide and erratic fluctuations in the speculative cotton market. Retail sales were brisk, considering unseasonable weather in many sections of the country.

Improvement in corn and spring wheat was set forth in government reports during the week, and prices were slightly under those of the week before. Exports in both grains lagged behind such shipments in the preceding period.

There was little change in the credit situation aside from a stiffening of call money rates toward the end of the week. This tendency, however, was attributed to the calling of loans by banks to meet temporary demand for funds for interest and dividend payments, rather than any imminence of a credit stringency.

Due to the brief business week, bank clearings fell off sharply from the week before, but a substantial gain was recorded over the corresponding period of last year, which also was interrupted by a holiday. Bank debits likewise gained over 1926, and dropped away from the preceding week.

Notice to Architects

In conformity with the provisions of Section 64 of the General Statutes, Revision of 1918, "An Act Regulating the Employment of Architects on Public Buildings," architects are hereby invited to submit competitive plans for **Buildings to be erected at Mansfield State Training School and Hospital at Mansfield Depot, Connecticut.**

General Requirements:

Item 1. A Dormitory for 100 boys. Two stories and basement. Dormitories, day rooms, twelve single rooms 10x12, office, lavatories, bathrooms, clothes rooms, broom closets. Floors, tile over cement. This building to be heated from central heating plant.

Item 2. A Pavilion for contagious cases. Foundation is already in place. This building is to be one story with its own heating plant. Half glass partitions arranged with a bath and toilet between each room, and to accommodate twenty patients. Floors, tile.

Costs, including architect's fees, not to exceed as follows: Item 1. $100,000; Item 2. $24,000.

For further particulars address Dr. Charles T. LaMoure, superintendent, Mansfield Depot, Connecticut.

The architect of the plans selected by the committee in charge will be employed to prepare the working drawings and specifications and to superintend the construction of the buildings. For his compensation he will receive the commission authorized by the American Institute of Architects. No compensation will be paid for plans not finally accepted.

An estimate of cost from some reliable contractor will be required to be submitted with each plan. All plans must be signed by the architect and deposited with the Comptroller of the State at his office in the Capitol, City of Hartford not later than November 21, 1927, at 12 o'clock noon.

The committee in charge, in accordance with law, will give a public hearing on said plans in Room 8, State Capitol, on Monday, November 28, at 11 o'lock a. m.

The right is reserved to reject any or all bids.

Dated at Hartford, Connecticut, October 15, 1927.

FREDERICK M. SALMON,
Comptroller

Peter Goes Spying

The truth if this there's no denying:
The world has little use for spying.
—Old Mother Nature.

Peter couldn't think of anything but the fact that little Mrs. Peter appeared to be perfectly happy in the dear Old Briar-patch, despite the fact that he had left her. Then when he heard that there was a handsome young rabbit about he right away became jealous. No, sir, he would not have admitted it, even to himself. But he was jealous, and growing more so every day.

Peter was losing his appetite, and when he loses his appetite you may know that he is very much upset indeed. Yes, sir, Peter is very, very much upset when he loses his appetite.

"I'm just going to run over there to the dear Old Briar-patch and see how things are for myself," said he. "Mrs. Peter told me that I needn't come back, and I won't really go back. I'll take care that she doesn't see me. But I really must know for myself how she is getting along. Perhaps she isn't looking so well as I've heard she is. I really feel as if I ought to find out for myself."

So, just as soon as the black shadows came creeping out from the purple hills that evening Peter started back for the dear

EARLY MORNING FIRE, NEW LONDON, GETS MEN OUT TWICE TO CONQUER IT

(Special to The Bulletin)

NEW LONDON Oct. 16—Ef's restaurant, 165 Main street, was threatened with serious damage by fire early this morning and but for the timely discovery of the blaze the eating place would probably have been wiped out. The fire was discovered shortly after 2 o'clock after the restaurant had closed for the night. Smoke was pouring from the building and an alarm was sent in from Box 15 corner of Main and Federal streets. Deputy Chief Calvin Edmunds and the Nameaug Engine company, Konomoc Aerial ladder, Northwest and Thomas Hose companies responding. The fire was located between the partitions of the kitchen and was making its way to the living apartments above when the firemen arrived. A liberal quantity of chemicals was believed to have extinguished the fire 15 minutes after it was discovered and the firemen sent back to quarters, but because of residents occupying the upper floors, a fireman was left on duty in the restaurant in case the fire should break out again. A short time after the firemen had returned to quarters the watchman detected a peculiar sound and investigating, discovered that the fire was still in progress. A still alarm brought Deputy Chief Edmunds and the Nameaug Engine company back to the building. Another deluge of chemicals this time subdued the fire.

PATROLMAN IVERSON FALLS WHILE ON DUTY IN PLANT BLDG.

(Special to the Bulletin)

NEW LONDON, Oct. 16—Patrolman Albert Iverson sustained painful injuries last night when he fell about 15 feet while performing duty at Plant hall. He is now a patient at Lawrence Memorial hospital suffering from severe abrasions of the scalp and body bruises. Iverson was detailed to perform special duty at the hall where a dance was in progress. About 10 o'clock while seated on a railing, together with a chief petty officer, Iverson lost his balance and was pushed over the side of the railing, landing on the stairs below. Patrolman William Corcoran, also on duty there went to his assistance and realizing that Iverson was in need of medical attention, had him taken to police headquarters where he was examined by City Physician George P. Cheney. The physician after giving Iverson emergency treatment, ordered him taken to the hospital. Judging from the officer's condition today, Iverson will be a patient a[illegible] but a few days.

MABREY HOTEL IS SOLD BY ITS LATEST OWNER

(Special to The Bulletin)

NEW LONDON, Oct. 16—The Mabrey house, Ocean Beach one of the most sightly of the hotels at the shore resort, was sold Saturday by Joseph Sigal to Angela Carini, of Glastonbury. The purchaser then transferred title to the realty to Henry J. Carini, also of Glastonbury, who will conduct the summer hostelry next season. The Mabrey house is located at the corner of Neptune avenue and Park street.

This house was built by the late Louis and Elizabeth Dill Mabrey of Norwich, was several times enlarged and greatly improved by the original owners. Following the death of both, it was leased for a season by the executor of their estate, Frank L. Arnold of Norwich to Mrs. Charles Foley, of New London. The next season Mr. Arnold sold the property for the heirs, Mrs. Jessie Mabrey, widow, of Wisconsin, Prof. Fred D. Mabrey of Englewood, N. J., Mrs. Ernest G. Champion of Renton, Wash., and Nelson Lee Mabrey of Milton, Penn.
